# **Louisiana Department of Health**

# **Department Description**

The mission of the Louisiana Department of Health is to protect and promote health and to ensure access to medical, preventive and rehabilitative services for all citizens of the State of Louisiana; The Louisiana Department of Health is dedicated to fulfilling its mission through direct provision of quality services, the development and stimulation of services to others, and the utilization of available resources in the most effective manner.

The goals of the Louisiana Department of Health are:

- I. To ensure that appropriate and quality health care services are provided to the citizens of Louisiana.
- II. To protect and promote the health needs of the people of Louisiana and promote effective health practices.
- III. To develop and stimulate services by others.
- IV. To utilize available resources in the most effective manner.

For additional information see:

Louisiana Department of Health

# 09-300-Jefferson Parish Human Services Authority

#### **Agency Description**

The Mission of Jefferson Parish Human Services Authority is individuals and families in Jefferson Parish affected by Mental Illness, Addictive Disorders and/or Developmental Disabilities shall live full, healthy, independent and productive lives to the greatest extent possible for available resources.

The goals of Jefferson Parish Human Services Authority Program are:

- I. Support sustainability of resources through implementation of evidence-based, best and promising practices.
- II. Attract and retain a qualified workforce committed to Mission and to achieving Vision. Jefferson Parish Human Services Authority (JPHSA) is organized under the following provisions of the Louisiana Revised Statutes (LSA-RS): R.S. 28:771 (C); R.S. 36:254 (E); Act 73 of the 2017 Louisiana Regular Legislative Session (R.S. 28:910 et. seq.); and, related statutes. JPHSA offers behavioral health, developmental disabilities and primary care services to the residents of Jefferson Parish, Louisiana. As a Local Governing Entity, JPHSA is a political subdivision of the State of Louisiana and a Special Parish District with all the powers and duties of a corporation.

Governance is by a 12-member Board of Directors with nine members appointed by the Jefferson Parish Council and three members appointed by the Governor of Louisiana. Each member represents a specific area of expertise and experience. All members are volunteers and serve without compensation.

The Board operates under a policy governance model with an ends statement, i.e. mission and means limitations policies in place for its chosen Executive Director to follow. The Board governs with an emphasis on: outward vision rather than an internal preoccupation; encouragement of diversity in viewpoints; strategic leadership more than administrative detail; clear distinction between Board and Chief Executive roles; collective rather than individual decisions; future rather than past or present; and, actively rather than reactively.

The Executive Director and his/her leadership team strive to foster a culture of accountability and collaboration in an environment focused on evidence-based, best and promising practices, ongoing assessment of needs, and continuous performance and quality improvement. Positive outcomes and "customer" satisfaction along with work flow efficiency and cost-effectiveness in the provision of services and supports define success. JPHSA holds full and organization-wide accreditation from theCouncil on Accreditation and National Committee on Quality Assurance Level 3 Patient-Centered Medical Home Recognition for both of its Health Centers.

As mandated by the Board of Directors, JPHSA allocates its resources according to the following priorities:

- First Priority: Persons and families in crisis related to mental illness, addictive disorders and/or developmental disabilities shall have their crisis resolved and a safe environment restored.
- Second Priority: Persons with serious and disabling mental illness, addictive disorders and/or developmental
  disabilities shall make use of natural supports, health care, community resources, and participate in the community.
- Third Priority: Persons not yet identified with specific serious or moderate mental illness, addictive disorders, developmental disabilities and/or health needs but, who are at significant risk of such disorders due to the presence of empirically established risk factors or the absence of the empirically established protective factors, do not develop the problems for which they are at risk.
- Fourth Priority: Persons with mild to moderate needs related to mental illness, addictive disorders and/or developmental disabilities shall make use of natural supports, health care, community resources, and participate in the community.

# 3001-Jefferson Parish Human Services Authorit

#### **Program Authorization**

Jefferson Parish Human Services Authority is organized under the following provisions of the Louisiana Revised Statutes (LSA-RS): R.S. 28:771 (C); R.S. 36:254 (E); R.S. 28:911; Act 73 of the 2017 Louisiana Regular Legislative Session; and, related statutes.

