Re: Proprietary Purchase

is requesting approval for a proprietary bid on eleven (11) loimage fixed box color IP cameras with built in analytics. These cameras are needed to replace cameras that were destroyed by a lightning strike. The price on these cameras is estimated at a total price of \$9284.00.

Per Loimage SC-1DN-A is required per the following reasons. The Main Prison perimeter fence camera system was built in 2010 using loimage cameras. Since that time, has purchased these cameras from the LaTech state contract. LaTech no longer has these cameras on state contract, but can still obtain them. Our camera system uses the loimage cameras to track up to five (5) objects (coming over the fences) at one time and our servers for this system use a program called Transact server, which are all based on the loimage cameras. If we use any other cameras other than the loimage camera, we would have to replace all of the existing 101 cameras already being utilized and upgrade the software. The new cameras we are requesting must be compatible due to programming in the servers.

Your consideration is greatly appreciated.

SOLE SOURCE

What is a Sole Source Purchase?

It's a purchase available from only one source, usually the manufacturer, and is not sold through distributors. The State does not recognize distributor territories.

Or

Where compatibility is the paramount consideration, where a sole supplier's item is needed for trial use or testing, resale, utility services, breeding stock and other livestock on a selective basis.

La. R.S. 39:1597

A contract may be awarded for a required supply, service, or major repair without competition when, under regulations, the chief procurement officer or his designee above the level of procurement officer determines in writing that there is only one source for the required supply, service, or major repair item.

Requirements

- Agency submits letter stating why no other product is suitable or acceptable for their needs, the unique characteristics, and a statement that it is sold by only one known supplier
- Agency obtains and submits a letterhead statement from sole source vendor (not from a sales representative) declaring that product is sold only by his company and not sold through a distributor network
- The vendor must provide the agency with a firm price quote, and a signed notarized or published price list

Proceed with Caution

- Agency must show that other similar goods or services cannot perform the desired objectives
- Agency must investigate other manufacturers and show why they don't meet their needs
- Vendor sole source declaration must be signed, dated and clearly state they do not sell the product through distributors
- A firm fixed price quote must have a date the prices are good through
- A notarized quote is not a notarized price list and published price lists do not need to be notarized

Sole Source/ Proprietary Form

SOLE SOURCE/PROPRIETARY PURCHASE

Shopping Cart/Order No.: _____ Agency: _____

Indicate if sole source or proprietary: Sole Source Proprietary

Sole Source/Proprietary Product or Service: _____

Vendor name, address and telephone Number: _____

Sole source and proprietary purchases are allowed by the Louisiana Procurement Code (La. R.S. 39:1551 ~~et seq~~) when certain conditions exist. This form may be used to justify sole source or proprietary purchases for unique products, services or conditions or you may write a letter that addresses each point. This will become a part of the permanent record for this purchase.

A sole source justification represents a request from the end user for the Office of State Procurement to waive the bid process in accordance with La. R.S. 39:1597 and L.A.C. 34:1.901-907. For the purpose of this form, the particular item or service is available from only one supplier (usually the manufacturer) and is unique in that no other will be suitable or acceptable to meet the need.

A proprietary specification justification represents a request from the end user to limit the specification to describe a product proprietary to one supplier in accordance with La. R.S. 39:1655 and meets the definition and use described in L.A.C. 34:1.309. A proprietary purchase is similar to a sole source when no other product or service is suitable or acceptable to meet the need, but there is more than one potential bidder because the manufacturer has chosen to sell their product through multiple distributors. A proprietary purchase is considered competitive and the solicitation shall include language indicating the purchase has been approved as proprietary and not invite bids for equal products.

1. Explain specification requirements and how or why **ONLY** the designated product/service meets the need. Cite the qualities/features that make this product or service unique in meeting the need.

2. Specifically name, by manufacturer and model or service provider, other products or services investigated (if fewer than two, explain).

3. State specifically why and how other products investigated are deficient in meeting the need.

4. Sole Source - Obtain signed letterhead quotation and declaration of sole source from corporate marketing (not sales representative) stating product or service is not sold through distributors, attach a notarized or published price list or retail price verification for the item(s), and submit all documents to the Office of State Procurement.

OR

Proprietary - Submit this justification form with your Shopping Cart to the Office of State Procurement.

- ___ Justification/explanation of why specific product/service/repair is the only one that will meet their need. What qualities or features make it unique to meet their need? Is the uniqueness substantially related to the intended purpose, use and/or performance?
- ___ Agency must show that other similar goods or services cannot perform the desired objectives. What other manufacturers did they investigate and why they don't meet their need.
- ___ Statement that the sole provider is the only known source.

- ___ Determine if all of the above information from agency and vendor has been provided.
- ___ Determine that price is fair. You may negotiate in a sole source procurement. We should not pay full list price on a sole source procurement. At least ask for a discount.
- ___ Do your own independent research before making your recommendation. Does the internet support the single supplier statement and uniqueness of the product. Review any journals or product information housed at your desk. If not found to differ, approval should be based on agency representation.

Used Equipment

REVISED STATUTES 39:1645

The purchase of Used Equipment falls under “Conditions for the Use of Sole Source Procurement” as defined in the Rules and Regulations: Title 34, Chapter 9; Section 905 (B)

As a general rule, an agency should procure new equipment, but it may be necessary or advantageous to purchase used equipment.

Used Equipment

The most common reasons are:

- **The inability to secure new equipment**
- **The lack of adequate funds for new equipment**
- **Used equipment that will satisfy the agency's need is available at a substantial savings.**

What is required for Used Equipment?

Agency will submit a letter stating the following information for a Used Equipment Purchase:

- Price of Used Equipment versus New Equipment
- Plan for maintenance and repair of equipment including cost
- Savings that will accrue to the State by purchasing used equipment
- Statement of fact that procedures set out in Louisiana Procurement Code will result in the loss of opportunity to purchase the equipment.

Example of a Good Used Equipment letter:

██████████ Director
Office of State Procurement
P.O. Box 94094
Baton Rouge, LA 70804-9095

Dear ██████████

In accordance with the provisions of La. R.S. 39:1600, Other procurement methods, this is to request approval to purchase 2006 Genie model S-60 self-propelled 60-64' telescopic boom lift from United Rentals in Baton Rouge, LA. This equipment has only 1382 hours of use and is in good working condition. The vendor is not charging delivery on this purchase. This boom lift will be used at ██████████ ██████████ (██████) by multiple departments including the Maintenance Department and the Communications Department. ████████ is in constant need of a lift for various maintenance building projects and repairs to cameras and fences. The facility has had to rent equipment on numerous occasions to maintain the security and safety of personnel, offenders, facility and the public. Purchasing this used lift will eliminate the on-going rental costs and the required bidding time. The cost of the **used boom lift is \$25,000.** A **new lift** would be approximately **\$86,900.00.** Purchase of this equipment used will result in a **savings of approximately \$61,400.00.** There will be **no additional cost for maintenance.** ████████ **Maintenance Department will take care of any routine maintenance and or repairs.**

Your approval of this used equipment purchase as soon as possible is requested as following procedures set forth in the Procurement Code would result in the **loss of the opportunity to obtain the equipment at this price.**

Your favorable response is appreciated.

Example of a Used Equipment letter missing required information:

Ms. Director
Office of State Procurement
P.O. Box 94095
Baton Rouge, Louisiana 70804

What's Missing from this Letter?

Dear Ms. Director:

In accordance with the provisions of La. R.S. 39:1600, other Procurement Methods, this is to request approval to purchase one (1) used Case IH Maxxum 125 Tractor.
