Narratives**Disaster Damage:**

In 2016, Louisiana had two separate events that qualified for appropriation under Public Laws 114-223 and 114-254. The state experienced severe storms and flooding in both March (Disaster Number 4263) and August (Disaster Number 4277) 2016 – collectively referred to as the 2016 Severe Storms and Flooding – resulting in 56 of the state’s 64 parishes receiving a federal disaster declaration. From the March event, more than 16,462 homes have Federal Emergency Management Agency (FEMA) Verified Loss and 5,222 renters have FEMA Verified Loss (FVL), for a total of 21,684 households. The National Weather Service designated the August flooding event that dropped an unprecedented 7 trillion gallons of rainwater in South Louisiana as a “1,000-year” rainfall event. It resulted in the flooding of more than 68,380 homes with FVL and 23,248 renters with FVL, for a total of 91,628 households. The August storm claimed 13 lives. March Storm (DR-4263) In early March 2016, a storm system brought heavy thunderstorms from west to east across most of Louisiana. In addition to wind damage, record flooding occurred along the Bogue Falaya River in Covington and Bayou Dorcheat at Lake Bistineau. Governor John Bel Edwards declared a state of emergency for several parishes and sent the National Guard to help with search-and-rescue missions. The State of Louisiana estimates that this storm caused damage to more than 21,684 residences, forced 13,000 evacuations and 2,780 rescues, damaged another 6,143 structures, and caused numerous road closures. Road and bridge damage estimates totaled \$20 million. Agricultural losses totaled approximately \$15 million, with long-term impacts to farmers estimated at \$80 million. In addition, more than 40,000 citizens registered for FEMA Individual Assistance (IA). Thirty-six Louisiana parishes were declared eligible for FEMA IA: Allen, Ascension, Avoyelles, Beauregard, Bienville, Bossier, Caddo, Calcasieu, Caldwell, Catahoula, Claiborne, DeSoto, East Carroll, Franklin, Grant, Jackson, LaSalle, Lincoln, Livingston, Madison, Morehouse, Natchitoches, Ouachita, Rapides, Red River, Richland, Sabine, St. Helena, St. Tammany, Tangipahoa, Union, Vernon, Washington, Webster, West Carroll and Winn. Seven of these parishes also flooded in August: Ascension, Avoyelles, Livingston, St. Helena, St. Tammany, Tangipahoa and Washington. August Storm (DR-4277) In mid-August 2016, a slow-moving storm impacted multiple South Louisiana parishes with sustained heavy rain. In what was a 1,000-year flood, within two days more than two feet of rain was measured in some areas, causing extensive surface and river flooding. Both the Amite and Comite rivers overtopped, as well as numerous bayous, lakes and canals located within these drainage basins. Governor John Bel Edwards declared a state of emergency for several parishes and sent the National Guard to help with search-and-rescue missions. An estimated 8,000 people were evacuated to emergency shelter sites. The American Red Cross, the state and faith-based organizations operated these sites. A state-operated medical site was established to serve individuals with medical needs. Roughly 30,000 search and rescues were performed, with 11,000 citizens sheltered at the peak of the flood. The damage to infrastructure, businesses and homes across the southern region of the state was extensive. Large sections of state roads remained underwater for extended periods. An estimated 30 state roads washed out and 1,400 bridges require inspection. Along with more than 200 highways that closed during the event, sections of Interstates 10 and 12 closed for multiple days due to floodwaters. Some stretches of I-10 remained closed for nearly a week, significantly interrupting interstate commerce. More than 91,628 homes have documented damages to date. An estimated 31 percent of homes in the declared parishes were impacted by flooding, w

Recovery Needs:

Combined, these disasters affected 56 of the state’s 64 parishes, with 51 parishes declared eligible for FEMA IA. The assessment below estimates unmet needs in three main categories of damage: housing, economy and infrastructure. HUD has identified the 10 most impacted parishes from these two events as Acadia, Ascension, East Baton Rouge, Lafayette, Livingston, Ouachita, St. Tammany, Tangipahoa, Vermilion and Washington.

Housing Needs:

Across both disasters, 113,312 households were found to have some level of documented damage, including 84,842 owner-occupied and 28,470 renter households.

