State of Louisiana
Division of Administration
Office of Information Services

November 5, 2008

ISIS Memorandum 09-012

To: Business Objects Users
ISIS Agency Liaisons
ISIS Training Coordinators
Fiscal Officers
Purchasing & Contract Management Personnel

Subject: Business Objects Enterprise XI Implementation Deadline Reminder

Business Objects Enterprise XI (BOXI) is now the standard reporting tool offered by the Division of Administration for ad hoc reporting. All Business Objects reporting should be conducted in BOXI. Business Objects 6.5.4 remains available until **January 5, 2009**, to validate report conversion. At that time **BO 6.5.4 WebI and ZABO will no longer be accessible**. Once you have verified your reports have converted properly, email the [OIS Lagniappe Team](#) so your conversion status can be updated.

Remember, **changes made to BO 6.5.4 reports after June 12, 2008, will not be reflected in BOXI**. The [Welcome to Business Objects XI](#) web page has been updated with new User Guides, FAQs, and resource documents to assist you with this transition. BOXI training is being offered through online training only. A web ticket requesting a training ID may be submitted through the OIS home page.

If you are unable to log on to BOXI or have any questions, please contact the ISIS Business Objects Help Desk at (225) 342-2677.
