

Office of State Procurement

Contract Kickoff Meetings

Agency Training

Objectives

At the end of this course, staff will be able to:

- Describe the purpose of each section of the kickoff agenda
- Plan a contract kickoff meeting
- Determine project roles and responsibilities

WHY: A contract kickoff meeting isn't designed to add to your workload. Contract kickoff meetings are designed to mitigate the potential for issues and problems during contract performance and these meetings can result in a decreased workload later during the contract term. These meetings are a benefit.

WHEN & WHERE: The meetings are held prior to contract performance start and are held in person, via teleconference, or via webinar. The type of meeting will depend on the complexity and value of the contract or the risks associated with the contract. It may also depend on the location of agency and contractor staff. The Contract Kickoff meeting may be held in conjunction with a project kickoff, implementation, start-up, or planning meeting requested by the Contractor.

WHO: Include your Agency and Contractor staff and meet with your Supervisor and Manager to determine their attendance or the attendance of anyone else at your agency, OSP, or other using agencies. You'll want to include anyone involved in or working on the contract.

WHAT & HOW: You'll cover contractual requirements such as timelines, quality, delivery, and contractual remedies. You want to achieve a clear and mutual understanding of the work to be done and who will complete the work. You'll set the foundation for good communication and clear expectations.

New Documents

- Template Instructions
- Contract Kickoff Meeting Agenda
- Project Roles and Responsibilities Table

Procurement.la.gov

Template Instructions

- Details each section of the Contract Kickoff Meeting agenda
- Provides guidance for Statewide Contracts
- Includes examples in many sections

Contract Kickoff Meeting Agenda Template Instructions

This form was created as a communication tool for contract managers when communicating to all stakeholders prior to initial Contract performance beginning. As a form of introduction to the project for all Agency and Contractor staff, it includes the required information to be covered in the initial meeting between the parties to discuss the contractual requirements including timeline, quality, delivery, and Contract remedies.

A Kickoff Meeting may be conducted face-to-face, via teleconference, or via webinar. Considerations for type of meeting may include complexity and value of the Contract or associated Contract risks.

The kickoff meeting should occur within 30 days after Contract approval and prior to the Contractor beginning work.

Kickoff Meeting Agenda

Contract name

Kick-off Meeting Agenda

Meeting Date:
Meeting Time:
Meeting Location and Conference Call Information (if applicable):

Attendees				
Present	Name	Agency or Company	Email Address	Telephone Number
<input type="checkbox"/>				
<input type="checkbox"/>				
<input type="checkbox"/>				
<input type="checkbox"/>				
	Add Row		Delete Row	

