Urban and Community Affairs Department:
   Governor’s Commission on Indian Affairs ........................................................................... 626
Effective September 19, 1980, the Louisiana Medical Assistance Program will enforce Medicaid regulations which restrict payments for abortions except when one of the two criteria outlined below is met:

1) A physician has found, and so certified in writing, that on the basis of his/her professional judgment, the life of the pregnant woman would be endangered if the fetus were carried to term.
2) A physician has obtained signed documentation from a law enforcement agency or public health service stating: (a) that the pregnant woman was reported to have been the victim of an incident of rape or incest; (b) the date of which the incident occurred; (c) the date on which the report was made, which, in the case of rape, must have been within seventy-two hours (three days) of the date on which the incident occurred; (d) the name and address of the person making the report (if different from the victim); and (e) that the report included the signature of the person who reported the incident.

This action will allow the Medical Assistance Program to be in compliance with the United States Supreme Court rulings of June 30, 1980 and September 17, 1980. Compliance with these regulations assures continued federal financial participation in Louisiana's Medical Assistance Program.

George A. Fischer, Secretary
Department of Health and Human Resources

DECLARATION OF EMERGENCY

Department of Health and Human Resources
Office of Family Security

The Department of Health and Human Resources, Office of Family Security, will implement effective November 3, 1980, a program of state medical assistance for state and local retirees who become ineligible for Supplemental Security Income and Medicaid benefits due to cost of living increases in state or local government retirement benefits occurring on or after August 31, 1979. The medical benefits to be provided are the same as those provided through Title XIX, Medicaid, but will be funded by all state monies.

The expansion of the State Medical Assistance Program is mandated by Act 481 of the 1980 session of the Louisiana Legislature.

In determining eligibility of potential recipients, all percentage increases in state, local, and parish retirement benefits beginning in August, 1979, will be disregarded from the individual's current income. Need will be determined in accordance with Supplemental Security Income (SSI) standards. SSI resource criteria shall also be used.

For those determined eligible, medical cards will be issued for any appropriate retroactive months and for current and subsequent months.

The declaration method shall be used in redetermining eligibility annually. If the individual becomes ineligible for any reason other than the cost of living increase from state and local retirement, the case shall be closed.

George A. Fischer, Secretary
Department of Health and Human Resources

DECLARATION OF EMERGENCY

Department of Health and Human Resources
Office of Family Security

In accordance with provisions of Louisiana R.S. 40:29, the Department of Health and Human Resources, Office of Family Security, has implemented the following policy regarding assignment of health insurance benefits effective September 12, 1980.

By operation of law (Act 255 of the 1980 Legislature) the applicant or recipient of Medical Assistance shall be deemed to
have made an assignment to the Department of Health and Human Resources of his right to any hospitalization, medical accident, or health benefits owed to applicant or recipient by any third party (i.e., insurance company, etc.), as well as rights to such benefits or medical support payments owed by any third party to applicant's or recipient's children or any other person for whom applicant or recipient has legal authority to execute such an assignment.

This action will allow the Medical Assistance Program to be in compliance with Act 255 of the 1980 Legislature and federal regulations 42 CFR 433.135. Compliance with these regulations assures continued federal financial participation in Louisiana's Medical Assistance Program.

George A. Fischer, Secretary
Department of Health and Human Resources

DECLARATION OF EMERGENCY
Department of Health and Human Resources
Office of Human Development

As provided for in the Appropriations Act of the 1980 Louisiana Legislature, effective July 1, 1980, the Department of Health and Human Resources, Office of Human Development, has adopted revisions which increases the fees or rates paid for the Foster Care services listed below. The emergency rulemaking procedure has been adopted to enable foster parents and foster children to benefit from these increased rates in the month of August, 1980.

1. Monthly board rate for a foster child in Foster Family Care under age six - $160.00 ($5.24 per day).
2. Monthly board rate for a foster child in Foster Family Care between the ages of six years and twelve years - $185.00 ($6.11 per day).
3. Monthly board rate for a foster child in Foster Family Care ages thirteen or older - $212.00 ($6.98 per day).
4. Foster Family Home Retainer Fee - $15.00.
5. Initial Replacement Clothing Allowance - $175.00.
6. Physician's fee for required annual physical examination of Foster Parent - $25.00.
7. Monthly subsidy payment for specialized foster homes - $700.00.
8. Special recreational expenses of foster child - $200.00 per school year - $200.00 per summer.

Additional copies of this material may be secured from the office of Human Development, Division of Evaluation and Services, Planning Section, Box 3318, Baton Rouge, Louisiana 70821.

Interested persons may submit written comments on the proposed policy changes through November 5, 1980 to: Mr. Arthur J. Dixon, Assistant Secretary, Office of Human Development, Box 44731, Baton Rouge, Louisiana 70821.

George A. Fischer, Secretary
Department of Health and Human Resources

DECLARATION OF EMERGENCY
Department of Health and Human Resources
Office of Human Development

With funds provided in the Appropriations Act of the 1980 Louisiana Legislature, the Department of Health and Human Resources has adopted the following increased rate schedule for the provision of Day Care services provided through vendor payments to licensed day care centers and approved family day care homes:

<table>
<thead>
<tr>
<th>Licensed Day Care Centers</th>
<th>Approved Family Day Care Homes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Old</td>
<td>Old</td>
</tr>
<tr>
<td>Rate</td>
<td>Rate</td>
</tr>
<tr>
<td>Monthly</td>
<td>New</td>
</tr>
<tr>
<td>$112.42</td>
<td>$123.20</td>
</tr>
<tr>
<td>Daily</td>
<td>New</td>
</tr>
<tr>
<td>5.11</td>
<td>Old</td>
</tr>
<tr>
<td>Hourly</td>
<td>New</td>
</tr>
<tr>
<td>.73</td>
<td>$73.92</td>
</tr>
<tr>
<td>.80</td>
<td>$81.62</td>
</tr>
<tr>
<td>.53</td>
<td></td>
</tr>
</tbody>
</table>

The amount paid by the Office of Human Development for a child's full-time care shall be the center's regular fee for day care and transportation but shall not exceed $123.20 per month.

In no case shall the amount of payment exceed the amount charged by a day care center to private paying clients.

George A. Fischer, Secretary
Department of Health and Human Resources

DECLARATION OF EMERGENCY
Department of Health and Human Resources
Office of Human Development

The Department of Health and Human Resources, Office of Human Development, does hereby exercise the emergency provisions of the Administrative Procedures Act (R.S. 49:953B) to adopt, effective with October 1980 payments, the following increases in the monthly maintenance subsidy rates in the Subsidized Adoption Program:

<table>
<thead>
<tr>
<th>Old Rate</th>
<th>New Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Special Needs Adoptive Child under age six</td>
<td>$116.80</td>

<tr>
<td>Special Needs Adoptive Child between six and twelve</td>
<td>$136.00</td>
</tr>
<tr>
<td>Special Needs Adoptive Child ages thirteen or older</td>
<td>$154.82</td>
</tr>
</tbody>
</table>

Additionally, the following revised income eligibility standard for the Adoption Subsidy Program is being adopted to reflect adjustments in the Louisiana median annual income as computed by the U.S. Bureau of the Census. The table lists, by family size, 115 percent of the Louisiana median annual income. Persons adopting special needs children in the custody of the Department of Health and Human Resources whose family income is below that listed on the table may apply for a maintenance subsidy.

<table>
<thead>
<tr>
<th>Family Size</th>
<th>Gross Income</th>
</tr>
</thead>
<tbody>
<tr>
<td>2 Persons</td>
<td>$14,616</td>
</tr>
<tr>
<td>3 Persons</td>

</tr>
<tr>
<td>7 Persons</td>
<td>$29,016</td>
</tr>
<tr>
<td>8 Persons</td>
<td>$29,664</td>
</tr>
</tbody>
</table>

For each additional family member above fourteen, add $648.00 to the figure shown for a fourteen member family.

George A. Fischer, Secretary
Department of Health and Human Resources

DECLARATION OF EMERGENCY
Department of Wildlife and Fisheries
Wildlife and Fisheries Commission

The Louisiana Wildlife and Fisheries Commission has adopted emergency rules in accordance with R.S.49:953B of the Administrative Procedures Act. Said rules will become effective as stated.

1. Iatt Lake in Grant Parish has been closed to commercial netting during the draw down of water beginning August 15, 1980, until the closing of the control gates on February 1, 1981. This
II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
The Department estimates that there will be no effect on revenue collections.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
The commercial and recreational activities will be curtailed during closing but yields should be significantly higher after the control gates are closed.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
There is very little commercial fishing in Iatt Lake due to the low poundage of commercial fish in this lake. Commercial fishing will be curtailed on the lake for a period of six months. However, yields are expected to increase by ten percent after the drawdown.

Legislative Fiscal Officer

Rules

RULE

Department of Education
Board of Regents

The Louisiana Board of Regents at its meeting of September 25, 1980, amended and/or revised policies 2.2 - Letters of Intent; 3.10 - State Appropriation Formula, Revised: 1981; and 4.2 Mandatory Guidelines for the Conduct of Off-Campus Activities as follows.

Section II

Academic Affairs 2.02.01

2.2 (Rev.) Letters of Intent

The purpose of Letters of Intent is to strengthen the planning and coordination of academic programs by allowing the Board of Regents to review summaries of projected programs while they are still in the formative stage. Accordingly, institutions of higher education shall transmit Letters of Intent to the Commissioner of Higher Education for all academic programs to be proposed. A Letter of Intent must be filed separately for each program to be submitted. Each Letter of Intent should be limited to three pages or less. It should provide the title, a brief description, and purpose of the projected programs, and demonstrate that the program would:

1. Be within the role and scope of the institution.
2. Complement and strengthen existing programs at the institution.
3. Avoid unnecessary duplication of programs at other State-supported institutions.
4. Supply present and future manpower needs.
5. Be within the institution's anticipated resources.

(a) Letters of Intent have no binding qualities. Institutions may later decide to alter or cancel plans for projected programs. Letters of Intent will not affect the authority of management boards to dispense with proposed programs as they deem appropriate. Communications and deliberations pursuant to a Letter of Intent will imply neither approval nor disapproval of the subsequent program by the Board of Regents.

(b) Letters of Intent must be filed at least twelve months in advance of the submittal of baccalaureate, master's, and doctoral programs; and ninety days in advance for the submittal of certificate and associate programs. Under unusual circumstances, institutions may at any time request the Board of Regents to waive these requirements.

(c) The staff will submit periodic reports to the Board of Regents summarizing both the Letters of Intent on file and deliberations with institutions pertaining to them.

(d) This policy shall not be interpreted to restrict actions which the Board of Regents may take during the reviews of existing academic programs.

(e) A Letter of Intent is invalid three years after the date of its submittal to the Board of Regents.

3.10 - State Appropriation Formula

Revised: 1981

Section I - Authority

This formula is submitted in accordance with Article VIII, Section 5-(D)(5) of the Louisiana Constitution of 1974 which mandates the Board of Regents "to formulate and make timely revision of a master plan for higher education. As a minimum, the plan shall include a formula for equitable distribution of funds to the institutions of higher education." Additionally, there have been repeated requests in the past from the Executive and Legislative branches of state government and the institutions themselves for the development of an equitable method for determining funding levels for each institution.

Section II - Introduction

The complex character of educational institutions, combined with increasing enrollments and operational costs in the last decade, exerted a demand for a more uniform method to distribute tax-generated funds to state institutions of higher learning. These pressures resulted in the development of numerous higher education formulae in numerous states using various factors of measurements as input for calculations to derive state appropriations for public colleges and universities. The number of states adopting this approach of "formula funding" has continued to increase since the early 1960's; one survey indicated that twenty-five states utilized this method in 1973, and indications are that the trend is continuing. In computing the required amount of state funding, these formulae range in complexity from those using a few factors to those using many factors.

There are inherent advantages in using the formula approach to determine state appropriations. The formula method results in the accumulation of measurable data from institutions; it permits the use of mathematical calculations that remove the necessity for subjective evaluation; and it is objective in nature and identifies the needs of all institutions in comparable terms. Primarily, the formula concept is equitable. This formula uniformly places financing on a per student credit hour basis for each institution. Equity, and not necessarily equality, is the basic objective of the formula.

The intention of this formula does not extend to the internal allocation of funds for any functional category, specific discipline, or program. The internal allocation necessary for the development of an effective program of higher education on each campus remains the prerogative of that campus administration and its governing board.

</tbody>
</table>

Higher Cost areas are listed below. All remaining HEGIS taxonomy codes are valued at the lower cost rate.
Definitions and Interpretations

1. Values—The values in the chart are based upon average Southern Regional Education Board (SREB) academic year (nine-month) salaries, pupil/teacher ratios, definitions of full-time equivalent students in Student Credit Hours (SCH) per academic year, and historical expenditure patterns by function. The veterinary medicine formula shall be considered by the Board of Regents prior to the 1981-82 budget hearings. If approved, the budget of the School of Veterinary Medicine prepared for 1981-82 on a non-formula basis may be amended.

2. Level—The assignments in the chart were stratified by level of offering and by program area. In the reporting of SCH productivity, the level of offering for a given SCH will be determined by the classification of the student pursuing the course.

3. Student Classification Structure—

<table>
<thead>
<tr>
<th>Classification Structure</th>
<th>Earned Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lower Level Graduate</td>
<td>0-59 semester hours</td>
</tr>
<tr>
<td>Upper Level Graduate</td>
<td>60 semester hours - graduation</td>
</tr>
<tr>
<td>Masters</td>
<td>Accepted for Graduate Study; Masters and Masters plus thirty</td>
</tr>
<tr>
<td>Specialist/Professional</td>
<td>Specialist/Professional refers only to students formally enrolled in an Education Specialist Program. The higher value assigned to this level of instruction reflects the Board of Regents’ dedication to the improvement of teachers in Louisiana</td>
</tr>
<tr>
<td>Doctorate</td>
<td>Formally admitted to study toward the Doctorate</td>
</tr>
</tbody>
</table>

4. Additional Student Classification Definitions
(a) A post-baccalaureate student enrolled in a state institution of higher learning, but not officially admitted to graduate school, is to be counted as “upper level undergraduate.”

(b) The categories presently recognized as “professional” are Law (only those courses taught in a professional school of law), Veterinary Medicine, Dentistry, and Medicine. Of these, only Law is currently included in this formula. Veterinary Medicine may be included prior to the 1981-82 consolidated budget.

(c) “Deferred credit” is defined as credit earned by students when credit is granted at a later date, such as graduation from high school. These “deferred credits” may be counted in an institution’s SCH production during the period in which the student is officially registered in the class.

(d) SCH credit earned in courses taught out of state is to be counted for student classification purposes and also is to be included in a separate section on the SCH production report for formula purposes. Records must be kept by course and location and are to indicate the number of students enrolled and the SCHs produced for each such course. Such records must be submitted to the Board of Regents no later than thirty days following the conclusion of the course.

(e) An institution shall not count audits in its SCH production report.

(f) Credit by examination, transfer credit, or correspondence study credit taken at another institution may be used only in the classification of the student and not in an institution’s SCH production report. An institution may accept a provisional student’s classification on the basis of the best knowledge available during the first semester of enrollment at the institution.

(g) Credit earned in a cooperative institution (hospital, etc.) by a student enrolled in Medical Technology (or any curriculum requiring such arrangement) may not be counted in an institution’s SCH production report.

(h) Student classification must be updated each semester.

(i) Student credit hours in nursing pursued in an associate degree nursing program are to be considered as upper level hours.

5. HEGIS Taxonomy—Taxonomy codes used in the Basic Factor Chart have not been expanded for this revision. The areas used are specific ones extracted from the taxonomy developed by the Western Interstate Commission for Higher Education (WICHE) for the United States Office of Education. These taxonomy codes have been statistically assigned into higher or lower cost areas.

Section IV - Formula Methodology

Student credit hours (SCHs) that remain scheduled on the fourteenth class day are separated into higher cost or lower cost program areas and levels, using the HEGIS Taxonomy and student classification respectively. At the time legislative budget requests are prepared, summer and fall productivity data are complete. The approaching spring session production estimate should be based on the experience of the previous spring. Actual spring data will be available prior to the regular legislative session, and all institutions must submit adjusted reports by February 23, 1981 (Louisiana Tech - April 6, 1981). The SCHs shall be net, reflecting all transactions (drops, adds, resignations, etc.) occurring prior to the cutoff date. The resulting net SCHs are multiplied by the appropriate values on the Basic Factor Chart (Section III), and the sum of these products establishes 100 percent of the funding generated by SCH production. The values contained in the Basic Factor Chart are based on state support of 75 percent of E and G expenditures. Also, the values on the chart recognize fixed costs by providing a base support for all institutions. Funds for research are also included in the formula in accordance with the following provisions:

“Generally Mandated Research” shall be defined as that research which is (1) initiated internally by the institution or its management board, or (2) assigned as an institutional mission by The Master Plan for Higher Education in Louisiana, or (3) assigned as a general institutional mission by the executive or legislative branch of state government. The funds which will support this type of research shall be generated by values in the Basic Factor Chart of the higher education formula.

“Specifically Mandated Research” shall be defined as those research projects/programs which are initiated by executive order or by state statute. Funds for this type of research shall be requested as a formula exclusion.

The burden of proof is upon the institution that a particular research project is specifically mandated. Line item expenditures that are a direct result of a state legislative or executive mandate must be submitted to the Board of Regents’ Finance Committee for review before such research will be allowed as a formula exclusion.

All institutions are to receive a base appropriation of $1,267,952. This appropriation is intended to recognize fixed costs and diseconomies of scale.

An inflation factor for partial allocation of any new funds for higher education is included to promote an equitable distribution of inflationary support. The inflation factor amount for each institution funded on SCH production will be calculated by the Regents’ staff. This computation will be based upon information institutionally supplied on budget “Form A’s” for the 1980-81 operating budgets. All schools are to receive the inflation factor regardless of their level of implementation.
The combination of funds generated by SCH production, funds from the base appropriation, and funds generated by the inflation factor constitute full formula funding.

*The inflation percentage may be changed annually.

**Section V - Functional Category Distribution**

Allocations to Educational and General Expense—Dr. John Dale Russell* has recommended allocations of expenditures to eight functional categories of the Educational and General function. These categories, in use until recently, were: (1) Resident Instruction; (2) Organized Activities Related to Instruction; (3) Organized Research; (4) Extension and Public Service; (5) Libraries; (6) General Administration; (7) General Expense; and (8) Maintenance and Operation of Physical Plant. If the first four of Russell’s categories are grouped under one heading, his recommendations are reduced to four groups as follows.

| Resident Instruction & Related Activities | At least 63 percent |
| Libraries                               | 5 percent to 6 percent |
| General Administration                   | 15 percent or less |
| Operation & Maintenance of Physical Plant | 16 percent or less |

Further analysis in conjunction with Dr. Russell’s research has led to the selection of the following suggested allocations of total educational and general expenditures:

| Resident Instruction & Related Activities | 68 percent |
| Libraries                               | 5 percent |
| General Administration & General Expense | 15 percent |
| Operation & Maintenance of Physical Plant | 12 percent |

Recent developments will have a definite impact on these allocations.

Two such developments are: (1) the establishment of new functional categories within the Education and General Function by National Association of College and University Business Officers (N.A.C.U.B.O.); and (2) the energy crisis which has sent utility costs soaring, and therefore, may change the physical plant allocation. Since there are not sufficient data to support new recommended allocations, the old percentages shall be retained as broad guidelines.

The new functional categories as established by N.A.C.U.B.O., and how they should be converted for percentage allocation purposes, are as follows:

<table>

It should be noted that Staff Benefits (Related Benefits) costs are to be reported as a cost in the department (category) in which an individual is employed. This has been recommended by N.A.C.U.B.O. in the most recent publication of the handbook, *College and University Business Administration*, 1974.

*For comparative purposes, Libraries are to be extracted from Academic Support.

**Section VI - Funding Requests**

A. Because the budgetary process requires considerable planning and effort, it is necessary that the requests be both reasonable and adequate to meet institutional needs and also be within the state’s funding capabilities. Therefore, these requests must be prepared in the manner set forth in this formula document. The Regents have the prerogative to make the final recommendation for funding levels of all segments of higher education. Such recommendations will be based upon (a) complete evaluation of all requests, (b) projected state revenues, and (c) the development of a consolidated budget to be presented to the Executive and Legislative branches of state government.

B.1. The 1981-82 budget requests for all institutions subject to the formula are to be based on an implementation rate of one hundred percent. However, no institution need request less than the 1980-81 amount of state appropriations received for formula purposes.

2. Funding requests for areas excluded from the formula shall be determined on an individual basis as set forth in Section IX - Exclusions.