#### **Program Description**

Jefferson Parish Human Services Authority has one program: Jefferson Parish Human Services Authority and includes the following activities:

- JeffCare Provides individuals of all ages with health-center-based primary care and/or behavioral health care utilizing an integrated universal design model to ensure ease of access to services and coordination of care. JeffCare believes individuals are able to live full and productive lives even with physical health and behavioral health issues. Primary care and behavioral health care providers render treatment, services, and supports to individuals impacted by physical health, mental health, developmental disability, substance use, and co-occurring disorders. Treatment and services, based on best practices, are individualized by a multidisciplinary team that includes the individual receiving services and his/her family.
- Behavioral Health Community Services Provides community-based treatment and support services for adults, children and adolescents with serious mental illness, emotional and behavioral disorders, and/or addictive disorders. Treatment and support services include the development, expansion, and provision of housing, employment, mobile crisis services and in-home treatments and supports, as well as, linkage to additional community resources. Services prevent psychiatric hospitalization, facilitate independence, and maximize individual recovery and resiliency.
- Developmental Disabilities Community Services Provides a single point of entry for individuals with developmental disabilities. Supports and services are person- and family-centered and planned to assist individuals with developmental disabilities to achieve full participation and inclusion in their community. Developmental Disabilities Community Services encourages full community participation and inclusion by focusing on increasing independence, promoting equal employment, supporting educational goals, assisting with increasing skill development, and decreasing challenging behaviors that may lead to institutionalization or services in a more restrictive setting.
- Compliance & Performance Support/Business Operations JPHSA's Compliance & Performance Support/Business Operations activity provides quality management (monitoring, auditing, correction and/or improvement activities), legal and regulatory compliance services, decision support (data collection, mining and analysis), outcomes reporting, accreditation maintenance, centralized care coordination, managed care contracting, provider credentialing, revenue cycle management for billable services, denial

# **Acquisitions and Major Repairs**

| Amount |  |  |  | Description |
|--------|--|--|--|-------------|
|        |  |  |  |             |

This agency does not have funding for Acquisitions and Major Repairs.

**Objective: 3001-01** Through the Behavioral Health Community Services activity, provide a continuum of services to individuals of all ages, and retain or acquire resources needed to sustain such programs through the end of FY 2024-2025.

**Children's Budget Link** JPHSA services for children, under the umbrella of these objectives, are related to the health policy enunciated in the Children's Budget Link, i.e. all Louisiana Children will have access to comprehensive healthcare services, and are linked via the Authority's budget.

HR Policies Beneficial to Women and Families Link With regard to staff, JPHSA has an array of Human Resources policies that support female employees, and hence, their families. Review of all policies occurs on a regular basis with updates made as needed. Additionally, the Human Resources Director and JPHSA Compliance Officer monitor state and federal guidelines/mandates to ensure compliance and stimulate process improvement. With regard to service recipients, as reflected in the Strategic Plan, JPHSA utilizes a person- and family-centered approach to the provision of services, recognizes families as the foundation of lifelong love and care, and acknowledges the need for families to be supported and strengthened.

**Objective: 3001-03** Through the JeffCare activity, provide a continuum of services to individuals of all ages, and retain or acquire resources needed to systain such programs through the end of FY 2024-2025.

**Children's Budget Link** JPHSA services for children, under the umbrella of these objectives, are related to the health policy enunciated in the Children's Budget Link, i.e. all Louisiana Children will have access to comprehensive healthcare services, and are linked via the Authority's budget.

HR Policies Beneficial to Women and Families Link With regard to staff, JPHSA has an array of Human Resources policies that support female employees, and hence, their families. Review of all policies occurs on a regular basis with updates made as needed. Additionally, the Human Resources Director and JPHSA Compliance Officer monitor state and federal guidelines/mandates to ensure compliance and stimulate process improvement. With regard to service recipients, as reflected in the Strategic Plan, JPHSA utilizes a person- and family-centered approach to the provision of services, recognizes families as the foundation of lifelong love and care, and acknowledges the need for families to be supported and strengthened.

# 09-301-Florida Parishes Human Services Authority

# **Agency Description**

Florida Parishes Human Services Authority (FPHSA) is lighting the path forward services in our communities to help people reach their fullest potential in health and wellness.

