Mr. Moses explained that FP&C had already requested and the State Bond Commission (SBC) had approved $1.45 billion in lines of credit. However, with a capacity of $1.55 billion, they didn’t think it prudent to recommend lines of credit for the full capacity because SBC had advised there would not be funds available for the full amount. Therefore, he said they are asking the Interim Emergency Board to take the balance of the Priority 1s in the capital outlay bill that have not yet received a line of credit and move them to Priority 5 designation so they can be addressed as a non-cash line of credit, which would keep them in the queue to possibly move up next fiscal year for lines of credit as funds are needed and available.

Sen. Alario said he recalled that in the last SBC meeting there were some efforts made to move some projects into P2 highway projects and improvements to universities throughout the state. He asked Mr. Moses if, since many of these projects are not ready to go yet, that might prevent them from moving forward on some of the highway projects and improvements to universities. Mr. Moses stated that Sen. Alario was correct in that assumption.

Sen. Alario then asked if the projects were moved to P5 now, would they have a valid reason to try to move the projects up in the next capital outlay effort. Mr. Moses agreed. He explained that they will begin developing the FY18 capital outlay bill in January and February and that these projects would then be looked at as new P5s. If it was expected that the projects would need cash in FY18, then they would recommend moving them into P1s in the original bill for 2018. He pointed out that the important thing to focus on here is that if these projects are not moved to P5s now and were to remain as P1s in the Impossible and Impractical (I&I) category (which designation had been granted by SBC), there would be no way for them to obtain a cash line of credit in P1 next year. Thus, it is better to be in a P5 with the ability to move up to P1 next year as opposed to staying as a P1 without a line of credit.
With no further discussion of the matter, Commissioner Dardenne motioned to approve; second by Sen. LaFleur. The motion passed with no objection.

With no further business to conduct, Rep. Henry moved to adjourn. The meeting was adjourned with no objection at 9:53am.

Respectfully submitted,

Sue Israel, Secretary
