

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

This Consolidated Annual Performance and Evaluation Report (CAPER) discusses program outcomes for the FY 2018 program year (April 1, 2018 thru March 31, 2019) utilizing State Community Development Block Grant (CDBG), HOME Investment Partnerships Program (HOME), National Housing Trust Fund (HTF), Emergency Solutions Grants Program (ESG) and Housing Opportunities for Persons with AIDS (HOPWA). The State of Louisiana continues to make progress in increasing and preserving the supply of affordable housing, improving public infrastructure, and increasing public services, public facilities, and Rapid-Rehousing and crisis response services for eligible households across the State with a primary focus in non-entitlement CDBG, HOME, ESG, HOPWA and HTF communities. The State also continues to make strives toward affirmatively furthering fair housing in the administration of program funds. In addition to the data provided below, this CAPER discusses affordable housing outcomes, homelessness and special needs activities, program monitoring and other State actions in furtherance of the State's 2018 Consolidated Annual Action Plan. HOME funds were used to fund the following activities during the FY 2018 program year:

- Homebuyer activities (new construction for homebuyers);
- Rental housing (acquisition and or/ rehabilitation or new construction)
- Tenant based rental assistance (TBRA)

Projects that were funded are in various stages of development. Table 1 below provides a comparison of proposed FY 2018 program year goals versus actual outcomes. Outcomes are measured either in terms of units produced or the number of assisted households.

Each activity funded under the 2018 CDBG Program must have met one of the three national objectives: principal benefit to low-to-moderate income persons; elimination or prevention of slums and blight; and meeting community development needs having a particular urgency. To accomplish these objectives, the State established the following goals:

1. strengthen community economic development through the creation of jobs, stimulation of private investment, and community revitalization, principally for low-to-moderate income persons; benefit low-to-moderate income persons; eliminate or aid in the prevention of slums and blight; or, provide for other community development needs having a particular urgency because existing conditions pose a serious and immediate

threat to the health or welfare of the community and other financial resources are not available to meet such needs.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

The outcomes reported in the tables above are based on HOME funded activities that were completed in the HUD Integrated Disbursement and Information System (IDIS) per the HUD PR 23 Report during the 2018 program year, April 1, 2018-March 31, 2019. Table 1 provides information regarding annual goals, activities and accomplishments for the FY 2018 program year. As seen in Table 1, during the FY 2018 program year, the state made progress in accomplishing its overall annual expectations for affordable housing except for owner occupied rehabilitation. Although the use of HOME funds for TBRA was an essential element of the overall five year funding strategy and annual action plans, the state only used HOME funds for this activity as the needs and market conditions were identified. Table 2 provides information and a comparison regarding the strategic goals and actual accomplishments relative to the FY 2015 - 2019 Consolidated Plan for the aforementioned HUD programs. Table 2 also provides an indication of the challenges the state continues to incur relative to the strategic provision of opportunities for homeownership. A slower recovery for struggling low income households, a more restrictive access to mortgage credit and a reduction in public and private resources as well as increase development and direct homebuyer assistance cost were factors that influenced the strategic outcomes for HOME funded homebuyer activity. Historically, HOME funds have been used in combination with MRB funding to provide lower rates to low income households. The higher outcome regarding rental housing rehabilitation activity was primarily due in part to activities that had been previously

funded but were completed during this annual and strategic reporting period.

The outcomes reported in the tables above are based on CDBG activities that were completed during the 2018 program year, April 1, 2018-March 31, 2019. The difference between expected and actual CDBG beneficiaries is the result of the LCDBG applications received, as well as the review and rating of those applications.

Narrative

The information provided in the table above summarizes the extent various race and ethnicity of families have applied for, participated in, or benefited from, any program or activity funded in whole or in part with HOME funds. This report includes as "**Attachment 4**", the IDIS PR 23 Report (HOME Summary of Accomplishments) for the FY 2018 reporting period ending 3/31/19. According to the report, the racial and ethnic household composition of HOME-assisted projects was as follow: 20% White; 79% Black or African American; 1% other multi-racial.

While CDBG maintains data on racial, ethnic, and gender characteristics of persons who are direct beneficiaries for CDBG-funded projects, IDIS does not allow data to be entered for projects with indirect beneficiaries.

