ISIS Memorandum 08-019

To: Business Objects Users
ISIS Agency Liaisons
Fiscal Officers
Purchasing & Contract Management Personnel

Subject: Business Objects Migration to Enterprise XI / Release 2

The OIS Lagniappe Team is in the process of upgrading Business Objects from version 6.5.4 to B.O. Enterprise XI/Release 2.

All current Business Objects 6.5.4 functionality in ZABO & Webi remains, with the following exceptions:

- **ZABO users** - We have disabled your ability to publish reports to Corporate Documents until the upgrade is complete. Continue to save your ZABO reports in your user docs folder on your hard drive.
- **Webi users** - We have disabled your ability to save reports to Corporate Documents until the upgrade is complete. Continue to save your Webi reports to your InfoView Personal Documents.

New and changed reports may be shared with other users in your agency/department by sending the report to a user's Business Objects Inbox.

- [Click here](#) for instructions on sending ZABO reports to another user.
- [Click here](#) for instructions on sending Webi reports to another user.

Continue checking the [OIS Adhoc Reporting with Business Objects](#) webpage for status information on this upgrade project.

If you have any questions, please contact the ISIS Help Desk at (225) 342-2677.