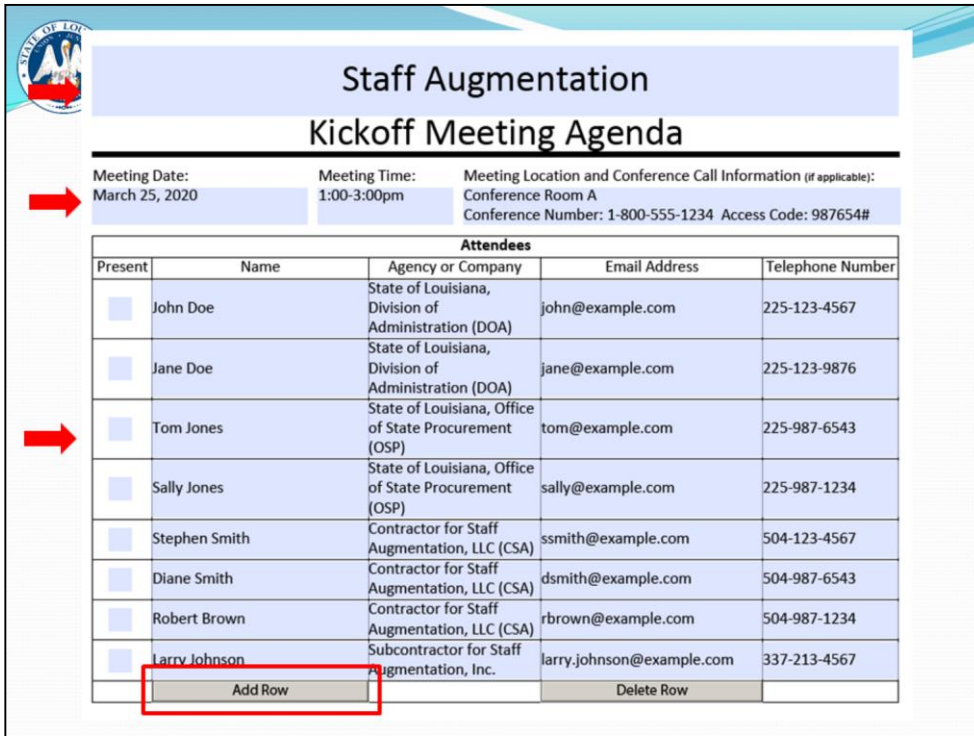

The individual responsible for the contract at the agency will complete the agenda. This is usually the Contract Monitor, but may be a Project Manager. You can create a pre-filled agenda that requires minimal edits if desired, but remember that not every field is appropriate to complete in advance.

The agenda is setup as a fillable form with expandable fields so you can include as much information as is appropriate to your contract. Be sure you use Adobe Acrobat if available and not Adobe Reader when filling out these forms since you won't be able to save the completed form in Adobe Reader; however, you can print the form to PDF in Adobe Reader to save it.

You'll fill in your contract name, meeting date, time, and location. If you're holding a webinar or conference call, put that information in the location box too.

Add all your meeting attendees and their contact information. You can add or delete rows as needed and there is no limit on how many rows you can add. You'll check off whether or not the attendees were present during the meeting.

As we go through this agenda today we'll refer to a sample agenda based on a pretend "Staff Augmentation" contract to show you what a completed agenda will look like. This sample is not thorough, but it should provide you with an idea of what should be included in your agenda.

Staff Augmentation Kickoff Meeting Agenda

Meeting Date: **March 25, 2020** Meeting Time: **1:00-3:00pm** Meeting Location and Conference Call Information (if applicable):
 Conference Room A
 Conference Number: 1-800-555-1234 Access Code: 987654#

Attendees				
Present	Name	Agency or Company	Email Address	Telephone Number
<input type="checkbox"/>	John Doe	State of Louisiana, Division of Administration (DOA)	john@example.com	225-123-4567
<input type="checkbox"/>	Jane Doe	State of Louisiana, Division of Administration (DOA)	jane@example.com	225-123-9876
<input type="checkbox"/>	Tom Jones	State of Louisiana, Office of State Procurement (OSP)	tom@example.com	225-987-6543
<input type="checkbox"/>	Sally Jones	State of Louisiana, Office of State Procurement (OSP)	sally@example.com	225-987-1234
<input type="checkbox"/>	Stephen Smith	Contractor for Staff Augmentation, LLC (CSA)	ssmith@example.com	504-123-4567
<input type="checkbox"/>	Diane Smith	Contractor for Staff Augmentation, LLC (CSA)	dsmith@example.com	504-987-6543
<input type="checkbox"/>	Robert Brown	Contractor for Staff Augmentation, LLC (CSA)	rbrown@example.com	504-987-1234
<input type="checkbox"/>	Larry Johnson	Subcontractor for Staff Augmentation, Inc.	larry.johnson@example.com	337-213-4567
	Add Row		Delete Row	

On the sample, you'll see: the contract title, meeting date and time has been entered along with the location and conference call information.

We've also added the attendees and used the Add Row button to add additional rows since the default setting on the agenda only has space for 4 attendees and our meeting has 8 attendees.

Purpose

- Includes a high-level overview of the goals and objectives for the contract kickoff meeting
- Explicitly states:
 - Changes to the Contract will not be made in the meeting
 - Contract terms will not be renegotiated in the meeting

Purpose

This Kickoff Meeting is to explain and clarify contract requirements and team responsibilities and authorities. No changes to the contract will be made and contract terms will not be renegotiated.

After filling in the top portion of the agenda, we'll start filling out the remaining sections. The first is the purpose section. This section should include a high-level overview of the goals and objectives for the meeting.

The text color in this section is black not blue because it is intended to stay on the agenda, especially the sentence stating that no changes will be made to the contract and that the terms will not renegotiated. Any concerns regarding the terms or the language in the contract should have been addressed during contract negotiations before the contract was executed.