C. Funding requests for management boards and their staffs, i.e., the Louisiana State University System, the Southern University System, and the Board of Trustees System, will be as set forth in Section IX - Exclusions. The funds for the operations of these management boards are an actual cost allocable to each segment of the respective boards. Therefore, an institution’s pro rata share of system costs plus that individual institution’s state appropriation shall be used in determining the attainment of the one hundred percent level of implementation.

D. All state appropriations not conforming to the Formula allocation process shall not be considered in the continuing base appropriations, nor will these funds be considered in the application of the Inflation Factor computation. For comparative purposes in all Formula schedules, analyses, etc., such funds will be included for determining implementation level; funds appropriated that do not conform to the Formula process shall be footnoted to indicate their amount, source, and purpose. The aim of this section is to encourage equitable allocation of all funds for higher education through the Formula.

**Section VII - Special Requests**

Justification for extraordinary expenditures, for a limited predetermined period, shall be based on this section. The purpose of this section is to provide a means of requesting funds over and above those funds generated by SCH production. Such funds may be requested to support projects particular and peculiar to a specific situation; e.g., a land purchase, large equipment purchase to meet accreditation requirements, etc. Each request is to be supported by a separate, concise report giving the purpose, the necessity, the expected results, the minimum amount needed, and
the method of determining this amount. In addition, if the possibility exists that special funding will be required for more than one year, the expected duration shall be given along with a complete explanation. Requests for ongoing continuous functions, merely to avoid inclusion in formula funding, will not be granted.

Section VIII - Other Means of Financing

All annually recurring revenues, regardless of source, shall be budgeted by each institution. There are several reasons for these requirements: (1) the 1974 Constitution requires the annual appropriation of all funds for budgetary purposes; (2) budgeting provides responsible fiscal control over funds; and (3) budgeting requires planning in advance which, if properly done, normally results in more efficient and economical use of available resources. Institutions are the recipients of revenues from varied sources. Some examples of what should be included in the annual budgets, both the request and operating, are as follows: tuition and student fees; parking fees and fines; library fines; income from publications; income from sales and services; recurring federal funds such as George Warden, Vocational Education, McIntire-Stennis, etc.; user fees in continuing education, correspondence study, and extension courses; and auxiliary income.

Section IX - Exclusions

A. The primary reasons for this section providing funding outside formula-generated appropriations are:

1. A method of measurement has not been devised for those institutions or operations that do not utilize student credit hours (SCHs) as a determinant of productivity. These institutions and operations are the Louisiana State University Medical Center and the Louisiana State University Center for Agricultural Sciences and Rural Development. A modified program budget approach supported by substantiating statistical and narrative data shall be used by the Medical Center in requesting funds for 1981-82.

2. Other exclusions consist of specific items which do not fall within the normal scope of operations of all institutions. For this reason these items are separated from formula consideration in order to provide a sound basis of comparison between institutions. Within this category are bond service and special funds for capital outlay (for those institutions that include these funds in the operating budget); Louisiana State University Fireman Training Program Dedicated Funds; Specifically Mandated Research; the annual Livestock Show at Southern University-Baton Rouge; Laboratory Schools at Louisiana State University-Baton Rouge and Southern University-Baton Rouge.

B. Method of Determining Recommended Funding Level

1. Funding of these exclusions that are not otherwise provided for will be based upon fully documented and justified need as required so as to fulfill their duties and responsibilities as set forth in the role, scope, and mission charge of the respective units. The units for this year are:
   a. Southern University Board and System Staff;
   b. Board of Trustees and System Staff;
   c. Louisiana State University Board and System Staff;
   d. Louisiana State University Medical Center;
   e. Center for Agricultural Sciences and Rural Development; and
   f. Specifically Mandated Research.

2. The School of Veterinary Medicine is to prepare a budget request consistent with the actual needs for establishing the program.

3. Louisiana State University has received dedicated revenues for a number of years which could be bonded and expended for capital facilities. Capital outlay in the Board of Trustees and Southern University Systems has been handled outside of operating budgets, whereas the Louisiana State University System has used a combination approach. Because provisions already require the expenditures of annual appropriation funds to service these commitments, it is recommended that these funds be received by Louisiana State University above the formula amounts until these commitments are retired. In compliance with the Constitution and laws of this state, additional commitments cannot be made without approval of the Board of Regents.

4. It is recommended that each public college or university operating a public laboratory school receive the proper allocation of funds based on the Minimum Foundation Formula of the State Department of Education. For Louisiana State University-Baton Rouge and Southern University-Baton Rouge, these funds should be specifically appropriated to the institutions.

5. The Louisiana State University Fireman Training Program receives funds dedicated from fire insurance premiums by Act 32 of 1970. This Act provides that one-fourth of one percent of premiums received annually by insurers for fire coverage within Louisiana be used solely for this program. Since this amount is subject to fluctuation, the requested budget amount should be based on the previous year's receipts adjusted for any anticipated changes. These funds are to be received in addition to formula funds.

6. The Southern University-Baton Rouge annual Livestock Show is to be separately funded outside of the formula appropriation.

7. The allocation to Southern University-Baton Rouge for the Scotlandville Fire District is an annual fixed amount charged the campus for the provision of fire department protection. This is necessary since the campus is not located within the jurisdiction of a municipal fire department. These funds are to be exclusive of formula funding.

Section X - Audit Procedures

The use of a state appropriation formula results in Student Credit Hours (SCHs) becoming dollars through the conversion using the Basic Factor Chart. The audit procedure previously established will continue to be used for this revision. This will insure correct and consistent interpretation and application of the procedure for recording and receiving credit for SCH production and will facilitate the use of the State Appropriation Formula. Every affected institution shall be visited each year and shall provide any required assistance needed to validate the methods and procedures used and the resultant data. The auditors shall use a predetermined audit outline including statistically proven record search patterns for those record areas requiring comparisons. Records to be examined shall include but not be limited to: class rolls; final grade reports; drop/add records; transcripts; student schedules; withdrawals and resignations; and any other relevant data sources. Discrepancies shall be noted and reconciled, and the necessary corrective action shall be taken. Should a particular situation warrant it, the audit will be expanded so that the extent of the problem can be determined and the SCH production reports amended to indicate the correct production figures. Official notification of the adjustment shall be given to all concerned parties.

The audit process will also include a review of off-campus SCH production to verify compliance with Board of Regents' Policy 4.2 - Guidelines for the Conduct of Off-Campus Activities. Non-compliance will be noted in the audit report.

APPENDIX A

Standardized Reporting Forms

The student credit hour audit procedure as it presently exists takes fourteenth class day data (department, course, section, credit hours, number enrolled, student identification, and SCHs produced) and compares them to final grade reports. Any exceptions must be substantiated with support documentation; i.e., properly prepared drop, add, or resignation forms. This provides a uniform reporting system to put all institutions of higher education in the state on a common base, primarily utilizing four standardized report formats. These reports, the (1) Class Roster, (2) Final Grade Report, (3) Detailed Formula Level Report, and (4) Summary Formula Area Report, are to be prepared by all institutions.
The reports should be prepared as of the close of the fourteenth class day during the regular semesters and the seventh class day during the summer session (Louisiana Tech - Ninth class day). One copy of the Summary Formula Area Report should be sent to the Board of Regents by the twenty-fourth class day of each regular semester and the seventh class day of the summer session (Louisiana Tech - Nineteenth class day). For new classes beginning after the 14th (seventh, ninth) class day, each institution will be required to file a supplementary report of SCHs produced. These classes are to be reported in the session in which they are completed or in the following session if they are conducted totally in an interim period. The SCH production is to be reported in keeping with the two preceding requirements, with SCH production being counted on a date that is equivalent to the fourteenth or seventh class day (Louisiana Tech - ninth) of courses offered during a regular semester. These supplemental reports will be due upon issuance of final grades in the reporting session and should include beginning and ending dates and equivalent cut-off dates for each class. A class day is defined as a regular class schedule day; Saturday, Sunday and state legal holidays are to be excluded as class days.

A common sequence arrangement of the various reports is to be used by all institutions; this method will simplify the audit procedure and provide for a uniform communication basis. The Class Roster, Detail Formula Level Report, and Final Grade Report are all to be arranged in the same sequence, alpha by course name or title or alpha by course name or title within college.

All exceptions to the fourteenth class day (Ninth class day for Louisiana Tech) and the Final Grade Report must be supported by properly prepared and authorized drop, add, or resignation forms which are to be maintained for all courses by semester, filed in alphabetical order by student's last name. The Summary Formula Area Report should be arranged in alpha order by course number within each formula area breakdown.

Each institution is required to identify all off-campus SCH production either on the above required reports or on a special supplementary report. Each course offered off campus and the parish(es) in which it is taught must be reported. Parish codes are provided in Appendix C.

APPENDIX B

Reporting of Final SCH Production

To facilitate further research and study for the possible formula revisions, it will be necessary for each institution to furnish end-of-year reports on an annual basis. Information of this nature is necessary in the evaluation of measurement factors to determine effectiveness of programs. It will also point out areas where special formula consideration may be required. These reports, at a minimum, are to consist of recalculated BRC-1 and BRC-1A budget forms reflecting SCH production based on the final grade report.

4.2 Mandatory Guidelines for the Conduct of Off-Campus Activities

Part A. Narrative Statement—The Board of Regents, in accordance with its constitutional mandate to coordinate, plan, and have budgetary responsibility for all public higher education in Louisiana, sets forth the attached guidelines for the conduct of off-campus instructional activity. For purposes of these guidelines, off-campus instructional activity is defined as any instruction, credit or noncredit, conducted outside the parish of domicile of the following public institutions of higher education: Delgado Junior College, Grambling State University, Louisiana State University at Alexandria, Louisiana State University at Baton Rouge, Louisiana State University at Eunice, Louisiana State University at Shreveport, Louisiana Tech University, McNeese State University, Nicholls State University, Northeast Louisiana University, Northwestern State University, Southeastern Louisiana University, Southern University at Baton Rouge, Southern University at New Orleans, Southern University at Shreveport, University of New Orleans, and University of Southwestern Louisiana.

Conversely, on-campus instruction is defined as instruction offered for credit or noncredit by those institutions named above in the parish of domicile of the main campus of that institution.

These guidelines are issued following extensive public hearings and consideration of recommendations offered by the Ad Hoc Advisory Committee on Off-Campus Activity. The sole purpose of the guidelines is to achieve greater efficiency and quality in the off-campus educational opportunities offered to the citizens of Louisiana, while, at the same time, assuring that the citizens' educational needs are met.

Continuing education, both credit and noncredit, is a most important facet of higher education today. The importance of this activity will undoubtedly increase in the future as the role of institutions of higher education changes to meet changing societal needs. The Board of Regents recognizes that it would be remiss to leave to chance the quality and efficiency of so extensive and important an aspect of public higher education in Louisiana.

Part B. Advisory Committee on Off-Campus Activity—There shall be established an Advisory Committee on Off-Campus Activity to be charged initially with the following responsibilities: (a) to aid and advise the Board of Regents in matters pertaining to the coordination of off-campus noncredit instructional activity and off-campus credit-producing instructional activity; (b) to advise the Board of Regents in the implementation and necessary timely revision of guidelines for the conduct of all off-campus activities; (c) to develop and maintain an adequate data-gathering format to assure the availability of timely, comparable information pertinent to the coordination of all off-campus instructional activities; (d) to
assess the needs of the citizens of Louisiana for off-campus educational opportunities; (e) to perform the functions assigned to the Advisory Council in the following guidelines; and (f) to perform other duties as assigned by the Board of Regents.

The Advisory Committee on Off-Campus Activity will be appointed by the Board of Regents no later than October 1, 1976, and will consist of a representative(s) from each of the three systems of higher education under the jurisdiction of the Board, from the private sector, and from consumers of off-campus instruction. These representatives will be nominated by the Commissioner of Higher Education and approved by the Board of Regents.

Part C. Noncredit Off-Campus Activity—Self-supporting noncredit off-campus activities may be conducted by any institution in any location in the state. The term self-supporting in this instance is meant to require that faculty salary, travel expenses, and supplies for each activity be supported entirely by fees charged to participants in the activity.

I. Noncredit off-campus activity is defined as instructional activity which does not result in the awarding of student credit hours.

II. Noncredit off-campus activity must be self-supporting. State appropriated funds may not be used in direct support of noncredit off-campus activity, except where provided by law prior to the date of adoption of this policy.

Part D. Credit-Producing Off-Campus Activity—Credit-producing off-campus activity, defined as instructional activity for which student credit hours are awarded and/or formula funding is provided, may be conducted by public institutions of higher education in accordance with the guidelines below. The guidelines apply to all credit-producing off-campus activity except for student teaching and other clinical, practicum, or internship experiences.

I. Guidelines for the Conduct of Credit-Producing Off-Campus Activities by Level of Instruction

A. Lower level undergraduate, i.e., freshman and sophomore level, courses may be offered in accordance with the guidelines contained herein by the following public institutions of higher education: Delgado Junior College, Grambling State University, Louisiana State University at Alexandria, Louisiana State University at Baton Rouge, Louisiana State University at Eunice, Louisiana State University at Shreveport, Louisiana Tech University, McNeese State University, Nicholls State University, Northeast Louisiana University, Northwestern State University, Southeastern Louisiana University, Southern University at Baton Rouge, Southern University at New Orleans, Southern University at Shreveport, University of New Orleans, and University of Southwestern Louisiana.

B. Upper level undergraduate, i.e., junior and senior level, courses may be offered in accordance with the guidelines contained herein by the following public institutions: Louisiana State University-Baton Rouge, University of New Orleans, Louisiana State University-Shreveport, Southern University at Baton Rouge, Southern University-New Orleans, Louisiana Tech University, McNeese State University, Nicholls State University, Northwestern State University, Southeastern Louisiana University, University of Southwestern Louisiana, Grambling State University, and Northeast Louisiana University.

C. Graduate level, i.e., masters, specialist, and doctoral level, courses may be offered in accordance with the guidelines contained herein by the following public institutions: Louisiana State University-Baton Rouge, University of New Orleans, Southern University-Baton Rouge, Louisiana Tech University, McNeese State University, Nicholls State University, Northwestern State University, Southeastern Louisiana University, University of Southwestern Louisiana, Grambling State University, Northeast Louisiana University, and Louisiana State University-Shreveport.

II. General Prerequisites for Offering Off-Campus Credit-Producing Instruction

A. The sponsoring institution shall assure that any off-campus offering is related to the educational goals and objectives in effect on the main campus.

B. Only those courses offered on-campus on a regular basis may be offered off-campus.

C. Admission and state residence requirements for off-campus offerings shall be the same as those for on-campus offerings. This regulation applies to all off-campus offerings including those conducted outside the state of Louisiana and outside the continental limits of the United States. Prior approval from the Board of Regents must be obtained to change rules applying to offerings conducted outside the state of Louisiana and outside the continental limits of the United States.

D. A minimum of fifteen students must be enrolled in any undergraduate course offered off-campus, and a minimum of ten students must be enrolled in any graduate course offered off-campus. However, when a new off-campus location (population center) is established within the institution's geographic area as defined by the Guidelines, the offering institution may, for one calendar year, offer courses with less than the minimum required enrollment. The new location will be certified as such by the institution to the Board of Regents. No site may be certified as a new location more than one time.

E. Institutions may enter into contracts to provide instruction for local business, industry, or governmental units within the institution's defined area. (See Attachment A.) The nature of the contract or the clientele may require enrollments below the minimum levels as outlined in II.D. above. A contract between an institution and an agency is exempt from the minimum enrollment stipulations (II.D. above) if: (1) the contractor reimburses the institution for all direct costs incurred pursuant to the contract, (2) the instructional content is provided within the institution's defined area, and (3) a copy of the contract is on file in the Board of Regents' office prior to the initiation of the instruction.

III. Guidelines for Choosing Faculty in Off-Campus Instruction

A. Faculty assigned off-campus instruction must be fully competent to undertake the level of instruction offered, and must be selected and evaluated in the same manner as that used for selection and evaluation of faculty who teach in the same discipline on-campus.

B. Faculty members regularly assigned off-campus instruction must teach from time to time on the main campus.

C. When necessary, qualified faculty members regularly employed by other public and private institutions of higher education may be employed by an institution to offer a course off-campus. Individuals in this category are exempted from III.B. above.

IV. Guidelines for Supporting Services for Off-Campus Instruction

A. The sponsoring institution must demonstrate that ongoing provision has been made for guidance and counseling service for students and for continual monitoring of the progress of students toward their educational goals.

B. Satisfactory support in the form of library resources, laboratory and clinical experiences, instructional supplies, and classroom facilities must be conveniently available to sustain the off-campus instruction program.

V. Accreditation Requirements for Off-Campus Offerings

A. Only those public institutions which are regionally accredited or have been accepted to candidacy status for regional accreditation may offer courses off-campus.

B. Where professional accreditation is available through a member agency of the Council on Postsecondary Accreditation (COPA), such accreditation or candidacy to accreditation where applicable, must have been granted to a program prior to its being offered off-campus.* If there is demand for a program in the defined area of an institution not professionally accredited for that
program, the Board of Regents will assist in ensuring that the
eeded program is provided to the citizens of the region.

A list of professional accrediting agencies which are members of
COPA is published in *Accredited Institutions of Postsecondary
Education*, 1975-76, Sherry S. Harris, editor. The publication is
available from the American Council on Education, One Dupont

VI. Guidelines for the Administration of Off-Campus
Activity

A. These guidelines recognize and require institutional
adherence to Standard IX of the Southern Association of Colleges
and Schools' *Standards of the College Delegate Assembly.*

B. In regard to graduate offerings off-campus, these guide-
lines recognize and require institutional adherence to Standard X,
specifically Section 5, of the Southern Association of Colleges and
Schools' *Standards of the College Delegate Assembly.*

VII. Guidelines for Offering Off-Campus Instruction in
Programs of Limited Competition

A. Courses in the major field of a program offered at no
more than three public institutions of higher education may be
offered anywhere in the state by the institutions offering the pro-
gram, except in the defined area (See Attachment A) of other
institutions offering that program. The Board of Regents' Inven-
tory of Curricula and Terminal Programs will be the guide for
determining the number of institutions offering a particular
program.

B. The professional accreditation requirement cited in V.B.
above applies to programs of limited competitiveness as well as all
other programs.

VIII. Guidelines for the Conduct of Off-Campus Activities
by Land Grant Institutions.

A. The land grant institutions in Louisiana, Southern Uni-
versity-Baton Rouge and Louisiana State University-Baton
Rouge, are subject to the defined areas outlined below in all fields
except agriculture and home economics, in which land grant
institutions have a legal mandate for statewide service.

*The Commissioner of Higher Education was instructed to request
the opinion of the Attorney General regarding the bearing of the
Morrill Acts on action of the Board of Regents.

B. All other guidelines presented herein apply to all pro-
grams at land-grant institutions including agriculture and home
economics.

IX. Defined Areas for the Conduct of Off-Campus Activities
A. Courses may be offered at multi-purpose resident cen-
ters approved by the appropriate management board in accord-
ance with the following definitions and guidelines. Multi-purpose
resident centers are defined as campuses owned by a manage-
ment board for higher education.

1. Multi-purpose resident centers of Louisiana State Uni-
versity-Baton Rouge may be established by the LSU Board of
Supervisors on the following campuses: the University of New
Orleans, Louisiana State University-Eunice, Louisiana State Uni-
versity-Alexandria, and Louisiana State University-Shreveport.

2. Multi-purpose resident centers of Southern University-
Baton Rouge may be established by the Southern University
Board of Supervisors on the following campuses: Southern Un-
iversity in New Orleans, and Southern University in Shreveport.

3. Any course may be offered by a parent institution on a
multi-purpose resident center campus as identified above, pro-
vided that the course is not offered by the resident center in its own
right or by another public institution of higher education located in
the same parish as the multi-purpose resident center.

B. Courses may be offered at single-purpose resident cen-
ters in accordance with the following definitions and guidelines.

1. Existing single-purpose resident centers are limited to the
Southeastern Louisiana University School of Nursing located in
Baton Rouge, the Northwestern State University School of Nurs-
ing located in Shreveport, and the Southern University-Baton
Rouge Resident Center in Ville Platte. The Southeastern Louisiana
University School of Nursing and the Northwestern State Universi-
ty School of Nursing are limited to offering authorized curricula in
nursing and allied health. The Southern University-Baton Rouge
Resident Center is limited to offering authorized curricula in under-
graduate teacher education.

2. At a single-purpose resident center located outside the
assigned area of the parent institution, only courses necessary to
the curriculum offered at that center may be scheduled. If the
single-purposed resident center is within the assigned area of
the parent institution, the above restriction does not apply.

