WHEREAS, a declaration of emergency activates the state's emergency response and recovery program under the command of the director of the Governor's Office of Homeland Security and Emergency Preparedness ("GOHSEP");

WHEREAS, the City of Tallulah has approximately 8,601 persons that depend on the Tallulah Water System;

WHEREAS, the Louisiana Department of Health has determined that the Tallulah Water System is continuously at risk of failure and unable to provide safe and accessible water to the residents of Tallulah on a consistent basis;

WHEREAS, the Biden Administration oversaw the largest wave of illegal immigration in the Nation's history;

WHEREAS, the estimated population of illegal aliens in Louisiana was approximately 97,000 as of 2021, with current figures likely significantly higher;

WHEREAS, the overwhelming majority of crimes perpetrated by illegal aliens fall under state jurisdiction, requiring substantial state and local resources for investigation, prosecution, adjudication, incarceration, and post-release supervision;

WHEREAS, due to the Biden Administration's non-enforcement policies, large numbers of criminal aliens are released into communities rather than being detained and removed, increasing the risk of recidivism and endangering public safety;

WHEREAS, through his first one hundred days in office, President Donald J. Trump has taken historic action to marshal all available federal resources to safeguard our borders, immediately end the disastrous Biden-era policies, and prioritize the safety, security, and prosperity of all Americans.

WHEREAS, President Trump has implemented a series of executive actions aimed at combating illegal immigration, which include but are not limited to:

- Declaring a national emergency at the southern border;
- Initiating the construction of physical barriers and "obtaining complete operational control of the borders of the United States";
- Implementing measures to deter and prevent unlawful entry into the United States;
- Mandating the detention and expedited removal of "aliens apprehended on suspicion of violating Federal or State law";
- Ending the "catch-and-release" practice and pursuing criminal penalties for "those who facilitate their unlawful presence in the United States";
- Promoting cooperative federal-state partnerships as force multipliers for the effective enforcement of U.S. immigration laws;
- Terminating discretionary parole programs for illegal aliens from Cuba, Haiti, Nicaragua, and Venezuela; and
- Employing advanced vetting procedures, including biometric scanning and verification of familial relationships for individuals encountered or apprehended by the U.S. Department of Homeland Security ("DHS").

WHEREAS, within the first one hundred days, the Trump Administration has secured hundreds of agreements with state and local law enforcement agencies and departments across the country to enforce President Trump's immigration policies, producing remarkable achievements including the largest joint immigration operation in Florida's history in April 2025 that netted 1,120 criminal illegal alien arrests;

WHEREAS, the State of Louisiana through the Louisiana Department of Public Safety and Corrections ("DPSC") has already begun to partner with DHS commencing Operation GEAUX to enforce President Trump's immigration policies;

WHEREAS, Operation GEAUX is a proactive approach to safeguarding the citizens of Louisiana through the identification and removal of criminal aliens from the community;

WHEREAS, Operation GEAUX aligns state and federal resources to identify criminal aliens arrested, incarcerated, or on supervised release in Louisiana and collaborate with DHS officials to effectively and efficiently process these criminal aliens for removal and deportation;

WHEREAS, Operation GEAUX is already producing results for the people of Louisiana, and the State is now in a position to capitalize on that progress through the utilization and dedication of all of our excellent and hard-working state and local law enforcement officials in Louisiana working together with the Trump Administration to make America and Louisiana safe, secure, and prosperous once more.

NOW THEREFORE, I, JEFF LANDRY, Governor of the State of Louisiana, by virtue of the authority vested by the Constitution and the laws of the State of Louisiana, do hereby order and direct as follows:

Section 1: Louisiana State Police, Department of Public Safety & Corrections, Louisiana Department of Wildlife and Fisheries, the State Fire Marshal, and the Louisiana National Guard ("state law enforcement agencies") are to launch a public awareness campaign on Operation GEAUX'S public safety mission.

Section 2: State law enforcement agencies are ordered to explore, and where appropriate, enter into agreements with the United States Department of Homeland Security and U.S. Immigration and Customs Enforcement ("ICE"), commonly referred to as 287(g) programs, to enhance collaboration with federal, state, and local law enforcement partners to safeguard the people of Louisiana through vigorous enforcement and compliance with applicable Federal and state law.

Section 3: State law enforcement agencies are ordered to collaborate with DHS and ICE to screen and identify all criminal aliens arrested, incarcerated, or on supervision for indicia of gang membership.

Section 4: State law enforcement agencies are ordered to explore and implement any collaborative models with local law enforcement agencies that are deemed appropriate and necessary to further the goals and objectives of any 287(g) agreements entered into pursuant to this executive order or pursuant to any other lawful federal-state law enforcement collaboration.

Section 5: Local law enforcement agencies are strongly encouraged to explore and where appropriate, enter into their own agreements with DHS and ICE pursuant to the 287(g) programs to preserve and defend the safety, security, and prosperity of each and every community across Louisiana.

Section 6: This Order is effective upon signature and shall remain in effect until amended, modified, terminated, or rescinded by the Governor, or terminated by operation of law.

IN WITNESS WHEREOF, I have set my hand officially and caused to be affixed the Great Seal of the State of Louisiana in the City of Baton Rouge, on this 15th day of May, 2025.

§1503. General Specifications

A. General Travel Policies

1. Department heads may establish travel regulations within their respective agencies, but agency regulations shall not exceed the maximum limitations set by the Commissioner of Administration. A final draft and a draft highlighting any deviations from PPM 49 must be submitted via email to StateTravel@LA.Gov for prior review and approval by the Commissioner of Administration.

2. Department heads will take actions necessary to minimize all travel in order to carry on the department's mission.

3. Agencies must place all high-cost expenditures on the LaCarte Purchasing Card, Travel Card, or agency CBA account unless prior approval is granted by the Commissioner of Administration.

4. Department heads or their designee must submit fiscal year exemption requests annually. No exemption requests are granted on a permanent basis.

5. Grant Funds- Any agency that receives grant funds must follow PPM 49 rules and regulations and any travel regulations contained in the grant. Sub recipients that are not classified as a state agency are not subject to PPM49.

Example: DOTD receives a federal grant and the City of New Orleans is a sub recipient of that grant, the City of New Orleans is not required to follow PPM49 but must follow their established policies and any regulations contained in the grant.

6. Travel Scholarships. If any scholarship for travel is received by a state traveler, it is the agency's and employee's responsibility to comply with all ethics laws and requirements.

7. Contracted Travel Services. The state has a mandatory travel agency contract to book airfare unless prior exemptions have been granted by the Office of State Travel before the airfare purchase. The contracted travel agency has an online booking system which should be used by all travelers to book airfare. Use of the online booking systems can drastically reduce the State's agent fee paid per transaction for airfare purchases.

8. Contracted Hotel Services. The state has a contract for hotel booking services with HotelPlanner. Travelers are encouraged to use HotelPlanner. Travelers are responsible for adhering to the hotel's cancellation policy when booking through HotelPlanner. If a traveler does not cancel a hotel stay within the cancellation period set by the hotel, the traveler will be responsible for payment or reimbursing the agency. Any exceptions for hotel rates or cancellation reimbursements must be approved by the Commissioner of Administration. Use of HotelPlanner does not exempt a traveler from adhering to U.S. General Services Administration (GSA) lodging rates, U.S. Department of State rates, or rates within PPM49 for the applicable travel location.

9. Contracted Vehicles Rentals. The state has mandatory contracts for all in-state and out-of-state business travel through Enterprise, National, and Hertz. These contracts are applicable to all authorized travelers and contractors.

10. When a state agency enters into a contract with an out-of-state government entity, the out-of-state government entity may have the authority to conduct any related travel in accordance with their published travel regulations.

11. Authorization to Travel

a. All non-routine travel must be authorized with prior approvals, in writing, by the department head or his/her designee, from whose funds the traveler is paid. Agencies must maintain a file on all approved travel authorizations. Electronic files and approvals are acceptable using certified electronic signatures.

b. Annual travel authorizations for routine travel are allowed if determined to be in your agency's best interest. If annual travel authorizations are used, prior approved travel authorizations are still required for non-routine meetings, conferences, and out-of-state travel. Annual travel authorizations cannot be used for non-routine meetings, conferences, and out-of-state travel.

c. The Commissioner of Administration must sign all authorizations for travel and expenses for the Governor of Louisiana.

d. International travel and travel to U.S Territories require prior approval from the Commissioner of Administration

e. The entity head of higher education institutions or his/her designee may approve international travel and travel to U.S Territories prior to the departure date.

12. A department head or his/her designee may approve a traveler's reimbursement request for a communicable disease test if the employee will be traveling on official state business. Receipts are required to be reimbursed. Hotel, meals, and internet expenses are allowed to be reimbursed per the published rates when quarantine is required for a certain period.

B. Funds for Travel Expenses

1. State Issued Credit Cards and CBA Accounts. All high cost travel expenditures must be placed on the LaCarte Purchasing Card, Travel Card, or agency CBA account unless prior approval is granted from the Commissioner of Administration. The State Travel Office maintains the contract for the State's corporate card program to establish one source of payment for travel expenditures. If a supervisor recommends an employee be issued a state travel card, the employee should make the request through their agency travel program administrator.

a. The employee's corporate travel card is for official state business travel only. Personal use on the travel card shall result in disciplinary action.

b. If a vendor does not accept credit card payment for registration or lodging expenses, the department head may approve for payment(s) to be made by other means. Travelers must submit supporting documentation from the vendor stating they do not accept credit card payments. The supporting documentation must be kept with the travel expense form.

2. Persons traveling on official state business will provide themselves with sufficient funds for all travel expenses that are not covered by the Corporate Travel Card, LaCarte Purchasing Card, and/or agency's CBA account.

3. For agencies participating in the LaCarte, Travel, and/or CBA card programs, group/athletic travel must be placed on one of the card programs. This does not eliminate

any approvals that must be granted from the Commissioner of Administration and/or the Office of State Travel.

4. Advance of funds for travel shall only be made in extraordinary circumstances and any excess funds should be promptly repaid upon return. Cash advances meeting the exception requirement(s) listed below must have an original and itemized receipt to support all expenditures in which a cash advance was given, including meals. At the Agency's discretion, cash advances may be allowed for:

a. state traveler whose salary is less than \$40,000/year;

b. state travelers who accompany and/or are responsible for students or athletes for group travel. For group travel advancements, a roster with signatures of each group member along with the amount of funds received by each group member may be substituted for individual receipts;

c. state travelers who accompany and/or are responsible for client travel;

d. new employee who has not had time to apply for and receive the state's corporate travel card;

e. employees traveling for extended periods, defined as a period exceeding 30 or more consecutive days;

f. employees traveling to remote destinations in foreign countries;

g. lodging costs if the hotel(s) will not allow direct bill or charges to agency's CBA and the traveler's salary is less than \$40,000/year;

h. registration for seminars, conferences, and conventions.

5. Sponsored or Scholarship Travel- Travel expenses paid by a sponsor or scholarship are considered a gift per R.S. 42:1115 and requires completion of Ethics Disclosure Form 413. It is the traveler's responsibility to properly complete and submit to the Board of Ethics in the time required. The form can be downloaded at: <http://ethics.la.gov/pub/CampFinan/Forms/Form413f.pdf?20190402>.

a. Reimbursements are not allowed when the traveler does not incur any expense. This includes, but is not limited to, reimbursements for any lodging or meals provided at a state institution or agency or provided by any other party at no cost to the traveler.

6. Travel expenses shall be limited to the necessary expenses incurred by a traveler and must be within the limitations set by PPM 49.

C. Requests for Reimbursement

1. Official domicile/temporary assignment travelers are eligible to receive reimbursement for travel only when they are away from their "official domicile" or on a temporary assignment unless exemption is granted in accordance with these regulations. Temporary assignments will end after a period of thirty consecutive calendar days. After thirty days, the place of assignment shall be deemed his/her official domicile. The traveler shall not be allowed travel and subsistence reimbursement unless permission to extend the thirty-day period has been previously approved by the Commissioner of Administration.

a. Travelers cannot be reimbursed while traveling within their official domicile.

b. Travelers cannot be reimbursed when traveling to/from their residence when their residence location is different from their official domicile.

c. At the discretion of the department head or his/her designee, an exception may be allowed for mileage to/from airports as stated in §1504.E.3.

d. The department head or his/her designee may approve an authorization for routine travel for an employee who must travel to perform his/her regular job duties. This may include traveling within the employee's official domicile if it is a regular and necessary part of the employee's duties. Attending infrequent/irregular meetings and conferences within their official domicile are not reimbursable.

2. All claims for travel reimbursement shall be submitted on the State's Travel Expense Form, BA-12, or in your agency's travel expense management system. Travel Expense Forms must include all travel details and be signed by the person claiming reimbursement and approved by his/her immediate supervisor. In all cases, the date and hour of departure and return to domicile must be shown along with each final destination throughout the trip clearly defined on the form. Agencies must get an exemption from the Commissioner of Administration to use a Travel Expense form other than the BA-12. For every travel authorization request, the purpose of the trip for travel must be stated in the space provided on the front of the form. The second page of the BA-12 must be completed with the breakdown of the travel expenses. This is required for every trip. Form BA-12 can be found at: <https://www.doa.la.gov/media/apro1q2x/travelexpense.docx>.

3. Air transportation, registration, lodging, rental vehicles, shuttle service, and all other allowable charges outlined in section II(F)(4) of the State of Louisiana State Liability Travel and CBA policy should be invoiced directly to the agency, or charged to a state liability card. The traveler must provide receipts for all items charged or billed directly to the agency.

4. Cost of meals shall be paid by the traveler and claimed on the travel expense form for reimbursement.

5. Travel Expense Forms must include all expenses related to the trip, which includes expenses paid by the agency and reimbursable expenses paid by the traveler. Expenses paid by the agency must be noted on the Travel Expense Form or marked "prepaid" on the LaGov expense statement and these expenses must be excluded from the traveler's reimbursable costs.

6. Travelers should submit claims within 30 days of the travelers' return date. If a travel reimbursement is less than \$25, it is recommended that the traveler wait until a minimum of \$25 is reimbursable to submit the request unless there is no travel scheduled for the traveler in the future. Department heads may make the 30-day submittal mandatory on a department wide basis.

