Subject: LEO and Microsoft Internet Explorer 7.0

SAP has released the patches to resolve problems with the latest version of Internet Explorer, IE 7.0. The patches have been installed, tested, and applied to LEO.

There is one outstanding problem with LEO when using IE 7.0. The salary graph available for employees with Manager Self Service permissions does not display. We will advise you when this problem is resolved.

If you have questions, please contact the ISIS Help Desk at (225) 342-2677.
