Contractor shall immediately notify the SPM in writing of circumstances where the nature or quantity of any resource provided under this section, or the failure of the State to provide resources required under this section, is preventing the performance of Contractor's obligations under this Contract. In the event that Contractor fails to provide such notice to the SPM, the Contractor may not base any delay or lack of performance under this Contract on the nature or quantity of resources provided under this Section or failure to provide required resources.

3.3 LICENSES AND PERMITS

Should third parties request the Contractor to submit Confidential Information to them pursuant to a public records request, subpoena, summons, search warrant or governmental order, the Contractor will notify the State immediately upon receipt of such request. Notice shall be forwarded via e-mail and via facsimile to the representative designated in writing by the State as the State contact for requests for release of information. Protocols for the handling of such requests are found in the Procedures for Information Requests from Restore Database or Open Records Requests, as promulgated or as hereafter modified by the State. The Contractor shall cooperate with the State with respect to defending against any such requested release of information or obtaining any necessary judicial protection against such release if, in the opinion of the OCD, the information contains Confidential Information which should be protected against such disclosure. The legal fees and related expenses incurred by the Contractor or its Subcontractor in resisting the release of information under this provision shall constitute reimbursable expenses under this Contract.

3.6.5 Subcontract Agreements

The Contractor shall require agreements with all Subcontractors to include the provisions of Confidentiality, Section 3.6 and its Subsections. The OCD shall be provided copies of such Subcontractor agreements upon request. All Subcontractor agreements will follow the provisions of this contract and incorporate same by reference.

Any exception granted by the SPM may include a 25% reduction to the amount of the invoice submitted late. Payments are predicated upon successful completion and approval by the State of the described tasks and deliverables as provided in the Contract and any communications from the State Program Manager. State will make every reasonable effort to make payments within 30 work days of the receipt of the invoice. The Contractor shall submit

its request to the OCD on an invoice form as approved by the OCD. The Contractor shall transmit the invoice and required supporting documentation, as defined by the OCD, to the SPM, as designated within the contract. All invoices will be supported by documentation including, but not limited to, the name of the person, labor category, hours worked, function, bill rate, description of the work provided, timesheets and such other information as determined by the SPM.

The Contractor shall not attach any fee or other "mark-up" to the ODC.

4.1.4 Payment for Construction Activities (Grant Proceeds)

For each Solution 1 completed (rehabilitation) home, the OCD shall pay the Contractor the approved Xactimate SOW price.

Once the value of work performed on a home reaches 50% of the work to be completed, and when work done to-date meets the standards of quality established under the Contract, as certified by the Contractor, the OCD

shall make a progress payment to Contractor equal to 50% of the SOW (less fee proposed and accepted by the OCD. See Attachment III). Any escrowed funds must be drawn prior to payment from the OCD upon approval of draw request from the OCD.

The remaining balance of the SOW due to the Contractor for a specific home (minus any delay penalties imposed on the Contractor due to construction delays), including the agreed-upon Contractor fee associated with the project, will be paid after:

1. Completion and final acceptance of all work on the home; and
2. Delivery of all Program required documentation; and

If the SPM determines evidence is necessary to substantiate claimed costs, the SPM may require the Contractor to furnish receipts or other evidence of payment from all persons performing work and supplying material to the Contractor.

~~Any request for payment must reflect the amount of any escrowed homeowner funds. Upon approval of a payment request by SPM, Contractor may draw the escrow funds.~~

4.2 RETAINAGE

All payments are subject to a ten percent (10%) retainage excluding Other Direct Costs (ODC), payment of costs or fees associated with Construction Activities and title policies. The retained amounts will be administratively reserved, but not paid out to an escrow or other interest bearing account. Twenty-five percent (25%) of the existing retainage balance will be released at the end of each Contract year. Final payment of all retained amounts will be contingent upon the completion and acceptance of all Contract deliverables, which may extend beyond the contract period, or as agreed upon by the State and the Contractor. The release of amounts retained will be made upon approval of the SPM.