7. Any person who submits a claim pursuant to these regulations and who willfully makes any claim which he/she does not believe to be true and correct or who willfully aids, procures, counsels, or advises the preparation of a false or fraudulent claim, shall be guilty of official misconduct. If a traveler receives an allowance or reimbursement by means

of a false or fraudulent claim, the traveler(s) involved shall be subject to disciplinary actions as well as being criminally and civilly liable within the provisions of state law.

8. Agencies shall review travel reimbursements to verify the documentation and complete processing within 30 days of receiving the final reimbursement submission.

§1504. Methods of Transportation

The most cost-effective method of transportation that will accomplish the purpose of the travel shall be selected. Official state travelers must use the most direct travel route. Among the factors to be considered are the length of travel time, vehicle operation cost, and cost/availability of common carrier services. Common carriers shall be used for out-of-state travel unless it is documented that utilization of another method of travel is more cost efficient or practical and approved in accordance with these regulations.

A. Air Travel

1. Privately Owned or Charter Planes. Prior approval is required by the department head when traveling by privately-owned or chartered aircraft. The traveler must certify:

1. at least two hours of working time will be saved by such travel; and

2. no other form of transportation such as commercial air travel or a state plane will serve the same purpose.

a. Chartering a privately owned aircraft must be in accordance with the Procurement Code.

b. Reimbursement for using a chartered or un-chartered privately owned aircraft under the above guidelines will be made per the published GSA rate or the cost of coach economy airfare, whichever is the lesser. GSA Airplane mileage rate: <https://www.gsa.gov/travel/plan-book/transportation-airfare-pov-etc/privately-owned-vehicle-pov-mileage-reimbursement-rates>

c. If there are extenuating circumstances requiring reimbursement not listed above, approval must be granted by the Commissioner of Administration.

d. When common carrier services are unavailable and time is at a premium, travel via state aircraft shall be requested and if a state aircraft is not available, the file shall be documented to show non-availability of a common carrier and state aircraft. The documentation shall be readily available in the department's travel reimbursement files.

2. Commercial Airlines

a. All state travelers are to purchase commercial airline tickets through the state contracted travel agency. This requirement is mandatory unless approval is granted from the Office of State Travel. In the event travelers seek approval to book without using the state's travel agency, the traveler shall submit their request through their agency's travel program administrator, who will determine if the request should be submitted to the Office of State Travel.

b. State contractors are not required to use the state's contracted travel agency when purchasing airfare, but it is the agency's responsibility to monitor costs to ensure the contractors are purchasing the lowest, most logical airfare.

c. The State supports purchasing the lowest logical ticket. Once all rates are received, the traveler must compare costs and options to determine which fare will be the best value ticket for their trip. To make this determination, the traveler must consider whether or not there is a likelihood the itinerary will change or be cancelled. Depending on this assessment, the traveler must determine if the additional costs associated with changing a non-refundable ticket alters the determination of the lowest logical ticket.

d. Travelers should advise the agent of their flexibility with dates and/or time of travel to ensure the most cost-effective rate.

e. Travelers are to seek airfare allowing a sufficient amount of lead-time prior to departure date. The lead-time should be no less than 10 to 14 days in advance of travel dates to ensure the lowest fares are available.

f. Commercial air travel will not be reimbursed in excess of the lowest logical airfare. Receipts are required for reimbursement for commercial air travel. Upgrades above economy at the expense of the State are not permitted without prior approval from the Commissioner of Administration or in accordance with Subparagraph h of this Subsection. If an upgrade is not approved prior to the travel date and the traveler chooses to upgrade, the cost associated with the upgrade must be paid separately by the traveler. If space is not available in economy in enough time to carry out the purpose of the travel, the traveler must obtain a statement from the airline or contracted travel agency with this information. The certification is required for travel reimbursement.

g. The state will pay for the airfare and/or penalty incurred for a change in plans or cancellation when the change or cancellation is required by the State or there are unavoidable circumstances approved by the agency's department head. Justification for the change or cancellation by the traveler's department head is required on the travel expense form.

h. When an international flight segment is more than 10 hours in duration, the state will allow the business class rate provided it does not exceed the economy rate by more than 10 percent. The traveler's itinerary, provided by the travel agency, must document the flight segment as more than 10 hours and must be attached to the travel expense form.

i. Travelers may retain frequent flyer miles earned on official state travel unless an agency deems the points as property of the state. If a traveler makes travel arrangements that favor a preferred airline/supplier to receive these reward

points and this circumvents purchasing the lowest logical airfare, they are in violation of this travel policy. Any costs in excess of the lowest logical airfare resulting from this violation are not reimbursable.

B. Unused Tickets

1. A lost or unused airline ticket is the responsibility of the person to whom the ticket was issued. Unused tickets should always be monitored by the traveler and the agency. Travelers should ensure that any unused ticket is considered when planning future travel arrangements. Some airlines have a policy that will allow for a name change to another traveler within the agency. A view of the latest airline policies regarding unused tickets are available at the Office of State Travel's website: <https://www.doa.la.gov/doa/ost/transportation/airfare-airport/>

2. Upon initial notification, it is the traveler's responsibility to determine if the ticket will be used in the future. Unused tickets are to be monitored every 30 days. If it is determined that the ticket will not be used prior to expiration and there is a possibility to transfer the ticket, the traveler must immediately advise the agency's travel administrator that the ticket is available for use by another traveler, section, or agency. The travel administrator should attempt to use the ticket for another traveler within the agency.

3. Department heads must review all unused airfare and the traveler's justification to determine if reimbursement from the traveler must be made to the agency for the cost of the unused ticket. All files must be properly documented.

4. Monitoring unused tickets can be accomplished with the unused ticket report sent to the agency's program administrator each month from the contracted travel agency. This report, in conjunction with traveler notifications while booking other flights and traveler email notifications every 120, 90, 60, 30 and 14 days prior to ticket expiration should be sufficient to reduce the loss of unused airfare.

C. Motor Vehicle

1. No vehicle may be operated in violation of state or local laws. No traveler may operate a vehicle without having a valid U.S. driver's license in his/her possession. All occupants must use safety restraints. Accidents, major or minor, shall be reported first to the local police department or appropriate law enforcement agency. An accident report form, available from the Division of Administration's Office of Risk Management (ORM), should be completed as soon as possible and must be returned to ORM with names, addresses, and phone numbers of principals and witnesses. Contact ORM with questions regarding this report.

2. Operating a state-owned, non-state owned, state-rented, or state leased vehicle for business while intoxicated, as set forth in R.S. 14:98 and 14:98.1, is strictly prohibited, unauthorized, and expressly violates the terms and conditions of use. In the event such operation results in the traveler being convicted of, pleading nolo contendere to, or pleading guilty to driving while intoxicated under R.S. 14:98 or 14:98.1, would constitute evidence of the traveler:

a. violating the terms and conditions of use of the vehicle

b. violating the direction of his/her employer, and

c. acting beyond the course and scope of his/her employment with the state of Louisiana.

3. A person should not be authorized to operate or travel in a state-owned or state-rented vehicle unless the person is an employee of the state of Louisiana or deemed an authorized traveler. All authorized traveler approvals must be kept on file at the agency.

4. Students and non-state employees are not authorized to drive state-owned or state-rented vehicle unless deemed an “authorized traveler” on behalf of the State by the department head or his/her designee. Authorized travelers can be reimbursed for their travel expenses. Anyone who is not an employee of the State of Louisiana must sign the Acknowledgement of Non-State Employees Utilizing State Vehicles form, located on the Office of State Travel’s website, <https://www.doa.la.gov/media/jcfji2il/nse-acknowledgement.pdf>, prior to riding in or driving a state-owned or state-rented vehicle. Each agency is responsible for ensuring that this form and any other necessary requirements are completed and made part of the travel file prior to travel dates.

5. Persons operating a state-owned, state-rented, or personal vehicle on official state business are responsible for all traffic, driving, and parking violations. This does not include vehicle violations for registration or inspection sticker for state-owned or state rented-vehicles, as the State and/or rental company would be liable for any cost associated with these types of violations.

6. For official in-state business, travelers must use the options below in sequential order:

a. first: a traveler should utilize a state vehicle when available;

b. second: a traveler should rent a vehicle from the State’s in-state contracts with Enterprise, National, or Hertz for travel over 99 miles;

c. third: a traveler must receive prior approval from their department head to use his/her personal vehicle and be reimbursed more than 99 miles. Reimbursements must be based on the GSA rate for mileage rounded down to the penny. The current GSA mileage rate can be found here: <https://www.gsa.gov/travel/plan-book/transportation-airfare-pov-etc/privately-owned-vehicle-pov-mileage-reimbursement-rates>

7. Motorcycles/bicycles/mopeds/motorized scooters (including e-scooters) shall not be used for official State travel. No passengers may be transported, at any time on official State Travel, on motorcycles/bicycles/mopeds/motorized scooters (including e-scooters).

D. State-Owned Vehicles

1. Travelers in state-owned automobiles who purchase fuel, repairs, and equipment needed while in travel status shall make use of the Statewide Fleet Fuel and Repair/Maintenance and bulk fuel contracts, when applicable. Purchases require receipts and only the lowest manufacturer recommended fuel should be reimbursed.

2. Department heads must give prior approval for State-owned vehicles to be used for out-of-state travel. If a state-owned vehicle is used to travel to a destination more than 500 miles from its usual location, documentation that this is the most cost-effective means of travel must be kept in the department’s travel reimbursement files. When the use of a state-owned vehicle has been approved by the department head for out-of-state travel for the traveler’s

convenience, the traveler is personally responsible for any other expense en route to and from their destination, which includes meals and lodging.

3. If a state vehicle is needed or requested to be kept at the home of a state traveler overnight, the agency and traveler should ensure it is in accordance with requirements outlined in R.S. 39:361-364.

E. Personally Owned Vehicles

1. Personal vehicle mileage is reimbursed at the published GSA rate for mileage rounded down to the penny. Personal vehicle mileage reimbursements should be based on actual physical addresses and require an odometer reading or website mileage calculator. The current GSA mileage rate can be found here: <https://www.gsa.gov/travel/plan-book/transportation-airfare-pov-etc/privately-owned-vehicle-pov-mileage-reimbursement-rates>.

2. When two or more persons travel in the same personally owned vehicle, only one reimbursement is allowed for the expense of the vehicle. The person claiming reimbursement shall report the names of the other passengers on the travel expense form.

3. At the discretion of the department head or his/her designee, mileage to and from airport(s) may be allowed while on official state business. This approval may include reimbursement for a traveler who is being dropped off and/or picked up from the airport.

4. Mileage reimbursements must not exceed the cost of the lowest logical airfare for the same trip. Travelers are personally responsible for any other expenses en route to and from the destination, which includes meals and lodging.

5. If a traveler is requested to take his/her personally owned vehicle out-of-state for a purpose that will benefit the agency, then the department head may, on a case- by-case basis, determine to pay a traveler for all or part of en route travel expenses (for example – lodging, meals, and mileage). Documentation must be kept on file to show cost savings or justification as to why personal vehicle mileage, lodging, and meals while in transit were approved for out-of-state travel exceeding 99 miles.

6. A traveler shall never receive any benefits or reimbursements because his/her residence is different from his/her official domicile. A traveler may be reimbursed mileage when starting travel from his/her residence if the mileage is less than starting travel in the traveler’s official domicile. If a traveler is leaving on a non-work day or leaving before or after work hours, the department head may determine to pay the actual mileage from the traveler’s residence.

7. When a traveler is required to regularly use his/her personally owned vehicle for agency activities, the agency head may request prior authorization from the Commissioner of Administration for a vehicle allowance. Requests for vehicle allowances must contain a detailed account of routine travel listing exact mileage for each route and justification as to why a rental vehicle is not feasible. Justifications should include a three-month travel history with a complete mileage log for all travel incurred, showing all points traveled to/from and the exact mileage. Requests for vehicle allowances are granted for one fiscal year and must be requested again each fiscal year if there is still a need. A centralized file must be kept containing all approvals.

a. If an employee is granted a vehicle allowance then mileage, fuel, and rental vehicle reimbursements or charges are not allowed for that employee. Rental vehicles are allowed for these employees when traveling out-of-state.

8. Travelers are required to pay all operating expenses for his/her personal vehicle including fuel, repairs, and insurance.

F. State-Rented Vehicles

1. The state has mandatory contracts for in-state and out-of-state vehicle rentals for business travel with Enterprise, National, and Hertz. These contracts also apply to all authorized travelers and contractors. The state does not have international vehicle rental contracts.

2. Employees receiving a vehicle allowance are only allowed to rent a vehicle when traveling out-of-state.

3. In-State and Out-of-State Vehicle Rentals

a. A rental vehicle should be used if a state owned vehicle is not available for all travel over 99 miles. In the event that an agency or traveler chooses to use a personal vehicle, refer to §150.E, of this policy, Personally Owned Vehicles.

b. All state contractors who have entered into a contract with the State of Louisiana on or after March 1, 2013, and whose contracts are required to follow PPM 49 for travel reimbursements, must use the state's mandatory contracts while conducting business on behalf of the State.

c. In-state rental vehicle reservations shall not be made at an airport location for daily routine travel unless prior approval is granted by the department head. Airport rental locations charge extra fees that will add unnecessary costs to your rental charges.

d. Charges added to the vehicle rental price must be in accordance with the mandatory rental vehicle contracts.

4. Payments. Rentals through the vehicle rental contracts shall be made using the "LaCarte" purchasing card, an agency's CBA account, an employee's state corporate travel card, or through direct bill to the agency. Agencies may decide which of these forms of payment to be used.

5. Approvals. Travel authorization forms must be approved by the department head or his/her designee prior to renting a vehicle. Agencies are allowed to approve rental vehicles on an annual basis if the travel is routine and a regular part of an employee's job duties.

6. Vehicle Rental Size

a. Only the cost of an economy, compact, intermediate, or standard vehicle is reimbursable, unless:

1. non-availability is documented; or
2. the vehicle will be used to transport more than two persons.

