ISIS Memorandum 10-020

To: Human Resource Directors
Employee Administrators
Time Administrators
Travel Administrators
Training Coordinators

Subject: ISIS HR, ISIS Travel and LEO Systems Restored

***** Please distribute to ALL employees *****

Yesterday afternoon, due to a database problem, the ISIS HR, ISIS Travel and LEO systems were restored to a backup copy created at 1:00 a.m. Sunday morning, March 14, 2010. As a result, any entries made Sunday between 1:00 a.m. and 1:00 p.m. have been backed out and must be re-entered.

ZP111 and ZT20 cannot be used to identify lost entries since they were also restored.

Please note that this includes any entries that employees may have made through LEO. It is essential that this information also be distributed to any employees at your agency who may have entered changes to their own information through LEO.

We apologize for this inconvenience. Should you have any further questions, please submit via web ticket to the [ISIS Help Desk](#).
