- III. To ensure high quality services through effective administration and management of a system of behavioral interventions, and a quality continuum of care. This includes responsible management of secure facilities, proper selection and monitoring of juvenile delinquency prevention and diversion projects and residential and non-residential community programs, effective administration of juvenile probation and parole services, and comprehensive staff development.
- IV. To partner with local, state and national juvenile service programs who utilize recognized performance/evidence-based standards.

The Youth Services Program includes the following activities:

- The Program Management Activity will design, implement, and administer a state-level system of care, custody and supervision that serves the needs of youth and their families and assists courts of proper jurisdiction; act on behalf of public safety by preventing and/or deterring delinquent behavior by youth; protect public safety by providing safe, secure, humane, and rehabilitative institutional programs for violent youth; provide a diversified system of community services for youth and their families, including probation, aftercare, residential and non-residential interventions; and coordinate with local and regional governmental agencies and courts to develop intervention programs. The Administration Activity standardizes as much as possible in order to increase economy and efficiency in areas of responsibility; provides beneficial administration, policy development, leadership, and develops and implements staffing standards/formulas for juvenile services.
- Treatment Services for Acadiana Center for Youth (ACY), Bridge City Center for Youth (BCCY), Columbia Center for Youth (CCY), Jetson Center for Youth (JCY), Swanson Center for Youth (SCY), and Vernon Center for Youth

provide services to youth that have been adjudicated to secure care custody. When a youth arrives in secure care custody, an Individualized Intervention Plan (IIP) is developed for the youth by a multi-disciplinary team. The IIP is based on a risk-assessment and psychological evaluation and is designed to ensure that the youth receive needed services. The IIP is periodically reviewed and refined in order to ensure that the youth make continuous progress.

- Supervision Services for the Regions provide probation and parole supervision, residential and non-residential treatment services for youth, who have been adjudicated, status offenders, and their families while protecting public safety.
- Implement Continuum of Care: To empower families and individuals to become self-reliant, the OJJ utilizes policies and guidelines initiated by the Children's Cabinet to address the many needs of families and the effects of youth offenders on the family unit. The Contract Services activity develops, through community partnerships, contracts which will provide an environment which eliminates destructive behavioral patterns through prevention/diversion programs. These programs vary and present opportunities in skills training for youth, their siblings, and their families. Programs also focus on education, mentor tracker services, family centered services, early intervention, counseling and therapy, local courts, and provide therapeutic intervention to individuals and their families. Services are extended to parents and youth by their involvement in interactive sessions to improve general communicative skills and may include social and emotional adjustment and independent living skills, all of which support the additional goal of Safe and Thriving Children and Families.