C. No resident center, either multi-purpose or single-
purpose in nature, not specifically named herein may be estab-
lished without prior approval of the appropriate management
board and the Board of Regents.

D. The attached lists define the geographic regions in which
each public institution of higher education may operate for pur-
poses of lower level undergraduate, upper level undergraduate,
and graduate off-campus instruction unless otherwise specified
herein.

E. When it is deemed necessary for an institution to offer a
course outside of an area assigned to it by these guidelines, a
written request to do so shall be made to the Board of Regents.
When limited response time is a factor, the request may be sub-
mitted by telephone, with a written request to follow immediately.
Each management board shall supply the Board of Regents with a
list of appropriate personnel at the system and/or institution level
to be contacted to effect a mutually agreeable solution to each re-
quest. Records will be kept on all requests and the disposition of
the requests.

X. Guidelines for the Funding of Off-Campus Credit
Courses.

A. The state appropriation formula shall continue to recom-
mend funding student credit hours produced off-campus at the
same level as student credit hours produced on-campus.

B. Tuition charges and appropriate fees for courses offered
off-campus shall be the same as tuition charges and appropriated
fees for courses offered on-campus.

Student credit hours produced in courses offered off-
campus shall be reported in accordance with the instructions
contained in the State Appropriation Formula.

XI. Guideline for Sharing of Faculty and Facilities in
the Conduct of Off-Campus Activity—Sharing of faculty and facilities
between institutions of postsecondary education shall occur
whenever practicable.

XII. Guidelines for the Conduct of Off-Campus Instruction
Via Correspondence.

A. Louisiana State University-Baton Rouge is the only
public institution in Louisiana authorized to offer correspondence
study and shall make every effort to satisfy the needs of the citizens
of the state.

B. Other public institutions of higher education in Louisiana
may offer study by correspondence with prior approval of the
appropriate management board and the Board of Regents.

Part E. Guidelines for Contracts and Memoranda of Agree-
ment with the Armed Services—The terms of existing contracts
and/or memoranda of agreement shall not be affected by these
guidelines.

I. Future negotiations of contracts and/or memoranda of
agreement shall be for the mutual benefit of all parties to the
agreements, but need not be subject to guidelines contained
herein. However, adherence to the spirit of these guidelines in
the provision of quality and economy in off-campus instruction should
be a primary objective in the negotiation of subsequent contracts
and activities.
II. Guidelines anticipated to be forthcoming from the Task Force on State, Institutional, and Federal Responsibilities in Providing Postsecondary Educational Opportunity to Service Personnel shall be given careful consideration and will be implemented wherever feasible.

Part F. Implementation of Guidelines for the Conduct of Off-Campus Activities

I. Guidelines prescribed herein for the conduct of noncredit off-campus activities shall become effective upon final publication in the Louisiana Register.

II. Guidelines prescribed herein for the conduct of student credit-hour producing off-campus activities shall become effective as follows:

A. The professional accreditation requirement set forth in Part D, Section V.B. will become effective September 1, 1978.

All other guidelines set forth herein shall be applied to the conduct of lower level undergraduate instruction conducted off-campus no later than September 1, 1976.

C. All other guidelines set forth herein shall be applied to upper level undergraduate instruction conducted off-campus no later than January 1, 1977.

D. All other guidelines set forth herein shall be applied to graduate level instruction conducted off-campus no later than September 1, 1977.

E. The dates in B. and C. above shall not apply to the off-campus activities of Southern University-Baton Rouge in Opelousas, which shall be phased out no later than June 1, 1977.

William Arceneaux
Commissioner of Higher Education
RULE
Office of the Governor
Commission on Law Enforcement
And Administration of Criminal Justice

The Louisiana Commission on Law Enforcement and Administration of Criminal Justice has adopted jail standards for the State of Louisiana at a meeting held Wednesday, September 24, 1980.

Introduction
The purpose of these standards is to provide a reasonable guideline for use by persons responsible for the planning, administration and construction of parish jails in Louisiana. They are intended to reflect the minimum requirements which comply with court orders and protect the guaranteed rights of inmates in custody. The criteria were derived from court decisions, Louisiana state statutes, codes and regulations, and standards developed by organizations in the criminal justice field. The items generally avoid specific numerical absolutes so as to be useful to jails of all sizes and populations.

PART I
Minimum Jail Standards

11.0 Management
11.1 The Administrator shall formulate a written statement of institution goals and purposes.
11.2 The administrator shall develop a written manual describing institution policies and procedures.
11.3 Inmates shall not be subject to discrimination on basis of race, religion, sex, nationality or handicap, and shall receive equal treatment under all policies and procedures of the institution.
11.4 The Administrator shall formulate a written statement of policy regulating communications with the news media and promoting positive public relations with the community.
11.5 Space and equipment shall be designated for all necessary administrative functions.
11.6 Space and equipment shall be designated for all heads of the security staff.

12.0 Fiscal
12.1 A fiscal system shall be established to record all income and expenditures in accordance with commonly accepted professional accounting practices.
12.2 An annual budget shall be prepared which projects the operating needs of the institution.

13.0 Records
13.1 A record system shall be established to provide continuous, accurate, and current information on the location and legal status of all inmates.
13.2 A record system shall be established to account for inmate money and personal property, with disbursement only upon authorization of the inmate owner.
13.3 A record system shall be established to provide statistical information required by legitimate law enforcement and correctional interests at the federal, state and local level.
13.4 A record system shall be established for all routine activities occurring on each shift and for all emergency situations.
13.5 A record system shall be established for all management functions of the institution, including administration, personnel, operations and physical plant.
13.6 A log shall be kept of all persons entering or leaving the jail.
13.7 All record systems shall specify method and frequency of supervisory review, and such reviews shall be made as indicated.
13.8 Inmates shall be forbidden to handle any management, personnel, inmate, fiscal or other institutional records.
13.9 Secure space shall be provided for the use of current records and the storage of other records required in this section.

14.0 Personnel and Training
14.1 Employees shall be given a written manual describing all personnel policies and procedures, including grievance and appeal mechanisms.
14.2 Employees and job applicants shall have the protection of equal employment opportunities.
14.3 Duties and qualifications for each employee position shall be described in writing by the Administrator.
14.4 Employee records shall be maintained in individual files, but employees shall have the right to view and challenge their file information.
14.5 Employees shall receive preservice orientation and shall participate in regular inservice and staff development programs.
14.6 Space and equipment shall be provided for all training and staff development programs.

15.0 Community
15.1 The Administrator shall develop a program of community resources to assist inmates during incarceration and facilitate their reentry after release.
15.2 Civilian volunteers shall not work in the institution until they have completed orientation appropriate to their assignments.

20. Inmate Support
21.0 Inmate Housing
21.1 Separation shall be provided between areas housing male and female inmates and between adults and juveniles.
21.2 Renovation of existing space shall provide for individual cells to house inmates whenever possible.
21.3 Renovation of existing space shall provide a minimum of sixty square feet floor space for each inmate confined to cell less than ten hours daily, and seventy square feet when confinement exceeds ten hours per day.
21.4 Renovation of existing space shall provide a minimum of sixty square feet of sleeping area for each inmate confined to multiple occupancy cells, with a maximum of four inmates per cell.
21.5 Renovation of existing space shall provide a minimum of fifty square feet of sleeping area for each inmate worker in a dormitory with a maximum of twenty inmates per unit.
21.6 New construction shall provide a minimum of sixty square feet per inmate in individual cells if confinement is less than ten hours daily, and seventy square feet when confinement exceeds ten hours per day.
21.7 New construction shall provide a minimum of fifty square feet of sleeping area for each inmate worker in a dormitory, with a maximum of sixteen inmates per unit.
21.8 New construction shall provide a view of daylight from every housing cell.
21.9 Newly constructed housing areas shall have dayrooms which provide a minimum of thirty-five square feet of floor space for each inmate in the housing area.
21.10 New construction shall provide each inmate with direct access from the sleeping area to a separate dayroom during all lock-out periods.

22.0 Food Service
22.1 Food service areas, equipment and operations shall meet all state and local health laws and regulations.
22.2 Inmates shall receive at least three meals every twenty-four hour period with no more than fourteen hours between any two meals. At least two of these meals shall be hot.
22.3 Nutrition, food service plan, and daily menus shall be approved by a licensed physician, certified dietician or nutritionist.
22.4 Inmates shall be provided with special diets as ordered by the physician and approved by the Administrator.
22.5 Inmates assigned to food service jobs shall be medically screened and certified free from disease prior to starting work.
22.6 Space shall be provided for all food preparation and service activities.
22.7 Inmates who are not segregated because of security, safety or discipline shall not be fed in their cells.

23.0 Clothing and Bedding

23.1 Indigent inmates shall be provided with all needed clothing at institution expense.

23.2 Inmates shall be provided with any clothing required for special jobs or work assignments at institution expense.

23.3 Inmates shall be provided with a minimum of two changes of clean clothing per week.

23.4 Inmates shall be provided with a complete set of clean linen and bedding on admission to the institution, and at least once a week thereafter.

23.5 Sanitary storage areas shall be provided for all inmate clothing, linen and bedding.

23.6 Arrangements shall be made for laundry and distribution of clean clothing and bedding to inmates.

23.7 Arrangements shall be made for disinfecting mattresses, pillows and mattress covers prior to issuance to inmates.

23.8 All clothing and bedding distributed by the institution shall be in good repair.

24.0 Personal Hygiene

24.1 Inmates shall have access to a shower on a daily basis and shall be required to bathe no less than twice a week.

24.2 Inmates shall be given all necessary personal health care items upon admission, and these items shall be replenished as needed.

24.3 Inmates shall be able to shave and receive haircuts on a regular basis.

24.4 Inmates assigned to food service or other work details shall shower and receive a complete change of appropriate clothing daily.

25.0 Medical and Health Care

25.1 A licensed physician shall be responsible for the health care program and for the practice of medicine in the institution, and no restrictions shall be placed on the medical judgement of the physician.

25.2 All health care shall be provided in accordance with written policies and procedures developed by the physician in charge and endorsed by the Administrator.

25.3 Dental care shall be provided under the direction, supervision and written procedures of a licensed dentist.

25.4 Treatment given by other than a licensed physician shall be made by trained personnel according to written, standing or direct orders of the physician in charge.

25.5 Inmates shall have continuous access to emergency health care by trained personnel and professional medical attention whenever required.

25.6 Inmates shall have access to routine health care by a physician within forty-eight hours after making such request.

25.7 At least one employee on each shift shall be qualified to administer basic first aid and cardiopulmonary resuscitation.

25.8 Arrestees will be asked at the time of booking about their current state of health and medications being taken, and health problems will be referred immediately to the physician.

25.9 New inmates shall receive a medical examination within seventy-two hours of admission to the institution.

25.10 Inmates shall receive a medical examination at least every twelve months while incarcerated.

25.11 New Inmates shall be instructed in the procedure for obtaining routine and emergency medical attention at the time they are admitted to the institution.

25.12 Inmates shall be able to report illness or health complaints daily and all reports shall be recorded together with complaint disposition.

25.13 Pharmaceuticals shall be controlled and dispensed only under written orders and procedures prepared by the physician in charge, and shall be filled at institution expense as prescribed within twenty-four hours.

25.14 Inmates shall not participate in experimental testing programs for medical or pharmaceutical purposes unless specifically ordered to provide therapy for individual conditions.

25.15 An area shall be provided for inmates requiring isolation for reasons of physical or mental illness.

25.16 Space, equipment, supplies and material shall be provided for all health services delivered in the facility.

30: Inmate Service

31.0 Court Access

31.1 Inmates may receive visits from attorneys or attorney-delegates at any reasonable time between wake-up and lights-out.

31.2 Inmate communications with attorneys by telephone or personal visit shall be entirely confidential.

31.3 Inmate correspondence with attorneys shall be entirely confidential and shall not be delayed, read, nor interfered with in any manner.

31.4 Paralegals may be required to show evidence of their employment by an attorney before being admitted to visit with an inmate.

31.5 Inmates shall be permitted to present any issue to the courts at any time without restrictions, reprisal or penalty.

31.6 Inmates shall be able to obtain paper, postage, forms, notarial services, technical information and specific legal materials needed to insure their rights to court access.

31.7 Inmates shall be transported to any scheduled court appearance at the designated time at institution expense.

32.0 Visiting

32.1 Inmates shall have maximum freedom and duration for visiting consistent with the security and management needs of the institution.

32.2 Each inmate shall be permitted a minimum of one personal visiting period per week.

32.3 Visitors shall be notified by posted signs that they and their possessions are subject to search at any time within the security perimeter of the institution.

32.4 Visitors shall register before admission and may be denied admission for refusal to register, for refusal to consent to search, or for any violation of posted institutional rules.

32.5 Inmate visits shall be conducted under visual surveillance of security staff, but conversations with visitors shall not be monitored.

32.6 Space shall be provided for all activities required by the visiting program.

33.0 Mail

33.1 Outgoing letters from inmates will be submitted unsealed and may be inspected and censored by the institutions.

33.2 An outgoing letter from an inmate may be disapproved if it falls into any of the following categories:

(a) It contains threats of physical harm against any person or threats of criminal activity.

(b) It threatens blackmail or extortion.

(c) It concerns transport of contraband in or out of the institution.

(d) It contains plans for escape.

(e) It concerns plans for activities which violate institution rules.

(f) It concerns plans for criminal activities.

(g) It is in code and its contents are not understood by the reader.

(h) It solicits gifts or goods or money from other than family.

(i) It contains information which if communicated would create clear and present danger of violence or physical harm to a human being.

33.3 If an inmate is prohibited from sending a letter, he will be given back the letter with a written and signed notice citing the specific reason for disapproval and indicating the portion or portions of the letter involved.

33.4 Incoming letters to inmates may be inspected and censored by the institution in accordance with procedures in this section.

33.5 An incoming letter may be disapproved only for
reasons listed in 33.1-33.2.

33.6 If an inmate is prohibited from receiving a letter, the letter will be returned to the sender with a written notice citing the specific reason for the refusal, and the inmate will be notified of the rejection, the reason, and the name of the sender.

33.7 Outgoing letters to courts, recognized attorneys at law, governmental agencies and elected officials shall not be opened or read unless for security reasons, and will be submitted sealed by the inmate with the title or position of the addressee clearly marked on the envelope.

33.8 Incoming letters from courts, recognized attorneys at law, governmental agencies and elected officials may be opened for inspection, but only in the presence of the inmate recipient and without being read for content.

33.9 The Administration shall establish a written procedure for inmate grievances involving mail, including method for written complaint, formal hearing, and written notice of complaint disposition.

34.0 Telephone

34.1 Inmates shall have reasonable access to telephones on a regular schedule.

34.2 Inmates shall be permitted to complete two local telephone calls at institution expense immediately after arrest, or two collect long distance calls if they are not local residents.

34.3 Inmates shall have maximum freedom and duration of telephone privileges consistent with the security and management needs of the institution.

34.4 Inmate telephone calls shall be confidential and shall not be monitored.

35.0 Religion

35.1 Inmates shall be permitted to attend religious services of their own denominations.

35.2 Inmates shall not be sanctioned or rewarded for attendance at religious services or be required to be present during any service.

35.3 Inmates in all conditions of detention shall have access to confidential consultation with religious advisors at any reasonable time.

35.4 Space shall be provided for religious services and programs.

36.0 Recreation

36.1 Inmates shall have active outdoor recreation at least one hour per day three days per week where possible.

36.2 Inmates shall be provided with some form of indoor recreational activity on a daily basis.

36.3 Space and equipment and supplies for recreation shall be furnished by the institution.

37.0 Work Programs

37.1 Inmate work assignments shall be made impartially according to a plan and subject to the number and type of work opportunities available.

37.2 Unsentenced inmates shall be required to do only personal housekeeping.

37.3 Sentenced inmates shall be required to do only personal housekeeping and such other tasks as necessary for facility maintenance.

37.4 Inmates may receive pay and/or diminution of sentence for work performed, as permitted by statute.

37.5 Inmate work income shall be considered personal property of the inmate.

38.0 Education

38.1 Sentenced inmates who wish to advance their general education through the high school level shall be provided the means to do so.

38.2 Sentenced inmates who wish to take correspondence or special courses at their own expense shall be permitted to do so if no specific security problems are involved.

39.0 Commissary

39.1 Inmates shall have access to commissary or canteen services where they can purchase approved items not furnished by the institution.

39.2 Commissary items shall not cost more than standard community retail prices, and all sales records shall be audited regularly by an approved agency.

39.3 Sufficient and appropriate space shall be provided for commissary services.

40.0 Inmate Management

41.0 Intake Reception

41.1 No person who is unconscious, seriously injured, or violently disturbed shall be received for booking without written authorization from a licensed physician.

41.2 New arrivals shall be processed according to written intake procedures and shall be held separate from the inmate population until completion of these procedures.

41.3 New arrivals shall be given a written itemized receipt for all personal property taken from them at time of admission.

41.4 Inmates shall be provided an opportunity to consult with bailbonding and pretrial release agencies as soon as the booking process is completed.

41.5 New arrivals shall receive written and oral information about facility rules, procedures, programs and policies, and shall have access to a translator if English is not understood.

41.6 New arrivals may be housed in individual intake holding cells for a maximum of forty-eight hours before being classified and transferred to another housing area.

41.7 Special holding provisions shall be made for persons requiring detoxification, additional safety measures and isolation.

41.8 New and renovated holding cells shall house no more than eight inmates and provide a minimum of thirty square feet of floor space per person.

41.9 Single occupancy intake holding cells shall have a floor area of at least fifty square feet.

41.10 Space shall be provided for all booking and intake areas and functions.

42.0 Classification

42.1 Inmate housing, programs, work assignments and transfers shall be made on the basis of impartial written classifications procedures, and inmates shall be informed of the reasons for these decisions.

42.2 Classification shall separate males from females, adults from juveniles, and inmates with special problems of health, behavior or vulnerability from the general population.

42.3 Initial classification assignments shall be completed according to the written schedule within forty-eight hours of admission.

42.4 The classification process shall be completed within seventy-two hours.

43.0 Supervision and Control

43.1 Inmate supervision shall be conducted by trained correctional officers, and inmates shall never be placed in positions of control or supervision over other inmates.

43.2 Supervision of inmates by opposite sex staff shall be conducted according to written procedures. Supervision of female inmates in their housing areas shall be done by female officers at all times.

43.3 Inmates shall be logged in and out when they enter or leave the security perimeter of the institution for any reason.

43.4 Inmates shall be accounted for by roll call at least once every shift and by head count at various times during each shift.

43.5 Inmates may be involuntarily confined in their cells a maximum of twelve hours in any twenty-four hour period except as required for security reasons.

44.0 Inmate Safety

44.1 Inmates shall have continuous access to communica-
tions from their housing areas to a manned control station containing emergency and alarm capability.

44.2 New inmates shall be instructed how to obtain immediate assistance in case of illness, assault, or other personal emergency.

44.3 Secure housing arrangements shall be provided for inmates requiring protective custody under conditions equivalent to those of the general inmate population.

45.0 Discipline

45.1 New inmates shall be given written rules of conduct specifying prohibited acts and penalties which may be imposed for both major and minor rule violations, and this information shall also be posted in the institution.

45.2 Inmates shall not be subjected to corporal punishment or personal abuse, or confined in instruments of restraint as punishment.

45.3 Inmates shall not be deprived of food, clothing or personal hygiene items as punishment.

45.4 Inmates shall have impartial access to formal hearing and appeals procedures for any disciplinary action.

45.5 Inmates who must be isolated for disciplinary reasons shall be held in conditions of confinement equivalent to those of the general population.

46.0 Grievance & Appeal

46.1 Inmates have the right to report grievances verbally or in writing to any official of state or local government without fear of reprisal.

46.2 Inmates shall be informed of a formal written procedure for reporting and referring grievances and making appeals.

47.0 Transportation

47.1 Vehicles used to transport prisoners shall meet state and local safety standards and shall be operated only by properly licensed personnel.

47.2 Inmates shall be transported only in accordance with written procedures and only by officers who have received special training in this duty.

47.3 Female inmates shall be accompanied by a female officer during transport.

47.4 A secure area shall be provided for transfer of prisoners and goods between the institution and transporting vehicles.

47.5 Inmates shall not be restrained during transport more than necessary to insure security, and shall never be shackled to a vehicle or left unattended in a vehicle.

48.0 Release

48.1 Inmates shall not be released from the institution until legal authority and positive identification have been verified.