If you want to further detail the purpose of the meeting and add more information, you can. This is the only section of the Contract Kickoff Meeting Agenda that may be left as-is.

Purpose

- Includes a high-level overview of the goals and objectives for the contract kickoff meeting
- Explicitly states:
 - Changes to the Contract will not be made in the meeting
 - Contract terms will not be renegotiated in the meeting

Purpose

Explain and clarify Staff Augmentation contract requirements, including expectations, deliverables, and points of contact.

Discuss team responsibilities and authorities.

No changes to the contract will be made and contract terms will not be renegotiated.

For our Staff Augmentation sample contract, we've added a little more detail to the purpose, but kept the sentence about no changes being made to the contract.

Introduction of Key Personnel

- Take this time to introduce each team member who will be working on the Contract
- Explain individuals' roles and responsibilities in relation to the Contract
- Identify the decision makers

Introduction of Key Personnel

[Introduce each member of the agency and contractor teams, and explain their role and responsibilities as it relates to this contract. Identify those with the authority to make decisions and/or approve changes.]

The second section is the Introduction of Key Personnel section. You'll use this time to introduce each team member who will be working on the contract; you'll explain their roles and responsibilities as they relate to the Contract; and be sure to identify the decision makers. This is also a good time to pass out, or reference, the Project Roles & Responsibilities table which we'll explain later.

Introduction of Key Personnel

- Take this time to introduce each team member who will be working on the Contract
- Explain individuals' roles and responsibilities in relation to the Contract
- Identify the decision makers

Introduction of Key Personnel

See attached Project Roles and Responsibilities table.

For our sample contract, we're going to refer the meeting attendees to the actual Project Roles and Responsibilities table since there are a number of staff working on the project. We'll discuss the Project Roles and Responsibilities table in more detail near the end of this training session.

Introduction of Key Personnel

- Take this time to introduce each team member who will be working on the Contract
- Explain individuals' roles and responsibilities in relation to the Contract
- Identify the decision makers

Project Roles and Responsibilities*

Name	Agency or Company	Project Role	Project Responsibilities	Email Address	Telephone Number
John Doe	State of Louisiana, Division of Administration (DOA)	Agency Head	Executive leadership; chair of governance committee; approval of invoices; approval of amendments	john@example.com	225-123-4567
Jane Doe	State of Louisiana, Division of Administration (DOA)	Project Lead	Day-to-day operational leadership; manages business and operational teams;	jane@example.com	225-123-9876
Tom Jones	State of Louisiana, Office of State Procurement (OSP)	Business Team Manager	Leads State Business Team; receives, reviews, and recommends invoices for approval;	tom@example.com	225-987-6543
Sally Jones	State of Louisiana, Office of State Procurement	Operational Team Manager	Leads State Operational Team;	sally@example.com	225-987-1234

Acceptable Channels of Communication

- Identify the appropriate methods of communication and the appropriate contacts for the contract, including:
 - Project issues
 - Ad hoc requests
 - Scope changes

Acceptable Channels of Communication
 [Discuss the proper and appropriate communication protocols for all material matters to the contract.]

Acceptable Channels of Communication doesn't refer to just phone calls and emails. You want to specify the appropriate method of communication and the appropriate contacts depending on what the communication is about – such as project issues, ad hoc requests, or scope changes.

Remember the “telephone” game you played as kid or maybe even in a team building exercise at your job? One person says a phrase and it spreads as a whisper from person to person until everyone has heard it. Then the last person says the phrase they heard aloud and the person who started the chain says their phrase aloud, and the two phrases *never* match.

Now imagine a game of telephone happens with a contract issue. What would happen?

Specify how communication should occur as it relates to the contract; such as requiring an issue with the contract be documented in writing and sent to all parties instead of playing a game of “telephone”.

Acceptable Channels of Communication

- Identify the appropriate methods of communication and the appropriate contacts for the contract, including:

- Project issues
- Ad hoc requests
- Scope changes

Acceptable Channels of Communication

All project issues must be directed in writing to Jane Doe with DOA and Diane Smith with CSA. Requests involving scope change must be presented in the governance committee and sent in writing to John Doe with DOA and Stephen Smith with CSA.

