DIVISION OF ADMINISTRATION

OFFICE OF TELECOMMUNICATIONS MANAGEMENT

M. J. "MIKE" FOSTER, JR.
GOVERNOR

MARK C. DRENNEN
COMMISSIONER OF ADMINISTRATION

October 22, 2002

TELECOMMUNICATIONS INFORMATION NOTICE NUMBER **02-06**

SUBJECT: **Data Dial Tone**

The Office of Telecommunications Management (OTM) will provide Local Area Network Services to state agencies in designated buildings. Initially, this service will be provided in the Capitol Park Complex in downtown Baton Rouge. This line of service is called "Data Dial Tone" and will provide subscribers with secure TCP/IP Ethernet services for connectivity between end-users and agency data resources at one of the shared data centers in Baton Rouge. All subscribers will participate in the private State intranet. Internet access is also available.

For a complete description of the Data Dial Tone line of service, please see OTM's web page at www.state.la.us/otm/otm.htm. There are several prerequisites to subscribing to this line of service.

Data Dial Tone Rates

<u>Description</u>	<u>Monthly Rate</u>
Desktop Access	\$31.00 per port
Internal Network Access	\$950.00 per 10/100 Ethernet connection
	\$2,850.00 per gigabit Ethernet connection

Desktop access is used for PCs, network printers and in-building servers. Internal network access is used between agency access switches at either of the two designated data centers, or for connectivity to OTM aggregation switches in a building served by Data Dial Tone. Internal network access is optional and use depends on an agency's need.

LaNet via Data Dial Tone Rates (Internet Access)

Agencies will purchase LaNet (Internet) access for their collective users on a bandwidth subscription basis. The subscription will be controlled and rate-limited by IP subnet. For example, if Agency A uses subnet 10.30.0.0 and purchases 12 Mbps of bandwidth for its users, the 10.30.0.0 subnet would be rate-limited to a total of 12 Mbps of Internet access.

<u>Description</u>	<u>Monthly Rate</u>
Data Dial Bandwidth 1.5 Mb	\$337.50
Data Dial Bandwidth 3 Mb	\$675.00
Data Dial Bandwidth 4.5 Mb	\$1,012.50
Data Dial Bandwidth 6 Mb	\$1,350.00
Data Dial Bandwidth 9Mb	\$2,025.00

Data Dial Bandwidth 12 Mb	\$2,700.00
Data Dial Bandwidth 15 Mb	\$3,375.00
Data Dial Bandwidth 18 Mb	\$4,050.00
Data Dial Bandwidth 21 Mb	\$4,725.00

Data Dial Tone Add/Move/Change Rates

There are no setup or installation charges for initial establishment of Data Dial Tone service in a new building. However, there are fees associated with adding, moving, or changing features once service is initially established.

<u>Description</u>	<u>Rate</u>	
Add New Desktop User	\$26.50	
Disconnect Desktop User	No Charge	
Move Desktop User	\$26.50	Within the same building or location
Premise Visit	\$79.00	A minimum of one premise visit charge will apply for Adds and Moves. An agency may submit requests for multiple Adds or Moves on a single order.
Change Port Feature	\$26.50	Move user from one VLAN to another

Other charges may apply depending upon complexity of the change. Agency should submit requests to the OTM Customer Service Section and OTM will prepare an estimate of charges for agency review prior to execution of work.

Data Dial Tone DMZ Service Rates

Agencies that subscribe to Data Dial Tone and offer Internet services on publicly accessible servers must subscribe to Data Dial Tone DMZ services. Agency public servers are placed in a secured De-Militarized Zone (DMZ) and are protected by OTM-provided firewalls. An agency may connect its public servers to the DMZ switch—in which case the agency will purchase an access port for each server located within the DMZ network. As an alternative, the agency may connect its own DMZ switch to OTM's DMZ switch and pay for that switch-to-switch connection. In either case, in addition to the access port(s), the agency will purchase bandwidth for its collective group of servers located within the DMZ network.

<u>Description</u>	<u>Monthly Rate</u>	
DMZ Access Port 10/100 Ethernet	\$475.00	per port
DMZ Gigabit Ethernet	\$1,425.00	per port
DMZ Bandwidth 1.5 Mb	\$337.50	
DMZ Bandwidth 3 Mb	\$675.00	
DMZ Bandwidth 4.5 Mb	\$1,012.50	
DMZ Bandwidth 6 Mb	\$1,350.00	
DMZ Bandwidth 9 Mb	\$2,025.00	
DMZ Bandwidth 12 Mb	\$2,700.00	
DMZ Bandwidth 15 Mb	\$3,375.00	
DMZ Bandwidth 18 Mb	\$4,050.00	
DMZ Bandwidth 21 Mb	\$4,725.00	

The OTM *Catalog of Services* was revised to reflect these changes and may be accessed on the OTM web site at www.doa.state.la.us/otm/catalog.pdf. If your agency does not have access to the Internet and is unable to print the catalog locally, please contact the OTM Information and Training Section for assistance at 225-342-7723.
