EXECUTIVE ORDER EWE 86-31

WHEREAS, it has been reported to me by the commissioner of administration that the receipts of the treasury will fall short of revenue estimates for the fiscal year 1986-1987; and
WHEREAS, continued maintenance of the appropriated levels of expenditure will result in a deficit;
NOW THEREFORE I, EDWIN EDWARDS, Governor of the State of Louisiana, pursuant to the authority granted me by Section 10 of Act 17 of the 1986 Regular Session of the Legislature, R.S. 39:55, and Article IV, Section 5 of the Louisiana Constitution of 1974, do hereby order that all departments and all budget units as defined by R.S. 39:2(7) not within a department submit revised budgets to the commissioner of administration for approval no later than October 24, 1986. The budgets shall reflect a reduction of 10 percent of appropriations affecting the State General Fund and other special funds as designated by the commissioner of administration. However, as authorized by R.S. 39:55 and additionally by Section 10 of Act 17 of the 1986 Regular Session, certain appropriations will be exempt from this reduction, all as further directed by me and to be made known through the commissioner of administration.

The budgets for the Minimum Foundation Program, vocational-technical and special schools, and for colleges and universities shall reflect a reduction of five percent of appropriations affecting the State General Fund, and shall be submitted to the commissioner of administration by the abovementioned date.

No reduction in appropriations shall be required for the Judiciary, the office of revenue, or for the office of corrections.

While reduction of the appropriation for the expenses of the legislature is beyond the authority granted to me by statute, I urge and request that the same 10 percent expenditure reduction be placed in force and that the resulting savings be returned to the State General Fund. If for any reason the legislature does not comply with this request, I request the President of the Senate and the Speaker of the House to notify me in writing so that appropriate revisions can be made to the expenditure schedules.

Budget reductions pursuant to this order shall become effective October 13, 1986.

IN WITNESS WHEREOF, I have hereunto set my hand officially and caused to be affixed the Great Seal of the State of Louisiana, at the Capitol, in the City of Baton Rouge on this 13th day of October, 1986.

THE GOVERNOR

SECRETARY OF STATE

EXECUTIVE ORDER EWE 86-34

WHEREAS, H.R. 3838, the Tax Reform Act of 1986 (the “Act”), restricts the total principal amount of certain private activity bonds the interest on which is exempt from federal income taxation under Section 103 of the Internal Revenue Code of 1986 (including the portion of government use bonds allocated to non-governmental use which is required by the Act to receive an allocation as herein provided) (such bonds sometimes referred to herein as “Bonds” or “bonds”) which may be issued by the State of Louisiana (the “state”) during the period commencing August 16, 1986 through and including December 31, 1986 to a dollar amount equal to $75 per person based on the most recently published estimate of population for the state released by the U.S. Bureau of Census before the beginning of calendar year 1986;

WHEREAS, it is necessary to provide a method and formula to provide for allocations of bonds subject to such limitations in a manner which will allow compliance with the requirements of the Act while the Act is pending and after it is enacted into law; and

WHEREAS, the governor of the state desires to (i) exercise his authority under the Act and under Act Number 51 of the Regular Session of the 1986 Legislature to modify the allocation of bonds subject to the private activity bond volume limits of the Act for the calendar year ending December 31, 1986 (the “ceiling”) by allocating the ceiling in the manner hereinafter provided, (ii) set forth the procedure for obtaining an allocation of bonds from the ceiling, and (iii) provide for central record keeping in connection with such allocations.

NOW THEREFORE, be it ordered by Edwin W. Edwards, Governor of the state of Louisiana, as follows:

ARTICLE I
DEFINITIONS

SECTION 1.1: All terms defined in the preamble hereof shall have the same meaning in this executive order.

SECTION 1.2: All terms not defined herein shall have the same meanings as used in the Act.

SECTION 1.3: In addition, the following terms shall have the following meanings:

“Issuer” or “issuers” means any entity or entities now or hereafter authorized to issue bonds under the Constitution or laws of the state.

“Statewide jurisdiction” means authority to issue bonds to finance projects located anywhere within the geographic limits of the state and not limited to any particular area of the state.

ARTICLE II
GENERAL ALLOCATION POOL

There is hereby created a pool to be designated the “General Allocation Pool”. The entire ceiling of $336,075,000 is hereby credited to the General Allocation Pool. Allocations for all types of bonds which require allocations under the Act may be requested and granted from the General Allocation Pool. Until the earlier of November 15, 1986 or the date on which the amount remaining in the General Allocation Pool is reduced below $112,025,000, at least $100,000,000 of the General Allocation Pool shall be reserved for allocations for qualified mortgage bonds issued by the Louisiana Housing Finance Agency (the “LHFA”) and at least $84,645,000 of the General Allocation Pool shall be reserved for allocations for bonds issued by the Louisiana Public Facilities Authority (the “LPFA”). There shall also be reserved, until the earlier of November 15, 1986 or the date on which the amount remaining in the General Allocation Pool is reduced below $112,025,000, (i) at least $14,107,500 of the General Allocation Pool for allocations to be granted for bonds issued by issuers (other than the LPFA or LHFA) having statewide jurisdiction and (ii) at least $137,322,500 of the General Allocation Pool for allocations to be granted for bonds issued by all issuers other than those having statewide jurisdiction.

