APPROPRIATIONS: Provides for the ordinary operating expenses of state government for Fiscal Year 2009-2010

AN ACT

Making appropriations for the ordinary expenses of the executive branch of state government, pensions, public schools, public roads, public charities, and state institutions and providing with respect to the expenditure of said appropriations.

Be it enacted by the Legislature of Louisiana:

Section 1. The appropriations in this Act from state revenue shall be payable out of the sources specified and shall be limited by the provisions of Article VII, Section 10(D) of the Louisiana Constitution.

Section 2. All money from federal, interagency, statutory dedications, or self-generated revenues shall be available for expenditure in the amounts herein appropriated. Any increase in such revenues shall be available for allotment and expenditure by an agency on approval of an increase in the appropriation by the commissioner of administration and the Joint Legislative Committee on the Budget. Any increase in such revenues for an agency without an appropriation from the respective revenue source shall be incorporated into the agency's appropriation on approval of the commissioner of administration and the Joint Legislative Committee on the Budget. In the event that these revenues should be less than the amount appropriated, the appropriation shall be reduced accordingly. To the extent that such funds were included in the budget on a matching basis with state funds, a corresponding decrease in the state matching funds may be made. Any federal funds which are classified as disaster or emergency may be expended prior to approval of a BA-7 by the Joint Legislative Committee on the Budget upon the secretary's certifying to the governor that any delay would be detrimental to the state. The Joint Legislative Committee on the Budget shall be notified in writing of such declaration and shall meet to consider such action, but if it is found by the committee that such funds were not needed for an emergency expenditure, such approval may

be withdrawn and any balance remaining shall not be expended.

Section 3.A. Notwithstanding any other law to the contrary, the functions of any department, agency, program, or budget unit of the executive branch, except functions in departments, agencies, programs, or budget units of other statewide elected officials, may be transferred to a different department, agency, program, or budget unit for the purpose of economizing the operations of state government by executive order of the governor. Provided, however, that each such transfer must, prior to implementation, be approved by the commissioner of administration and Joint Legislative Committee on the Budget. Further, provided that no transfers pursuant to this Section shall violate the provisions of Title 36, Organization of the Executive Branch of State Government.

B. In the event that any agency, budget unit, program, or function of a department is transferred to any other department, agency, program, or budget unit by other Act or Acts of the legislature, the commissioner of administration shall make the necessary adjustments to appropriations through the notification of appropriation process, or through approval of mid-year adjustments. All such adjustments shall be in strict conformity with the provisions of the Act or Acts which provide for the transfers.

C. Notwithstanding any other law to the contrary and before the commissioner of administration shall authorize the purchase of any luxury or full-size motor vehicle for personal assignment by a statewide elected official other than the governor and lieutenant governor, such official shall first submit the request to the Joint Legislative Committee on the Budget for approval. Luxury or full-sized motor vehicle shall mean or refer to such vehicles as defined or used in rules or guidelines promulgated and implemented by the Division of Administration.

D. Notwithstanding any provision of law to the contrary, each agency which has contracted with outside legal counsel for representation in an action against another agency, shall submit a detailed report of all litigation costs incurred and payable to the outside counsel to the commissioner of administration, the legislative committee charged with oversight of that agency, and the Joint Legislative Committee on the Budget. The report shall be submitted on a quarterly basis, each January, April, July, and October, and shall include all litigation costs paid and payable during the prior quarter. For purposes of this Subsection, the term "litigation expenses" shall mean court costs and attorney fees of the agency and of the other party if the agency was required to pay such costs and fees. The commissioner of administration shall not authorize any payments for any such

contract until such report for the prior quarter has been submitted.

Section 4. Each schedule as designated by a five-digit number code for which an appropriation is made in this Act is hereby declared to be a budget unit of the state.

Section 5.A. The program descriptions, account descriptions, general performance information, and the role, scope, and mission statements of postsecondary education institutions contained in this Act are not part of the law and are not enacted into law by virtue of their inclusion in this Act.

B. Unless explicitly stated otherwise, each of the program objectives and the associated performance indicators contained in this Act shall reflect the key performance standards to be achieved for the 2009-2010 Fiscal Year and shall constitute the set of key objectives and key performance indicators which are reportable quarterly for Fiscal Year 2009-2010 under the Louisiana Governmental Performance and Accountability Act, particularly R.S. 39:2(23) and (24) and R.S. 39:87.3. In the event that a department, agency, program, or governing board or commission is directed by language in this Act to prepare and submit new or modified performance information, including but not limited to key and supporting objectives, performance indicators, and performance standards, such submission shall be in a format and method to be determined by the commissioner of administration. Unless otherwise specified in this Act, the submission of new or modified performance information shall be made no later than August 15, 2009. Such performance information shall be subject to the review and approval of both the Division of Administration and the Joint Legislative Committee on the Budget, or a subcommittee thereof.

