

Public Service Commission

Department Description

The Louisiana Public Service Commission is an independent regulatory agency created in 1921 by Article IV, Section 21 of the Louisiana Constitution. The philosophy of the Public Service Commission is to act impartially and conduct their business openly and fairly with the highest degree of personal and professional dedication, honesty, and integrity. The Commission will remain open to innovation and improvements which are technically and economically sound, and in the public interest. They will evaluate and consider all technical tools to improve the efficiency of the Commission and simplify procedures for utility service providers and the public. The Commission will continue to evaluate its work force and organizational structure to maximize employee productivity, minimize cost, and promote the highest ethical and professional conduct.

04-158 — Public Service Commission

Agency Description

The Public Service Commission's mission is to impartially, equitably, and efficiently regulate the rates and services of public utilities and common carriers operating in the State of Louisiana so as to ensure safe, reliable, and reasonably priced services for consumers; a fair rate of return for the regulated utilities and common carriers; and to carry out legislative mandates, such as "Do Not Call" regulations. The goals of the Public Service Commission are as follows:

- Promulgate and enforce reasonable and transparent rules, regulations, and procedures for the fair and efficient regulation of public utilities and common carriers, and for carrying out constitutional and legislative mandates in the State of Louisiana.
- Continue to work with jurisdictional utilities, private industries and consumer groups to establish competitive, innovative, and equitable rates for residential and commercial customers in an effort to grow and attract new business while preserving fair, affordable rates.
- Provide thorough and specific training to ensure PSC-wide knowledge of substantive laws, regulations, and policies pertinent to Public Service Commission proceedings.
- Facilitate advanced, innovative, economic and prudent utility infrastructure investment consistent with environmentally, technologically and economically sound practices for the benefit of Louisiana citizens and businesses.
- Modernize business applications to allow user-friendly access to Public Service Commission information and records.
- Educate consumers on issues relating to public utility, common carrier, and "Do Not Call" regulations.
- Provide compliance oversight to protect consumers and the public interest; take fair and appropriate action to address instances of non-compliance.
- Expedite resolution of disputes between consumers and utilities.

158_1000 — Administrative

Program Authorization: Constitution of State of Louisiana, Article IV, Section 21, Revised Statutes 36:721 and 722, 45:844.1 et seq.

Program Description

The mission of the Administrative Program is to provide executive leadership, fiscal, legal, information technology and general support functions, and the oversight necessary for efficient operation of the Commission resulting in achievement of the department's overall mission of regulating public utilities and common carriers.

The goals of the Administrative Program are to: effectively manage and provide necessary administrative and operational support to all programs of the Commission through policy development, communications, and dissemination of information; to provide legal services and support to all programs to ensure that all matters are processed through the Commission in a timely manner; ensure fiscal reliability and promote the use of technology to improve efficiency and effectiveness; and seek to ensure that Do Not Call consumer problems, issues, and complaints are sufficiently monitored and addressed efficiently.

The Administrative Program includes the following activities:

- **Executive:** Directs all operations of the Public Service Commission except those performed in District Offices, which are under the supervision of the five elected Commissioners. The Commission currently regulates 2000+ public utilities and common carriers. The executive division ensures the efficient and accountable operation of all activities within the department by providing the highest quality of leadership, professionalism and oversight necessary to remain on the forefront of utility, common carrier and Do Not Call regulation. At the same time, the role of the executive division includes monitoring, analysis and management of state and federal legislation in regard to energy, utilities, climate change, common carriers, fiscal matters and any other pertinent issues. Additionally, the executive division's expertise and leadership provides advice and counsel as well as provides any other necessary and/or requested support to the Commissioners.

General Counsel: Includes the Legal Division, serves as the legal representative of the Commission at all levels, including all matters before the Commission, as well as, in the Judicial System before the 19th Judicial Court, other state courts, and other state and federal regulatory bodies, to ensure the Commission fulfills its constitutionally mandated duties. In this role, the Legal Division represents the Commission as counsel of record in all docketed cases before the Commission, including complaints against regulated companies, Commission investigations, rate cases and proceedings and rulemaking proceedings. The OGC also advises the Commission in areas of administrative law, civil service regulations, public records and open meeting laws, governmental ethics issues and any other legal issues that may arise during the course of agency operations. Staff is responsible for accurate and orderly processing of all formal proceedings that are acted upon by the Commission, including the drafting of Commission Orders which formalize Commission decisions. The division investigates and issues discovery regarding complaints and applications; prosecutes regulated entities for violating orders, rules, and regulations; develops regulatory plans; and assists in the determination of earnings for regulated entities. Staff initiates and issues recommendations and proposals in rulemaking dockets which ultimately result in regulations

applicable to regulated entities. The OGC represents the Commission in prosecuting the violators of the Do Not Call solicitation program and violations of any other constitutional or legislatively delegated program.