ARTICLE III
APPLICATION AND PROCEDURE FOR ALLOCATIONS

SECTION 3.1: Except as limited in Article II hereof, all issuers in and of the state may apply for allocations on an equal basis. It is the intent hereof that allocations (other than allocations for qualified mortgage bonds) be granted primarily on a first come first served basis until the ceiling reaches a level at which discretion is necessary to insure the most favorable economic return to the state or an area within the state.

SECTION 3.2: The allocation of the ceiling from the General Allocation Pool created hereby (other than allocations for qualified mortgage bonds) will be considered on the basis of the chronological order of receipt from an issuer of the application set forth in Section 3.3 of this executive order.

SECTION 3.3: An issuer which proposes to issue bonds for a specific project or purpose must make application for an allocation of a portion of the ceiling for the particular project or purpose by submitting an application to the staff of the Louisiana State Bond Commission (the “SBC staff”), which contains the following information:

(a) the name and address of the issuer of the bonds;
(b) the name and location (by mailing address or other definitive description) of the project or purpose for which an allocation from the ceiling is requested;
(c) in the case of bonds other than qualified student loan bonds or qualified mortgage bonds, the name and mailing ad-
dress of (i) the initial owner or operator of the project, (ii) an appropriate person from whom information regarding the project can be obtained, and (iii) the person to whom notification of the allocation should be made;

(d) the date of adoption by the issuer of an inducement resolution adopted for the purpose of taking "official action," as required by the Internal Revenue Code of 1986, as amended (the "Code"), if the issue of bonds for which the allocation of the ceiling is requested requires the taking of "official action" under the Code;

(e) the amount of the ceiling which the issuer is requesting be allocated for the project or purpose of the application and a general description of the project or purpose to be financed;

(f) either (i) a bond purchase agreement or other written commitment to purchase the bonds for which an allocation is requested, executed by one or more purchasers, setting forth in detail the principal and interest payment provisions and the security for the bonds, accepted by the issuer or the beneficiary of the bonds, (ii) in the case of a public offering of the bonds for which the allocation from the ceiling is requested, a binding bond purchase or underwriting agreement obligating the underwriter or underwriters to sell or purchase the bonds within 60 days of the receipt of an allocation hereunder, setting forth in detail the proposed principal and interest payment provisions and the security for the bonds, accepted by the issuer or the beneficiary of the bonds, or (iii) a $7,500 escrow deposit which will be forfeited in the event the bonds for which an allocation is granted are not delivered prior to the expiration of such allocation as provided in Section 3.7 hereof. The $7,500 deposit shall be returned to the party depositing the same without interest upon the substitution of the items described in (i) or (ii) above or delivery of the bonds within the allocation period (including any extension). In the event that such bonds are not delivered within the allocation period, the deposit shall be forfeited and deposited in the State Treasury, unless the failure to deliver such bonds is the result of the State Bond Commission denying approval of such bonds, in which case the deposit shall be returned to the party depositing same without interest; and

(g) a letter from bond counsel to the effect that the bonds for which an allocation is requested are subject to the ceiling.

SECTION 3.4: Upon receipt of the completed application required by Section 3.3 hereof for allocations (except with respect to allocations for qualified mortgage bonds which are to be allocated by the governor) the SBC staff shall, within 10 days of the receipt thereof, notify the person designated in the application of the allocation of the ceiling to be applied to the project or purpose requested in the issuer's application.

SECTION 3.5: Until November 15, 1986, the maximum amount of allocation that may be granted for any project or purpose (other than for qualified mortgage bonds) shall not exceed $20,000,000. Until November 15, 1986, the maximum amount of allocation that may be granted for qualified mortgage bonds (other than for qualified mortgage bonds issued by LHFA) shall not exceed $25,000,000. If an issuer submits a request for an allocation in excess of the amount herein authorized, the SBC staff shall retain the application for consideration of the allocation of additional amounts on or after November 15, 1986. Notwithstanding the foregoing, if the governor determines that a project serves a crucial need or provides an extraordinary benefit to the state or an area within the state, the governor by written approval may authorize allocations for a project prior to November 15, 1986 up to a total of $50,000,000 for such project or purpose. Allocations for qualified mortgage bonds issued by the LHFA shall not be governed by this Section.

SECTION 3.6: On the earlier of November 15, 1986 or the date that the amount remaining in the General Allocation Pool is reduced below $112,025,000 the remaining amounts reserved in Article II shall be combined and allocations from such remaining amounts shall be granted at the discretion of the governor without regard to reservations for any particular issuers.

SECTION 3.7: Upon receipt of the completed application required by Section 3.3 hereof for allocations which must be granted by the governor, the SBC staff shall immediately forward such application to the governor, together with a form used for the granting of allocations which is complete in all respects other than the amount of the allocation. The governor shall determine the amount of allocation (if any) and may evidence his approval by entering the amount of the allocation on the form and signing the allocation form.