The goals of the Florida Parishes Human Services Authority Program are:

- I. To assure comprehensive services and supports which improve the quality of life and community participation for persons with behavioral health disorders (substance use and serious/persistent mental illness) and developmental disabilities, while providing effective limited intervention to individuals with less severe needs.
- II. To improve the quality and effectiveness of services and/or treatment through the implementation of best practices and the use of data-based decision-making.
- III. To promote healthy and safe lifestyles for people by providing leadership in educating the community on the importance of prevention, early detection and intervention, and by facilitating coalition building to address the localized community problems.

The Florida Parishes Human Services Authority Program is a local governing entity/political subdivision of this state created by the Louisiana Legislature to directly operate and manage community-based behavioral health disorders and developmental disabilities in the parishes of Livingston, St. Helena, St. Tammany, Tangipahoa, and Washington. Functions and funds relative to the operation of these services were transferred to FPHSA from the Louisiana Department of Health (LDH). Some funds relative to these functions are also appropriated directly to FPHSA. To increase responsiveness to local human service needs, FPHSA is governed by a board composed of members appointed by the respective parish governing authority and ratified by a plurality of the legislative delegation representing the five parishes which are included in the authority. The FPHSA Board of Directors and administration assure consistency of its goals with LDH in the areas of prevention, treatment, support, and advocacy for persons with behavioral health disorders and developmental disabilities.

#### 3011-Florida Parishes Human Services Authorit

#### **Program Authorization**

Florida Parishes Human Services Authority is organized under the following provisions of the Louisiana Revised Statutes (LSA-RS): R.S. 28:382.1 and 771 (E); R.S. 28:911; Act 73 of the 2017 Louisiana Regular Legislative Session; Act 594 of the 2003 Louisiana Regular Legislative Session; and, related statutes.

### **Program Description**

The program has two major activities: Behavioral Health Services (addictions/substance use and serious/persistent mental health disorders) and Developmental Disabilities Services. Also included is the activity of Executive Administration.

The Florida Parishes Human Services Authority Program includes the following activities:

- Behavioral Health Services (BHS) provides an accessible system of prevention and treatment services for addictions/substance use and mental health disorders, as well as home and community-based services. These services are available for persons residing in all five parishes served by FPHSA.
- Primary Prevention Prevention is the proactive outcome-driven process of promoting healthy lifestyles and improving quality of life by empowering individuals, families, and communities through an integrated system of evidence-based policies, programs and practices. Ideally, prevention is intended to prevent or reduce the risk of developing a behavioral health problem such as underage drinking, prescription drug misuse and abuse, and illicit drug use. Early intervention is the key to preventing the onset of substance abuse usage issues. Community involvement is vital to ensure that the issue of prevention is being tackled at every level. It is our belief that prevention works. Furthermore, it provides hope for effecting change to support healthy behaviors.
- Addictions/Substance Use Disorders and Gambling Treatment FPHSA promotes and supports healthy lifestyles for individuals, families, and communities by providing treatment for addictions/substance use disorders and compulsive problem gambling. Levels of care include:
- Outpatient clinics provide intensive and non-intensive outpatient treatment. Intensive outpatient treatment consists of a minimum of nine hours per week at a minimum of three days per week for adults 18 years and older. Non-intensive treatment includes aftercare, counseling and supportive services. The primary mode of treatment for substance use and compulsive problem gambling is group counseling.
- Residential Treatment (Alcohol Drug Unit/Fontainebleau Treatment Center) is a twenty-four hours a day, seven
  days a week residential treatment modality providing non-acute care. It includes a planned and professionally
  implemented treatment regime for persons experiencing alcohol and/or other substance use problems, including persons who are experiencing co-occurring disorders.
- FPHSA will maintain a commitment to supporting, providing, and/or facilitating through referral any available Food and Drug Administration (FDA) approved Medication-assisted Treatment (MAT) for substance use disorders including tobacco, opioids, alcohol, and other substance use disorders for which MAT has proven effective.
- Mental Health Services FPHSA provides services to adults with severe and persistent mental health disorders, as well as services for children and adolescents. Clinic-based services, as well as outreach and home and community-based services, are provided in the five parish service area in order to enhance accessibility. Services provided are individualized, educational, and supportive to assist individuals in their recovery.
- Clinic-based services include crisis assessments, behavioral health assessments, psychiatric evaluations, individual, family and group therapy, medication management, case management, and provision of psychiatric medications to individuals. In addition, supportive services are provided through contract providers in the com-

munity as an extension of clinic services. Some of these services offered include a crisis phone line for after-hours access, consumer care resources, flexible family funds and peer support services.

