**Non-Substantial Action Plan Amendment Number 14:  
Reallocation of Disaster Recovery Funds for Infrastructure Program  
Delivery Program**

**Eligible Activity:** Section 105 (a)  
**National Objective:** Presumed by activity  
**Activity Amount:** \$25,100,000 (existing funding prior to this Amendment)  
\$3,750,000 (additional funding included in this Amendment)

This amendment transfers \$3,750,000 from the *Small Rental* allocation to the *Infrastructure Program Delivery* allocation. These funds will be used to assist Infrastructure program applicants in developing their projects and complying with CDBG regulations throughout implementation. Funds will be used to provide assistance to applicants in all Disaster Recovery Infrastructure programs, including, but not limited to the following: *Long Term Community Recovery, Fisheries Infrastructure and Assistance* including the allocation for *Primary and Secondary Education Infrastructure*. Objectives and activities will not be different from those detailed in Action Plan 2, Amendment 6 and ensuing applicable Amendments. Funding will not be used as a match for any other federal funding sources. This increase is necessary as a result of consultation with local governments and key partners with stated outstanding needs related to the number of critical infrastructure projects. This amendment is considered non-substantial since the transfer is less than 15% of the *Small Rental* allocation, does not create a new program, nor change any beneficiaries.

These expenditures will be presumed to meet the National Objectives of the Infrastructure programs they serve.

**Monitoring**

This activity is considered to be a low risk activity. Monitoring will be performed by the Office of Community Development (OCD-DRU) staff in accordance with the contracts and the OCD-DRU Monitoring Plan.