The ESG totals in the chart above represent the racial and ethnic composition of the families served during the reporting period

(April 1, 2018- March 31, 2019).

Narrative

The State of Louisiana received \$10,369,418 as a FY 2018 HOME fund allocation. The amount of program income received during the reporting period from HOME funded activities was \$3,774,085. The total amount of HOME funds made available through the FY 2018 was \$14,143,503. The state also received a \$ 3,068,829 award of National Housing Trust Funds (NHTF) on September 12, 2018. NHTF funds were awarded in conjunction with tax credits during the 2018 HOME and Housing Trust Fund NOFA. According to the PR 07 (HOME Drawdown Report by Voucher Number) dated 4/01/19, the amount of HOME funds expended during the FY 2018 program year was \$6,834,996 which included program income and funds committed from prior years. In addition to HOME funds, the state also used non-federal resources including bond sale proceeds and housing tax credits with HOME funds to finance affordable housing activities.

The \$23,409,093 in resources made available for CDBG include the FY 2018 allocation for \$21,638,489 as well as \$68,890.42 in Program Income, \$385,739 in disallowed costs and \$1,315,974 in unutilized funds from completed or terminated projects.

Table 4 – Identify the geographic distribution and location of investments

Narrative

The FY 2018 Consolidated Annual Action Plan did not target any specific area of the state in connection with its overall investment of state HOME funds. However, in order to address a portion of the unmet housing needs, the state provided funding through five funding initiatives: 2018 CHDO Annual Awards Program (CHAAP), 2018 Nonprofit Open Cycle Affordable Housing Program (NOAH); 2018 Small Project Continuation NOFA; 2018 Winter NOFA; 2018 HOME and Housing Trust Fund Fall NOFA. Although funding through these initiatives was offered statewide, additional selection criteria points were offered for proposed projects in small cities and rural parishes. The state has observed that open funding programs, or programs using competitive funding criteria, serve the state best by allowing for the development of projects that meet local needs. Selection criteria are more favorable for projects that are proposed in those geographic areas of greatest needs being supported by market studies. The use of HOME funds for tenant based rental assistance was an essential element of the state's five year strategy and annual action plan. The state continued to use HOME funds for tenant based rental assistance as the needs and market conditions were identified. HOME funds were made available on a statewide basis to assist households that were aging out of foster care facilities (rent and security/ utilities deposits) and participants in the HUD Section 811 Supportive Housing for Persons with Disabilities Demonstration Program (security and utilities deposits).

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

HOME funds in the amount of \$10,393,923 were awarded to fifteen (15) proposed projects with a total development cost of \$16,691,883 that included an additional amount of \$6,297,960 which was leveraged from other non-HOME fund sources. The other sources of non-HOME funds were a combination of other private and commercial lenders, affordable housing program grants and deferred developer fees. The state, as a participating jurisdiction (PJ) for the state administered HOME program, incurs a 25 percent match obligation during each Federal fiscal year based on the amount of HOME funds drawn down from its U.S. Treasury account. On September 21, 2018, HUD published the FY 2018 HOME Match Reductions which includes match reductions for the FY 2018 due to fiscal distress, severe fiscal distress and Presidential disaster declarations. According to the report, the FY 2018 match reduction for the state of Louisiana is 0%. According to the HUD PR 33 report (HOME Match Liability Report) dated April 1, 2019, the FY 2018 match liability for the state administered HOME program is \$753,041.60. The state recognized match contribution for FY 2018 as reported below and will continue to carry forward excess match credit to the next federal fiscal year.

A match is not required for LCDBG, funds available through LCDBG are leveraged with other federal, state and local government funds. The additional funds are primarily used for administration and planning of projects, property acquisition and a portion of project construction costs.

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The outcomes reported in the tables above are based on HOME funded activities that were completed in the HUD Integrated Disbursement and Information System (IDIS) per the HUD PR 23 Report during the 2018 program year, April 1, 2018-March 31, 2019. HOME funds were leveraged with other available resources as gap funding relative to the rehabilitation and construction of multi-family rental housing developments. The proportional relationship of HOME funds to other funds, i.e., Mortgage Revenue Bonds, Low Income Tax Credits and private lenders loans, in larger rental housing developments

produces fewer HOME assisted units. The overall results are more affordable housing units but less HOME assisted units as seen in the most recent result of 296 total units to 71 HOME assisted units. Larger developments tend to need more time to close and commence construction due to the multiple layering of finances.

