Executive Orders

EXECUTIVE ORDER EWE-77-8

WHEREAS, the Louisiana American Revolution Bicentennial Commission served the state and the nation with distinction and achievement during the official Bicentennial era; and

WHEREAS, the members of the Commission were generous and dedicated in the time and work devoted to a full participation at the community and State levels in a distinguished celebration of our country's heritage; and

WHEREAS, the work of the Commission was generally completed according to schedule to accommodate the mandate of the reorganization of the State agencies of the executive branch and to permit the Department of Urban and Community Affairs to discharge certain unfinished business of the Commission; and

WHEREAS, there exists a binding contract between the Commission and the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College with the necessary funds encumbered for the printing and publishing of a series of historical documents reflecting the heritage of Louisiana and the United States of America by reproducing the original editions no longer available to the general reading public or general circulation libraries; and

WHEREAS, although the project is near completion, there has been no provision by the general reorganization act, originally House Bill No. 750 by Mr. Laborde and others of the 1977 Regular Session of the Louisiana Legislature, for a legal successor of the Commission to meet its obligation under the terms of this contract;

NOW, THEREFORE, I, EDWIN EDWARDS, Governor of the State of Louisiana, do hereby re-establish and continue the Louisiana American Revolution Bicentennial Commission composed of those members of the public who served pursuant to Executive Order No. 21 issued on January 12, 1973, and charge such Commission specifically to complete any pending contractual obligation between it and the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College for the publication of a historical series.

I FURTHER ORDER that the Commission, through its Chairman or its Executive Director, shall inform the Governor of the final execution of the terms of the contract, but in no case shall the Commission continue to function and discharge other powers, duties and responsibilities.

IN WITNESS WHEREOF, I have hereunto set my hand officially and caused to be affixed the Great Seal of the State of Louisiana, at the Capitol, in the City of Baton Rouge, on this the 28th day of June, A.D., 1977.

EDWIN EDWARDS
Governor of Louisiana
DECLARATION OF EMERGENCY

Board of Trustees for Colleges and Universities

At its meeting on June 24, 1977, the Board of Trustees for State Colleges and Universities adopted the following rule to be effective immediately:

In the published Policies and Procedures Manual of the Board of Trustees for State Colleges and Universities, Section 6.6(B) of Part VI, Financial and Leave Policies and Procedures, is amended to add the following:

Part VI, Section 6.6(B)
5. Each institution shall be allowed to charge a ten dollar additional out-of-state application fee for each out-of-state application for the following allied health programs: Dental Hygiene, Occupational Therapy, Nursing, Pharmacy and Radiologic Technology.

The Board of Trustees will not meet in regular session until the end of September, 1977; and therefore this emergency rule is necessary in order to implement the application fee change prior to mid-September when registration is held at most of the institutions under the jurisdiction of the Board.

This action was taken in accordance with the emergency provisions of the Administrative Procedures Act and under the authority of Article VIII, Section 6 of the 1974 Constitution.

Bill Junkin, Executive Director
Board of Trustees for Colleges and Universities

EARL INGRAM, DIRECTOR
Board of Elementary and Secondary Education

DECLARATION OF EMERGENCY

Office of Family Services

The Louisiana Department of Health and Human Resources, Office of Family Services, exercised the emergency provision of the Administrative Procedures Act (R.S. 49:953B) to adopt, effective July 1, 1977, the following definitions for the levels of nursing care provided by a Skilled Nursing Facility (SNF), an Intermediate Care Facility I (ICF I) and an Intermediate Care Facility II (ICF II). These revisions will allow the Medical Assistance Program to comply with Federal regulations (45 CFR 245.10 (b)(4)(i) which require a common definition of skilled nursing care for the Medicare and Medicaid Programs. These regulations broaden the interpretation and application of the skilled level of care.

Skilled Nursing Facility Services Level of Care is skilled nursing and/or rehabilitation services ordered by and under the direction of a licensed physician which are needed on a daily basis and required to be provided on an inpatient basis and which can be provided only by or under the supervision of professional personnel, including registered nurse or licensed practical nurse on continuous basis over a twenty-four hour period and seven day registered nurse services and/or supervision.
Such services include specific skilled and/or rehabilitation services, skilled supervision, and management of a complicated or extensive plan of care instituted by a physician; or skilled observation, assessment, and monitoring of a complicated or unstable condition, or of the progress of a rehabilitation program; or skilled evaluation of the proper maintenance therapy for chronic on-going illnesses.

Intermediate Care Facility Services I Level of Care is basic nursing care and services ordered by and under the direction of a licensed physician which are needed in an institutional setting and which can be provided by and under the supervision of a registered nurse or licensed practical nurse on a continuous basis over a twenty-four hour period, for those individuals who do not require the degree of care and treatment provided in a skilled nursing facility.

Intermediate Care Facility Services II Level of Care is primarily supervised personal care and health related services ordered by and under the direction of a licensed physician which are required in an institutional setting and which usually can be provided by trained aides and orderlies under the supervision of a licensed practical nurse during twelve-hour daytime span with registered nurse consultation.

William A. Cherry, M.D., Secretary
Department of Health and Human Resources

Rules

RULE

Capital Area Groundwater Conservation Commission

Rules and Regulations for Metering and/or Recording the Yield of Water Wells

Authority
The rules and regulations contained herein were prepared in accordance with the provisions of R.S. 38:3076A(8) that states “… to require well owners who are users or well owners providing water to other users, at their own expense, to meter wells to permit accurate determination of rates of use. Metering may be required on a continuous or periodic basis . . .”

Purpose
The purpose of these regulations is to implement the above stated authorization for new wells that are drilled and installed after the effective date of these regulations. The regulations apply to wells that are not excluded herein and not otherwise excluded by R.S. 38:3071-38:3084, and are located in the parishes of East Baton Rouge, East Feliciana, Pointe Coupee, West Baton Rouge, and West Feliciana.

Exclusions
The following water wells are excluded from the rules and regulations stated herein: Wells with a total depth of less than four hundred feet or wells in the Mississippi River alluvial aquifer; or wells from which the production is used exclusively for bona fide agricultural or horticultural purposes; or for domestic use of persons resident upon the same premises and capable of producing not more than fifty thousand gallons per day in the aggregate; geopressure and geothermal wells, and wells producing water from formations producing oil or gas or both for commercial purposes, or wells producing salt water used for pressure maintenance; wells used in secondary recovery operations or other operations for the production of oil or gas.

Effective Date
The effective date of the regulations as stated herein is July 20, 1977.

Measuring Well Yield
The well owner shall be required to (1) install a metering device that records and “totals” the yield of the well, or (2) measure well yield or rate under normal pressure to permit the calculation of the “total” yield of the well for a given period of time, or (3) design and construct into the discharge line of water well a bypass line that can be used to periodically measure the flow of the well as the well discharges to the atmosphere, using a measuring device such as a portable or permanently installed orifice plate and manometer. If method (2) or (3) is used, an hour meter or exact records shall be used and/or maintained to record the number of hours the well is pumped for a stated period of time.

Records
The well owner shall be required to keep records of well yield and shall, on request, furnish data concerning such records to the representatives of the Capital Area Groundwater Conservation Commission (R.S. 38:3076A(8)).

Variance
Requests to vary from the rules and regulations stated herein must be sent in writing to the Capital Area Groundwater Conservation Commission, whose address is: Capital Area Groundwater Conservation Commission, P. O. Box 64526, Baton Rouge, Louisiana 70896, Telephone: (504) 924-7420. The request must show that compliance is impractical and must outline an alternative method.

Adopted by the Commission May 16, 1977.

Marie H. Wenger, Chairman
Capital Area Groundwater Conservation Commission
RULE

Department of Commerce
Board of Certified Public Accountants

The State Board of Certified Public Accountants of Louisiana has adopted the following changes to its Rules 3, 4, 5, and 6 based on Sections 87 and 88 of the Revised Statutes of 1950, Title 37, Chapter 2 as follows:

Rules will read as follows:

3. Every certified public accountant and public accountant who is registered with the Board and who is engaged in the practice of his profession on his own behalf shall file annually with the Board a certification that he is practicing as an individual and that there are no partners or associates practicing with him.

4. All firms of certified public accountants or public accountants practicing public accounting in the State of Louisiana shall file annually with the Board a certification of its members and shall promptly notify the Board of any changes in its partners.

5. Each professional accounting corporation practicing public accounting in the State of Louisiana shall, at the time of incorporation, as well as annually thereafter, file with the Board a certification of its shareholders and shall promptly notify the Board of any changes in its shareholders. In addition, such corporation shall furnish to the Board an insurance certificate evidencing that it carries professional liability insurance in the amount of $50,000.00 for each shareholder, and for each certified public accountant in its employ to a maximum of $2,000,000.00.

6. An original letterhead must be attached to the certification referred to in Rules 3, 4, and 5 above. Licensed employees or associates may be shown on stationery but such names shall be separated from that of the individual practitioner or those of the partners or shareholders by an appropriate line. Deceased and retired partners or shareholders shall be appropriately identified.

Lydia F. Parek, Executive Director
Board of Certified Public Accountants

RULE

Board of Elementary and Secondary Education

Rule 3.07.10a
(This policy should be substituted for the 1976-77 policy in effect.)

The Board adopted the 1977-78 State Plan for Adult Education for Louisiana on June 23, 1977, to become effective on July 20, 1977. The Department of the State Register, in accordance with R.S. 49:954.1C, has exercised its privilege to omit from the Louisiana Register the text of the State Plan. The public may inspect the State Plan at the Board's office, Room 104, Education Building, 646 North Fourth Street, Baton Rouge, Louisiana.

