Survey/Comments

We welcome and appreciate your suggestions for improving the state directory. To help us evaluate the usefulness of the directory, please complete the following survey and return this form to us.

Circle the rating for each item on a scale from 0 to 4.

1. Agency/Office Listings

Can't find	0	1	2	3	4	Easy to find
------------	---	---	---	---	---	--------------

2. Inclusion of Names of Key Personnel

Not Useful	0	1	2	3	4	Very Useful
------------	---	---	---	---	---	-------------

3. Usefulness of Numbers Listed

Not Useful	0	1	2	3	4	Very Useful
------------	---	---	---	---	---	-------------

Please place a check in the appropriate box.

4. What other sources do you use to find state telephone numbers?

- | | |
|---|---|
| <input type="checkbox"/> public telephone directories | <input type="checkbox"/> state directory assistance operators |
| <input type="checkbox"/> directory assistance | <input type="checkbox"/> Internet |

5. How often do you use your state directory?

- | | | |
|---------------------------------|----------------------------------|--------------------------------|
| <input type="checkbox"/> daily | <input type="checkbox"/> monthly | <input type="checkbox"/> never |
| <input type="checkbox"/> weekly | <input type="checkbox"/> rarely | |

Introduction

The Louisiana State Government Telephone Directory is divided into four sections:

The Information Section contains information concerning long distance dialing. It also contains a quick reference telephone list for access to key personnel and major sections at the Office of Technology Services Network Services (OTS Network Services).

The Listings Section contains telephone numbers for state agencies. These listings are arranged alphabetically by city and agency. Local dialing instructions can be found before the listings of each of the seven major metropolitan areas.

The Reference Section contains Executive Branch elected and appointed officials, telephone numbers for Louisiana's congressional delegation, state legislators, and a list of Louisiana colleges and universities.

The Telecommunications Coordinators Section explains the responsibilities of a state agency Telecommunications Coordinator.

The Louisiana State Government Telephone Directory is published by OTS Network Services (formerly the Office of Telecommunications Management) in an effort to provide an accurate, effective source of information to state agencies. The ability to provide correct information to state agencies, as well as to the general public, is directly related to the quality of telephone directory information furnished by state agencies. If corrections to any listing are necessary, please follow the procedures outlined in the Telecommunications Coordinators Section under "Directory Listings Changes."

The Louisiana State Government Telephone Directory is published on the web at www.doa.la.gov/OTS/OTM/listings/sgtd.pdf.

Any suggestions or ideas for enhancements to the directory may be forwarded to the OTS Network Services Information and Training Section using the survey included in the front of the directory.

For additional information about OTS Network Services, visit our web site at www.doa.la.gov/Pages/ots/Telecommunications/index.aspx.

State Government Directory Assistance

Please consult your State Government Telephone Directory before placing any calls to public assistance operators for state government listings as directory assistance calls may be billable.

If you are experiencing a problem reaching a number in this directory or if you require help in obtaining a state number not listed in this directory, contact the state government operators at one of the numbers listed below.

BATON ROUGE.....225 342-6600
STATEWIDE800 256-7777

Long Distance Calls

Under most dial plans, authorized long distance users place long distance calls by dialing “1” then the area code and seven digit telephone number. Each agency is billed monthly for its actual usage.

Under the HVS dial plan, authorized long distance users place long distance calls by dialing the area code and seven digit telephone number (omit the “1”).

International Calls

To make business related international calls, the telephone must be unrestricted for international calling. Then—

- From an unrestricted AT&T Centrex station—
 - Dial 9 for an outside line then dial 0 + 11, the country code, city code, and the local number.
- From a unrestricted PBX station—
 - Obtain an outside line then dial 0 + 11, the country code, city code, and the local number.
- From an unrestricted business line, trunk, or HVS—
 - Dial 0 + 11, the country code, city code, and the local number.

State Government Dialing Instructions

State AT&T Centrex Service Users—

Major Metropolitan Abbreviated Dialing

- To reach another local State Government number with the same prefix, dial a designated code + last four digits.
- To reach a local non-state number dial 9 + seven digit telephone number.
- Dialing instructions are included before each of the major metropolitan areas listed in this directory. If further assistance is needed, contact the OTS Network Services System Projects Manager at 225 342-1419 to obtain the appropriate codes.

To make business related long distance calls anywhere in the Continental U.S. from an authorized station, dial “1” + area code + seven digit telephone number.

To place a toll free (800/888/877/866/855) call:

- Dial 9 + toll free number

State PBX Users—

- Contact your System Administrator for feature and dialing instructions.

Other State Users—

- Contact your agency’s Telecommunications Coordinator for feature and dialing instructions.

Louisiana Relay Service

Louisiana Relay Service (711, or 800 846-5277 for TTY/TDD users or 800 947-5277 for voice users) is a 24-hour service that provides telephone communication between people who are deaf, hard of hearing, deaf-blind or speech disabled, through the use of specialized equipment to communicate freely with people who use a standard telephone.

