Travel Administrators

Subject: Upgrade Changes

Effective **Monday, March 19, 2007**, the ISIS HR system's SAP Software will have been upgraded to ERP 2005. This memo includes changes you can expect to see.

One significant field label change has occurred.

In the Org Management segment, the *Agency* field on the Acct Assignment Infotype is now referred to as *Business Area*. This change will also be seen on the Organizational Assignment infotype in Personnel Management.

Some reports now offer a flexible output layout. If you encounter any problems when reviewing the output, refer to the report descriptor for more information. The Claims Processing Report (PC00_M10_CLAIMS), as a result of this layout change, no longer page breaks at personnel number when printed.

The Variant Attribute screen has also changed slightly. Refer to the ISIS HR Reports Manual for further information on saving variants in the upgraded system.

Questions, if any, should be directed to the ISIS Help Desk at (225) 342-2677.