- Management & Finance: Responsible for providing services necessary to the overall operation of the Commission. In addition, this activity holds:
 - The Fiscal Accounting and Office Services Section: Fiscal successfully manages accounts payable and receivable, revenue collection and classification of approximately \$10 million annually; accountable for property control, fleet management program, supplies, and inventory. Staff is responsible for managing the department's appropriation by compiling the necessary information for budget development, budget projections, and monitoring budget changes through expenditures, revenue collections, legislation, and mid-year budget adjustments.
 - The Human Resources Section: Provides a positive service experience for the Public Service Commission through the management of all personnel matters, in compliance with Civil Service Rules and applicable State and Federal laws.
 - The Information Technology Section: Provides exceptional end user support, delivers high quality custom applications and solutions while maintaining an innovative, reliable and secure computing environment.
 - Do Not Call Solicitation Program: Act 40 of the 2001 Regular Legislative Session placed into law (R.S. 45:844.11-15) the Telephone Solicitation Relief Act of 2001 which recognized that becoming a residential telephone subscriber should not undermine or lessen a person’s right of privacy and found that there was a compelling state interest to protect the privacy of such subscribers who wish to avoid unsolicited and unwanted telephone solicitations. As a result, the “Do Not Call General Order” (DNC GO) was developed to provide the rules and regulations necessary to implement this program activity, and as of January 1, 2002, the DNC Program has been providing this protection for our residents. There is no cost to any Louisiana taxpayer or the consumers that choose to participate in the program. Businesses that wish to offer their products or services by telephone must operate in compliance with the DNC GO. Also, this program provides for enforcement and a violation procedure for offenders of the program.

Source of Funding

This program is funded from Statutory Dedications generated from inspection and supervision fees paid by common carriers, contract carriers, and public utilities. Statutory Dedications are funded by the Telephonic Solicitation Relief Fund (R.S. 45:844.14) and the Utility and Carrier Inspection and Supervision Fund (R.S. 45:1177(A)). Additionally, various fees such as fines, filing fees, I.D. stamps, rehearing applications, registration fees, etc. are collected by the Public Service Commission for administering the program. (Per R.S. 39:32B.(8), see table below for a listing of expenditures out of each Statutory Dedication Fund.)

158_2000 — Support Services

Program Authorization: Constitution of State of Louisiana, Article IV, Section 21; Louisiana Revised Statutes 36:721 and 722; 45:1161 et seq; 45:1177 (A)(2) and (3) and (C); 45:1177.1; 45:1180 and 45:1181(A)

Program Description

The mission of the Support Services Program is to review, analyze, and investigate rates and charges filed before the Commission with respect to prudence and adequacy of those rates; to manage the progress of adjudicatory proceedings, conduct evidentiary hearings in an impartial, fair, professional and orderly manner; and make rules and recommendations to the Commissioners which are just, and which generate the highest degree of public confidence in the Commission's integrity and fairness.

Goals of the Support Services Program are to ensure that jurisdictional company rates are fair and reasonable to the consumer and provide a fair rate of return to the company by providing the Commission with accurate reporting of regulated utility and common carrier companies' financial condition, level of earnings, rate of return, adherence to federal, state, local, and Public Service Commission laws, regulations and guidelines to assist in decision-making responsibilities; and to ensure that all parties to adjudicatory hearings are provided a fair and impartial hearing, orderly progress of the case, a complete record, and a sound decision.

The Support Services Program includes the following activities:

- Administrative Hearings Division- Conducts fair and impartial public evidentiary hearings on complex issues within the Commission's jurisdiction (rates and services of public utilities and motor carriers), creates a public record and transcript of the proceedings, and prepares proposed findings of fact and conclusions of law for consideration by the Commissioners in making final decisions. The utility cases handled by the Division are quite possibly the most complex and financially significant of any cases currently handled by the administrative law judges or referees in any Louisiana state agency. The Division handles cases that:
 - Have statewide application- affecting citizens, public utilities, trucking companies, industries and commercial enterprises throughout the state;
 - Have significant impact on economic development in the state and Corporate America's perception of the state;
 - Are extremely technical, involving testimony presented predominantly by expert witnesses;
 - Are monetarily significantly- resulting in multi-million and billion dollar judgments; and
 - Involve constitutionally protected property rights.

Through a delegation of authority from the Commissioners, the administrative law judges issue subpoenas, administer oaths, convene status conferences and prehearing conferences, establish procedural schedules, preside over hearings, compel discovery, examine witnesses, make evidentiary rulings, accept testimony and exhibits into evidence, require the filing of memoranda of law and the presentation of oral argument, receive offers of proof, submit written proposed findings of fact and conclusions of law to the Commissioners concerning all final determinations in proceedings, render interlocutory rulings on motions, exceptions and other preliminary matters, and prepare orders. Court reporters record all hearings and Commission Business and Executive Sessions and prepare verbatim transcripts which are made available to the public and utilized in the Commission's decision-making.