4.3 OTHER DIRECT EXPENSES

Any and all "Other Direct Costs" (ODCs) must be approved in advance of purchase by the SPM, or designee, and OCD Finance Manager. ODCs may include: postage (includes US Mail, FedEx, UPS, and etc.); costs for copying mailings, notifications, etc.; personal computer workstations, laptop computers, computer peripherals (scanners, printers); approved in-State field travel that is not a normal part of Contractor's operations under the Contract (per State PPM 49) (State does not anticipate any such travel); security for on-site inspections on a pre-approved basis; recording fees; cost of outreach and other public events (i.e. facilities and travel); notary service fees, and legal service fees related to Third Party Requests for Release of Information. Additional ODCs, if required, must be approved in advance of purchase by the SPM and OCD Finance Manager.

Xactimate and XactAnalysis must be included in the applicable unit costs proposed and will not be allowed as an ODC.

Prior to purchasing, or leasing with approval, any ODCs, the Contractor shall provide a list of ODCs to the SPM. The SPM will review that list and will either (a) authorize the Contractor to purchase, or lease the items or services and submit the expense for reimbursement (with proper documentation), or (b) deny the request. For any such purchases, the Contractor should obtain price quotations from a minimum of three (3) sources.

4.3.1 DISPOSAL OF ODC EQUIPMENT, LICENSES ETC.

Contractor shall have any new contractual agreement to be paid as an ODC, including leases and software licenses, assignable to the State at the termination of the Contract. For any unexpired license or contractual right, in the event that the license or contractual right has been paid for by the State as an ODC but is not assigned to the State at the termination of the Contract, Contractor must remit to the State the replacement cost at the time of Contract termination relating to the license or contractual right.

4.4 NO GUARANTEE OF QUANTITIES

The scope and quantities referenced in the contract are estimated to be the amount needed. The State does not obligate itself to Contract for or to accept more than its actual requirements during the period of this Contract, as determined by actual needs and availability of appropriated funds.

The State reserves the right to increase or decrease quantities, as appropriate, at the unit prices stated in the Contract.

4.5 DELIVERABLES/PENALTIES

Performance measures, benchmarks, and/or penalties will be defined in ensuing OCD directives. Contractor shall provide a policy on background check passage criteria by 30 days after Contract execution by all parties. Contractor shall pay to the OCD as a delay penalty, the sum of \$200 for each calendar day of delay.

For each home under Solution 1 (Turnkey), the Contractor shall complete all work required under this Contract within 120 calendar days (180 calendar days for reconstruction, with or without elevation) of the latest of: (a) the date of the notice to proceed by the OCD or its designee; (b) a date thirty (30) days following the date of the notice to proceed by the OCD or its designee, if the homeowner has not vacated the home; or (c) a date otherwise approved in writing by the State Program Manager (SPM) or designee. If the Contractor fails to complete the work within the time specified according to the approved schedule, or any approved extension, the Contractor shall pay to the OCD as a performance penalty, the sum of \$200 for each calendar day of delay.

See Attachment IV, Service Level Deliverables and Performance Measures, for additional deliverables.

Penalties under this Section, Deliverables and Penalties, will be deducted from pending payments due to the Contractor. In the event that penalties exceed payments due to the Contractor, the Contractor shall remit the balance to the OCD. Penalties under this Section are for performance purposes and do not represent any form of damage payment.

5 TERMINATION

5.1 TERMINATION FOR CAUSE

State may terminate this Contract for cause based upon the failure of Contractor to comply with the terms and/or conditions of the Contract; provided that the State shall give the Contractor written notice specifying the Contractor's failure. If within thirty (30) days after receipt of such notice, the Contractor shall not have either corrected such failure or, in the case of failure which cannot be corrected in thirty (30) days, begun in good faith to correct said failure and thereafter proceeded diligently to complete such correction, then the State may, at its option, place the Contractor in default and the Contract shall terminate on the date specified in such notice. Failure to perform within the time specified in this Contract will constitute a default and may cause cancellation of the contract. Where the State has determined the Contractor to be in default, the State reserves the right to obtain any or all products or services covered by the contract on the open market and to charge the Contractor with cost in excess of the contract price. Until such assessed charges have been paid, no subsequent proposal from the defaulting Contractor will be considered.

