## Department of Wildlife and Fisheries

### Department Description

To manage, conserve, and promote wise utilization of Louisiana's renewable fish and wildlife resources and their supporting habitats through replenishment, protection, enhancement, research, development, and education for the social and economic benefit of current and future generations; to provide opportunities for and to encourage the use and enjoyment of these resources in a safe and healthy environment both on land and on water.

The goals of the Department of Wildlife and Fisheries are:

- I. To provide the most effective and efficient support services, enforce compliance with policies and regulations in all department programs, and promote good customer service and to increase the public visibility of the department.
- II. To operate all programs efficiently and effectively through sound planning and decision-making processes resulting in sustainability of the state's natural resources.
- III. To support natural resource preservation by providing frontline enforcement component of laws, regulations, and programs related to wildlife and fisheries use, conservation, and management. Hours worked and public contacts associated with wildlife, fisheries and ecosystem enforcement, education and community policing programs are the most relevant measures of the activities related to work toward improving and sustaining the state's natural resources.
- IV. To advance crime and safety reform by protecting Louisiana citizens of all ages from life-threatening criminal activities when they are involved in recreational activities on the state's waterways. Hours worked and public contacts associated with boating safety and waterway enforcement, education and community policing programs are the most relevant measures of the activities related to work toward reducing illegal and dangerous activities of the state's waterways.
- V. To lead, coordinate and provide emergency response services for search and rescue and maritime security operations. Enhance Louisiana's collaborative efforts in the maritime domain and build a safe and secure environment that supports public safety, public confidence and ensures economic stability.

- VI. To enhance and maintain the quantity and quality of wildlife habitat which ensures that there are diverse and sustainable wildlife populations. To provide wildlife related recreational and commercial opportunities for consumptive and non-consumptive users. To provide technical assistance and utilize educational programs to produce informed and satisfied clients.
- VII. To provide high quality fishery management information through effective data collection, analysis and information sharing. To be effective, efficient steward of our renewable aquatic resources. Provide and enhance recreational fishing experience through improved access, opportunity and public awareness. Maintain a sustainable and economically viable fisheries environment. Create a work environment in which all Fisheries staff are enabled and empowered to achieve the Office's goals and objectives.

The Department of Wildlife and Fisheries is comprised of four agencies: Office of Management and Finance, Office of the Secretary, Office of Wildlife, and Office of Fisheries. The Office of Management and Finance is comprised of one program: Management and Finance. The Office of the Secretary is comprised of two programs: Administrative and Enforcement. The Office of Wildlife is comprised of one program: Wildlife. The Office of Fisheries is comprised of one program: Fisheries.

## 511\_1000 — Management and Finance

Program Authorization: Louisiana Constitution of 1974, Article IX, Section 7; R.S.36.8 and 36.607

### Program Description

The Management and Finance Program performs the financial, licensing, program evaluation, planning, and general support service functions for the Department of Wildlife and Fisheries so that the department's mission of conservation of renewable natural resources is accomplished.

The goal of the Management and Finance Program is:

- I. To provide the most effective and efficient services.
- II. To enforce compliance with policies and regulations in all department programs.
- III. To promote good customer service.
- IV. To increase public visibility of the department.

The activities of the Management and Finance Program are:

- Administrative - This activity includes the positions and funding necessary to undertake the administrative functions of the Office of Management and Finance. This Administrative activity includes the position of the Undersecretary which manages and directs the operations of these sections in OMF: Fiscal, Property Control, and, Licensing. The budget for this unit also includes the liability insurance premiums for the Office, statewide common costs such as telephones and utilities, and state control agency costs for the whole Department of Wildlife and Fisheries.
- Licensing and Boat Registration/Titling - This activity is responsible for issuance of many and varied types of licenses, permits and registrations according to the statutes regulating wildlife, fisheries and boating activities for both recreational and commercial users. The recreational hunting and fishing license Point of Sale system is contracted and licenses are sold at Headquarters, Wal-Mart, and statewide local vendors, while boat registrations and titles, and commercial fishing transactions are only handled either through the mail or in person at the headquarters office in Baton Rouge.
- Support Services - The sections in this activity perform the financial and administrative support services for all programs in the department. These include: safety program for all statewide facilities, movable property inventory and management (approx \$70 million), liability insurance claims, financial and federal grant reporting, strategic planning, cash management, accounts payable, and budget preparation and monitoring. This activity includes 17 staff positions. In addition to routine support services, this activity also serves as liaison for the department with the Office of Homeland Security and the Federal Emergency Management Agency regarding damages to our facilities and the search and rescue functions.