Discuss how these outcomes will impact future annual action plans.

The State will continue to utilize the most available and reliable data with regards to housing needs and funding availability to forecast goals and outcomes.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Narrative Information

The outcomes reported in the tables above are based on HOME funded activities that were completed in the HUD Integrated Disbursement and Information System (IDIS) per the HUD PR 23 Report during the 2018 program year, April 1, 2018-March 31, 2019.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The state continues to work with sub-recipients and Continuums of Care to identify the unsheltered homeless through intensive street outreach efforts. These efforts have identified and linked over 488 persons to mainstream services including housing. All state homeless providers utilize the same assessment tool, which allows for services to be individualized therefore meeting the clients specific needs.

Addressing the emergency shelter and transitional housing needs of homeless persons

Addressing the emergency shelter and transitional housing needs of homeless persons the Emergency Solutions funding allocated to 21 homeless shelters to provide immediate Housing for those individuals and families experiencing homelessness. These shelters provided 25,278 nights of shelter stays. The implementation of the Vulnerability Index and Service Prioritization and Service Prioritization Decision Assistance Tool has ensured that the clients are routed to the best resource to meet their needs.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

The state made provisions for agencies to utilize ESG funding to provide homeless prevention assistance when it was necessary to prevent individuals and families from loss of housing and becoming homeless. These efforts also included identifying and servicing those individuals released from institutions. ESG funding provides financial assistance to households throughout the state to low income populations. These individuals and families must meet the eligibility criteria in accordance to the Federal Register rules and regulations. The State's Interagency Council on Homeless continued the work outlined and adopted the Louisiana's Ten year Plan to End Homelessness, Ma Maison (My Home). The plan which is aligned with the United States Interagency Council on Homelessness' Opening Doors. The plan outlines the goals for Louisiana CAPER 22 OMB Control No: 2506-0117 (exp. 07/31/2015) as:

Finish the job of ending chronic homelessness by 2016 • Prevent and end homelessness among veterans by 2015 • Prevent and end homelessness for families, youth and children by 2020: and • Set a path to ending all types of homelessness The Governors Council on Homelessness was established in 2016. This council is playing an integral part in the development of discharge planning for hospitals, jails, and prisons. The council's goals are also aligned with the federal goals identified above.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The Louisiana Ten year Plan to End Homelessness, Ma Maison steps have been outlined to identify chronically homeless individuals and families and link them to housing and services. The utilization of the VI-SPDAT by all CoC's within the state ensures prioritization of resources to those homeless most in need. Quarterly Homeless Working Groups are held to continue this work and develop statewide strategies and goals: 4 meetings were conducted during the reporting period, resulting in multiple subgroup meetings to determine specific work assignments.

The state worked with cities and parish officials across the state to accept the White House Challenge: Mayors Challenge to End Homelessness. This challenge is to identify the veterans in each community and provide housing, the initial date was by the end of 2015, however that was extended through 2016. The following cities accepted the challenge: City of Baton Rouge, City of New Orleans, City of Lake Charles, City of Shreveport, Terrebonne Parish. The City of New Orleans has accomplished the goal in 2015. During 2016 Lake Charles, City of Shreveport and Terrebonne Parish met the goal of ending veteran homelessness in their community.

Many of our cities and parishes came close to meeting their goal, and will continue the work of identifying and housing homeless veterans.

Additionally, the Project Based Voucher program continues to address homelessness by making individuals who are chronically homeless a preference. The PBV program has provided housing to 226 chronically homeless individuals.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The state continues to develop and implement its strategy and a set of standards for identifying and preserving those affordable housing developments (including public housing) with the greatest need for preservation, e.g., at imminent risk of opting out of a contract or with the greatest need for physical improvements. The state has also committed to provide appropriate resources through its Multi-family Bond, Tax Credit, HOME and Housing Trust Funds programs to public housing authorities to preserve and modernize their public housing units or re-construct new units; especially those participating in the Rental Assistance Demonstration (RAD) Program. The RAD Program is a U.S. Department of Housing and Urban Development (HUD) initiative for the conversion of public housing units to long term Project Based Vouchers (PBV) or Project Based Rental Assistance (PBRA) contracts. In addition, the state also provided a dedicated staff to facilitate and support PHAs through the RAD application and conversion process.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

The State does not have any direct or indirect jurisdiction over the management or operations of public housing authorities regarding resident initiatives; however, the State does recognize that it is important to maintain a relationship with these service providers.