- FPHSA clinics refer persons served to its Home and Community-based services when it is deemed appropriate and that the person may benefit from case management services. These individuals often have difficulty with daily functioning and may benefit from supports being provided in their home or community. Supportive services are also provided to individuals who are in the Permanent Supportive Housing initiative. These services are accepted on a voluntary basis and the program is based on the Housing First philosophy. FPHSA also provides in-home treatment for families through the evidence-based Functional Family Therapy Child Welfare (FFT-CW) program. The FFT-CW program provides Low-Risk Interventions and High-Risk Treatment services to program participants based on a comprehensive assessment of client need.
- Primary Care Services FPHSA will be expanding services to integrate primary care into the existing continuum of services. Integrated primary care will result in better outcomes for individuals served with respect to traditional physical health outcomes as well as behavioral health outcomes. Statistics show that individuals with severe and persistent mental health disorders die, on average, 25 years earlier than the general population. Integrated primary care and behavioral health services will allow for earlier detection and management of chronic conditions which are responsible for this statistic.
- All services are coordinated, and every effort is made to avoid duplication of services, both within the agency and with other community service providers and stakeholders. This philosophy and promotion of coordination and collaboration of service delivery with other area public agencies and service providers helps to maximize use of limited resources, both staff resources and funding for contracted services.
- Developmental Disabilities Services (DDS) provides supports and services which afford people with developmental disabilities and their families a seamless system that is responsive to both the individuals' needs and desires.
- DDS is the single point of entry into community-based services which include Support Coordination, Individual and Family Support, Flexible Family Fund, Residential Living Option, and local oversight and operation of the Home and Community Based (HCBS) waivers. A developmental disability may be a physical and/or intellectual impairment, must occur prior to the age of 22, not solely attributed to mental illness, and results in substantial functional limitations in three or more areas of major life activities. The Entry Services unit determines whether the individual meets criteria for participation in the system.
- Support Coordination assists individuals in obtaining needed services through an assessment of their needs, and development of a Plan of Support (POS) which identifies and provides access to natural community supports and system-funded services (such as Medicaid) to meet their needs. Information and referral to other agencies is provided on an ongoing basis.
- Individual and Family Support services are provided to support those needs of individuals with developmental disabilities which exceed those that can be met by existing resources.
- Crisis Intervention and Diversion services include crisis funding, coordination for those involved in court and/ or LDH custody, crisis admission to residential living options, transition coordination, and referral to immediate support services.
- Flexible Family Fund is a flat monthly stipend provided to families of children from birth until age 18 with severe developmental disabilities. Funding assists these families meet the extraordinary cost of services and equipment to maintain a child with a developmental disability in the home.
- Residential Living Options include a broad range of living options which provide 24-hour supports such as community homes.

- The DDS Home and Community Based (HCB) waivers include the New Opportunities Waiver (NOW), the Children's Choice Waiver (CCW), the Supports Waiver (SW), and the Residential Options Waiver (ROW).
- Pre-admission Screening Resident Review (PASRR) is the review of all nursing home admissions within the FPHSA area of persons with developmental disabilities to determine appropriateness of nursing home environment in meeting their needs in the least restrictive setting and to identify their need for specialized services.
- DDS strives to provide supports and services in order to maintain persons with developmental disabilities in the home with family or in a home of their own.
- Executive Administration Florida Parishes Human Services Authority (FPHSA) is a local governing entity/ political subdivision of this state with the mission to direct the operation and management of public community-based programs and services relative to behavioral health disorders (including Alcohol Drug Unit and Fontainebleau Treatment Center) and developmental disabilities in the FPHSA catchment area. FPHSA was created to pool funding dollars in the areas of behavioral health and developmental disabilities services and to bring spending and operational decisions down to the local level. FPHSA's geographical service area includes the five parishes of Livingston, St. Helena, St. Tammany, Tangipahoa, and Washington. The Authority is governed by a nine-member Board of Directors representing the five-parish area. FPHSA, through its Board, directs the opermanagement of community-based Executive Administration oversees the budget, contracting, and purchasing processes, ensuring that the agency optimizes tax-payer dollars; develops, implements, and monitors agency compliance with policies and procedures modeled after state and national best-practices; assesses staff training needs and fosters workforce development by connecting employees with appropriate training opportunities; reduces or eliminates inefficiencies by analyzing and improving on agency processes; keeps pace with the rest of the state by early adoption of technological improvements; and ensures agency adherence to state and federal regulations. A goal of Executive Administration is to avoid duplication, to streamline service delivery, and to improve the quality of care and service delivery to the individuals who are served.