During a relay call, an operator or communications assistant will voice everything typed by the TTY/TDD user and type everything said by the telephone user. In this way, the relay allows people who are deaf, hard of hearing or speech disabled to have a telephone conversation with anyone, anytime, even if the other person does not have special equipment. For more information on this or other Louisiana Relay Services and internet relay calling, visit their website at http://www.hamiltonrelay.com/state_711_relay/state.html.

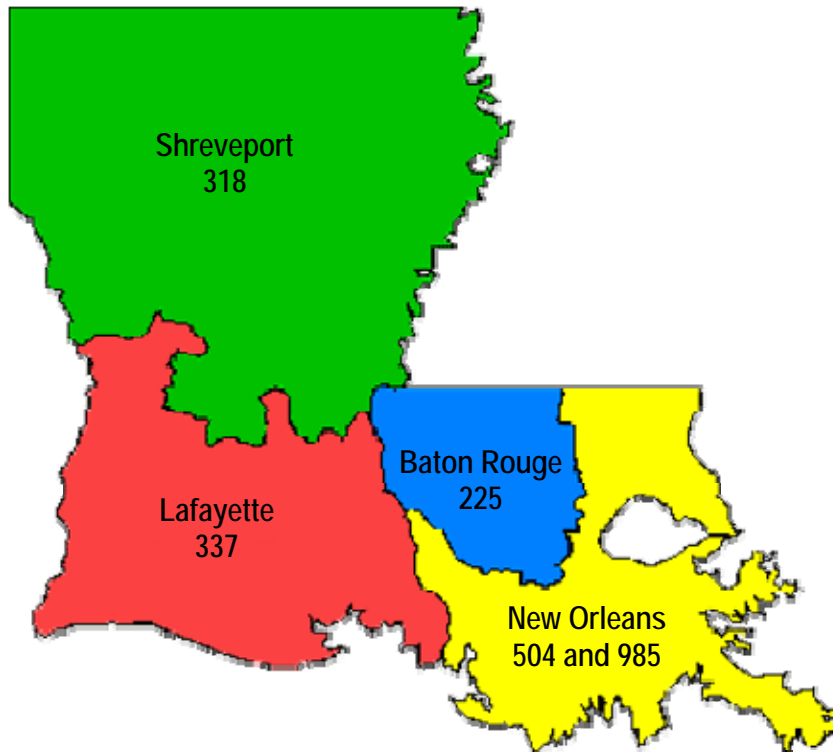

Using Voice Messaging Service

Voice Messaging Service (VMS) is a technology that can help you perform your job more effectively. It can minimize the problems associated with telephone tag, unanswered telephones, and the taking and distribution of internal messages. VMS answers calls, makes messages immediately available to the person called, and captures and delivers the complete message including the tone and mood of the caller.

For Your Personal Greetings—

- Be natural—Let your greeting reflect your personality. Be pleasant and friendly; the smile you record with your voice will be heard by your caller. Listen to your greeting and hear what the caller will hear; is it OK?
- Be distinct—Speak clearly and loudly enough for the caller to hear and understand your greeting. Don't ramble or detract from your greeting with “ums” and pauses. Unwanted background noise will be recorded with your greeting; so, make sure things are quiet while recording.
- Include main points—Tell the caller your name, department or agency affiliation, if you are in the office or not, and a time frame for your reply.
- Update your greeting—Change your greeting to reflect your daily schedule and keep callers up to date. Include instructions on how to use the system, especially those for how to reach a person.
- Check your messages frequently—Check for messages frequently. Be sure to act upon your messages and return calls. This leads to callers' positive acceptance of the technology and enables you to be more effective and provide better customer service.

Louisiana LATA Map

Repair and Trouble Reporting

In an effort to provide practicable operating telephone systems, OTS Network Services relies on state agencies to report telephone system problems. The following steps should be followed when experiencing a problem:

- Try to place the call or activate the feature a second time.
- Then, try to determine if the problem is in the telephone or in the telephone line or jack. With a plug-in telephone, unplug the telephone and cord and try a known working telephone and cord in the same jack. If the second telephone works properly, the problem may be with the telephone instrument. If the second telephone does not work properly, the problem may be with the telephone line or jack.
- After attempting to determine whether the problem is with the instrument or the line or jack, report this information to your agency Telecommunications Coordinator. Your Telecommunications Coordinator will report your problem to OTS Network Services Technical Support for resolution.

ABBREVIATED DIALING FOR BATON ROUGE

The instructions below pertain to Centrex numbers only. The state is in the process of converting several state agencies from Centrex to Hosted Voice Services (HVS). Contact your local HVS administrator for assistance.

If you are dialing from a Baton Rouge state government number, you may be able to use abbreviated dialing to reach another local state government telephone number. Using the chart below, dial the one digit code + the last 4 digits of the desired telephone number. If no code is listed, dial 9 + the 7-digit telephone number. For all other local numbers, dial 9 + the 7-digit telephone number. These instructions pertain to Centrex numbers only.