Actions taken to provide assistance to troubled PHAs

During the FY 2018 program year, the state provided resources in the form of technical and financial assistance to troubled public housing agencies upon request. Financial assistance was provided utilizing Low-Income Housing Tax Credits, Multi-family Bond and HOME Program funds for the preservation and modernization of public housing units or re-construction of new units.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

All agencies administering HUD programs in the state encourage, but cannot mandate, local governments to adopt policies, procedures, and processes that will reduce barriers to affordable housing. These include land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment.

The state through the Louisiana Housing Corporation encouraged partnerships between for-profit developers, nonprofit organizations, local governmental units, commercial lending institutions and State and federal agencies in an effort to reduce barriers and garner community support for affordable housing.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

All of the activities that were funded under the State's Community Development Block Grant Program, HOME Investments Partnerships Program, Housing Trust Funds, Emergency Solutions Grants Program, and State Formula Housing Opportunities for Persons With AIDS Program (HOPWA) addressed the goal of improving the living conditions of the State's low and moderate income citizens in all regions of the State including underserved small cities and rural areas. State Formula HOPWA is specifically dedicated to preventing homelessness among low income persons who are living with HIV. These individuals struggle with the stigma of their medical condition, in addition to the challenges that come with poverty, when seeking medical care, employment, supportive services and even housing. State Formula HOPWA is an integral component of preventing homelessness in this target population.

The HOME, Housing Trust Funds, ESG, and State Formula HOPWA programs resources were used to assist in the provision of decent housing by improving existing housing units as well as expanding the availability of decent and attractive affordable housing. The Louisiana Community Development Block Grant (LCDBG) Program provided funding for infrastructure improvements which will improve the quality of life and raise the living standards of all of the citizens being served. The LCDBG Program also allocated funds for the expansion of economic opportunities with the primary purpose of creating jobs which are accessible to low and moderate income persons. Funds were made available to local governments for loans to private for-profit enterprises for specified industrial development uses and/or to use to make public improvements which support a private industrial expansion effort.

In addition, Low Income Home Energy Assistance Program (LIHEAP) and Weatherization Assistance Program (WAP) program funds were used to lessen the burden of high energy cost affecting low income households. The LIHEAP program targeted those households with the lowest incomes that pay a high

proportion of household income for home energy, primarily in meeting their immediate home heating needs. The priority population for the WAP program includes low-income families with at least one member who is elderly (60 years of age and older), disabled, age five and under, high residential energy users and households with a high energy burden.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The HOME program requires lead screening in housing built before 1978 for the Owner Occupied Rehabilitation Assistance Program. Rehabilitation activities fall into three categories:

- Requirements for federal assistance up to and including \$5,000 per unit;
- Requirements for federal assistance from \$5,000 per unit up to and including \$25,000 per unit; and
- Requirements for federal assistance over \$25,000 per unit.

Requirements for federal assistance up to and including \$5,000 per unit are:

- Distribution of the pamphlet, "Protect Your Family from Lead in Your Home", is required prior to renovation activities;
- Notification within 15 days of lead hazard evaluation, reduction, and clearance must be provided;
- Receipts for notification must be maintained in the administrator's file;
- Paint testing must be conducted to identify lead based paint on painted surfaces that will be disturbed or replaced or administrators may assume that lead based paint exist;
- Administrators must repair all painted surfaces that will be disturbed during rehabilitation;
- If lead based paint is assumed or detected, safe work practices must be followed; and clearance is required only for the work area.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

<p align="LEFT">The state continued to use Weatherization Assistance Program and Low-Income Home Energy Assistance Program funds to assist low-income households to reduce energy costs; particularly the elderly, persons with a disability and households with children. Increasing the energy efficiency of homes has been an effective mean to reduce the number of poverty-level families by increasing the amount of funds that may be used for other household needs.</p>