Homeowners: Of particular concern is the high proportion of owner-occupied households with damage who did not report carrying insurance through the National Flood Insurance Program (NFIP). In total, 72 percent of all impacted owner-occupied households, or 61,069, did not report having insurance. This represents a unique situation for the state, as in previous significant disaster events – hurricanes Katrina, Rita, Gustav, Ike and Isaac - there was a reasonable anticipation some damages may have been attributable to wind or other events that may have been covered by a homeowner's hazard insurance policy. As these events were flood-exclusive, the state has no such reasonable anticipation any of the losses incurred by this population were met by other insurance policies. It is important to note 68,319 of the total 84,842 owner-occupied households with damage are located within the ten-parish most impacted area, representing more than 81 percent of the total. Additionally, 51,742 households within that population are likely to have unmet needs, with damage levels at "major-low," "major-high" or "severe." This population represents more than 90 percent of the 57,631 affected owner-occupied households likely to have unmet needs.

Rental Housing: Like the owner-occupied household population, an unusually high proportion of affected renter households were located outside of a Special Flood Hazard Area (SFHA). Specifically, 12,921 impacted renter households were located outside of the SFHA, representing more than 45 percent of the total affected renter household population. As such, while this may not inherently indicate exacerbated need for the renter population itself, it may indicate an enhanced need for landlords who may not have carried flood insurance. Furthermore, there was a lack of affordable housing stock prior to the 2016 flooding events. It is important to note 25,701 of the total 28,470 renter households with damage are located within the 10-parish most impacted area, representing more than 90 percent of the total.

Homeless Population: The state is committed to providing temporary housing solutions and, wherever possible, permanent housing to households that are homeless or at-risk of homelessness. The Point-in-time count is an annual count of sheltered and unsheltered homeless persons on a single night conducted by Continuums of Care (CoC) across the United States. To understand the homeless population prior to flooding within IA parishes and the 10 most impacted parishes, this analysis counts CoCs that contain at least one IA or most impacted parish. Eight CoC's contain IA parishes, with 1,296 in transitional housing, and 1,138 unsheltered). Four CoCs contain the 10 most impacted parishes, with a total of 1,398 people counted as homeless (422 counted in emergency shelter, 719 in transitional housing, and 257 unsheltered). 96 percent of people counted as experiencing homelessness on Jan. 25, 2016 were within IA parishes, and 35 percent of the state's total people experiencing homelessness were within most impacted parishes.

Note on Affirmatively Furthering Fair Housing: The State will comply with Section 104(b) (2) of Title VIII of the Civil Rights Act of 1968 (Public Law 90284), as amended, administering all programs and activities relating to housing and community development in a manner to affirmatively further fair housing. Title VIII further prohibits discrimination against any person in the sale or rental of housing, or the provision of brokerage services, including in any way making unavailable or denying a dwelling to any person, because of race, color, religion, sex, national origin, handicap or familial status.

Economy:

Immediately following the August event, the Louisiana Department of Economic Development (LED) partnered with Louisiana State University (LSU) to conduct an assessment of economic damages resulting from the DR-4277 flooding event. Key details are:

- At the peak of the August event, 19,900 Louisiana businesses or roughly 20 percent of all Louisiana businesses were disrupted by the flooding event. FEMA has since referred approximately 22,000 businesses to SBA for recovery assistance.
- A disruption of 278,500 workers or 14 percent of the Louisiana workforce occurred at the peak of the flooding event.
- An economic loss estimated at roughly \$300 million in labor productivity and \$836 million in terms of value added during the period immediately surrounding the flood.
- Approximately 6,000 businesses experienced flooding.
- The LSU Ag Center estimates Louisiana agricultural losses of over \$110 million.