## Source of Funding

This program is funded with Interagency Transfers, Statutory Dedications, and Federal Funds. Interagency Transfers are from the Department of Wildlife and Fisheries - Office of Fisheries for the purpose of funding positions related to the management and finance duties of the Seafood Safety and Fisheries Monitoring Programs. Statutory Dedications are derived from severance taxes, royalties on land and minerals, leases, etc. and distributed into the Conservation Fund created by R.S. 56:10(E), the Marsh Island Operating Fund created by R.S. 56:798, the Louisiana Duck License Stamp and Print Fund created by R.S. 56:10(B), the Rockefeller Wildlife Refuge and Game Preserve Fund created by R.S. 56:797 and the Seafood Promotion and Marketing

Fund created by R.S. 56:10(E) (Per R.S. 39:36B. (8), see table below for a listing of expenditures out of each statutory dedication fund.). The Federal Funds are derived from the US Coast Guard, GSMFC SUP2, GSMFC - SALT Grants, Economic Disaster Relief - LA (GIDS) and the Gulf States Marine Fisheries- Trip Ticket. These funds are used for the overall management and support services of the Department, as well as research and other federal projects.

## 512\_2000 — Enforcement

Program Authorization: Louisiana Constitution of 1974, Article IX, Section 7; R.S. 56:01 et. seq.; R.S. 36:605 B(4)(a)

### Program Description

The mission of the Enforcement Division is to establish and maintain compliance through the execution and enforcement of laws, rules and regulations of the state relative to the management, conservation and protection of renewable natural wildlife and fisheries resources and relative to providing public safety on the states waterways and lands for the continued use and enjoyment by current and future generations.

The goals of the Enforcement Program are:

- I. To support natural resource preservation by providing the front line enforcement component of laws, regulations, and programs related to wildlife and fisheries use, conservation and management. Hours worked and public contacts associated with wildlife, fisheries and ecosystem enforcement, education and community policing programs are the most relevant measures of the activities related to work toward improving and sustaining the state's natural resources.
- II. To advance crime and safety reform by protecting Louisiana citizens of all ages from life-threatening criminal activities when they are involved in recreational activities on the state's waterways. Hours worked and public contacts associated with boating safety and waterway enforcement, education, and community policing programs are the most relevant measures of Louisiana Department of Wildlife and Fisheries-Law Enforcement Division (LED) activities related to work toward reducing illegal and dangerous activities on the state's waterways.
- III. To lead, coordinate and provide emergency response services for search and rescue and maritime security operations. Enhance Louisiana's collaborative efforts in the maritime domain and build a safe and secure environment that supports public safety, public confidence and ensures economic stability.

The activities of the Enforcement Program are:

- Wildlife, Fisheries and Ecosystem Enforcement – LDWF/LED is responsible for assuring public compliance with state and federal laws, regulations, and programs which promote, manage and enhance the conservation of Louisiana's wildlife and fisheries resources and protect and sustain their supporting ecosystems. This activity is conducted through patrols of Louisiana's forest, woods and marshes, in-vessel patrols of Louisiana's in-shore and off-shore waters and investigations of relevant commercial facilities. The LDWF/LED also conducts community policing activities which publicize legal practices, encourage voluntary compliance and promote safe participation in recreational and commercial activities which use Louisiana's natural resources.

- Boating Safety and Waterway Enforcement – LDWF/LED is responsible for providing public safety on Louisiana’s vast waterways through education and enforcement of criminal statutes. These responsibilities include maintaining and improving public compliance with boating safety laws, investigating all reportable recreational boating fatalities and crash incidents, enforcing laws restricting the operation of vessels under the influence of alcohol or drugs and administering the state’s mandatory boating education program for operation of motorboats. The LDWF/LED also maintains authority for permitting regattas and other marine events and ensuring compliance with boating safety regulations. LDWF/LED boating safety and waterway enforcement activities are conducted through boating incident investigations, community policing activities and in-vessel patrols of Louisiana’s inshore and offshore waterways. These activities recruit new recreational boaters, encourage safe and legal activities, protect property and save lives. LDWF/LED regularly coordinates its boating safety and waterway enforcement activities with local law enforcement waterway efforts to direct the state’s safety efforts on Louisiana’s waterways.
- Search and Rescue & Maritime Security – LDWF/LED is responsible for providing and coordinating search and rescue response activities for the state. This activity includes state response and coordination of local, parish and federal responses to natural or man-made disasters or other homeland security events involving urban, rural and maritime search and rescue and maritime security activities. The activity includes exercises, training, first response to search and rescue events, maritime security patrols and initiatives focused on saving lives and protection of critical infrastructure. LDWF/LED is the state’s lead agency for the emergency support search and rescue and maritime security functions and supports emergency support functions for transportation, communications, firefighting, emergency management and public safety and security.