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

<p align="LEFT">The State continues to promote the development and capacity of Community Housing Development Organizations (CHDOs) to develop, own and sponsor affordable housing projects. The State also continued its coordination with local banks, mortgage lenders, and financial institutions in the development of affordable housing and economic development projects.</p><p align="LEFT">The State also recognized that there were gaps in the service delivery system, particularly in rural areas. This is due either to the limitations of service delivery systems available in these areas or the unwillingness of developers, financial institutions, local contractors, and local governments to participate in the housing assistance programs offered by the State. The State continued its outreach efforts towards expansion into these non-urbanized areas by offering incentives and training to willing service providers.</p>

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

<p align="LEFT">The state through the Louisiana Housing Corporation (LHC) conducted several workshops on a statewide basis to provide information and technical assistance to local governmental units, nonprofit organizations, developers, lenders and real estate practitioners with emphasis on affordable housing programs and related issues. The State has also executed a Memorandum of Understanding (MOU) with the U.S. Department of Agriculture Rural Development staff. All affordable rental housing applications utilizing HOME funds were required to submit a certification that the local offices of HUD and Rural Development were contacted concerning the construction of the proposed project. Developers were required to acknowledge in writing that the construction of the proposed project will not have an adverse impact on existing multifamily housing developments which have been sponsored, subsidized, funded or insured by HUD or USDA.</p>

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

The state will continue to inform the public in an effort to foster greater understanding and acceptance of the individual's right to fair housing, as well as offer information to persons in need of the corporation's services. The state encourages the development of all forms of quality low-cost housing in its mission to finance healthy, equitable and sustainable communities throughout Louisiana.

The state housing agency (Louisiana Housing Corporation) continues to provide training for its staff in matters of fair housing in order to address impediments and/or barriers to providing or accessing affordable housing. The purpose is to educate and equip staff with the tools necessary to recognize discriminatory activities or practices. Also, staff training identifies measures to be taken to stop or eliminate such discriminatory activities in accordance with the Affirmatively Furthering Fair Housing (AFFH) final rule published in the *Federal Register* by HUD on July 16, 2015.

The Louisiana Housing Corporation (LHC) continues to collaborate with the Louisiana Office of the

Attorney General to provide fair housing and accessibility workshops statewide to inform developers, architects, engineers, property managers, and the general public and address the most common misconceptions regarding compliance under the Fair Housing Act with an emphasis on accessibility, design, and construction requirements. In addition, the LHC also entered into a Professional Services Agreement with the Lawyers' Committee for Civil Rights Under Law to undertake an Analysis of Impediments for Fair Housing Choice.

With respect to the Low Income Housing Tax Credit Program, the Board of Directors of the Louisiana Housing Corporation (LHC) has adopted a fair housing discrimination policy that involves the filing of a complaint with the appropriate enforcement agency, i.e., HUD or the Department of Justice. Invoking this provision on the part of the developer provides for a reallocation of tax credits.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The state provides administrative oversight to recipients of HUD funds through program evaluation and monitoring. The compliance standards required by the HUD programs, as well as the standards required by other applicable federal requirements, have been adopted by the state agencies administering the CDBG, HOME, Housing Trust Funds, ESG and HOPWA Programs. Staffs are responsible for assuring that recipients develop and maintain projects in accordance with the applicable federal and state laws and regulations as well as agencies requirements. In carrying out this responsibility, staffs identify problems early in program implementation, isolate the causes, and assist in corrective measures. These monitoring activities are conducted in an assistance-oriented manner and, when feasible, deficiencies are corrected on-site through technical assistance. Program evaluation and monitoring primarily consist of three functions: education, ongoing evaluation and technical assistance, and on-site assistance.

The Louisiana Housing Corporation (LHC), as the administrative entity for the HOME Investment Partnerships Program (HOME) for the state, conducts on-site inspection for all HOME funded multi-family rental development in accordance with 24 CFR 92.504 (d). Physical inspections are conducted in accordance to the Uniform Physical Condition Standard. The LHC uses the Section 8 definition of income to determine income eligibility.

Section 104 of Title I of the Housing and Community Development Act of 1974, as amended, (Title 1) and 24 CFR Part 570.492 requires Louisiana to monitor its CDBG recipients. Program evaluation and monitoring is the mechanism by which the state's Office of Community Development (OCD) provides administrative oversight to Louisiana Community Development Block Grant (LCDBG) recipients. OCD's review process ensures that recipients are in compliance with three key areas:

- Approved activities have been carried out in a timely manner,
- Recipients' activities and certifications have been carried out in accordance with the requirements and the primary objectives of Title 1 and with other applicable laws, and
- Recipient has a continuing capacity to carry out approved activities in a timely manner.