Section 6. Unless expressly provided in this Act, funds cannot be transferred between departments or schedules receiving appropriations. However, any unencumbered funds which accrue to an appropriation within a department or schedule of this Act due to policy, programmatic, or cost-saving/avoidance measures may, upon approval by the commissioner of administration and the Joint Legislative Committee on the Budget, be transferred to any other appropriation within that same department or schedule. Each request for the transfer of funds pursuant to this Section shall include full written justification. The commissioner of administration, upon approval by the Joint Legislative Committee on the Budget, shall have the authority to transfer between departments funds associated with lease agreements between the state and the Office of Facilities Corporation.

Section 7. The state treasurer is hereby authorized and directed to use any available funds on deposit in the state treasury to complete the payment of General Fund appropriations for the

Fiscal Year 2008-2009, and to pay a deficit arising there from out of any revenues accruing to the credit of the state General Fund during the Fiscal Year 2009-2010, to the extent such deficits are approved by the legislature. In order to conform to the provisions of P.L. 101-453, the Cash Management Improvement Act of 1990, and in accordance with the agreement to be executed between the state and Financial Management Services, a division of the U.S. Treasury, the state treasurer is hereby authorized to release checks drawn on federally funded appropriations prior to the receipt of funds from the U.S. Treasury.

Section 8.A.(1) The figures in parentheses following the designation of a program are the total authorized positions for that program. If there are no figures following a department, agency, or program, the commissioner of administration shall have the authority to set the number of positions.

(2) Any transfer of personnel pursuant to the authority of this Act or any other law shall be deemed a transfer of the position from the original budget entity to the budget entity to which such personnel are transferred. Notwithstanding any law to the contrary, the secretary of a department may transfer, with the approval of the commissioner of administration via midyear budget adjustment (BA-7 Form), up to twenty-five (25) authorized positions and associated personal services funding if necessary from one budget unit to any other budget unit and/or between programs within any budget unit within this schedule. No positions and associated personal services may be transferred between budget units and/or programs within a budget unit without the approval of the Joint Legislative Committee on the Budget.

(3) The commissioner of administration, upon approval of the Joint Legislative Committee on the Budget, shall have the authority to transfer positions between departments, agencies, or programs or to increase or decrease positions and associated funding necessary to effectuate such transfers.

(4) The number of authorized positions approved for each department, agency, or program as a result of the passage of this Act may be increased by the commissioner of administration in conjunction with the transfer of functions or funds to that department, agency, or program when sufficient documentation is presented and the request deemed valid.

(5) The number of authorized positions approved in this Act for each department, agency, or program may also be increased by the commissioner of administration when sufficient documentation of other necessary adjustments is presented and the request is deemed valid. The

total number of such positions so approved by the commissioner of administration may not be increased in excess of three hundred fifty. However, any request which reflects an annual aggregate increase in excess of twenty-five positions for any department, agency, or program must also be approved by the Joint Legislative Committee on the Budget.

(6) Any employment freezes or related personnel actions which are necessitated as a result of implementation of this Act shall not have a disparate employment effect based on any suspect classification, i.e., race, sex, color, or national origin or any negative impact upon the Equal Employment proposition as set out in the"McDonnell Douglas Test" or Title VII of the 1964 Civil Rights Act, as amended.

(7) The commissioner of administration is hereby directed to develop a comprehensive study of the state workforce encompassing each department, agency, and program of state government funded by this Act and the Ancillary Appropriation Act. Based on the completed study, the commissioner shall recommend reductions to state employment. Such recommendations shall be submitted to the Joint Legislative Committee on the Budget by November 1, 2009, and shall include a plan for implementation in the Fiscal Year 2011 Executive Budget.

B. Orders from the Civil Service Commission or its designated referee which direct an agency to pay attorney's fees for a successful appeal by an employee may be paid out of an agency's appropriation from the expenditure category professional services; provided, however, that an individual expenditure pursuant to this Subsection may not exceed $1,500 in accordance with Civil Service Rule 13.35(a).

C. The budget request of any agency with an appropriation level of thirty million dollars or more shall include, within its existing table of organization, positions which perform the function of internal auditing.