3. if a larger vehicle is necessary to carry equipment or multiple passengers, the vehicle shall be upgraded only to the next smallest size and lowest price necessary to accommodate the need. The file must include a justification approved by the department head or his/her designee.

b. A department head or his/her designee may authorize a larger vehicle on a case-by-case basis and provide detailed justification in the file. Justification could include, but is not limited to, specific medical requirements when supported by a doctor's recommendation or traveling with equipment.

7. Personal use of a State-rented vehicle is not allowed.

8. Fuel

a. Fuel should be placed on an agency's fuel card for rental vehicles. If your agency does not have a fuel card, reimbursements require an original receipt. If you are not able to obtain a receipt from the pump or cashier, a time stamped photo of the pump showing the number of gallons purchased and total price will suffice.

b. A traveler must purchase fuel with the State's Fuel Card, other approved credit card, or with personal funds at reasonable cost from a fuel station prior to returning the rental. Pre-paid fuel options or replacement of gasoline from the rental company is not allowed. If a traveler purchases any fuel options or programs allowing the rental vehicle company to replace gasoline without justification and prior approval from the department head, the traveler must reimburse the agency. Each agency shall familiarize itself with the Statewide Fleet Fuel and Repair/Maintenance and bulk fuel contracts. Agencies and travelers should review the terms, conditions, and locations of vendors for each contract.

9. Insurance for Vehicle Rentals within the United States

a. State rental contracts include Collision and Damage Waiver (CDW) insurance and \$1,000,000 Liability Protection Coverage. Additional insurance billed by car rental companies is not reimbursable and must not be billed to an agency.

b. Should a collision occur while on official state business, the accident should immediately be reported to the Office of Risk Management and the rental company. Any damage involving a third party must be reported to the appropriate law enforcement agency to obtain a police report.

c. Lost keys and unlocking services for rental vehicles are not covered under the damage waiver policy and can be costly. Agencies should establish an internal procedure regarding the liability of these costs.

10. Insurance for Vehicle Rentals Outside of the United States

a. The Office of Risk Management (ORM) recommends the appropriate insurance (liability and physical damage) provided through the car rental companies be purchased when the traveler is renting a vehicle outside of the United States. With the approval of the department head or his/her designee, required insurance costs must have receipts and may be reimbursed for travel outside of the United States only.

b. The following insurance packages are available by rental vehicle companies which are reimbursable:

1. collision damage waiver (CDW), should a collision occur while on official state business, the cost of the deductible should be paid by the traveler and submit a reimbursement claim on a travel expense form. The accident must also be reported to the Office of Risk Management;

2. loss damage waiver (LDW);

3. auto tow protection (ATP);

4. supplementary liability insurance (SLI);

5. theft and/or super theft protection (coverage of contents lost during a theft or fire);

6. vehicle coverage for attempted theft or partial damage due to fire by the car rental company.

c. The following are examples of insurance packages available by rental vehicle companies that are not reimbursable:

- i. personal accident coverage insurance (PAC);
- ii. emergency sickness protection (ESP).

d. Insurance is only allowed to be charged or reimbursed when renting outside of the United States.

11. Navigation Equipment (GPS System). Must be rented, not purchased, from a rental car company and may only be reimbursed if the traveler justifies the need for such equipment. Prior approval from the department head or his/her designee must be obtained and included with the travel file.

G. Ground Transportation

1. The cost of public ground transportation such as buses, subways, airport shuttles/limousines, ferries, tolls, and taxis are reimbursable when the expenses are incurred as part of approved State travel. Credit card fees charged by these services are reimbursable.

2. Public transportation to and from the airport may be reimbursed with a receipt while on official state business.

3. Uber or Lyft type services, are reimbursable with an itemized receipt. Premium vehicles are not reimbursable. Agencies may reimburse tolls, surcharges, and fees (excluding wait time fees) when it is determined that these services are the most cost effective option. Wait time fees are not a reimbursable expense. Travelers should try to utilize the most economic ground transportation without incurring additional fees or surge pricing.

a. Uber Black, Uber Black XL, and Uber Premier are not reimbursable

b. Lyft Lux, Lyft Lux Black, and Lyft Lux Black XL are not reimbursable

c. UberXL and Lyft XL are reimbursable with two or more passengers.

4. When travelers utilize a free shuttle service, a \$5 tip may be allowed (no receipt is required).

5. Airport shuttles, taxis, and all other public transportation require a receipt for reimbursement. A driver's tip may be given and the tip must not exceed 20 percent of the total charge. The tip amount must be included on the receipt received from the driver/company.

6. All other forms of public ground transportation other than those listed above are limited to \$10 per day when a receipt is not possible. Claims in excess of \$10 per day require a receipt. At an agency's discretion, the department head may implement an agency policy requiring receipts for all public transportation requests less than \$10 per day.

7. To assist agencies with verification of taxi fares, you may contact the taxi company for an estimate or visit an online taxi fare estimator. A traveler should obtain prior approval if multiple taxis will be used during a trip (not just to and from an airport). It may be in the agency's best interest to rent a vehicle rather than reimbursing multiple taxi expenses.

H. Parking and Related Parking Expenses

1. Baton Rouge Airport. The State has contracted rates for parking in the indoor parking garage and the outside fenced parking lot at the Baton Rouge Airport. The airport parking certificate and State Employee ID must be presented

to receive the contract price. If the agency does not issue a State ID, the traveler will need a business card and a driver's license along with the certificate to be eligible for the state contracted rate. Receipts are required for reimbursement of the contracted rates listed in the resource section. The airport certificate may be found on the State Travel Office's website at: <https://www.doa.la.gov/doa/ost/parking/>

§1505. Lodging

(Formerly §1506)

A. General Lodging Information

1. Lodging rates for the 48 contiguous states are based on the GSA lodging rates for the applicable location. The GSA lodging rates can be found at <https://www.gsa.gov/travel/plan-book/per-diem-rates>.

2. Alaska, Hawaii, and U.S. Territories shall follow the rate below:

a. Lodging Rate- \$225 per night

3. The state has contracted with HotelPlanner for hotel booking (use is not mandatory). Lodging rate, plus tax (other than Louisiana Sales Tax) and any mandatory surcharges are allowed.

4. When traveling in-state on official state business and expenses are being charged to an employee's State Corporate Travel Card, State's LaCarte Card, or the agency's CBA account, it is the employee's responsibility to ensure state sales taxes are not charged.

5. When two or more employees, on official state business, share a lodging room, the state will allow the actual cost of the room; subject to a maximum amount allowed for an individual traveler multiplied by the number of employees per room.

B. Conference Lodging Allowance

1. Travelers may be allowed the conference lodging rates, plus tax (other than Louisiana Sales Tax) and any

mandatory surcharge. Receipts are required along with documentation showing the actual conference rate. Department heads or his/her designee have the authority to approve the actual cost of conference lodging for a single occupancy or standard room when the traveler is staying at the designated conference hotel. If there are multiple designated conference hotels, the lower cost conference hotel should be booked, if available. In the event the designated conference hotel(s) have no room availability, a department head or his/her designee may approve to pay the actual hotel cost not to exceed the conference lodging rates for other hotels in the immediate vicinity of the conference hotel. Rates exceeding the Conference Lodging Rate must be approved by the Commissioner of Administration. This allowance does not include Agency Hosted Conference Lodging Allowances. Documentation required is a formal agenda, program, letter of invitation, or registration fee. Participation as an exhibiting vendor in an exhibit /trade show also qualifies as a conference. For a hotel to qualify for conference rate lodging, it requires that the hotel is hosting or is in conjunction with hosting the meeting.

2. Training courses held over several consecutive days and have a designated hotel and rate, could be considered a "conference hotel."

3. If staying at a designated conference hotel or an overflow hotel(s), you may not rent a vehicle unless prior approval is granted from the department head. Rental vehicles must be for official state business needs and supporting documentation must be maintained in the file.

4. No reimbursements are allowed for functions not related to a conference. Examples include tours, dances, and golf tournaments.

C. Extended Stays

1. For travel assignments approved by the Commissioner of Administration involving duty for extended periods (30 or more consecutive days) at a fixed location, the reimbursement rates indicated should be adjusted downward whenever possible. Claims for meals and lodging may be reimbursed on a per diem basis supported by a lodging receipt.

2. The only exemptions which do not require the Commissioner of Administration's approval when traveling 30 days or more are students, professors, or other state travelers which are traveling on a grant, scholarship, studying aboard or any other occasion where funds utilized are not state funds. Department head approval is required for these travelers.

D. Lodging Fees

1. Non-Conference Related Fees. Many hotels charge mandatory fees variously termed *resort fees*, *amenity fees*, *urban destination fees*, *facilities fees* and *daily destination fees*, among others. Agencies should review these fees and see what they include before authorizing reimbursement, as they can vary from simply covering internet access to including items that may be considered gifts, like tours or tickets. If the fees do not include an item that can be considered a gift, these fees are reimbursable but should not exceed the applicable lodging rate when combined with the daily room rate. These fees require department head approval if the additional cost is less than a 50 percent

increase of the daily lodging rate. Increases above 50 percent require prior approval from the Commissioner of Administration.

2. Added value charges which include, but are not limited to, early check-in fees, additional person fees, mini-bar/snack fees, gym fees, and spa fees are not reimbursable.

3. Tax recovery charges are not allowed when booking through companies other than the State of Louisiana's travel agency or its affiliated company.

E. Louisiana Sales Tax

1. Travelers are responsible for reimbursing the agency for any Louisiana sales taxes when the agency's tax exemption form is not presented at time of check-in at hotel. Contractors are subject to Louisiana sales tax and can be reimbursed for this expense.

2. Travelers should use the tax-exempt form located on the State Travel Office website for all in-state lodging: <https://www.doa.la.gov/media/er0b2lwj/travelexemption-travelexpense.pdf>

F. Lodging with Relative or Friends

1. May not be reimbursed unless the host can substantiate costs for accommodating the traveler. The reimbursement will be at the actual cost of lodging but must not exceed the lodging rate for the applicable area. The host must show proof of the added costs for water, electricity, and other expenses.

G. Hotel Reward Points

1. Travelers may retain hotel reward points earned on official state travel unless an agency deems the points as property of the state.

H. Lodging Exceptions

1. Non-Conference Lodging Overage Allowances. Department head or his/her designee has the authority to approve actual costs for routine lodging on a case by case basis, but shall not exceed 50 percent over the lodging rate for the applicable travel location. (This authority is for routine lodging only and not for conference lodging or any other area of PPM 49). Receipts, justification, and approval must be maintained in the file to show that attempts were made with hotels in the area to receive the best rate.

a. Travelers are responsible for reimbursing the agency for lodging rates that exceed the published lodging rates for the travel location unless prior approval is granted by the Commissioner of Administration.

2. In areas where the Governor has declared an emergency, a department head or his/her designee has the authority to approve actual routine lodging provisions on a case-by-case basis, but shall not exceed 75 percent over the lodging rate for the applicable travel location. Each case must be documented to justify necessity (e.g. proximity to meeting place) and cost effectiveness. Documentation, including receipts, must be readily available in the agency's travel reimbursement files and kept in accordance with record retention policies.

3. Lodging overages in excess of 1 and 2 of this Section require approval from the Commissioner of Administration prior to being paid or reimbursed by the agency. Requests for approval must contain justification and estimated costs. If prior approval is not obtained, overages must be repaid to the agency by the traveler.

4. Actual expenses for Elected Officials, Board Members (if allowed by the Board), State Officers, persons authorized by statute, or any individual with a preapproved exception will be reimbursed on an actual expense basis, for meals and lodging only, while in travel status, except in cases where other provisions for reimbursement have been made by statute. Itemized receipts are required for reimbursement. Requests must be reasonable in relation to the purpose of travel. Travelers entitled to actual expense reimbursement are only exempt from meals and lodging rates; they are subject to all other requirements as listed in these travel regulations.

§1506. Meals and Incidentals (M&IE)

A. Meals and Incidentals While In Travel Status

When an authorized traveler of the State is in travel status where no overnight stay is required, meals are not eligible for reimbursement. However, the department head is allowed to authorize single day meal reimbursements on a case-by-case basis or by types(s) of single day travel when it is determined to be in the best interest of the agency. In those cases, the agency must keep the approvals in the travel file and agencies are responsible for reporting the reimbursement as taxable wages to the traveler. Each department head or his/her designee is to determine whether the travel is best suited for single day or overnight.

a. If a department head or his/her designee determines that single day meals will be reimbursed, they must adhere to the following allowances: To receive meal reimbursements on single day travel, a traveler must be in travel status for more than 12 but less than 24 hours. Reimbursements for single day travel must not exceed 75 percent of the total M&IE rate for the applicable travel location meal rates. 8. Meals provided by relatives and/or friends may not be reimbursed unless the host can substantiate costs for providing meals to the traveler. The reimbursement amount for the traveler's portion of the meal must be reimbursed at the actual cost but shall not exceed the published meal rate for the applicable travel location. The traveler must provide documentation and obtain approval from the department head.

A reasonable delivery fee and tip may be allowed if ordered from an outside vendor. Tips should never exceed 20 percent of the meal cost.

a. Requests to the Commissioner of Administration for special meal delegations must:

- i. be submitted on agency letterhead and signed by the department head;

Emergency Rules

DECLARATION OF EMERGENCY

Department of Agriculture and Forestry Office of Animal Health and Food Safety

Alternative Livestock—Chronic Wasting Disease; Transport of Deer Heads from Quarantined Facility within Louisiana for Taxidermy Purposes (LAC 7:XXI.1705 and 1730)

In accordance with the emergency provisions of the Administrative Procedure Act, R.S. 49:962, and under the authority of R.S. 3:3101, the commissioner of Agriculture and Forestry declares an emergency to exist and adopts by emergency process the regulations set forth herein for Chronic Wasting Disease for alternative livestock facilities.

Chronic Wasting Disease (CWD) is a neurodegenerative disease found in most deer species, including white-tailed deer, mule deer, elk, red deer, moose, and caribou. It is infectious, always fatal, and has no known treatment. These diseases cause irreversible damage to brain tissue, which leads to salivation, neurological symptoms, emaciation, and death of the animal.

Pursuant to R.S. 3:3101, the commissioner of Agriculture and Forestry is vested with authority to regulate alternative livestock, including imported exotic deer and antelope, elk, facility-raised white tail deer and other exotic cervidae within the state of Louisiana.