Earl Ingram,
Board of Elementary and Secondary Education

RULE

Board of Regents

4.3 Guidelines for Statewide Articulation at the Undergraduate Level

Preamble

It is the aim of this policy to ensure that various transitions which students may encounter in their educational careers will be orderly and, to the extent possible, easy. Such transitions occur when students change educational program or level, and when they attend more than one type of postsecondary institution or more than one institution of the same type. The specific policy provisions below place certain responsibilities on each public higher education institution in the state. They also indicate responsibilities on a statewide level to be assumed or delegated by the Board of Regents. For the policy to accomplish its intended purpose, it is necessary, also, that students take certain responsibilities. They must seek information they require; plan, to the extent possible, for the transitions they will experience; provide institutions with necessary records and information; and, if at all possible, abide by the time framework of each institution in matters such as submitting applications and forwarding transcripts. Additionally, students must recognize the necessity for the administration of institutional procedures designed to assess the individual student’s level of competence.

* * * * *

2.10 Reconsideration of Terminated Academic Programs

Any academic program which the Board of Regents terminates may be reconsidered under the following conditions:

1. The Commissioner of Higher Education must receive a request from the appropriate management board within ninety days of the day on which the Board of Regents votes to terminate the program.

2. The Commissioner of Higher Education will
inform the affected management board at least one month in advance of the date on which the Academic Affairs Committee will review the request. Relevant written materials, which the affected institution and/or management board wishes the Board of Regents to consider, must be submitted to the Commissioner of Higher Education at least fifteen days prior to the date for the Academic Affairs Committee's review.

3. The Board of Regents will reconsider the status of a terminated academic program only once. If the Board then reaffirms its decision to terminate the program, the affected institution and management board may reapply for the program in accordance with policies 2.2, 2.3, 2.4, of the Board of Regents pertaining to the submittal of new academic programs.

William Arceneaux, Commissioner of Higher Education

RULE

Department of Health and Human Resources
Office of Family Services

The Department of Health and Human Resources, Office of Family Services, has adopted policy changes that will allow reimbursement to hospitals when dentists admit patients for emergency and/or life threatening conditions. An "emergency and/or life threatening condition" is defined as a condition arising as a result of an injury to or disease of the teeth or supporting structures which if left untreated may endanger the life of the individual. Inpatient hospital treatment for following dental conditions are reimbursable: lacerations, fractures, foreign bodies, dislocations, hemorhages, neoplasms, sinusitis requiring dental intervention, cysts, osteomyelitis or major acute infection. A condition not listed above or not of an emergency nature must be pre-authorized for payment.

William A. Cherry, M.D., Secretary
Department of Health and Human Resources

RULE

Department of Health and Human Resources
Office of Family Services

The Department of Health and Human Resources, Office of Family Services, has adopted the following policy which will permit a system of treatment passes in order to allow continuation of treatment to termination. Patients may be granted passes not to exceed seventy-two hours when the individual's treatment plan requires a medically necessary home pass. Extensions to permit inpatient hospital treatment may be granted provided application is made to the Medical Director prior to the expiration of the fifteenth eligible day of inpatient hospital care. The medical need for the interruption of the treatment plan must be documented in the patient's hospital chart by the attending physician.

William A. Cherry, M.D., Secretary
Department of Health and Human Resources

RULE

Department of Health and Human Resources
Board of Nursing

Unit III

3.01 Legal Standards of Nursing Practice

The Louisiana State Board of Nursing recognizes that assessment, planning, intervention, teaching, and supervision are the major responsibilities of the registered nurse in the practice of nursing. The Standards of Nursing Practice provide a means of determining the quality of care which an individual receives regardless of whether the intervention is provided solely by a registered nurse or by a registered nurse in conjunction with other licensed or unlicensed personnel.

The Standards are based on the premise that the registered nurse is responsible for and accountable to the individual for the quality of nursing care he or she receives.

The Standards of Practice shall:
1. Be considered as base line for quality nursing care.
2. Be developed in relation to the law governing nursing.
3. Apply to the registered nurse practicing in any setting.
4. Govern the practice of the licensee at all levels of practice.

3.02 Standard No. 1.

Data concerning an individual's health status must be systematically and continuously collected, recorded, and communicated in order to determine nursing care needs, according to the following criteria.

1. The format for the collection of data provides for systematic collection, frequent updating, accessibility, and appropriate confidentiality.
2. The appropriate data includes: (a) growth and development factors, (b) biophysical status, (c) emotional status, (d) cultural, religious, socioeconomic background, (e) performance of activities of daily living, (f) patterns of coping, (g) interaction patterns, (h) individ-
2. Nursing action is documented by: (a) written records, (b) observation of nursing performance, (c) report of nursing action by the individual and/or pertinent others.

3.06 Standard No. 5.
The plan for nursing care is evaluated according to the following criteria.
1. Current data about the individual are used to measure progress toward established goals.
2. Nursing actions are analyzed for their effectiveness in achievement of established goals.
3. The individual, family, and other significant health care personnel participate in the evaluation of established goals.
4. The individual's response is compared with observable outcomes which are specified in the established goals.
5. Determination is made of the long term effects of nursing care on the individual.

3.07 Standard No. 6.
The planning for nursing care is a continuous process of reassessment and modification, according to the following criteria.
1. The input of additional data determines new or revised approaches.
2. New nursing actions are accurately and appropriately initiated.

Ms. Merlyn M. Maillian, R. N.,
Executive Director
Board of Nursing

RULES

Department of Natural Resources
Office of Conservation

Statewide Order No. 29-M

Statewide order adopting rules and regulations pertaining to the use of salt dome cavities (i.e. storage chambers) for storage of liquid and/or gaseous hydrocarbons, including surface storage facilities incident thereto and regarding hearings to determine the suitability and feasibility of use of particular salt domes for such purposes.

Pursuant to power delegated under the laws of the State of Louisiana and particularly Title 30 of the Revised Statutes of 1950, as amended by Section 23 adopted by the Legislature as Act 641 of 1976; and after a hearing held under Docket No. SDS 77-2 in Baton Rouge, Louisiana, on May 5, 1977, following publication of notice thereof, as required by the Louisiana Administrative Procedures Act, Title 49, Sections 951
through 968 of the Revised Statutes of 1950, as amended, the following rules and regulations are promulgated by the Commissioner of Conservation as being reasonably necessary for the prevention of waste, protection of rights of the owners of liquid and/or gaseous hydrocarbons stored in a cavity or storage chamber in any salt dome and otherwise to carry out the provisions of the laws of this State. All storage cavities or chambers, regardless of location, begun after the effective date hereof shall fall within the purview of this order.

Findings

The Commissioner of Conservation finds as follows:

Finding No. 1: That rules and regulations should be established governing the use and/or development of salt dome caverns for storage of liquid and/or gaseous hydrocarbons under those certain conditions as set forth herein below where it is shown that such use and/or storage will carry out the purpose and intent of the laws of this State.

Finding No. 2: That except as to liquid and/or gaseous hydrocarbon storage projects begun before October 1, 1976, no such project to develop and/or use a salt dome in the State of Louisiana for the injection, storage, and withdrawal of liquid and/or gaseous hydrocarbons shall be permitted until the Commissioner has issued an order following a public hearing after ten days notice, under the rules covering such matters, which order shall include the following findings of fact:

A. That the salt dome sought to be used for the injection, storage, and withdrawal of liquid and/or gaseous hydrocarbons is suitable and feasible for such use as to area, salt volume, depth, and other physical characteristics.

B. That the use of salt dome cavity for the storage of liquid and/or gaseous hydrocarbons will not contaminate other formations containing fresh water, oil, gas, or other commercial mineral deposits, except salt.

C. That the proposed storage, including all surface pits and surface storage facilities incidental thereto which are used in connection with the salt dome cavity storage operation, will not endanger lives or property and is environmentally compatible with existing uses of the salt dome area.

And which order shall provide that (i) liquid and/or gaseous hydrocarbons, which are injected and stored in a salt dome cavity, shall at all times be deemed the property of the injector, his successors or assigns, subject to the provisions of any contract with the affected land or mineral owners, and (ii) in no event shall the owner of the surface of the lands or water bottoms or of any mineral interest under or adjacent to which the salt dome cavity may lie, or any other person, be entitled to any right of claim in or to such liquid and/or gaseous hydrocarbons stored unless permitted by the injector.

Finding No. 3: That in presenting evidence to the Commissioner to enable him to make the findings described in Finding No. 2, the applicant shall demonstrate that the proposed storage of liquid and/or gaseous hydrocarbons will be conducted in a manner consistent with established practices to preserve the integrity of the salt deposit and the overlying sediments. This shall include an assessment of the stability of the proposed cavity design, particularly with regard to the size, shape, and depth of cavity, the amount of separation among cavities, and the amount of separation between the outermost cavity wall and the periphery of the salt deposit.

Finding No. 4: That all projects for the storage of liquid and/or gaseous hydrocarbons approved by the Commissioner pursuant to Finding No. 2 above should be designed, located, equipped, and operated in accordance with the following standards:

Section I. Design of Underground Storage Chamber

A. Prior to the design and construction of an underground storage chamber, a qualified engineer and geologist shall perform an investigation to determine the feasibility of such a storage system at a particular site.

B. The data obtained during the feasibility investigation shall be considered in the design of a solution mined underground storage system. Design shall be performed by or under the supervision of an engineer or geologist qualified for this type of work, and shall include such factors, among others, as: type of storage use, location of the cavity(ies), number of cavities, cavity capacity, and maximum development diameter of the cavity(ies). The design shall assure that project development can be conducted in a reasonable, prudent, and systematic manner; and shall stress physical and environmental safety and the prevention of waste. The design and solutioning shall be continually reviewed throughout the construction phase to take into consideration pertinent additional detailed subsurface information; and shall include provisions for protection from damage caused by hydraulic shock. The original development and operational plans shall be modified to conform with good engineering practices, if necessary.

Section II. Location of Underground Storage Chamber

A. The wellhead and borehole shall be located so that the storage chamber at maximum development diameter shall not extend closer than one hundred feet to the property of others who have not consented to subsurface storage under their land.

B. The minimum separation of adjacent walls of
storage chambers as measured in any direction shall be established by a qualified engineer, considering (i) the salt properties, (ii) the elevation of the top and bottom of the adjacent cavities, (iii) their maximum development diameter relative to the spacing of the cavities, and (iv) other considerations deemed appropriate for the specific site; but, in no case shall such separation at any time during the storage project be less than two hundred feet. The walls of storage chambers shall be no less than one hundred feet from the boundary of the lands included in the storage project on which the chambers are located.