Regular project communications must include all involved team members and be disseminated either in email or in the weekly status meetings and documented in the meeting minutes.

Be sure to include Alice Williams, Project Coordinator, on all communications as she is responsible for maintenance of all project documentation.

For our sample contract we're requiring project issues be directed in writing to Jane and Diane, the day-to-day leaders, and we're specifying scope changes be presented to the governance committee and submitted in writing to John and Stephen – who are part of each party's executive leadership. We're being very clear that regular project communications must include all involved team members and be sent out via email or meeting minutes. We're also specifying that Alice, a project coordinator, must be included on everything as she is responsible for maintaining all project documentation.

Review of Contract Requirements

- Review contract requirements, including:
 - Performance Expectations
 - Insurance and Bond Requirements
 - Audit Requirements

Review of Contract requirements, terms and conditions, goods, and services line by line

[Review the contract to ensure each party has a clear understanding of the terms and conditions and specifications for the goods and/or services, deliverables (i.e. reports, plans, etc.) including frequency, format and consequences for poor performance. Discuss expectations regarding the contract and project.]

Review of Contract Requirements will probably take up the bulk of your meeting, but it is vital to ensure you, other agency staff, and the Contractor all have the same understanding and expectations. It's important to keep in mind that the people responsible for negotiating the contract are probably not going to be the people you'll interact with during the contract term and that the terms discussed in the negotiations are probably not the substantive terms affecting the day-to-day operations of the contract and may not be remembered, such as audit access. You can also use this section to touch on the expectations during contract closeout.

If you have a large contract, you may wish to hold multiple meetings to go over everything.

The next 4 headings on the agenda – deliverables, delivery requirements, timeline, and quality assurance plan - fall under this section so be careful to ensure you aren't repeating information.

Review of Contract Requirements

- Review contract requirements, including:
 - Performance Expectations
 - Insurance and Bond Requirements
 - Audit Requirements

Review of Contract requirements, terms and conditions, goods, and services line
by line
See attached contract copy.

For our sample contract, we're going to reference a copy of the contract which will be included with the agenda. We'll go through it section by section, such as you would do in a pre-bid or pre-proposal conference. For example, Section 10 details the termination options: the contract may be terminated for cause, for convenience by the State with a 30 day written notice, or for non-appropriation of funds by the legislature.

Deliverables

- Cover all deliverables in this section, including:
 - Reports, Plans, Safety Data Sheets, Goods
 - Frequency, Format, and Consequences
 - Service Level Agreements/Performance Measures

Deliverables

[Review the contract deliverables.]

Deliverables

- Cover all deliverables in this section, including:
 - Reports, Plans, Safety Data Sheets, Goods
 - Frequency, Format, and Consequences
 - Service Level Agreements/Performance Measures

Deliverables

Weekly status report detailing the projects, staff, and number of hours worked.

Monthly project report that includes risks, issues, project progress, and estimated time-frame to completion. On-going staff augmentation needs should be noted as such.

Since we're using a Staff Augmentation contract for our example, our deliverables are weekly status reports, and monthly project reports.

Delivery Requirements

- Discuss the expectations for delivery requirements in this section
- For goods, include any special delivery situations that could compromise delivery
- For services, include work schedule expectations

Delivery Requirements

[Review and thoroughly discuss the delivery date(s) specified in the contract for the technical and reporting requirements included in the contract deliverables for services. Discuss delivery requirements for goods and services included in a statewide contract or agency term contract. Discussion should include not only delivery dates, but hours and place(s) of delivery.]

In the Delivery Requirements section, you'll include the expectations for delivery. For goods, this will include delivery expectations as well as any special delivery situations: such as trying to get a large piece of furniture to the 3rd floor of a historic building with no elevator and a tight staircase. For services, this will include work schedule expectations, delivery of a deliverable through hard copy or digital file, and possibly discussion about the sequence of work to be performed.

Delivery Requirements

- Discuss the expectations for delivery requirements in this section
- For goods, include any special delivery situations that could compromise delivery
- For services, include work schedule expectations

Delivery Requirements

Contractor personnel assigned to the agency will work 5 days a day week for 8 hours a day between the hours of 7:00am and 5:00pm. Contractor personnel must report to the office where they are assigned and may not work from remote locations unless prior approval is obtained in writing from Jane Doe.

