DECLARATION OF EMERGENCY
Department of Commerce
Office of Financial Institutions

Under authority granted by R.S. 6:902B, the Commissioner of Financial Institutions hereby adopts the following Rule, effective December 6, 1982, for the purpose of providing a means by which State Chartered Savings and Loan Associations may have authority consistent with that granted federal associations by Federal Home Loan Bank Board Rules and Regulations 546.2 (b) and (e).

RULE

Notwithstanding limitations imposed by Chapter 9, Title 6,
Louisiana Revised Statutes, one or more state chartered savings and
loan associations may merge in accordance with the following Rule:

(a) Each association, by a two-thirds vote of its board of
directors, shall approve a plan of merger evidenced by a merger
agreement. The agreement shall state that it is effective only when
approved by the Commissioner of Financial Institutions, State of
Louisiana, and the Federal Home Loan Bank Board and shall
specify (1) which association will be the resulting association; (2)
the name it will use; (3) the location of its home office and branch
offices; (4) the basis on which its savings accounts will be issued;

Procedure Act.

DECLARATION OF EMERGENCY
Board of Elementary and Secondary Education

The State Board of Elementary and Secondary Education,
at its meeting of November 18, 1982, exercised those powers
conferred by the emergency provisions of the Administrative Pro-
cedure Act, R.S. 49:953B, and adopted the following as an
emergency Rule:

Revised Home Study Guidelines
(Pursuant to R.S. 17:236)

I. Definition
A home study plan for the purpose of these Guidelines is a
program in which an approved curriculum can be implemented under the direction and control of a parent or a tutor.

II. Eligibility

Any child eligible by Louisiana law to attend Louisiana elementary or secondary schools shall be eligible to participate in a home study plan. The home study plan does not replace the provisions of the state home-bound law.

III. Application Process

Before the student's instruction in a home study plan begins, the parent or tutor shall submit a home study application to the State Department of Education for review and recommendation to the State Board of Elementary and Secondary Education. Acceptance of the home study application shall be at the discretion of the State Board of Elementary and Secondary Education.

IV. Instructor

A parent or tutor* may be permitted to provide instruction in a home study plan. *Tutor: Court appointed guardian under Louisiana law.

V. Curriculum

The home study program shall have a sustained curriculum of a quality at least equal to that offered by public schools at the same grade level. In order to receive a Louisiana state equivalency diploma, the student must pass the General Educational Development (GED) test.

VI. Transfer Provisions

The local public school system shall have a written policy to receive any student from a home study plan and shall use whatever means are applicable to arrive at an appropriate placement in the local school system.

Note: When a student enters an approved public or non-public school, the school shall have the authority to test the student to determine appropriate grade level placement or subject matter unit credit.

VII. Due Process

The due process procedures for resolution of disagreements at the local level pertaining to the application and reauthorization of the home study plan shall follow the procedures established by the State Board of Elementary and Secondary Education in its Policies and Procedures Manual.

VIII. 

All reasonable costs directly attributable to the home study program shall be borne by the parents.

This emergency adoption is necessary in order for the revised application form to be implemented during the current school year. The effective date of this Emergency Rule is November 18, 1982.

DECLARATION OF EMERGENCY
Department of Health and Human Resources
Office of Family Security

The Department of Health and Human Resources, Office of Family Security, has exercised the emergency provisions of the Administrative Procedure Act R.S. 49:953B to revise the reimbursement methodology for hospital services to a prospective method with a target reimbursement rate set at the 90th percentile. Effective January 1, 1983, the following methodology shall apply for determining reimbursement rates for all in-patient and outpatient services provided on or after that date:

I. DEFINITIONS

A. 1) Consumer Price Index (CPI) - The Consumer price index for all items for all urban consumers as prepared by the Council of Economic Advisors for the Joint Economic Committee.

2) Medical Component of the CPI - the portion of the CPI pertaining to the cost of medical services for all urban consumers.

B. Hospitals - Public or private hospitals (except one for tuberculosis or mental diseases) which participate in the Title XIX vendor payment plan.

1) Emergency Access Hospital - a hospital which is not a Medicaid participating provider which provides emergency services to a Title XIX eligible recipient when such services are necessary to prevent the death of the individual or the serious impairment of his health.

2) New hospital - a hospital not currently enrolled as a Medicaid provider which becomes a Medicaid provider after midnight December 31, 1982.

3) Hospital serving a disproportionate number of low income patients - any short-term general hospital in which the combination of Medicaid inpatient days and indigent inpatient days represents 30 percent or more of the total inpatient days for that hospital's most recent fiscal year.

C. Indigent Inpatient Days - All Medicaid inpatient days shall be considered indigent inpatient days, as shall a day of care consumed by an individual whose gross monthly income is within the specified limits of the Louisiana Eligibility Standard for services in state general hospitals. The 1982-83 Eligibility Standards are as follows: a single individual whose income is $500 or less; an individual from a two-member family with a monthly income of $600 or less; a three-member family with a monthly income of $700 or less; a four-member family with an income of $800 or less; a five-member family with an income of $900 or less; a six-member family with an income of $1000 or less; a seven-member family with an income of $1050 or less; an eight-member family with an income of $1100 or less; and so forth, with $50 added to the monthly limit for each additional member of the family. A plan for determining and verifying indigent patients other than Medicaid patients must be submitted by the hospital and be approved by the Medical Assistance Program.

D. Occupancy Rate - the ratio of the number of utilized beds to the total number of certified beds.

The following methods for determining reimbursement rates for inpatient and outpatient services are being proposed effective January 1, 1983, for all services provided on or after that date:
II. Inpatient Hospital Services - The per diem reimbursement rate effective January 1, 1983, shall be determined by taking the cost report for the most recent fiscal period ending before July 1, 1982. The per diem rate shall be calculated using that cost report and based on actual occupancy rate. The per diem rate thus calculated shall then be inflated by the percentage change in the medical component of the Consumer Price Index (CPI). The rate shall be increased by the percentage increase in the CPI for the same month in which the cost report ends (e.g., if the cost report covered services through November 30, 1981, it would be the percentage increase in the CPI medical component from November 1, 1981, through June, 1982). The rates shall then be arrayed from lowest to highest with determination of a target rate at the 90th percentile. All hospitals with rates below the 90th percentile will have their rate increased by the percentage change in the CPI from December, 1981, to June 1982. Hospitals with rates currently above the target rate will have their rate decreased by 1/5 of the difference between their current rate and the target rate.

A. Hospitals serving a disproportionate number of low income patients will have their rates determined in the same manner as noted above, but shall use the percentage increase in the medical component of the CPI from December, 1981 to June, 1982. However, no rate may be increased above the target rate.

New rates will be computed each year effective July 1, of the year by taking the percentage change in the consumer price index or the medical component CPI, whichever is appropriate, from December of two years previously to December of the last calendar year, and applying that to the rate for the immediately preceding year. No rate may be increased beyond the target rate. Hospitals above the target rate will have their rate reduced based on the difference between their rate and the target rate. Effective July, 1983, these rates will be reduced by 1/4 of the difference, in 1984 by 1/3 of the difference, in 1985 by 1/2 of the difference and in 1986 these rates shall be reduced to the target rate.

C. New Hospitals (Inpatient Services) - The Medical Assistance Program shall reimburse new hospitals at a rate equal to the 50th percentile for inpatient services, not to exceed Medicare reimbursement rate(s) for such service(s). New hospitals shall bill the Medical Assistance Program for their usual and customary charge for such services and shall be required to certify in writing to the Medical Assistance Program, that their billed amounts are in compliance with this policy.

D. Emergency Access Hospitals (Inpatient Services) - The Medical Assistance Program shall reimburse hospitals designated as emergency access hospitals at a rate equal to the 50th percentile for inpatient services, not to exceed Medicare reimbursement rate(s) for such service(s). The hospitals shall bill the Medical Assistance Program their usual and customary charge for such services and shall be required to certify in writing to the Medical Assistance Program that their billed amounts are in compliance with this policy.