### **Source of Funding**

This program is funded with the following:

- State General Fund (Direct)
- Interagency Transfers derived from:
  - o Office of Behavioral Health
  - o Office of Aging and Adult Services
  - Department of Public Safety Office of Corrections
  - o Bureau of Health Services Financing
  - Medical Vendor Payments Title XIX
- Fees & Self-generated Revenues derived from:
  - Fees for services provided to clients who are not eligible for Medicaid services through managed care organizations
  - Medicare
  - o Third party liability
  - Self-Pay Clients
  - o 22nd Judicial District Court for services provided in accordance with Memorandum of Understandings
  - Copy fees for medical Records
  - o Federal Funds

**Objective: 3011-03** Through the Executive Administration activity, FPHSA will work to continuously improve the effectiveness and efficiency with which the previous objectives are accomplished through the management of available resources in response to needs to the communities served.

#### Children's Budget Link N/A

HR Policies Beneficial to Women and Families Link The following Florida Parishes Human Services Authority (FPHSA) policies/procedures currently in place that benefit women and families are: Equal Employment Opportunity, Discrimination and Harassment Complaints, Cultural Diversity and Competency, and Workplace Violence Prevention (also domestic violence). FPHSA, through its Human Resources Office, continues to develop and implement policies that are helpful and beneficial to women and families. FPHSA adheres to all federal, state and/or local laws, including those applicable to women and families. Additionally, FPHSA currently utilizes several of the Louisiana Department of Health Human Resource policies, such as the Family Medical Leave Act and the Grievance Policy, just to name a couple, until such time as the agency can finalize policy implementation of these policies. As part of the policy implementation process, continued monitoring of all applicable resources will ensure that these policies are regularly maintained and updated to ensure accuracy.

**Other Links (TANF, Tobacco Settlement, Workforce Development Commission, or Other)** Get a Game Plan: Emergency Preparedness-Staff members of FPHSA are appropriately trained in state emergency preparedness initiatives and are ready to serve when called upon. Coordination is provided by the Executive Administration activity.

# 09-302-Capital Area Human Services District

# **Agency Description**

The mission of the Capital Area Human Services District (CAHSD) is to deliver caring and responsive services, leading to a better tomorrow. We excel at making lives better. The CAHSD is the mental health, addiction recovery and developmental disabilities authority in the Greater Baton Rouge area. It directs the operation and management of public, community-based programs and services in the parishes of Ascension, East Baton Rouge, East Feliciana, Iberville, Pointe Coupee, West Baton Rouge and West Feliciana.

The goals of the Capital Area Human Services District Program are:

- I. To provide needed mental health, addiction recovery and developmental disabilities services that consumers, their families and communities; in a manner that provides them quick and convenient access.
- II. To ensure that services provided are responsive to client concerns, integrated in service delivery methods, representative of best practice, and consistent with the values of the Louisiana Department of Health and its Program Offices.
- III. To promote healthy, safe lives by providing leadership in educating the community on the importance of prevention, early detection and intervention, and by facilitating coalition building to address localized community problems.
- IV. To structurally and functionally operate clinics in a manner consistent with the needs of diverse payers that allows for quality service expansion and availability.