The delivery requirements for the staff augmentation contract are fairly simple. We're specifying staff must work 5 days a week/8 hours a day between the hours of 7 AM and 5 PM. They have to be at the office where they are assigned unless they receive prior approval in writing.

Timeline

- Review the timeline for the project, including:
 - Decisions
 - Obstacles
 - Impact on others

Timeline

[Detail decisions and/or obstacles that impact the contract timeline and the factors to be considered. Provide a graphical display of the major project milestones. Note impact on other agencies or contractors. Specify Contractor implementation tasks and agency implementation tasks.]

You'll review the project timeline in the Timeline section of the agenda. You may also want to refer to the project plan if the contractor was required to submit one. Be sure to review the overall timeline for the project including decisions to be made, such as a "go/no go" decision for a project involving software; obstacles, such as specific project tasks that are required to be completed before other tasks or firm dates that must be met; and the impact on other agencies, contractors, or citizens. This section may also include the timeline for deliverable review and approval.

Timeline

- Review the timeline for the project, including:
 - Decisions
 - Obstacles
 - Impact on others

Timeline

April 1, 2020 - March 31, 2023.

Detailed timelines for specific project completion may be included in individual assignments.

The timeline section on our sample staff augmentation contract is quite simple. We've listed the contract term and noted that detailed timelines may be included in individual assignments.

Quality Assurance Plan

- Discuss what will be inspected and when
- Cover the monitoring methods to be used
- Review the plan for performance evaluation, assessment, documentation, and acceptance
- Explain liquidated damages and/or bonding
- Describe consequences

Quality Assurance Plan

[Discuss the Quality Assurance Plan for the contract and provide information on how performance will be evaluated, documented , and reported.]

Quality Assurance Plan

- Discuss what will be inspected and when
- Cover the monitoring methods to be used
- Review the plan for performance evaluation, assessment, documentation, and acceptance
- Explain liquidated damages and/or bonding
- Describe consequences

Quality Assurance Plan

Work performed by contractor personnel will be reviewed by the functional supervisor at the State at least twice a month. Work will be checked for correctness and completeness. Errors will be corrected within 5 business days. Recurring errors will be brought to Diane Smith's attention. Continued recurring errors will result in the contractor personnel being removed from the project.

Our staff augmentation contract has a quality assurance plan that calls for the State's functional supervisor to review the work performed by the contractor staff. If they find errors, the error has to be corrected within 5 business days; and if errors are recurring they'll be brought to Diane's attention as she is the Contractor's Project Director. If the same errors continue, the State will request the contractor personnel be removed from the project.

Contract Review Meetings

- Discuss the plans for future meetings, including:
 - How the meeting will be conducted
 - Attendees
 - Location
 - Time and days

Contract Review Meetings

[Discuss the structure and format of future meetings. In this section, outline the recurring meetings including the format, duration, location and anticipated attendees.]

In the Contract Review Meetings section you'll discuss the plans for future contract review meetings. You'll include information about how the meetings will be conducted, the attendees, the location, and the schedule. If the information regarding the location and the exact meeting dates are unknown, that's okay, the meetings can be scheduled later.

Contract Review Meetings

- Discuss the plans for future meetings, including:
 - How the meeting will be conducted
 - Attendees
 - Location
 - Time and days

Contract Review Meetings

Quarterly in person meetings at the State's headquarters. Meetings will include all executive leadership and day-to-day leadership. Meetings will occur at 10:00am on the first working day of each quarter starting April 1, 2020.

For the staff augmentation contract meetings, we're going to hold them quarterly, in-person at the State's headquarters. They'll start January 2nd and will occur on the first working day of each quarter at 10 AM.

Contract Remedies

- Use this section to discuss the various contract remedies which apply to the contract
 - Complaint(s)
 - Informal Remedies
 - Notice of Default and Request to Cure
 - Notice of Contract Suspension
 - Notice of Contract Termination

Contract Remedies

[Discuss when a Contract Remedy may be required and the process for solving contractual disagreements. Discussion here could include discrepancies, delinquencies, cure letter process, performance bond, liquidated damages, termination, etc.]