SECTION 3.8: Any allocation from the ceiling (other than as set forth in Article II hereof) will remain valid if the bonds for which such allocation is granted are delivered by the earlier of (i) 60 days from the date the notice of the allocation is mailed to the person designated or (ii) December 31, 1986; unless, in the case of (i) above, the issuer requests an extension of time for the allocation to remain valid, in which event the allocation will be extended one time to the earlier of (i) 30 days from the date of the expiration of the 60-day period or (ii) December 31, 1986. Notwithstanding the foregoing, an allocation shall be deemed invalid immediately upon the State Bond Commission's denial of the approval of the bonds which have received an allocation.

SECTION 3.9: On November 15, 1986 the SBC staff shall determine the remaining amount of the ceiling and shall submit to the governor for consideration all applications for allocations of bonds in excess of the amounts permitted herein for which the SBC staff has received in writing during the period commencing November 1, 1986 through November 14, 1986 a notification of the applicants continued desire to receive an increased allocation. Thereafter, the governor may grant, until the ceiling is exhausted, allocations limited to $20,000,000 per project or purpose (in addition to previous allocations granted) unless the governor determines that a project satisfies a particularly important state or local need, in which event the governor may allocate additional amounts limited only to the amount of the ceiling remaining.

SECTION 3.10: In the event the allocation of the ceiling for a particular project or purpose expires as provided in Section 3.8 of this executive order, the issuer may resubmit its application for an allocation of a portion of the ceiling for such project or purpose, and the application of the issuer relating to such project or purpose will be reviewed in chronological order of receipt of its resubmission, but no preference or priority will be given to the issuer as a result of its prior application for such project or purpose.

SECTION 3.11: In order to make maximum use of the ceiling, to promote economic growth in the state, and to treat all interests fairly, it is the intent of this executive order that the SBC staff shall not exercise any discretion in the allocation of bonds. The SBC staff shall handle and dispose of each application in the chronological order of receipt.

SECTION 3.12: The SBC staff shall maintain accurate records of all allocations and all bonds delivered. All issuers of bonds which have received an allocation must notify the SBC staff of the delivery of bonds within five days after the delivery of such bonds and shall specify the total principal amount of bonds issued. The SBC staff shall provide to any person so requesting every two weeks and any other time requested: (i) a list of the amount of unallocated ceiling remaining on the date such request is made, (ii) a list of allocations (naming the issuer and amount of allocation) which have been made by the SBC staff and the date of each allocation and any extension, (iii) a list of applications being held by the SBC staff which have requested a

EXECUTIVE ORDER EWE 86-36

WHEREAS, Executive Order No. EWE 86-31 was issued October 13, 1986, directing that the budget reductions be effective October 13, 1986; and

WHEREAS, it is my intention that the capability of the state treasurer to maximize investment earning capacity not be placed in extreme jeopardy; and

WHEREAS, investment earnings are an integral part of the state general fund receipts; and

WHEREAS, diminution of the revenue source would further add to the potential deficit; and

WHEREAS, it is the intent of the executive and legislative branches that work programs for which funds have been appropriated extend through the entire fiscal year; and

WHEREAS, if all departments and/or budget units were to accelerate their withdrawals from the state treasury, the state treasurer would not have sufficient cash on hand to meet operating expenses and constitutional requirements for the balance of the year, causing a deficit situation to occur:

NOW THEREFORE, I, Edwin Edwards, Governor of the State of Louisiana, pursuant to the authority granted me by Section 8 of Act 17 of the 1986 Regular Session of the Legislature, do instruct the commissioner of administration, under the authority of R.S. 39:52, 53, and 55, to distribute the general fund balances yet undrawn in equal monthly segments.

However, the budgets for the Minimum Foundation Program, vocational-technical and special schools, and for colleges and universities shall reflect a reduction of five percent of each monthly allocation of the appropriations affecting the state general fund and shall be submitted to the commissioner of administration.

In the event that contractual obligations are such that it becomes necessary to accelerate withdrawals from the state treasury in any one month, the remaining funds will be decreased on a pro-rata basis in order that sufficient funds will be available to
complete the work program for the entire fiscal year.

IN WITNESS WHEREOF, I have hereunto set my hand
officially and caused to be affixed the Great Seal of the State of
Louisiana, at the Capitol, in the City of Baton Rouge, on this
29th day of October, A.D., 1986.

DECLARATION OF EMERGENCY

Department of Health and Human Resources
Office of Family Security

The Department of Health and Human Resources, Office of Family Security, has exercised the emergency provision of the Administration Procedure Act, R.S. 49:953B, to adopt the following rule in the Food Stamp Program.

Summary

This rule is mandated by federal regulation as published in the Federal Register Vol. 51, No. 150, Tuesday, August 5, 1986 pp. 28196 - 28202.
It is necessary to adopt this as an emergency rule to avoid sanctions as federal regulations mandate a retroactive December 23, 1985 implementation date.

Emergency Rulemaking

Categorical Eligibility for Certain Recipients

A. Households Considered Categorically Eligible

Households in which all members are authorized to receive Public Assistance (AFDC and/or SSI) shall be considered categorically eligible for food stamps.

