5. Discussion and approval of the projected employee contribution rate for the Harbor Police Retirement Plan within LASERS for Fiscal Year 2015-16

PRSAC approved this CEA on November 19, 2014. Ms. Johnson explained the options given to existing members of the Harbor Police Retirement Plan (Plan) within LASERS and terms for new commissioned employees and established payments for the UAL. The LASERS Board of Trustees approved the projected employer contribution rate for the Plan for FY 15/16 as 4.2 percent at its June 26, 2015 meeting. The rate supplements the valuation approved by PRSAC for LASERS in November 2014.

Mr. Hall moved that PRSAC approve the employer projected contribution rate for FY 15/16 as 4.2 percent for the Harbor Police Retirement Plan. Mr. Henson seconded the motion and with no objection, the motion was approved.

6. Discussion of current status of State Retirement Systems (as amended)

Mr. Purpera explained the concerns about state retirement systems which led to his actuary staff preparing a presentation from their perspective of the sustainability of the LASERS and TRSL systems.

Mr. Richmond read a statement of his actuarial qualifications, and explained that his presentation was based on the assumptions and methods used by the actuary for the retirement systems. He stated that by the end of his presentation, the audience could judge for themselves the sustainability of the Louisiana State Retirement Systems. Mr. Richmond explained what sustainability means, and the principles that apply to sustainability and actuarial soundness. His presentation also included: Intergenerational Equity; Prudent Investment of Assets; Cost Stability and Predictability; Financial Willingness or Ability to Pay; Funding Strength; Compliance with Actuarial Standards of Practice. His conclusion detailed the sustainability of costs associated with benefit accruals under the current defined benefit plans, and the sustainability associated with unfunded accrued liabilities.
Discussion included treating administrative expenses as a loss, cutbacks, COLAs, and the need to reexamine the discount rate annually. Mr. Richmond said based on his discussion with legislative staff who attended the National Conference of State Legislators, the Louisiana retirement systems are less expensive than other states. Mr. Richmond said he would have further reports at subsequent PRSAC meetings.

Ms. Cindy Rougeou, LASERS Executive Director, and Ms. Maureen Westgard, TRSL Executive Director, each expressed appreciate for the presentation, which provided good positive information, and gave individual closing statements. Mr. Purpera explained the primary issues are the financing of past balances that have been carried over from previous years and to prevent it from increasing, and to put normal cost where it should be.