C. If the design should involve the intentional subsurface connection between two adjacent storage chambers under one property (e.g., a "U" tube storage chamber system) the minimum separation between cavities specified in B above shall not apply.

Section III. Casing Program

A. The bore of a storage chamber access hole shall be cased and completed in accordance with rules, regulations, and good engineering practices pertaining to oil and/or gas wells of comparable depth applicable in the same area in which the chamber is located as established by the Commissioner, except as specifically provided below.

B. The borehole shall be dually cased from the surface into the salt, one casing string being an intermediate string, the other being the final cemented string. Exceptions to this procedure will be processed under Finding No. 7.

C. The intermediate cemented casing string shall have adequate tensile and collapse strengths as established by the Commissioner for the setting depth. This string shall be cemented from casing seat (bottom of casing) to ground surface when practicable; however, in every case, it shall be cemented a sufficient distance to prevent migration of the stored products into zones of porosity or permeability in the overburden.

D. The final cemented string shall have adequate tensile and collapse strengths as established by the Commissioner for the setting depth. This string shall be cemented from casing seat (bottom of string) to ground surface and shall be set a minimum of three hundred feet into the salt.

E. The final (production) cemented casing string shall be hydrostatically pressure tested before drilling out the plug (shoe). The test pressure applied at the surface shall be a minimum of two hundred pounds per square inch. However, the test pressure when measured at the surface shall not cause pressure at the casing seat to exceed 0.9 pounds per square inch per foot of depth. The test pressure shall be maintained for a minimum of one hour to verify casing integrity and absence of thread leaks.

F. The casing seat and cement of final cemented casing string shall be hydrostatically tested after drilling out. At least ten feet of salt below the casing shall be penetrated prior to this test. The test pressure calculated at the casing seat shall equal the maximum operating pressure at that point.

G. After the wellhead has been installed and prior to storing products, the system shall be hydrostatically pressure tested as a unit.

H. All tests required by this section shall be prepared and supervised by a qualified engineer.

Section IV. Operating Pressure on Solution Mined Storage Chamber

A. The maximum and minimum operating pressure of a storage chamber shall be determined by a qualified engineer after considering the geological characteristics of the dome. The maximum operating pressure (gauge) at the casing seat or chamber ceiling, whichever is the shallowest, shall not exceed .9 pounds per square inch per foot of overburden.

B. The storage chamber shall not be subjected to pressures in excess of the maximum operating pressure even for short periods of time (including pressure pulsation peaks, abnormal operating condition, etc.)

Section V. Wellhead and Flowlines

A. All wellhead components (casinghead, tubinghead, etc.), valves and fittings shall be of steel. The water side of the wellhead shall have the same pressure rating as the products side. Each flowline connected to the wellhead shall be equipped with a remotely operated shutoff valve as well as a manually operated positive shutoff valve located on the wellhead. The wellhead, flowlines, valves, and all related connections shall have a test pressure rating at least equivalent to 125% of the maximum pressure which could be exerted at the surface. All valves shall be periodically inspected and maintained in good working order.

B. The wellhead and storage chamber shall be protected with safety devices to prevent pressures in excess of maximum operating pressure from being exerted on the storage chamber, and to prevent backflow of stored products in event of flowline rupture.

C. The brine flow line(s) shall be equipped with a safety device(s) to prevent the escape of product.

D. A continuous flare or other safety system shall be installed at or near each brine pit or at any other location where the uncontrollable escape of liquefied gases are likely to occur and the flare shall be burned continuously when a liquefied gas is being injected into a cavern.

E. Caverns containing hydrocarbons that exist as liquids at ambient conditions shall be surrounded
by levees, booms, or other containment devices suitable for retention of liquids released by accidental spillage.

F. Competent personnel shall be at either the well or other control sites during injection or withdrawal from any storage well. An automated system approved by the Commissioner may be employed in lieu of the above.

G. The wellhead shall be protected from mechanical damage by trespassers and/or accidental physical damage.

Section VI. Salt Water Disposal and Brine Storage
Salt water disposal wells shall be drilled and completed in accordance with existing statewide rules and regulations of the Commissioner. Brine disposal reservoirs shall be designed to prevent the contamination of air, fresh water, or soil, or as directed by appropriate State agencies.

Finding No. 5: That all hydrocarbon storage projects conducted in the State of Louisiana should comply with the following requirements pertaining to inspection, record keeping, safety, and abandonment:

Section I. Safety Inspections

A. Each operator of a solution cavern storage well shall conduct semi-annual safety inspections of such facility, and file with the Commissioner a written report consisting of the inspection procedures and results within thirty days following the inspection. Such inspections shall be conducted during the months of January and July of each year. The operator shall notify the Commissioner at least five days prior to such inspections so that his representative may be present to witness the inspections. Inspections shall include, but not be limited to, the following:

(i) operation of all manual valves,
(ii) operation of all automatic shut-in safety valves, including sounding or alarm devices,
(iii) flare system installation, or hydrocarbon filters,
(iv) earthen brine pits, tanks, firewalls, and related equipment,
(v) flowlines, manifolds, and related equipment, and
(vi) warning signs, safety fences, etc.

Additional inspections may be made by representatives of the Office of Conservation at any time during regular working hours and upon reasonable notice to the cavern owner.

B. A capacity determination for each storage chamber shall be made and filed with the Commissioner prior to operation of those projects begun after October 1, 1976. The latest available determination for each storage chamber existing on or begun prior to October 1, 1976, shall be filed within ninety days of the effective date of this order. These determinations shall be verified every five years, or as soon as possible thereafter; but in no event shall this period exceed ten years.

C. A complete inspection of the Christmas tree and casing shall be conducted every five years or as soon as possible thereafter.

Section II. Design and Construction Records
Records pertaining to project design and construction shall be retained for the life of the storage chamber. (Such data shall include well drilling logs, electrical logs, directional surveys, completion and cementing data, pressure test records, geophysical records, washing records, surveys, photographs, inspection, reports, permits, certified location plat, etc.)

Section III. Safety Warnings
Appropriate safety precaution signs shall be displayed and unauthorized personnel kept out of the storage area. Each storage wellhead shall be visibly marked with an appropriate identifying sign.

Section IV. Abandonment Procedure
Prior to the commencement of plugging operations on any project well or the abandonment of any storage cavity, an application describing the method to be used shall be filed with and approved by the Commissioner. Unless the Commissioner specifies to the contrary, wells shall be plugged in accordance with Section XIX of Statewide Order No. 29-B.

Finding No. 6: That should the Commissioner determine that the continued operation of a storage chamber and/or the product storage well or associated wellhead facilities (wellhead, valves, brine tanks or pits and flares) would cause unsafe operating conditions, waste, pollution, or contamination of air, fresh water or soil, or encroachment on adjacent property, he may immediately prohibit further operation of the well or associated wellhead facilities until such time as he has determined that the project can and will be conducted in a physically and environmentally safe manner.

Finding No. 7: That exceptions to the guidelines and requirements set forth in Finding Nos. 4 and 5 should be granted by the Commissioner only upon proper showing by the applicant at a public hearing that such exception is reasonable, justified by the particular circumstances, and consistent with the intent of this order regarding physical and environmental safety and the prevention of waste.

ORDER

NOW, THEREFORE, IT IS ORDERED THAT:

1. From and after the effective date hereof, any applicant for approval of the use and/or development of cavities in a salt dome for storage of liquid and/or gaseous hydrocarbons in the State of Louisiana shall comply with the provisions of Findings Nos. 2, 3, 4, and 5 hereof.

313
2. From and after the effective date hereof, all operators of solution cavern storage wells shall comply with the provisions of Finding No. 5 hereof.

3. If it is determined by the Commissioner that any unsafe operating condition, waste, pollution, or contamination of air, fresh water, or soil is imminent (reference Finding No. 6 above), further operation of any affected storage chamber and/or product storage well and associated facilities shall be discontinued until such time as it is determined that the project will be conducted in a physically and environmentally safe manner.

4. Exceptions to the guidelines set forth in Finding Nos. 4 and 5 shall be granted pursuant to Finding No. 7 above.

This order shall be effective as of July 20, 1977.