Infrastructure:

The FEMA Public Assistance (PA) Program is designed to provide immediate assistance to the impacted jurisdictions for emergency work and permanent work on infrastructure and community facilities. For DR-4263, the state's obligation has been established as not less than 25 percent of eligible project costs. For DR-4277, the state's obligation has been established as not less than 10 percent of eligible project costs. As of Nov. 21, 2016, \$36,501,492 has been identified in PA need for DR-4263 and \$247,039,464 has been identified for DR-4277. GOHSEP estimates these totals to rise to \$93,751,791 for DR-4263 and \$750,000,000 for DR-4277. Based on these data, the current unmet need is \$12,167,167 for DR-4263 and \$27,448,829 for DR-4277. Long term, based on GOHSEP's projections, the state estimates this unmet need to grow to \$31,250,597 for DR-4263 and \$83,333,333 for DR-4277, respectively, for a grand total of \$114,583,930.

Public Service Unmet Needs:

Leadership and key staff of all impacted communities have identified needs in all service areas handled by a government entity, such as the flooding of fire, police stations and other government buildings, which provide key public services to citizens as well as large-scale infrastructure projects that will need to be implemented in order to recover. Funding is a severe handicap, especially compounded by the fact that sales tax and other revenue streams to local government have declined, or are expected to decline, once the initial buying of cars, building materials, etc., subsides. Therefore, the approved budgets for the upcoming fiscal year are having to be revisited and modified, which includes the deferral of planned projects and a potential decrease in staffing for fire and police and other services to meet the immediate recovery needs of the parishes. For example, in Livingston Parish alone, the parish lost a minimum of 10 fire trucks, 33 police vehicles, 61 school buses and 20 other parish-related vehicles which will need to be replaced, impacting the funding for other

projects. Due to the limited funding available to address the full breadth of recovery needs, the state is not prioritizing funding to address the public service needs described above. However, in anticipation of additional funding being made available, OCD-DRU will be implementing a program by which it will provide funding to cover the non-federal share of FEMA Public Assistance projects. Funds will be provided as payment to state or local entities for eligible activities within approved Project Worksheets. The match funding will lessen the financial burden placed on the entities and assist them to continue normal operations and address recovery needs.

Overall Progress Narrative:

Overall Progress Narrative CY 2018 Q2:

In Quarter 2, OCD made progress on implementing the following programs: Restore Louisiana Homeowner Program; the Multifamily Restoration Loan Program; the Neighborhood Landlord Recovery Program; the Piggyback Rental Program; the Rapid Rehousing Rental Assistance Program; the Small Business Loan and Technical Assistance Programs; the Farm Recovery Grant Program; the FEMA Match Program; and Watershed Modeling and Planning.

During this quarter, HUD approved APA 7, which moved funds from the Neighborhood Landlord Program into the Piggyback Program. The state also submitted a substantial Action Plan Amendment, moving funds from administrative expenses and creating the First Responders Public Services Program. The Notice of Funding Availability and program guidelines for the First Responders program are being finalized.

Restore Louisiana Homeowner Program

The program continues to receive responses from homeowners to the program's survey. A deadline to submit surveys was established for July 20, 2018. As of June 30, 2018, there are 51,775 survey submissions. 42,056 homeowners were determined to be in Phases I – VI. Survey responses are used to phase homeowners into different phases of the program. 41,353 (greater than 98%) of these homeowners have had environmental reviews completed and have been invited to apply. 36,778 homeowners (89%) have submitted applications. 12,563 grant awards have been offered to homeowners, amounting to \$335,796,498.11. Of those, 9,233 homeowners have acknowledged their grant agreements, obligating \$244,953,478.94.

Multifamily Restoration Loan Program

The program's deadline for application was September 29, 2017. Developers and Public Housing Authorities with flood-damaged properties from across the disaster impacted areas submitted applications and the Louisiana Housing Corporation(LHC)has reviewed 13 applications for funding of affordable housing structures with 20 or greater units.LHC has closed the loans on two applications thus far.

Neighborhood Landlord Recovery Program

The program's deadline for application was September 29, 2017. Small landlords and non-profit organizations with properties containing 7 or fewer units have applied to the program. Staff at the Louisiana Housing Corporation are conducting 53 environmental reviews, reviewing applications for eligibility and calculating final award amounts.The program currently has 6 units under construction and has one completed and occupied.