50: Security and Control

51.0 Keys

51.1 Written policy and procedure shall govern the regular inspection and maintenance of locks and keys.

51.2 Written policy and procedure shall govern the issue, use, control, loss and replacement of all keys.

51.3 A locked secure area shall be provided for all keys not in use and for a full set of duplicate keys to all parts of the facility.

52.0 Control Center

52.1 Every institution shall provide a control center manned twenty-four hours, to monitor and control communications, emergency systems, and security.

53.0 Contraband

53.1 Items legally defined as contraband shall be identified in a list to be made available to all inmates, employees and visitors, together with regulations for disposal.

53.2 A list of articles approved for inmates will be identified and all other items will be considered unacceptable and disposed of according to written procedures.

54.0 Emergencies

54.1 The institution shall comply with all provisions of state and local fire, safety and other applicable codes and regulations.

54.2 The institution shall develop written emergency procedures to cover escapes, riots, fires, passive resistance, other disturbances and disasters, and emergency evacuation of inmates.

54.3 Officers who work in direct contact with inmates shall have access at all times to an emergency communication system link with central control.

54.4 Diagrams shall be posted throughout the building showing evacuation routes, and instructions for use of emergency equipment shall be posted near the equipment.

54.5 All employees shall be instructed in emergency procedures, and senior watch officers shall have access to complete emergency plans at all times.

54.6 Hardware systems must permit the release of all inmates from a housing area within a maximum of five minutes in an emergency.

54.7 Emergency exit keys shall be marked to insure ready identification under conditions of smoke, poor visibility or other crisis situations.

55.0 Searches

55.1 Searches of inmate living areas shall be conducted according to written policies and procedures, avoiding damage or destruction to personal property.

55.2 Contraband items removed during area searches shall be logged, and a receipt shall be given to the inmate if requested.

55.3 Body searches shall be conducted only when an inmate has traveled or has had contact with persons outside the security perimeter of the institution, or when probably cause can be documented.

55.4 Visual body searches shall be conducted by trained personnel of the same sex as the inmate and shall avoid force, undue embarrassment or indignity.

56.0 Hardware

56.1 Each area within the facility shall be designated for a certain level of security, and appropriate hardware shall be provided to insure that level.

56.2 Each opening in the exterior security perimeter of the facility shall contain hardware appropriate to contain safely the inmate population, and to permit controlled access by legitimate public and law enforcement personnel.

60: Building and Construction

61.0 Planning and Site

61.1 All jail facilities shall conform to state and local codes and regulations.

62.0 Sanitation and Maintenance

62.1 The institution shall comply with the health and sanitation codes of the state and with all local laws and regulations.

62.2 The institution shall maintain records of all authorized inspections made by regulatory agencies, and of all actions taken as a result of these inspections.

62.3 The institution shall develop and implement a plan for the maintenance and housekeeping of the entire physical plant.

62.4 The institution shall provide for control of vermin and pests by a specialist and shall remove inmates from areas during treatment if requested by the physician in charge.

62.5 Sanitation and housekeeping shall be the responsibility of the institution even when inmates are assigned to housekeeping and maintenance tasks.

63.0 Institution Storage

63.1 Storage shall be provided for all equipment and supplies for the functions of the institutions.

64.0 Climate Control

64.1 Temperature and humidity ranges in the institution shall be checked and approved by the state health officer.

64.2 All equipment used for heating, ventilating and air-conditioning shall comply with state and local codes and regulations.

64.3 Ventilation systems shall be designed for kitchens, toilets, showers and laundry rooms and for the removal of chemic-
al agents where they may be used.
65.0 Lighting and Power
65.1 All electrical wiring shall comply with state and local
codes and regulations.
65.2 Facilities shall have two independent sources of pow-
er, each sufficient to maintain minimum vital services during an
emergency.
65.3 Illumination in housing areas shall be sufficient to permit
reading, and shall be reduced to a level to permit normal sleep
during night hours.
66.0 Mechanical and Plumbing
66.1 All water supply, sewerage and plumbing installations
shall comply with state and local codes and regulations.
66.2 Infant housing areas shall have hot and cold potable
water supplied to each lavatory and shower fixture.
66.3 Water supplies to kitchen and laundry equipment
shall meet the temperature and volume recommended by state
and local codes and regulations.
66.4 All inmate occupied areas shall be provided with
positive floor drainage.

Elmer B. Litchfield,
Executive Director
Louisiana Commission on Law Enforcement
and Administration of Criminal Justice

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO
AGENCY - (Summary)
The 1980 Capital Outlay Legislation provides $34,960,000
for the planning, acquisition, construction, and renovation of
parish jails in ten parishes which are under federal court
orders. Under the Legislation, each participating parish must
reimburse the state for thirty percent of the total bonded debt.
The Legislation further provides that the funds shall be avail-
able only if each parish agrees to comply with the standards
set for Louisiana jails.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS -
(Summary)
There will be no effect on revenue collections.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED
GROUPS - (Summary)
The proposed rules will have no direct financial impact upon
parishes. Those parishes electing to participate in the program
will receive state capital outlay funds to plan, construct or
renovate their respective jails. This election will result in each
parish being required to adhere to the jail standards estab-
lished in the proposed rules. These standards require, for the
most part, the jailkeeper to develop accepted procedures of
operation in the jail. The new jails, coupled with improved
procedures, will greatly benefit the prisoners and meet the
mandates established by federal courts.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOY-
MENT - (Summary)
1. The implementation of the proposed rules will have no
direct impact upon competition and employment.
2. The Capital Outlay Legislation will result in the construction
or renovation of jails thereby creating additional jobs in the
construction industry.

Elmer B. Litchfield,
Commissioner on Law Enforcement

Mark C. Drennen
Legislative Fiscal Officer

RULE
Department of Health and Human Resources
Board of Examiners of Psychologists

The Board approved for final adoption Rules on the Use of
Specialty Titles.

Rules on the Use of Specialty Titles
I. The definition of the practice of psychology, as con-
tained in Louisiana R.S. 37:2352(5), is a generic descrip-
tion, individuals certified under the provisions of Louisiana R.S.
37:2351-2368 are licensed to practice psychology in accordance
with that statute and the rules and regulations of the Board
adopted under the provisions of state statute.

II. The Board's "Ethical Standards of Psychologists" in-
cludes the following statements under Principle 2:
A. "Psychologists recognize the boundaries of their com-
petence and the limitations of their techniques and only provide
services, use techniques, or offer opinions as professionals that
meet recognized standards."
B. "Psychologists accurately represent their competence,
education, training, and experience."

III. The use of any specialty title must be consistent with the
Board's "Ethical Standards" and with such additional standards as
may be designated by other, professional but nonstatutory,
Boards which certify the use of such specialty titles by individuals
who present appropriate qualifications to them.
A. The term "specialty" refers to an area within the profes-
sion of psychology which can be identified on the basis of a history
and tradition of service, research, and scholarship to have a body
of knowledge and a set of skills related to that knowledge base,
and which is discriminably different from other such specialties.
B. "Special proficiency" recognizes the mastery of a spe-
cial skill, special technique, or an in-depth knowledge of the needs
of a specific population or problems of a specific setting. Such
special proficiencies are not unique to any one specialty of
psychology, and also may not be unique to the profession of
psychology.

IV. As a service to both the public and those individuals
licensed by the Board, the Board offers the opportunity for reg-
istering the licensee's area of competence, education, training, and
experience within a limited list of recognized "specialties," as
defined in IIIA. above. The Board does not maintain a list of
"special proficiencies," as defined in III B. above.
A. Those specialties which are currently recognized by the
Board are: Clinical, Counseling, School, Educational, Develop-
mental, Experimental, Industrial/Organizational, Social.
B. The non-registration of such specialties shall not pre-
vent licensed providers of psychological services from using the
methods or dealing with the populations of any specialty, as long
as the provision of such services is in accordance with the Board's
rules and regulations.

V. For the registration of a specialty in an applied area of
psychology, at the time the license is granted, the candidate must
meet the standards described in the Board's "Rules on Training
and Credentials," Section III.C. Such supervised training experi-
ences must be supported by appropriate graduate level education,
as described in the Board's rules and regulations.

VI. The registration of each additional specialty or the regis-
tration of a specialty after licensure must meet all criteria
described above, including both appropriate graduate or post-
graduate education and appropriate supervised training experi-
nences.

The Board, as a means of establishing Rules and Regula-
tions for Internship, approved for final adoption the following
changes in the Rules and Regulations for Supervision of Un-
licensed Psychologists. The Board changed the title from Rules
and Regulations for Supervision of Unlicensed Psychologists to
Rules and Regulations for Supervised Practice Leading Toward
Licensure.

The Board revised I.A.I. to read: Credit shall not be
granted for practice in connection with course work practicum
experience for which predoctoral graduate credits are granted.

The Board approved addition of 1.A.3, Rules and Regulations Defining Internship Programs as follows:

1.A.3. A predoctoral internship shall be credited toward the required two years of supervised experience:

a. If that experience was required as a part of the doctoral degree, and was a minimum of 2000 clock hours of supervised practice.

b. Any internship which meets all other criteria of this rule, but is less than 2000 hours in duration, may be credited proportionately toward two years of experience required for licensure:

(1) If that internship covered a minimum of 1000 clock hours.

(2) The applicant or candidate completes all other supervised experience after award of the doctoral degree.

B. Supervised experience shall be credited for professional practice only if obtained in a public or private agency, institution, or organization which will provide an opportunity to utilize a variety of theories and work with a broad range of populations and techniques.

1. The contribution of at least one other discipline whose expertise is germane, into the evaluation and intervention decisions in professional problem areas is a necessary aspect of professional training and practice.

2. Experience in other settings may be considered only by prior arrangement with, and approval of, the Board.

Wayne A. Greenleaf, Ph.D.
Chairman
Board of Examiners of Psychologists

---

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

There is no cost. However, the agencies, boards, and commissions will benefit by having specialty titles accepted by the profession.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

There is no apparent effect on competition and/or employment.

Wayne Greenleaf, Chairman
Board of Examiners of Psychologists

---

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) - (Summary)

There are no estimated implementation costs to the agency.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

There is no estimate on revenue collections.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

Applicants for psychologists licenses, as well as the Department of Health and Human Resources and any other government agencies that employ psychologists, will benefit due to the elimination of a restriction previously placed on becoming a licensed psychologist.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

It may encourage free and open competition due to the reduction of restrictions placed on becoming a licensed psychologist.

Wayne Greenleaf
Chairman
Board of Examiners of Psychologists

Department of Health and Human Resources
Office of Family Security

The Department of Health and Human Resources, Office of Family Security, has adopted effective August 1, 1980 the following increases in the Aid to Families with Dependent Children (AFDC) and General Assistance (GA) grant amounts.

Using a fourteen percent increase standard for AFDC and a ten percent increase standard for GA the new grant amounts are proposed as follows.

I. AFDC

A. For Parishes Other Than Those Specified in B Below

<table>

For each additional persons, add $44.00 to the flat grant amount.

II. General Assistance

A. Regular Grant — The maximum amount paid for a regular grant shall be:

(1) $83.00 when only one person is to be included in the certification.

(2) $120.00 when two or more persons are included in the certification.

B. Special Grant — The maximum amount paid for a special GA grant shall be:

Mark C. Drennen
Legislative Fiscal Officer
(1) $121.00 when the budget plan includes an allowance for a special diet approved for a special grant and only one person included in the certification. $127.00 when a special diet is approved and there are two or more persons in the certification.

(2) $139 when the budget plan includes an allowance for discharge from a state mental institution.

(3) $132.00 when the budget includes one person and an allowance is necessary for special care in his own home or home of a relative or in a private home by an unrelated person. $138.00 when the budget includes two or more persons and special care as explained above is necessary.

C. GA III or Handicapped Children’s Grant — The amount paid shall be the family budgetary deficit subject to $121.00 maximum without inclusion of the extra cost of the child’s special diet and/or essential transportation (if any), plus the cost of this item or items subject to a maximum of $306.00.

D. Other Grants.

(1) Financial Assistance to persons who were patients in Carville and who ceased to be eligible for OAA, ANB, or DA assistance on January 1, 1974, as a result of the SSI Program. This is applicable in Iberville Parish only. (Effective October, 1975.) Those persons who are currently patients at Carville referred to above, if otherwise eligible, shall be allowed $39.00 for basic requirements to provide for personal needs not provided by the hospital.

(2) GA recipients receiving SNF care in a skilled nursing home or ICF I or ICF II care in an intermediate care facility shall receive a personal care needs allowance of $24.00.

E. Indochinese One-Person Households — Indochinese one-person households shall receive payment in accordance with the payment level applicable to a one person GA certification.

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

A. Total estimated implementation cost for FY 80-81 is
$55,440; FY 81-82 is $63,840, and FY 82-83 is $73,440. B. Implementation of the rule change would cause an insignificant increase in workload. There would be no increase in personnel therefore no additional cost to the program in this area.

C. The source of funding for FY 80-81 is $17,286 state funds and $38,154 federal funds; FY 81-82, $20,869 state funds and $42,971 federal funds; and FY 82-83, $24,375 state funds and $49,065 federal funds.

D. Sufficient funds are on hand to implement the proposed rule change.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

None

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

The proposed rule change would increase by twenty the number of Title XIX eligible per month in the Medically Needy Program. There would be no cost to recipient. Benefits received by this group would be eligible for Title XIX covered medical services.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

None

Michael S. Haddad

Mark C. Drennen
Legislative Fiscal Officer

RULE

Department of Health and Human Resources
Office of Family Security

The Department of Health and Human Resources, Office of Family Security, has implemented a new reimbursement methodology and increase payment rates for private nursing homes enrolled in the Medical Assistance Program effective with the November, 1980 Payment.

The methodology is to set reasonable payment rates which are cost related by levels of care by regions.

The rates of Region I, composed of Orleans, Jefferson, St. Tammany, and St. Bernard Parishes, are:

<table>
<thead>
<tr>
<th>Level of Care</th>
<th>Monthly Rate</th>
<th>Daily Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Skilled Nursing Facilities</td>
<td>$1,016.22</td>
<td>$33.41</td>
</tr>
<tr>
<td>Intermediate Care Facilities I</td>
<td>861.70</td>
<td>28.33</td>
</tr>
<tr>
<td>Intermediate Care Facilities II</td>
<td>683.16</td>
<td>22.46</td>
</tr>
</tbody>
</table>

The rates for Region II, composed of the remaining parishes, are:

<table>
<thead>
<tr>
<th>Level of Care</th>
<th>Monthly Rate</th>
<th>Daily Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Skilled Nursing Facilities</td>
<td>$968.77</td>
<td>$31.85</td>
</tr>
<tr>
<td>Intermediate Care Facilities I</td>
<td>809.69</td>
<td>26.62</td>
</tr>
<tr>
<td>Intermediate Care Facilities II</td>
<td>644.83</td>
<td>21.20</td>
</tr>
</tbody>
</table>

George A. Fischer, Secretary
Department of Health and Human Resources

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

The Office of Family Security anticipates an increase in costs of $1,054,794.00 for FY 80-81 to implement this change. For FY 81-82 the cost will be $1,676,124.00 and for FY 82-83 $1,916,735.00. Funds for implementing the proposed rule will be based on 31.18% State funds and 68.82% Federal Funds. Sufficient funds have been appropriated to implement the rule change for the current year.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

None

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

An increase in the reimbursement rate which more adequately meets facility costs in Region (I) should increase the quality of care provided recipients in these Long Term Care facilities.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

If the additional 1,011 Long Term Care beds, currently authorized by the State Health Planning and Development Agency are certified they would open up approximately 430 new jobs in the area. However, there would be competition among existing Health Care Providers for nursing staff.

Legislative Fiscal Officer

RULES

Department of Health and Human Resources
Office of Licensing and Regulation
Division of Health Planning and Development

In accordance with the provisions of the designation agreement between the Louisiana Department of Health and Human Resources (DHHR) and the United States Department of Health and Human Services (DHHS) to conduct a program in Louisiana to review capital expenditures by health care facilities under Section 1122 of the Social Security Act, the following rules were adopted by the DHHR in its capacity as the State Health Planning and Development Agency (SHPDA) under Public Law 93-641 and as the Designated Planning Agency under Public Law 92-603 (Section 1122).

Documents containing those rules, regulations, procedures, guidelines, standards and criteria which shall be used in conducting the Section 1122 review program are as follows.

1. Federal Register, Volume 38, Number 218 - Tuesday, November 13, 1973, pages 31381 - 31385 pertaining to Part 100 of Title 42, CFR, "Limitation of Federal Participation for Capital Expenditures."

2. Federal Register, Volume 42, Number 14 - Friday, January 21, 1977, pages 4001 - 4032, pertaining to Parts 100 and 123 of Title 42, CFR.

3. Federal Register, Volume 42, Number 17 - Wednesday, January 26, 1977, pages 4847 - 4848, pertaining to "Policy on Lack of Timely Notice" under Part 100 of Title 42, CFR.

4. Federal Register, Volume 44, Number 81 - Wednesday, April 25, 1979, pages 24428 - 24429, pertaining to 42 CFR 100.103.

5. "Policies and Guidelines for Section 1122 Capital Expenditure Review," as adopted herein by the Division of Health Planning and Development.

7. 1980 Revised State Health Plan, as adopted by the Statewide Health Coordinating Council.

8. Designation agreement between DHHR and DHHS to conduct the Section 1122 review program, including attachments.
Section 1122 Guidelines

Section 1122 of the Social Security Act, as amended by Public Law 92-603, the Social Security Amendments of 1972, requires that a health facility which proposes to make a capital expenditure obtain prior approval by a designated planning agency in order to be reimbursed for expenses related to the capital expenditure under the Medicare, Medicaid, and Maternal and Child Health programs. The purpose of this provision is to assure that federal funds are not used to support unnecessary capital expenditures by health care facilities.

The state agency designated to carry out the provisions of this law in Louisiana is the Division of Health Planning and Development (DHPD), which is the state agency organized under P.L. 93-641.

In making its review of proposed capital expenditures DHPD will consult with the appropriate health systems agency in addition to the Division of Licensing and Certification and any other appropriate state agency.

For the purpose of this Section (1122), “health care facility” includes hospitals, psychiatric hospitals, tuberculosis hospitals, skilled nursing facilities, kidney disease treatment centers including freestanding hemodialysis units, intermediate care facilities, and ambulatory surgical facilities, but does not include Christian Science sanatoriums operated or listed and certified by the First Church of Christ, Scientists, Boston, Massachusetts.

Capital expenditures covered are those which are not properly chargeable as expenses of operation and maintenance and which exceed $100,000 or change the bed capacity of the facility or substantially change the services of the facility. Any questions regarding applicability of expenditures to review should be directed solely to DHPD for an official determination.

When making a determination of the total amount of any capital expenditure discussed herein, DHPD shall consider the cost of studies, surveys, designs, plans, working drawings, specifications and other activities essential to the acquisition, improvement, expansion or replacement of the plant and equipment with respect to which such expenditure is made.

Proposals for the acquisition of facilities or equipment by lease or comparable arrangement or through donation may be subject to review under Section 1122. DHPD should be contacted for a determination of applicability and assistance in computing amounts subject to Section 1122 review.

Any capital expenditure for which the obligation is incurred by or on behalf of a health care facility after December 31, 1972, is subject to review under these provisions.

An expenditure for which an obligation was incurred before January 1, 1973, is not subject to review requirements of Section 1122.

The statute permits an exception to any health care facility providing services as of December 17, 1970, which as of that date was committed to a formal plan of expansion or replacement as approved by the facility’s board of trustees. This can only occur if the facility spent $100,000 or more during the three-year period ending December 17, 1970, for preliminary items on the plan including payments for studies, surveys, designs, plans, working drawings, specifications and site acquisitions. In such a case, Section 1122 shall not apply to capital expenditures made in conformity with that plan. The exception shall, however, not apply to capital expenditures which are not included in the plan.

DHPD may, at its option, elect not to review certain proposed capital expenditures which have been determined to be subject to review under Section 1122 of the Social Security Act. A decision to elect not to review shall be equivalent to a determination by DHPD that such expenditure is in conformity with applicable standards, criteria or plans.

In order to be eligible for election not to review, a proposal must meet all of the following criteria.

1. There will be no substantial change in services offered by the health care facility as a result of the proposed expenditure, except that proposals costing less than $100,000 which result in the addition or termination of a clinically related service may be considered for election not to review.

2. Proposals for the addition of beds will be considered for election not to review on a case-by-case basis, providing the addition can be undertaken in a manner consistent with cost-effectiveness and good quality care. A full review will be required when (a) the proposed expenditure exceeds $100,000 or (b) the bed component of the facility will be increased by more than 10 percent of the total number of licensed beds.