D. In the event that any cost assessment allocation proposed by the Office of Group Benefits becomes effective during Fiscal Year 2009-2010, each budget unit contained in this Act shall pay out of its appropriation an amount no less than 75% of total premiums for all active employees and those retirees with Medicare in accordance with R.S. 42:851(A)(1) for the state basic health insurance indemnity program.

E. In the event that any cost allocation or increase adopted by the Joint Legislative Committee on Retirement as recommended by the Public Retirement Systems' Actuarial Committee becomes effective before or during Fiscal Year 2009-2010, each budget unit shall pay out of its

appropriation funds necessary to satisfy the requirements of such increase.

F. Notwithstanding any law to the contrary, the commissioner of administration, upon review and approval by the Joint Legislative Committee on the Budget, is authorized to adjust the allocation of the State Fiscal Stabilization Fund and state funds among departments, agencies, and programs to reduce the impact to the state in future fiscal years or to adjust the maintenance of effort to satisfy the requirements for the State Fiscal Stabilization Fund. Such adjustments shall not change the total amount appropriated to the departments, agencies and programs.

Section 9. In the event the governor shall veto any line-item of expenditure and such veto shall be upheld by the legislature, the commissioner of administration shall withhold from the department's, agency's, or program's funds an amount equal to the veto. The commissioner of administration shall determine how much of such withholdings shall be from the state General Fund.

Section 10.A. Pursuant to Article IV, Section 5(G)(2) and Article VII, Section 10(F) of the constitution, if at any time during Fiscal Year 2009-2010 the official budget status report indicates that appropriations will exceed the official revenue forecast, the governor shall have full power to reduce appropriations in accordance with R.S. 39:75.

B. The governor shall have the authority within any month of the fiscal year to direct the commissioner of administration to disapprove warrants drawn upon the state treasury for appropriations contained in this Act which are in excess of amounts approved by the governor in accordance with R.S. 39:74.

C. The governor may also, and in addition to the other powers set forth herein, issue executive orders in a combination of any of the foregoing means for the purpose of preventing the occurrence of a deficit.

Section 11. Notwithstanding the provisions of Section 2 of this Act, the commissioner of administration shall make such technical adjustments as are necessary in the interagency transfers means of financing and expenditure categories of the appropriations in this Act to result in a balance between each transfer of funds from one budget unit to another budget unit in this Act. Such adjustments shall be strictly limited to those necessary to achieve this balance and shall in no way have the effect of changing the intended level of funding for a program or budget unit of this Act.

Section 12.A. For the purpose of paying appropriations made herein, all revenues due the state in Fiscal Year 2009-20010 shall be credited by the collecting agency to Fiscal Year 2009-2010 provided such revenues are received in time to liquidate obligations incurred during Fiscal Year

Section 14. Pay raises or supplements provided for by this Act shall in no way supplant any local or parish salaries or salary supplements to which the personnel affected would be ordinarily entitled.

Section 16. Each submission must include full justification of the transaction requested, but submission in accordance with this deadline shall not be the sole determinant of whether the item is actually placed on the agenda for a hearing by the Joint Legislative Committee on the Budget. Transactions not submitted in accordance with the provisions of this Section shall only be considered by the commissioner of administration and Joint Legislative Committee on the Budget when extreme circumstances requiring immediate action exist.

17(A). In addition, and prior to making such expenditure, the transferring agency shall require each recipient to agree in writing to provide written reports to the transferring agency at least every six months concerning the use of the funds and the specific goals and objectives for the use of the funds. In the event the transferring agency determines that the recipient failed to use the funds set forth in its budget within the estimated duration of the project or failed to reasonably achieve its specific goals

and objectives for the use of the funds, the transferring agency shall demand that any unexpended funds be returned to the state treasury unless approval to retain the funds is obtained from the division of administration and the Joint Legislative Committee on the Budget. Each recipient shall be audited in accordance with R.S. 24:513. If the amount of the public funds received by the provider is below the amount for which an audit is required under R.S. 24:513, the transferring agency shall monitor and evaluate the use of the funds to ensure effective achievement of the goals and objectives.

(2) Transfers to public or quasi-public agencies or entities that have submitted a budget request to the division of administration in accordance with Part II of Chapter 1 of Title 39 of the Louisiana Revised Statutes of 1950 and transfers authorized by specific provisions of the Louisiana Revised Statutes of 1950 and the Constitution of the State of Louisiana to local governing authorities shall be exempt from the provisions of this Subsection.

