Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP)

State share owed to FEMA upon the final closeout of various disasters, including Hurricane Katrina, for public assistance (state, local and private non-profits) and hazard mitigation projects. Final closeouts of the various disasters are not expected until FY21 at the earliest and Katrina FY23, but could extend beyond the 5-year baseline projection window.

Hurricane & Storm Damage Risk Reduction System

In 2008, the State of Louisiana through the Coastal Protection & Restoration Authority Board entered into a Project Partnership Agreement with the U.S. Army Corps of Engineers to construct a Hurricane and Storm Damage Risk Reduction System (HSDRRS) around the greater New Orleans area. The HSDRRS project is a cost share agreement whereby the State is required to pay a percentage (about 35%) of the total costs of the project. Payback will occur over a 30-year period with the first payment due once the HSDRRS project is completed and accepted.

There is federal legislation pending passage by the U.S. Congress that includes changes to the Water Resources Act of 1986 (Section 103k) that adds an interest relief provision and a project crediting provision. The HSDRRS project meets the criteria outlined in the draft language for renegotiating the terms and conditions. The criteria include, projects that have been delayed 5 or more years, have exceeded 10 years of construction and have construction interest that exceeds \$45 million. Since the HSDRRS meets all criteria and to the extent the federal legislation is enacted, the state would be able to renegotiate terms and conditions of the payment arrangement.