Restore Piggyback Program

The program was launched with a notice of funding availability (NOFA) on December 15, 2017. Developers and Non-Profits can apply for 4% Low Income Housing Tax Credits in conjunction for CDBG piggyback dollars. This is a competitive program with an application deadline of March 16,2018. Two pools were established to promote mixed income projects in the affected parishes. Additional scoring criteria was established such as PSH reserved units and building in areas with high fair market rents.The LHC was able to conditionally award 9 applications funding.

Small Business Loan and Technical Assistance Programs

All new applications have been received and input into the loan system for processing. OCD issued an internal deadline of May 11th for our program lenders to determine the eligibility of all of the applications in the initial received stage. OCD's goal was to clear out any ineligible applications from the pipeline. This task was eventually completed, and our program pipeline became a definitive list of workable applications. To move the pipeline further along, OCD issued another internal deadline of August 31st for all lenders to complete underwriting of all applications. After that date, the pipeline should only consist of awards that are approved and await funding. Our lenders continue to work to meet that August deadline.

Louisiana Farm Recovery Grant Program

The Louisiana Farm Recovery Grant Program is in the process of award closings with applicants. Due to the high volume of response from Louisiana Farmers affected by the 2016 floods, the total request for funds exceeded the program allocation, therefore the state used a pro-rata allocation process to make individual awards based on the applicants crop loss and unmet need(s). Based on the pro-rata allocation, the maximum grant award is \$12,185.40. The average grant award is \$9,905.65. During this quarter, LAFA has had 950 award closings totaling \$9,450,022.95 in award disbursements to Louisiana farmers.

LAFA anticipates having all funds distributed by July 31, 2018.

First Responders Program

The First Responders Program is a \$8 million allocation to fund participating First Responders within the ten (10) most impacted and distressed parishes from the 2016 floods with grant funding to provide pre-storm projected levels of service. During this quarter, the application amendment (APA) is under review with HUD. The Notice of Funds Availability, application and program guidelines are being finalized.

FEMA Match Program

The Office of Community Development (OCD-DRU) continues to work with the Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP) on coordinating providing a match for eligible FEMA PA projects. OCD-DRU is currently in final stages of contract negotiation with GOHSEP to reduce duplication of effort for both the agency and the grantee. Dual outreach with GOHSEP has produced multiple regional meetings and grantee technical assistance consultations. Reimbursement occurs when GOHSEP closes and certifies projects. There were 0 projects ready for reimbursement this quarter.

Activity Description:

The state will enter into grant agreements with homeowners that result in the repair or reconstruction of flood-damaged residential owner-occupied structures. Given the time elapsed from the March and August flooding events, homeowners are in varied states of progress in their rebuilding process depending on the extent of damage and resources available. In response, the state will implement the Restore Louisiana Rehabilitation, Reconstruction and Reimbursement Program to cover eligible costs for the repair or replacement of damage to real property; replacement of disaster-impacted residential appliances; and limited environmental health hazard mitigation costs related to the repair of disaster-impacted property.

Homeowners will have four potential program solutions from which to choose based on their progress in the rebuilding process and their capacity to complete the rebuilding process. The state's programs will give homeowners the option to select their own contractor who will follow the state's requirements for rebuilding or work with a state-managed contractor. Additionally, homeowners that have completed partial or full repairs on their home prior to applying to the program, may be eligible to receive reimbursement for expenses incurred within

HUD approved timelines. If homeowners have partially completed repairs or reconstruction of their homes at the time of application to the program, they may be eligible for assistance for prospective work as well as reimbursement assistance for eligible work completed within the HUD established reimbursement guidelines. Consistent with HUD reimbursement guidelines, certain limited reimbursement may become available for repairs performed after the homeowner has applied to the program.

Elevations will be included for homeowners that meet requirements determined by the program, including substantially damaged properties in the floodplain. Elevation will be evaluated on a case-by- case basis. Elevations will not be conducted on properties outside of the floodplain, with the possible exception where elevation is required by local ordinance.