R. T. Sutton
Commissioner of Conservation

RULE

Department of Natural Resources
Office of the Secretary

Granting of Pipeline Rights-of-way
to Corporations or Individuals

The following rules and regulations concerning the granting of rights-of-way have been adopted by the Secretary of the Department of Natural Resources, per R.S. 41:1173-74 and R.S. 36:1 et seq.
1. Applicants are to use the State Right-of-Way Form provided by the Department of Natural Resources. A special form is used for escrow agreement permits.
2. The Right-of-Way Form must be submitted in triplicate with a legal size plat(s) attached to each copy.
3. The description contained in the Right-of-Way Form must indicate section, township, and range, or area and block number(s) if offshore; name of the body of water to be crossed; the size of the pipe and the length of the right-of-way in rods.
4. The plat(s) must reveal the following:
   a. Station numbers at the mean low water elevation on a river; the station number at the mean high water elevation on a lake, bay or Gulf of Mexico; or station number at ingress and egress of State properties. Said plat, when illustrating the mean low water line of a river or the mean high water line of a lake or the Gulf, will be authoritative only as to the date of the application for calculation of the State's consideration. The limits of State property reflected on said plat are illustrative only and recognized solely and only for computing the fee for this grant, and are not intended and shall not be construed as determinative of actual title for the benefit of any adjoining owners, whether a grantee herein or a third party.
   b. The section, township and range if in an area that has been surveyed.
   c. The product to be transported.
   d. The location of the pipeline with respect to the right-of-way.
   e. The product to be transported.
   f. Any adjoining land owners cannot be shown on the plat of the pipeline, unless necessary for legal description.
   g. The Right-of-Way Form must be accompanied by a letter of intent which shall contain the following information:
      a. A point of origin of the pipeline.
      b. A detail of construction.
      c. A point of termination of the pipeline.
      d. A detail of construction.
      e. A description of the product to be transported.
      f. The proposed and maximum operating pressures.
     7. Where State mineral leases are traversed, an applicant will furnish the Secretary of the Department of Natural Resources a copy of the letter of notification (with signed, certified return receipt attached) which has been sent to the mineral lessees.
   8. It is necessary that permission or clearance be obtained from the United States Corps of Engineers; Office of Public Works, Department of Transportation and Development; and Louisiana Stream Control Commission if the proposed line crosses navigable waters. A copy of the letter of clearance from the Office of Public Works, Department of Transportation and Development, must accompany the application.
   9. Clearance shall be obtained from the Secretary of the Department of Wildlife and Fisheries, 400 Royal Street, New Orleans, Louisiana, when oyster leases are to be traversed.
10. Written consent must be obtained from the Secretary of the Department of Wildlife and Fisheries if the proposed right-of-way crosses a State or Federal Preserve. Similar clearance is required from any agency having jurisdiction over surface rights of State lands being crossed.
11. The State requires payment for all grants across State lands or navigable streams, regardless of size.
12. The proposed route of the pipeline shall be subject to approval of the Secretary of the Department of Natural Resources.
13. Fees for permits shall be as follows:
   Class 1. Pipe two inches to nineteen inches outside diameter with a maximum of seventy-five feet right-of-way during construction to revert to thirty-five feet after construction is completed with the additional right of ingress and egress for the purpose of maintenance, repairs, removal or modi-
fication—twenty-five dollars per rod.
Class 2. Pipe nineteen inches to thirty-six inches outside diameter with a maximum of one hundred feet right-of-way during construction to revert to fifty feet after construction is completed with the additional right of ingress and egress for the purpose of maintenance, repairs, removal, or modification—thirty-five dollars per rod.
Class 3. Pipe over thirty-six inches outside diameter with a maximum of two hundred feet right-of-way during construction to revert to sixty feet after construction is completed with the additional rights of ingress and egress for the purpose of maintenance, repairs, removal, or modification—forty-five dollars per rod.

The minimum fee for any application processed shall be fifty dollars with a one hundred fee assessed for any assignment of permit thereafter.

14. Contract term—twenty years with option to renew for additional twenty-year term. The option to renew shall be on the same terms and conditions as the original agreement except that the consideration shall be adjusted to reflect the percentage of increase or decrease in the cost of living index as established by the Consumer Price Index for Urban Wage Earners and Clerical Workers published by the Bureau of Labor Statistics of the United States Department of Labor or any revision or equivalent of any such index published by the United States Government, which has occurred from date of this instrument to the date of renewal provided however that in no event shall consideration of such renewal be less than the consideration paid herein for the original term.

15. There shall be no aboveground installations, i.e., valve setting, tie-overs, platforms, etc., without the express consent and approval of the Secretary of the Department of Natural Resources. The Secretary shall have the authority to establish the basis of compensation (which amount shall be in addition to the per-rod consideration referred to in these rules) for such aboveground installation. The application for pipeline rights-of-way shall contain a concise description of any such aboveground facility together with appropriate drawing, showing location of same and profile of design and style.

16. All pipelines constructed under permits granted by the State of Louisiana shall be in accordance with Parts 191, 192, and 195 of Title 49 of the Code of Federal Regulations, as amended, and other Federal and State laws not in conflict therewith.

17. The State of Louisiana is held free from any and all liabilities.

18. A copy of the right-of-way grant, along with a pertinent plat(s) attached, must be filed with the Clerk of Court of the parish or parishes affected and the Department of Natural Resources furnished recordations data.

William C. Huls, Secretary
Department of Natural Resources

RULE

Department of Public Safety
Liquefied Petroleum Gas Commission

Class VII-E Permit

Holders of these permits may transport liquefied petroleum gases on the highways of Louisiana. These permits are valid for ninety days from date of issue and may be secured from the office of the Director upon receipt of the following:
A. Application must be submitted to the office of the Liquefied Petroleum Gas Commission.
B. Check for filing fee in the amount of twenty-five dollars made payable to the Liquefied Petroleum Gas Commission must be submitted.
C. Check for Emergency Permit (valid for ninety days only) made payable to the Department of Revenue in the amount of one hundred dollars must be submitted. In the event the applicant desires to obtain a permanent Class VII, seventy-five dollars of the emergency fee will be applicable to current year’s fee.
D. Bond in the amount of five thousand dollars must be properly executed and submitted with application.
E. Insurance certificate certifying automobile public liability and property damage coverage in the amount of not less than ten thousand dollars for operation in Louisiana must be submitted.
F. All trucks entering the State of Louisiana shall be inspected by a field inspector from the staff of the Commission and certified safe.
G. Operators of the equipment must pass appropriate examination.

Section 1.1 (b) of the Rules and Regulations is hereby declared nonapplicable to the Class VII-E Permit.

Add paragraph (l) to Section 3.11 of the Rules and Regulations as follows:
(I) All trucks delivering liquefied petroleum gas for domestic use shall be equipped with a suitable measuring device which shall be used to accurately gauge the amount of gas placed in each system, either by meter or by weight.

Lionel T. Ortego, Director
Liquefied Petroleum Gas Commission
RULES

Department of Revenue and Taxation
Tax Commission

Rules and Regulations on Notice by
Louisiana Assessors as to the Public
Exposure and Board of Review
Hearings on Assessment Lists

1. Each assessor shall give notice of the public exposure of the assessment lists within ten days prior to said exposure. This notice shall be published in a newspaper of general circulation in their respective parishes.

2. Each assessor shall give notice in the same manner as in paragraph 1 as to the time and place their respective boards of review will meet to conduct public hearings on real and personal property.

* * * *

Guidelines for Appeal to the
Tax Commission

Any taxpayer or assessor dissatisfied with the determination of the Board of Review may appeal to the Tax Commission. The appeal shall be in writing and presented to the Tax Commission in person or by certified mail not later than seven calendar days after certification of the assessment lists by the Board of Review. The Commission will set a hearing date within forty days. The appellant shall be notified as to the time and place of the hearing within three days.

C. Gordon Johnson, Chairman
Tax Commission

RULES

Department of Urban and Community Affairs
Office of Planning and Technical Assistance

I. Purpose: To institute and put forth the policies by which the State of Louisiana through the Louisiana Department of Urban and Community Affairs (DUCA), acting as the officially designated State agency to manage the U.S. Department of Housing and Urban Development's (HUD 701) Comprehensive Planning Assistance Program, will administer said program in the areas of areawide planning and management, large city planning and management, and local assistance.

II. Definitions: The Louisiana Department of Urban and Community Affairs complies with all definitions as assigned by HUD (Federal Register, Volume 40, Number 164 August 22, 1975; Federal Register, Volume 39, Number 240, December 12, 1974; Federal Register, Volume 42, Number 21, February 1, 1977; HUD Handbook I, II, and III). In addition, as used in this part, the following terms will have the meaning as indicated:

A. “DUCA” means Louisiana Department of Urban and Community Affairs.

B. “Consultant” means an individual or an organization, private or nonprofit which has entered into a legal contract with DUCA to do local assistance and/or regional planning.

C. “S-O-P” means Supervisor of Planning.

D. “Subgrantee” means a metropolitan or non-metropolitan areawide planning organization, a large city, or an urban parish (all as defined by the Department of Housing and Urban Development) which has entered into a legal contract with DUCA for planning and management assistance.

III. Local Assistance Program:

A. Application Requirements:

1. Application for grant or technical assistance will be required on an annual basis.

2. Department of Urban and Community Affairs (DUCA) will notify all eligible program participants of deadline dates for submittal of application. Application for local assistance grants and/or technical aid will take the form described in the appropriate applicant eligibility category indicated below.

To be considered eligible for a local assistance grant, a locality must either be a current program participant or a participant in the previous year’s program which, due to a circumstance other than poor program performance, could not be included in the current year’s program. Such eligible localities will receive notification of deadline dates for submittal of application by registered mail. A resolution from the planning commission recommending planning program will be attached to a resolution from the locality’s governing body. This governing body’s resolution must approve the recommendations set forth in the planning commission resolution. Resolutions will conform to standard resolutions prepared by DUCA. The complete application must be submitted to DUCA and postmarked no later than the date indicated in the afore-
mentioned letter of instructions. DUCA will mail a copy of the standard resolution to current program participants (localities and consultants) and on request to other interested parties who contact DUCA for such information.

b. To be considered eligible for a program of technical aid that will qualify it as a first year program participant, a locality must either never have participated in the HUD 701 Comprehensive Planning Assistance Program or not have been a participant subsequent to a program year specified by DUCA. Such eligible localities will receive notification of a deadline date for submittal of application by regular mail. A resolution must be approved by the locality’s governing body requesting to participate in the planning program. Resolutions will conform to standard resolutions prepared by DUCA. The complete application must be submitted to DUCA and postmarked no later than the date indicated in the aforementioned letter of instructions. DUCA will mail a copy of the standard resolution and application package to eligible localities and consultants and other interested parties who contact DUCA for such information.

B. Allocation of Funds for Local Assistance:

1. Only applicants submitting a complete application by the date discussed above will be considered. Selection of applicants for participation in the program will be determined based on HUD and State guidelines. Final determination of participation in the program will be made by DUCA.

2. The planning program will be evaluated on an individual applicant basis at the time of contract execution. Such evaluations will be based on HUD guidelines and on availability of existing planning information as determined by DUCA in coordination with other State agencies.

C. Performance of Work:

1. (a) A preliminary report is a report which addresses, in narrative form, all the minimum requirements as given in the Scope of Services and any other needs of the locality. The report must be typed and paginated. Both primary and secondary data sources must be referenced through the use of footnotes and bibliography. The additional required inclusions for a final draft must also be included. A preliminary report must be designated as such on the front cover.