Since 2009, the Department of Agriculture and Forestry (LDAF) has been working in conjunction with the U.S. Department of Agriculture (USDA)/Animal and Plant Health Inspection Service (APHIS) CWD Program, and since 2011, Louisiana, through LDAF, has been a Participating Approved State, as defined by that program. In compliance with that program, LDAF submits annual comprehensive Herd Certification Program (HCP) Reports to APHIS for review and endorsement, whereby the state's compliance with the program requirements and disease control efforts is monitored.

Despite the successful measures by LDAF to control the transmission and environmental contamination of CWD within alternative livestock populations, CWD continues to pose threats to cervid populations across Louisiana. Left unchecked, CWD has the potential to infect entire cervid herds resulting in considerable economic loss to cervid farmers, the deer-hunting industry, and the state of Louisiana.

On November 7, 2024, LSU Diagnostics (Louisiana Animal Disease Diagnostic Laboratory), in coordination with the National Veterinary Services Laboratory (NVSL), confirmed to the Department of Agriculture and Forestry's Office of the State Veterinarian a positive (CWD) test from a deceased deer at a deer farm in Jefferson Davis Parish. The farm, a participant in the USDA CWD Voluntary Herd Certification Program administered by LDAF, has been issued a quarantine restricting movement into or out of the facility, including live deer or deer products, and a 25-mile radius surveillance zone has been activated.

The Office of the State Veterinarian has established a surveillance zone for herds near the affected deer farm and is diligently reviewing recent movement records. All deer farms in the surveillance zone are under restricted movement until further notice.

The provisions established in this emergency regulation are necessary to prevent the spread of CWD in Louisiana into alternative livestock facilities in the state of Louisiana. For these reasons, the potential spread of CWD in Louisiana presents an imminent peril to the public health, safety, and welfare to Louisiana's citizens, the state's alternative livestock, and the state's alternative livestock industry, as set forth in R.S. 49:962(A)(1)(a).

This Emergency Rule shall have the force and effect of law upon signature, on June 10, 2025, and will remain in effect for 180 days, unless renewed by the commissioner of Agriculture and Forestry. For more information about this Emergency Rule, please contact Amy L. McInnis at (225) 922-1250.

DECLARATION OF EMERGENCY

Department of Wildlife and Fisheries Wildlife and Fisheries Commission

2025 Recreational Gag Grouper Season Modification

Louisiana's recreational gag grouper season was previously scheduled to open on June 1, 2025. The regional administrator of NOAA Fisheries has informed the secretary that the 2025 recreational season for the harvest of gag grouper in the federal waters of the Gulf of America has been modified by action of the Gulf Council and will open on September 1, 2025 until December 31, 2025 or until NOAA Fisheries projects the annual allocation has been met.

The most recent gag grouper population assessment indicated the stock is overfished and undergoing overfishing. Compatible season regulations in state waters are preferable to provide effective rules and efficient enforcement for the fishery, and to prevent overfishing of the species in the long term.

In accordance with the emergency provisions of R.S. 49:962, which allows the Department of Wildlife and Fisheries and the Wildlife and Fisheries Commission to use emergency rules to set finfish seasons, R.S. 56:326.3 which provides that the Wildlife and Fisheries Commission may set seasons for saltwater finfish, and the authority given to the secretary by the commission in LAC 76:VII.335.G.5 to modify opening and closing dates of any commercial or recreational reef fish seasons in Louisiana state waters as deemed necessary in order to maintain consistency with modifications in adjacent federal waters, the secretary hereby declares:

The season for the recreational harvest of gag grouper in Louisiana state waters shall remain closed until 12:01 a.m. on September 1, 2025, at which time it will open and remain open until 11:59 p.m. on December 31, 2025, or until otherwise modified. The season for the recreational harvest of gag grouper will then remain closed until the regularly scheduled opening of the 2026 season, currently September 1, 2026. During the closure periods above, no person shall recreationally harvest or possess gag grouper whether within or without Louisiana waters.

RULE

Department of Agriculture and Forestry Board of Veterinary Medicine

Licensing Procedures (LAC 46:LXXXV.301, 801, and 1201)

In accordance with the Administrative Procedure Act, R.S. 49:953 et seq., the Board of Veterinary Medicine ("board") has amended LAC 46:LXXXV.Sections 301, 801, and 1201 in Chapters 3, 8 and 12, respectively, in an effort to provide greater uniformity and clarity to the application for licensure language for veterinarians (DVMs), registered veterinary technicians (RVTs), and certified animal euthanasia technicians (CAETs). The amendments to Sections 301.F, 801.F, and 1201.E changed the length of time for which an application is valid from two years to one year from the initial application submission date. The board determined that this amendment is reasonable due to several changes which have accelerated the application process including: the board's transition to an online application process; the establishment of an online testing option for the required state jurisprudence exam; the repeal of the letters of recommendation requirement for licensure; the repeal of the eight-week preceptorship program requirement for DVM licensure; the addition of three total CAET trainings annually; and, the addition of a third testing window annually for the national exam (NAVLE) for DVMs. This Rule is hereby adopted on the day of promulgation.

RULE

Department of Agriculture and Forestry Office of Management and Finance

Central Registry (LAC 7:XXXVII.Chapter 1)

In accordance with Administrative Procedure Act, R.S. 49:950, et seq., and pursuant to the authority set forth in R.S. 3:3, notice is hereby given that the Department of Agriculture and Forestry, through the Office of Management and Finance, has repealed LAC 7:XXXVII.101-119, relative to the central registry for the recordation of financing statements and security devices that establish security interests in farm products. R.S. 3:3651-3660 originally established the central registry within the Department of Agriculture, and the department promulgated LAC 7:XXXVII.101-119 based on that authority. Subsequently, Act 123 of the 1990 Regular Session amended R.S. 3:3652, 3654, 3655, 3656, 3657, and 3658 to reassign the administration of the central registry to the Secretary of State's office. The Secretary of State then promulgated its own administrative rules at LAC 10:XIX.301-323 regarding the central registry within their office. Currently, LAC 7:XXXVII.101-119 is without statutory authority and is duplicative of current rules promulgated by the Secretary of State. Moreover, the central registry function has not been performed by the Department of Agriculture for a number of years. The repeal of LAC 7:XXXVII.101-119 serves to eliminate outdated rules that no longer have statutory authority. This Rule is written in plain language in an effort to increase transparency. This Rule is hereby adopted on the day of promulgation.

RULE

**Department of Environmental Quality
Office of the Secretary
Legal Affairs Division**

Aligning UST Regulations with Statute Changes
(LAC 33:XI.301, 403, 509, and 1121) (UT021)

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary has amended the Underground Storage Tanks (UST) regulations, LAC 33:XI.301, 403, 509, and 1121 (UT021).

This Rule makes changes to LAC 33:XI.Underground Storage Tanks in order to align the UST regulations with the statutory changes made in Act 167 of the 2024 Regular Legislative Session. Specifically, the Rule deletes the requirement for underground storage tank owners to have a current registration certificate in order to receive fuel deliveries. It also deletes the requirement mandating the Louisiana Department of Environmental Quality automatically prohibits delivery to underground storage tanks that do not have a current registration certificate. The Rule updates the definition of "eligible participant" in order to add temporarily closed tanks and remove the deductibles in order to make the fund a first-dollar coverage fund. The Rule raises the per release maximum amount of expenditures from \$1,500,000 to \$2,000,000, and allows the MFTF Advisory Board, with secretary approval, to reduce the noncompliance deductible below the previous \$10,000 limit. The basis and rationale for this Rule are to align LAC 33:XI.301, 403, 509, and 1121 with R.S. 2194.B.(4), 2194.1, and 2195.2.A.(1)(c)(ii). This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:963.B(3); therefore, no report regarding environmental/health benefits and social/economic costs is required. This Rule is hereby adopted on the day of promulgation.

ii. The monies expended from the MFUSTTF for any of the above approved costs shall be spent only up to such sum as that which is necessary to satisfy petroleum or motor fuel UST financial responsibility requirements specified in LAC 33:XI.1107 or \$2,000,000 per occurrence, whichever is greater. This amount shall include any third-party claim arising from the release of motor fuels from a motor fuel underground storage tank. However, if the secretary determines that further action is needed to address a condition that constitutes a danger or potential danger to the public health or the environment, monies from the MFUSTTF may be expended above the aggregate financial responsibility requirements of LAC 33:XI.1107.

2. - 3. ...

4. The MFUSTTF may be used for reimbursement of any costs associated with the review of applications for reimbursement from the MFUSTTF, legal fees associated with the collection of costs from parties who are not eligible participants, audits of the MFUSTTF, and accounting and reporting regarding the uses of the MFUSTTF.

The owner or operator stated above shall pay the amount required by Subsection B of this Section toward the satisfaction of said judgment and the MFUSTTF will pay the remainder of said judgment. The attorney general of the state of Louisiana is responsible for appearing in said suit for and on behalf of the administrative authority as representative of the MFUSTTF. The administrative authority as representative of the MFUSTTF is a necessary party in any suit brought by any third party that would allow that third party to collect from the MFUSTTF, and the administrative authority shall be made a party to the initial proceedings. Payment shall be made to the third-party claimant only if the judgment is against an owner or operator who was an eligible participant on the date that the incident that gave rise to the claim occurred. The costs to the attorney general of defending these suits, or to those assistants that the administrative authority employs or the attorney general appoints to assist, shall be recovered from the MFUSTTF. If the MFUSTTF is insufficient to make payments when the claims are filed, such claims shall be paid in the order of filing when monies are paid into the MFUSTTF. Neither the amount of money in the MFUSTTF, the method of collecting it, nor any of the particulars involved in setting up the MFUSTTF shall be admissible as evidence in any trial in which suit is brought when the judgment rendered could affect the MFUSTTF.

Title 46
PROFESSIONAL AND OCCUPATIONAL
STANDARDS

Part XLV. Medical Professions

Subpart 3. Practice

Chapter 73. Office-Based Surgery

Subchapter A. General Provisions

§7301. Scope of Chapter

A. The rules of this Chapter govern the performance of office-based surgery by individuals licensed to practice medicine, including podiatry, in this state.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:1270(A)(1), 1270(B)(6).

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Board of Medical Examiners, LR 30:424 (March 2004), amended by the Department of Health, Board of Medical Examiners LR 51:793 (June 2025).

§7303. Definitions

A. As used in this Chapter, unless the context clearly states otherwise, the following terms and phrases shall have the meanings specified.

Anesthesia—a medical intervention that causes a temporary loss of sensation or awareness, usually for medical or veterinary purposes. It prevents patients from feeling pain during procedures like surgery, dental work, and tissue sample removal. Anesthesia works by stopping nerves from sending signals to the brain.

Anesthesia Provider—an anesthesiologist or certified registered nurse anesthetist who possesses current certification or other evidence of completion of training in advanced cardiac life support or pediatric advanced life support for pediatric patients.

Anesthesiologist—a physician licensed by the board to practice medicine in this state who has completed postgraduate residency training in anesthesiology and is engaged in the practice of such specialty.

Board—the Louisiana State Board of Medical Examiners.

Certified Registered Nurse Anesthetist (CRNA)—an advanced practice registered nurse certified according to the requirements of a nationally recognized certifying body approved by the Louisiana State Board of Nursing ("Board of Nursing") who possesses a current license or permit duly authorized by the Board of Nursing to select and administer anesthetics or provide ancillary services to patients pursuant to R.S. 37:911 et seq., and who, pursuant to R.S. 37:911 et seq., administers anesthetics and ancillary services under the direction and supervision of a physician who is licensed to practice under the laws of this state

Deep Sedation/Analgesia—a drug-induced depression of consciousness during which patients cannot be easily aroused but respond purposefully following repeated or painful stimulation. The ability to independently maintain ventilatory function may be impaired. Patients may require assistance in maintaining a patent airway and spontaneous ventilation may be inadequate. Cardiovascular function is usually maintained. Monitoring of patients undergoing deep sedation shall only be performed by an anesthesia provider.

Equipment—implicit within the use of the term equipment in this Chapter is the requirement that the specific item named must meet generally accepted current performance standards.

General Anesthesia—a drug-induced loss of consciousness, by use of any anesthetic induction agent or otherwise, during which patients are not arousable even by painful stimulation. The ability to independently maintain ventilatory function is often impaired. Patients often require assistance in maintaining a patent airway and positive pressure ventilation may be required because of depressed spontaneous ventilation or drug-induced depression of neuromuscular function. Cardiovascular function may be impaired. General anesthesia shall only be performed by an anesthesia provider.

Major Conduction Anesthesia—a drug or combination of drugs to interrupt nerve impulses without loss of consciousness.

Medical Practice Act or the Act—R.S. 37:1261 et seq., as may be amended from time to time.

Medical Records—as required by this Chapter, a complete record maintained by the physician or podiatric physician performing office-based surgery to include patient history and physical, diagnostic evaluations, consultations, laboratory and diagnostic reports, informed consents, preoperative, intraoperative, and postoperative anesthesia assessments, course of anesthesia (including monitoring modalities), drug administration, and discharge and follow-up care.

Moderate Sedation/Analgesia (conscious sedation) —a drug induced depression of consciousness during which patients respond purposefully to verbal commands, either alone or accompanied by light tactile stimulation. No interventions are required to maintain a patent airway and spontaneous ventilation is adequate. Cardiovascular function is usually maintained. Monitoring of the patients undergoing moderate sedation shall be performed by qualified monitoring personnel or an anesthesia provider.

Office-Based Surgery—surgery that is performed outside a hospital, an ambulatory surgical center, abortion clinic, or other medical facility licensed by the Louisiana Department of Health or a successor agency.

Physician—a person currently certified in advanced cardiac life support or pediatric advanced life support for pediatric patients who is lawfully entitled to engage in the practice of medicine or podiatry in this state as evidenced by a current license or permit issued by the board.

Podiatrist—a person lawfully allowed to engage in the practice of podiatry as evidenced by current license or permit issued by the board.

Qualified Monitoring Personnel—health care providers appropriately trained, qualified and licensed in this state who are currently certified in advanced cardiac life support or pediatric advanced life support for pediatric patients, and who are designated to monitor and attend to patients during the preoperative, intraoperative and postoperative periods.