III. Outpatient Hospital Services - Hospitals (including new hospitals and emergency access hospitals) shall be reimbursed for outpatient services at 85% of billed charges. Hospitals must bill the Medical Assistance Program their usual and customary charges and will be required to certify in writing to the Medical Assistance Program that their billed amounts are in compliance with this policy.

This Emergency Rule is necessary due to a project budgetary deficit in the Medical Assistance Program. Without this action the Medical Assistance Program will be unable to continue services for the entire fiscal year once current funds are depleted. Lack of these services would imperil the health, safety and welfare of Title XIX recipients.

Roger P. Guissinger, Secretary
Department of Health and Human Resources

DECLARATION OF EMERGENCY

Department of Health and Human Resources
Office of Human Development

The Office of Human Development of the Department of Health and Human Resources has exercised the emergency provisions of the Administrative Procedure Act (R.S. 49:953B) to amend the rate determination formula promulgated in the June 20, 1981 issue of the Louisiana Register. This amendment applies to non-state operated residential facilities who provide services funded under the Client Placement Program and who do not operate under a written contractual arrangement with the Office of Human Development. The basis of the emergency is that the Client Placement Program will be in a deficit funding posture before the end of this fiscal year, if it continues to pay rates at the level set by the existing rate determination formula. Without a reduction in rates Office of Human Development will be unable to provide placement services to any of its clients currently in placement, when funds are depleted. Lack of placement services would constitute a clear danger to the health, safety and welfare of clients now being served by the Client Placement Program.

Effective January 1, 1983 the per diem rates paid to providers affected by this amendment shall be determined in the following manner:

1. The per diem rates paid to providers affected by this amendment as of December 31, 1982 will be arrayed to establish a range of payments.

2. The 50th percentile of this array of rates will be calculated by the Department of Health and Human Resources.

3. All providers providing services at per diem rates at or below the 50th percentile will continue to be paid at that per diem rate.

4. All providers providing services at per diem rates above the 50th percentile will be paid a per diem rate calculated as follows:

   Maximum per diem rate - 50th percentile plus one half of the amount of the current per diem in excess of the 50th percentile.

Roger P. Guissinger
Secretary

SECTION 4 SPECIAL USES AND RESTRICTIONS

4.1 Special Use

Any function requiring special or restricted use of any facility or area within a state park holding must be approved by the Assistant Secretary and the fee for such will be computed on the same basis as the use for Assembly Rooms. Written request for special use of a facility must be received at the Office of State Parks, P. O. Drawer 1111, Baton Rouge, Louisiana 70821-1111 at least 30 days prior to the scheduled event. No telephone requests are accepted.

4.2 Political Activities

Political events involving the use of state park areas are discouraged; however, each event is considered on an individual request basis and, if approved, will be authorized by the Assistant Secretary. Such activities will be considered only when in the judgement of the Assistant Secretary the function will not adversely affect the normal programed use of the area by the general public. Requests for such events must be submitted in writing to the Assistant Secretary at least 30 days in advance of the proposed use. Such events will be considered “Special Use Events” and fees and permits will be regulated by the special use provisions herein. No political candidates or organizations will be granted or shall expect to receive special consideration for use or fee waivers.

4.3 Use Restrictions

4.3.1 A “State Commemorative Area is an area which possesses a historical, cultural, or memorial significance when judged on a statewide basis.” The state commemorative area is established to allow the visiting public an opportunity to experience man’s past through the resources preserved at the area, and is restricted to this use.

4.3.2 It is necessary that development on a state commemorative area be limited to that which is essential for visitor accommodation and enjoyment of the area’s theme or feature. Day use facilities will be limited to these activities which are not in conflict with the historical theme of the site, and confined to areas of the grounds set aside for usage of this nature.

4.3.3 As important as the artifactual evidence existing on the areas is the atmosphere created around these objects which make their study by the public more conducive. In order that the greater interest and primary function of the area be served, it is necessary to restrict certain incompatible activities from the sites. Organized sports such as baseball, football, field hockey, soccer, and the like cannot contribute to a greater understanding of the historical, cultural, or memorial theme of the area and is therefore prohibited on any State Commemorative Areas.

4.3.4 It has also been determined that the use of State Commemorative Areas for such activities and events as fairs, circuses, carnivals, amusement rides, and other promoter sponsored, commercial activities and events is not deemed in the best interest of the state commemorative areas. Such use fails to achieve the intent outlined in the preservation purpose and may increase the potential for serious damage to the quality and character of the area, adversely affecting the experience of the visitor.

4.3.5 Organizations offering support to commemorative areas, either one in particular or on a general basis through such things as historical societies or service groups, may be permitted special functions at a commemorative area if a written request is made and written permission is obtained from the Assistant Secretary, Office of State Parks. Such functions may not be specifically for the benefit of an individual, but must be held to benefit the commemorative area either directly or indirectly through greater public awareness in the site or history of the area.

5.1.6 No portion of the project is to be initiated until the sponsoring agency has certified to the Office of State Parks that funds have been secured and are on deposit in sufficient amount to bring the project to completion.

5.1.7 The Office of State Parks shall in no way be financially obligated to the artist, subcontractors, or sponsoring agency for any cost associated with the preparation or placement of the proposed monument or sculpture.

Department of Health and Human Resources
Office of Family Security

The Department of Health and Human Resources, Office of Family Security, shall effect a 6.7 percent increase in the Aid to Families with Dependent Children (AFDC) and General Assistance (GA) Need Standards.

Revised Statute 46:447 of the 1978 Legislature requires that the Office of Family Security establish AFDC and GA Need Standards, and that those standards be adjusted each year effective January 1, to reflect the cost of living increase as reported in the Department of Labor's Consumer Price Index.

The current need standards are shown below. Using a 6.7 percent increase standard, the new AFDC and GA Need Standards are as follows:

**RULE**

**Department of Health and Human Resources**

**Office of Family Security**

The Department of Health and Human Resources, Office of Family Security, has revised the maximum limit of the reimbursement rate for certain Home and Community Based Services provided through the Medical Assistance Program. Payment to providers of Adult Day Health, Homemaker and Habilitation services by the Department of Health and Human Resources on behalf of eligible recipients shall be determined individually on the basis of cost associated with providing the services. However, in no instance will the reimbursement to these providers exceed 80 percent of the total monthly Medicaid rate that normally would be paid to a Long Term Care Facility for a comparable level of care for such a person in a Long Term Care Facility.

Implementation of this Rule is necessary for the Louisiana Medical Assistance Program to comply with Act 715 (House Bill No. 1072) of the 1982 regular legislative session.

This policy was implemented July 20, 1982, and was published as an Emergency Rule in the Louisiana Register on September 20, 1982.

Under authority granted by R.S. 6:902B, the Commissioner of Financial Institutions intends to adopt the following Rule for the purpose of providing a means by which state chartered savings and loan associations may have authority consistent with that granted federal associations by Federal Home Loan Bank Board Rules and Regulation 545.24-3, which was published on page 36610, Volume 47, Number 163, of the Federal Register dated August 23, 1982.

PROPOSED RULE

Fiscal and Economic Impact Statement
For Administrative Rules
Rule Title: Federal Depository and Fiscal Agent

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

There will be no implementation costs or savings to this department; however, continued growth of the associations will increase the need for examining and staff personnel for the Department of Financial Institutions.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

The dual chartering system as well as asset growth of state chartered savings and loan associations should be enhanced by these new powers. This will result in increased semiannual assessments being paid into the General Fund.

The amount of semi-annual fees for each association is $25 to $800 on institutions with resources ranging from $1,000,000 to $19,999,999. Associations with gross assets of $20,000,000 or more pay $830 plus an additional fee of $30 for each million or fraction thereof of assets in excess of $20,000,000.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

Costs to affected groups will be limited to a small expansion of existing services and equipment. Benefits will be additional source of low cost funds for state chartered savings and loan associations.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

State chartered savings and loan associations will have powers consistent with federally chartered associations. Additional services and asset growth of the association will create a need for additional employees.