3. Total costs of the proposal do not exceed $1,000,000 except that proposals for the replacement of existing medical equipment, for the acquisition of non-medical equipment, for construction and/or renovations to achieve compliance with life safety codes or for the acquisition of a health care facility through purchase, lease or comparable arrangement will be considered for election not to review on a case-by-case basis.

4. The proposed expenditure is not a discrete component of a larger capital expenditure or a part of a phased project, the total cost of which would disqualify that proposal from election not to review according to the criteria set forth in this section.

DHPD may, at its option, subject any proposal to full review, including proposals which meet all of the above criteria.

A person proposing a capital expenditure by or on behalf of a health care facility, which expenditure may qualify for election not to review according to the above criteria, should submit in writing to DHPD notice of intent to make the capital expenditure. After examining the information contained in such notification, and any additional information DHPD may request, a determination will be made by DHPD whether or not to elect not to review the proposed expenditure.

If DHPD determines that such proposal shall require full review, the applicant will be notified of such decision and will be supplied with appropriate application forms to provide information adequate for full review of the proposal.

The procedures for review are as follows.

1. Any person, agency, organization, or health care facility which proposes to make a capital expenditure subject to review under the provisions of Section 1122 of the Social Security Act should request an application from DHPD.

2. DHPD will promptly send a copy of this booklet and a questionnaire to the applicant.

3. The appropriate health systems agency concerned will be notified of the proposed expenditure (and the applicant will be notified of the health systems agency covering the area in which his project is located).

4. The applicant should fill out the questionnaire in coordination with the appropriate health systems agency. When ready for submittal for review, the applicant must provide three copies of the application to DHPD and simultaneously provide twenty-five copies of the application to the appropriate health systems agency. All copies submitted must be identical.

5. An application must be received by DHPD and determined to be complete at least sixty days prior to the date upon which the applicant expects to incur an obligation to make the expenditure. If DHPD determines that the applicant is incomplete, the applicant will be notified within fifteen days of additional information needed. This determination is made in coordination with the appropriate health systems agency.

6. The applicant must provide additional information as requested in Part 5 above, again with the provision that requested information be received by DHPD at least sixty days prior to the expected date of obligation to make the expenditure.

7. The review period will not exceed ninety days unless the applicant agrees to a longer time period. The review period will begin upon receipt by DHPD of a complete application. Procedures governing incomplete applications are found in Parts 5 and 6 above.

8. DHPD will issue a press release of its receipt of the complete...
application.
9. DHPD will send copies of the application to the Division of Licensing and Certification and any other state agency deemed appropriate by DHPD.
10. The appropriate health systems agency will review the application at a public meeting of an appropriate committee. Notice of the meeting will be publicized in the local newspaper. In addition, the applicant will be given sufficient notice of the date of the meeting and will be invited to attend to explain his application. The review committee will make its recommendations to the board of directors or executive committee, which body shall make the final decision of the health systems agency and send its findings and recommendations to DHPD.
11. The Division of Licensing and Certification and other state agencies from which comments have been requested will review the application and send their recommendations to DHPD.
12. Findings and recommendations pursuant to Parts 10 and 11 above will be received by DHPD no later than sixty days after start of the review period. In the case of an application which specifies that an obligation to make the capital expenditure will be incurred sixty days after start of the review period, DHPD will coordinate with the health systems agency and the Division of Licensing and Certification to establish a date by which findings and recommendations will be received by DHPD. Such date should allow sufficient time for the health systems agency and Division of Licensing and Certification review, as well as a period for consideration of those findings and recommendations by DHPD.
13. DHPD will then complete the review and send its findings and recommendations to the applicant, the Secretary of DHHS, the health systems agency, the Division of Licensing and Certification, and the Secretary of the Department of Health and Human Resources of Louisiana. This step shall be completed not more than ninety days after the date DHPD has received the completed application unless the applicant has indicated an earlier date for obligation of the expenditure. However, a minimum of sixty days must be allotted for completion of the review. At an applicant's request or concurrence, the review period may be for a longer period of time as agreed.
14. DHPD will issue a news release of the final finding.
15. In the case of a negative recommendation by DHPD, the applicant may request an appeal, which request must be made in writing and received by DHPD within thirty days after the applicant has received notice in writing of the notice of disapproval.
16. DHPD will notify the Attorney General of the State of Louisiana who is responsible for conduct of the appeal hearing.
17. The Attorney General will select a hearing date and notify DHPD, and the hearing shall be commenced within thirty days after receipt of the request for a hearing by the applicant (or later, at the option of the person requesting the hearing).
18. DHPD will notify the applicant of the hearing date.
19. DHPD will issue a news release of the hearing.
20. As soon as possible, but not later than forty-five days after the conclusion of the hearing, the Attorney General will notify the applicant, DHPD, and the Regional Health Administrator (DHHS) of the appeal decision.
21. DHPD will issue a press release of the appeal decision.
Evidence of Obligation to make the capital expenditure must be received by DHPD within one year after approval of the project, or the approval will expire.
As provided in the regulations, the one year approval period may be extended for up to six months at the discretion of DHPD in consultation with the health systems agency upon the showing of good cause by the proponent.
A progress report to DHPD on the project is required six months after approval.
As provided in the regulations, an obligation to make a capital expenditure shall be incurred not more than one year following the date of approval. An obligation shall be deemed to have been incurred by or on behalf of a health care facility or health maintenance organization:
A. When an enforceable contract is entered into by such facility or organization or by a person proposing such capital expenditure on behalf of such facility or organization for the construction, acquisition, lease or financing of a capital asset; or
B. Upon formal internal commitment of funds by such facility or organization for a force account expenditure which constitutes a capital expenditure; or
C. In the case of donated property, the date on which the gift is completed in accordance with applicable Louisiana law.
It is the sole responsibility of the proponent to keep DHPD informed of its progress during the one year approval period and to submit documentary evidence as proof that at least one of the above conditions has been fulfilled. The following conditions have been established regarding the acceptance of certain documents as proof of an obligation:
A. In the case of a construction contract, such document must be fully consummated and filed with a local clerk of court's office in accordance with applicable state law.
B. In the case of a purchase or lease arrangement, a signed purchase or lease agreement.
C. In the case of a financial commitment, such commitment must be a documented binding commitment from a lending institution for permanent or interim financing accompanied by an acceptance signature from the proponent.
D. In the case of bonds, an obligation is deemed to have been incurred whenever the bonds have been approved for sale or issuance by either an election or board action of an official public body acting on behalf of a health care facility.
If DHPD recommends that the capital expenditure not be made, the Secretary of DHHS shall, in determining the federal payments to be made under Titles V, XVIII and XIX of the Social Security Act to the health care facility, ordinarily exclude certain expenses related to such capital expenditure. However, if the Secretary, after submitting the matters involved to the National Advisory Council on Health Planning and Development and after taking into consideration the recommendations of DHPD and other reviewing agencies, determines that an exclusion of expenses for a capital expenditure would discourage the expansion of operation of a health care facility (or any facility of such an organization) which has demonstrated capability to provide comprehensive health care services efficiently, effectively, and economically or would otherwise be inconsistent with the effective organization and delivery of health services or the effective administration of Titles V, XVIII, and XIX, he shall include such expenses in federal payments under such titles.
When DHPD has good cause to believe that an obligation for a capital expenditure has been incurred by or on behalf of a health care facility and that timely notice of at least sixty days was not provided, DHPD shall send written notification to such health care facility, the Secretary, the health systems agency in the concerned area, and all other agencies deemed appropriate by DHPD of a proposed finding that an obligation for a capital expenditure subject to review has been incurred and that timely notice was not provided. Procedures for processing such a finding shall be according to Section 100.108 (a) of the regulations, and the policy on lack of timely notice as published January 26, 1977, in the Federal Register, Volume 42, Number 17.
In the case of disapproved project, the applicant will be entitled to a reconsideration by DHPD of its finding: (a) whenever there is a substantial change in existing or proposed health facilities or services of the type proposed in the area; (b) upon a substantial change in the need for facilities or services of the type proposed in the area; or (c) at any time following the expiration of three years from the date of the finding of DHPD or of its last reconsideration of such finding pursuant to this paragraph, whichever is later.
If DHPD finds, after such reconsiderations, that the facilities or services provided by the capital expenditure involved are in conformity with the applicable standards, criteria, or plans, and so notifies the Secretary of DHHS, the Secretary will include, in determining future payments under Titles V, XVIII, and XIX, expenses related to such capital expenditure. However, such expenses will be included only for payments following the date of notification to the Secretary by DHPD of its reconsideration.

In making recommendations concerning projects reviewed under Section 1122 of the Social Security Act, the review body or agency at each level designated in the review process shall consider, but not be limited to, the following criteria, as required under P.L. 93-641 and implementing rules and regulations.

1. The relationship of the health services being reviewed to the applicable Health Systems Plan and Annual Implementation Plan and the State Health Plan adopted pursuant to the provisions of P.L. 93-641.

2. The relationship of services reviewed to the long range development plan (if any) of the person providing or proposing such services.

3. The need that the population served or to be served by such services has for such services. In considering the need for a proposed project, DHPD and the health systems agency will review, but not be limited to, the following information:
   A. The availability of similar facilities, services and institutional beds within the service area, including but not limited to:
      (1) Number of similar facilities, services and beds in the service area.
      (2) Ratio of institutional beds to the population, as a whole and where appropriate, to age groups.
      (3) Comparison of service area bed ratio with other health service areas in the state and other relevant areas.
      (4) Distribution of institutional beds, services, and facilities within the area.
   B. Accessibility of the target population of the proposed project to existing and proposed facilities and services. (This would include physical and financial accessibility.)
   C. Measures of utilization of existing facilities and services:
      (1) Admission rates per 1,000 persons.
      (2) Occupancy rate:
         Average Daily Census
         Number of beds
      (3) Length of stay (average):
         Census x 365
         Annual Admissions
      (4) Other appropriate utilization material.
   D. Projects of utilization.
   E. A delineation of the proposed service area.
   F. Various projections of bed need.
   G. The projected population growth or lack of growth of the proposed service area.
4. The availability of alternative, less costly, or more effective methods of providing such services.
5. The immediate and long term financial feasibility of the proposal.
6. The relationship of the services proposed to be provided to the existing health care system of the area in which such services are proposed to be provided. The health systems agency and DHPD will review, but not be limited to, documentation of coordination and/or linkage agreements between the applicant and existing or planned health care institutions and/or providers within the service area.
7. The availability of resources (including health manpower, management personnel, and funds for capital and operating needs) for the provision of the services proposed to be provided and the availability of alternative uses of such resources for the provision of other health services. The health systems agency and DHPD will review, but not be limited to, the following information regarding Health Care staffing.

A. Present and projected - availability of physicians in the service area.
B. Present and projected - availability of nursing personnel in the service area, and adequacy of proposed staffing according to required standards.
C. Present and projected - availability of management and other personnel in the service area.
8. The relationship, including the organizational relationship, of the health services proposed to be provided to ancillary or support services.
9. The special needs and circumstances of those entities which provide a substantial portion of their services or resources, or both, to individuals not residing in the health service areas in which the entities are located or in adjacent health service areas. Such entities may include medical and other health professional schools, multi-disciplinary clinics, and specialty centers.
10. The special needs and circumstances of health maintenance organizations for which assistance may be provided under Title XIII of the Act.
11. The special needs and circumstances of biomedical and behavioral research projects which are designed to meet a national need and for which local conditions offer special advantage.
12. In the case of a construction project, the cost and methods of the proposed construction, including the costs and methods of energy provision, and the probable impact of the construction project reviewed on the cost of providing health services by the person proposing such construction project.

The criteria adopted for reviews in accordance with the above may vary according to the purpose for which a particular review is being conducted or the type of health service reviewed.

An approval issued in accordance with Section 1122 of the Social Security Act in no way relieves an applicant of responsibility for fulfilling other state and/or federal requirements.

George A. Fischer, Secretary
Department of Health and Human Resources

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary) There are no estimated implementation costs or savings to the agency.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary) This rule will have no effect on revenue collections.

RULES
Department of Natural Resources
Office of Environmental Affairs
Environmental Control Commission

In Volume 6, No. 7 of the Louisiana Register of July 20, 1980, the Environmental Control Commission gave notice of intention to hold a public hearing to adopt as final regulations, the complete revision of the Louisiana Radiation Regulations.

608
A public hearing was held on August 26, 1980, with members of the public giving oral testimony before the Commission. In addition, several written comments were submitted prior to the hearing. The Environmental Control Commission determined to study the comments and place final adoption of the Louisiana Radiation Regulations on the agenda for the September 25, 1980 meeting of the Environmental Control Commission.

All substantive comments were given careful consideration, and the proposed revision received no adverse comments at the September 25, 1980 public hearing. The Environmental Control Commission, therefore, announced the adoption and promulgation of this revision of the Louisiana Radiation Regulations, to take effect immediately upon publication of such notice in the Louisiana Register.

The Department of the State Register has exercised its option under R.S. 49:954.1C to decline publication of the new radiation regulations in the Louisiana Register. Copies of the Louisiana Radiation Regulations may be obtained after printing from: Office of Environmental Affairs, Nuclear Energy Division, Box 14690, Baton Rouge, Louisiana 70898.

B. Jim Porter, Assistant Secretary
Office of Environmental Affairs

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
It is estimated that there are no implementation costs or savings to the agency.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
This revision of the regulations will have no effect on revenue collections.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
It is estimated that there are no costs or benefits to any other groups.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
It is estimated that there will be no effect on competition and employment.

Legislative Fiscal Officer
NOTICE OF INTENT
Department of Agriculture
Horticulture Commission

In accordance with the provisions of LSA 49:951, et seq., the Louisiana Administrative Procedure Act, and LSA 37:1961 B, relative to the authority of the Louisiana Horticulture Commission, notice is hereby given that the Louisiana Department of Agriculture, Louisiana Horticulture Commission, will conduct a public hearing on January 6, 1981, at 10:00 a.m., in the office of the Commissioner of Agriculture, twenty-first Floor, State Capitol, Baton Rouge, relative to the adoption of the following Rule:

1. All applicants for examination for licensure as a landscape architect shall apply for such examination no later than March 15 of each year.

2. All applicants for examination for licensure as a landscape architect shall pay an examination fee of $150.00 at the time applications for such examination is made.

Written comments will be accepted up to and including January 5, 1981, by Dan Devenport, Director, Louisiana Horticulture Commission, P. O. Box 18190A, University Station, Baton Rouge, Louisiana 70893, or may be presented in person at the public hearing.

All interested persons will be afforded a reasonable opportunity to submit data, views, or arguments, orally or in writing, as provided by R.S. 49:953.

Bob Odom
Commissioner of Agriculture

Fiscal and Economic Impact Statement
for Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
The copy of the examination has been costing the commission $138 per exam while the applicants were only being charged $25 in fees. It is estimated that $6,000 per year has been lost due to this differential. The fee increase to the applicants, raising the examination fee to $150 seeks to rectify this problem.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
The commission estimates that any increased revenue collections will offset the losses which it has previously incurred.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
There will be a $125 increase to applicants taking the entire exam. A portion of the applicants take only some part of the test. The fee increase will bring the examination fees in line with other states.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
There will be no effect on competition and employment.

Dan Devenport, Director
Louisiana Horticulture Commission

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT
Department of State Civil Service
Board of Ethics for Elected Officials

The Board of Ethics for Elected Officials, in the Department of State Civil Service, has scheduled a public hearing to consider the adoption of administrative rules containing definitions of terms used therein, provisions for organization of the Board and its responsibilities, duties of the Executive Secretary and counsel, the procedure for handling complaints and hearings, provisions for discovery and the maintenance of records and reports.

Fiscal and Economic Impact Statement (filed with the Legislative Fiscal Office pursuant to Act 392 of the 1980 Legislature) declares that the estimated implementation costs to the agency will be $500; that the adoption of the rules will have no effect on revenue and collections; that the economic impact on the state and political subdivisions of the state will not exceed $1000; and that the adoption of the rules will have no effect on competition and employment.

Inquiries and comments should be addressed, in writing, to R. Gray Sexton, Executive Secretary and Counsel to the Board, at 7434 Perkins Road, Suite B, Baton Rouge, Louisiana 70808, prior to November 18, 1980.

The public hearing will be held at 2:00 p.m. on the afternoon of November 21, 1980 in the hearing room of the Contractors Licensing Board Building, 7434 Perkins Road, Baton Rouge, Louisiana. Interested persons are invited to attend.

R. Gray Sexton, Executive Secretary
Board of Ethics for Elected Officials

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT
Department of Commerce
Racing Commission

The Louisiana State Racing Commission does hereby give notice in accordance with law that it intends to adopt rule LAC 11:6.25.32. Due notice of this intent was given at the Racing Commission Meeting held on October 9, 1980 in Bossier City, Louisiana.

Copies of the rule LAC 11:6.25.32 may be obtained by telephoning the Commission at Area Code 504, 568/5870 or by writing to Suite 1020, One Shell Square, 701 Poydras Street, New Orleans, Louisiana 70139.

The office of the Commission will be open from 9:00 a.m. to 4:00 p.m. and interested persons may call Ms. Rosalie Robinson during this time, holidays and weekends excluded for a copy of this rule. All interested persons may submit written comments relative to these rules through November 4, 1980.
Albert M. Stall, Chairman
Racing Commission

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
The adoption of the proposed rule is anticipated to have no fiscal impact on the agency.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
Revenue collections will not be effected by the adoption of this rule.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
Benefit - This rule in permitting coupled entries in races enhances the likelihood of racetracks having an adequate number of entries in each race; thereby, better serving the patrons of the track. There is no additional cost associated with this rule.

IV. estimated effect on competition and employment - (Summary)
No effect on competition or employment.

Albert M. Stall, Chairman
Racing Commission

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT
Office of the Governor
Division of Administration
Policy & Procedure Memorandum
No. 66

Subject: Miscellaneous Payroll Deductions

Pursuant to the authority of the Commissioner of Administration in L.R.S. 39:91, the Division of Administration, Office of the Governor, proposes to adopt the following uniform accounting policy concerning miscellaneous payroll deductions for State employees:

I. Definitions
A. “Miscellaneous payroll deductions” shall be defined as those voluntary payroll withholdings not mandated by State or Federal statute.
B. “Organization” as utilized herein shall be defined as those groups authorized to receive payroll deductions by statute or executive order and/or those corporations registered with the Secretary of State who have been approved or are requesting approval from the Division of Administration to receive payroll deductions under these provisions. Examples of these organizations shall include credit unions, United Fund agencies, labor unions as approved by the employing authority, and insurance companies. Intraoffice payroll deductions such as flower, gift and coffee funds previously permitted will not be authorized.

II. Application Process
A. Any organization requesting authority to implement a miscellaneous payroll deduction shall submit a completed application form to the State Accounting Office. The application form shall include:
1. A petition signed by at least 200 current state employees requesting that the organization be permitted to receive payroll deductions.
2. Information relative to the organization requesting the payroll deduction.
3. Information relative to the disposition and processing of the payroll deduction by the organization, reflecting the use of generally accepted accounting procedures.
B. The petition and application shall be reviewed by the Division of Administration to ascertain its potential impact on and service to State employees, Reserving the right to investigate and
verify any material submitted. The Division of Administration shall notify the organization of the approval or rejection of its application. Upon approval of the application, the organization shall submit to the Division of Administration, State Accounting Office the one-time Enrollment Fee. (Section VI)

C. (1) For Uniform Payroll System agencies, the Division of Administration shall implement the payroll deduction following the receipt of the Enrollment Fee.

(2) For payroll systems independent of the Uniform Payroll System, the Division of Administration shall notify the appropriate fiscal authority of the system that the payroll deduction has been approved, and the appropriate fee paid and should be implemented.

III. Annual Renewal Requirements

An annual Renewal Fee (Section VI) shall be required from all organizations authorized to receive payroll deductions, due prior to June 1 as payment for the subsequent fiscal year.

IV. Termination of Payroll Deductions

A. Organizations failing to maintain participation of at least one hundred employee deductions for eight consecutive bi-weekly pay periods, four consecutive monthly pay periods, or the equivalent pay period appropriate for the agency involved will be terminated unless exempted by State statute or executive order.

B. The Division of Administration, State Accounting Office shall notify the organization of the date of its final payroll deduction after termination. It will be the responsibility of the organization to notify its participants of the termination of deduction.

V. Transitional Procedures For Currently Authorized Organizations

A. Any organization or other group currently receiving funds through voluntary State employee payroll deductions shall continue to be approved as a receiving organization under the following conditions:

(1) An application is completed and submitted to the Division of Administration, State Accounting Office with any required documentation by April 1, 1981. A petition with 200 signatures is not required.