(b) A final draft is a report which is ready for printing. Such a report adequately addresses all Scope of Services requirements and any other requirements of the locality; references all primary and secondary data sources through the use of footnotes and bibliography; contains all documentation as listed in Section D 2-3 of these policies. A final draft must be designated as such on the front cover.

(c) Printed report refers to a report ready for distribution with the appropriate number of printed and bound copies of such report.

2. Preliminary local assistance reports will be scheduled for submittal to DUCA in coordination with DUCA, the planning commission, and the consultant. Preliminary reports must be scheduled for submittal to DUCA at least fifteen working days prior to presentation of that report at an official planning commission meeting.

3. These preliminary reports must be scheduled for submittal throughout the contractual period, but prior to May 1 of the program year.

4. Nonperformance of local assistance plans: Failure to comply with established preliminary planning report submittal dates as specified under contract, may result in the following action. A grace period beginning the first working day following the scheduled submittal date and not exceeding five working days will be allowed. Upon expiration of the grace period, there will be a daily deduction of two percent of the element cost, that cost as stipulated by contract, for each working day that the planning report is overdue past the grace period, up to a maximum of twenty-five percent. The entire contract may be subject to termination if the planning report is not submitted within thirty working days.
following the scheduled submittal date.

5. Amendments to the planning activities as specified in the contract will be made in writing and signed by the planning commission chairman and will be submitted to DUCA for approval. Such amendments should be submitted to DUCA as soon as the need for the revision becomes evident. Proposed amendments will not be accepted by DUCA after March 31 of the program year.

6. Requests for time extensions on preliminary report submittal dates must be made in writing and must be received by DUCA at least ten working days prior to the originally scheduled submittal date.

7. Local assistance plans will be subject to approval by DUCA in regard to quality of work performed. A Scope of Services outlining minimum acceptable planning standards will be issued by DUCA. All consultants in their preparation of planning reports are required to meet these standards.

8. Prior to presentation of the preliminary report to the planning commission, the following procedures will be utilized by DUCA, consultants, and areawide planning organizations in the submittal and evaluation of preliminary local assistance planning reports:

(a) One copy of the preliminary report will be submitted to DUCA, one copy to each planning commission member of the locality, and one copy to the appropriate areawide planning organization.

(b) The preliminary will arrive fifteen working days prior to the official planning commission meeting at which the report is scheduled for presentation.

(c) The areawide planning organization will review the study for compliance with regional plans. Written comments will be submitted to DUCA within six working days following receipt of report.

(d) DUCA will review the report and will submit written comments to the consultant, incorporating the areawide planning organization's comments when appropriate, within ten working days following receipt of report.

(e) The written comments, if contain-

ing approval of the preliminary report or comments on minor deficiencies, will be sent to the consultant.

(f) Should the preliminary report have major deficiencies in meeting the Scope of Services, the deficiencies will be resolved between DUCA and the consultant without review sheets going to the planning commission members. However, in the event this should occur, a letter explaining the delay in DUCA's acceptance of the report will be sent to each planning commission member. Should the preliminary report be deemed unacceptable, the consultant will be required to resubmit corrected preliminary within ten working days following the official Planning Commission meeting at which the report was presented. Because of the existence of a Scope of Services, DUCA reserves the right to determine the acceptability of planning reports.

9. Final drafts will be submitted to DUCA and to the planning commission members for approval prior to the printing of such reports. If only minor changes are required in the preliminary report, only those pages requiring corrections need be submitted to DUCA. Written approval will be given by DUCA within ten working days of submittal. Notice of approval will be sent to the planning commission members and to the consultant.

10. Printed reports must be submitted to DUCA prior to June 30 of each year.

D. Publication and Depository Requirements:

1. The individual reports and maps (hereinafter referred to as "product") which comprise a comprehensive plan will be published by the consultant in final form, each product under separate cover, within the same planning program year in which that product is funded. Exceptions may be given on an individual basis by DUCA.

2. Each final product will meet HUD requirements as outlined in Handbook II concerning basic inclusions. The HUD citation will be affixed in a conspicuous location on preliminary and final products and will read:

This report (or map) was prepared
under contract (Contract Number) for (Name of Locality) by (Name of Consultant). The preparation of this report (or map) was financially aided through a comprehensive planning grant from the Department of Housing and Urban Development (HUD), and through the financial assistance of the State of Louisiana, Department of Urban and Community Affairs and by (Name of Locality).

Note: For maps the lower right-hand corner is preferred, if feasible.

3. Additional inclusion requirements which must appear in the report in the order given are as follows:

(a) Outside cover sheet which gives name of report, name of locality, name and address of consultant, and the month and year in which the report was prepared.

(b) Bibliographic data sheet.

(c) Inside title sheet which gives the same information as the outside title sheet. The HUD citation must appear at the bottom of this sheet.

(d) Roster sheet giving the names of the planning commission members, local elected officials of the governing body, and the DUCA planning staff.

(e) Table of contents.

(f) List of tables, if applicable.

(g) List of maps, if applicable.

(h) Body of report.

(i) Bibliography (standard form)

4. A consultant performing comprehensive local assistance plans will submit an original reproducible or a duplicate film reproducible of the base map of the locality to DUCA.

5. The consultant will provide the appropriate number of copies of each of the final products based on the following distribution needs:

<table>
<thead>
<tr>

</table>

Note: The consultant, at his discretion or at the request of the Planning Commission may produce for local use more report copies than the number given above. However, no additional funds will be provided by DUCA.

E. Procedures for Payment: The consultant may submit a standard DUCA invoice to DUCA upon submittal of the preliminary report. The invoice must have the original signature of the planning commission chairman or his designated representative. Comments from the planning commission, in the form of meeting minutes, signed by the planning commission secretary, indicating approval of the final draft, must be attached to the invoice. Processing of the invoice will require fifteen working days. It is expressly understood that DUCA will not release the check until the consultant has submitted the required number of printed reports.

F. Professional Competency:

1. In accordance with HUD requirements on professional competency (Federal Register, Volume 40, Number 164, August 22, 1975), DUCA requires that each planning agency entering into a contract with DUCA on local assistance work have the staff person supervising the planning work fulfill certain qualifications prior to execution of the contract. (This staff member would meet criteria used to designate the previously used “Planner-In-Charge” classification.)

2. Only those consultants under contract to DUCA or under consideration for a
contract will be evaluated and considered for DUCA approval.

3. DUCA approval of a consultant is valid only for the period of time that the consultant is under contract to DUCA.

4. The following procedure will be used to qualify for local assistance work:
   (a) The applicant will submit a written request for DUCA approval. The request will include:
       (1) Two examples of comprehensive planning work for which the applicant had major responsibility.
       (2) A certified transcript of course work.
       (3) A resume indicating education, professional planning work experience, employment history, and three professional planner references.
   (b) DUCA will review the request and will inform the applicant of approval or nonapproval of the request. In the event of nonapproval, the reasons for such action will be given.

5. DUCA may rescind its approval for the following reasons:
   (a) Unethical or unprofessional conduct of the approved consultant and/or members of his specialist team in the performance of planning duties. The AIP Code of Professional Responsibility will be used as a guide in making determinations of unethical or unprofessional conduct.
   (b) Repeated unsatisfactory performance in professional services to any planning area as judged by the standards used by DUCA.

6. The following qualifications will be used to determine professional competency.
   (a) In lieu of degree: eight years of professional planning experience of which five years shall be responsible charge.
   (b) BA or BS in unrelated field: five years of professional planning experience of which three years shall be responsible charge.
   (c) BA or BS in related field as defined by Civil Service: three years of professional planning experience of which one year shall be responsible charge.

   (d) BA or BS in Urban Planning or MA, MS, or PhD in related field as defined by Civil Service: two years of professional planning experience of which one year shall be responsible charge.
   (e) MA or PhD in Urban Planning: one year of responsible experience in comprehensive planning.

IV. Regional Planning and Management:
A. Application Requirements:
   1. Applications for grant assistance are required on an annual basis in the form of an OPD (Overall Program Design).
   2. The OPD submittal date will be based on HUD's announcement of funding levels. DUCA will allow the grantee sufficient time to prepare an OPD.

B. Performance of Work:
   1. The definitions given in Section III, Part C, Paragraph (a)(b)(c) will apply to regional planning studies.
   2. Preliminary regional planning reports will be scheduled for submittal to DUCA by the grantee, submittal dates subject to approval of DUCA. These preliminary reports must be scheduled for submittal throughout the contractual period, but prior to May 1 of the program year.
   3. Prior to presentation of the preliminary report to the regional planning commission, the following procedures will be utilized.
      (a) One copy of the preliminary report will be submitted to DUCA and one copy to each planning commission member.
      (b) This preliminary report will arrive at least fifteen working days prior to the official planning commission meeting at which the report is scheduled for presentation.
      (c) DUCA will review the report and will submit written comments to the consultant within ten working days following receipt of the report.
      (d) The written comments, if containing approval or comments on minor deficiencies, will be sent to the areawide planning organization and to the planning commission members.
      (e) Should the preliminary report have major deficiencies, the deficiencies will be resolved between DUCA and the subgrantee without review.
sheets going to the planning commission members. However, in the event this should occur, a letter explaining the delay in DUCA's acceptance of the report will be sent to each planning commission member. Should the preliminary report be deemed unacceptable, the subgrantee will be required to resubmit the preliminary report within ten working days following the official Planning Commission meeting at which the report was presented.

4. Planning studies will be subject to approval by DUCA in regard to quality of work performed. Necessary revisions in reports will be discussed and resolved between DUCA and the subgrantee. The OPD will be used as a guide for these discussions.

5. Nonperformance of planning activities:
   a. Grave discrepancies in the administration of the subgrantee's 701 planning and management program resulting in mismanagement of funds or noncompliance with HUD and State regulations will result in the following action. Payment on the planning and management program will be stopped until such time that the affected agency corrects the discrepancies to the satisfaction of the Louisiana Department of Urban and Community Affairs and the U.S. Department of Housing and Urban Development.
   b. Noncompliance with established preliminary planning report submittal dates, as outlined in the OPD and/or supplemental information may result in the following action. A grace period beginning the first working day following the scheduled submittal data and not exceeding five working days will be allowed. Upon expiration of the grace period, there will be a daily deduction of two percent of the element cost, that cost as stipulated in the planning organization's Annual Work Program (AWP), for each working day that the planning report is overdue past the grace period, up to a maximum of twenty-five percent. The entire contract will be subject to termination if the planning report is not submitted within twenty working days following the scheduled submittal date.