Commissioner Legislative Fiscal Officer

NOTICE OF INTENT
Department of Commerce
Office of Financial Institutions

The Commissioner of Financial Institutions, in exercise of his power specifically enumerated in R.S. 6:902 B, intends to adopt the following Rule for the purpose of providing a means by which state chartered savings and loan associations may have authority consistent with that granted federally chartered associations by Federal Savings and Loan Insurance Corporation Regulations 563.17-3, 563.17-4 and 563.17-5.

PROPOSED RULE

An association may engage in forward commitments, futures transactions and financial option transactions pursuant to the following provisions:

I. FORWARD COMMITMENTS

A. Definitions

1. Forward Commitment. An oral or written contract to buy securities 30 or more days after the contract date; such a commitment is a standby commitment if delivery is optional with the seller and a firm commitment if both buyer and seller are obligated to perform on the agreed date.

2. Securities. Assets in which the association is authorized to invest (except financial futures or financial options contracts entered into pursuant to the provisions of Section II and III of this Rule.)

3. Commitment Fee. Any consideration received directly or indirectly by an association for a forward commitment.

B. Authorized Personnel

The minutes of the board of directors of the association shall set out the names, duties, responsibilities, and current limits of authority, of the association’s personnel authorized to engage in forward commitment transactions for the association; the brokerage firms through which authorized personnel may conduct forwards activity; and the dollar limit on transactions with each such firm.

C. Limitations

1. General - An association may make forward commitments to purchase securities, subject to the limits in C.2 below, if that activity is conducted in a safe and sound manner. An example of an unsafe and unsound practice which may preclude further investment under this section is an inability to fund commitments when due. No association may sell a forward commitment or security under agreement to purchase another forward commitment or security at a price other than actual market value.

2. Percent of assets - An association’s outstanding forward commitments to purchase securities plus short put options entered into may not exceed an amount equal to 5 percent of its assets if new worth is 3 percent or less of assets, 10 percent of its assets if net worth is 3 percent but not less than 5 percent of assets, or 15 percent of its assets if net worth is 5 percent or more of assets.

D. Disposal before Settlement

All profit or loss related to disposal or modification of a forward commitment before settlement shall be recognized on the association’s books at the time of disposal or modification.

E. Recordkeeping Requirements

An association engaging in forward commitments shall establish and maintain the following:

1. A current register of all outstanding forward commitments, including the type (firm or standby), commitment date, amount, rate, price to be paid at settlement, market price at date of commitment, settlement date, commitment fees received, date and manner of disposal, sales price and market value at disposal if disposition is made on or prior to settlement date other than through funding, and seller’s indemnity and confirmation; and

2. Documentation of the association’s ability to fund all outstanding forward commitments when due.
F. Commitment fees Received
A fee received for a forward commitment shall be recorded according to generally accepted accounting principles for loan commitment fees. If the commitment period is 30 days or less, a fee shall be deferred over at least ten years.

II. FUTURE TRANSACTIONS
A. Definition
As used in this section, the following definitions apply unless the context otherwise requires:
1. Financial futures contract. A transferable agreement to make or take delivery of a standardized amount of a financial instrument, of standardized minimum quality grade, during a month specified in the agreement, under terms and conditions established by an exchange designated and regulated by the Commodity Futures Trading Commission.
2. Financial futures transaction. Purchase or sale of a financial futures contract.
3. Long position. The holding of a financial futures contract to take delivery of a financial instrument.
4. Mortgage-related securities. Securities based on and backed by mortgages, including mortgage-backed securities guaranteed by the Government National Mortgage Association ("GNMA's"), Mortgage Participation Certificates of the Federal Home Loan Mortgage Corporation, and similar obligations issued by the association or in which the institution is authorized to invest.
5. Offset. To cancel an obligation to make or take delivery of securities under a financial futures contract. A futures contract to purchase a financial instrument is offset by a futures contract to sell a financial instrument of the same type for the same delivery month. A futures contract to sell a financial instrument is offset by a futures contract to purchase a financial instrument of the same type for the same delivery month.
B. Permitted Transactions
To the extent that it has legal power to do so, an association may engage in financial futures transactions to reduce its net interest-rate risk exposure as provided in this paragraph. For purposes of this section, net interest-rate risk exposure is the volatility in an institution's earnings that can arise from the mismatching of the effective maturities of assets and liabilities. An association may enter into short positions that are appropriate for reducing its net interest-rate risk exposure. An association may enter into long positions, other than those that offset short positions, only under the following conditions:
1. The futures position must be matched against a firm forward commitment to sell mortgages not yet originated or to issue mortgage-related securities to be based on mortgages not yet originated. For purposes of this paragraph, a firm forward commitment is a written commitment obligating the seller to make delivery, and the buyer to take delivery, of mortgage loans not yet originated or mortgage-related securities to be based on mortgages not yet originated, at a price and on or before a date specified in the commitment; and
2. The futures position may be entered into and maintained only to the extent that the institution's firm forward commitments exceed 10 percent of long-term assets with fixed interest rates. For purposes of this section, long-term assets are those having remaining terms to maturity in excess of five years.
C. Authorized Contracts
An association may engage in financial futures transactions using any financial futures contracts designated by the Commodity Futures Trading Commission and based upon a financial instrument that the institution has authority to invest in or to issue.
D. Board of Director's Authorization
Prior to engaging in financial futures transactions, as association's board of directors must authorize such activity. In authorizing futures trading, the board of directors shall consider any plan to engage in financial futures transactions, shall endorse specific written policies, and shall require the establishment of internal control procedures. Policy objectives must be specific enough to outline permissible contract strategies, taking into account price and yield correlations between assets or liabilities and the financial futures contracts with which they are matched; the relationship of the strategies to the institution's operations; and how such strategies reduce the institution's net interest-rate risk exposure. Internal control procedures shall include, at a minimum, periodic reports to management, segregation of duties and internal review procedures. In addition, the minutes of the meeting of the board of directors shall set forth limits applicable to futures transactions, identify personnel authorized to engage in futures transactions, and set forth the duties, responsibilities and limits of authority of such personnel. The board of directors shall review the position limit, all outstanding contract positions, and the unrealized gains or losses on those positions at each regular meeting of the board.
E. Notification
F. Recordkeeping Requirements
An association engaging in financial futures transactions shall maintain records of such transactions sufficient to document how the transactions reduce the net interest-rate risk exposure of the institution in accordance with the following requirements:
1. Contract register. The association shall maintain a contract register adequate to identify and control all financial futures contracts and including, at a minimum, the type and amount of each contract, the maturity date of each contract, the cost of each contract, the dollar amount and description of the asset or liability with which the futures contract is matched, and the date and manner in which a contract is closed out. Such register shall be prepared in a manner sufficient to indicate at any time the institution's total outstanding long and short financial futures positions.
2. Other documentation. The association shall maintain, as part of the documentation of its futures strategy, a schedule of the assets and liabilities for which net interest-rate risk exposure is being reduced and the purpose of each contract entered into.
3. Maintenance of records. The records designated in this paragraph shall be maintained for all futures transactions closed out during the preceding two years.
G. Accounting
1. Purchase or sale. Upon the initial purchase or sale of a financial futures contract, a memorandum entry of the information specified in subparagraph F.1 of this section shall be made and appropriate margin accounts shall be established.
2. Gains and losses. Gains and losses on futures contracts shall be accounted for as follows:
   a. Gains and losses on futures contracts that are matched with assets or liabilities to be carried at cost shall be deferred and included in measurement of the dollar basis of the asset acquired or the liability incurred and amortized over the estimated remaining life of the asset or liability as an adjustment to interest income or interest expense.
   b. Gains and losses on futures contracts that are matched with existing assets or liabilities carried at cost shall be deferred and included in measurement of the dollar basis of the asset or liability and amortized over the estimated remaining life of the asset or liability as an adjustment to interest income or interest expense. If the asset or liability is sold or otherwise disposed of, the unamortized gain or loss shall be recognized in income.
   c. Gains and losses on futures contracts that are matched with existing asset positions carried at the lower of cost or market.
shall be deferred and recognized in determining the lower of cost or market adjustment of the corresponding asset at the end of each reporting period, or upon sale or disposition of the corresponding asset.