During the course of an LCDBG project, OCD's Local Government Representatives (LGRs) will evaluate and monitor grant recipients both remotely and through periodic on-site visits. Under the LCDBG program, there are three major components of program evaluation and monitoring:

- Education: The provision of workshops, manuals, and handouts training recipients in program requirements and their basis. The primary educational efforts are the mandatory post-award workshops and the Grantee Handbook.
- Technical Assistance: Imparting information that will enable recipients to comply with the various state and federal requirements for their grants.
- Evaluation and Monitoring: A systematic process used to maintain contact with all recipients in order to track their progress, make comparisons between and among grantees, and identify grantees needing technical assistance.

In carrying out OCD's Title I responsibilities, one or more monitoring and/or technical assistance visits will be made during the project period for each grant.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

The FY 2018 Consolidated Annual Performance and Evaluation Report (CAPER) is available to the public in accordance with the regulations set forth in 24 CFR Part 91. The state will hold a public hearing to receive comments on the FY 2018 CAPER on Tuesday, June 4, 2019 at the Louisiana Housing Corporation in Baton Rouge, LA. A copy of the draft CAPER will be available for review. A notice of the public hearing was published in the May 17, 2019 issue of *The Advocate*.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction’s program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

Due to the aging infrastructure in the state, the administration has chosen to direct as many resources as possible to assist the local governments in addressing these needs. The following changes are proposed for FY 2020.

- Cities with populations over 12,000 and parishes with unincorporated populations over 25,000 will be allowed to have one grant with higher grant ceilings. They will be allowed up to \$2 million for sewer/water projects and up to \$1.6 million for street projects.
 - o The population threshold for municipalities to have a higher ceiling was lowered from 25,000 to 12,000 allowing 12 additional cities to qualify for these larger grants.
 - o The ceiling for administrative fees has been increased to \$45,000 on grants over \$1.2 million.
- \$3 million will be allocated for streets, and the remaining funds in the public facilities category will be split evenly between water and sewer. Any funds remaining in the streets allocation when there is no longer enough to fund the next project, will be moved to water/sewer and be used to fund the next-highest eligible application.
- The rating criteria has been changed as follows:
 - o Local funds for administrative costs – points increased from 1 to 2
 - o Local funds for engineering costs – points increased from 1 to 2
 - o Application includes consolidation of systems (water/sewer), it will be given 4 points
 - o “Application completeness” was added for a total of 2 possible points. One point will be given if all required forms/documentation are included. One point will be given if no revisions are required for application information that affects rating criteria.
 - o The total points possible are now 71.
- For-profit business assistance for Economic Development grants has been added. This will include loans and direct assistance to a business or as a public service, such as employment training, which would require the local government to engage a qualified subrecipient to carry out the program.
- The “20% poverty” threshold for ED projects has been removed. It can still be used for LMI qualifications, but it is no longer a condition for larger funding.

The following change has been implemented as a contract condition on all sewer and water projects:

The Office of Community Development has contracted with the Louisiana Rural Water Infrastructure Committee to perform the rate studies. The grantee will have to comply with the results of the study prior to the contract being released. Grants will be terminated for failure to comply with requirements.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

A list of projects that were inspected during this reporting period is included in this report as **"Attachment 3" (FY 2018 HOME Projects Monitoring Summary)**. The monitoring summary provides a list of all HOME assisted properties subject to inspection, date of inspection, finding (if any) and final closure. All properties were scheduled and inspected in accordance with 24CFR 92.504(d). Properties that are subject to inspection but were not scheduled to be inspected during the reporting period are also included in the monitoring summary.

