**Rescission of Potpourri Notice for Collection of Emissions  
Inventory Data for Ozone Control**

The department hereby gives notice that the potpourri notice, originally published on pages 260-261 of the February 20, 2001, *Louisiana Register*, regarding the collection of certain emissions inventory data at lower reporting thresholds under LAC 33:III.919 from facilities located in Calcasieu Parish or the adjoining parishes of Beauregard, Cameron, and Jefferson Davis, is rescinded effective December 31, 2004. A list of facilities that are released from reporting as a result of the rescission of this potpourri notice is available on the department's website at <http://www.deq.louisiana.gov/portal/tabid/109/Default.aspx>. Facilities that are released from reporting under LAC 33:III.919 as a result of this notice and that reported emissions data for 2005 per the previously-requested lower reporting thresholds will not be invoiced.

The collection of emissions inventory data reported at a lower threshold from facilities located in Calcasieu or the adjoining parishes was requested following violation of the one-hour ozone standard in Calcasieu Parish. The violation occurred when Calcasieu Parish experienced six ozone exceedance days during the three-year period of 1998, 1999, and 2000. As a result of violation of the one-hour ozone standard, contingency actions were triggered in the EPA-approved ozone maintenance plan for Calcasieu Parish. The emissions inventory data collected was used to determine if additional control measures to reduce ozone precursors were needed in the area. Calcasieu Parish experienced no further violations of the one-hour ozone standard after 2000 and the parish continued to maintain the one-hour ozone standard until the standard was revoked effective June 15, 2005.

Effective June 15, 2004, the parishes of Beauregard, Calcasieu, Cameron, and Jefferson Davis were designated as attainment with the eight-hour ozone standard based on ozone-monitoring data for the years 2001-2003. Ozone monitors in Calcasieu Parish continue to monitor attainment with the eight-hour ozone standard. Therefore, the department has determined that the request for reporting emissions inventory data at the lower thresholds for facilities located in Calcasieu Parish or the adjoining parishes of Beauregard, Cameron, and Jefferson Davis is no longer necessary and constitutes the basis for the rescission of the specified potpourri notice effective December 31, 2004.

Should you have questions regarding this notice, please contact Ms. Jackie Heber, Office of Environmental Assessment, Air Quality Assessment Division, Data Collection and Evaluation Section, at (225) 219-3486 or via e-mail at [jackie.heber@la.gov](mailto:jackie.heber@la.gov).

**Electronic Document Management System**

The Department of Environmental Quality (DEQ) will offer a pilot version of its Electronic Document Management System (EDMS) for public use on the Internet beginning August 1, 2006. The EDMS is an electronic repository of official records that have been created or received by DEQ. In keeping with the regulations on confidential information (LAC 33:I.501-511) and security-sensitive information (LAC 33:I.601-609), DEQ continues to monitor and implement best practices for securing confidential and security sensitive records and information. Therefore, the records available for search and display will be limited to those dated July 1, 2005 and newer. In addition, the Radiation environmental media will not be made available for search and display via the Internet during the pilot.

Members of the public are encouraged to participate in this six-month EDMS pilot and provide feedback to DEQ. As experience is gained and feedback is received, the agency will determine how to proceed with expansion and/or revision of the EDMS Internet project.

The EDMS is accessible at the following Internet URL: <http://deq.louisiana.gov>. In addition to the basic EDMS document search and display functionality, this website also contains links to all of the information a user will need to get started, as well as guides and manuals, a link to the DEQ public records request form, and a link to send comments or feedback. #### Public Hearing—Substantive Changes to Proposed Rule AQ240—Emissions Factors (LAC 33:III.501)(AQ240S)

Under the authority of the Louisiana Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with

the provisions of the Administrative Procedure Act, R.S. 49:950 et. seq., the secretary gives notice that the department is seeking to incorporate substantive changes to the proposed amendments to the Air Quality regulations, LAC 33:III.501 (Log #AQ240S), which were originally noticed as AQ240 in the October 20, 2005, issue of the *Louisiana Register*.

The original proposed rule clarifies requirements in LAC 33:III.919 concerning emission inventory and in LAC 33:III.507.H concerning annual compliance certification. The intent of this rule is to permit the department to determine the actual basis of apparent changes in emissions when there is an emission limit discrepancy between a facility's permitted limit (pursuant to Chapter 5) and the emission estimate reported in the facility's emission inventory statement (pursuant to Chapter 9). The department has made substantive changes to further clarify the hierarchy of selecting the available methods to estimate emissions and reflect existing language as specified in LAC 33:III.919 regarding emission data, and to establish a notification mechanism as a means of ascertaining background information to validate reported changes in emissions (that are currently reported under LAC 33:III.919) to assist in the department's ability to conduct case-by-case reviews as provided for in the current proposed rule. No additional fiscal or economic impact will result from the substantive changes.

A ~~strikeout~~/underline/**highlighted** version of the proposed rule that distinguishes original proposed language from substantively changed language is available on the Internet at [www.deq.louisiana.gov](http://www.deq.louisiana.gov) under Rules and Regulations.

A public hearing on the substantive changes will be held on August 24, 2006, at 1:30 p.m. in the Galvez Building, Oliver Pollock Conference Room, 602 N. Fifth Street, Baton Rouge, LA 70802. Interested persons are invited to attend and submit oral comments on the substantive changes. Should individuals with a disability need an accommodation in order to participate, contact Judith A. Schuerman, Ph.D., at the address given below or at (225) 219-3550. Parking in the Galvez Garage is free when the parking ticket is validated by department personnel at the hearing.