~~Contractor may terminate this Contract for cause based upon the failure of State to comply with the terms and/or conditions of the Contract; provided that the Contractor shall give the State written notice specifying the State's failure. If within thirty (30) days after receipt of such notice, the State shall not have either corrected such failure or, in the case of failure which cannot be corrected in thirty (30) days, begun in good faith to correct said failure and thereafter proceeded diligently to complete such correction, then the Contractor may, at its option, place the State in default and the Contract shall terminate on the date specified in such notice. Failure to perform within the time specified in this Contract will constitute a default and may cause cancellation of the contract.~~

Any payment to Contractor shall be limited to the compensation provided in this paragraph. Contractor shall not be entitled to lost profits, lost revenue or any other compensation or damages.

5.2 TERMINATION FOR CONVENIENCE

State may terminate the Contract at any time without penalty by giving thirty (30) days written notice to the Contractor of such termination or negotiating with the Contractor an effective date. Contractor shall be entitled to payment for deliverables in progress; to the extent work has been performed as required by the Contract. Contractor shall not be entitled to lost profits, lost revenue or any other compensation or damages.

5.3 TERMINATION FOR NON-APPROPRIATION OF FUNDS

The continuation of this Contract is contingent upon the appropriation of funds by the legislature to fulfill the requirements of the Contract by the legislature. If the legislature fails to appropriate sufficient monies to provide for the continuation of the Contract, or if such appropriation is reduced by the veto of the Governor or by any means provided in the appropriations act of Title 39 of the Louisiana Revised Statutes of 1950 to prevent the total appropriation for the year from exceeding revenues for that year, or for any other lawful purpose, and the effect of such reduction is to provide insufficient monies for the continuation of the Contract, the Contract shall terminate on the date of the beginning of the first fiscal year for which funds have not been appropriated.

6 INDEMNIFICATION AND LIMITATION OF LIABILITY

6.1 GENERAL INDEMNITY LANGUAGE

Neither party shall be liable for any delay or failure in performance beyond its control resulting from acts of God or force majeure. The parties shall use reasonable efforts to eliminate or minimize the effect of such events upon performance of their respective duties under the Contract.

Contractor shall be fully liable for the actions of its agents, employees, partners or Subcontractors and shall fully defend, indemnify and hold harmless the State from suits, actions, damages and costs of every name and description relating to personal injury and damage to any property caused by Contractor, its agents, employees, partners or Subcontractors, without limitation; provided, however, that the Contractor shall not indemnify the State for that portion of any claim, loss or damage arising hereunder due to the negligent act or failure to act of the State.

In addition to the foregoing indemnification agreement, Contractor specifically agrees to defend, indemnify and hold harmless the State against all claims, suits, losses or damages ("claims") arising out of or relating to reconstruction, rehabilitation, construction, new construction, demolition, and/or elevation work performed by Contractor, its agents, employees, partners or Subcontractors (whether or not caused by their negligence or fault), including without limitation, from construction defects or improper construction and/or from the delays in the completion of work related to the applicable home; provided however, that this provision shall not apply to the extent that a claim arises out of the fault of a third party over which the Contractor had no control and which the Contractor could not reasonably anticipate and prevent.

Contractor specifically agrees to defend, indemnify and hold harmless the State against all claims, suits, losses or damages ("claims") arising out of any liens which may have been or may be asserted by any person or entity who performed reconstruction, rehabilitation, construction, new construction, demolition, and/or elevation work in connection with the Restore Program.

At the State's option, counsel providing the defense of the State shall be selected by the State.