Homeowners will be eligible for the program if they meet the following criteria:

- Owner occupant at time of disaster event
- Damaged address was the applicant’s primary residence at the time of disaster event
- Located in one of 51 disaster declared parishes
- Suffered major or severe damages(1+ feet of flooding or \$8,000 FEMA Verified Loss)as a result of the 2016 Severe Storms and Flooding events
 - Eligible structure as determined by program, including but not exclusive to, one or two family home structures, mobile/manufactured, and modular homes

Location Description:

Throughout the parishes declared under FEMA DR-4263 and DR-4277

Activity Progress Narrative:

As of June 29, 2018, there are 27,863 homeowners, 53.82% of the homeowners who submitted surveys, that reported their income as low to moderate, 45.62% of the LMI survey respondents were in the ten most impacted parished. Of the survey respondents, 18,054 homeowners or 56.29% of the homeowners who submitted applications, reported their income as low to moderate. The funds disbursed to this population were used to either complete repairs their homes or reimburse the applicant for repairs already completed.

- Suffered major or severe damages(1+ feet of flooding or \$8,000 FEMA Verified Loss)as a result of the 2016 Severe Storms and Flooding events
 - Eligible structure as determined by program, including but not exclusive to, one or two family home structures, mobile/manufactured, and modular homes

Location Description:

Throughout the 51 parishes declared under FEMA DR-4263 and DR-4277

Activity Progress Narrative:

As of June 29, 2018, there are 23,912 homeowners, 46.18% of the homeowners who submitted surveys, that reported Urgent Need, 43.22% of the Urgent Need survey respondents were in the ten most impacted parished. Of the survey respondents, 14,018 homeowners or 43.71% of the homeowners who submitted applications, reported their income as Urgent Need. The funds disbursed to this population were used to either complete repairs their homes or reimburse the applicant for repairs already completed.

Activity Description:

To address the immediate and long-term housing needs of low-to-moderate income families in the flood impacted areas. Due to the shortage of affordable housing stock, and to meet the unmet needs of renters in the community, it is imperative to provide solutions to address immediate housing needs and provide alternative housing solutions for rental properties in need of long-term recovery. The ability to deliver a variety of rental housing solutions is important. Each program will address rental availability, affordability and quality standards.

Location Description:

Throughout the parishes declared under FEMA DR-4263 and DR-4277

Activity Progress Narrative:

Funds this quarter were associated with the underwriting of applications received thus far. The program was able to award 9 applications. Projects will be going to undergo environmental review.

Activity Description:

Funding will be provided in the form of a loan to the property owners of flood-impacted properties with 20 or more units to cover eligible unmet needs. Owners will be required to sign a completion guaranty, at a minimum. This program will provide assistance for eligible unmet needs related to the hard and soft costs of repair or reconstruction of eligible properties, subject to program policies and procedures. Eligible flood insurance premiums may also be covered through program funds, subject to program limits. Reimbursement of eligible expenses may also be eligible and will be detailed in the program policies and procedures. New construction is not eligible under this program.

Location Description:

Throughout the parishes affected by DR-4263 and DR-4277.

Activity Progress Narrative:

Funds this quarter were associated with delivering the program. Thus far the program has closed on two loans, and disbursement to be recorded in the next quarter.

Activity Description:

This program seeks to rehabilitate or create new affordable housing units through the creation of a fully or partially forgivable loan program. Awards provided to landlords under the program for the repair or creation of affordable housing for low income families may be issued as a fully or partially forgivable or fully repayable loan for eligible rehabilitation, reconstruction or new construction costs, as defined in the program policies and procedures. Reimbursement of eligible expenses may also be eligible.

Location Description:

Throughout the parishes affected by DR-4263 and DR-4277.

Activity Progress Narrative:

Funds this quarter consisted of program delivery to administer the program, in addition the program paid out the funds for the repair of a 3 bedroom single family unit in East Baton Rouge.

Activity Description:

The Rapid Rehousing Program will address the needs of the homeless and persons at risk of becoming homeless by providing a combined solution of affordable housing and support services that assist displaced households in their endeavors to become self-sufficient.

Location Description:

Throughout the parishes affected by DR-4263 and DR-4277.

Activity Progress Narrative:

As of June, 30, 2018, the Rapid Re-housing Program had received 1,217 applications. 389 of those applicants are no longer interested in the program. 733 applicants were issued vouchers for rapid rehousing rental assistance. 631 of those applicants have successfully located housing to lease and are occupying the units. There are still approximately 100 people on the waiting list to participate in this program.