6. Amendments to the subgrantee’s OPD will be made in writing and will be approved by the governing body of the areawide planning organization, and will be submitted to DUCA as soon as the need for a revision becomes evident. Proposed amendments cannot be submitted to DUCA after March 31. Final approval of any amendment will be with HUD.

7. Requests for time extensions on preliminary report submittal dates must be made in writing and must be received by DUCA at least ten working days prior to the originally scheduled submittal date.

8. Final drafts will be submitted to DUCA and to the planning commission members for approval prior to the printing of such reports. If only minor changes are required in the preliminary report, only those pages requiring corrections need be submitted to DUCA. Written approval will be given by DUCA within ten working days of submittal. Notice of approval will be sent to the planning commission members and to the subgrantee.

9. Printed reports must be submitted to DUCA prior to June 30 of each year.

C. Publication and Depository Requirements:

1. The individual reports and maps (hereinafter referred to as “product”) which are completed by a subgrantee will be published by that agency, each product under separate cover, within the same planning program year in which that product is funded.

2. Requirements regarding basic inclusions in final products will be the same as those outlined in Section III, Part D, Paragraph 2 and Paragraph 3 (a)(b)(c)(d) (e)(f)(g)(h)(i). The term “planning agency” however, should be substituted for “locality” where applicable.

3. The regional planning agency will provide DUCA with the appropriate number of copies of each of the final products as outlined below. Copies will be distributed as follows:
D. Procedure for Payment: The subgrantee will invoice DUCA on a cost incurred basis using a standard invoice form. The invoice will be in the amount of the expenses incurred and must be not less than one thousand dollars. These expenses are subject to monitoring by DUCA. Invoices must have the original signature by the regional planning commission chairman or his designated representative. The minutes of official meetings must be attached to the invoice.

E. Professional Competency:
1. In accordance with HUD requirements on professional competency (Federal Register, Volume 40, Number 164, August 22, 1975), DUCA requires that each planning agency entering into a contract with DUCA for planning and management money have the staff person supervising the planning work fulfill certain qualifications prior to execution of the contract. (This staff member would meet criteria used to designate the previously used "Planner-In-Charge" classification.)
2. DUCA's statement of professional competency is valid only for the period of time that the staff member is employed by the subgrantee agency and the subgrantee agency is under contract to DUCA.
3. The procedure used to determine professional competency will be as outlined in Section III, Part F, Paragraph 4 (a1, a2, a3) (b).
4. DUCA retains the right as outlined in Section III, Part F, Paragraph 5(a)(b) regarding rescission of approval.
5. Section III, Part F, Paragraph 6 (a)(b)(c)(d)(e) remain the same.

V. General 701 Program Administration:
A. Administrative Requirements:
1. A semiannual report on the progress of the work program will be submitted by consultants on the local assistance program and by subgrantees on the planning and management program. These reports are due in the DUCA office no later than January 15, of the program year. This report will follow the format prescribed in HUD Handbook II. Subgrantees will, in addition to this format, provide appropriate documentation of technical assistance and community development services rendered during that time period.
2. Subgrantees will submit quarterly financial reports to DUCA. These reports are due ten days following the close of the quarter. Quarters end September 30, December 31, and March 31.
3. The Annual Program Report will be submitted by all local assistance program consultants on local assistance work and by the Areawide Planning Organizations on regional planning and management work within forty-five days following the close of the fiscal year, which is June 30. The completion report will follow the format prescribed in HUD Handbook II.
4. Subgrantees will submit a final financial report with the Annual Program Report. The final financial report is also due within forty-five days following the close of the fiscal year, which is June 30.

B. Financial Support:
1. Louisiana Department of Urban and Community Affairs supports the regulations issued by the Department of Housing and Urban Development regarding the provision of financial support. (Federal Register, Volume 39, Number 240, page 43,380, Section 600.106.) The amount of assistance provided by HUD shall be based upon the following:
   (a) The applicant’s performance in administering its program in accordance with all HUD requirements, including these regulations;
(b) The applicant's past performance in completing its activities in a timely fashion;
(c) The applicant's progress toward the achievement of its identified objectives; and
(d) The applicant's capability to undertake the activities for which assistance is requested.

The factors will be considered in the allocation of HUD 701 planning monies in subsequent years.

Monies allocated to planning firms, private or nonprofit, but not distributed due to nonperformance of work or noncompliance with HUD and State regulations, will be reallocated to other eligible applicants as long as DUCA and HUD deem it practicable. All monies not so allocated will be returned to HUD.

C. Contracts:

1. In accordance with HUD regulations (Federal Register, Volume 30, Number 240, page 43,386, Section 600.120j), the Louisiana Department of Urban and Community Affairs will require, in the case of a subgrantee, that the highest policy officer (e.g. chairman or president), affix his signature to the legal contract on the HUD grant agreement.

2. Any unit of local government which enters into a contract with DUCA for the provision of local assistance planning will be required to establish and maintain a planning commission in conformance with R.S. 33:101 to 119. Any subgrantee which enters into a contract with DUCA for the provision of areawide planning and management will be required to establish and maintain a planning commission in conformance with R.S. 33:131 to 140.

D. Waivers: The Secretary of DUCA may grant a waiver to any of the policies governing the administration of the HUD 701 program provided that the waiver is not in conflict with HUD policies. A subgrantee desiring a waiver must submit a written request specifying the details of the desired waiver and accompanied by substantive evidence that such a waiver is necessary. Approval of a waiver can be given only by the Secretary or by his designated representative.

Leon Tarver, Secretary
Department of Urban and Community Affairs

RULES

Department of Wildlife and Fisheries

Resident Game Hunting Seasons
and Wildlife Management Area Regulations

The Louisiana Department of Wildlife and Fisheries, via resolution of the Wildlife and Fisheries Commission, has adopted rules and regulations concerning the 1977-78 hunting seasons for resident game birds and animals and rules and regulations concerning hunting on wildlife management areas. The Department of the State Register has determined that publication of these rules would be unduly cumbersome and exercised its privilege to omit them from the Louisiana Register, as per R.S. 49:954.1C.

These rules are available for public inspection at Wildlife and Fisheries headquarters, 400 Royal Street, New Orleans. They will be published in pamphlet form and made available, free, throughout the state on or about September 1, 1977.

* * * *

Trapping Season

Be it resolved that the Louisiana Wildlife and Fisheries Commission does hereby set the trapping season for nutria, beaver, mink, muskrat, otter, raccoon, opossum, skunk, bobcat, and fox for the 1977-78 season, from December 1, 1977, through February 28, 1978.

Be it further resolved that if additional time is required to prevent the overpopulation of nutria and muskrat in some areas, recommendations for an extended season be presented to the Commission's January, 1978, board meeting.

* * * *

Nature Trails on Wildlife Management Areas

(Editor's Note: These regulations were previously adopted specifically for the Pearl River Wildlife Management Area. They were made applicable to all the State's management areas by action of the Wildlife and Fisheries Commission at a meeting held on May 10, 1977.)

1. Cutting, breaking or collecting leaves, plants, etc. is absolutely prohibited. The Commission will however, provide educational groups conducting sponsored field trips into the area with a written permit to collect leaves and other plant material for permanent study collections. All such permitted collections will be made from the wildlife management area away from the marked trail. No one is authorized to give you oral permission to collect.

2. No picnicking on the trail. This does not apply to the parking area, however, no garbage disposal will be
provided and you should take your own trash back to an authorized disposal area.

3. No horses, bikes, or motorized vehicles are permitted on the nature trail.

4. No dogs or firearms permitted except as specified in wildlife management area regulations.

5. Hunting Seasons Use: Some kind of hunting season is open on the area usually from the first Saturday in October until mid-January, and a turkey season is usually held during portions of March and April. During squirrel and turkey seasons it is directed that you not use the trail before 9:30 a.m. During the gun hunting season for deer you need to wear the highly visible hunter orange outer garments that are required as a safety measure for deer hunters. See Hunting, Fishing and Trapping Regulations published annually by the Louisiana Wildlife and Fisheries Commission.

6. Penalty: Whoever violates the foregoing rules and regulations for each offense, shall be prosecuted and subject to penalties under R.S. 57:764.

J. Burton Angelle, Secretary
Department of Wildlife and Fisheries

NOTICE OF INTENT

Board of Elementary and Secondary Education

Notice is hereby given that the State Board of Elementary and Secondary Education intends to adopt at its August 25, 1977, meeting, the following policy:

Revision to Bulletin 741, 1977, page 75, Item 4, Staff Personnel, Standards for Approval of Elementary and Secondary Schools, relative to pupil-counselor ratio.

The State Board of Elementary and Secondary Education will accept written comments until 4:30 p.m., August 10, 1977, at the following address: State Board of Elementary and Secondary Education, P. O. Box 44064, Capitol Station, Baton Rouge, Louisiana 70804.

The public is made aware of the consideration of the above rule change in compliance with R.S. 49:951, et seq.

All interested parties will be afforded reasonable opportunity to submit data, views, comments, or arguments at the regular August Board meeting.

Earl Ingram, Director
Board of Elementary and Secondary Education

NOTICE OF INTENT

Board of Regents

Notice is hereby given that the Louisiana Board of Regents, at its regular meeting of September 22, 1977, intends to update the State Plan for Community Service and Continuing Education Programs Under Title I of the Higher Education Act of 1965 as Amended; adopt the 1978 Annual Amendment to the State Plan for Community Service and Continuing Education Programs; and approve budget revision to the 1977 Annual Amendment.