III. FINANCIAL OPTION TRANSACTIONS

A. Definitions.

As used in this section, the following definitions apply unless the context otherwise requires:

1. Call. An option which gives the holder the right to purchase a financial instrument at a price and on or before the expiration date specified in the option contract.
2. Deliverable instrument. A financial instrument whose terms satisfy the requirements for fulfilling delivery obligations of an option.
3. Effective exercise price. The yield equivalent price of an instrument whose coupon rate differs from the standard instrument specified in the option.
4. Financial options contract. An agreement to make or take delivery of a standardized financial instrument upon demand by the holder of the contract at any time prior to the expiration date specified in the agreement, under terms and conditions established by an exchange designated or regulated by the Commodity Futures Trading Commission or the Securities Exchange Commission.
5. Financial options transactions. Purchase or sale of a financial options contract.

1. Long positions. An insured institution may enter into long positions without numerical limit.
2. Short positions. An insured institution may enter into short call positions without numerical limit. An institution may enter into short put options to the extent that the aggregate amount of its short put options and forward commitments to purchase securities does not exceed an amount equal to 5 percent of its assets if net worth is 3 percent or less of assets, 10 percent of assets if net worth is over 3 percent but less than 5 percent of assets, or 15 percent of its assets if net worth is 5 percent or more of assets.

D. Board of director’s authorization.

Prior to engaging in financial options transactions, an institution’s board of directors must authorize such activity. In authorizing options, the board of directors shall consider any plan to engage in writing or purchasing financial options contracts, shall endorse specific written policies, and shall require the establishment of internal control procedures. For options positions that will be matched with cash or forward market positions, policy objectives must be specific enough to outline permissible options contracts strategies, taking into account price and yield correlations between assets or liabilities and the financial options contracts; the relationship of the strategies to the institution’s operations; the rationale for the ratio of the value of options positions to the value of the matched cash market positions; and how the options strategy reduces the institution’s interest-rate risk exposure. For unmatched option positions, policy objectives must specify the relationship of the strategy to the institution’s operations. Prudent business judgment shall be exercised by participating institutions engaging in financial options transactions in order to maintain a safe and sound financial position. Internal control procedures shall include, at a minimum, periodic reports to management, segregation of duties and internal review procedures. In addition, the minutes of the meeting of the board of directors shall set forth limits applicable to financial options transactions, identify personnel authorized to engage in financial options transactions, and set forth the duties, responsibilities and limits of authority of such personnel. The board of directors shall review the position limit, all outstanding options contract positions, and the unrealized gains or losses on those positions at each regular meeting of the board.

E. Notification and reporting.

The association shall report its outstanding positions together with the total unrealized gain or loss from such positions on the Federal Home Loan Bank Board Monthly Report.

F. Recordkeeping requirements.

An association engaging in financial options transactions shall maintain records of such transactions in accordance with the following requirements:

1. Contract register. The association shall maintain a contract register adequate to identify and control all financial options contracts and sufficient to indicate at any time the amounts of financial options contracts required to be reported on its monthly report. At a minimum, the register shall list the type, amount, expiration date and the cost of or income from each contract.
2. Other documentation. The association shall maintain as part of documentation of its financial options strategy a schedule of any cash market or forward commitment position with which the option is matched and the purpose of each contract.
3. Maintenance of records. The records designated in this paragraph F. shall be maintained for all financial options closed out during the preceding two years.

G. Accounting

(1) Purchase or sale. Upon initial purchase or sale of a financial options contract, a memorandum entry of the information specified in subparagraph 1. of paragraph F. of this section shall be made and appropriate margin accounts shall be established.

(2) Option commitment fee. The option commitment fee paid or received shall be amortized to income or expense over the term of the option, except as provided in subparagraph 3. of this paragraph G. of this section.

(3) Option contracts.

a. Gains or losses on options contracts that are matched with assets or liabilities carried at the lower of cost or market value or carried at market value shall be considered in determining the market value of the asset or liability.

b. Options positions that are matched with assets or liabilities carried at cost or to be carried at cost shall be accounted for as follows:

654
(i) If a commitment fee will be or has been received with respect to the matched asset, the option commitment fee shall be treated as an adjustment of such fee. The adjusted commitment fee shall then be treated as a fee paid or received in connection with the matched asset;

(ii) If a commitment fee has not been received with respect to a matched asset the option commitment fee shall be amortized to income or expense over the commitment period by the straight-line method;

(iii) Any resulting gain or loss from an option position shall be treated as a discount or premium on the matched asset or liability;

(iv) In the event that the cash market or forward commitment position with which an option is matched is sold or will not occur, the option shall be market-to-market.

The immediate exercise value of short puts and other unmatched option positions shall be carried at their current market value.

NOTICE OF INTENT

Department of Commerce
Office of Financial Institutions

Under authority granted by LRS 6:237(B), the Commissioner of Financial Institutions intends to adopt the following Rule for the purpose of providing a means by which State-chartered banks may share electronic financial terminals and participate with others in the use of electronic financial terminals.

PROPOSED RULE

Shared EFT

1. Definitions
   A. “Commissioner” means the Commissioner of Financial Institutions, State of Louisiana.

B. “Electronic financial terminal” (EFT) means an electronic information processing device, other than a telephone, which is established to do either or both of the following:
   i. Capture the data necessary to initiate financial transactions, or
   ii. Through its attendant support system, store or initiate the transmission of the information necessary to consummate a financial transaction.

The term includes, without limitation, point of sale terminals, merchant-operated terminals, cash-dispensing machines, and automated teller machines. An EFT shared by a bank domiciled in a parish other than that of the EFT’s location is not a branch of the sharing bank so long as the restrictions imposed by this Rule are complied with.

C. “Financial institution” means a national banking association, federal savings and loan association, or federal credit union, or a bank, savings and loan association, or credit union established and operating under the laws of the State of Louisiana.

D. “State-chartered bank” means a bank chartered under the laws of the State of Louisiana.

2. EFT Sharing Permitted

A State-chartered bank may share an EFT established and operated by another financial institution. A State-chartered bank may share an EFT controlled by a non-financial institution only if such institution has agreed, in writing, that the EFT is subject to such examination by the Commissioner as he deems necessary.

3. Authorized Functions for a Shared EFT

Financial transactions which may be performed by an EFT shall be limited to the disbursement of funds under a preauthorized credit agreement, the withdrawal of funds from a customer’s account, the receiving of cash or checks, check verification and/or guarantee, the disbursement of cash, the payment of loan payments, the transfer of funds to or from one or more accounts in one or more financial institutions, and responding to account balance inquiries. A shared EFT may be used to accept deposits of customers of State-chartered banks domiciled in the parish in which the EFT is located, if such function is approved by the Commissioner.

No shared EFT may be used to accept deposits from a customer of a State-chartered bank, which is domiciled in a parish other than that of the location of the EFT.

4. EFT Security

Every institution sharing an EFT shall adopt and maintain safeguards to insure the safety of funds, items, and other information, which safeguards shall include security devices consistent with the appropriate requirements specified under the federal bank protection Act of 1968, 12 USCA s 1881 et seq., or any alternative security precautions as are approved by the Commissioner.

5. Service Charges

A State-chartered bank may impose service charges for shared EFT services.

6. Application to National Banks

The provisions of this Rule shall apply to National banks to the extent permitted by Federal law.

Interested persons may submit written comments on the proposed Rule until 4:30 p.m., January 5, 1983, at the following address: Hunter O. Wagner, Jr., Commissioner, Office of Financial Institution, Box 44095 - Capitol Station, Baton Rouge, LA 70804.

He is the person responsible for responding to inquiries concerning the proposed Rule.