"Authorized to receive" includes individuals determined eligible for AFDC or SSI benefits but the benefits have not yet been paid. "Recipient" includes a person determined eligible to receive zero benefits, e.g., a person whose benefits are being recouped and an AFDC recipient whose benefits are less than $10 and therefore does not receive a check.

A household may be considered categorically eligible even if it contains both AFDC and SSI recipients. Individuals entitled only to Medicaid and not public assistance are not categorically eligible.

A household shall not be considered categorically eligible if:

1) any member of that household is disqualified for an Intentional Program Violation;

2) the household is disqualified for failure to comply with monthly reporting requirements;

3) the household is disqualified for failure to comply with the work registration requirements.

The following persons shall not be considered a member of a household when determining categorical eligibility:

1) an ineligible alien

2) an ineligible student

3) an institutionalized person

Households which are categorically eligible are considered to have met the following food stamp eligibility factors without additional verification:

1) resources

2) Social Security Numbers

3) sponsored Alien Information

4) residency

These households also do not have to meet the gross and net income limits but verification of income not counted for AFDC/SSI is required (e.g. educational assistance). If questionable, the factors used to determine categorical eligibility shall be verified.

Categorically eligible households must meet all food stamp eligibility factors except as outlined above.

Changes reported by categorically eligible food stamp households shall be handled according to established procedures except in the areas of resources or other eligibility factors.

Benefits for categorically eligible households shall be based on net income as for any other households. One and two person households will receive a minimum benefit of $10. Households which meet categorical eligibility requirements but are not eligible for benefits must be certified and handled as if they were eligible for benefits. The household shall be notified that income exceeds the level at which benefits are issued but that they are categorically eligible and certified for participation. The household shall be advised of their reporting requirements.

B. Application Processing

Households in which all members are applying for Public Assistance (PA) shall continue to be processed according to joint processing procedures. Until a determination is made on the PA application, the household's food stamp eligibility and benefit level shall be based on food stamp eligibility criteria. However, the local office shall postpone denying a potentially categorically eligible household until the thirtieth day in case the household is determined eligible to receive PA benefits.

The household shall be informed on the notice of denial that it is required to notify the local office if its AFDC or SSI benefits are approved.

If the household is later determined eligible to receive PA benefits after the thirtieth day and is otherwise categorically eligible, benefits shall be provided using the original application along with other pertinent information occurring subsequent to that application.

The local office shall not reinter view the household but shall use any available information to update the application and/or make mail or phone contact with the household or authorized representative to determine any changes in circumstances. Any changes shall be initialed and the updated application resubmitted by the authorized representative or authorized household member. If eligibility for public assistance is determined within the 30-day food stamp processing time, benefits shall be provided back to the date of application. If eligibility for PA is determined after the food stamp application is denied, benefits for the initial month shall be prorated from the effective date of the PA certification or the date of the food stamp application, whichever is later.

C. Certified Households

Certified households which become categorically eligible due to receipt of SSI benefits shall be eligible for the medical and uncapped shelter deductions from the beginning of the period for which the SSI benefits are authorized or the date of the food stamp application whichever is later. These additional benefits shall be provided through restoration.

D. Refugee Cash Assistance (RCA) Benefits

For Food Stamp purposes, RCA benefits are not considered "Public Assistance." The cases are not categorically eligible and should no longer be classified as Type 1 households.

E. Implementation

These changes are effective retroactively to December 23, 1985. Any household that applied and was denied benefits from that date until implementation of this rule is entitled to restored benefits if it:

A. was categorically eligible;

B. is otherwise entitled to benefits; and

C. requests a review of its case or if the agency otherwise becomes aware that a review is needed.

Restored benefits for these households shall be made available, if appropriate, back to the date of the food stamp application or December 23, 1985, whichever is later.

B. Educational loans on which payment is deferred, grants, scholarships, fellowships, veterans’ educational benefits, and the like that are provided to a third party on behalf of the household for living expenses such as rent or mortgage, personal clothing or food eaten at home shall be treated as money payable directly to the household and not excluded as a vendor payment.

C. Origination fees and insurance premiums on student loans are excludable charges. Only the amount of the loan after these charges have been excluded is to be considered income.

D. Exclusions from Education Assistance

1. Federal Education Assistance

Under the authority of R.S. 37:144 and in accordance with the provisions of R.S. 49:950 et. seq., the Board of Architectural Examiners amended LAC 46:1.317 C. and LAC 46:1.501.B. as follows:

LAC 46:1.317.C. (formerly Rule 1.15)

Out of the funds of the board, each board member shall be compensated at a rate of $100 for each day in attending board meetings and hearings, attending NCARB regional and national meetings, issuing certificates and licenses, reviewing examinations, necessary travel, and discharging other duties, responsibilities, and powers of the board. In addition, out of said funds each board member shall be reimbursed actual travel, meals lodging, clerical, and other incidental expenses incurred while performing the duties, responsibilities, and powers of the board, including but not limited to performing the aforesaid specific activities.