ABBREVIATED DIALING FOR NEW ORLEANS

The instructions below pertain to Centrex numbers only. The state is in the process of converting several state agencies from Centrex to Hosted Voice Services (HVS). Contact your local HVS administrator for assistance.

If you are dialing from a New Orleans state government number, you may be able to use abbreviated dialing to reach another local telephone number. Using the chart below, dial the one digit code + the last 4 digits of the desired telephone number. If no code is listed, dial 9 + the 7 digit telephone number. For all other local numbers, dial 9 + the 7 digit telephone number.

[illegible]

Telecommunications Coordinators

All state agencies shall appoint one or more representatives to be designated as the agency Telecommunications Coordinator(s). The Telecommunications Coordinator is recognized by the Office of Technology Services Network Services (OTS NS, formerly OTM) as the agency's authorized representative for approving telecommunications matters, including service orders and expenditures, resulting from authorized agency telecommunications activity.

A list of current Telecommunications Coordinators for state agencies can be found on the OTS website at www.doa.la.gov/Pages/ots/Telecommunications/handbook/tc.aspx.

Service Requests for Existing Systems

All requests for changes to existing telecommunications services and equipment must be submitted by your Telecommunications Coordinator to the OTS Network Services as soon as a need is known or anticipated. Requests must be submitted on the appropriate form, which may be obtained from the OTS website at www.doa.la.gov/Pages/ots/Telecommunications/Tele_Forms/Contents.aspx or by calling Customer Service at 225 342-7720. The NS/S-1 Communications Service Request is a general form which may be used when no specific form is available for the requested service.

If additional information about telecommunications services and equipment is needed, please contact your agency's Telecommunications Coordinator.

Acquisition of Telecommunications Systems

The Office of Technology Services Network Services (formerly the Office of Telecommunications Management or OTM) is responsible for assisting in identifying telecommunications needs and formulating procedures for acquiring telecommunications systems for state agencies. Agencies planning new facilities, relocations or renovations should notify OTS Network Services Project Requests by submitting the NS-16 Project Request Form to networkorders@la.gov or calling 225 342-7720.

Agencies experiencing severe or recurring problems with existing systems may submit a written request for a complete system evaluation to the Assistant Administrator of Communications Services and Support (jolene.ardoin@la.gov) or the Customer Support Manager (debbie.griffith@la.gov). If it is determined that an existing system is inadequate or that a new system is required, OTS Network Services will assist the agency in procuring an appropriate system in accordance with state procurement procedures.

Rate Requests

The telecommunications rates for equipment and services are published in the Office of Technology Services Network Services (OTS NS) Catalog of Services which can be found online at www.doa.la.gov/Pages/ots/Telecommunications/index.aspx. Inquiries concerning these rates should be directed to your Telecommunications Coordinator.

Telecommunications Charges

The Office of Technology Services Network Services (OTS NS) is responsible for coordinating the payment of all telecommunications costs incurred by agencies and provides for equitable billing to agencies for telecommunications services utilized.

All telecommunications systems and services are assigned a cost center for billing purposes. Telecommunications Coordinators are responsible for obtaining the proper account codes from departmental fiscal offices to insure charges are being applied correctly. OTS NS must be notified in writing by the Telecommunications Coordinator when an agency's cost center or billing address is to be changed.

State agencies should review and audit monthly invoices for billing and inventory discrepancies. Discrepancies found should be documented and forwarded through the Telecommunications Coordinator. OTS NS will review the documentation presented and make applicable adjustments.

Disputes concerning charges must be directed to the Division of Administration Office of Finance and Support Services (OFSS) OTS Network Services Support Section at 225 342-0700. Payment of bill must not be delayed. State agencies must return the mailer page of the invoice to OTS with payment. Adjustments will not be issued to accounts without proper information and documentation submitted with remittance. Any questions concerning account balances or payment should be directed to the OFSS General Accounting Unit at 225 342-0700.

Directory Listing Changes

To maintain accurate and current state government listings in both the public telephone directories and the State Government Telephone Directory, the Office of Technology Services Network Services must be notified in writing by the agency's Telecommunications Coordinator of all changes as they occur. The State Government Telephone Directory can be accessed online at www.doa.la.gov/OTS/OTM/listings/sgetd.pdf.

All requests for directory listings should be submitted by your agency's Telecommunications Coordinator to the OTS NS Information and Training Section at _doa-ots-ns-informationandtraining@la.gov. Detailed instructions pertaining to telephone listings additions, deletions, or changes should be included. Questions should be directed to the Network Services Information and Training Section at 225 342-1000.

Training

Telecommunications training is available for all state agencies through the Office of Technology Services Network Services. Instructions on dialing procedures, operation of various telephone systems and equipment, making the most of your telephone, and proper utilization of long distance service are some of the subjects for which training is available. . Questions should be directed to the OTS NS Information and Training Section at 225 342-1000.