Hunter O. Wagner, Jr.
Commissioner of Financial Institutions
I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

There are no estimated implementation costs (savings) to the agency.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

There is no estimated effect on revenue collections.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

This Rule will benefit most financial institutions as they will be able to share EFT’s, which would cut down on their costs of having to purchase these machines. Individual persons would benefit from this as they would be able to make cash withdrawals wherever these machines are located.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

This will allow our financial institutions to compete fairly with each other. This Rule would not have an effect on employment.

NOTICE OF INTENT
Department of Commerce
Office of Financial Institutions

Under authority granted by R.S. 6:902 B and R.S. 902 1, the Commissioner of Financial Institutions intends to adopt the following Rule for the purpose of providing a means by which state chartered savings and loan associations may have authority consistent with that granted federal associations by Federal Home Loan Bank Board Temporary Final Rule, published in Bulletin Number 82-730, dated November 4, 1982.

PROPOSED RULE

I. Implementation of Power

Notwithstanding the limitations imposed by Title 6 and Title 39, Louisiana Revised Statutes, and to implement certain new powers, state chartered savings and loan associations may now make or participate in demand deposits, governmental unit NOW accounts, commercial real estate loans, commercial loans, and consumer loans, pursuant to the following provisions:

A. DEMAND DEPOSITS: An association may accept non-interest-bearing demand deposits from (1) a commercial, corporate, business, or agricultural entity for the sole purpose of effectuating payments thereto by a nonbusiness customer, or (2) any person or organization having a business, corporate, commercial or agricultural loan relationship with the association. An association may extend secured or unsecured credit in the form of overdraft privilege specifically related to demand deposits, but such overdraft loans must be aggregated with other commercial loans for purposes of the five-percent-of-assets limitations. Overdraft loans made under authority of this implementation must be made pursuant to proper underwriting and with due regard for safety and soundness.

B. GOVERNMENTAL UNIT NOW ACCOUNTS. An association may offer NOW accounts as defined in Volume 6, Number 12, Louisiana Register, published December 20, 1980, for the deposit of public funds by an officer, employee, or agent of the United States, any state, county, municipality, or political subdivision thereof, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, Guam, any territory or possession of the United States, or any political subdivision thereof.

C. COMMERCIAL REAL ESTATE LOANS. An association may invest up to 40 percent of its assets in loans secured by commercial real estate, pursuant to subparagraphs 1 and 2. Commercial real estate loans are not required to be secured by first liens, but associations must continue to comply with the 90-percent loan-to-value ratio for commercial real estate loans.

(1) Commercial real estate loans (including construction loans) secured by first liens on other improved real estate shall not exceed 90 percent of the value of the security property and shall be repayable within 30 years, except that construction loans and nonamortized loans shall be repayable within five years. Interest shall be payable at least semi-annually except to the extent that the loan contract provides for deferral and capitalization of interest, as provided by paragraph C, Section 3504, Title 9, Louisiana Revised Statutes (Act 767, 1982 Legislature). Provided, that the ratio of the loan balance to the current appraised value of the security property may not at any time during the loan term exceed 90 percent as a result of deferral and capitalization of interest.

(2) Other improved real estate. Commercial real estate containing (1) a permanent structure(s) constituting at least 25 percent of its value, or (2) improvements which make it usable by a business or industrial enterprise.

D. COMMERCIAL LOANS. An association may invest up to five percent of its assets in secured or unsecured loans for commercial, corporate, business or agricultural purposes, provided that loans to any one borrower shall not exceed the limits of 6:822 B (1) and Rule published in Volume 8, Number 2, Louisiana Register, February 20, 1982.

E. CONSUMER LOANS. Effective immediately, state chartered savings and loan associations may make up to 30 percent of their assets in consumer loans as defined by the Louisiana Consumer Credit Law (LRS 9:3516 (13)). All provisions of the Louisiana Consumer Credit Law (LRS 9:3510, et seq) will apply to loans made under this authority.

II. Rescission

This Rule rescinds paragraph 1 of Rule published in Volume 6, Number 8, Louisiana Register, August 20, 1980.

Interested persons may submit written comments on the proposed Rule through 4:30 p.m., January 5, 1983, to the following address: Hunter O. Wagner, Jr., Commissioner, Office of Financial Institutions, Box 44095, Capitol Station, Baton Rouge, LA 70804.

He is the person responsible for responding to inquiries about this proposed Rule.

Rule Title: Thrift Institution Restructuring

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

New funds would not be required to implement this Rule. The Savings and Loan industry should experience some growth as a result of its implementation, requiring additional supervision. However, the cost of this additional
supervision should be offset by utilizing a divided examination program with FSLIC.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

If this Rule results in asset growth of State Chartered Savings and Loan Associations, then semi-annual assessments will increase. Its prompt adoption will encourage State Chartered Savings and Loan Associations to retain this charter and continue to pay assessments into the General Fund.

The amount of semi-annual fees for each association is $25 to $800 on institutions with resources ranging from $1,000,000 to $19,999,999. Associations with gross assets of $20,000,000 or more pay $830 plus an additional fee of $30 for each million or fraction thereof of assets in excess of $20,000,000.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

This Rule will reduce the cost of funds to the Savings and Loan Industry, increase the yield of their loan portfolio, and make more funds available to the business community.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

Adoptions of this Rule will enable State Chartered Savings and Loan Associations to compete on an equitable basis with Federally Chartered Savings and Loan Associations, stimulate competition among Financial Institutions, and create new jobs in the Savings and Loan Industry.

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
It is anticipated that $5,123,800 will be needed to provide remediation to the eligible second and third grade students. This is based upon an estimate of 11 percent failure at the second grade and 15 percent at the third grade. It is estimated from the two grade levels that 14,368 will need remediation at the rate of $350 per student per subject area for a total of $5,028,800. An additional $95,000 is needed for administrative cost including the required state evaluation and on-site monitoring of the 66 school systems. These funds will be requested by the Department for 1983-84 to cover the cost of the program in the 1983-84 school year. The 1981-82 appropriation of $2.1 million and a 1982-83 appropriation of $935,196 were used to provide a $350/student allocation which covered the 1982 summer school and 1982-83 school term remediation programs associated with the second grade basic skills test.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
There is no estimated effect on revenue collection.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
The students who are identified as being eligible for remediation will benefit from the program by being assisted at an early age to overcome the educational deficits as identified on the state Basic Skills Test. Additional cost to the local school systems cannot be determined due to a variance in size, structure, and the eligible students. An allocation from the 1983-84 appropriation would not be available to local systems prior to the 1983 summer term; therefore, local funds would be required for summer programs until the state allocation was made.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
Local school systems will have the option of employing additional personnel, either full time or part time to implement the program. Additional teachers will need to be employed in some systems.

One member of the negotiating team will be designated as lead negotiator. The procuring agency will establish in writing the authority and constraints under which the negotiating team will operate, and within these constraints, the negotiation team shall have full authority to deal with the other party or parties. The results of such negotiations will, of course, be subject to all statutory required reviews. The lead negotiator and at least one other member of the negotiating team should have formal training in computer contract negotiations.

8.6 The individual agencies represented on procurement support teams will have the following primary responsibilities. These responsibilities may be enlarged or modified as appropriate to each given situation by the procurement support team leader, with the concurrence of the Office of Data Processing.

A. Office of Data Processing. The ODP shall have primary responsibility for providing advice and support in the area of data processing techniques, negotiations techniques, developing the structure and content of invitations to bid (ITB), and drafting of technical specifications.

B. Legislative Fiscal Office. The Legislative Fiscal Office shall have primary responsibility for the financial analysis of ITB’s and bids, and review of funding procedures.

C. Attorney General’s Office. The Attorney General’s Office shall have primary responsibility for developing the legal terms and conditions of draft contracts, evaluating the legal impact of substantive terms and conditions, review to insure compliance with statutes and regulations, and legal negotiations.

D. Purchasing Office. The Purchasing Office shall have primary responsibility for insuring compliance with procurement procedures and regulations, the drafting of invitations to bid, and the evaluation of bids.