## 513\_1000 — Wildlife

Program Authorization: Louisiana Constitution of 1974, Article IX, Section 7; R.S. 36:13 et seq.; R.S. 56:1 et seq.

### Program Description

The Wildlife Program provides wise stewardship of the state's wildlife and habitats, to maintain biodiversity, including plant and animal species of special concern and to provide outdoor opportunities and education for present and future generations to engender a greater appreciation of the natural environment.

The goals of the Wildlife Program are:

- I. To enhance and maintain quantity and quality of wildlife habitat which ensures diverse and sustainable wildlife populations in the State of Louisiana.
- II. To provide wildlife related recreational and commercial opportunities for consumptive and non-consumptive users.
- III. To provide technical assistance and utilize educational programs to produce informed and satisfied clients.

The activities of the Wildlife Program are:

- **Habitat Stewardship** - This activity is responsible for the management of the Wildlife Management Area (WMA)/Refuge system. This activity, through maintenance and habitat management practices is designed to improve the quality and quantity of public outdoor recreational opportunities. It provides and maintains public access to the WMA system. This activity serves to maintain, enhance and protect the habitat necessary to sustain the wildlife resources in Louisiana. Healthy sustainable habitat for wildlife is vital to natural resource conservation in Louisiana. Management activities include habitat (waterfowl impoundments, food plots, opening management, prescribed burning forest management) and infrastructure (roads, trails, campgrounds) development and maintenance as well as monitoring public use, habitat conditions and various wildlife populations. Public access, including hunting or fishing, is a key element of every WMA and Refuge.
- **Species Management** - This activity serves to monitor the health and status of wildlife populations statewide. This is achieved through research, surveys, and data analysis to ensure availability for safe utilization and enjoyment by the public. While these activities are predominantly performed on Wildlife Management Areas (WMA's), personnel also provide technical assistance to the public on habitat enhancement and management specifically for deer, waterfowl, upland game and turkey. This activity is responsible for setting hunting seasons for the various game species in Louisiana. Personnel in this activity develop population estimates through various scientific methods (aerial surveys, banding, habitat evaluations, etc.) This activity serves to maintain and protect Louisiana's wildlife for future generations, by proper determination of game species status and respective season establishments. This activity is responsible for the proper management of alligator and furbearer resources of the State and meeting all federal and Convention on International Trade of Endangered Species Treaty requirements. Other responsibilities include implementing the Coastwide Nutria Control Program which, through federal funding, provides incentive payments to fur trappers to increase the nutria harvest in order to minimize the impact of nutria on coastal wetland habitats.

- **Education Outreach** - The Louisiana Hunter Education Program provides the public with credentials documenting successful completion of a hunter education training course. It provides basic hunter education training to the public in the safe use of hunting equipment, hunter responsibility, ethics, and knowledge of wildlife resources. It provides training to persons desiring to become hunter education instructors and in-service training for instructors to remain current with programs policies and procedures. It also conducts evaluations of volunteer instructors and makes recommendations or changes based upon information gathered. Environmental Education reviews and initiates education grants to help classroom teachers buy the tools needed for environmental science education. It also provides professional non-formal educator grants for putting on environmental education workshops, and university grants for Master or PHD students to fund their research. In addition, it facilitates a state symposium for environmental educators. Environmental awareness is also achieved through a state art and language arts environmental awareness contest and a website containing news, events and resources pertaining to environmental issues.
- **Technical Assistance** - Advises the public through written management plans on habitat enhancement and management primarily for species of game animals and other wildlife. This unit also provides technical management expertise for enhancement and monitoring of the wildlife resources associated with these lands. Biologists gather and compile data on wildlife resources, determine the requirements for conserving the resources and provide information and technical assistance to governmental agencies, non-governmental entities and the public. Data are also gathered on the potential impacts of human activities on the resources. These data and recommendations are provided to planners and decision-makers in advance of execution of projects in order to avoid, minimize or mitigate for any adverse environmental impacts.
- **Administration** - This activity through administration, establishes internal structure and processes that enable the Department to provide wise stewardship of the state's wildlife and habitats, to maintain biodiversity, including plant and animal species of special concern, and to provide outdoor opportunities for present and future generations to engender a greater appreciation of the natural environment. This activity ensures that the Department's goals, objectives, and outcomes are being met, and are managed properly. It insures the proper management of wildlife resources of the State to meet all federal and Convention on International Trade of Endangered Species Treaty requirements.

## 16-514 — Office of Fisheries

### Agency Description

The Office of Fisheries manages living aquatic resources and their habitat, to give fishery industry support, and to provide access, opportunity and understanding of the Louisiana aquatic resources to the citizens and other beneficiaries of these sustainable resources.