(2) The Division of Administration approves the applicant organization after review and consistent with the definition in Section I as a receiving organization.

(3) State Accounting Office records indicate that the minimum number of deductions required in Section IV has been maintained during the third quarter of the 1981 State fiscal year or the organization is authorized to receive voluntary payroll deductions from State employees by State statute or executive order.

(4) If approved, the receiving organization submits the Renewal Fee (Section VI) to the State Accounting Office by June 1, 1981, which shall be its payment for FY 1981-82.

B. Organizations (or groups not included under this definition) which do not meet the criteria in Section V (A) above, for continued receipt of payroll deductions will be terminated on the last payroll of the fiscal year unless the organization voluntarily terminates its payroll deduction before that time.

VI. Fees

A. The Enrollment Fee shall be $100, payable to the Division of Administration, State Accounting Office. This fee shall defer a portion of the cost to the state for establishing and accounting for the payroll deduction.

B. The annual Renewal Fee shall be $25, payable to the Division of Administration, State Accounting Office by 1 June for each fiscal year. This fee shall defer a portion of the cost to the state for maintaining the payroll deduction.

C. The fees are not refundable, whole or in part, regardless of the length of time the payroll deduction was in force, or if the deduction was voluntarily or involuntarily terminated.

VII. General

A. Miscellaneous payroll deductions withheld shall be made payable only to the incorporated organization or agency, not an individual or agent.

B. Approval of any organization by the Division of Administration for payroll deduction in no way constitutes an approval or certification of the organization or the deduction. The services, insurance or policy may be available to State employees for lesser cost through other organizations or vendors.

C. Voluntary withholding authorized under statutory authority shall continue to be governed by the statutory provisions provided that the organization shall be subject to the procedural requirements described herein.

VIII. Waivers

The Commissioner of Administration may waive in writing any provision of these regulations when the best interest of the State of Louisiana will be served.

Interested persons may submit written comments on the proposed policy until 4:30 p.m. November 20, 1980 to: Mr. David Bruce, Assistant Commissioner, Division of Administration, Box 44095, Capitol Station, Baton Rouge, Louisiana 70804.

E. L. Henry
Commissioner of Administration

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
FY 80-81 - None
FY 81-82 - ($3,096)
FY 82-83 - ($3,406)
These savings would be realized by the elimination of deductions which do not meet the criteria established in the proposed rule. Saving would be in the form of reductions in postage, supplies, etc. to the Division of Administration.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
FY 80-81 - $  500
FY 81-82 - $1,150
FY 82-83 - $1,200
Revenues would be generated by a $100 enrollment fee for new deductions and a $25 per year participation fee for all organizations for which deductions are made.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
Each organization for which a deduction is made would be assessed a $100 enrollment fee and/or a $25 annual participation fee. The proposed rule requires that these fees be paid by the organization, not by the participating state employees.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
The loss of the privilege of having a premium, dues, etc. deducted automatically from an employee’s check is not expected to significantly alter the organization’s capacity to compete in the private business market.

David Bruce, Assistant Commissioner
Division of Administration

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT
Office of the Governor
Division of Administration
Office of Telecommunications Management

Notice is hereby given that the Office of Telecommunications Management, under the authority of Executive Order No. 1980-10, intends to adopt rules and regulations governing the
management and operation of state government telecommunications systems and services.

Interested persons may direct inquiries to Ms. Alexis M. Holstead, Director, Office of Telecommunications Management, Box 44280, Baton Rouge, Louisiana 70904, telephone number (504) 342-7057. Written comments on the proposed adoption of rules will be received through November 3, 1980, at the above address.

Alexis M. Holstead, Director
Office of Telecommunications Management

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
No implementation costs to the Office of Telecommunications Management would be incurred.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
The Office of Telecommunications Management is a revolving fund with income being obtained from state agencies' appropriations and being realized by OTM as self-generated revenue. These rules and regulations would have no effect on the total amount of revenue collections received by OTM.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
State departments should not be affected by these rules, where workload and paperwork are concerned. If access to the network is limited, the approximate cost to the state appropriations would be $5,700 per month. Substantial savings to state appropriations would be realized by allowing only Centrex II ESS, ESSX and Dimension telephone lines located in areas other than the serving area of the switch to be terminated into key equipment. Total cost savings cannot be accurately estimated prior to conducting a review of the 1,145 key telephone systems currently operating throughout the state. Those non-state agencies now completely dependent on the state telephone network would have to disburse several thousand dollars in installation costs to replace current state service with commercial service. Those non-state organizations would also be subject to an increase of approximately 43¢ per minute (difference of current LINC cost of 12¢ per minute at South Central Bell's average cost of 55¢ per minute) for all calls made outside their particular metropolitan area. They are presently averaging 51,100 minutes of LINC usage a month, thus the monthly net dollar increase to them for toll calls would be $21,973.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
No effect on competition and employment will be realized by the promulgation of these administrative rules.

Alexis M. Holstead, Director
Office of Telecommunications Management

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT
Department of Natural Resources
Office of Forestry
and
Office of the Governor
Tax Commission

The Office of Forestry will hold its annual joint meeting with the Tax Commission on Monday, December 1, 1980, for the purpose of determining the current average stumpage market value of timber and pulpwood for severance tax computations for 1981.

The meeting will be held in Baton Rouge at the Office of Forestry headquarters, 5150 Florida Boulevard, at 10:00 a.m. Interested parties will be afforded reasonable opportunity to present views and comments at the meeting. Written comments may be submitted to D. L. McFatter, State Forester, Office of Forestry, Box 1628, Baton Rouge, Louisiana 70821.

D. L. McFatter, State Forester
Office of Forestry

J. Reginald Coco, Jr., Chairman
Tax Commission

NOTICE OF INTENT
Department of Health and Human Resources
Board of Embalmers and Funeral Directors

The Louisiana State Board of Embalmers and Funeral Directors operating under the umbrella of the Department of Health and Human Resources wishes to advise that they have rescinded Rule 4, Funeral Establishments, Section D. (2) as it appeared in Volume 4, Number 12, dated December 20, 1978. This action was taken on Monday, September 22, 1980 at a meeting of the full board. Interested persons may submit written comments on the rescinded rule through November 5, 1980 to Mrs. Dawn P. Scardino, P. O. Box 8757, Metairie, Louisiana 70011.

Lloyd E. Eagen, Secretary
Board of Embalmers and Funeral Directors

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
There are no estimated implementation costs to the agency. If the rule were not to be repealed the agency could be subject to treble damages if a suit brought against the agency was to be successful.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
There is no estimated effect on revenue collections.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
The repeal of the rule could benefit funeral establishments licensed by the Board by removing a restriction which has previously been placed upon them.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
Any effect on competition and employment cannot be estimated at this time. However, the repeal of the rule may encourage free and open competition among funeral establishments since it removes a restriction previously placed on their operations.

Dawn P. Scardino,
Administrative Assistant
Board of Embalmers and Funeral Directors

Mark C. Drennen
Legislative Fiscal Officer
NOTICE OF INTENT
Department of Health and Human Resources
Board of Examiners for
Speech Pathology and Audiology

In accordance with the applicable provisions of the Administrative Procedures Act, Title 49, L.R.S., Section 951, et seq., notice is hereby given that the Louisiana Board of Examiners for Speech Pathology and Audiology intends to adopt Rules of Practice and Procedure for Disciplinary Proceedings at their regular meeting at 10:00 a.m., in the Robert E. Lee Room of the Monteleone Hotel, 214 Rue Royale, New Orleans, Louisiana on November 14, 1980.

Notice is also given that this Board intends to adopt a rule under which interested persons may petition this Board to promulgate, amend or repeal a rule at the same meeting, as noted herein.

Interested persons and the public may submit their views and opinions in writing to: Pamela L. Handy, Ed.D., Chairperson, Louisiana Board of Examiners for Speech Pathology and Audiology, Box 44427, Baton Rouge, Louisiana 70804. These written views and opinions must be received by Dr. Handy no later than November 7, 1980. A copy of all rules will be mailed to anyone who requests them in writing no later than October 31, 1980, at the same address.

Pamela L. Handy, Ed.D. Chairperson
Louisiana Board of Examiners
For Speech Pathology and Audiology

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
   It is estimated that the implementation of the rules will cost approximately $2,000 per year.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
   There is no estimated effect on revenue collections.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
   There are no estimated costs to the affected group.
   The promulgation of the rules will protect the general public.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
   There is no estimated effect.

Suzanne L. Perry
Board of Examiners for
Speech Pathology and Audiology

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT
Department of Health and Human Resources
Office of Family Security

The Department of Health and Human Resources, Office of Family Security proposes, effective November 20, 1980, to expand in-patient physician services from a benefit limit of fifteen in-patient visits per year to a provision for coverage of one in-patient physician visit per day for each day of a Title XIX eligible hospital admission provided the following criteria are met:

1) The recipient is eligible for Title XIX hospital benefits at the time of admission, either because of having at least one day remaining in the fifteen annual hospital day benefit or because of State authorization of the admission;

2) The length of the hospital stay is approved by PSRO or PAS/LOS Standards. If any days are not approved, no in-patient physician services will be paid on non-approved days.

Interested persons may submit written comments on proposed policy change through November 3, 1980, at the following address: Mr. Michael S. Haddad, Assistant Secretary, Office of Family Security, Box 44065, Baton Rouge, Louisiana 70804. Mr. Haddad is the person responsible for responding to inquiries about the proposed rule.

George A. Fischer, Secretary
Department of Health and Human Resources

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
   A cost of $6,265,400 over the next three fiscal years is anticipated, of which $4,236,486.91 will be from federal matching dollars and $2,028,913.09 from State funds. This is the estimated cost of providing reimbursement to physicians for hospital visits in excess of the current 15 visit limit when recipients are hospitalized for more than 15 days.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
   No significant effect on revenue collections is anticipated. Any impact which might occur would be a result of increased state and local revenues from the additional reimbursements made to physicians. In addition, recipients would have more personal income to spend on expenses other than medical care.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
   13,000 Title XIX recipients are expected to benefit from this rule change. Physician services which were previously paid either by the recipient or absorbed by the physician will now be reimbursed in an amount of $6,265,400 over the next three fiscal years.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
   None of significance.

Michael S. Haddad
Office of Family Security

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT
Department of Health and Human Resources
Board of Pharmacy

The Louisiana Board of Pharmacy hereby gives notice that the Board, at the November 18, 1980, meeting intends to adopt proposed rules and regulations for the implementation of Acts 306, 307, and 420 of the 1980 Louisiana Legislature and also on Continuing Education. Public notification made herein indicates no final approval. The public is made aware of the proposed changes in compliance with R.S. 49:951-966.

Written comments may be addressed to Howard B. Bolton, Executive Director, Louisiana Board of Pharmacy, 5615 Corporate Boulevard, Suite 8E, Baton Rouge, Louisiana 70808 until 5:00 p.m., November 17, 1980.

The Board will conduct an open hearing on the following proposed rules and regulations at 10:00 a.m. on Tuesday, November 18, 1980, in the Pharmacy Auditorium at the Pharmacy Building of Xavier University, 7325 Palmetto Street, New Orleans, Louisiana 70125.
1. Proposed Rule - Section 28
2. Proposed Rule - Section 6
3. Proposed Rule - Section 29
4. Proposed Rule Change - Section 11
5. Proposed Rule Change - Section 7

Section 28

The selection of a multisource generic drug product in lieu of a specific brand name drug in accordance with Act 420 of the 1980 Louisiana Legislative Regular Session consistent with state and federal regulations may be prohibited by a licensed practitioner in the following manner:

(1) Written Prescription

(a) Written Form — A licensed practitioner may prohibit brand interchange by specifying in his own handwriting directly on the face of the prescription "medically necessary" or "brand necessary."

(b) Printed Form — In the alternative, a licensed practitioner may prohibit brand drug interchange of a generic drug by utilizing the following printed form with all entries inscribed in the prescribing physician’s handwriting, as follows.

(Licensed Practitioner’s Name)

Address

City - State - Zip

Telephone

Patient’s Name

Patient’s Address

It is my medical judgment that:

(Drug Name)

is medically necessary for the treatment of

(Patient’s Name)

and that no other drug product is acceptable

This Certificate is to be effective _____________________________ Date

(Physician’s Handwritten Signature) _____________________________ Date

NOTE: Certification attached to prescription and all entries must be in the prescribing physician’s handwriting, as required by applicable Federal and/or State Regulations.

(2) Oral Prescription

A licensed practitioner shall substantiate instructions to the pharmacist prohibiting brand product selection of an oral prescription by the execution of the aforesaid printed form as required by applicable State and/or Federal regulation.

Section 6

It shall be the responsibility of the Pharmacy Permit Holder to maintain in such pharmacy the following reference books, equipment, and supplies required by the Louisiana Board of Pharmacy.

1. Compendium — Current editions with supplements of the following.
   a. Louisiana Board of Pharmacy Laws, Rules, and Regulations.
   b. United States Pharmacopoeia Dispensing Information.
   c. F.D.A. Approved Drug Products.
   d. Additionally one of the following books are required.
      (1) Facts and Comparisons.
      (2) Pharm-Index.
   2. Equipment.
      a. Suitable prescription balance.
      b. Accurate set of weights.
   c. Graduates - Mortars and Pestles, Spatulas, Funnels, Ointment Slab.
   3. Supplies — Filter paper, powder papers, empty capsules, ointment jars, vials, bottles, labels, distilled water, prescription files.

Section 29

Continuing Education

The Louisiana Board of Pharmacy, recognizing that a pharmacist’s competency is a safeguard for public health and the safety and welfare of the citizens of the State of Louisiana, hereby adopts the following Continuing Education regulations as a prerequisite for pharmacist re-licensure.

1. Definitions.

A. Continuing Pharmacy Education — Accredited experiences obtained from participation in post-graduate pharmacy studies, institutes, seminars, lectures, conferences, workshops, reading approved journals, and other authorized forms of educational experiences so as to maintain and improve professional competencies for the health, welfare, and safety of the citizens of the State of Louisiana.

B. Continuing Education Units — Units of measure adopted by the American Council on Pharmaceutical Education and approved by the Louisiana Board of Pharmacy for the purpose of accreditation of various Continuing Education activities. One Continuing Education Unit is equivalent to ten hours of activity.

C. American Council of Pharmaceutical Education (ACPE) — the recognized organization for pharmacy educational standards.

2. Continuing Education Requirements — A minimum of 1.5 Continuing Education Units (fifteen actual hours) is required each year as a prerequisite for pharmacist re-licensure.

Minimum Requirements:

A. All Continuing Education may be obtained through contact participation. However, a minimum of 0.3 Continuing Education Unit (three hours) shall be obtained by this method.

B. A maximum of 0.6 Continuing Education Units (six hours) may be obtained by reading Approved Journals.

C. Other Continuing Education Unit credits may be obtained through Correspondence Courses or from other sources approved by the Louisiana Board of Pharmacy.

D. Out-of-State — Louisiana will accept out-of-state Continuing Education credits provided said state’s requirements are consistent with those in Louisiana.

3. Continuing Education.

A. Contact Participation — Consists of physical attendance at seminars, lectures, conferences, or workshops.

B. Correspondence Courses — All Correspondence Courses accredited by the American Council on Pharmaceutical Education and/or approved by the Louisiana Board of Pharmacy.

C. Approved Journals — The reading and studying of official pharmacy association journals which are pharmacy oriented will be accepted, as follows:

1. The Louisiana Pharmacist
2. N.A.R.D. Journal
3. American Journal of Hospital Pharmacy
4. American Pharmacy
5. Drug Topics
6. American Druggist
7. U.S. Pharmacist
8. Pharmacy Times
9. Others as may be approved by the Louisiana Board of Pharmacy.
D. All Continuing Education must be obtained during the calendar year prior to re-licensure.

4. Approved Continuing Education Programs — It shall be the duty of the Louisiana Board of Pharmacy to approve all continuing pharmacy education programs for which credit shall be given to Louisiana Licensed Pharmacists, as follows:
A. All contact participation programs accredited by the American Council on Pharmaceutical Education and/or approved by the Louisiana Board of Pharmacy will be accepted, as follows:
1. Seminars.
2. Lectures.
3. Conferences.
4. Workshops.
B. All Correspondence Courses completed which are accredited by the American Council on Pharmaceutical Education and/or approved by the Louisiana Board of Pharmacy.
C. Reading and Studying of Approved Journals for credit as set forth in Section 3C.
D. Programs offered by State of Louisiana Providers approved by the Louisiana Board of Pharmacy.
E. All programs must be approved by the Louisiana Board of Pharmacy prior to presentation.

(1) Programs requiring approval should be submitted to the Louisiana Board of Pharmacy at least ninety days prior to proposed presentation.

5. Providers.
A. All Continuing Education Providers shall be approved by the Louisiana Board of Pharmacy.
B. Providers requiring approval shall submit their credentials to the Louisiana Board of Pharmacy at least ninety days prior to any proposed presentation.
B. All out-of-state Providers presenting programs in Louisiana shall present their programs in cooperation with a Louisiana approved Provider.

6. Responsibility — Each pharmacist shall:
A. Certify that they have completed the minimum requirements of Continuing Education for re-licensure under this section.
B. Maintain individual records of personal Continuing Education activities. Such records shall include ACPE or other program identification number, program title, date of program completion, and credit claimed. In addition, journal reading and study activities must be maintained. This Continuing Education file shall be maintained by each individual pharmacist for a period of not less than two years. Each pharmacist must produce this file as evidence of Continuing Education when required by the Louisiana Board of Pharmacy or its agents.
C. In the event a pharmacist is unable to achieve Continuing Education as required, due to extraordinary circumstances, he or she shall submit to the Louisiana Board of Pharmacy a written notarized explanation of the circumstances for approval or disapproval by the Louisiana Board of Pharmacy.

7. Non-Compliance.
A. Complete compliance with these rules is a prerequisite for the renewal of a pharmacist’s license, effective with re-licensure beginning January 1, 1981, and thereafter.
B. Non-compliance with these rules will be considered to be a violation of Louisiana R.S. 37:1225 (23) (see page 15).
C. Failure to maintain proper records of Continuing Education or falsifying certification will be considered a violation of Louisiana R.S. 37:1200 (4) (see page 10).

Section 11 - Page 20

Change to read as follows:
The Louisiana Board of Pharmacy, by resolution, may assess administrative costs as it deems necessary to facilitate the proper implementation of its rules and regulations.

Section 7

Section 7. Each examination shall be at least one and one-half hours (ninety minutes) duration, or whatever duration the Louisiana Board of Pharmacy may deem necessary. The following examination, and/or any others as specified by the Board, will be administered to its applicants:
Pharmacology, Chemistry, Pharmaceutical Arithmetic (Calculations), Pharmacy, Jurisprudence and Practical Pharmacy.
The minimum passing grade shall be seventy-five in practical pharmacy and 60 in all other subjects; provided that a general average of seventy-five shall be required.

Howard B. Bolton, Executive Director
Louisiana Board of Pharmacy

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY (Summary)
Cost - $500.00 - Estimated printing and mailing of Regulation to all pharmacies in the State.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
None

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
Estimated savings of $6,000 to pharmacists.
The pharmacists are now required to have a current U.S.P. and N.F. at a cost of $90.00 per year. The rule would result in a total cost of $86.00, thereby resulting in a savings to each pharmacist of $4.00 (1500 pharmacists).

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
None

Howard B. Bolton, Executive Director
Board of Pharmacy

Mark C. Drennen
Legislative Fiscal Officer

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
$500.00 - Estimated printing and mailing of Regulation to all pharmacies in the State.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
None

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
It is estimated that if this Rule and Law were fully implemented, a savings of $900,000.00 in the Medicaid program (approximately Fed/State match of .69/.32) could be recognized and as much as $2,000,000 could be recognized by the residents of the State of Louisiana.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
None

Howard B. Bolton, Executive Director
Board of Pharmacy

Legislative Fiscal Officer

616
Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
$500.00 - This includes mailing and printing to all pharmacies in the State. (This would only be a one-time expenditure for printing and mailing for an insert for the Louisiana Board of Pharmacy Book on Laws, Rules and Regulations.)