E. The Procuring Agency. The procuring agency shall have primary responsibility for the determination of the compliance of bids with these functional requirements, and for all management decisions at each phase of the procurement process.

8.7 PROCEDURES. Each procurement activity covered by Act 628 shall be conducted in accordance with the following procedures:

8.7.1 Each agency contemplating a procurement covered by the provisions of Act 628 shall, upon definition of the preliminary functional requirements and prior to the drafting of specifications, notify the ODP in writing of the intended procurement. The ODP shall then make a determination as to the best available method of satisfying the agency’s requirements (e.g., by transferring equipment from another agency, or by issuance of invitations to bid.) If the ODP determines that bidding procedure is most appropriate, it shall authorize the procuring agency to proceed.

8.7.2 The ODP staff, pursuant to the guidelines established herein, shall identify the level of support required, notify the appropriate agencies, and obtain from those agencies the names of the individual designated to participate on this particular procurement support team. The ODP staff will then designate a team leader, insure that at least two members of the procurement support team have received formal training in computer contract negotiations, and forward to the team leader the names of the other team members, along with any information received from the procuring agency.

8.7.3 The team leader will establish a schedule for the procurement activity, define the role and task of each team member, and establish a project file. The procuring agency and all team members are responsible for insuring that the team leader receives a copy of all correspondence and documentation.

8.7.4 The team leader will maintain a file containing all
documentation and correspondence relating to the procurement. At the end of the process one copy will be provided to the procuring agency and one copy will be retained on file by the ODP. The team leader will make written status reports at the end of each phase to the ODP. Such status reports shall be presented to the ODP at each regular meeting.

8.7.5 Each member of the procurement support team must review as a minimum the final specifications, the invitation to bid, the bids, any formal bid evaluation, and the final contract. As a minimum, this review must be indicated by the signature of each team member. Where team evaluations are made, each team member must sign the evaluation, or his designating or qualifying reports.

8.7.6 In the event that a team member indicates acceptance or concurrence of any activity, and that team member’s agency subsequently refuses to approve the process pursuant to its statutorily required review, the reviewing agency and the individual team member must submit to the team leader written reasons for their actions. The team leader shall file these documents in the final activity file.

8.7.7 After a procurement process has been completed, team members and the procuring agency are encouraged to submit written evaluations and comments of the process, and suggestions for future improvements. Such evaluations, comments, and suggestions shall be sent to the ODP.

NOTICE OF INTENT
Office of the Governor
State Planning Office

The Office of the Governor, Louisiana State Planning Office, intends to adopt Rules for the administration of a Planning and Development District Assistance Program. Funds in the amount of $320,000 were appropriated to State Planning (SPO) by Act No. 13 of the 1982 Louisiana Legislature, which the office is distributing among the state’s regional planning and development districts, or regional planning commissions. These Rules are intended to insure that these funds will be expended in accordance with SPO’s legislative mandates to support regional planning and development activities for the effective promotion of the economic and social welfare of the people within the various regions of the state.

The Louisiana State Planning Office was created by Act NO. 288 of the 1968 Legislature. The revised statutes citation for this legislation is R.S. 49:1051 et seq. To carry out its primary responsibility to the Governor for a coordinated program of comprehensive statewide planning, SPO is charged with these specific responsibilities in the area of regional planning:

“Section 1054. Louisiana State Planning Office; powers; duties; and functions.

The office shall have the authority and where appropriate to the context shall be required to:

. . . (3) Review current programming and future planning of all municipal and regional commissions. All municipal and regional planning commissions shall file certified copies of all plans or amended plans with the State Planning Office.

(4) Publish a program of expected planning standards on the state level and suggested planning standards at the local levels and encouraging the development of planning programs within and by state departments and local governmental agencies.

. . . (15) Cooperate and assist in the development, current programming and future planning of metropolitan and regional planning commissions within the State of Louisiana.”

These Rules are proposed to insure that state funds will be spent in accordance with the above mandates. State Planning, in consultation with the districts, has determined that the following goals and objectives should be met by the districts:

A. Activities to promote the economic development of the region, or:

B. Planning and project development activities to accomplish any of the following goals:

1. Greater employment opportunities
2. Provision of adequate infrastructure to meet community needs
3. Better living environment including more decent and affordable housing
4. Improved transportation services
5. Improved social services, or;
6. Any combination of the above.

The proposed Rules cover the various program requirements for meeting the program objectives, including submission of documents, payment policies and procedures, the covered periods of work, a final report, audits, and applicability of funds. Finally, the Rules detail the eligible recipients, and the total amounts they are eligible to receive, upon compliance with the program requirements.

Any questions relative to the proposed Rules should be submitted to the Executive Director, Louisiana State Planning Office, by January 4, 1983.

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

There will be no savings or additional costs to the agency.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

There will be no effect on revenue collections as a result of these regulations.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

The planning districts previously were required to adhere to Federal regulations when they received Federal funds for these same functions, now funded with state dollars. However, last year there were no Rules or Regulations associated with their appropriation. The proposed regulations will
require the districts to meet specific requirements; however, the marginal costs associated with meeting these requirements should be minimal.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

No impact on competition is anticipated, since the districts are already by law charged to coordinate all regional planning activities within their respective regions in the state. Effective economic development activities will yield greater employment within the various regions of the state.

Rule Title: Suspension of Title XIX Reimbursement for Homemaker and Adult Day Care Services

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

It is estimated that implementation of the proposed Rule will result in an over-all savings due to the reduced expenditures for vendor payments for adult day care services.

The estimated savings for FY 82-83 is $115,065; and $276,156 each for FY 83-84 and FY 84-85. The breakdown of federal and state funds for the above amounts is as follows: 1982-83, $41,032 (state) and $74,033 (federal); 1983-84, $104,387 (state) and $171,769 (federal); and 1984-85, $106,182 (state) and $169,974 (federal).

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

It is estimated that the proposed Rule will result in a decrease in revenues from federal funds due to the decrease in expenditures. The reductions are as follows: $74,033 in FY 82-83, $171,769 for FY 83-84 and $169,974 for FY 84-85.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

The Department of Health and Human Resources, Office of Family Security, proposes to implement a flat grant amount in the General Assistance and the Refugee Resettlement Programs. Benefits for recipients in these programs will be based on a flat grant rather than the budgetary deficit amount up to a maximum of $91 for one-person households. The maximum flat grant will be $72 in the urban areas and $66 in the non-urban areas for one-person households. Incremental increases for households containing more than one recipient will parallel the AFDC Program payment standards.

The Office of Family Security also proposes to implement the following changes in the General Assistance Program:

1. Eliminate special care in own home or home of another.
2. Eliminate regular and special medical exams. All applicants will be referred to The Social Security Administration to apply for all available benefits.
3. Require a one year residency in Louisiana as a condition of eligibility.
4. Delay payment of grants for applicants 90 days from the date of application.
5. Prorate the first month’s assistance payment.
6. Round down to the next lower dollar the budgetary deficit to determine the grant amount.

A public hearing has been scheduled for January 7, 1983, at 10 a.m. in the Louisiana State Library Auditorium at 760 Riverside, Baton Rouge, Louisiana.

Rule Title: Limit on Medicaid Eligibility for LTC to First Full Month of Institutionalization

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
Implementation of the proposed Rule would result in an estimated savings to the agency of $770,980 for FY 82-83 and $1,849,921 in FY 83-84 and 84-85. The breakdown of federal and state funds for the above savings is as follows: FY 82-83, $274,931 (State) and $496,049 (Federal); FY 83-84, $699,270 (State) and $1,150,651 (Federal); and FY 84-85, $711,295 (State) and $1,138,626 (Federal).

NOTICE OF INTENT
Department of Health and Human Resources
Office of Family Security

The Department of Health and Human Resources, Office of Family Security, proposes to adopt a Rule effective February 1, 1983 to implement a state program of maximum allowable costs (MAC) for multiple-source drugs. This proposed Rule establishes maximums for the costs of certain drugs which shall be reimbursable under Title XIX. The state established MAC for these drugs shall be applicable unless a lower Federal MAC for the respective products is established. The proposed MAC limits shall be applicable for the specified drugs unless the prescriber has certified, in his own handwriting, that a specified brand is medically necessary for the recipient. In no case may a recipient be required to provide payment for any difference in a prescription price that may occur with implementation of the MAC limit, nor may OFS use a cost which exceeds the established maximums except as specified below.