6.2 WARRANTIES

CONTRACTOR

ATTACHMENT I, SCOPE OF SERVICES FOR PROGRAM MANAGEMENT SERVICES

The Louisiana Division of Administration, Office of Community Development requires services to support the implementation and administration of the Restore Louisiana Program (hereinafter referred to as "Restore Program"). In addition to the Restore Program, services may also be expanded to accommodate the Watershed Initiative, other existing disaster recovery programs and resilience/mitigation programs which the OCD administers or is a stakeholder and/or other disaster recovery programs and other federally funded initiatives yet to be defined, including programs occurring as a result of past and future disasters. The Restore Program and other programs are collectively known as the "Program".

The Contractor will be responsible for successfully implementing and completing tasks, as assigned. This may include processing on all applications, including entering into appropriate arrangements with subcontractors and third party vendors, disbursing funds, monitoring compliance, and completing all other activities required to close out the Program. The Contractor shall coordinate to maximum extent possible with the State's disaster case management providers to locate eligible clients for the Program. Furthermore, the Contractor will be responsible for communicating, coordinating and integrating assigned tasks into Program systems and into the tasks assigned to other State contractors and/or representatives, as specified by the OCD.

Tasks to be accomplished under this contract will be addressed with associated deliverables, performance measures, and timelines, among other requirements which may be included through program task orders with additional deliverables. This Scope of Services, Part 2, and 3 address tasks that the OCD is soliciting to support the implementation and administration of the Program. The Contractor will be directly responsible for ensuring the accuracy, timeliness, and completion of all tasks assigned under this contract. The scope of services presented is based upon circumstances existing currently. The State reserves the right to modify or delete the scopes listed and, if appropriate, add additional scopes prior to and during the term of the contract, subject to the approval of State Program Manager and the Office of State Procurement (OSP).

Contractor will maintain close coordination and cooperation with the OCD's Quality Assurance/Quality Control (QA/QC) provider with anticipated communication on a daily basis. The QA/QC contractor provides the OCD with an extensive review of policy, processes, and performance, Program and construction management services. The role of the QA/QC provider ensures accurate and efficient internal controls are in place.

The Restore Program offers eligible homeowners the choice of four (4) Solutions:

SOLUTION 1. Turnkey (Full Service) solution whereby the Contractor evaluates the damage and creates the scope of work, then performs or contracts for all needed services-case management, environmental reviews/lead based paint inspection, testing and reporting, construction, etc. to bring the dwelling to a reasonable level of livability. Eligible expenses are determined during the initial home inspection, based on a repair scope of work.

SOLUTION 2. Homeowner Managed Construction where the homeowner has already engaged a construction contractor or chooses to engage in a construction contract then the Contractor will provide case management, construction advisory services and environmental services, as needed. Eligible expenses are determined during the initial home inspection, based on a repair scope of work.

SOLUTION 3. Reimbursement solution where the homeowner has already restored the dwelling to habitability or incurred construction costs and the Contractor(s) can verify through their reimbursement assessments the level of work completed. Contractor shall confirm that the work performed conforms to the Program guideline requirements and determine if any additional work is required to restore the home to minimum Restore Program standards. The Contractor would be charged with ensuring comprehensive, accurate and professional

reimbursement assessments, verifying invoices (if applicable), applying reasonable cost standards to the invoices and paying the homeowner eligible amounts, less any duplicate benefits received by the homeowner.

SOLUTION 4. Buyout and housing incentive where the homeowner sells the damaged property to the State or its designee in exchange for the appraised value of the property and an additional housing incentive, per Program policies. Contractor shall provide case management, title work, appraisals, closing services, environmental reviews, survey (as needed), lead based paint inspection, testing and reporting.

Note that Solutions 1 and 3 or 2 and 3 may be combined for certain applicants, depending on their individual situations.