Reasonable Proximity—for patients 13 years of age and older, a location not more than 30 miles away or which may be reached within 30 minutes. For patients 12 years of age and under, a location not more than 15 miles away or which can be reached within 15 minutes.

Regional Anesthesia/Block—the administration of anesthetic agents that interrupt nerve impulses without loss of consciousness or ability to independently maintain an airway, ventilatory or cardiovascular function that includes but is not limited to the upper or lower extremities. For

purposes of this Chapter regional anesthesia of or near the central nervous system by means of epidural or spinal shall be considered general anesthesia.

Surgery—any operative procedure, including the use of lasers performed upon the body of a living human being for the purposes of preserving health, diagnosing or curing disease, repairing injury, correcting deformity or defects, prolonging life or relieving suffering, and/or any elective procedure for aesthetic, reconstructive or cosmetic purposes, to include, but not be limited to: incision or curettage of tissue or organ; suture or other repair of tissue or organ, including a closed as well as an open reduction of a fracture; extraction of tissue including premature extraction of the products of conception from the uterus; insertion of natural or artificial implants; or an endoscopic procedure.

Surgical Event—a potentially harmful or life-threatening episode related to either the anesthetic or the surgery. Any surgical event in the immediate perioperative period that must be reported are those which are life-threatening, or require special treatment, or require hospitalization, including, but not limited to: serious cardiopulmonary or anesthetic events; major anesthetic or surgical complications; temporary or permanent disability; coma; or death.

Only minimal or no preoperative sedation should be required or used. Level 1 office-based surgery shall only be performed on patients rated ASA class 1 or 2.

2. **Required Training.** The physician's continuing medical education must include management of toxicity or hypersensitivity to local anesthetic drugs and Advanced Life Support Certification.

3. **Required Equipment and Supplies.** The facility where office-based surgery is to be performed must contain oral airway and positive pressure ventilation device, epinephrine (or other vasopressor), corticosteroids, antihistamines, oxygen, atropine, adequate resuscitative equipment to manage the adverse effects of the anesthesia used, if any type of anesthesia is used. The equipment and skills to establish intravenous access must be available if any other medications are administered. The equipment and supplies must be suitable for and consistent with the potential patient population, i.e., pediatrics, etc.

4. **Required Additional Personnel.** Unless the specific procedure or conditions dictate otherwise, the presence or assistance of additional personnel is not required for Level I office-based surgery.

B. Level II

1. Level II office-based surgery includes:

- a. any procedure in which perioperative medication and sedation are used orally, intravenously, intramuscularly, or rectally. Such procedures include, but are not limited to: hernia repair, hemorrhoidectomy, reduction of simple fractures, large joint dislocations, breast biopsies, dilatation and curettage, thoracentesis, endoscopies, colonoscopies, hysteroscopies, and cystoscopies and closed reduction of simple fractures or small joint dislocations (i.e., finger and toe joints) performed using drug-induced alteration of consciousness. If perioperative or intraoperative medication is administered, intraoperative and postoperative monitoring is required.

- b. any procedure in which the patient is sufficiently sedated to allow the patient to tolerate unpleasant procedures while maintaining adequate cardiorespiratory function and the ability to respond purposefully to verbal command and/or tactile stimulation. Patients whose only response is reflex withdrawal from a painful stimulus are sedated to a greater degree than encompassed by this definition.

- c. any procedure that has the potential for excessive blood loss.

2. Level of anesthetic for Level II procedures includes local or peripheral nerve block, including Bier Block, plus intravenous or intramuscular sedation, but with preservation of vital signs.

6. **Required Assistance of Other Personnel**

a. In addition to the physician at least one assistant certified in Advanced Life Support must be present during any Level II procedure. Unless an anesthesiologist or certified registered nurse anesthetist is present to manage the anesthetic, there must be at least one person certified in Advanced Cardiac Life Support or pediatric advanced life support, if applicable, present during any Level II procedure.

b. A registered nurse may only administer analgesic doses of medications on the direct order of a physician.

c. An assisting anesthesia provider, including a nurse providing sedation, may not function in any other capacity during the procedure. If additional assistance is required by the specific procedure or patient circumstances, such assistance must be provided by another physician, registered nurse, licensed practical nurse, or operating room technician.

iv. Self-controlled auto-administered nitrous oxide machines, such as Pronox.

2. Only patients classified under the American Society of Anesthesiologists' (ASA) risk classification criteria as Class I, II, or III are appropriate candidates for Level III office surgery. For ASA Class III patients, the surgeon must document in the patient's record the justification for an office procedure rather than other surgical venues. The record must also document precautions taken that make the office a preferred venue for the particular procedure to be performed.

3. **Required Transfer Agreement.** The physician must have a written transfer agreement from a licensed hospital within reasonable proximity at which the physician has privileges to treat complications.

4. **Required Training and Personnel**

a. To be eligible to perform office-based surgery, the physician must document satisfactory completion of

surgical training such as board certification or board eligibility by a board approved by the American Board of Medical Specialties or American Osteopathic Association Bureau of Osteopathic Specialists. Alternative credentialing for procedures outside the physician's core curriculum and specialty training must be applied for through the board.

b. In addition to the surgeon, at least one assistant certified in Advanced Life Support must be present during any Level III procedure. At least one person certified in Advanced Cardiac Life Support must be present during any Level III procedure unless there is an anesthesiologist or certified registered nurse anesthetist to manage the anesthetic.

c. Emergency procedures related to anesthesia complications should be formulated, periodically reviewed, practiced, updated, and posted in a conspicuous location.

5. **Required Equipment and Supplies**

a. Equipment, medication and monitored post-anesthesia recovery must be available in the office. If anesthetic agents include inhaled agents, other than nitrous oxide, medications must include a stock of no less than 12 vials of Dantrolene.

f. A full and complete crash cart that contains all equipment, medications, and supplies as recommended in current best practices.

D. **Laser Devices**

1. The use of laser, pulsed light or similar devices, either for invasive or cosmetic procedures, is considered to be the practice of medicine in the state of Louisiana and therefore such use shall be limited to physicians, podiatric physicians, and qualified additional personnel directly supervised by physicians, such that a physician is on the premises and would be directly involved in the treatment if required.

2. These rules shall not apply to any person licensed to practice dentistry if the laser, pulsed light, or similar device is used exclusively for the practice of dentistry.

(LAC 46:LXVI.901, 1131, 1201, and 1205)

Notice is hereby given that the Radiologic Technology Board of Examiners, pursuant to the authority of the Louisiana R.S. 37:3207 and in accordance with the provisions of the Louisiana Administrative Procedures Act, R.S. 49:950 et seq., has amended its rules governing temporary permits, LAC 46:LXVI. The Rule changes are made in conjunction with R.S. 37: §3220 and §1127, which allow for the promulgation of rules related to permits with specific purposes and restrictions as to the type of radiologic activities that may be engaged and the types of services that may be provided to patients. Many urgent care centers throughout the state have a dire need for Limited X-ray Machine Operators (LXMO), who may perform x-rays on patients treated in a private physician office, private clinic, and/or an urgent care center. In conjunction with its authority, the board has promulgated rules to address the professional needs of medical providers in the state. The LXMO permits will be issued for a specified time frame and will apply only to persons who are working in a private physician office, private clinic, or urgent care center as outlined in these rules. This Rule is hereby adopted on the day of promulgation.

3. In place of the withholding tables in Paragraph C.2, employers may use the formulas provided in Subsection D.

D. Income Tax Withholding Formulas. The overall structure of the formulas used to compute the withholding tax is to calculate the tax on the total wage amount and then subtract the amount of tax calculated on the standard deduction. The correct withholding formula depends upon the standard deduction amount claimed and annual wages.

1. Effective on or after January 1, 2025:

a. Withholding Formula for Taxpayers Not Claiming a Standard Deduction:

W is the withholding tax per pay period.
S is employee's salary for the pay period.
N is the number of pay periods.
 $W = S \cdot .0309$

b. Withholding Formula for Single or Married-Separate Taxpayers Claiming the Standard Deduction:

W is the withholding tax per pay period.
S is employee's salary for the pay period.
N is the number of pay periods.
 $W = (S - (12500 / N)) \cdot .0309$

c. Withholding Formula for Married-Joint Return, Qualified Surviving Spouse, or Head of Household Taxpayers Claiming the Standard Deduction:

W is the withholding tax per pay period.
S is employee's salary for the pay period.
N is the number of pay periods.

Part XIX. Hunting and WMA Regulations

Chapter 1. Resident Game Hunting Season

§109. Bear Hunting Areas, Seasons, Rules and Bag Limits

A. Bear Hunting Season 2025

1. Hunting is only allowed in Bear Areas 1, 2 and 4.

2. Bear season opens the first Saturday in December and remains open through Sunday following the third Saturday in December.

B. General Rules

1. Bears may only be harvested one-half hour before sunrise to one-half hour after sunset.

2. Harvest limit is one bear per harvest permit per season.

3. Bear hunting is limited to still hunt only. The use of dogs when hunting bear is prohibited.

4. Harvest of cubs and females with cubs is prohibited. A cub is defined as any bear 75 pounds or less.

5. Bear hunting is restricted to bona fide resident hunters who are properly licensed, hunter safety certified, and possess a valid bear hunting permit issued by the department. The number of bear harvest permits issued will be determined based on Bear Area specific population estimates and vital rate data acquired at regular intervals. The number of bear harvest permits issued at any given time

during the season shall not allow the harvest to exceed the number of bears of either sex in any Bear Area that would compromise the long-term sustainability of the Bear Area population.

6. Harvest of bears without a harvest permit is prohibited. Bear harvest permits will consist of three types in Bear Area 4: Wildlife Management Area (WMA), Private Landowner, and General. Bear harvest permits will consist of two types in Bear Areas 1 and 2: Private Landowner and General. One permit allowed per hunter per season.

a. WMA Permits will authorize bear harvest for specified WMAs.

b. Private Landowner Permits will be allocated to qualifying private landowners, their designee, or lessee in Bear Areas with an open season for that permit year. To qualify for a Private Landowner Permit, applicants must provide evidence of qualifying acreage (40+ contiguous acres), proof of ownership, and payment of property taxes for property within the Bear Area for which they apply. Landowner designees must provide evidence deemed sufficient by the department that they have full agency and authority to act on behalf of a qualifying private landowner. Lessees of qualifying private lands must provide a duly executed and properly recorded lease agreement evidencing they have the right to hunt bear upon the qualifying acreage.

c. General Permits authorize hunting on private property, with landowner permission, within Bear Areas with an open season for that permit year. Individuals receiving a General Permit are responsible for coordinating with landowners to gain permission and access to hunting on their property.

7. Except as otherwise provided by law, bear harvest permits shall only be issued by lottery. Applicants shall apply to LDWF on department-approved applications prior to each season. All applications require a non-refundable application fee. Applicants for the General and WMA Permits must possess a valid resident basic hunting license and bear hunting license, or a combination license conveying equivalent privileges to apply.

a. Applicants not selected will be given an additional preference point for each subsequent year in which they apply. Each preference point serves as an additional lottery opportunity. Preference points are capped at five. Applicants must apply every year in order to earn and retain preference points. Failure to apply in any given year will result in forfeiture of previously acquired preference points for any subsequent application. Successful lottery applicants are not allowed to apply for another bear permit for two years after being drawn.

8. Transferability of bear permits: Only the private landowner permits are transferrable. Transferees must be a bona fide Louisiana resident who is properly licensed and hunter safety certified. Permits being transferred must be within 21 days of the lottery draw notification. A permit may only be transferred one time. The department shall be notified once a permit has been transferred and provided the transferees name, address, and phone number.

9. Bear hunter training: All successful applicants or transferees will be required to attend a department bear hunter training course prior to hunting. Individuals not attending a department bear hunter training course will be prohibited from hunting. Successful youth applicants must

attend bear hunting training with a properly licensed adult. The adult attending the training is responsible for supervising the youth during the bear hunt and must be within arm's reach or within the same stand or blind as the youth. A bear tag will be issued to harvest permit holders upon completion of the training course.

10. Baiting and scent attractants: Baiting is allowed November 1 to the day the season closes. Hunting over raw or processed bait and the use of a scent lure is allowed. No person shall use raw sweet potatoes or chocolate as bait or scent. The use of salt, grain or other feed that could serve as an attractant to deer is prohibited in CWD Control Areas. The department shall provide a list of approved baits to each successful applicant at the bear hunting training course.

11. Harvested bears must be tagged immediately upon harvest and prior to being moved from site of harvest. All successful bear hunters must immediately contact their designated department biologist (see permit) to report their kill and schedule biological data collection.

12. Hunter Orange or Blaze Pink: Any person hunting bears shall display on his head, chest and/or back a total of not less than 400 square inches of "hunter orange" or "blaze pink". Persons hunting on privately owned land may wear a "hunter orange" or "blaze pink" cap or hat in lieu of the 400 square inches. These provisions shall not apply to persons hunting bear from elevated stands on property that is privately owned or to archery bear hunters hunting on lands where firearm hunting is not allowed by agreement of the landowner or lessee. However, anyone hunting bear on such lands where hunting with firearms is allowed shall be required to display the 400 square inches or a "hunter orange" or "blaze pink" cap or hat while walking to and from elevated stands. While a person is hunting from an elevated stand, the 400 square inches or cap or hat may be concealed.

13. Harvested bears may be field dressed, but all other portions of the bear shall be removed from the hunting grounds. Thereafter, all edible portions of meat shall be removed from the bear for consumption. "Edible portions" include, at a minimum, all four quarters, all backstraps and tenderloins along the backbone.

14. Methods of take:

a. Bear may be taken with the following firearms, any of which may be fitted with a magnified scope:

i. Centerfire firearms .25 caliber or larger, rimfire firearms .30 caliber or larger, and shotguns 10 gauge and smaller using slugs, all of which must load exclusively from the breech.

ii. Rifles and pistols, .44 caliber or larger, or shotguns 10 gauge and smaller, all of which must load exclusively from the muzzle, use black powder or approved substitute only, take ball or bullet projectile only, including sabot bullets.

iii. Pre-charged pneumatic devices that fire a projectile of at least .30 caliber in diameter and at least 150 grains in weight with a minimum muzzle velocity of 800 feet per second or any combination of bullet weight and muzzle velocity that produces muzzle energy of at least 215 foot pounds of energy. Arrows or bolts used with a pre-charged pneumatic device shall only be used with well sharpened broadhead points.

b. Bear may be taken by legal archery gear with a minimum draw weight of no less than 30 pounds, including traditional bow, compound bow, crossbow, or any bow drawn, held or released by mechanical means.

c. All other methods of take are prohibited.