This program shall track federal Health and Human Services regulations regarding exceptions to their MAC limitations. The specific guidelines regarding procedures for such exceptions provide that:

a) the certification must be in the physician's handwriting;
b) the certification may be written directly on the prescription or on a separate sheet which is attached to the prescription;
c) a standard phrase written on the prescription, such as "brand necessary" will be acceptable;
d) a printed box on the prescription blank that could be checked by the physician to indicate brand necessity is unacceptable;
e) a handwritten statement transferred to a rubber stamp and then stamped on the prescription blank is unacceptable.

Maximum Allowable Costs (MAC's) for reimbursement under Title XIX are proposed as follows on those multiple-source drugs specified:

NOTICE OF INTENT

Department of Health and Human Resources
Office of Family Security

The Department of Health and Human Resources, Office of Family Security, proposes to exclude the coverage of voice evaluations or voice therapy from the Title XIX Medical Assistance Program. This includes instructions in use and hygiene of the voice as treatment for vocal cord nodules or hoarseness, and related conditions, unless it is serious enough to interfere with normal speech.

Coverage of these particular services was the issue of a request for a Fair Hearing. This proposed exclusion will clarify the policy concerning voice evaluations or voice therapy. These services have never been covered and there are presently insufficient funds to allow the Medical Assistance Program to offer coverage of these services.

Interested persons may submit written comments through January 4, 1983 at the following address: R. K. Banks, Assistant Secretary, Office of Family Security, Box 44065, Baton Rouge, LA 70804. He is the person responsible for responding to inquiries regarding this proposed Rule.

Rule Title: Implementation of State Maximum Allowable Costs for Multiple Source Drugs

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

It is anticipated that the proposed Rule will result in savings to the Medical Assistance Program of $1,581,126.86 in FY 82-83 and $3,661,615.37 each for FY 83-84 and 84-85. The breakdown of federal and state funds for these amounts is as follows:

<table>
<thead>
<tr>
<th></th>
<th>STATE</th>
<th>FEDERAL</th>
</tr>
</thead>
<tbody>
<tr>
<td>FY 82-83</td>
<td>$ 563,829.84</td>

</tr>
<tr>
<td>FY 84-85</td>
<td>$1,407,891.11</td>
<td>$2,253,724.26</td>
</tr>
</tbody>
</table>

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

Revenues from Federal funds will be decreased as a result of reduced costs for those drugs with a State MAC limit. The reductions are as follows: $1,017,297.02 for FY 82-83; $2,277,524.76 for FY 83-84; and $2,253,724.26 for FY 84-85.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

The proposed Rule will result in some providers of those drugs with a maximum allowable cost incurring decreased reimbursement for those specified drugs whose costs exceed the MAC limit when prescriptions are filled and certification of medical necessity of the specific brand was not included. Costs to individual providers cannot be predicted as this is dependent on the numbers of such prescriptions dispensed.

NOTICE OF INTENT

Department of Health and Human Resources
Office of Family Security

The Department of Health and Human Resources, Office of Family Security proposes to provide Medicaid to any child for whom the state makes adoption assistance or foster care maintenance payments under Title IV-E of the Social Security Act.

This proposed Rule had been placed in effect on an emergency basis and was published in the October 20, 1982 issue of the Louisiana Register (Volume 8, No. 10, page 509).

This action is necessary to ensure that Medicaid coverage continues for children previously certified for Medicaid as a child for whom the state makes foster care payments under IV-A, whose IV-A eligibility was transferred to Title IV-E effective October 1, 1982. It also provides Medicaid coverage for those children for whom the state makes adoption assistance payments under Title IV-E to ensure that these children receive medical care necessary to maintenance of their health and well-being.

This action is mandated by Public Law 96-272 and is being taken in response to final Federal Regulations published in the July 1, 1982 issue of the Federal Register (Volume 47, No. 127, pages 28652-28658).

Interested persons may submit written comments through January 4, 1983 at the following address: R.K. Banks, Assistant Secretary, Office of Family Security, Box 44065, Baton Rouge, LA 70804. He is the person responsible for responding to inquiries regarding the proposed Rule.

Rule Title: Medicaid Security Coverage of Title IV-E Children

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

Estimated implementation costs include the cost of additional Medicaid payments for 36 IV-E children (adoption assistance) in FY 82-83 and an additional 23 such children in FY 83-84 for a total of 59 children. Total implementation costs are $85,550 for FY 82-83; $168,249 for FY 83-84 and FY 84-85. The breakdown for federal and state funds for the above costs is as follows: FY 82-83, $30,507 (state and $55,043 (federal); FY 83-84 and FY 84-85, $63,598 (state) and $104,651 (federal).

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

Revenue from federal funds will be increased as a result of the proposed Rule as follows: FY 82-83, $55,043 and FY 83-84 and FY 84-85, $105,651.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

Children receiving Title IV-E adoption assistance payments from the state will be eligible for Title XIX Medical Assistance. This will allow an estimated 36 additional children to receive benefits in 1982-83 and 59 additional children each year for 1983-84 and 1984-85.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

No effect on competition and employment is anticipated as a result of the proposed Rule.

Rule Title: Physician Visits in ICF’s I and II

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

The only implementation cost for the proposed Rule is $44 for printing of revised policy. It is estimated that the proposed Rule will result in a savings to the agency as it is anticipated that the number of physician visits to Title XIX recipients certified for services in Intermediate Care Facilities I and II will decrease. However, the amount of the resultant savings in vendor payments for physician services cannot be calculated as the actual number of physician visits that will not be made because they were not deemed necessary cannot be predicted. This is at the discretion of the individual physician and is dependent on the recipient’s health status.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

Any savings in Medicaid expenditures under this proposed Rule would result in loss to the state of the federal share of those expenditures. This amount cannot be estimated at this time.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

Physicians treating Title XIX recipients in ICF’s I and II will benefit from the proposed Rule as they will not be required to make visits every 60 days if this frequency is deemed medically unnecessary.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

No effect on competition and employment is anticipated as a result of the proposed Rule.

Rule Title: Reduction of Personal Care Needs Allowance for LTC Recipients

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

It is estimated that implementation of the proposed Rule will result in savings to the agency due to decreased vendor payments for long term care recipients whose patient liability increased as a result of the reduction in the personal care needs allowance and decreased Optional State Supplementation payments. Estimated savings for FY 82-83 total $1,243,600 and estimated savings for FY 83-84 and 84-85 total $2,984,640 for each fiscal year. The breakdown of federal and state funds for the above amount is as follows: 1982-83, $696,742 (state) and $546,858 (federal), 1983-84, $1,715,835 (state) and $1,268,805 (federal), and 1984-85, $1,729,094 (state) and $1,255,546 (federal).

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

Revenues from federal funds will be decreased as a result of the proposed Rule. The reductions are as follows: $546,858 FY 82-83; $1,268,805 FY 83-84 and $1,255,546 in FY 84-85.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

The proposed Rule will result in a decrease from $1 to $10 in Optional State Supplementation payments to 7,873 OSS recipients. Approximately 6 percent (472) of these will no longer receive an OSS payment. Additionally, 16,999 Title XIX LTC recipients will have their patient liability income increased $10 as a result of the decrease in personal care needs allowance which will result in decreased vendor payments to the LTC facility.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

No effect on competition and employment is anticipated as a result of the proposed Rule.

