There are few skills as critical to an agency as using the telephone effectively. Misunderstandings, lost opportunities, wasted time, frustration, anger and a tarnished public image are all part of the negative fallout from poor telephone techniques.

After attending Professional Telephone Skills, you will know who your customers are and understand their expectations. You will develop skills to make even challenging callers feel valued and appreciated. You will also learn specific time-saving telephone techniques. Just as important, you will learn to project an image of professionalism and courtesy.

Develop the skills you need to build rapport, boost efficiency, and exceed your caller’s expectations.

This class is offered by the Office of Telecommunications Management (OTM) to all state employees at no charge. Classes are held at the OTM facilities, 150 Third Street, Baton Rouge. Class size is limited. On-site classes may be scheduled by agencies not located in the Baton Rouge area.

To schedule a class or to get additional information, contact the OTM Information and Training Section at 225-342-7723.