LAC 46:501.B. (formerly Rule 2.2)

Applications shall be made on a form, furnished by the board, which indicates the applicant has completed an internship of practical working experience, as defined by NCARB and as outlined by the intern development program administration by NCARB. The application must include a complete and approved intern development program record from NCARB for final review and approval by the board.

Repeal: All rules in effect prior to the 1984 revisions (printed in the Louisiana Register of October 20, 1984) are hereby repealed.

The primary purpose of the proposed amendment to LAC 46:1.317.C. (formerly Rule 1.15) is to clarify the board’s policy on per diem payments to its members, including that board members are authorized to receive $100 per day in per diem, and the primary purpose of LAC 46:1.501.B. (formerly Rule 2.2) is to clarify the requirement that the application for examination include a complete and approved intern development program record from NCARB for final review and approval by the board. The repeal of the rules effective prior to the 1984 revision completes the comprehensive revision made in 1984, and makes no changes not anticipated in the 1984 revision.

Department of Natural Resources
Office of the Secretary

In accordance with provisions of the Administrative Procedure Act (R.S. 49:950 et seq.) and Act 673 of 1986 (R.S. 47:648.1) the secretary of the Department of Natural Resources has adopted the rules and regulations set forth, below, for procedures for claiming a conditional severance tax exemption, which rules are effective November 20, 1986.

Rules For Claiming Severance Tax Exemption
Under Act 673 of 1986 (R.S. 47:648.1)

1. R.S. 47:648.1 established a qualified severance tax exemption on the first 10,000 barrels of oil produced annually from a well which is drilled between July 15, 1986 and July 15, 1987. This exemption is qualified in that it applies only to the first 50 barrels of oil removed from the ground in each day, although the 10,000 barrel limitation is calculated from the total production of the well. This exemption may be claimed from the date of first production from each well until July 15, 1990, except for months when the value of oil, as reported to the Department of Revenue and Taxation under R.S. 47:633(7), exceeds $21 per barrel.

2. The tax exemption does not apply to:
   1. condensate, distillate, or similar natural resources produced from a well classified as a gas well by the assistant secretary of the Office of Conservation;
   2. casinghead gas produced with oil from a well drilled between July 15, 1986 and July 15, 1987;
   3. oil from a well on which drilling began prior to July 15, 1986;
   4. oil from a well on which drilling is done after July 15, 1987;
   5. oil from a well with a price per barrel greater than $21 as reported under R.S. 47:633(7);
   6. oil from a well following, or in excess of, the first 50 barrels produced on any day;
   7. oil from a well following, or in excess of, the first 10,000 barrels produced in any year.

III. The Department of Revenue and Taxation will provide forms for claiming the severance tax exemption, together with instructions. The amount of exempt production will be reported each month by the producer of the oil. A copy of the producer's report will be provided by the producer to the party remitting the taxes. The taxpayer will report the exempt sales on the SEV Old under Tax Rate 7, or upon such other forms as may be specified by the Department of Revenue and Taxation. No production shall be exempt from severance taxes unless the taxpayer first provides an Office of Conservation certification that the well qualifies for the exemption, to the Department of Revenue and Taxation.

Rule Title: Agricultural Ethanol Production

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENTAL UNITS (Summary)
Besides the expenditures detailed in R.S. 3:3706, no additional costs are anticipated to implement these rules and regulations.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)
Besides the revenues detailed in R.S. 3:3706 no additional fiscal impact is anticipated with regard to revenue collections.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NON-GOVERNMENTAL GROUPS (Summary)
The proposed rules will affect both certified market participants and gasohol blenders. Blenders will be required to maintain special inventory accounting for ethanol purchases so that for audit purposes the use of the ethanol can be allocated to specific certified market participants. The proposed incentive payment allocation formula may require certified market participants to periodically receive monthly payments that are less than their actual production of ethanol during the month.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)
The proposed requirement that the blender shall send each certified market participant a copy of the blender’s purchases and use of ethanol from each certified market participant supplying the blender may provide the certified market participants with useful information on competitors’ sales, but the ultimate impact of this information on competition among ethanol producers cannot be determined. The rules will have no significant impact on employment.

Consideration will be given to the following:

Chapter 18

18.1 Purpose and Scope
These rules are interim rules for the purpose of effecting the transition from old class titles to new job titles. This Chapter temporarily supersedes all other rules that are in conflict.

18.2 Pay Upon Allocation To New System Titles
The commission, after considering the financial condition of the state, shall designate, or delegate to the director the authority to designate, either section (a) or (b) below as the method for effecting pay upon allocation.