Utilities Division: Responsible for the maintenance of all rate schedules and terms of service filings of all regulated utilities and telecommunication service providers, including overall historical records of rates, terms of service, and correspondence filings. The Utilities section coordinates closely with the Auditing and Economics sections to examine and audit electric utility fuel adjustments and local distribution gas utility purchases of natural gas. Assists and advises other Staff members, consumers, and industry representatives on a wide variety of utility related topics which would include Commission initiated or third party requested investigations. Provides to the public, industry, and governmental agencies statistical data such as utility rate and fee comparisons; fuel and natural gas costs and utility outages during state declared emergencies, etc. The Audit Section provides the Commission with financial and compliance audit expertise. During the course of conducting its reviews and analyses of rate increase proposals and Rate Stabilization Plans (RSP) annual filings, the Audit Section determines the accuracy of the regulated companies overall results of operations, rate base, and rates of return on equity and capital upon which consumer rates are based. The Audit Section also issue reports and makes recommendations on utility rates to the Commission, to ensure that consumers pay fair and reasonable rates and regulated utilities are able to earn a reasonable return on their investment. The Economics section reviews and analyzes rates of return and rate increase proposals by regulated utilities and makes recommendations to the Commission. Reviews site specific utility rate filings, which impact economic development in the state. Maintains and manages the annual financial and other reports required to be filed by the utilities and telecommunications service providers subject to Commission authority.

158_3000 — Motor Carrier Registration

Program Authorization: Constitution of the State of Louisiana, Article IV, Section 21; Louisiana Revised Statutes 36:721 and 722; 45:161 et seq

Program Description

The mission of the Motor Carrier Program is to provide fair and impartial regulations of intrastate common and contract carriers offering services for hire.

Goals of the Motor Carrier Program are to administer the rules and orders of the Commission to assure the public of safe and dependable transportation services, to have more effective enforcement activities to improve carrier compliance with regulatory requirements; thus, protecting the consumer and carriers against unjust, unreasonable, and discriminatory rates and charges.

The Motor Carrier Program fulfills its constitutional and statutory mandates by providing fair and impartial regulation of intrastate common and contract common carriers offering services for hire. Administers and enforces the rules and orders of the Commission and the laws of Louisiana to assure the public safe, dependable and reasonably priced transportation services provided by the carriers of household goods, waste, passengers, and by the providers of non-consensual towing and recovery. The Division regulates approximately 900 common carriers statewide. By statute, carriers of waste must apply to the commission for authority and prove public convenience and necessity in a hearing. Waste applicants are assisted with their application and the hearing process. If the waste applicant proves public convenience and necessity and the authority is granted, the applicant is assisted with the registration process. All other applicants, carriers of household goods, passengers and providers of non-consensual towing and recovery do not have to prove public convenience and necessity to obtain authority and are simply assisted with the registration process. Staff maintains insurance filings on all certificated carriers verifying that said carriers have continuously effective insurance coverage as required by law. Staff receives and reviews Annual Reports from all certificated carriers assuring that said carriers are financially viable and able to provide the services to the public for which they were granted authority. Enforcement includes audits of licensed waste disposal sites and the investigation of consumer and motor carrier complaints. The issuance of citations to carriers and shippers when it is determined that the rules of the Commission and the laws of Louisiana have been violated. Provide an ongoing review of all motor carrier regulations through the Commission's rulemaking process to continually meet the needs of the public, including certificated carriers.

158_4000 — District Offices

Program Authorization: Constitution of the State of Louisiana, Article IV, Section 21; Louisiana Revised Statutes 36:721; 45:1161 et seq

Program Description

The mission of the District Offices is to provide accessibility and information to the public on regulation as it applies to the services provided to the consumer.

Goals of the District Offices Program:

- I. Are to provide effective and efficient services to ensure that consumer problems, issues, and complaints are sufficiently monitored and addressed in a timely manner.
- II. Promote fair regulation of the public utilities and common carriers operating in the State of Louisiana.

The PSC currently regulates 2000+ public utilities and common carriers and serves over two million direct users and countless others who benefit indirectly. The regulation of such public utilities is critical to the economic climate and the quality of life for all citizens of Louisiana. The public as well as business and industry has easy access to the services of the PSC via District Offices located strategically across Louisiana. The five elected Commissioners maintain and promote accessibility and information to the public on regulation as it applies to the services provided the consumer. Accessible, effective, and efficient services ensure that consumer problems, issues, and complaints are addressed in a timely manner. The fair, equitable regulation of the public utilities and common carriers and the service to those companies regulated by the PSC is constant. District offices work in concert with the PSC central office to protect the ratepayer as well as to provide services to the citizens and regulated companies while promoting regulatory balances. Regulatory balance begets safe, reliable, service with reasonable, fair rates to the consumer and allows utilities an opportunity to earn a fair rate of return on their investment. For over 100 years, the PSC has regulated public utilities and common carriers in a firm but fair manner to ensure that the regulated community earns a fair rate of return and Louisiana consumers enjoy low rates and high quality service.