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 92.351(b)

The Louisiana Housing Corporation, as the administrative agency for the state HOME program, continues to monitor affirmative marketing strategies submitted by developers of multi-family properties as well as resident selection criteria to ensure compliance with §92.351 (b) (Affirmative Marketing; Minority Outreach Program). When applicable, the state requires developers to submit an affirmative fair housing and marketing plan as part of the application for funding process. Owners must update their affirmative fair housing marketing plans every five years. This report includes as **Attachment 4**, the IDIS PR 23 Report **(HOME Summary of Accomplishments)** for the FY 2018 reporting period ending 3/31/19. According to the report, the racial and ethnic household composition of HOME assisted projects completed during the report period was as follow: 20% White, 79% Black or African American and 1% other multi-racial.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

Total Program Income available for FY 2018 was \$10,145,800. This amount includes a beginning balance of \$6,371,715 and \$3,774,085 that was received during the program year. According to the PR 33 report

dated 4/1/19, the state disbursed a total of \$6,783,454 in HOME funds to affordable housing activities; \$5,677,766 to affordable housing projects activities and \$27,978 for tenant based rental assistance. In addition, \$1,105,687 was retained for program administration. The affordable housing projects that were funded primarily targeted households earning between 30 – 50 percent and 60 – 80 percent AMI. The TBRA project targeted households earning between 0-30 percent AMI. Demographic information is reflected in the HOME project IDIS data when activities are completed.

Describe other actions taken to foster and maintain affordable housing. 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 91.320(j)

Based on an assessment of local housing needs, the state has developed and updated a tax credit allocation plan that provides a preference to certain types of development, e.g., projects that serve the lowest income households, serves the long-term homeless, and preserves federally assisted housing. The state's most recent Qualified Allocation Plan and priorities for housing tax credit allocation may be viewed at:

<https://cdn2.hubspot.net/hubfs/4280063/Document%20Libraries/Housing%20Development/Funding%20Opportunities/LIHTC/Final%202018%20QAP.pdf>. The state requests funding proposals through a "Universal Application" process. The state combines tax credits with below-market interest mortgages, deferred loans and contributions from funding partners to make tax credit developments more affordable to lower income households. Eighty percent or (8 of 10) of the HOME projects that were funded during the FY 2018 reporting period received an award of housing tax credits.

CR-55 - HOPWA 91.520(e)

Identify the number of individuals assisted and the types of assistance provided

Table for report on the one-year goals for the number of households provided housing through the use of HOPWA activities for: short-term rent, mortgage, and utility assistance payments to prevent homelessness of the individual or family; tenant-based rental assistance; and units provided in housing facilities developed, leased, or operated with HOPWA funds.

CR-56 - HTF 91.520(h)

Describe the extent to which the grantee complied with its approved HTF allocation plan and the requirements of 24 CFR part 93.

The state received a \$ 3,000,000 award of National Housing Trust Funds (NHTF) on February 17,2017. NHTF funds were awarded in conjunction with tax credits during the 2017 Fall NOFA. Five (5) projects received a conditional award of \$500,000 each. The proposed projects will produce or preserve 286 multi-family units of which 30 will be HTF units. All proposed projects closed during the FY 2018 Program Year; construction on all projects is expected to commence during the 2019 program year.

In addition, the state received a \$ 3,068,829 National Housing Trust Funds (NHTF) for FY 2018 on September 12, 2018. Five (5) projects received a conditional NHTF award as part of the HOME and Housing Trust Funds 2018 Fall NOFA. The proposed projects will produce or preserve 116 multi-family units of which 46 will be HTF units. Demographic data relative to the chart below will be provided when the projects funds with NHTF are complete. No projects funded with NHTF were completed during the reporting period.

Description:

This project will address the town's sewer collection system problems by the rehabilitation of main sewer trunk lines in the target area. This project replaces the deteriorated force main, rehabilitates about 5,000 l.f. of sewer main by pipe bursting. Approximately 35 service reconnections to the rehabilitated sewer main and rehabilitates sewer services within the road right-of-way. Manholes are proposed to be lined to reduce wall infiltration.

This project will address the town's sewer collection system problems by the rehabilitation of main sewer trunk lines in the target area. This project replaces the deteriorated force main, rehabilitates about 5,000 l.f. of sewer main by pipe bursting. Approximately 35 service reconnections to the rehabilitated sewer main and rehabilitates sewer services within the road right-of-way. Manholes are proposed to be lined to reduce wall infiltration.

The proposed improvements include the installation of a floating cover across a portion of the existing lagoon in order to shade the water preventing algae growth and promoting the settling of solids within the lagoon. The aeration system will also be modified to provide the necessary aeration and mixing in a more efficient manner.
