DEFINITIONS

APPROVED - Recognition and approval by the State department of education, State department of health, or other appropriate authority where no recognized accrediting board, association, or other authority exists for the purpose of making an accreditation. For an educational institution or an educational program, approval must relate to academic or instructional standards established by the appropriate authority. An educational institution or program may be considered approved if its instruction and credits therefor are accepted by three accredited or State-approved institutions, or if it meets the academic or instructional standards prescribed for public schools in the State, i.e., the organizational entity or program is devoted primarily to approved academic, vocational (including technical or occupational), or professional study and instruction which operates primarily for educational purposes on a full-time basis for a minimum school year as prescribed by the State and employs a full-time staff of qualified instructors. For a public health institution or program, approval must relate to the medical requirements and standards for the professional and technical services of the institution established by the appropriate authority. A health institution or program may be considered as approved when a State body having authority under law to establish standards and requirements for public health institutions renders approval thereto whether by accreditation procedures or by licensing or such other method prescribed by State Law. In the absence of an official State approving authority for public health institution or program, or educational institution or program, the awarding of research grants to the institution or organization by a recognized authority such as the National Institute of Health, the National Institute of Education, or by similar national advisory council or organization may constitute approval of the institution or program provided all other criteria are met.

ACCREDITED - Approved by a recognized accrediting board or association, at a regional, State or national level such as a State board of education or health; the American Hospital Association; a regional or national accrediting association for universities, colleges, or secondary schools; or another recognized accrediting association.

For purposes of this regulation, the term does not include any individual imprisoned or otherwise detained pursuant to an Act of the Congress or State Law.

The term includes but is not limited to hospitals, clinics, alcoholic and drug abuse treatment centers, public health or treatment centers, research and health centers, geriatric centers, laboratories, medical schools, dental schools, nursing schools, and similar institutions. The term does not include institutions primarily engaged in domiciliary care although a separate medical facility within such a domiciliary institution may qualify as a "medical institution".

This definition of museum does not include any institution which exhibits object to the public if they display or use of the objects is only incidental to the primary function of the institution.