For additional information, see:

Capital Area Human Services District

# 3021-Capital Area Human Services District

#### **Program Authorization**

Capital Area Human Services District is organized under the following provisions of the Louisiana Revised Statutes (LSA-RS): R.S. 28:911-920; R.S. 28:771(D); R.S. 36:254(F) and R.S. 36:258(G)-(I); Act 373 of the 2008 Regular Session; Act 73 of the 2017 Louisiana Regular Legislative Session; and related statutes.

#### **Program Description**

The Capital Area Human Services District Program is a political subdivision created by the Louisiana Legislature to directly operate and manage community-based mental health, addiction recovery, developmental disabilities, and certain public health functions in the parishes of Ascension, East Baton Rouge, East Feliciana, Iberville, Pointe Coupee, West Baton Rouge and West Feliciana. Functions and funds relative to the operation of these services were transferred to CAHSD from the Louisiana Department of Health (LDH) through a Memorandum of Understanding (MOU) monitored by the LDH Secretary. Some funds relative to these functions are also appropriated directly to CAHSD. To increase responsiveness to local human service needs, CAHSD is governed by a board composed of members nominated by the respective parish governing bodies, and appointed by the Governor of Louisiana. The district became operational July 1, 1997.

The Capital Area Human Services District includes the following activities:

- Administration CAHSD Administration provides leadership, management and supports in the areas of District Operations, Management and Finance, Billing, Human Resources, Compliance, Employee Administration, Information Technology, and Strategic Planning & Quality Improvement, Health and Safety and Training.
- Developmental Disabilities CAHSD Division for Citizens with Developmental Disabilities operates community-based and over sees wavier services for people with intellectual disabilities, developmental disabilities and autism residing in the District's service area.
- Nurse Family Partnership CAHSD Nurse Family Partnership operates the Maternal and Child Health Program for individuals residing in the District's service area.
- Children's Behavioral Health Services CAHSD Children's Behavioral Health Services provides the behavioral health and addiction recovery treatment and support services for children and adolescents. This includes a program for children ages 2-5 years old with an autism diagnosis. School-based Mental Health Services are in 44 schools throughout the districts.
- Adult Behavioral Health Services CAHSD Adult Behavioral Health Services provides the mental health and addiction recovery treatment and support services for adults. It includes a residential drug treatment program for adult males. Also includes six (6) mobile outreach treatment, crisis and satellite teams and placement of staff in the East Baton Rouge Parish Prison.
- Prevention- CAHSD Prevention provides a variety of program and outreach for persons below age 18 years old.
- Disaster Response CAHSD Disaster Response provides targeted communication, supports, and services prior
  to, during and after an emergency/disaster; and participates in staffing and management of the Region 2 Medical Special Needs Shelter Theater by providing leadership and clinical outreach supports and services to persons with behavioral health and developmental disabilities within the community during a disaster.
- Behavioral Health Emergency Services Continuum CAHSD works with community partners to develop crisis
  continuum to prevent, mitigate and avoid repeated cycles of crises to reduce reliance on first responders, emergency departments and acute psychiatric beds.

**Objective: 3021-04** Through the Children's Behavioral Health Services activity, CAHSD will provide an integrated, comprehensive behavioral health system of care, prevention and treatment services for at-risk youth and their families, ensuring that at least 90% of clients would continue to receive services at CAHSD clinics if given the choice to go elsewhere.

**Children's Budget Link** This objective is linked to Objective I.1.a. of the Children's Budget. This activity supports Act 5 of 1998 [First Extraordinary Session] by utilization of individualized care teams in the de-escalation and resolution of potential crisis in the home and preventing out-of-home placement, and collaboration with treatment partners (DCFS, FINS, OJJ, school officials, truancy officials) to assess and address the needs of children at risk of out-of-home placement, hospitalization or incarceration so that the child may thrive in the home and in school.

**HR Policies Beneficial to Women and Families Link** This objective will support Act 1078 by providing access to and provisions of school-based mental health and addictive disorders services to children in their parish of residence.

**Other Links (TANF, Tobacco Settlement, Workforce Development Commission, or Other)** Healthy People 2020: Reduce substance abuse to protect the health, safety and quality of life for all, especially children. TANF: Utilizing TANF funds in cooperation with DCFS and OBH, we are now able to provide the treatment services necessary for TANF-eligible women and their children with addiction problems to maintain a lifestyle free from the harmful effects of addiction. The goals of this TANF program include not only addictive disorders treatment for the mother, it also includes family reunification, developmental testing, and safe housing services for the dependent children.