(3) Notwithstanding any other provision of law or this Act to the contrary, if the name of an entity subject to Paragraph (B) of this Section is misspelled or misstated in this Act or any other Act, the state treasurer may pay the funds appropriated to the entity without obtaining the approval of the Joint Legislative Committee on the Budget, but only after the entity has provided proof of its correct legal name to the state treasurer and transmitted a copy to the staffs of the House Committee on Appropriations and the Senate Committee on Finance.

RE: House Bill No. 1 of the 2009 Regular Session of the Legislature
Provide for the ordinary operating expenses of state government for Fiscal Year 2009-2010

Dear Gentlemen:

As authorized by Article III, Section 18(B), and more particularly, Article IV, Section 5(G)(1) of the Constitution of Louisiana, I have exercised my right to veto 563 items of the General Appropriation Bill. I respectfully request that you deliver on my behalf the following message to the members of the Legislature:

Even as Louisiana's economy continues to out-perform the national economy and the South, we know we are not immune to the current national economic downturn. These economic forces, combined with significant declines in the prices of oil and natural gas and the leveling off of the post-hurricane economic boom, contributed to significantly lower revenues to state government and required meaningful reductions in the FY 09-10 budget.

But just like any family or business living within its means, a tighter budget for state government represents not just a challenge to live within our means, but an opportunity to think strategically, prioritize what is essential, and plan ahead by pursuing reforms and innovations that will strengthen our state for years to come.

Many of the critical steps in tightening the belt of state government began months before the start of the 2009 Legislative session. Departments were asked to evaluate their spending and to analyze the performance of programs within their agency to isolate those low-performing programs that could be targeted for strategic reductions in funding. Agencies were then asked to submit strategic priority plans, and for the first time in the history of the budget, they were also asked to provide meaningful performance data on the activities being funded through their agencies. These priority planning and performance review efforts helped ensure that spending reductions were targeted and prioritized, instead of implementing blanket across-the-board cuts with no account of a program's importance or performance history. This review process also helped departments identify critical services they wanted to protect from severe funding reductions.

Through this thorough evaluation of current spending, the FY 09-10 budget includes targeted cost savings across state government that streamline government and increase efficiencies of service. In many instances, these savings came as a result of reforming policy, by consolidating offices and functions, and by downsizing or eliminating some programs and halting the expansion or creation of new programs.

Even as we tighten our belt in state government, we will absolutely not waiver from our commitment to continue moving Louisiana forward. The FY 09-10 budget protects and continues our investment in ethics reform and transforming our workforce development system, while also maintaining the state's commitment to strategic investments in health care, education, economic development, public safety, and other critical areas.

Working closely with the Legislature, we also took steps to mitigate reductions to higher education and healthcare and to give us an opportunity to prepare for continuing budget challenges in the years ahead.

Prior to House concurrence with the Senate-passed House Bill No. 1, we informed House leaders that we would veto everything in the bill contingent upon funding from the Insure Louisiana Incentive Program Fund, from the Budget Stabilization fund, and from delaying planned tax relief. The House did not approve the latter, and we have been informed by Senate staff that funding tied to all three sources was interdependent and could not be separated. We told leaders of our intentions because we wanted to be clear about our actions while we also worked with the Legislature to add funds back into the budget to aid higher education and health care through other appropriations bills.

This letter is to communicate that I have in fact vetoed those contingent items and others in House Bill No. 1, as follows:

These amendments provide for appropriations designated as "Supplementary Budget Recommendations" contingent on the abolishment of the Insure Louisiana Incentive Program Fund and an appropriation from the Budget Stabilization Fund, and upon the Delay of the Restoration of Excess Itemized Deductions and further contingent upon the recognition of additional revenue by the Revenue Estimating Conference. The Louisiana Constitution protects the security and integrity of the State Treasury by, among other means, requiring a balanced budget ("Appropriations by the legislature…shall not exceed the official forecast in effect at the time the appropriations are made." La Const. Art. VII, §10E) and prohibiting appropriations based on contingencies

("no appropriations shall be made under the heading of contingencies..." La Const. Art. III §16A) These amendments provide for appropriations in excess of the official forecast and are based on events, including the passage of legislation, which have not occurred. Therefore, I am vetoing these items.

VETO MESSAGE NO. 2

The Commission on Streamlining Government will make recommendations for streamlining state employees and agencies in the coming fiscal year and we want to include the input of this Commission, and the date included in this language precludes that. Additionally, the Commissioner will be making these recommendations to the Legislature as part of the Executive Budget submission process, and therefore, this language is duplicative and I am vetoing this item.

VETO MESSAGE NO. 4
