Subcontractors’ agreements must meet all contracting, indemnity, insurance and regulatory compliance requirements. The parties hereby agree that any non-compete agreement or similar agreement with any Subcontractors seeking to restrain the ability of the Subcontractors to perform any services for the OCD/DRU shall be deemed unenforceable, null and void, to the extent of such non-compete provision, but without invalidating the remaining provisions of the contract with the Subcontractor.

J. **Section 3 Compliance in the Provisions of Training, Employment and Business Opportunities**

The work to be performed under this contract is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (section 3). Scope of Services

As co-chairs of the Recovery Support Framework – Planning and Capacity Building (RSF1) – under the National Disaster Recovery Framework (NDRF), the Office of Community Development-Disaster Recovery Unit (OCD/DRU) and the Louisiana Economic Development Department (LED), and in consultation with the committee, have identified a need to have a document that serves as a guide for local community planning processes in developing recovery and resiliency strategies that will ultimately reduce community risk from hurricanes, flooding and other hazards. Ardyn M. Thriffiley and Associates, Inc. will develop a Louisiana Long Term Community Resiliency Planning Guide, using as a basis, LED’s Roadmap to Readiness Guide (LDRC Program) for economic development, which has successfully been utilized in 37 communities throughout Louisiana. The objective will be to align the six Recovery Support Functions established by the National Disaster Recovery Framework into the guide, as well as incorporate resiliency and mitigation components so that local communities have a step-by-step guide in assessing their vulnerabilities and setting priorities for reducing or eliminating areas of risk.

The components of this work include:

**Review and Modify the LED Process**: Review the LDRC process and tools to determine modifications to incorporate recovery and resiliency, along with alignment with the six National Disaster Recovery Framework’s Recovery Support Functions, which include (1) Planning and Capacity Building, (2) Economic Systems, (3) Health and Human Resources, (4) Housing, (5) Infrastructure Systems, and (6) Natural and Cultural Resources.

**Work with Long-term Planning Working Group, OCD Staff and RSF Teams**: Facilitate meetings and interaction with the leads of the six RSF Committees and others that will provide input and feedback on the long-term community resilience planning guide. Work with them in gathering data, ideas on guide components, brand, and guide formatting.

**Develop a Proposed Guide Outline**: Please find the proposed outline at the end of this document.

**Additional Guide Components**:

- **Guiding Principles**: Language that will assist the steering and sustainability committee to develop guiding principles. The principles will proscribe the community and business principles that will guide the work that they will conduct during the planning process and implementation.

- **Priority Survey**: Create a priority survey to be used as the basis for prioritizing recovery, resiliency and economic issues at the community workshops, and/or to the community via Survey Monkey.

- **Plan implementation**: Language about plan implementation, implementation team
structure, and tools to monitoring progress.

Training
Once the Guide is finalized, the consultant will work with the RSF 1 in training planners, facilitators, local officials, etc., to use the guide in communities and/or regions which voluntarily wish to develop a Long-term Community Resilience Plan. Up to six communities will be identified by the RSF1 and OCD/DRU, based on need and level of interest, for intensive training and support.

TIMELINE
This timeline is contingent upon the availability of key stakeholders, information on resiliency efforts and policies at the state and local levels, FEMA's release of the watershed study for Louisiana, and other activities related to the NDRF and recovery issues which may impact the proposed timeline. Adjustments will be made by mutual agreement:

January – March, 2017
Research existing tools for disaster planning, incorporating key components as may be appropriate; modify LDRC's Roadmap to Readiness Guide to include the six NDRC areas; meet with each RSF co-chairs, FEMA, GOSHEP, OCD/DRU's Resiliency Advisor et. al; attend symposiums and other events as may be appropriate relative to disasters; refine/finalize the proposed outline for this document.

MARCH 2017
Provide a first draft to the RSF1 for review and input.

April 2017 – Provide a second draft to the RSF1 for review and input reflecting the critique and recommendations provided on the first draft; additional follow-up to be determined pending the review of the second draft.

Month To Be Determined – Take necessary follow-up action from the review of the second draft, which may include rewrites or edits, supplemental research, etc.

Month To Be Determined – Provide a final draft for proofing, printing and distribution once all input has been provided from the RSF1 review committee, OCD/DRU's watershed planner & resiliency policy advisor, LED, and other stakeholders who may be identified.

January 2018 or after – Conduct the training for up to six identified communities and/or regions which have disaster recovery managers through grants awarded by the Economic Development Administration and OCD/DRU or which wish to voluntarily initiate a long term resiliency planning effort. Those to be trained may include elected officials, planners, "champions" identified by the communities to lead the effort locally, and other key leaders and stakeholders. Date(s) and site(s) to be determined.