# 09-303-Developmental Disabilities Council

# **Agency Description**

The mission of the Louisiana Developmental Disabilities Council is to increase independence, self determination, productivity, integration, and inclusion for Louisianans with developmental disabilities by engaging in advocacy, capacity building, and systems change.

The goal of the Developmental Disabilities Council Program is:

I. To effectively implement the Developmental Disabilities Assistance and Bill of Rights Act of 2000 in Louisiana. The Council, through direct activity and funded projects with agencies, organizations, universities, other state agencies and individuals, shall facilitate advocacy, capacity building, and systemic change that contribute to increased community based services and inclusive living for individuals with developmental disabilities.

The Council supports Act 1078 through funding for information and referral and support to parents of children with disabilities through regional Families Helping Families Centers.

For additional information, see:

**Developmental Disabilities Council**

# 3031-Developmental Disabilities Council

### **Program Authorization**

This program is authorized by the following legislation:

P.L. 106-402; R.S. 28:750-758; R.S. 36

#### **Program Description**

The Developmental Disabilities Council is a 28 member, Governor appointed board whose function is to implement the Federal Developmental Disabilities Assistance and Bill of Rights Act (P.L. 106-402; R.S. 28:750-758; R.S. 36) in Louisiana. The focus of the Council is to facilitate change in Louisiana's system of supports and services to individuals with disabilities and their families in order to enhance and improve their quality of life. The Council plans and advocates for greater opportunities for individuals with disabilities in all areas of life, and supports activities, initiatives and practices that promote the successful implementation of the Council's Mission and mandate for systems change.

The Council leads and promotes advocacy, capacity building, and systemic change to improve the quality of life for individuals with developmental disabilities and their families. The program goals of the Developmental Disabilities Council are to:

- I. Pursue systems change (e.g., the way human service agencies do business so that individuals with developmental disabilities and their families have better or expanded services).
- II. Advocacy (e.g., educating policy makers about unmet needs of individuals with developmental disabilities).
- III. Capacity building (e.g., working with state service agencies to provide training and benefits to direct care workers) to promote independence, self-determination, productivity, integration and inclusion of people with developmental disabilities in all facets of community life.

The Council provides services, through contracts with agencies, organizations, universities, other state agencies and individuals and funds projects which facilitate advocacy, capacity building and systemic change for individuals with disabilities and their families.

The Developmental Disabilities Council (DDC) has only one program and one activity: Developmental Disabilities Council; where DDC implement initiatives identified in Council plan.

# **Professional Services**

| Amount | Description   |
|--------|---|
|        | This program does not have funding for Professional Services. |

# **Other Charges**

| Amount      | Description   |
|-------------|---|
|             |   |
|             | Other Charges:  |
| \$507,517   | Families Helping Families (FHF) Resource Centers - There are nine regional resource centers that provide information and referral, education and training and peer support to individuals and families with disabilities.   |
| \$240,000   | Louisiana Citizens for Action Now (LaCAN) - This is grassroots advocacy network of individuals and families who have worked together since 1988 advocating for a service system that supports individuals with disabilities to live in their own homes and for implementation of Louisiana's Community and Family Support System Plan. There are ten regional LaCAN leaders who receive stipends and reimbursement for expenses associated with the dissemination of information about the Community and Family Support System to other parents, individuals with disabilities, professionals and advocates in the community. |
| \$90,000    | Partners in Policymaking - This is a leadership training program for parents of young children with developmental disabilities and self-advocates. There are eight monthly sessions that provide state-of-the-art training in disability issues to develop the competencies in participants that are necessary for effective advocacy to influence public policy at all levels of government.   |

# 09-304-Metropolitan Human Services District

# **Agency Description**

The mission of the Metropolitan Human Services District (MHSD) is to ensure person centered support and services for eligible individuals with Addictive Disorders, Intellectual/Developmental Disabilities and Mental Illness are available/provided to individuals living in Orleans, Plaquemines, and St. Bernard.