The goals of the Office of Fisheries are:

- I. To provide high quality fishery management information through effective data collection, analysis and information sharing.
- II. To be an effective, efficient steward of our renewable aquatic resources.
- III. To provide and enhance recreational fishing experience through improved access, opportunity and public awareness.
- IV. To maintain a sustainable and economically viable fisheries environment.
- V. To create a work environment in which all fisheries staff are enabled and empowered to achieve the office’s goals and objectives.

For additional information, see:

## 514\_1000 — Fisheries

Program Authorization: Louisiana Constitution of 1974, Article IX, Section 7; R.S.56:1 et seq.; R.S. 36:601 et seq.; R.S. 30:214 et seq.; R.S. 35:3101 et seq.; and R.S. 30:2451 et seq.

### Program Description

The Fisheries Program manages living aquatic resources and their habitat, gives fishery industry support, and provides access, opportunity and understanding of the Louisiana aquatic resources to citizens and others beneficiaries of these sustainable resources.

The goals of the Fisheries Program are:

- I. To provide high quality fishery management information through effective data collection, analysis and information sharing.
- II. To be an effective, efficient steward of our renewable aquatic resources.
- III. To provide and enhance recreational fishing experience through improved access, opportunity and public awareness.
- IV. To maintain a sustainable and economically viable fisheries environment.
- V. To create a work environment in which all Fisheries staff are enabled and empowered to achieve the Office's goals and objectives.

The activities of the Fisheries Program are:

- Fisheries Resource Management – The Office of Fisheries collects the basic ecological data needed to efficiently and effectively manage fishery resources to benefit constituent groups, i.e., commercial and recreational users, and visitors. Marine fishery sustainability is further accomplished through interstate compacts that develop joint programs to manage common resources for the benefit of all.
- Extension - Extension of the Department of Wildlife and Fisheries Office of Fisheries (LDWF/OF) accomplishes its objective by providing and maintaining artificial reefs, responding to threats from invasive species, managing public access sites and engaging and supporting the resource's beneficiaries. This program is responsible with public accessibility to the fisheries resource of the State and the outreach to promote and educate the public on the opportunities available.

## Source of Funding

This program is funded with Interagency Transfers, Fees and Self-generated Revenues, Statutory Dedications and Federal Funds. Interagency Transfers are from the Department of Natural Resources, Department of Environmental Quality, Division of Administration, and La. Oil Spill Coordinators Office. Statutory Dedications are from the the Aquatic Plant Control Fund created by R.S. 56:10.1, Artificial Reef Development fund created by R.S. 56:639.8, the Conservation Fund created by R.S. 56:10(E), the Derelict Crab Trap Removal Program created by R.S. 56:10(13), the Oyster Sanitation Fund created by R.S. 40:5.10, and the Public Oyster Seed Ground Development Account by R.S. 56:434. (Per R.S. 39:36B(8), see table below for a listing of expenditures out of each statutory dedication fund.) Federal Funds are received from the US Fish & Wildlife Sport Fish Restoration, National Marine Fish Environmental Perturbation, US Fish & Wildlife Service Stock Assess-

ment of Finfish, National Marine Fish Service, National Marine Fish Gulf State Marine Fisheries Commission, Gulf of Mexico Fish Management, Coastal Wetlands Planning & Protection, Gulf States Marine Fish Commission, National Fish & Wildlife Foundation, Environmental Protection Agency Coastal Assessment, US Fish & Wildlife Sport Fish Restoration, US Department of Interior Aquatic Nuisance Species Management, and US Department of Interior Big River Inventory.

Number of licensed commercial fishers (LAPAS CODE - 21378)	13,774	13,674	14,235	13,554	13,063
<p>Calculated by Socio-Economic Section by merging resident and non-resident commercial fishing license holders (allow a person to fish commercially) with commercial vessel licenses (allow a vessel to be used to fish commercially in saltwater areas.) Resident and non-resident numbers are combined. This accounts for multiple vessels that might be held by a single person, and eliminates persons who commercially fish only in freshwater areas.</p>					
Number of licensed saltwater recreational fishers (LAPAS CODE - 21379)	504,828	523,079	411,778	558,304	629,789
<p>Calculated as resident and non-resident recreational fishing licenses that allow fishing for saltwater species. Trip licenses, e.g., for charter trips, potentially duplicate entries for individual fishers, but those are a small fraction of the total number. Total license numbers were computed per the protocols established by the Socio-Economic Section for identifying participation in saltwater recreational fishing. License types vary from year to year, depending on new legislation. These were aggregated into: (1) Resident Saltwater Fishing/Saltwater Trip; (2) Non-resident Saltwater Fishing/Saltwater Trip; (3) Resident and Non-resident Fishing and Hunting/Fishing Combinations (excluding hunting only); and (4) Resident and Non-resident Lifetime Fishing and Hunting/Fishing Combinations.</p>
