COMMISSIONER OF ADMINISTRATION

July 28, 2005

**ISIS Memorandum 06-004**

To: Employee Administrators  
Human Resources Directors

Subject: New Date Type – Medi Opt-In Date

A new date type, *Medi Opt-In Date*, is now available for use on Infotype 0041 (Date Specifications). This date type must be created for any employee who voted “yes” in a Medicare Divided Vote Referendum. This includes any employee who is rehired or transferred into your agency that elected to become a Medicare participant. The date value associated with this date type must be the same as the effective date listed on the official ballot used in the referendum. The existence of this date type on IT 0041 will aid in validating the selection criteria for the employee’s tax model.

The Flexible Employee Data Report (ZP135), the Date Specifications Report (ZP25) and applicable help scripts have been updated to include this new date type.
