Subject: New LaGov AGILE Error Reports

Several new reports are now available in LaGov for reconciling AGILE Work Order errors that occur from time to time. The following list of error reports will provide more detailed information concerning why a work order from AGILE did not interface correctly to LaGov ECC.

**[ZLO1429 - Agile Material Day Card Error Report](#)**

The purpose of this report is to keep the Agile Assets material day cards in sync with the LaGov Materials Management goods movements for Agile work orders. Use this report to view errors that occurred in the Agile interface and correct those errors in either Agile Assets or LaGov ECC as needed. It is recommended this report be run daily.

**[ZLO1430 - Agile Equipment Day Card Error Report](#)**

This report is intended to help keep the Agile Assets equipment day cards in sync with the LaGov Plant Maintenance equipment usages for Agile work orders. Use this report to view errors that occurred in the Agile interface and correct those errors in either Agile Assets or LaGov, whichever is necessary. It is recommended this report be run daily.

**[ZLO1431 - Agile Work Order Error Report](#)**

The primary purpose of this report is to keep the Agile Assets Work Orders in sync with the LaGov Plant Maintenance PMAG Work Order type for Agile work orders cost collection. Use this report to view errors that occurred in the Agile interface and correct those errors in either Agile Assets or LaGov as needed. It is recommended this report be run daily.

**[ZLO1432 - Agile Equipment Master Error Report](#)**

The primary purpose of this report is to validate Equipment Master, Controlled Asset Notification, and FEMA Activity Type master data before sending to Agile Assets, in order to prevent problems in the Agile-ECC interface. Use this report to view problems with the master data, and correct those errors in ECC. It is recommended this report be run daily.

If you have any questions, please submit a [LaGov Help Desk Ticket](#).