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
None

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
Cost for the provision of calculators is estimated at $10.00 per applicant, or $2,000.00 per year. It would give each applicant his own calculator for his examination.
This is the only additional cost foreseeable at this time. Other future costs which may result from the implementation of this rule cannot presently be determined; however, it must be noted that only those administrative costs necessary to cover additional services will be assessed.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
None

NOTICE OF INTENT
Department of Labor
Office of Labor

The Office of Labor, Department of Labor, intends to adopt rules hereinafter set forth under the Administrative Procedure Act (R.S. 49:951, et seq.), for the administration of the Prevailing Wage Law of Louisiana (R.S. 38:2301, et seq.).
It will hold a public hearing thereon Wednesday, November 5, 1980 at 10:00 a.m. in the Conservation Conference Room, First Floor, Land and Natural Resources Building, 625 North Fourth Street, Baton Rouge, Louisiana, at which time all interested parties will be given an opportunity to be heard. Proponents and opponents will each be allowed one hour for their presentations, with thirty minutes each for rebuttal.
Copies of the proposed rules may be obtained from Mr. J. T. Armatta, Assistant Secretary, Office of Labor, Room 1045, Land and Natural Resources Building, 625 North Fourth Street, Box 4494, Baton Rouge, Louisiana, 70804, telephone 504/342-3080, on or before said hearing date.
J. T. Armatta, Assistant Secretary
Office of Labor

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
It is estimated that there will be no costs or savings to the Office of Labor by adoption of these proposed rules.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
There will be no effect on revenue collections by adoption of these proposed rules.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
There should be no costs to any group or persons who might be affected by the adoption of these proposed rules. If the Prevailing Wage Laws of this state are followed, all affected employees in public projects should benefit, though no accurate estimate can be made at this time.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
If the proposed rules are adopted and they result in effective administration of the Prevailing Wage laws of this state, competition among contractors should increase and employment morale should improve.

J. T. Armatta, Assistant Secretary
Office of Labor
Department of Labor

Mark C. Drennen
Legislative Fiscal Officer
NOTICE OF INTENT
Department of Natural Resources
Office of Environmental Affairs
Environmental Control Commission

The Environmental Control Commission will hold a public hearing beginning at 10:00 a.m., November 25, 1980 in the State Land and Natural Resources Building, Mineral Board Hearing Room, 625 North Fourth Street, Baton Rouge, Louisiana, to discuss and consider revisions to the Air Program's regulations and State Implementation Plan (SIP) and tentatively plans to adopt these changes at a public hearing at the same location, beginning at 10:00 a.m., December 23, 1980.

Proposed Air Quality Regulation Revisions
Revise Section 22.19.2 (B) of the regulations to read as follows:
22.19.2 Exemptions — (B) Coin operated perchloroethylene dry cleaning facilities must maintain and operate existing devices to limit organic emissions. However, the addition of extra devices to comply with this regulation is not required. Leak checks described in 22.19.1 (A) and (B) must be performed.

Revise Section 22.20.2 as follows:
22.20.2 Exemptions — A rotogravure of flexographic printing facility which has a potential to emit a combined weight of volatile organic compounds less than 100 T/Y calculated from historical records of actual consumption of ink is exempt from the provisions of Section 22.20.1.

Revise Section 22.21.2 (D) as follows.
22.21.2 (D) — Monitor immediately with a VOC detection device any pump seal when liquids are observed dripping from the pump seals.

Revise Section 4.110 as follows.
4.110 Transfer Efficiency — The portion of coating solids which is not lost or wasted during the application process expressed as percent of total volume of coating solids delivered by the applicator.

Delete 4.102 Vapor-Tight — Save the number for a future definition.

In Section 22.9.3 (b) — Revise the wording to include an alternate test method. (A) . . . , (EPA 450/2-77-008), the procedures specified in "Measurement of Volatile Organic Compounds" (EPA 450/2-78-041), a method approved by the Assistant Secretary or certification from the ink manufacturer concerning the solvent makeup of the paint.

In Section 22.20.3 — Revise the wording to include an alternate test method: . . . , (EPA 450/2-77-008), the procedures specified in "Measurement of Volatile Organic Compounds" (DPA 450/2-78-041), a method approved by the Assistant Secretary or certification from the ink manufacturer concerning the solvent makeup of the ink.

In Section 22.23.7 — Revise the wording to include an alternate test method: . . . December 31, 1982. Compliance will be determined by the procedures specified in "Measurement of Volatile Organic Compounds" (EPA 450/2-78-041) or a method approved by the Assistant Secretary.

In Section 22.9.3(d) — The wording should be revised to read as follows:
(d) Surface coating facilities on any property in affected parishes which have a potential to emit a combined weight of volatile organic compounds less than one hundred pounds (forty-five kilograms) in any consecutive twenty-four-hour period are exempt from the provisions of Regulations 22.9.2(a) through (j).

In the entirety of the Air Quality Regulations any reference to Technical Secretary should now read Assistant Secretary.

Proposed Modification to Page 55 of:
"LOUISIANA STATE IMPLEMENTATION PLAN REVISIONS FOR OZONE ABATEMENT"

VOLATILE ORGANIC COMPOUNDS EXEMPT FROM REGULATION UNDER STATE IMPLEMENTATION PLAN

METHANE
ETHANE
1, 1, 1 - TRICHLOROETHANE (METHYL CHLOROFORM)
METHYlene CHLORIDE
TRICHLOROFUROmethANE (CFC-11)*
DICHLOROFUROmethANE (CFC-12)
CHLORODIFLUOROMETHANE (CFC-22)
TRIFLUOROMETHANE (FC-23)
DICHLOROTETRAFLUOROMETHANE (CFC-114)
TRICHLOROTHIFluOROMETHANE (CFC-113)
CHLOROPENTAFUROETHANE (CFC-115)

VOLATILE ORGANIC COMPOUNDS OF LOW REACTIVITY

PROPAne
ACETONE
METHYL ETHYL KETONE
METHANOL
ISOPROPANOL
METHYL BENOXATE
TERARY ALKYl ALCOHOLS
METHYL ACETATE
PHENYL ACETATE
ETHYL AMINES
ACETYLENE
N, N - DIMETHYL FORMANIDE

*Note:
CFC = Chlorofluorocarbons
FC = Fluorocarbons

Air Quality Division will present a proposed State Implementation Plan for fluoride emission standards which will set emission limitations of fluorides from existing primary aluminum plants. These standards are required by Section 11(d) of the Federal Clean Air Act as amended, August 1977.

The person within the agency responsible for responding to inquiries about the proposed revisions is Mr. Gus Von Bodungen, Administrator, Air Quality Division, Box 44066, Baton Rouge, Louisiana 70804; telephone (504) 342-1206.

All interested persons are invited to submit written comments, speak at the public hearing, or both, about any of the proposed actions. Comments received in person or by mail before the public hearing will be considered by the Commission before making the final decision on any of the proposed actions. All comments and requests to speak at the hearing should be submitted to Mr. B. Jim Porter, Assistant Secretary, Office of Environmental Affairs, Box 44066, Baton Rouge, Louisiana 70804. All documents relating to the actions on this notice are available for inspection at the following locations from 8:00 a.m. until 4:30 p.m. Room 409, State Office Building, 325 Loyola Avenue, New Orleans, Louisiana; Office of Environmental Affairs, 804 31st Street, Monroe, Louisiana; State Office Building, 1525 Fairfield Avenue, Shreveport, Louisiana; Office of Environmental Affairs, 1155 Ryan Street, Lake Charles, Louisiana; and Reception area, Sixth Floor, State Land and Natural Resources Building, 625 North Fourth Street, Baton Rouge, Louisiana.

B. Jim Porter, Assistant Secretary
Office of Environmental Affairs

Fiscal and Economic Impact Statement
For Administrative Rules

The Environmental Control Commission of the Office of Environmental Affairs of the Department of Natural Resources has had the approval of the Legislative Fiscal Office that the following revisions will have no fiscal or economic impact:
1) Section 6.3.8 - Air Quality Regulations
2) Section 19.5.1 - Air Quality Regulations
I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
   Implementation cost will not be incurred by revision of this rule.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
    There will be no impact on revenue collections.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
    No cost will be incurred by affected groups since they are complying with existing rules.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
    The revision to the rule will not impact competition or employment.

Gus Von Bodungen, Administrator
Air Quality Division

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT
Department of Natural Resources
Office of Forestry

The Office of Forestry, in accordance with Act 591 of 1970, proposes a rule increasing fees assessed for the maintenance and operation of Indian Creek Recreation Area located on Alexander State Forest in Rapides Parish. The meeting will be held at the Office of Forestry headquarters on the Alexander State Forest near Woodworth, Louisiana, at 10:00 a.m. on Wednesday, November 12, 1980. Interested parties will be given an opportunity to present views and comments at the meeting. Written comments may be submitted to Lamar E. Joffrion, District Forester, Alexander State Forest, Box 298, Woodworth, Louisiana 71485.

D. L. McFatter, Assistant Secretary
Office of Forestry

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
   There will be no implementation costs or savings to the agency.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
    The proposed increases in fees will provide additional revenues of approximately $20,000 annually.

Fees to be increased include: 1) boat launch from $2.00 to $3.00 per day
   2) group shelter rental from $10.00 to $15.00 per day
   3) regular camping from $5.00 to $7.00 per day
   4) primitive area: trailer from $3.00 to $4.00 per day
      tent from $2.00 to $4.00 per day

The standard entrance rate of $2.00 per day will remain unchanged.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
    A reasonable cost-of-operating increase will be borne by the public who utilizes this Recreation Area.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
    There will be no effect on competition and employment.

W. D. Mercer
Associate State Forester

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT
Department of Public Safety
Office of State Fire Marshal

The Department of Public Safety, Office of the State Fire Marshal intends to adopt the following administrative rulings with regard to hospital fire lanes and shopping center fire lanes:

LAC 17:4-9 Hospital Fire Lanes

9.3—The Fire Marshal, his certified local authorities, or local law enforcement officials shall remove any vehicle parked in any fire lane in the State of Louisiana by any means necessary and shall assess the cost of removal against the owner of said vehicle by storing said vehicle and refusing to release said vehicle until all costs incident to the removal and storage of said vehicle have been paid by the owner.

9.4—Owners and occupants of the property on which fire lanes are located are hereby charged with the responsibility of notifying the Fire Marshal, his certified local authorities, or local law enforcement officials of the existence of any vehicles parked in those fire lanes; and in the event that they are unable to contact the Fire Marshal, his certified local authorities, or local law officials, the owner and occupant are hereby charged with the responsibility of and are hereby authorized to remove any vehicle parked in those fire lanes by any means necessary and to assess the cost of same against the owner of said vehicle by storing said vehicle and refusing to release said vehicle until all costs incident to the removal and storage of said vehicle have been paid by the owner.

LAC 17:4-10 Shopping Centers - Fire Lanes

10.4—The Fire Marshal, his certified local authorities, or local law enforcement officials shall remove any vehicle parked in any fire lane in the State of Louisiana by any means necessary and shall assess the cost of removal against the owner of said vehicle by storing said vehicle and refusing to release said vehicle until all costs incident to the removal and storage of said vehicle have been paid by the owner.

10.5—Owners and occupants of the property on which fire lanes are located are hereby charged with the responsibility of notifying the Fire Marshal, his certified local authorities, or local law enforcement officials of the existence of any vehicles parked in those fire lanes; and in the event that they are unable to contact the Fire Marshal, his certified local authorities, or local law officials, the owner and occupant are hereby charged with the responsibility of and are hereby authorized to remove any vehicle parked in those fire lanes by any means necessary and to assess the cost of same against the owner of said vehicle by storing said vehicle and refusing to release said vehicle until all costs incident to the removal
and storage of said vehicle have been paid by owner.

Anyone having any questions with regard to these proposed administrative rulings should contact Plauche F. Villere, Jr., Attorney for the State Fire Marshal, 500 Dufossat Street, New Orleans, Louisiana 70115, 504-895-6607 on or before Wednesday, November 5, 1980 at 12:00 noon at which time and place any interested person may present their views orally or in writing.

Daniel L. Kelly
State Fire Marshal

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
There would not appear to be any significant costs involved because it is expected that local governmental authorities and private owners will actually implement the rule as drawn.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
There would not appear to be any significant effect inasmuch as local governmental authorities and private owners will implement the rule. In any event, any revenue collections would simply be utilized as the rule states to off-set the actual cost of implementing the rule.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
The cost would be the actual cost of removal which could be recovered by the local governmental authorities and/or private hospital or shopping center owners. The benefit would be a much enhanced safety situation with regard to evacuation of hospitals and shopping centers in the event of a fire.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
There will be no effect on competition and employment.

Daniel L. Kelly
State Fire Marshal

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT
Department of Public Safety
Office of State Fire Marshal

The Department of Public Safety, Office of the State Fire Marshal, intends to adopt the following administrative ruling with regard to mattresses in prison.

L.A.C. 17:4:15 Inspection of Prisons
15.2 K. No mattresses shall be permitted in any prisons, jails or penal institutions in the State of Louisiana unless the ticking and the filler have been made flame resistant by treatment with boric acid or a boric acid solution applied in a manner approved by this office.

Anyone having any questions with regard to this proposed administrative ruling should contact Plauche F. Villere, Jr., Attorney for the State Fire Marshal, 500 Dufossat Street, New Orleans, Louisiana 70115, 504-895-6607 on or before Wednesday, November 5, 1980 at 12:00 noon at which time and place any interested person may present their views orally or in writing.

Daniel L. Kelly
State Fire Marshal

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

The office of the Fire Marshal estimates that there will be no additional costs or savings to that agency.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
The office of the Fire Marshal estimates that there will be no additional effect on revenue collections.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
Benefits will accrue to those prisoners in the Department of Corrections and in the parish jails who will be protected from injury or death from fires set to the mattresses. Parish prisons and institutions under the Department of Corrections will also benefit by not having to repair fire damage from mattress fires. There are an estimated 15,000 beds (mattresses) currently in parish jails and state prisons in Louisiana. The Department of Corrections supplies roughly 75% of these mattresses and private suppliers the other 25%. The price differential between untreated mattresses retailing for $25.75 and treated mattresses retailing for $28.00 will be $2.25 according to the Department of Corrections. The Department estimates no additional start-up costs in order to produce these treated mattresses. However, if all of the 15,000 mattresses are required to be replaced the estimated cost differential will be $41,250. Not included in these costs are the value of mattresses which have not outlived their usefulness and must be put out of service. This cost cannot be estimated at this time.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
The Office of the State Fire Marshal estimates that there will be no effect on employment and competition.

Daniel L. Kelly
State Fire Marshal

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT
Department of Public Safety
Office of State Police

Breath and Blood Alcohol Analysis Methods and Techniques

1. After the Louisiana Department of Public Safety has approved a prototype breath testing device as an acceptable model for chemical analysis in breath alcohol testing it shall be necessary for each individual instrument of the approved model to be checked out and approved for use by the Office of State Police, Applied Technology Unit, at least once every four months, and a machine recertification form shall be maintained for each machine in the Applied Technology Unit. A copy of this certificate may be filed with the clerk of the applicable court in the respective parishes in which each device is used for breath testing, and this copy shall be prima facie evidence as to the operating performance of the instruments and standard of quality of the ampuls. The inspecting maintenance technician’s permit number shall also be affixed to this certificate.

Any manufacturer of any apparatus, device, or equipment made for the purpose of analyzing the alcoholic content of breath may request the Applied Technology Unit to approve such apparatus, device, or equipment. The Applied Technology Unit will consider said request upon submission of such information, instructions for use, exemplars, and other pertinent data as the Unit may request.

2. Analysis of breath specimens for the determination of the alcohol content therein may be performed by one of the following:
a. Photo-Electric Intoximeter (P.E.I.) Model 400 single
cylinder instrument manufactured by Intoximeters, Inc., St. Louis,
Missouri.

b. Gas Chromatograph Intoximeter Mark IV A manufac-
tured by CalDetect, Inc., Richmond, California, and distributed by
Intoximeters, Inc., St. Louis, Missouri.

c. Auto-Intoximeter (Auto-l) manufactured by CalDetect,
Inc., Richmond, California, and distributed by Intoximeters, Inc.,
St. Louis, Missouri.

d. Intoxilzyer Model Number 4011AS-A manufactured
and distributed by CMI, Inc. of Minturn, Colorado.

The above instruments used for alcohol determination are
approved for the performance of chemical test for alcohol deter-
minations and the methods and techniques used in conjunction
therewith also approved for satisfactory use by the Department of
Public Safety.

3. Qualifications for the certification of individuals to
conduct breath test analysis are as follows:

a. Employee of a Louisiana law enforcement agency or
Federal law enforcement agency.

b. At least eighteen years of age.

c. Resident of the State of Louisiana at time of application.

d. Graduation from a State-accredited high school or satis-
factory passing of the “general education development test” or
equivalent educational background.

e. Successful completion of a forty-hour operator’s train-
ing course conducted by the Applied Technology Unit, or any
other course approved by the Applied Technology Unit. Course
material to be covered will be taken from “Chemical Test for
Intoxication Training Manual” and/or Training Manual for the
Gas Chromatograph Intoximeter,” or “Training Manual for the
Auto-l” or “Training Manual for the Intoxilzyer.”

However, if an individual has already successfully com-
pleted a training course in chemical testing, the individual may
attend a specified course in the operation of either the Gas Chro-
matograph Intoximeter, or the Auto-Intoximeter, or the Intox-
ilzyer.

f. To successfully complete the forty-hour training course
and become certified, the operator must:

(1) Obtain a seventy-five percent score on the written
examination covering course material.

(2) Obtain a seventy-five percent score on the actual
operation of the instrument and practical test (running of unknown
solutions). Written test and practical test will be made up by
instructors of the Applied Technology Unit.

(3) The testing results will be recorded on the “chemical
test for intoxication progress record.” A copy to be retained by the
Applied Technology Unit.

g. Qualifications for certification of Instructors will be:

(1) Certified as a P.E.I. operator or certified on any other
approved instrument.

(2) Attendance of an additional forty-hour course
approved by the Applied Technology Unit.

(3) Involved in a chemical testing program approved by
the Applied Technology Unit.

4. The procedure for analysis using the Model 400, single
cylinder, Photo-Electric Intoximeter shall include the following:

a. General observation of the subject for a period of twenty
minutes prior to testing whereby the subject shall not have ingested
alcohol, alcoholic beverages, regurgitated, vomited, or taken any-
thing by mouth.

b. The operator conducting breath analysis shall conduct
such analysis in accordance with the “photo-electric intoximeter
check list” which contains but is not limited to the following:

(1) Completing the information section concerning
such things as name of subject, time, witness, arresting and testing
agency, instrument number and location, and Applied Technolo-

gy Unit, machine certification tag number.

(2) A calibration check whereby the calibration of the
instrument is checked by using a set of standard ampuls which
accompany each instrument. A standard ampul of known value is
used whereby the reading must be within the given range to show
the calibrating section of the instrument is working properly.

(3) Preparation of the instrument whereby temperature
is checked and the ampul to be used in such analysis is checked to
show it is within a certain tolerance plus or minus .010g percent.
This is to insure a good ampul will be used in the analysis.

(4) A systems blank by which the instrument is shown to
be free of contamination. Limitations here will be from .010g
percent through .020g percent whereby corrections from here will
be made to produce the final reading.

(5) Sample collection whereby the sample is taken and
the twenty minute observation period is checked off.

(6) Alcohol determination section whereby the instru-
ment is flushed, scale zero checked, and final reading taken.

The ampul will be discarded after analysis since preserva-
tion will yield erroneous results after the ampul is opened, used in
analysis, and exposed to continuous light. This ampul also con-
tains acid which is very corrosive and may cause injury or damage
if not properly disposed of.

(7) Breath specimens collected for analysis should be
substantially in equilibrium with pulmonary arterial blood, with
respect to alcohol. That is, it should be essentially alveolar in
composition.

(8) The quantity of breath analyzed for its alcohol con-
tent shall be established only by direct volumetric measurement,
or by collection and analysis of a fixed breath volume at constant
known temperature.

c. The Applied Technology Unit shall require manufactur-
ers of ampuls to certify each lot of ampuls made, as to their
standard of quality in reference to the chemical contents and
tolerance. The Applied Technology Unit shall maintain these cer-
tificates on file from the manufacturer. The Applied Technology
Unit shall then have the authority to spot check the ampuls with
respect to their performance. The machine recertification form that
is filled every four months with the clerks of court shall also state
that the ampul lot numbers used at each agency were spot checked
for performance.

d. Maintenance checks will be performed on a routine
basis at least once every four months by the Applied Technology
Unit. Items to be checked shall be, but are not limited to, the
following:

(1) Each lot of ampuls shall be spot checked for per-
formance.

(2) Clean Instrument.

(3) Calibration check of standard ampuls.

(4) Running of a known alcohol solution in which results
shall be within plus or minus .010g percent or the known alcohol
value.

(5) In the event any repair work is needed, it will be
recorded in detail.