(a) When minimal funding is available:
1. If the job to which the employee’s current position is being allocated is at the same grade level as his current class, his pay shall not be changed.
2. If the job to which the employee’s current position is being allocated is at a higher grade level than his current class and his rate of pay is within the new range, his pay shall be adjusted to the step in the range that is closest to his current rate without reducing his rate. Eligibility for pay adjustments as provided in rule 6.5 shall be retained and shall be paid in accordance with 18.2 (c). The employee’s anniversary date shall not be affected and a merit increase may be granted when eligibility under rule 6.15 (a) is attained.
3. If the job to which the employee’s position is being allocated is at a higher grade level than his current class and his rate of pay is below the new range minimum, his pay shall be adjusted to the range minimum. Eligibility for pay adjustments as provided in rule 6.5 shall be retained and shall be paid in accordance with rule 18.2 (c). The employees anniversary date shall not be affected and a merit increase may be granted when eligibility under rule 6.15 (a) is attained.
4. If the job to which the employee’s current position is being allocated is at a lower grade level than his current class, his pay shall not be changed. The employee’s anniversary date shall not be affected. If he attains eligibility for a step increase under rule 6.15 before the application of the new job evaluation system structure, he may be granted a step increase in the amount he would have been eligible for in his former class range. If the employee attains eligibility for a step increase under rule 6.15 after the application of the new job evaluation system structure, he may receive the step increase in accordance with the rules implemented for administration of the new structure.
(b) When adequate funding is available:
1. If the job to which the employee’s current position is being allocated is at the same grade level as his current class, his pay shall not be changed.

3. If the job to which the employee’s current position is being allocated is at a lower grade level than his current class, provisions of 18.2 (a) 4 of this rule shall apply.
4. The employee’s anniversary date shall not be affected and a merit increase may be granted when eligibility under rule 6.15 (a) is attained.
(c) An employee who has eligibility for pay adjustments under rule 18.2 (a) shall be paid in the following manner.
1. No later than January 1, 1988, employees who have eligibility for additional step(s) shall receive a one step pay adjustment.  
2. No later than July 1, 1988, employees who have eligibility for the full two step adjustment shall receive their final step adjustment.

4. These step adjustments shall be calculated on the employee’s current pay rate except for those with red circle rates under rule 6.28. For these employees, the true rate shall be the base pay on which the adjustment will be calculated.  
5. If an employee is promoted on or after January 1, 1987 or his position is reallocated based on a change in duties after January 1, 1987, his pay shall be established in accordance with rule 6.5.

NOTICE OF INTENT

Department of Culture, Recreation and Tourism
Office of State Museum

Notice is hereby given that the Office of the State Museum intends to adopt the proposed rule as follows:

Title 25
Cultural Resources
Part III: Office of State Museums
Chapter 1. Public Access
§103. Building Rental Policy

The Louisiana State Museum is responsible for the preservation of historic buildings placed in its care. In order to meet this responsibility the board of directors of the Louisiana State Museum has adopted the following policy for use of the Museum's New Orleans facilities for functions not sponsored by the Louisiana State Museum.

A. Requests for usage of the Louisiana State Museum facilities will be entertained from:
   1. nonprofit organizations whose purposes are similar to the educational and historical museum purposes of the Louisiana State Museum;
2. official governmental agencies for governmental functions;
3. other groups and individuals whose proposed usage does not involve commercial or political promotion or fund-raising and whose usage is, in the board’s opinion, not in conflict with the purpose of the Louisiana State Museum.

B. Requests will be considered from eligible non-profit corporations and governmental agencies for receptions and similar functions numbering less than 500 persons and occurring during non-public hours.

C. The museum director is authorized to approve usage of the buildings within the policy established above. Requests for usage that do not clearly come within the policy will be submitted to the board’s Buildings and Grounds Committee, and the committee will make a recommendation to the board for final action.

D. In considering eligible requests, the Museum Board will deny the application if, in the board’s opinion, the proposed usage would endanger the museum’s buildings and collections or interfere with its interpretive exhibitions and other programs.

E. In considering eligible requests, the Museum Board may, if requested, waive the tax-deductible gift donation when the board determines that to do so would be in the best interest of the museum.

F. The museum does not provide catering services. Host organizations must make arrangements with caterer of their choice. The museum reserves the right to reject caterers that do not comply with the museum’s instructions concerning proper care of museum facilities.

G. Rates and Procedures:
   a. All eligible requests must be submitted in writing at least three months prior to the anticipated function.
   b. All rentals must be based on a written agreement signed at least 14 days in advance of the event or function by either the director or the deputy director of the State Museum and the authorized representative of the organization or group renting the space. The agreement must specify all costs, fees, and arrangements.
   c. A base service charge will be established to cover costs of security, custodial and utility services required for the function. The museum may, at its discretion, make additional charges based on the nature of the function. Such additional charges will be specified in the rental agreement.
   d. In addition to the base service charge, applicants from groups eligible under category “A.3” will donate a tax-deductible gift to the museum’s educational, acquisitions and publication fund according to the following schedule:

   Cabildo $4,000 (For up to three hours. An additional $1,000 for each additional hour).
   Presbytere $4,000 (For up to three hours. An additional $1,000 for each additional hour).
   U.S. Mint $4,000 (For up to three hours. An additional $1,000 for each additional hour).
   1850 House $2,000 (For up to three hours. An additional $500 for each additional hour).
   Madame John’s Legacy $2,000 (For up to three hours. An additional $500 for each additional hour).

   e. In addition to the base service charge rates below, a cleaning and repair fee of not less than $100 during normal public hours and $300 during non-public hours will be charged for additional costs involved in preparation and post-function cleaning, set-up and take-down, and repairing exhibition material. The repair fee will not be less than actual costs. If any public gallery area of the Museum is required to be closed to the public during normal public hours prior to, during, or after the function, and additional fee, to be determined by the board of directors, may be charged to compensate for loss of revenue.