§111. General and Wildlife Management Area Hunting Rules and Regulations

A. Hunting Seasons and Wildlife Management Area (WMA) Regulations

1. The rules and regulations contained within this digest have been officially approved and adopted by the Wildlife and Fisheries Commission under authority vested by sections 115 and 116 of title 56 of the *Louisiana Revised Statutes* of 1950 and are in full force and effect in conjunction with all applicable statutory laws. The secretary of the Department of Wildlife and Fisheries (LDWF) has the authority to close or alter seasons in emergency situations in order to protect fish and wildlife resources.

2. Pursuant to section 40.1 of title 56 of the *Louisiana Revised Statutes* of 1950, the Wildlife and Fisheries Commission has adopted monetary values which are assigned to all illegally taken, possessed, injured or destroyed fish, wild birds, wild quadrupeds and other wildlife and aquatic life. Anyone taking, possessing, injuring or destroying fish, wild birds, wild quadrupeds and other wildlife and aquatic life shall be required to reimburse the LDWF a sum of money equal to the value of the wildlife illegally taken, possessed, injured or destroyed. This monetary reimbursement shall be in addition to any and all criminal penalties imposed for the illegal act.

B. Resident Game Birds and Animals

1. Shooting hours: one-half hour before sunrise to one-half hour after sunset.

C. Other Season Dates

1. Turkey. Please refer to turkey regulations.
2. Raccoon and Opossum. No closed season. Raccoon and opossum can be taken at night by one or more licensed

hunters with one or more dogs and one .22 caliber or smaller rimfire firearm. A licensed hunter may take raccoon or opossum with .22 caliber or smaller rimfire firearm, .36 caliber or smaller muzzleloader rifle, archery gear, air rifle or shotgun during daylight hours. Hunting from boats or motor vehicles is prohibited. No bag limit for nighttime or daytime raccoon or opossum hunting during the open trapping season except on certain WMAs as listed. The remainder of the year, the raccoon and opossum bag limit for daytime or nighttime is two per person per day or night. No one who hunts raccoons or opossums as prescribed above shall pelt during the closed trapping season nor sell skins or carcasses of raccoons and opossums taken during the open trapping season unless he is the holder of a valid trapping license which shall be required in addition to his basic hunting license. Pelting or selling carcasses is illegal during closed trapping season.

3. Nutria. On WMAs and private property nutria may be taken recreationally by licensed hunters from September 1 through the last day of February, during legal shooting hours by any legal hunting method with no daily limit. Except nutria may be taken on Atchafalaya Delta, Salvador/Timken, Pointe-Aux-Chenes and Pass-a-Loutre WMAs from September 1 to March 31. When taken with a shotgun, non-toxic shot must be used. On WMAs during waterfowl seasons, nutria may be taken only with the use of shotguns with shot no larger than F steel, and during gun deer seasons, anyone taking nutria must display 400 square inches of “hunter orange” and wear a “hunter orange” cap or hat. Recreational nutria hunters must remove each nutria carcass in whole condition from the hunting area, except that nutria may be gutted. Possession of detached nutria parts, including nutria tails, by recreational hunters is illegal. Nutria harvested recreationally may not be pelted nor may such nutria or any nutria parts from recreationally taken nutria be sold, including the tail. Trespassing upon private property for the purpose of taking nutria or other furbearing animals is punishable by fines and possible jail time (R.S. 56:265). The Coastwide Nutria Control Program is a separate program and is in no way related to the nutria recreational season. For questions on the Coastwide Nutria Control Program, call the Lafayette Field Office, (337) 735-8672.

4. Crows. The season for crows shall be September 1 through January 1 with no limit.

5. Pheasant. Open concurrently with the quail season; no limit.

6. Falconry. Special permit required. Resident and migratory game species may be taken except turkeys. Seasons and bag limits are the same as for statewide and WMA regulations. Refer to LAC 76:V.301 for specific falconry rules.

7. Licensed Hunting Preserve, October 1-April 30, Pen-Raised Birds Only. No limit entire season. Refer to LAC 76:V.305 for specific hunting preserve rules.

8. Deer Management Assistance Program (DMAP). Refer to LAC 76:V.111 for specific DMAP rules. Deer management assistance tags must be in the possession of the hunter in order to harvest an antlerless deer. The tag shall be attached through the hock in such a manner that it cannot be removed before the deer is transported (including those taken on either-sex days and those taken with approved

archery equipment or primitive firearms). Failure to do so is a violation of R.S. 56:115. Deer harvested on property enrolled in DMAP do not count in the season or daily bag limit for hunters when legally tagged with DMAP tags. DMAP participants must follow the deer season schedule established for their respective areas, except antlerless deer may be harvested any day of the deer season on property enrolled in DMAP provided that a DMAP tag is possessed by the hunter at the time of harvest. Failing to follow DMAP rules and regulations may result in suspension and cancellation of the program on those lands involved.

E. General Deer Hunting Regulations

1. Prior to hunting deer, all deer hunters, regardless of age or license status, must obtain carcass or electronic deer tags and have in possession when hunting deer. Immediately upon harvesting a deer, the hunter must tag the deer with the appropriate carcass or electronic tag. Deer tags may only be used by the hunter to whom the tag was issued. Hunters who allow their deer tags to be used by another person, or who use tags issued to another person, are in violation of this Rule and are subject to fines and other administrative penalties, including, but not limited to, the automatic forfeiture of any remaining deer tags for the season for which they are issued. If using physical tag, the parish and date of kill must be documented on the deer tag and the hunter must validate the harvest by calling the validation toll free number or by utilizing the department's website within 72 hours of the kill. Hunters utilizing electronic tags shall electronically tag and validate their harvest before moving the deer. Hunters harvesting deer on DMAP lands can validate deer per instructions by LDWF using the DMAP harvest data sheets.

2. **2025-2026 Season.** One antlered and one antlerless deer per day (when legal) except on Kisatchie National Forest, Indian Bayou Area owned by the US Army Corps of Engineers, and some federal refuges (check refuge regulations) where the daily limit shall be one deer per day. Antlerless deer may be harvested during entire deer season on private lands (all seasons included) except as specified in deer hunting schedule. This does not apply to public lands (WMAs, national forest lands, and federal refuges) which will have specified either-sex days. Deer harvested on property enrolled in DMAP may not count in the season or daily bag limit for hunters. See DMAP Regulations (LAC 76:V.111) for more information.

3. **2026-2027 Season.** One antlered and one antlerless deer per day (when legal) except on Kisatchie National Forest, Indian Bayou Area owned by the US Army Corps of Engineers, and some federal refuges (check refuge regulations) where the daily limit shall be one deer per day. Antlerless deer may be harvested during entire deer season on private lands (all seasons included) except as specified in deer hunting schedule. This does not apply to public lands (WMAs, national forest lands, and federal refuges) which will have specified either-sex days. Deer harvested on property enrolled in DMAP may not count in the season or daily bag limit for hunters. See DMAP Regulations (LAC 76:V.111) for more information.

4. **Bucks Only and Legal Antlered Deer** are defined as a deer with at least one visible antler of hardened bony material, broken naturally through the skin. Killing antlerless deer is prohibited except where specifically allowed.

5. **Either-Sex deer** is defined as male or female deer. Taking or possessing spotted fawns is prohibited.

6. It is illegal to hunt or shoot deer with centerfire firearms smaller than .22 caliber, rimfire firearms smaller than .30 caliber, or a shotgun loaded with anything other than buckshot or slug. Pre-charged pneumatic devices may be used during the modern firearm season for deer provided

that they fire a projectile of at least .30 caliber in diameter and at least 150 grains in weight with a minimum muzzle velocity of 800 feet per second or any combination of bullet weight and muzzle velocity that produces muzzle energy of at least 215 foot pounds of energy. Arrows or bolts used with a pre-charged pneumatic device shall only be used with well sharpened broadhead points and may be used to hunt deer only during modern firearm deer season. Handguns may be used for hunting.

7. Taking game quadrupeds or birds from aircraft, participating in the taking of deer with the aid of aircraft or from automobiles or other moving land vehicles is prohibited.

8. Still hunting is defined as stalking or stationary stand hunting without the use of dog(s). Pursuing, driving or hunting deer with dogs or moving vehicles, including ATVs, when or where a still hunting season or area is designated, is prohibited and will be strictly enforced. The training of deer dogs is prohibited in all still hunting areas during the gun still hunting and archery only season. Deer hunting with dogs is allowed in all other areas having open deer seasons that are not specifically designated as still hunting only. A dog may be used to trail and retrieve mortally wounded deer. Except in Wildlife Management Areas, a licensed hunter or tracker may pursue a deer that was legally shot and mortally wounded during legal hunting hours, after legal hunting hours, and to dispatch the deer if the deer is found alive. The licensed hunter or tracker pursuing the mortally wounded deer may utilize lights and a blood-trailing or tracking dog. No more than one dog may be used per tracking party in pursuit of the wounded deer. A second dog may be utilized for the purpose of deer retrieval training. Tracking dogs shall be on a handheld leash or utilize a GPS tracking collar. Any wounded deer, discovered alive, may be dispatched by the licensed hunter or tracker using a centerfire handgun with a barrel no longer than six inches, caliber no larger than .45 or smaller than .25.

9. It is illegal to take deer while deer are swimming or while the hunter is in a boat with motor attached in operating position; however the restriction in this Paragraph shall not apply to any person who has lost one or more limbs.

10. Areas not specifically designated as open are closed.

11. It is unlawful to import, sell, use or possess scents or lures that contain natural deer urine or other bodily fluids, except natural deer urine products produced by manufacturers or entities that are actively enrolled and participating in either the Responsible Hunting Scent Association (RHSA) or Archery Trade Association Deer Protection Program, which has been tested using real-time quaking induced conversion (RT-QuIC) and certified that no detectable levels of Chronic Wasting Disease (CWD) are present and is clearly labeled as such.

12. Primitive Firearms Season: Still Hunt Only. Specific WMAs will also be open, check WMA schedule for specific details. A deer or senior license, whichever is appropriate, is required for all hunters 18 years of age and older. Additionally, any person younger than 18 years of age hunting the primitive firearms season shall have in their immediate possession a valid, original youth license. Either-sex deer may be taken in all areas open for deer hunting except when a Bucks Only season is in progress. In such

cases, hunters must conform to the bucks only regulations except antlerless deer may be harvested any day of the deer season on property enrolled in DMAP provided that a DMAP tag is possessed by the hunter at the time of harvest.

a. Legal Firearms for Primitive Firearms Season

§113. General and WMA Turkey Hunting Regulations

A. General Regulations. Only adult gobblers (male turkeys) may be taken. An adult gobbler is defined by having one of the following: wing feathers that have white barring all the way to the tip, tail feathers that are the same length, beard that is longer than 6 inches, or a spur that is at least 1/2-inch long. Properly licensed youth under 18 years of age may take one juvenile male turkey (jake) with a beard less than six inches per season. Any turkey harvested during the youth season are part of the season bag limit of two. Taking

of hen (female) turkeys, including bearded hens, is prohibited; still hunting only. Use of dogs, electronic calling devices, motorized decoys and live decoys is illegal. Turkeys may be hunted with shotguns, including muzzleloading shotguns, using shot not larger than #2 lead, #2 non-toxic, or BB steel shot, and approved archery equipment but by no other means. Shooting turkeys from a moving or stationary vehicle is prohibited. Shotguns capable of holding more than three shells prohibited. The running of coyote with dogs is prohibited in all turkey hunting areas during the open turkey season. No person shall hunt, trap or take turkeys by the aid of baiting or on or over any baited area. Baiting means placing, exposing, depositing or scattering of corn (shelled, shucked or unshucked), wheat or other grain, salt, or other feed so as to constitute a lure, attraction or enticement to, on or over any areas where hunters are attempting to take turkeys. A baited area is any area where corn (shelled, shucked or unshucked), wheat or other grain, salt, or other feed capable of luring, attracting or enticing turkeys is directly or indirectly placed, exposed, deposited, distributed or scattered. Such areas remain baited areas for 15 days following complete removal of all such corn, wheat or other grain, salt, or other feed. Wildlife agents are authorized to close such baited areas and to place signs in the immediate vicinity designating closed zones and dates of closures. No person hunting turkeys more than 200 yards from a baited area will be in violation of the turkey baiting regulation.

B. Tags

1. Prior to hunting turkeys, all turkey hunters, regardless of age or license status, must obtain turkey tags and have them in their possession while turkey hunting. Turkey tags may only be used by the hunter to whom the tag was issued. Hunters who allow their turkey tags to be used by another person, or who use tags issued to another person, are in violation of this Rule and are subject to fines and other administrative penalties, including, but not limited to, the automatic forfeiture of any remaining turkey tags for the season for which they are issued. Immediately upon killing a turkey, hunters must attach a carcass tag to or electronically tag the turkey before it is moved from the site of the kill and must document the kill on the turkey harvest report card. If using carcass tags, the date of kill and parish of kill must be recorded on the carcass tag, and the tag must remain attached to the turkey while kept at camp or while it is transported to the domicile of the hunter or to a cold storage facility. Hunters who keep the carcass or meat at a camp must also comply with game possession tag regulations. Within 72 hours of the kill, the hunter must report the kill. Hunters may report turkeys electronically, calling the validation phone number, or using the validation website.

2. Turkey hunters purchasing licenses by phone will be given an authorization number and a LDWF identification number that will serve as their license and tags until the physical license and tags arrive by mail. Turkey hunters who have purchased a license with tags, but have not yet received their physical license and tags, must immediately tag their kill with a possession tag before moving it from the site of the kill. The authorization number and LDWF identification number must be recorded on the possession tag. Hunters must retain documentation of any turkeys killed and upon receiving their physical tags and

harvest report card, validate their kill as required in these regulations. The tags for turkeys killed prior to receiving the physical tags must be removed from the turkey harvest report card and discarded.