5. Procedure for analysis using the Mark IV A Gas Chro-
matograph Intoximeter.

a. General observation of the subject for a period of fifteen
minutes prior to testing whereby the subject shall not have ingested
alcohol, alcoholic beverages, regurgitated, vomited or taken any-
thing by mouth.

b. The operator conducting breath analysis shall conduct
such analysis in accordance with the “Gas Chromatograph Intoxi-

meter Mark IV A operational check list” which contains but is
limited to, the following:

(1) Completing the information section concerning
such things as name of subject, time, testing agency, arresting
agency, instrument number and location and date of instrument
certification.

(2) Set up whereby the instrument is prepared to run a
sample.

(3) Standard section whereby a known standard sample is run to check the calibration of the instrument. Instrument reading must be within ± 0.10g percent.

(4) Blank check whereby the instrument is flushed by a tank of dry air to insure no alcohol has been left in the instrument. A readout of + .00 must be obtained. If not, this procedure is rerun.

(5) Alcohol determination whereby a new and clean mouthpiece is attached and the subject delivers a breath sample to be analyzed.

(6) Close down section whereby a blank air sample is run to flush out any alcohol that may have been left in the instrument.

c. Maintenance checks will be performed on a routine basis at once every four months by the Applied Technology Unit. Items to be checked shall be, but are not limited to, the following:

(1) Clean instrument

(2) Running a known alcohol standard thereby checking the instrument and calibration.

(3) Checking "O" rings. Changing them if applicable.

(4) Checking air filter and changing when applicable.

(5) Oven temperature and column pressure should be rechecked when the instrument is initially installed and before and after replacing the "O" rings if applicable.

d. Each time the instrument is checked out or certified the date of certification shall be placed on the instrument. This date of certification shall be placed on each operational check list.

6. Procedures for analysis using the Auto-Intoximeter

a. General observation of the subject for a period of fifteen minutes prior to testing whereby the subject shall not have ingested alcohol, alcoholic beverages, regurgitated, vomited or taken anything by mouth.

b. The operator conducting breath analysis shall conduct such analysis in accordance with the "Intoxilyzer Check List" which contains but is not limited to, the following:

(1) Completing the information section concerning such things as name of subject, time of test, testing agency, arresting agency, instrument number and location, and date of instrument certification.

(2) Air Blank: Operator must connect breath hose to pump hose, insert printer card, then press advance switch. A calibration result will be printed and the "Test Subject" indicator lamp comes on.

(4) Test Standard: Operator must disconnect hoses and reconnect each to a simulator, and then press advance switch. A calibration result is then printed and the Four Air Blank indicator lamp comes on.

(5) Air Blank: Operator must remove mouthpiece, reconnect breath hose to pump hose, press advance switch. An air blank result will be printed and the "Test Subject" indicator lamp comes on.

(6) Test Subject: Operator must disconnect breath hose, insert mouthpiece into breath hose, have subject blow through mouthpiece sufficiently to activate breath lamp and continue blowing until a proper sample is collected. That the proper sample has been collected is indicated by the fact that the "Six Air Blank" indicator lamp comes on.

(7) Air Blank: Operator must disconnect simulator and reconnect hoses to each other, then press advance switch. Final blank result is printed; then the "End of Test" indicator lamp comes on.

(8) End of Test: Operator must remove printer card and leave instrument optionally on or off for next test.

c. Maintenance: Maintenance checks will be performed on a routine basis at least once every four months by the Applied Technology Unit. Items to be checked shall be, but are not limited to, the following:

(1) Clean instrument

(2) Running a known alcohol standard thereby checking the instrument and calibration.

(3) Insure Seals on instrument still intact.

(4) Check printer.

(5) Check breath inlet hose and pump hose.

(6) Clean filter wheel and lens.

(7) Check power supply and insure I.R. Source still working properly.

(8) In the event any repair work is needed, it will be recorded in detail.

d. Each time the Intoxilyzer is checked out or certified the date of certification shall be placed on the instrument. This date of certification shall also be placed on each operational check list.

8. After each breath alcohol test, the results will be recorded in the Breath Alcohol Testing Log Book, a copy of which is to be sent to the Applied Technology Unit, at the end of each month and a copy to be retained at the testing agency.

9. Maintenance: Maintenance and/or repair work will be performed by Breath Analysis Technicians working for the Applied Technology Unit, who are certified by the Louisiana Department of Public Safety to perform such. The machine recertification form that is filed every four months with the respective clerks of court shall also have the Inspecting Technician's Permit Number affixed on this certificate. This permit number shall be proof as to the certification of the Inspecting Technician by the Department of Public Safety.

a. Records or a copy covering maintenance, etc. on instruments will be kept by the Applied Technology Unit.

b. Personnel of the Applied Technology Unit shall have alcohol, alcoholic beverages, regurgitated, vomited or taken anything by mouth.

the authority to instruct individuals as Breath-Alcohol Testing Field Supervisors. This individual will be able to conduct minor service repair, transport instruments to the various locations, run known alcohol standard test, testify in court, monitor the chemical testing program on a local level, and confer with the Applied Technology Unit on any related matters pertaining to chemical testing.

10. Permits: Upon determining the qualifications of individuals to perform such analysis and duties, and after submitting an application for certification, the Department of Public Safety shall issue permits which shall be effective for the following periods with respect to classifications:

a. Operators: Operators shall be certified for a period of two years following completion of the forty-hour course. These permits may be renewed after a refresher course given by the Applied Technology Unit, or any other agency approved by the Unit.

(1) In addition to being certified on the P.E.I., an operator may also attend a specified course for certification on any new instrument that is approved. These permits shall also be in effect for a period of two years.

b. Breath Alcohol Testing Supervisors: Breath Alcohol Testing Field Supervisors shall be certified for a period of two years.

c. Instructors: Instructors shall be certified for a period of five years. However, if an instructor is not longer involved in a Chemical Testing Program his certification shall terminate and then only be recertified after he has once again become involved in a program and demonstrates his knowledge of instruction to the Applied Technology Unit Supervisor.

d. Maintenance Technicians: Once a maintenance technician working for the Applied Technology Unit is initially certified his permit shall be effective for the duration of his employment.

11. All persons seeking to be authorized to conduct blood analysis shall:

a. Make application to the Department of Public Safety for permit.

b. Have a bachelor of science in chemistry, physics, biology, zoology, medical technology, or a related field.

c. Conduct proficiency testing set up by the State Police Crime Laboratory.

12. The methods approved for blood-alcohol analysis of blood are:

a. Gas Chromatography

(1) Headspace sampling with internal standard.

(2) Direct injection with internal control.

b. Permits shall be effective when issued for a period of five years from the date issued thereon. Permits shall be renewed by making application to the Louisiana Department of Public Safety.

c. Procedures shall include the following controls in conjunction with each batch of samples analyzed:

(1) A system blank analysis.

(2) Analysis of a suitable reference or control blood sample of known alcohol content within the range of 0.01 to 0.30 g/dl; the result of which analysis must coincide with the known blood alcohol value of the reference specimen with 0.01 g/dl if validity is to be assigned to the results for the batch analyzed.

d. Replicate analyses shall be performed in order to minimize the possibility of undetected errors.

e. Results shall be expressed in terms of percent W/V (grams per ceciliter) that is, grams of alcohol per 100 milliliters of blood, rounded downward to the second decimal place; for example 0.237 g/dl found shall be reported a 0.23 g/dl or 0.23 percent.

f. Analytical procedures for determining alcohol in blood shall meet the following performance requirements:

(1) The accuracy and sensitivity of the procedure shall be such as to attain results within 0.01 g/dl of the known value over the range of 0.00 to 0.30 g/dl in analyses of appropriate reference materials of known ethyl alcohol concentration.

(2) The precision of the procedure shall be such as to consistently attain a standard deviation not greater than 0.003 g/dl in replicate analyses.

(3) The blank values yielded by the procedure in analyses of alcohol-free blood specimens shall not be greater than 0.01 g/dl.

(4) The specificity of the procedure shall be adequate and appropriate for the analysis of biological specimens for the determination of the blood alcohol concentration in traffic law enforcement and highway crash investigations:

(a) Procedures for the analysis of biological specimens from living subjects shall respond only to ethyl alcohol and the other lower aliphatic alcohols and should not be susceptible to significant unrecognized interference by other substances.

(b) Procedures for the analysis of postmortem biological specimens shall respond only to ethyl alcohol and shall not be susceptible to significant unrecognized interference by other substances.

13. Blood drawn for the purpose of determining the alcoholic content therein shall have been taken within the contents of the "B-D Blood Alcohol Kit" Number 4-90 or Number 4991 for postmortem determination (manufactured by Becton-Dickinson Division of Becton, Dickinson and Company, Rutherford, New Jersey), or similar blood collection kit approved by the Louisiana Department of Public Safety. "B-D Blood Alcohol Kits" or similar blood collection kits as approved will be made available to all law enforcement agencies by the Applied Technology Unit.

14. Because of various problems in the interpretation of the results of analysis of urine for alcohol which cannot be readily overcome in law enforcement practice, urine analysis to determine equivalent alcohol concentration in blood is discouraged. Chemical tests of blood or breath are preferred.

All interested persons are invited to submit written comments until November 5, 1980, to Mr. Ron Crouch, Department of Public Safety, P. O. Box 66614, Baton Rouge, Louisiana 70896. Donald G. Bolinger, Secretary Department of Public Safety

Fiscal and Economic Impact Statement For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)

There will be no implementation costs, as the rule simply describes the equipment purchased.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)

There will be no effect on revenue collections.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)

There will be no new costs or benefits derived from this rule as it is merely descriptive.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)

There will be no effects on competition and employment.

Larry A. Messina, Finance Manager
Department of Public Safety

Mark C. Drennen
Legislative Fiscal Officer

NOTICE OF INTENT

Department of Transportation and Development
Board of Registration for Professional Engineers and Land Surveyors

The Louisiana State Board of Registration for Professional Engineers and Land Surveyors, at a meeting on November 25, 1980 proposes to amend its rules relative to the Certification of
Engineers-In-Training and Land Surveyors-In-Training in accordance with the provisions of Act 568 of 1980. The meeting will be held in the office of the Board, 1055 St. Charles Avenue, Suite 415, New Orleans, Louisiana. Discussion of the above matter will begin at 10:00 A.M. Interested persons may obtain additional information relative to these rules and may submit written comments through November 15, 1980. Also to be considered will be an increase in fees to $20 for land surveyors certification and $10 for renewal fee.

Daniel H. Vliet
Executive Secretary

Fiscal and Economic Impact Statement
For Administrative Rules

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO AGENCY - (Summary)
   There is no estimated implementation cost because certification procedures are now in effect.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS - (Summary)
The cost of examination equals the fee paid by applicants. The cost of examination will increase in 1981 as will the fee to be paid by applicants. Additional revenues collected will not accrue to this office.

III. ESTIMATED COSTS AND BENEFITS TO AFFECTED GROUPS - (Summary)
   Those people taking the examination will be charged an additional $5.00 in 1981. The original cost was $15.00.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT - (Summary)
The rule change will have no potential effect on competition and employment.

Daniel H. Vliet,
Executive Secretary

Mark C. Drennen
Legislative Fiscal Officer

Legislation

Louisiana Administration Procedures Act
R.S. 49:951-966

(Editor's Note: Act 392 of the 1980 Legislature amends the Administrative Procedures Act to state that the Notice of Intent must contain a statement, approved by the Legislative Fiscal Office of the fiscal and economic impact of the intended action. It also states that no rule, adopted on or after September 12, 1980, shall be effective unless the approved statement has been published in the Louisiana Register.)

An ACT
To amend and reenact Paragraph (1) of Subsection A of Section 953, and Section 954 of Title 49 of the Louisiana Revised Statutes of 1950, and to amend Subsection A of Section 953 of said Title by adding thereto a new Paragraph to be designated as Paragraph (3) thereof and to amend Subsection C of Section 968 of said Title by adding thereto a new Paragraph to be designated as Paragraph (5) thereof, to require fiscal impact statements and economic impact statements with respect to the adoption, amendment or repeal of rules and regulations proposed pursuant to the Administration Procedure Act, to specify the information required in such statements, to provide that such statements shall be approved by the Legislative Fiscal Office, to provide that no rule adopted on or after September 12, 1980, shall be effective or enforceable unless prior to its adoption such statements have been provided as required, and otherwise to provide with respect thereto.

Be it enacted by the Legislature of Louisiana:

Section 1. Paragraph (1) of Subsection A of Section 953 and Section 954 all of Title 49 of the Louisiana Revised Statutes of 1950 are hereby amended and reenacted, and Paragraph (3) of Subsection A of Section 953 of said Title is hereby enacted all to read as follows:

§953. Procedure for adoption of rules
A. Prior to the adoption, amendment, or repeal of any rule, the agency shall:
   (1) Give at least fifteen days notice of its intended action. The notice shall include a statement of either the terms or substance of the intended action or a description of the subjects and issues involved; a statement, approved by the Legislative Fiscal Office, of the fiscal impact of the intended action, if any; or a statement, approved by the Legislative Fiscal Office, that no fiscal impact will result from such proposed action; a statement, approved by the Legislative Fiscal Office, of the economic impact of the intended action, if any; or a statement, approved by the Legislative Fiscal Office, that no economic impact will result from such proposed action; the name of the person within the agency who has the responsibility for responding to inquiries about the intended action; and the time when, the place where, and the manner in which interested persons may present their views thereon. The notice shall be published at least once in the Louisiana Register. Notice of the intent of an agency to adopt, amend or repeal any rule and the approved fiscal and economic impact statements, as provided for in this Subsection, shall be mailed to all persons who have made timely request of the agency for such notice, which notice and statements shall be mailed at the earliest possible date, and in no case later than the date when the proposed rule change is submitted to the Louisiana Register. For the purpose of timely notice as required by this Paragraph, the date of notice shall be deemed to be the date of publication of the issue of the Louisiana Register in which the notice appears, such publication date to be the publication date as stated on the outside cover or the first page of said issue.
   * * *

(3) (a) For the purposes of this Subsection, the statement of fiscal impact shall be prepared by the proposing agency and submitted to the Legislative Fiscal Office for its approval. Such fiscal impact statement shall include a statement of the receipt, expenditure, or allocation of state funds or funds of any political subdivision of the state.

(b) For the purposes of this Subsection, the statement of economic impact shall be prepared by the proposing agency and submitted to the Legislative Fiscal Office for its approval. Such economic impact statements shall include an estimate of the cost to the agency to implement the proposed action, including the estimated amount of paper work; an estimate of the cost or economic benefit to all persons directly affected by the proposed action; an estimate of the impact of the proposed action on competition and the open market for employment, if applicable; and a detailed statement of the data, assumptions, and methods used in making each of the above estimates.
   * * *

§954. Filing; taking effect of rules
A. No rule adopted on or after January 1, 1975, is valid unless adopted in substantial compliance with this Chapter. Each rule making agency shall file a certified copy of its rules with the Department of the State Register. No rule, whether adopted before, on, or after January 1, 1975, shall be effective, nor may it be enforced, unless it has been properly filed with the Department of the State Register. No rule, adopted on or after November 1, 1978, shall be effective, nor may it be enforced, unless prior to its adoption a report relative to the proposed rule change is submitted to the appropriate standing committee of the legislature or to the presiding officers of the respective houses as provided in R.S. 49:988. No rule, adopted on or after September 12, 1980, shall be effective, nor may it be enforced, unless the approved economic and fiscal impact statements, as provided in R.S. 49:953A, have been filed with the Department of State Register and published in the *Louisiana Register*. The inadvertent failure to mail notice and statements to persons making request for such mail notice, as provided in R.S. 49:953, shall not invalidate any rule adopted hereunder. A proceeding under R.S. 49:963 to contest any rule on the grounds of noncompliance with the procedures for adoption, as given in this Chapter, must be commenced within two years from the date upon which the rule became effective.

B. Each rule hereafter adopted shall be effective upon its publication in the *Louisiana Register*, said publication to be subsequent to the act of adoption, except that:

(1) If a later date is required by statute or specified in the rule, the later day is the effective date.

(2) Subject to applicable constitutional or statutory provisions, and emergency rule shall become effective on the date of its adoption, or on a date specified by the agency to be not more than sixty days future from the date of its adoption, provided written notice is given within five days of the date of adoption to the governor of Louisiana, the attorney general of Louisiana and the Department of the State Register as provided in R.S. 49:953(B). Such emergency rule shall not remain in effect beyond the publication date of the *Louisiana Register* published in the month following the month in which the emergency rule is adopted, unless such rule and the reasons for adoption thereof are published in said issue; provided, however, that any emergency rule so published shall not be effective for a period longer than one hundred twenty days, but the adoption of an identical rule under Paragraphs (1), (2), and (3) of Subsection A of R.S. 49:953 is not precluded. The agency shall take appropriate measures to make emergency rules known to the persons who may be affected by them.

Section 2. Paragraph (5) of Subsection C of Section 968 of Title 49 of the Louisiana Revised Statutes of 1950 is hereby enacted to read as follows:

§968. Review of agency rules.

C. The report, as provided for in Subsection B, shall contain:

(5) A statement of the fiscal impact of the proposed action and a statement of the economic impact of the proposed action, both approved by the Legislative Fiscal Office.

Section 3. If any provision or item of this Act or the application thereof is held invalid, such invalidity shall not affect other provisions, items, or applications of this Act which can be given effect without the invalid provisions, items, or applications, and to this end the provisions of this Act are hereby declared severable.

Section 4. All laws or parts of laws in conflict herewith are hereby repealed.

**Potpourri**

**POTPOURRI**

**Office of the Governor**
**Tax Commission**

In accordance with the provisions of the Administrative Procedures Act (R.S. 49:951-968), notice is hereby given that the Louisiana Tax Commission (Louisiana Constitution 1974, Article VII, Section 18, and R.S. 47:1831-1837) intends to hold a public hearing on Thursday, November 6, 1980 at 9:30 a.m.

The purpose of this hearing is to hear a protest from National Railroad Passenger Corporation (Amtrak) on their assessed property valuations for 1980 under the provisions of R.S. 47:1851-1858 and more specifically R.S. 47:1856. The Commission shall conduct such further business as appears before it, but shall not adopt, amend, or repeal a Rule nor engage in Rule-making.

Those desiring to be heard will be given reasonable opportunity to make their presentations.

*J. Reginald Coco, Jr., Chairman*
*Tax Commission*

**POTPOURRI**

**Department of Natural Resources**
**Fishermen's Gear Compensation Fund Claims**

In accordance with regulations of the Fishermen's Gear Compensation Fund published in the August 20, 1980 State Register, the Department of Natural Resources hereby gives notice that twenty-one completed claims of $28,053.81 were filed against the Fund during the month of September.

A public hearing will be held on Tuesday, November 18, 1980, at 11:00 a.m. in the Cooperative Extension Service office, Rooms 109 and 110 of the Courthouse, Cameron, Louisiana, to consider payment of the following claim against the Fund. Persons desiring to give testimony in support or opposition to the claim will be permitted to do so at the hearing.

80-091 Jeff B. Drury, Sr., of Cameron, Louisiana. Vessel: Marabou. On April 12, 1980, claimant snagged his shrimp net on an unknown underwater obstruction ½ mile west of the Calcasieu ship channel 2½ miles off beach, Cameron Parish. Amount of claim: $3,000.00.

A public hearing will be held on Thursday, November 20, 1980, at 10:00 a.m. in the office of the county agent, 511 Roussel Street, Houma, Louisiana to consider payment of the following claims against the Fund. Persons desiring to give testimony in support or opposition to the claims will be permitted to do so at the hearing.

79-050 Leroy P. Chabert of Cut Off, Louisiana. Vessel: Captain Kris. On October 10, 1979, claimant hooked his
net on an unknown underwater object in the Gulf of Mexico approximately 4 miles east of Freshwater Bayou, Vermilion Parish. Amount of claim: $436.00.

A public hearing will be held on Tuesday, November 25, 1980, at 10:00 a.m. in the Police Jury Chambers, 8201 West Judge Perez Drive, Chalmette, Louisiana, to consider payment of the following claims against the Fund. Persons desiring to give testimony in support or opposition to the claims will be permitted to do so at the hearing.

79-019 Tom J. Halliger of slidell, Louisiana. Vessel: Rango Kid. On October 6, 1979, claimant damaged his trawl on an underwater obstruction approximately 5 miles west of Goose Point in Lake Pontchartrain, St. Tammany Parish. Amount of claim: $1,070.00.

80-083 Gerald Helmer of Barataria, Louisiana. Vessel: Rocket. On December 19, 1979, claimant hit a submerged pipe and lost his boat in Barataria Bay, Jefferson Parish. Amount of claim: $5,000.00 (actual damages $9,500.00).