The proposed update, amendment, and revision will be available for public inspection between the hours of 8:00 a.m. and 4:30 p.m. on any working day after July 20, 1977, at the offices of the Louisiana Board of Regents, Suite 1530, One American Place, Baton Rouge, Louisiana.

Interested persons may submit their views and opinions up to fifteen days following publication of this notice of intent to the following address: Louisiana Board of Regents, Suite 1530, One American Place, Baton Rouge, Louisiana 70825, telephone (504) 389-5206.

Sandra S. Thompson, Secretary
Department of Culture, Recreation, and Tourism

William Arceneaux, Commissioner
of Higher Education
NOTICE OF INTENT

Department of Health and Human Resources
Office of Family Services

The Department of Health and Human Resources, Office of Family Services, plans to adopt the following definitions for the levels of nursing care provided by a Skilled Nursing Facility (SNF), an Intermediate Care Facility I (ICF I) and an Intermediate Care Facility II (ICF II). These revisions will allow the Medical Assistance Program to comply with Federal regulations (45 CFR 245.10 (b)(4)(i)) which require a common definition of skilled nursing care for the Medicare and Medicaid Programs. These regulations broaden the interpretation and application of the skilled level of care.

Skilled Nursing Facility Services Level of Care is skilled nursing and/or rehabilitation services ordered by and under the direction of a licensed physician which are needed on a daily basis and required to be provided on an inpatient basis and which can be provided only by or under the supervision of professional personnel, including registered nurse or licensed practical nurse on continuous basis over a twenty-four hour period and seven-day registered nurse services and/or supervision. Such services include specific skilled and/or rehabilitation services, skilled supervision, and management of a complicated or extensive plan of care instituted by a physician; or skilled observation, assessment, and monitoring of a complicated or unstable condition, or of the progress of a rehabilitation program; or skilled evaluation of the proper maintenance therapy for chronic ongoing illnesses.

Intermediate Care Facility Services I Level of Care is basic nursing care and services ordered by and under the direction of a licensed physician which are needed in an institutional setting and which can be provided by and under the supervision of a registered nurse or licensed practical nurse on a continuous basis over a twenty-four hour period, for those individuals who do not require the degree of care and treatment provided in a skilled nursing facility.

Intermediate Care Facility Services II Level of Care is primarily supervised personal care and health related services ordered by and under the direction of a licensed physician which are required in an institutional setting and which usually can be provided by trained aides and orderlies under the supervision of a licensed practical nurse during twelve-hour daytime span with registered nurse consultation.

Interested persons may submit written comments until 1:00 p.m. on August 4, 1977, to the following address: Mr. Roy E. Westerfield, Assistant Secretary, Office of Family Services, Department of Health and Human Resources, Post Office Box 44065, Baton Rouge, Louisiana 70804.

William A. Cherry, M.D., Secretary
Department of Health and Human Resources

NOTICE OF INTENT

Department of Health and Human Resources
Office of Family Services

The Department of Health and Human Resources, Office of Family Services, proposes to adopt revised minimum standards for the licensure of maternity homes.

The licensing authority of the Office of Family Services is established by R.S. 46:1401-1411 and charges the Office of Family Services with the responsibility for developing and publishing standards for the licensing of maternity homes.

The proposed revised standards reflect the intentions of the Office of Family Services to modernize and update the current maternity home standards, which were promulgated in 1959.

Copies of the proposed Minimum Requirements for License of Maternity Homes may be obtained without cost at the following address: Office of Family Services, Planning and Policy Formulation, 755 Riverside Mall, Baton Rouge, Louisiana 70804.

Interested persons may submit comments on the proposed revised standards orally or in writing through August 5, 1977, to the following address: Mr. Roy E. Westerfield, Assistant Secretary, Office of Family Services, Department of Health and Human Resources, P.O. Box 44065, Baton Rouge, Louisiana 70804.

William A. Cherry, M.D., Secretary
Department of Health and Human Resources

NOTICE OF INTENT

Department of Health and Human Resources
Office of Family Services

The Department of Health and Human Resources, Office of Family Services, proposes to adopt policy and procedural changes that will allow payment for physician services under the following limitations:

1) up to twelve outpatient physician visits per calendar year with provisions for extension if medically approved. Payment will actually be made for up to fifteen visits before a claim is rejected. This will
allow claims which were in process at the time the medical eligibility card was issued.
(2) up to fifteen inpatient hospital visits including admission visits in any calendar year when the recipient is hospitalized without surgery with provision for extension if medically necessary.
Comments on the proposed policy and procedural changes may be submitted in writing or orally until 1:00 p.m., August 4, 1977, to Mr. Roy E. Westerfield, Assistant Secretary, Office of Family Services, Department of Health and Human Resources, Post Office Box 44065, Baton Rouge, Louisiana 70804.

William A. Cherry, M.D., Secretary
Department of Health and Human Resources

NOTICE OF INTENT

Department of Health and Human Resources
Board of Nursing

The Louisiana State Board of Nursing hereby gives notice that the Board at its September 8-9, 1977, meeting intends to adopt the following:
(1) Policies for Practice of Nursing by the R.N. Applicant.
(2) Policies for the Legal Employment of Students in Nursing and the Unsuccessful Candidates on the State Board Test Pool Examination as Nursing Assistants (term interchangeable with nurses aides).

The public is made aware of the proposed policies in compliance with R.S. 49:951-966. Interested persons may submit written comments until 4:30 p.m., August 29, 1977 to Louisiana State Board of Nursing, 907 Pere Marquette Building, 150 Baronne Street, New Orleans, Louisiana 70112.

Policies for Practice of Nursing by Registered Nurse Applicant

The terminology Registered Nurse Applicant identifies those individuals who have been issued a temporary working permit, as provided for in the Law Governing the Practice of Nursing, Section 920 C, which states:

"The Board may issue a working permit to graduates of approved schools pending results of the first licensing examination scheduled by the Board following graduation."

It is the opinion of the Board of Nursing that the temporary work permit carries with it certain restrictions relative to the practice of nursing by the holders of said permit. Therefore, the registered nurse applicant is not to function in the same capacity as the individuals who have already received registered nurse licensure. To fulfill its responsibility to protect the public from those not qualified to practice as registered nurses and to provide a means to insure safe and effective nursing care, the Board has established and proposes to adopt at its next meeting scheduled for September 8-9, 1977, the following policies for the practice of nursing by the registered nurse applicant:

1. The registered nurse applicant is to practice only in nursing situations where direct registered nurse supervision is available.
2. The registered nurse applicant is not to assume charge nurse responsibilities.

* * * *

Policies for the
Legal Employment of Students in Nursing and the
Unsuccessful Candidates on the
State Board Test Pool Examination
as Nursing Assistants

The Louisiana State Board of Nursing recognizes that the student in nursing and the unsuccessful candidate on the State Board licensing examination may have the need to earn money. However, they are unlicensed persons and cannot legally perform, nor be assigned nursing duties other than those allowed any unlicensed person.

To assist these individuals to be employed in an acceptable nursing position whereby they contribute to patient care and yet do not jeopardize the welfare of the patient nor legally implicate themselves or their employing institution, the Board has established the following policies (guidelines) and proposes to adopt them at their next meeting scheduled for September 8-9, 1977.

The employer shall:

1. require the completion of the usual employment application for nursing assistant.
2. review the written job description for the nursing assistant with the employee.
3. provide proper orientation to and training for the position of nursing assistant.
4. make no distinction between the nursing assistant, who is also a student in nursing or an unsuccessful candidate for licensure, and the nursing assistant trained on the job in regard to their functions, identification, uniform, and compensation.
5. orient all nursing personnel to their legal responsibilities when they utilize this nursing assistant.

The Board of Nursing believes that the faculty of a program in nursing share with the employer the responsibility for assisting the student in understanding his/her role in this type of employment.

The faculty also shares the responsibility for interpreting to the student that failure on the licensing examination limits their nursing practice to that of Nursing Assistant.

The faculty should assist the student in recognizing the need for:
1. functioning within the legal limits of unlicensed nursing personnel.
2. wearing the identification and uniforms of the nursing assistant. (The school uniform, cap, and pin shall not be worn in an employment situation of this nature).

Employers are urged not to jeopardize the potential for licensure of the student in nursing or the unsuccessful candidate for licensure in order to augment their staffing. The future professional careers of these individuals are at stake.

Ms. Merlyn M. Maillian, R.N.,
Executive Director
Board of Nursing

NOTICE OF INTENT

Municipal Police Officers
Supplemental Pay Board of Review

The Municipal Police Officers Supplemental Pay Board gives notice of its intention to adopt the following proposed rules and regulations. Interested persons may submit written comments through August 5, 1977, to: H. Benny Turcan, Division of Administration, P. O. Box 44095, Baton Rouge, Louisiana 70804.

Rules of Practice and Procedure Before the Municipal Police Officers Supplemental Pay Board of Review

Section 1. Authority: These Rules of Practice and Procedure are promulgated by authority of R.S. 49:951 et seq., as amended, being the Louisiana Administrative Procedures Act. All rule-making and hearing procedures of this Board are conducted according to the Louisiana Administrative Procedures Act.

Section 2. Domicile of Board, Time of Meetings, Special Meetings: The Board shall be domiciled in Baton Rouge, Louisiana. Meetings and hearings shall be held upon the submission of an appeal to the Board or at the Board’s own calling.

Section 3. Definitions: By reference, all of the definitions set forth and contained in R.S. 49:951 through 49:966, inclusive, are incorporated herein, and for the purpose of hearings to be held hereunder, the following definitions shall prevail:

A. “Board” shall mean the board of review for extra compensation paid by State to municipal police officers.
B. “Hearing” shall mean a hearing called by the Board under the authority of R.S. 33:2218.2C (6).
C. “Appellant” shall mean the individual submitting an appeal to the Board of Review concerning extra compensation to be paid.
D. “Applicant” shall mean the person for whom supplemental pay is sought.
E. “Full time employment” is defined as, and shall mean that: (1) law enforcement must be the applicant’s primary job, (2) the applicant’s major source of income must be derived through the municipality for law enforcement duties, (3) the applicant must work a minimum of forty hours per week in the capacity of a law enforcement officer.

