Effective August 20, 2022, the Department of Health, Bureau of Health Services Financing, OAAS and OCDD hereby amend the provisions governing the ADHC Waiver, the CCW, and LT-PCS throughout the COVID-19 public health emergency declaration, and clarify that the HCBS waiver provisions which correspond to Louisiana’s section 1915(c) Appendix K waiver will remain in effect for the duration of the Emergency Rules published in the April 20, 2020 Louisiana Register or until the Appendix K waiver termination date of January 26, 2021, whichever is later, in order to continue the provisions of the Emergency Rule adopted on August 25, 2020.

Services for Special Populations—Personal Care Services (LAC 50:XV.Subpart 9)

Due to the COVID-19 public health emergency declaration, the Office of Aging and Adult Services (OAAS) may also utilize the level of care eligibility tool (LOCET) to determine if an individual meets eligibility qualifications for long term-personal care services (LT-PCS) and to determine resource allocation while identifying his/her need for support in performance of activities of daily living (ADLs) and instrumental activities of daily living (IADLs).

The LOCET may also be used to generate a score that measures the recipient’s degree of self-performance of late-loss activities of daily living during the period just before the assessment. Criteria used to generate the score will be consistent with criteria on the interRAI home care assessment tool currently used. This score will correspond with the same level of support category and allocation of weekly service hours associated with that level.

OAAS may use the LOCET until such time as the applicant/recipient is able to be assessed using the uniform interRAI home care assessment tool.