R.S. 44:14 was enacted by ACT 866 of the 1986 Regular Session of the Louisiana Legislature to require health and accident insurers to disclose information to the Department of Health and Human Resources on their insureds. Such information will be used to determine if any of the insureds are persons who have received health, medical and/or social services on whose behalf DHHR may be entitled to recoup or receive insurance payments for such services rendered.

In accordance with the provisions of Act 866 any insured whose indemnity policy benefits pay less than twenty-five dollars a day in hospital or medical benefits shall be exempt from the provisions of this rule. This rule will require insurance carriers or any individual so identified to report information on their insureds to the department upon written request.

Proposed Rulemaking

The department shall notify such persons, entities, corporations in writing of the minimal information requirements necessary to identify insureds who have received services from the department and on whose behalf the department may be entitled to receive insurance benefits. The notice provided by the department shall include the time frames for reporting information.

The department shall expect an electronic or data processing tape which meets specifications provided by the department, except in instances where it can be demonstrated that an alternate format and/or media that complies with R.S. 44:14 is more beneficial and/or less costly for the state to process. In such cases a written request for an alternate format and/or media can be made to the department including written justification for said change.

The department shall not require such information to be reported more frequently than monthly and shall hold all insured information received as confidential, subject to storage and access under the department’s confidentiality policies and procedures. Any insured whose indemnity policy benefits pay less than twenty-five dollars a day in hospital or medical benefits is exempt from the provisions of this rule.

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO
STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The estimated implementation costs for this proposed rule will be $76,073 for FY 86-87, of which $38,036 are state funds and $38,036 are federal funds; $226,644 for FY 87-88, of which $113,322 are state funds and $113,322 are federal funds; $226,644 for FY 88-89, of which $113,322 are state funds and $113,322 are federal funds.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF
STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

2. If the information in the complaint is insufficient, the board may request further information by either written correspondence or an informal hearing.

B. All complaints received shall be assigned a sequentially ordered complaint code number which shall be utilized in all official references.

C. At its next meeting, the board shall officially receive and act upon all complaints and inquiries received.

D. Upon receipt of the complaint, the board shall determine if the complaint is an ethical issue.

E. The identity of all parties to a complaint shall be revealed to the involved parties except if contrary to law.

F. The board shall inform the complainants of the initial determination.

1. No action
2. Informal inquiry
3. Informal hearing
4. Formal hearing

§ 1105. Conduct of an Informal Inquiry/Hearing. This is a non-adversarial procedure.

A. Informal Inquiry Procedures

1. The licensee shall be given adequate prior notice of the informal inquiry and possible hearing of the issues to be discussed. Adequate notice includes:
   a. informing the licensee in writing that a complaint has been filed;

3. Evaluating the findings of the informal inquiry. Upon receipt of a reply from the licensee, the board shall review the information and determine if a violation may have occurred, and if so, what standard(s) have been violated.

      b. a formal hearing will be held.

   2. The board, in determining for informal disposition, shall order actions such as:
      a. A settlement between the person making the complaint and the licensee. This settlement shall be written, signed by the licensee and the complainant and submitted to the Board within 30 days of the informal hearing.

   2. If the licensee refuses to reply to the board's inquiry or otherwise cooperate with the board, the board shall continue its investigation. The board shall record the circumstances of the licensee's failure to cooperate and shall inform the licensee that the lack of cooperation may result in action which could eventually lead to the suspension or revocation of license, or other appropriate legal action under the law.

   E. Withdrawal of a Complaint

   If the complainant wishes to withdraw the complaint, the inquiry is terminated, except in cases where the board judges the issues to be of such importance as to warrant completing the investigation in its own right and in the interest of the public welfare.

   F. If, at any point in the informal proceedings described above, the board finds that public health, safety, or welfare imperatively requires emergency action, and incorporates a finding that such effect in its order, the board is hereby given authority to

Office of Alcoholic Beverage Control

The following rule is proposed as an amendment and substitution to Louisiana Office of Alcoholic Beverage Control Regulation No. X. Such rule is proposed for amendment by the Louisiana Office of Alcoholic Beverage Control under the rule making Authority conferred on the Office by R.S. 26:32 and R.S. 26:793.

The proposed amendment to Regulation No. X would grant some needed flexibility in the merchandising, stocking and pricing of alcoholic beverages by industry members in retail establishments. The distinction between alcoholic beverages containing more than six percent alcohol by volume and those alcoholic beverages containing six percent or less by volume is eliminated for purposes of application of the regulation.

Under the proposed amended Regulation No. X, industry members may maintain their product in retail dealer cold boxes and may build, price and maintain displays on the premises of retail dealers. Industry members are prohibited from stocking shelves on the premises of licensed retail dealers. Industry members are granted authority to maintain the quality of their product on retail shelves, provided, however, the products purchased from other industry members are not altered or disturbed. The rearranging or resetting of all or part of a store or liquor department is not authorized.