Contract Remedies

- Use this section to discuss the various contract remedies which apply to the contract
 - Complaint(s)
 - Informal Remedies
 - Notice of Default and Request to Cure
 - Notice of Contract Suspension
 - Notice of Contract Termination

Contract Remedies

All contract compliance issues will be documented in writing. At the discretion of the State's Project Lead and with concurrence of the Agency Head, repeated compliance issues may be addressed in a Notice of Default and Request to Cure letter. Continued contract controversies or deficiencies may result in Contract suspension or termination.

For our Staff Augmentation sample contract we're specifying that all issues will be in writing and that issues may be escalated up to a Notice of Default and Request to Cure and if the issues continue the contract may be suspended or terminated.

Payment

- In this section, include:
 - Payment terms
 - Timeframes
 - Invoicing expectations
 - Format, required information, & required attachments

Payment

[Discuss payment terms and invoice processing requirements.]

In this section you'll discuss payment terms, timeframes, and invoicing expectations, such as a specific format or required attachments. You may also want to include the contact who will be able to speak to non-timely invoices and payments. If there are Hudson/Veteran Initiative subcontractors, make sure you include language regarding the Hudson/Veteran Initiative payments

Payment

- In this section, include:
 - Payment terms
 - Timeframes
 - Invoicing expectations
 - Format, required information, & required attachments

Payment

Invoices must be submitted by the 15th of each month to the Business Team Manager in the State approved format. Invoices must clearly state the number of hours, rates, and name of each staff member who worked on the contract during the invoice month. Each invoice must include approved time sheets for all staff. The Business Team Manager is responsible for reviewing and recommending invoices for approval within 5 business days of receipt. The Agency Head is responsible for approving invoices within 5 business days of receipt.

Payment will issued via ACH by the Financial Office within 10 business days of receipt of a State approved invoice.

This is our payment section for our sample Staff Augmentation contract. We're requiring invoices on the State approved format and specifying each invoice must include the number of hours, hourly rate, and name of each Contractor staff member who worked on the project. We're also specifying that time sheets must be included within the invoice.

Keep in mind: all of these details should be in the contract itself; none of the information is supplemental information.

Project Roles and Responsibilities*

Name	Agency or Company	Project Role	Project Responsibilities	Email Address	Telephone Number
John Doe	State of Louisiana, Division of Administration (DOA)	Agency Head	Executive leadership; chair of governance committee; approval of invoices; approval of amendments	john@example.com	225-123-4567
Jane Doe	State of Louisiana, Division of Administration (DOA)	Project Lead	Day-to-day operational leadership; manages business and operational teams;	jane@example.com	225-123-9876
Tom Jones	State of Louisiana, Office of State Procurement (OSP)	Business Team Manager	Leads State Business Team; receives, reviews, and recommends invoices for approval;	tom@example.com	225-987-6543
Sally Jones	State of Louisiana, Office of State Procurement (OSP)	Operational Team Manager	Leads State Operational Team;	sally@example.com	225-987-1234
Stephen Smith	Contractor for Staff Augmentation, LLC (CSA)	CEO	Executive leadership	ssmith@example.com	504-123-4567
Diane Smith	Contractor for Staff Augmentation, LLC (CSA)	Project Director	Oversees Contractor Business Teams; provides day-to-day leadership; leads Contractor Operational Teams	dsmith@example.com	504-987-6543
Robert Brown	Contractor for Staff Augmentation, LLC (CSA)	Business Director	Leads Contractor Business Teams	rbrown@example.com	504-987-1234
Thomas Clark	Contractor for Staff Augmentation, LLC (CSA)	Senior Business Analyst	Manages team of 3 Business Analysts	tclark@example.com	504-987-5432
Mary Johnson	Contractor for Staff Augmentation, LLC (CSA)	Business Analyst	Documents requirements; conducts testing	mjohnson@example.com	504-123-9876
Frank Williams	Contractor for Staff Augmentation, LLC (CSA)	Business Analyst	Documents requirements; conducts testing	fwilliams@example.com	504-987-4321

For our sample contract, this is page 1 of the Project Roles and Responsibilities Table. The Project Responsibilities fields for an actual project will likely be much more detailed.
