**Air Permits**

The Office of Environmental Services, Air Permits Division (APD), has established a procedure for technical review of the working draft of a proposed permit by facility representatives and other Divisions within DEQ. The technical review will take place after the working draft of the proposed permit has been developed and initially reviewed (but not approved) by the supervisor. The procedure will standardize the timing and duration of the review and also provide clear information in the public record regarding the review and the APD's responses to the review. As part of the procedure, a Worksheet for Technical Review of the Working Draft of the Proposed Permit has been developed. The completed form will become part of the public record for each proposed permit and will be available for public review during the public comment period. Additionally, the public notice for the proposed permit will contain a statement indicating whether or not the proposed permit was changed as a result of the technical review.

The procedure provides the facility an opportunity to clarify items early in the process. Internal DEQ stakeholders, specifically inspectors, are also provided an opportunity to address issues at the facility. During the subsequent review process, DEQ management will be provided an opportunity to view facility remarks, thereby allowing the permitting authority to be made aware of and consider key issues. Through this procedure the public and EPA are made specifically aware that the facility reviewed the working draft of the proposed permit very early in the process and may review the facility's concerns as well as the APD's response.

The procedure shall become effective July 1, 2006. Proposed permits in development on the effective date of the procedure and those developed after the effective date will be processed using this review procedure.

For further information, contact Cheryl Sonnier Nolan, Office of Environmental Services, Air Permits Division, at 225-219-3010 or cheryl.nolan@la.gov.

**Child and Family Services Plan and Annual Progress and Services Report**

The Louisiana Department of Social Services/Office of Community Services (DSS/OCS) announces opportunities for public review of the state's 2006 Annual Progress and Services Report (APSR). The APSR is a report on year two of the 2004-2009 Child and Family Services Plan (CFSP) with regard to the use of Title IV-B, Subpart 1 and Subpart 2, Title IV-E Chafee Independence Program and Child Abuse Prevention and Treatment Act (CAPTA) funds. The APSR is the report on the achievement of goals and objectives/outcomes and amends any changes to the agency's plan in the provision of services.

Louisiana, through the DSS/OCS, provides services that include child protection investigations, family services, foster care, adoption and the Chafee Independence Program. OCS will use its allotted funds provided under the Social Security Act, Title IV-B, Subpart 1, to provide child welfare services to prevent child abuse and neglect; to prevent foster care placement; to reunite families; to arrange adoptions; and, to ensure adequate foster care. Title IV-B, Subpart 2, entitled Promoting Safe and Stable Families, includes services to support families and prevent the need for foster care. The Chafee Independence Program funds services to assist foster children 15 years old and older that are likely to remain in foster care until age 18. Former foster care recipients who are 18 to 21 years of age who have aged out of foster care are also eligible for services. The services include basic living skills training and education and employment initiatives. The CAPTA funding is used to complement and support the overall mission of OCS with emphasis on developing, strengthening, and carrying out child abuse and neglect prevention and treatment programs.

DSS/OCS is encouraging public participation in the planning of services and the writing of this document. The CFSP and the APSR are available for public review in the state library located at 701 N. Fourth Street, Baton Rouge, LA, and its repositories statewide. Also, the report can be found for review on the Internet under [www.dss.state.la.us](http://www.dss.state.la.us) by scanning down to the OCS, CFSP link. Inquiries and comments on the plan may be submitted in writing to the OCS Assistant Secretary, PO Box 3318, Baton Rouge, LA 70821.

All interested persons will have the opportunity to provide recommendations on the plan, orally or in writing, at a public hearing scheduled for June 1, 2006, at 10 a.m. at the Commerce Building located at 333 Laurel Street in Baton Rouge, in the Office of Community Services, Seventh Floor, Room 732.