3. Tags removed from the turkey harvest report card prior to killing a turkey are no longer valid and if lost will not be replaced. Duplicate tags and turkey harvest report cards are available to replace lost report cards and attached tags. Hunters will be charged a fee for duplicate turkey harvest report cards and tags. Hunters that have killed a turkey prior to losing their remaining tag and harvest report card must remove and discard the duplicate tag to account for the original tag that was used and validated. Hunters must record any previously validated turkey on the duplicate turkey harvest report card.

C. Possession of Live Wild Turkeys. No person shall take live wild turkeys or their eggs from the wild. No person shall possess captive live wild turkeys, (*Meleagris gallopavo silvestris*, *M.g. osceola*, *M.g. intermedia*, *M.g. merriami*, *M.g. mexicana*) or their eggs, regardless of origin, without a valid game breeder license. No pen-raised turkeys from within or without the state shall be liberated (released) within the state.

D. Statewide Youth and Physically Challenged Season Regulations. Only youths 17 years of age or younger or hunters possessing a physically challenged hunter permit with wheelchair classification may hunt. Youth must possess a hunter safety certification or proof of successful completion of a hunter safety course. Youths must be accompanied by one adult 18 years of age or older. If the accompanying adult is in possession of hunter safety certification, a valid hunting license or proof of successful completion of a hunter safety course, this requirement is waived for youth younger than 16 years of age. Additionally, any person younger than 18 years of age shall have in their immediate possession a valid, original youth license. Adults accompanying youth may not possess a firearm or bow. Youths may possess only one firearm or bow while hunting. The supervising adult shall maintain visual and voice contact with the youth at all times, except youths 12 years old or older who have successfully completed a hunter safety course may hunt without a supervising adult. Only one gobbler (male turkey) per day may be taken and any gobbler (male turkey) taken by the hunter during this special season counts towards their season bag limit of two.

**FISCAL AND ECONOMIC IMPACT STATEMENT
FOR ADMINISTRATIVE RULES**

RULE TITLE: Voided and Voidable Claims

**I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO
STATE OR LOCAL GOVERNMENT UNITS (Summary)**

It is not anticipated that state or local government units will incur any costs or savings as a result of this proposed rule.

The Louisiana State Racing Commission proposes to amend Section 9914 (Voided and Voidable Claims) of Part XI, Chapter 99 of Title 35 (Horse Racing) of the Louisiana Administrative Code. Specifically, the proposed rule removes the following conditions under which a horse claim is voided or voidable:

Automatic Voided Claims

A claim must be voided if the horse:

- Dies on the racetrack
- Suffers an injury requiring

Discretionary (Voidable) Claims

A claim may be voided at the new owner's discretion within 1 hour after the race if the horse:

- Is vanned off the track at the direction of the official veterinarian
- Is observed by the official veterinarian to be lame or unsound while on the racetrack.
- Is observed by the official veterinarian to have bled through its nostrils while on the track.

Optional Drug and Disease Testing

The successful claimant may request that the horse be tested for the presence of equine infectious anemia (EIA) and/or erythropoietin (EPO) and/or darbepoietin

- If the EIA test is positive, the horse must be returned to the previous owner and barred from racing in the state of Louisiana.
- If the EPO/darbepoietin test is positive, the horse must be returned to the previous owner and barred from racing in the state of Louisiana until the horse tests negative.

**II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE
OR LOCAL GOVERNMENTAL UNITS (Summary)**

There is no anticipated effect on revenue collections of state or local governmental units.

**III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO
DIRECTLY AFFECTED PERSONS, SMALL BUSINESSES, OR
NONGOVERNMENTAL GROUPS (Summary)**

The successful claimant will face increased financial risk due to the reduced number of conditions under which a claim can be voided. If a claimant acquires a horse that is injured, ill, or tests positive for drugs and has no option to void the claim, they may be responsible for any resulting veterinary costs and medical treatment.

**IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT
(Summary)**

Eliminating the conditions under which a claim can be voided or made voidable may decrease buyer confidence, leading to fewer claims and, ultimately, a decline in competitive racing.

Chapter 73. Supervised Practice

§7301. Preface

A. This Chapter details reasonable minimal standards for supervised practice and establishes that the legal, administrative and professional responsibility of supervision rests with the qualified supervisor.

B. The supervisory function serves a multiplicity of purposes. Supervision provides guidance in administrative issues in the practice setting, continues and expands education in skills, offers emotional support, and provides evaluation for purposes of the supervisee's growth, as well as administrative judgment relative to the supervisee's capacity for autonomous professional function. The supervisor assigns work, sets realistic standards for achievement and offers evaluation of the supervisee's performance. The supervisor offers a perspective on the relationship between the supervisee's assignment, the rest of the setting and the facilities available outside of the setting in order that the supervisee's professional procedures are intelligently placed within the context of all of the systems affecting and influencing the client. In addition to all of this, the supervisor must deal with those personal characteristics of the supervisee which either enhance or interfere with work efficiency. The private actions and behaviors of the supervisee which are not relevant to nor expressed in the work setting shall not be dealt with in the supervisory relationship. The supervisor shall limit supervision to those areas in which the supervisor has professional expertise, as well as develop the specialized skills necessary to render competent supervision.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:2351 et seq., 37:2352, 37:2356.4, 37:2359, 37:2365

§7303. Types of Supervision

A. Continuing Professional Supervision. Continuing professional supervision is the ongoing training and oversight for the procedure furnished under the supervisor's overall direction and control, including maintenance of the necessary equipment and supplies. Supervision in this context does not require the supervisor's presence during the performance of the procedure. However, the supervisor shall be available to the supervisee during the time when the supervisee is rendering professional services, or arrange the availability of a qualified substitute supervisor who is authorized to intervene with a client. Exceptions to this provision must have prior approval by the Board of Directors.

B. General Professional Supervision. General professional supervision is direct supervisory contact between the supervisor and supervisee. Supervision in this context includes activities such as individual supervision, group supervision, specific case discussion and management, skill training, and professional development and review of the work completed by the supervisee.

§7313. Conduct of Supervision

A. Responsibility for the overall supervision of the supervisee's professional growth resides in the supervisor.

B. The board recognizes that the variability in preparation for practice of the supervisee will require individually tailored supervision. The specific content of the supervision procedures will be worked out between the supervisor of record and the supervisee.

C. The supervisor must have legal functioning authority over and professional responsibility for the work of the supervisee. This means that the supervisor must be available to the supervisee at the point of the decision-making. The supervisor's relationship with the supervisee shall be clearly differentiated from that of consultant, who may be called in at the discretion of the consultee and who has no functional authority for, nor none of the legal or professional accountability for the services performed or for the welfare of the client.

D. The supervisor is responsible for the delivery of services, the representation to the public of services, and the supervisor/supervisee relationship.

1. All clients will be informed of the availability or possible necessity of meetings with the supervisor at the request of the client, the supervisee, or the supervisor. The supervisor will be available for emergency consultation and intervention.

2. All written communication will clearly identify the supervisor as responsible for all psychological services provided. Public announcement of services and fees, and contact with the public or professional community shall be offered only by or in the name of the supervisor. It is the responsibility of both the supervisor and the supervisee to inform the client, to whatever extent is necessary for the client to understand, of the supervisory status and other specific information as to supervisee's qualifications and functions

3. Billing and receipt of payment is the responsibility of the employing agency or the supervisor. The setting and the psychological work performed shall be clearly identified as that of the licensed psychologist or licensed psychological associate. The physical location where services are delivered may not be owned, leased, or rented by the supervisee.

4. The supervisor must be paid either directly by the client or by the agency employing the supervisee. The supervisee may not pay the supervisor for supervisory services, nor may the supervisee or his immediate family have any financial interest in the employing agency.

5. The supervisor is responsible for the maintenance of information and files relevant to the client. The client shall be fully informed, to whatever extent is necessary for that client to understand, that the supervisor or the employing agency is to be the source of access to this information in the future.

E. In the event the supervisee publicly represents himself inappropriately, or supervision is not conducted as set forth in this Subpart, the Board of Directors may determine that any experience gained in that situation is not commensurate with ethical standards and thus not admissible as experience toward licensure. The Board of Directors may further find that any supervisor providing supervision under those circumstances is in violation of ethical standards which results in action by the board as authorized in this Part.

F. Termination of supervision of a candidate must be reported to the board by both the supervisor and supervisee, in writing within seven calendar days from when either party knew or should have known supervision was terminated.

§7315. Evaluation and Accreditation of Supervised Practice Leading Toward Licensure

B. Assessment of Supervisee's Performance. The board may also require the supervisee to submit reports.

C. Supervised practice time during which the supervisor deems the supervisee's performance to have been unacceptable shall not be credited toward the required supervised practice hours.

B. Prior to providing professional services in Louisiana pursuant to this section, a licensed psychological associate, or its substantial equivalent as determined by the board, who is licensed in another jurisdiction of the United States, shall apply and be approved for an Emergency Temporary Registration (ETR).

F. The authority provided for the Emergency Rule shall be applicable for a period of time not to exceed 60 days at the discretion of the board, with the potential extension of up to two additional periods not to exceed 60 days for each extension as determined appropriate and necessary by the board.

G. An Emergency Temporary Registration is not the property right of the licensed psychological associate.

H. Should a registrant fail to comply with any requirement or condition established by this Rule, the board may immediately terminate his registration. In addition, any known jurisdiction in which the registrant holds a license shall be notified of the termination of registration and any reasons therefore.

I. In the event a psychologist fails to register with the board, but practices psychology, whether gratuitously or otherwise, then such conduct will be considered the unlawful practice of psychology and the board may take action as authorized in this Chapter.

Family Impact Statement

The Board of Examiners of Psychologists hereby issues this Family Impact Statement as set forth in R.S. 49:972. The proposed Rule is related to licensing for licensed psychological associate, creating opportunities to increase workforce and accessible care to underserved populations. The proposed rules may positively impact the facilitation of qualified professionals who work with individuals and families, therefore having a positive impact on the stability of the family, family functioning and behavior, mental health, and personal responsibility of individuals as it relates to facilitating the licensure and regulations of mental health professionals who may work with individuals and families to promote their mental health, education and well-being. This Rule will not impact family earnings and family budget; the ability of the family or a local government to perform their functions; nor will it impact the authority or rights of parents regarding the education and supervision of their children.

Poverty Impact Statement

The proposed modifications impact the licensure and regulation of licensed psychological associate's in the interest of the health, safety and the welfare of the public. The rules do not have any known or foreseeable negative impact on any child, individual or family as defined by R.S. 49:973.B as it is related to asset development. Specifically, there is no known or foreseeable direct effect on: household income, assets, and financial security; early childhood development and preschool through postsecondary education development; employment and workforce development; taxes and tax credits; or, child and dependent care, housing, health care, nutrition, transportation, and utilities assistance. However, increased access to qualified mental health care could positively impact early childhood development and mitigate future expenses to families and children who do not otherwise have access to services.

Small Business Analysis

The impact of the proposed rule on small businesses as defined in The Regulatory Flexibility Act has been considered. This proposed rule is not anticipated to have an adverse impact on small businesses.

Provider Impact Statement

The proposed rule will impact only applicants for licensed psychological associate. The proposed rules include provisions to allow for supervised training of an applicant for licensed psychological associate by a licensed psychologist or a licensed medical psychologist. The proposed rules align with statewide, and most nationally accepted standards for healthcare professions by requiring minimum standards, including criminal background checks, on individuals prior to the issuance of a license to practice independently in the state of Louisiana.

Public Comments

Interested persons may submit written comments to Jaime T. Monic, Executive Director, 4334 S. Sherwood Forest Blvd., Suite C-150, Baton Rouge, LA 70816. All comments must be submitted by 12 noon on July 10, 2025.

**FISCAL AND ECONOMIC IMPACT STATEMENT
FOR ADMINISTRATIVE RULES
RULE TITLE: Licensed Psychological Associate**

**I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO
STATE OR LOCAL GOVERNMENT UNITS (Summary)**

There are estimated implementation costs for the Louisiana State Board of Examiners of Psychologists associated with promulgating the proposed rule. The board anticipates a one-time technology expense ranging from \$15,000 to \$35,000 in FY 27 to develop online application and renewal functionality for the new license type. No additional implementation costs or savings are anticipated for other state or local governmental units. Publication expenses for the Notice of Intent and final rule in the Louisiana Register are anticipated at approximately \$1,783 in both FY 25 and FY 26.

Proposed rule adopts new regulations under LAC 46: LXIII, Subpart 3, to implement Act 286 of the 2024 Regular Session, creating a new license category for licensed psychological associates (LPAs). These rules establish licensure requirements, application procedures, supervised practice standards, fees, ethical standards, and ongoing education criteria for LPAs—master’s level clinicians who practice under supervision of a licensed psychologist or medical psychologist. The rules are intended to increase access to mental health services in Louisiana, particularly in underserved areas, by creating a defined path for qualified non-doctoral professionals to lawfully provide psychological services.

**II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE
OR LOCAL GOVERNMENTAL UNITS (Summary)**

The proposed rule establishes licensure for a licensed psychological associate (LPA) and creates a fee schedule for application, examination, renewal, reinstatement, and administrative processes. It is anticipated that revenue collections for the Louisiana State Board of Examiners of Psychologists will increase as a result of the new license. Applicants for the LPA license will pay a one-time application fee of \$200, a one-time jurisprudence examination fee of \$75, and an annual renewal fee of \$200. Louisiana anticipates approximately fifteen (15) applicants per year from the three (3) universities that offer a terminal master’s program in psychology. Additionally, individuals who graduated prior to enactment of Act 286 of the 2024 Regular Session may qualify under provisions for legacy licensure, reciprocity, endorsement, and military licensing. While the Board cannot provide specific data, the requirement that applicants undergo a criminal background check may result in an indeterminable increase in revenue collections for the Louisiana State Police.

**III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO
DIRECTLY AFFECTED PERSONS, SMALL BUSINESSES, OR
NONGOVERNMENTAL GROUPS (Summary)**

It is anticipated and intended that the proposed rule will positively benefit individuals qualifying for LPA licensure. It creates expedited licensure pathways for those licensed in other U.S. jurisdictions, individuals moving back to Louisiana under the Welcome Home Act, and active-duty military members and their dependents. Qualified individuals who become licensed psychological associates will expand their employment and independent practice opportunities.