The Building/Construction Management (BCM) services WILL ONLY APPLY TO **Solution 1 Turnkey (Full Service)** and will include successfully completing all reconstruction, rehabilitation, new construction, elevation, housing plans, permits and local fee along with demolition activities (collectively "Construction Activities") for eligible homeowners given a construction assignment. This includes entering into appropriate arrangements with subcontractors and third party vendors, obtaining permits, disbursing funds to those subcontractors/vendors and monitoring compliance with all local, State and Federal laws and regulation and policies pertaining to these activities under the Restore Program. In addition to the Restore Program, services may also be expanded to accommodate the Watershed Initiative, other existing disaster recovery programs and resiliency/mitigation programs which the OCD administers or is a stakeholder and/or other disaster recovery programs and other federally funded initiatives yet to be defined, including programs occurring as a result of past and future disasters. The Restore Program and other programs are collectively known as the "Program".

Contractor shall provide quality and timely construction management and construction services for disaster housing assistance under the Restore Program, according to the approved scope of work (SOW) for construction for each property where the eligible homeowner chooses to have the state contract for and manage the repairs to their home (referred to as Solution 1). The Contractor shall furnish all necessary labor, materials, tools, equipment, all necessary water, heat, electricity, light, sanitary facilities and transportation necessary for performance of the work. All equipment, material, and articles furnished under this contract shall be new and of the most suitable grade for the purpose intended, unless otherwise specifically provided in the project scope of work approved by the OCD. The Contractor shall be responsible for all damages to persons or property that occur as a result of the Contractor's fault or negligence, and shall take proper safety and health precautions to protect the work, the workers, the public, and the property of others. The Contractor will be directly responsible for ensuring the accuracy, timeliness, and completion of all tasks assigned under the BCM services and will be paid only on completion of work and draw schedule.

Contractor is expected to provide adequate resources for the timely completion of this contract. The OCD will define milestones and deadlines for the work (including the scheduling of construction with the homeowner) and the Contractor shall perform to meet these timeframes and will be subject to penalties for failure to meet those requirements. Individual homes utilizing the Solution 1- Turnkey (Full Service), rehabilitation (repair) shall be completed and have their grant awards closed-out within 90-120 days of homeowner's grant execution. Solution 1 reconstruction homes (with or without elevation) will be allowed a maximum of 180 days from the grant execution.

The Contractor is encouraged to take proactive steps to ensure that, whenever possible, subcontracts are awarded to small business firms, minority firms, disadvantaged business enterprises, women's business enterprises, and labor surplus area firms. The Contractor is also encouraged to hire/employ as many local residents/enterprises as is consistent with providing efficient effective services under the Contract. This includes both Contractor and subcontractor personnel.

Based on current available resources, it is anticipated that to ensure completion of this work and return Louisiana citizens to their home in a reasonably timely manner, the selected Contractor will be expected to staff its operations and secure sufficient resources to assist the OCD with BCM services for approximately 200-500 damaged homes.

The scope of services presented is based upon circumstances existing currently. The State reserves the right to modify or delete the scopes listed and, if appropriate, add additional scopes prior to and during the term of the Contract, subject to the approval of the OCD State Program Manager and the Office of State Procurement (OSP).

1. Repair estimates will be prepared using Xactimate cost estimating software pricing as of March, 2017 as provided regionally by Xactimate. Only a limited number of repair activities/quality of materials will be considered allowable under the Restore Program. These repair activities/quality of materials will be defined by the OCD and incorporated into the allowable line items available in Xactimate for these BCM services. This listing shall be subject to modification on an as-needed basis with approval of the SPM. An initial listing of items currently under consideration as being allowable is included in the RFP Attachment V, Restore Program Management Policies.

3. Repairs will be limited to the approved scope of work authorized by the OCD. No substitutions or upgrades will be allowed. Contractor will be responsible for installing at its expense any inadvertently missed (additional) scope of work items unintentionally omitted by the Contractor when the repair estimate was prepared. However, the OCD will evaluate and consider requests based on unusual and unforeseen circumstances. Additional work that is approved by the OCD, if any, will be priced utilizing the original data for the home's SOW. No other cost adjustments will be considered.

When reviewing change orders, the following definition applies: **Unforeseen Condition:** Repair scope identified during the construction process that is necessary to deliver a habitable structure and that was not documented during the Damage Assessment.