Section 4. Eligibility for Supplemental Pay:

A. Must have been and be employed full time as defined in these rules, for at least twelve full calendar months, continuous or discontinuous in one or more municipalities in the State of Louisiana. For purpose of this one-year service prerequisite as to employees hired after the first working day of a month this begins on the first day of the following month.

B. If the municipality has its own civil service system or is under the municipal police civil service system established by ...S. 33:2471 et seq., the applicant must be classified under it.

Section 5. Entitlement Amounts: No supplemental pay shall be owed for less than a full calendar month of service except that service for the first fifteen days of a calendar month (but less than for the full such month) shall entitle payment for one-half that month.

Section 6. Procedure for Applying for Determination of the Application, and for Appeals From a Denial of the Application:

A. The application for supplemental pay must be made on a form to be prescribed by the Board, signed by the Mayor, and Chief of Police before a notary, which shall furnish among other information: (1) a copy of the employees civil service form if the municipality has a civil service system, (2) the date of first employment as a full-time police officer by the current municipal employer, amount of salary paid therefor, date of any prior such full-time employment by other Louisiana municipalities, description of present and prior such duties; and description of any other employment of and compensation received by, the applicant in the preceding twelve months.

B. The Board shall have sixty days from receipt of the application for supplemental pay to act upon it.

C. If the request is denied in whole or in part the applicant has thirty days from mailing of notice of denial within which to file with the Board on appeal in writing.

D. Upon the filing of such an appeal the Board shall give written notice to the applicant and
the municipal employer of the applicant at least fifteen days from mailing of such notice, of the time, place and date of a hearing on such appeal, which hearing shall be not more than thirty days from the filing of an appeal.

Section 7. Hearing Procedure on Appeal: The hearings called according to these Rules and Regulations shall be conducted by the Board in accordance with the rules and procedures set forth in R.S. 49:956 et seq.

A. The Chairman of the Board or the Vice Chairman in the absence of the Chairman shall announce the title and docket number of the proceedings before the Board and direct a reading into the record of the notice of hearing together with the written appearances of the appellant. Attorneys and/or other representatives of the appellant shall be recognized along with other proper parties including representatives of the municipal employer of the appellant.

B. The appellant shall then present his evidence subject to cross-examination by the Board and other proper parties in those cases where the applicant requested the hearing to be held.

C. The Board shall then present its evidence subject to cross-examination by the applicant and other proper parties.

D. Where the Board has called the hearing on its own motion, the order of presentation of evidence shall be reversed.

E. The Board may make an informal disposition of the case by stipulation, agreed settlement, consent order, or default.

F. The Board shall render its final decision and order in accordance with these rules and regulations, and with R.S. 49:958, within thirty days of conclusion of the hearing.

Section 8. Default in Appearing: In the event of the failure of any appellant to appear at the hearing provided for, and also provided that the foregoing rules as to service have been complied with, the appellant so failing to appear or otherwise notify the Board shall be deemed to be in default, and the evidence as received by the Board at that time shall be entered into the record and may be taken as true and the order of the Board entered accordingly.

Section 9. Stenographic Record of Hearing: At the expense of and at the written request made not less than five days prior to the date set for the hearing by any person affected by the hearing, the Board or the person designated by it to hold the hearing shall cause a full stenographic record of the proceedings to be made by a competent stenographic reporter and, if transcribed, such records shall be made a part of the record of the Board of the hearing. All hearings are recorded by the Board's own stenographers and by agreement may be used as a transcript of the proceedings.

H. Benny Turcan, Member
Municipal Police Officers Supplemental
Pay Board of Review

NOTICE OF INTENT

Department of Natural Resources
Office of Conservation

In accordance with the laws of the State of Louisiana, R. S. 30:1, et seq., R. S. 49:951, et seq. and particularly R. S. 30:6B and R. S. 30:23B, a public hearing will be held in the Conservation Auditorium, First Floor, State Land and Natural Resources Building, 625 North 4th Street, Baton Rouge, Louisiana, at 9:00 a.m., August 9, 1977.

At such hearing the Commissioner of Conservation will hear testimony and consider evidence relative to the storage of crude oil in existing caverns Numbers 6, 7, 8, 9, and 11, West Hackberry Salt Dome, Cameron Parish, Louisiana. The Commissioner will hear and consider evidence relative to the adoption of rules and regulations to govern the use and operation of existing facilities for crude oil storage.

Prior to authorizing the use of cavities and/or caverns for storage, the Commissioner must find:

1. that the area of the salt dome sought to be used for injection, storage and withdrawal of liquid and/or gaseous hydrocarbons is suitable and feasible for such use,

2. that the use of the salt dome cavity for the storage of liquid and/or gaseous hydrocarbons will not contaminate other formations containing fresh water, oil, gas, or other commercial mineral deposits, except salt; and,

3. that the proposed storage, including all surface pits and surface storage facilities incidental thereto which are used in connection with the salt dome cavity storage operation, will not endanger lives or property and is environmentally compatible with existing uses of the salt dome area.

In addition, the Commissioner will consider disposing of the brine displaced from the caverns during fill via deep well injection. The Commissioner will consider any other matters relative to the construction and operation of crude oil storage in salt caverns in the West Hackberry Salt Dome, Cameron Parish, Louisiana.

Oral and written comments will be received from any interested party at the public hearing.

Written comments which will not be presented at the hearing will need to be received not later than 5:00
p.m., August 8, 1977, at the Baton Rouge Office. A summary of the proposed plan is available for inspection at the Office of Conservation, 625 North 4th Street, Baton Rouge, Louisiana, and in the Lake Charles District Office, 716 Hodges, Post Office Box 1767, Lake Charles, Louisiana.

R. T. Sutton
Commissioner of Conservation

NOTICE OF INTENT
Department of Public Safety
Commission on Law Enforcement
and Administration of Criminal Justice

(Editor’s Note: The following notice was previously published in the Louisiana Register, Volume 3, Number 6, dated June 20, 1977. It is being republished in order to change the time and place of the meeting.)

In accordance with the applicable provisions of the Administrative Procedures Act, R.S. 49:951 et seq., as amended, notice is hereby given of a public hearing to be held at 1:00 p.m. on July 27, 1977, in the Caribbean Room, Bellemont Motor Hotel, Baton Rouge, Louisiana.

The purpose of the hearing is consideration and approval by the Louisiana Commission on Law Enforcement and Administration of Criminal Justice of the Fiscal Year 1978 Comprehensive Law Enforcement Plan for Louisiana. This notice is in compliance with Federal regulations cited in Federal Register, Volume 40, Number 98, May 20, 1975, pages 22,114-19; Federal Register, Volume 40, Number 220, November 13, 1975, pages 52,846-7; Federal Register, Volume 40, Number 246, December 22, 1975, page 59,204; Federal Register, Volume 41, Number 55, March 19, 1976, pages 11,714-18; and Federal Register, Volume 39, Number 63, April 1, 1974, pages 11,886-91.

All interested persons will be afforded a reasonable opportunity to submit data, views, or arguments in accordance with the applicable provisions of the Administrative Procedures Act, R.S. 49:951 et seq., as amended.

Wingate M. White, Executive Director
Commission on Law Enforcement and Administration of Criminal Justice

NOTICE OF INTENT
Department of Wildlife and Fisheries
Stream Control Commission

Notice is hereby given that the Louisiana Stream Control Commission, hereinafter called the Commission, will hold a public hearing in the Mineral Board Hearing Room on the first floor of the State Land and Natural Resources Building, 625 North Fourth Street, Baton Rouge, Louisiana, on Friday, August 26, 1977, beginning at 9:30 a.m.

The Commission will present and discuss:

1. A proposed order or regulation regarding the execution of the Lower Mississippi River Waterworks Warning Network Plan by all users of and dischargers to the Mississippi River, downstream of the Old River Control Structure, and users of Bayou Lafourche.

2. A proposed order or regulation regarding the control and/or restriction of effluents from sand and gravel mining operations into Louisiana surface waterbodies.

Interested persons may submit data, views, or arguments relative to the proposed orders and/or the procedures employed in developing them, orally or in writing at the public hearing, or may submit written materials within thirty days after the hearing to the Louisiana Stream Control Commission, Post Office Drawer FC, University Station, Baton Rouge, Louisiana 70893, Telephone (504) 389-5300.

The Commission acting under the authority of R.S. 56:1439 may, at a subsequent hearing, adopt the proposed orders as presented or amended in response to data, views, or arguments submitted.

Copies of the proposed orders or regulations will be available for inspection at least ten days prior to the date of the hearing and may be seen in every parish library in the State of Louisiana and in every District Office of the
Louisiana Department of Wildlife and Fisheries as well as the office of the Louisiana Stream Control Commission in the Geology Building, Room 135, on the Louisiana State University Campus, Baton Rouge, Louisiana. While the limited supply lasts, the Commission will mail copies to interested persons who request them by mail.

Robert A. Lafleur, Executive Secretary
Stream Control Commission

Errata

Volume 3, Number 3, Department of Health and Human Resources, Office of Health Services and Environmental Quality. Page 104—In Section 8.9.2, Power-Pump Base, the second sentence should be revised to read: “The well casing shall not be used to support pump or motor.”

Volume 3, Number 6, Department of Revenue and Taxation, Tax Commission. Page 289—Under the subheading “Eligibility Requirements and Application for Use Value Assessment” the first sentence should be revised to read: “In order to be classified as bona fide agricultural, horticultural, marsh or timberland and assessed at its use value under the provisions of Article VII, Section 18(C) of the Louisiana Constitution of 1974, it must: (1) meet the definition of bona fide agricultural, horticultural, marsh or timberland as described in Section 2 of Act 702 of 1976 and, (2) the owner must file an application with the assessor in the parish or district where the property is located certifying that the property is eligible for use value assessment.

Volume 3, Number 6, Office of Conservation—The Office of Conservation was erroneously listed as a part of the Department of Commerce. It should have been placed under the Department of Natural Resources.
