1. Emergency Renovations to Winter Dormitory, Jetson Center for Youth, Office of Juvenile Justice, Baker, Louisiana, Project No. 08-403-04-02, F.08000142.
   This project consists of emergency renovations to Winter Dormitory at the Jetson Center for Youth in Baker, LA. The renovation includes, but is not limited to, architectural, mechanical and electrical upgrades. Systems to be repaired and/or replaced include boilers, chillers, pumps, etc. for a complete working HVAC system, security cameras and networking services, fire alarm and sprinkler systems, as well as to address security concerns with repairs and/or replacement of security doors/windows. Designer is responsible for review of all applicable codes and modifications, as needed, for the renovations. Generally, the renovation will result in a secure care facility for the Office of Juvenile Justice. Designer shall be responsible for all associated environmental remediation including arranging for sample testing of suspect hazardous materials. Any third party testing and air monitoring will be handled as a reimbursable expense. Note that design time is very short as it is imperative to get the renovations underway quickly. The Designer shall prepare and submit all required drawings to Facility Planning & Control in AutoCAD and hard copy. Drawings shall follow the format specified in the "Instructions to Designers for AutoCAD Drawings Submittal". The available funds for construction (AFC) are approximately $925,000.00 with a fee of approximately $85,158.00. Contract design time is 40 consecutive calendar days; including 10 days review time. Thereafter, liquidated damages in the amount of $500.00 per day will be assessed. Further information is available from Ernesto Egoavil, Facility Planning & Control, ernesto.egoavil@la.gov, (225)342-3378.

GENERAL REQUIREMENTS APPLICABLE TO ALL PROJECTS:
Applicants are advised that design time ends when the Documents are "complete, coordinated and ready for
"bid" as stated in to Article 3.3.1 (4) of the Capital Improvements Projects Procedure Manual for Design and Construction. Documents will be considered to be "complete, coordinated and ready for bid" only if the advertisement for bid can be issued with no further corrections to the Documents. Design time will not necessarily end at the receipt of the initial Construction Documents Phase submittal by Facility Planning and Control. Any re-submittals required to complete the documents will be included in the design time.

In addition to the statutory requirements, professional liability insurance covering the work involved will be required in an amount specified in the following schedule. This will be required at the time the Designer's contract is signed. Proof of coverage will be required at that time.