Interested persons may submit written comments on this subject to Michael W. Russell, Assistant Secretary, Louisiana Office of Alcoholic Beverage Control, Box 66404, Audubon Station, Baton Rouge, LA 70896, through December 15, 1986.

Pursuant to the provisions of R.S. 49:968, the House of Representatives Natural Resources Subcommittee on Oversight met on October 21, 1986 and reviewed certain changes in state regulations proposed by the Louisiana Department of Environmental Quality for which notice of intent was published in the September Louisiana Register with the following results:

1) A proposal to amend Chapters 1, 2, 3, 7, 9, 12, 15, 21, 22, 23, 24 and 25 of the Louisiana Hazardous Waste Regulations to allow for the accumulation of hazardous waste at generation sites, to require additional reporting, to require container storage areas to be inspected at least three times per week, to reduce the quantitative limits for small quantity generators from 1,000 to 100 kilograms per month, and to include clarifications.

COMMITTEE REPORT
House of Representatives
Committee on Transportation, Highways and Public Works
Oversight Review

October 30, 1986

Dear Governor Edwards:

On October 29, 1986, the House Committee on Ways and Means held an oversight hearing pursuant to the provisions of R.S. 49:968 to review the rules and regulations proposed by the Louisiana Tax Commission dealing with the changes in the guidelines for ascertaining the fair market value of personal property; the guidelines governing the use of agricultural, horticultural, marsh and timber land; and amendments to the real property report forms section (copy of proposed changes attached.)

This is to certify that the following rule has been severed and found unacceptable and disapproved in accordance with statutory authority:

Rule proposing to amend page OG-11 through page OG-22 of the guidelines reducing the value of surface equipment for oil and gas production by 25 percent over the 1986 tables, when determining the fair market value for ad valorem taxation purposes.

The vote to sever this change from the entirety of proposed rules was 11 yes to 1 nay. By votes of 12 to 0 the committee members disapproved the above rule and approved all others proposed.

With respect to the disapproved rule, the committee found that implementation would seriously impact the already dismal financial picture of many local tax recipient bodies. Ed Olivier, Assessor of St. Mary Parish, testified before the committee that a $500,000 loss of revenue would occur in his parish alone. While relief for the beleaguered oil and gas industry may be appropriate, the consequences of the proposed approach must be carefully examined.

It was therefore the consensus of the committee members that further consideration and opportunity for public input should be given this issue before any action is taken. Consequently, the rule was disapproved under the authority of R.S. 49:968(D)(3)(c) and (d).

Under the provisions of Section G of the same statute, please be advised that you have 10 calendar days to consider this report and, if it is your desire, to disapprove the action taken by the committee. I would appreciate your informing me of your decision on this matter at your earliest convenience.

Oversight Review

October 30, 1986

Dear Governor Edwards:

This letter certifies that the following proposed rules of the Department of Transportation and Development have been determined unacceptable by the Subcommittee on Executive Oversight and Review of the House Committee on Transportation, Highways and Public Works at a public hearing on October 28, 1986:
The proposed rules were published in the September 20, 1986, issue of the Louisiana Register, pages 627-629.

The members of the subcommittee acting on behalf of the full House Committee on Transportation, Highways, and Public Works (R.S. 49:968(D)) unanimously determined that the proposed rules in question are unacceptable.

With respect to the proposed rule establishing a fee schedule to apply to driveway permits, project permits, geophysical permits and traffic control device permits; and

2. placement and operation of vending machines on interstate highway right-of-way rest areas.

R.S. 48:381 provides that the assistant secretary of the office of highways may assess reasonable fees in connection with the issuance of permits to defray the expense of inspections by the department's employees. The assistant secretary, office of highways, has established the proposed permit fees taking into consideration the entire operating budget of the permit section and prorating the entire expense to the utility companies based on the anticipated number of permit requests. The proposed fee schedule far exceeds the reasonable expense of inspection.

Recommendation for Action: A recommendation from your office suggesting further meetings between the utility companies and the Department of Transportation and Development may be advisable to reach an amicable and equitable agreement.

With respect to the proposed rule providing for the placement and operation of vending machines on interstate highway right-of-way rest areas, the subcommittee determined the following:

The proposed rules; a cooperative agreement between the Division of Blind Services, Office of Human Development, Louisiana Department of Health and Human Resources and the Department of Transportation and Development; and two cooperative venture agreements between the State of Louisiana, Division of Blind Services and (1) Rest Stop Concessions, Inc. and (2) Kajun Concessions, Inc. have not been reviewed and acted upon by the secretary of the United States Department of Transportation. If these documents do not meet with the secretary's approval, Louisiana could stand to lose millions of dollars in federal highways funds. It would be in the best interest of the state to proceed no further in this matter until a response is received from the federal level.

Recommendation for Action: That all parties involved work together to achieve approval of the rules by the secretary of the United States Department of Transportation.

Under the provisions of R.S. 49:968, you have 10 days in which to consider the action of the subcommittee and act on it. Please furnish a statement of your action to the House Committee on Transportation, Highways, and Public Works, Box 44142, Baton Rouge, LA 70804-4142.
