¹ Three (3) year limited warranty on electric motors ² Two (2) year limited warranty on electric motors ³ Maximum 1 replacement under Warranty

NEW MACHINE WARRANTY

Tennant Company warrants to the original purchaser, for the above-stated periods (whichever occurs first), that machines will be free from defects in workmanship and material, provided that machines are installed, operated, and maintained in accordance with Nobles written manuals or other instructions.

This warranty does not apply to damage or failure caused by accident, freight damage, misuse, negligence, abuse, improper repair, or maintenance of the machines. Please refer to the Operator Manual for proper machine operation and maintenance instructions.

The warranty period begins on the installation date at the end-user site. A Machine Installation/Warranty Report form included with the Operator Manual must be completed and returned immediately at the time of purchase. If proof of purchase is unavailable, the warranty begins ninety (90) days after original sale to an Authorized Nobles dealer.

Demonstrator machines purchased from Tennant carry the same warranty as a new machine.

LABOR AND TRAVEL WARRANTY

Tennant will, at its option, provide labor and travel or pay for outside repair for the above-stated periods.

PARTS WARRANTY

Parts replaced or repaired under this warranty are guaranteed for the remainder of the warranty period. The parts warranty on batteries is pro-rated from the Tennant Company shipping date. Consumable parts, expected to wear from normal use, are not covered under the parts warranty. These consumable parts include, but are not limited to: belts, drive chains, brushes, pad drivers, filters, squeegees, tires [pro-rated for one (1) year on rider machines], skirts, hand grips, battery cables, power cords, cord restraints, external hoses, vacuum bags, fuses and carbon brushes. Battery chargers and accessories are warranted for one (1) year.

REPAIR PARTS WARRANTY

After the warranty period expires, repair parts supplied by Tennant are warranted against defects for the period of ninety (90) days, with the exception of batteries. Lithium-Ion and Lead acid batteries are pro-rated for twelve (12) months. All AGM and Gel batteries are pro-rated for ninety (90) days. The repair parts warranty only covers parts, not labor or travel (see service labor section for terms).

SERVICE LABOR WARRANTY

Labor and travel performed by a Tennant service representative is warranted for thirty (30) days from the date the repairs are completed. This policy does not cover work performed by any service company other than Tennant, and is restricted to the specific repair operation or component for which a claim is made.

DISCLAIMER

TENNANT COMPANY EXPRESSLY DISCLAIMS ANY AND ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. NOBLES SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, WHETHER DIRECT OR INDIRECT, INCLUDING, BUT NOT LIMITED TO, BUYER'S LOSS OF MATERIAL OR PROFITS, INCREASED EXPENSE OF OPERATION, BODILY INJURY, LOSS OF USE OF PROPERTY OR DOWNTIME.

Tennant Company reserves the right to change its warranty policy without notice.

Carpet and Rug Institute (CRI) – Green Label Certified

To qualify for Green Label, vacuums and sweepers must go through stringent testing that measures soil removal, dust containment, and carpet appearance.

Carpet and Rug Institute (CRI) – Seal of Approval

To qualify for seal of approval, extractors must undergo stringent testing that measures soil removal, water removal, and texture retention.

National Floor Safety Institute – NFSI Certified

NFSI certification ensures a product has passed a 2-phase testing process, proving the floor product helps to reduce potential for slip-and-fall accidents.

Green Seal – GS-37 Certified Detergents

Green Seal evaluates and certifies cleaning products based on criteria such as the toxicity of the product, skin and eye irritation, skin sensitization, combustibility, toxicity to aquatic life, and packaging.

Registered by NSF International

NSF International is an independent, not-for-profit organization which registers compounds, such as cleaning agents, used in and around food establishments. NSF Registration ensures that formulation and labels on these products meet appropriate food safety regulations.

U.S. Green Building Council (USGBC) – LEED

USGBC created LEED (Leadership in Energy and Environmental Design®) to recognize U.S. standards for high-performance and sustainable building environments. The USGBC recognizes products that can contribute to LEED and LEED-EB (existing building) points. 

Underwriters Laboratories (UL)

Underwriters Laboratories is a United States nationally recognized testing laboratory.

ETL Testing Laboratories

ETL Testing Laboratories is a United States nationally recognized testing laboratory.

Nobles Cleaning Technologies

Your facility requires safe and effective cleaning technologies to get the results you and your staff demand. Tennant Company offers a full line of safe, supportive and innovative cleaning solutions.

ec-H2O™ – Release the Power of Water Detergent clean. Water safe.

ec-H2O™ electrically converts water to perform like a powerful detergent. This chemical-free technology removes the environmental and human health issues associated with daily cleaners; all while eliminating costly chemical purchases.

The result is a superior clean, healthier environment, increased employee safety and reduced operations costs.

FaST – The Safe Scrubbing Alternative®

FaST® stands for Foam-activated Scrubbing Technology. It was the first scrubbing system certified "high traction" by the National Floor Safety Institute – which means, when cleaning with FaST, floors have a higher traction, reducing the risk of slip-and-fall.

Green Seal certified

Nobles MP and MPD detergents are Green Seal certified – confirming they're environmentally safe cleaning agents.

With FaST technology you get...

No chemical residue, no chemical handling, and less waste.

Best of all, with FaST you get 3 times more non-stop, productive scrubbing – double the scrub time of most competitive scrubbers.

READYSPACE – More than clean, it's *ReadySpace*®

Carpets cleaned with ReadySpace are dry and ready for foot traffic in 30 minutes or less. Reopen rooms sooner and keep carpeted spaces beautifully clean and attractive. With ReadySpace, you achieve new levels of success.

SCRUBBERS

Robust, dependable and durable scrubbers, in various cleaning path widths, for high-traffic cleaning. Look for machines featuring ec-H2O™ or FaST® technologies. Ec-H2O™ electrically converts plain tap water into a powerful cleaning solution for chemical performance with earth-friendly results. FaST® is the safe scrubbing alternative, removing old, slippery detergent residue, FaST® increases floor traction by 21 percent.

SWEEPING BRUSHES

Tennant sweeping brushes are built to last. Manufactured with premium, heavy-duty raw materials and a unique spline drive system, these brushes last longer and ensure superior performance by efficiently transferring power from hub to brush.

Full-Fill – Designed with a dense pattern for trapping sand, dust and other fine debris

Sand Wedge – A high-density brush with a zigzagged pattern that creates “wedges” of space to effectively pick-up fine debris.

Full-Fill Tube Broom – Heavy-gauge polypropylene fill material provides superior sweeping performance on uneven or irregular surfaces.

Window Brush – A patented brush with open “windows” to trap light litter.

6/8 Double Row – Bristles pick up fine debris while the spacing between the rows effectively traps bulkier litter.

Patrol Brush – Wider spaced rows effectively pick-up bulky litter during high-speed sweeping.

Side Brushes – Round, flared design reaches into corners or along edges, pushing debris in front of the sweeper for pick up by the main broom.

SCRUBBING BRUSHES

Long-life disk and cylindrical brushes feature plastic backings to protect against warping and splitting. Drain holes help flush water and grit from high-wear spots to protect the machine’s drive plug and ensure optimum spin rates.

Cylindrical Scrub Brush

Disc Scrub Brush

Cylindrical and Disk – Full-fill bristle patterns are trimmed to an optimal length for excellent floor surface coverage, and appropriate bristle stiffness delivers effective scrubbing performance.

BRUSH SELECTION GUIDE – FILL MATERIAL AGGRESSIVENESS