Written comments regarding the substantive changes must be received no later than August 24, 2006, at 4:30 p.m., and should be sent to Judith A. Schuerman, Ph.D., Office of the Secretary, Legal Affairs Division, Box 4302, Baton Rouge, LA 70821-4302 or to fax (225) 219-3582 or by e-mail to [judith.schuerman@la.gov](mailto:judith.schuerman@la.gov). The comment period for the substantive changes ends on the same date as the public hearing. Persons commenting should reference AQ240S in their correspondence. Copies of this proposed regulation with substantive changes can be purchased by contacting the DEQ Public Records Center at (225) 219-3168. Check or money order is required in advance for each copy.

This regulation is available for inspection at the following DEQ office locations from 8 a.m. until 4:30 p.m.: 602 N. Fifth Street, Baton Rouge, LA 70802; 1823 Highway 546, West Monroe, LA 71292; State Office Building, 1525 Fairfield Avenue, Shreveport, LA 71101; 1301 Gadwall Street, Lake Charles, LA 70615; 111 New Center Drive, Lafayette, LA 70508; 110 Barataria Street, Lockport, LA 70374, 645 N. **Chapter 5. Permit Procedures**

**§501. Scope and Applicability**

A. - C.10. ...

11. Emissions shall be calculated in accordance with LAC 33:III.919.C.

12. Emissions estimation methods set forth in the Compilation of Air Pollution Emission Factors (AP-42) and other department-accepted estimation methods may be promulgated or revised. As a result of new or revised AP-42 emission factors for sources or source categories and/or department-accepted estimation methods, changes in calculated emissions may occur. Changes in reported emission levels as required by LAC 33:III.919.B.2.a due solely to revised AP-42 emission factors or department-accepted estimation methods do not constitute violations of the air permit; however, the department may evaluate changes in emissions on a case-by-case basis, including but not limited to, assessing compliance with other applicable Louisiana air quality regulations.

13. If the emission factors for any source or source category used in preparing the Annual Emission Statement required by LAC 33:III.918 and 919 differ from the emission factors used in the current air permit such that resulting "calculated" emissions reflect a change as defined in LAC 33:III.919.B.2.a, notification of the use of updated emission factors shall be included in the Title V Annual Certification, as specified in the affected permit. The notification shall include the old and new emission factor reference source and the date, volume, and edition (if applicable); the raw data for the reporting year used for that source category calculation; and applicable emission point and permit numbers that are impacted by such change. The notification shall include any other explanation, as well as the facility's intended time frame to reconcile the emission limits in the applicable permit. The department reserves the right to reopen a permit pursuant to LAC 33:III.529.

(LAC 33:III.3003)(AQ257ftS)

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary gives notice that the department is seeking to incorporate substantive changes to the proposed amendments to the Air regulations, LAC 33:III.3003 (Log #AQ257ftS), which were originally noticed as AQ257ft in the May 20, 2006, issue of the *Louisiana Register*.

The substantive changes to AQ257ft are identical to federal corrections and amendments to the Clean Air Mercury Rule (CAMR) found in 70 FR 51266-51269 (August 30, 2005) and 71 FR 33388-33402 (June 9, 2006), which are applicable in Louisiana. For more information regarding the federal requirement, contact the Regulation Development Section at (225) 219-3550 or Box 4302, Baton Rouge, LA 70821-4302. These amendments correct portions of the promulgated CAMR. EPA addressed technical corrections in 70 FR 51266-51269 and subsequently addressed amendments in 71 FR 33388-33402. The amendments include a change in the definition of coal to exclude petroleum coke. The other amendments are non-controversial. Temporary Emergency Disaster Assistance Program  
(LAC 67.III.5583)

The Department of Social Services, Office of Family Support, hereby gives notice that, in accordance with provisions of the Administrative Procedure Act, Section 968.H.2., a public hearing will be conducted to receive comments regarding revisions to the Temporary Emergency Disaster Assistance Program (TEDAP).

The agency adopted the Temporary Emergency Disaster Assistance Program as a new TANF Initiative through a Declaration of Emergency effective October 26, 2005. The program provides disaster emergency services to families with dependent children or pregnant women who are displaced because of disasters. The Emergency Rule was published in the November issue of the *Louisiana Register*. This Rule was allowed to expire on February 22, 2006.

The agency promulgated a second Emergency Rule to adopt TEDAP and to further clarify eligibility and verification requirements with an effective date of January 10, 2006. This Rule was published in the January 2006 *Louisiana Register*. The Notice of Intent was published in the March 2006 issue of the *Register* and a public hearing was held April 27. The Emergency Rule was extended May 10, 2006, as the Rule expired May 9, 2006, and the final Rule was due to be published in the June 2006 issue of the *Register*.

The agency has decided not to finalize the Rule at this time but to expand the type of services provided by TEDAP and to allow the provision of certain services beyond four months. The TANF goal to prevent and reduce out-of-wedlock pregnancies is also being added. An Emergency Rule effective June 15, 2006, adopted TEDAP and incorporated the changes noted above.

A public hearing on the proposed rule will be held on August 24, 2006, at the Department of Social Services, Iberville Building, 627 North Fourth Street, Seminar Room 1-129, Baton Rouge, LA, beginning at 9 a.m. All interested persons will be afforded an opportunity to submit data, views, or arguments, orally or in writing, at said hearing. Individuals with disabilities who require special services should contact the Bureau of Appeals at least seven working days in advance of the hearing. For assistance, call (225)-342-4120 (Voice and TDD).

All interested persons may submit written comments through August 24, 2006, to Adren O. Wilson, Assistant Secretary, Office of Family Support, and P.O. BOX 94065, Baton Rouge, LA, 70804-9065.