Rule Title: Changes in Reimbursement Methodology for Hospital Services

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

It is anticipated that implementation of the proposed reimbursement methodology will result in a savings to the agency in vendor payments for hospital services. The estimated savings for hospital inpatient services are as follows:

<table>
<thead>
<tr>
<th>STATE</th>
<th>FEDERAL</th>
<th>TOTAL</th>
</tr>
</thead>
<tbody>
<tr>
<td>FY 82-83</td>
<td>$2,638,840</td>

<td>$22,680,000</td>
<td>$37,320,000</td>
</tr>
<tr>
<td>FY 84-85</td>
<td>$37,732,000</td>
<td>$45,343,380</td>
</tr>
</tbody>
</table>

The above estimates do not include savings resulting from implementation of this Rule for inpatient services, new hospitals or emergency access hospitals.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

The effect on revenue collections is anticipated to be a loss of Federal financial participation totaling $4,761,160 in FY 82-83; $37,320,000 in FY 83-84; and $45,343,380 in FY 84-85.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

The proposed Rule change will affect hospitals providing services under Title XIX. The amount of impact on each hospital cannot be predicted on an individual basis as this is dependent on the number and cost of services provided by each hospital. However, the total decrease in vendor payments to all hospitals is the same as the savings projected in I. above.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

No effect on competition and employment is anticipated as a result of the proposed Rule.

The Department of Health and Human Resources, Office of Family Security, proposes to suspend the Maximum Allowable Cost (MAC) limit for the drug, Erythromycin Stearate 500 mg. Tablets. The original MAC limit for this drug was published as a final Rule in the March 20, 1979 Louisiana Register, (Volume 5, Number 3, page 64).

This action is required as a result of a telegram received from the chairman of the Pharmaceutical Reimbursement Board of the Health Care Financing Administration (HCFA).    (1) That the adjudication officer lacks jurisdiction over the subject matter, or over the person against whom relief is sought.
   (2) That the notice has not been made in the required manner or within the prescribed period of delay.
   (3) That the action has become moot.
   (4) That a party has failed to appear at the time fixed for hearing, without having been granted a continuance.
   (5) That the written notice expressing the cause of action does not constitute a ground for revocation or suspension.

b. Any requests or summary disposition when made prior to the date fixed for hearing may be supported by admissions of fact and written argument or brief.

c. If the officer conducting the hearing denies the request or refers it to the merits, he may reconsider same at any time prior to final disposition of the action.

d. The officer conducting the hearing may, on his own motion at any time, summarily dispose of an appeal, or action, on any of the grounds listed in Sub-section (a) hereof.

Rule 8. The hearings shall be heard in a convenient place accessible to the public, selected by the Secretary. With the consent of the Secretary, his representative, the Chief Adjudication Officer or Adjudication Officer, the parties may agree to any place of public accessibility within the State for any hearing.

a. A hearing may be continued without prejudice to either party:

   (1) By the Secretary, his representative, or Chief Adjudication Officer upon submission of justification deemed adequate by them, or
   (2) By the officer conducting the hearing for cause deemed sufficient by or for him; or
   (3) If time does not permit completion of the hearing on the scheduled date.

b. With the approval of the officer conducting the hearing, an action fixed for hearing may be continued by consent of all interested parties.

c. No continuance shall be granted except for compelling cause or to serve the ends of justice.

Rule 10. Parties shall have the right, but shall not be required, to be represented by counsel. Any such counsel must be duly licensed to practice law in the State of Louisiana. When any party is represented by more than one attorney in any hearing, only one attorney for any party shall be permitted to examine the same witness.

Rule 11. The burden of proof as to the facts shall be on the State in every action.

Rule 12. Admissibility of evidence is governed by the Louisiana Administrative Procedures Act. Departmental records, papers, documents and other written exhibits may be offered in evidence at the hearing either by a representative of the agency involved or by documentary submission at the hearing of the agency involved. All such evidence shall be made available for inspection by all parties. All testimony will be recorded under oath.

Rule 13. Affidavits and other ex parte statements shall be received in evidence; however, all parties shall be given an opportunity to inspect such statements before their admission into the record.

Rule 14. The parties may be required to stipulate to all undisputed facts.

Rule 15. The presentation of corroborative evidence may be limited by the officer conducting the hearing.

Rule 16. The officer conducting the hearing, on the request of any party, or on its or his own motion, may order that the witnesses in any hearing be separated so as to preclude any witness, other than the parties and their attorneys, from hearing the testimony of any other witness.

Rule 17. The officer conducting the hearing may fix the total time to be allowed for oral argument, according to the circumstances of each case, to one or more issues. Except with special leave, only one attorney shall be permitted to present oral argument for any party. Any member or members of the Louisiana State Bar Association may be allowed to present oral or written argument on any question of law, provided such oral argument is presented at a hearing when all parties are present or represented, or that a copy of all written arguments be served on all parties or their counsel, if any. Service of such written argument shall be certified by the writer.

Rule 18. Subpoena of Witnesses; Production of Documents.

a. The Adjudication Officer, Chief Adjudication Officer,
the Secretary, or his representative shall have the power to order the appearance of witnesses and compel the production of books and papers pertinent to the issues involved in any appeal, provided such witnesses and such books and papers are within the State.

b. Any party desiring the issuance of a subpoena for any witness at any hearing must apply for it in writing at least five days before the date fixed for the hearing and must give the name and address of the witness to whom the subpoena is to be directed, together with a brief statement of what he intends to prove by such witness.

c. Any party desiring the production of books, papers, photographs, or other items at any hearing must apply for an appropriate order in writing at least five days before the date fixed for the hearing. Such application must describe the items to be produced in sufficient detail for identification, must give the full name and address of the person required to make such production, and must state briefly what is intended to be proved by such books, papers, photographs, or other items; and the materiality of their production to the issues must be sworn to by the complainant or his counsel.

d. No subpoena for the appearance of any witness or order for the production of books, papers, photographs, or other items shall be issued unless the authorized person to whom the application is presented is satisfied that the testimony of the witness or the production of the books, papers, photographs, or other item is necessary to decide the issues.

e. Authentic copies of books, papers, photographs, or other items in the custody of any department, board, or agency of the State or any subdivision thereof which have been subpoenaed may be admitted in evidence with the same effect as the originals.

f. The Adjudication Officer, Chief Adjudication Officer, the Secretary or his representative for cause deemed sufficient may issue an appropriate order at any time recalling any subpoena, subpoena duces tecum, or request issued under the provisions of this Rule.

g. No subpoena shall be issued until the party who wishes to subpoena the witness first deposits with the Department a sum of money sufficient to pay all fees and expenses to which a witness in a civil case is entitled pursuant to R.S. 13:3661 and R.S. 13:3671.

Rule 19. Dismissal for Non-appearance at Hearing.

The hearing shall be confined to those grounds upon which the reconsideration, reopening, or rehearing was ordered. (Summary)
It is estimated that implementation of this regulation will have no effect on revenue collections.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS -  (Summary)
It is estimated that implementation of this regulation will not cause additional costs to be incurred by affected groups.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT -  (Summary)
There may be some effect on competition, however that effect cannot be determined at this time. The effect will depend upon the number of helmets and goggles presently being sold by distributors which are in compliance with current regulations as compared to those which will be sold in compliance with the new regulations. If all helmets and goggles purchased by motorcycle riders were in compliance with the prevailing regulations and if the new regulations will promote the purchase of additional brands of helmets and goggles, then competition will be stimulated. However no data has been recorded to indicate the brand of helmets and goggles which are sold. Therefore the effect on competition cannot be determined at this time.

POTPOURRI
Department of Health and Human Resources
Office of Family Security

The Department of Health and Human Resources, Office of Family Security, in the November 20, 1982 Louisiana Register (Volume 8, No. 10, page 617) had published proposed Rulemaking to implement a Rule in the Medical Assistance Program to impose a mandatory co-payment fee to be paid by recipients for specific Title XIX services unless exempt from the co-payment requirement. As a result of comments received in a public hearing on December 5, 1982, regarding the proposed Rulemaking, the Department of Health and Human Resources, Office of Family Security has determined that imposition of a co-payment fee is not feasible at this time due to questions as to the equity and cost-effectiveness of such a requirement. Therefore, the proposed Rulemaking will NOT be implemented effective January 1, 1982.