The proposed rule will have the potential to address mental health care needs in Louisiana by increasing the number of professionals qualified to provide psychological services to the citizens of Louisiana through private practice and other organizations or governmental systems.

**IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT
(Summary)**

The proposed rule is anticipated to have a positive impact on employment by creating a new licensure pathway for individuals with a master’s degree in psychology through the licensed psychological associate (LPA) credential, as established by Act 286 of the 2024 Regular Session. This credential allows professionals who previously did not qualify for independent or supervised practice under existing psychology licensure rules to now enter the behavioral health workforce. The rule outlines requirements for supervised practice, examination, continuing education, and ethical standards, thus providing a clear and regulated pathway to licensure for a previously ineligible group of psychology graduates.

By decreasing licensure barriers and formalizing the role of LPAs within Louisiana’s behavioral health system, the proposed rule is estimated to increase access to care in underserved communities and settings that experience provider shortages. Proposed changes may lead to increased availability of mental health services and greater employment opportunities across the state for both new licensees and supervising psychologists. The structured supervision and tele supervision provisions further support employment growth by allowing flexible practice arrangements.

Except for existing NSAs who timely apply for a license under §7701 of this Chapter, no NSA services shall be provided by the NSA until the NSA has been found in compliance, and the initial license has been issued to the NSA by the department. An existing NSA that timely applies for a license must receive a license within 180 days in order to continue to provide services.

B. In the event that the initial licensing review or survey finds that the NSA is compliant with all licensing laws, regulations, and any other required statutes, laws, ordinances, rules, regulations, and non-refundable fees, the department shall issue a full license to the provider. The license shall be valid until the expiration date shown on the license, unless the license is revoked.

C. D. In the event that the initial licensing review or survey finds that the NSA is deficient or noncompliant with any licensing laws, regulations, or any other required statutes, laws, ordinances, rules or regulations, but the department in its sole discretion determines that the deficiency or noncompliance does not present a threat to the health, safety, or welfare of an individual or individuals receiving services, the department may issue a provisional initial license for a period not to exceed six months.

1. The provider shall submit an acceptable plan of correction to the department for approval, and the NSA shall be required to correct all such deficiencies or noncompliance(s) prior to the expiration of the provisional license.

a. If all such deficiencies or noncompliance(s) are corrected on the follow-up licensing review or survey, a full license will be issued.

b. If all such deficiencies or noncompliance(s) are not corrected on the follow-up licensing review or survey, or new deficiencies or noncompliance(s) affecting the health, safety, or welfare of an individual or individuals receiving services is cited, the provisional license shall expire and the provider shall be required to begin the initial licensing process again by submitting a new initial license application packet and the appropriate non-refundable licensing fee.

E. An initial licensing review or survey of a NSA shall be an announced survey. Follow-up licensing reviews or surveys to the initial licensing surveys shall be unannounced surveys.

F. 1. A plan of correction may be required from an NSA where deficiencies or noncompliance(s) have been cited. Such plan of correction shall be approved by the department.

2. A follow-up licensing review or survey may be conducted for any licensing review or survey where deficiencies or noncompliance(s) have been cited to ensure correction of the noncompliant or deficient practice(s).

WILDLIFE AND FISHERIES

Part V. Wild Quadrupeds and Wild Birds

Chapter 1. Wild Quadrupeds

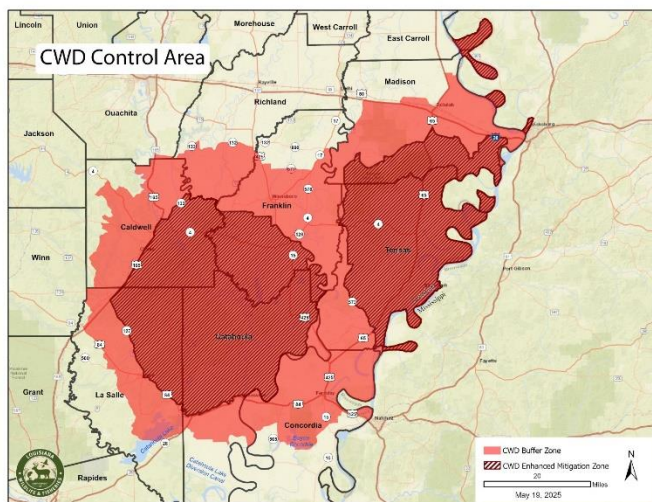

§137. Rules and Regulations for Chronic Wasting Disease Control Areas

A. Definitions

Cervid—any animal of the family *Cervidae* including, but not limited to, white-tailed deer, mule deer, elk, moose, caribou “reindeer”, fallow deer, axis deer, sika deer, and red deer.

Chronic Wasting Disease (CWD)—Neurodegenerative disease found in most deer species, including white-tailed deer, mule deer, elk, red deer, moose, and caribou. It is infectious, always fatal, and has no treatment. CWD is part of a group of diseases known as transmissible spongiform encephalopathies (TSEs) and is similar to BSE (mad cow disease) in cattle and scrapie in sheep. These diseases cause irreversible damage to brain tissue, which leads to excessive salivation, neurological symptoms, emaciation, and death of the animal.

Control Area—a designated area consisting of the CWD infectious zone and buffer zone where mitigation measures and regulations are applied to curb further spread of the disease. The Control Area is established and defined by the map below:

B. Supplemental feeding, baiting, placement of bait, or hunting over bait is prohibited within the portion of the CWD Control Area designated as the CWD Enhanced Mitigation Zone. It is the responsibility of hunters to check their hunting area for bait prior to each hunt. A baited area is an area on which salt, grain, or other feed has been placed, exposed, deposited, distributed, or scattered, if that salt, grain, or other feed could serve as a lure or attractant for wild quadrupeds or wild birds via ingestion. Supplemental feeding and baiting is allowed in the portion of the CWD Control Area designated as the CWD Buffer Zone, but only by non-stationary, mechanical or electronic broadcast methods. The use of bait not normally ingested by deer is allowed for feral hog trapping, or by holders of bear harvest permits during the designated bear baiting period.

C. The export of any cervid carcass or part of a cervid carcass originating within a designated CWD Control Area is prohibited, except for: meat that is cut and wrapped; meat that has been boned out; quarters or other portions of meat with no part of the spinal column or head attached, antlers, clean skull plates with antlers, cleaned skulls without tissue attached, capes, tanned hides, finished taxidermy mounts, and cleaned cervid teeth.

D. Approved parts transported out of the CWD Control Area must be legally possessed. Approved parts must contain a possession tag with the hunter's name, address, LDWF license number, parish of harvest, date of harvest, and sex of deer. All cervid parts transported out of the Control Area that are in violation of the provisions of this ban shall be seized and disposed of in accordance with the Wildlife and Fisheries Commission and Department of Wildlife and Fisheries rules.

E. LDWF shall establish a permitting system to allow for uncleaned cervid heads to be transported out of the Control Area solely for taxidermy purposes by waiver.

(LAC 76:I.313 and 315)

The Wildlife and Fisheries Commission does hereby give notice of its intent to amend the civil fish and wildlife values, guidelines for determining fish and wildlife values and the list of threatened and endangered species. It also establishes conversion factors to be used to convert the weight of fish and shellfish species not in whole form to whole form weight for the purpose of assigning civil restitution penalty values for commercial fish and shellfish species. Authority to establish such rules and regulations is vested in the Wildlife and Fisheries Commission by R.S. 56:40.1-40.9 and R.S. 56:1904.

The Secretary of the Department of Wildlife and Fisheries is authorized to take any and all necessary steps on behalf of the commission to promulgate and effectuate this Notice of Intent, including but not limited to, the filing of the Fiscal and Economic Impact Statement, the filing of the Notice of Intent and compiling public comments and submissions for the commission's review and consideration. Chapter 3. Special Powers and Duties

Subchapter D. Wildlife Values

**§313. Guidelines for Determining Fish and Wildlife
Values**

A. The following are the guidelines utilized by the Department of Wildlife and Fisheries in determining fish and wildlife values.

1. With respect to fish and shellfish species, the American Fisheries Society publishes hatchery values reflecting estimated costs involved in rearing various

freshwater and saltwater fish. These figures, adjusted by the Consumer Price Index; current data relating to expenditures of both sport and commercial fishermen relating to the animal or species which, directly or indirectly, result in revenues being generated for the state; ex-vessel commercial prices, as reported by the National Marine Fisheries Service and the Department of Wildlife and Fisheries Trip Ticket Program; estimated costs involved in the capture, purchase, transportation and release of species of fish; the current commercial retail selling price of living replacement animals; and, the current commercial selling price of meat and/or other products which are derived from the animal and traded in commerce, shall be considered by the department in formulating its recommendations concerning valuation.

2. With respect to avian species, existing information and estimated costs involved in the capture, purchase, transportation and release of species of birds; cost to purchase replacement animals from other states or jurisdictions; the costs to zoos and other zoological institutions to raise and maintain like animals; the current commercial retail selling price of meat and/or other products which are derived from the animal and traded in commerce; and, the expenditures of sportsmen and others relating to the animal or species which, directly or indirectly, result in revenue being generated for the state, and adjusted by the Consumer Price Index, shall be considered by the department in formulating its recommendations concerning valuation.

3. With respect to mammal species, estimated costs involved in the capture, purchase, transportation, and release of species of mammals; pelt values; costs to zoos and other zoological institutions to raise and maintain like animals; the current commercial retail selling price of meat and/or other products which are derived from the animal and traded in commerce; and the expenditures of sportsmen and others relating to the animal of species which, directly or indirectly, result in revenue being generated for the state, and adjusted by the Consumer Price Index, shall be considered by the department in formulating its recommendations concerning valuation.

4. With respect to reptiles and amphibian species, the estimated costs involved in the capture, purchase, transportation and release of species of reptiles and amphibians; pelt or hide values, costs to zoos and other zoological institutions to raise and maintain the animal; the current commercial retail selling price of meat and/or other products which are derived from the animal and traded in commerce; and the expenditures of hunters, trappers, and recreational sportsmen with respect to the animal or species which, directly or indirectly, result in revenues being generated for the state and adjusted by the Consumer Price Index, shall be considered by the department in formulating its recommendations concerning valuation.

5. Certain species are highly prized because of their rarity or may have a high intangible perceived value placed on the animal or species by the public. Other species have an intrinsically high value because they are threatened or endangered. In addition to the guidelines set forth above, the department shall, with respect to these rare and/or threatened and/or endangered species which might have limited commercial value but which possess a high intangible, intrinsic, aesthetic, ecological, or biological value, consider

those factors when determining its recommendations with respect to valuation.

6. Not all the criteria set forth in the guidelines above will be applicable to each particular series and each criterion or factor shall be considered by the department only insofar as it is applicable to each particular species.

AUTHORITY NOTE: Promulgated in accordance with R.S. 56:40.1-40.9.

RULE TITLE: Benefits for Domestic Violence Victims**

**I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO
STATE OR LOCAL GOVERNMENT UNITS (Summary)**

There are no anticipated implementation costs or savings to state or local governmental units as a result of the proposed rule change. The proposed rule change eliminates rules related to the Domestic Violence Victims Account and associated unemployment insurance benefits for victims of domestic abuse, a program discontinued following the repeal of R.S. 23:1771 through 1776 and the dissolution of the fund by Act 834 of the 2012 Regular Session.

**II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE
OR LOCAL GOVERNMENTAL UNITS (Summary)**

Implementation of the proposed rule change will have no effect on revenue collections of state or local governmental units, as the underlying statutory program was repealed in 2012 by Act 834 and is no longer operational.

**III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO
DIRECTLY AFFECTED PERSONS, SMALL BUSINESSES, OR
NONGOVERNMENTAL GROUPS (Summary)**

The implementation of the proposed rule change will not result in any estimated costs and/or economic benefits to directly affected persons, small businesses, or non-governmental groups, as the underlying program was eliminated by statute in 2012 and is no longer in operation.

**IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT
(Summary)**

The proposed rule change will have no known effect on competition and employment.

(LAC 40:IV.107 and 109)**

Pursuant to the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., and through the authority granted in R.S. 36:304 and R.S. 23:1653, notice is hereby given that the Louisiana Workforce Commission proposes to amend LAC 40:IV.107 and 109 relative to computation of time periods established by rule that affect appeals and reopenings of administrative decisions of the Office of Unemployment Administration. Currently, the rules provide that weekends and holidays be counted for computing time delays, except when the final day falls on a weekend or holiday. With the

2019 changes to C.C.P. art. 5059, legal holidays must be excluded when the time delay is associated with appeals and requests for rehearing or reopening. The proposed amendments to the Rule will implement these changes.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: Overpayment Recovery

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule change is expected to result in annual cost savings to the Louisiana Workforce Commission (LWC) due to reduced printing and postage expenses associated with the delivery of repayment agreements.

Based on repayment agreement volumes and mailing costs from calendar year 2024, LWC estimates potential annual savings of approximately \$12,705.23. This amount reflects what would have been saved had the rule been in effect at that time, and actual savings in future years are anticipated to vary depending on the number of repayment agreements issued.

LWC's current system has the capacity to deliver notices electronically based on an individual's preferred method of communication, therefore no system modifications or additional expenditures are anticipated to implement the rule change.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule change is not anticipated to have any impact on state or local revenue collections.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS, SMALL BUSINESSES, OR NONGOVERNMENTAL GROUPS (Summary)

The rule change is expected to benefit individuals with unemployment insurance overpayments by providing a more efficient and timely means of communication. Allowing repayment agreements to be delivered electronically will enable affected individuals to receive documents more quickly and securely, minimizing delays and enhancing overall communication.

For individuals who prefer electronic communication, this change enhances convenience and may eliminate the need to manage physical mail. The rule change aligns with LWC's plain language initiative and supports the modernization of its communication practices.

Small businesses and other non-governmental entities are unlikely to be directly affected, as the rule change applies specifically to individuals with unemployment insurance overpayments.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed rule change is not anticipated to have any effect on competition or employment in either the public or private sector.