The Goals of MHSD represent our analysis of the needs and expectations of our organization. Leadership is the cornerstone of all successful completions. Foundational to successful leadership is commitment to high quality and to the drivers and indicators that promote continuous improvement to our services. Given the impact required to be successful in our goal of fostering healthier communities, we are keenly sensitive to the need for fiscal responsibility throughout this process of change. The goals of Metropolitan Human Services District are:

- I. Leadership To establish a dynamic Center of Excellence for Behavioral Health (Addiction and Mental Illness) and Intellectual/Developmental Disabilities.
- II. Quality To establish a data environment, that includes but is not limited to system infrastructure, data management, and the service delivery monitoring, that supports continuous quality improvement across MHSD.
- III. Community To build community capacity through designated partnerships and facilitate further community awareness of MHSD.
- IV. Services To provide and facilitate a Behavioral Health and Intellectual/Developmental Disabilities continuum of care that is person centered, effective, and innovative for adults, children/adolescents, and their families.
- V. Fiscal Responsibility To create, optimize, and maintain a balanced budget while responsibly managing resources and other assets equitably and sustainably.

The Metropolitan Human Services District (MHSD) has one program: Metropolitan Human Services District. For additional information, see:

Metropolitan Human Services

## 3041-Metropolitan Human Services District

### **Program Authorization**

Metropolitan Human Services District is organized under the following provisions of the Louisiana Revised Statutes (LSA-RS): R.S. 28:861-865, R.S. 28:771; R.S.36:254; R.S.36:258; R.S. 28:911; Act 73 of the 2017 Louisiana Regular Legislative Session; Act 846 of the 2003 Regular Legislative Session; and related statutes.

### **Program Description**

The MHSD program includes four main activities: Care Management/Administration, Intellectual/Developmental Disabilities, Adult Behavioral Health Services, and Child and Adolescent Behavioral Health Services.

- Care Management/Administration MHSD, serving as the planning body, implements a primary point-ofentry
  care management system that bridges the current gap between inpatient and outpatient behavioral health and
  developmental disabilities services. MHSD services include assessing the person's broad needs, planning and
  linking the individual to resources to assure access to medical and behavioral health care, and partnering with
  other community based providers to increase individual choice around housing and other supportive services.
  This work is supported by an administrative structure that is efficient, equitable, effective, evidence-based, person-centered, safe, and timely.
- Intellectual/Developmental Disabilities This activity focuses on providing cost effective, community based services and supporting the continued de-institutionalization of individuals with developmental disabilities. Examples of these supports can include: identification of employment opportunities, supports to maintain work, assistance with maintaining a household by developing skills such as paying bills, and assisting with learning life skills instead of hobbies.
- Adult Behavioral Health Services This activity focuses on improving coordination of services across the outpatient continuum of care for adults with behavioral health problems (mental illness and addictive disorders.) MHSD offers crisis intervention services which include a mobile crisis team that can be deployed as needed within the greater New Orleans area. MHSD has redesigned its clinic based structure so that mental and addictive disorder services are integrated for persons served on a walk-in basis. MHSD will continue to focus its efforts on care coordination linkage between the inpatient and outpatient settings by ensuring that the necessary transitional services are available for these high risk persons. And third, MHSD will expand services available to persons served as it continues to build out a comprehensive continuum of care which includes partnering with other complementary agencies.
- Child and Adolescent Behavioral Health Services This activity focuses on improving the coordination of services across the outpatient continuum of care for children and youth with behavioral health problems. MHSD offers crisis intervention services which include a mobile crisis team that can deployed as needed in instances of trauma within schools and community settings. MHSD will continue to focus its efforts on care coordination linkage between the inpatient and outpatient settings by ensuring that the necessary transitional services are available for these high risk persons. And third, MHSD will expand services available to persons served as it continues to build out a comprehensive continuum of care which includes partnering with other complementary agencies.

# **Acquisitions and Major Repairs**

| Amount | Description   |
|--------|---|
|        | This agency does not have funding for Acquisitions and Major Repairs. |

**Objective: 3041-01** Through Care Management/Administration - MHSD, serving as the planning body, will implement a single point-of-entry care management system that bridges the current gap between inpatient and outpatient behavioral health and developmental disabilities services, assessing the consumer's broad needs, planning and linking the individual to resources to assure access to medical and behavioral health care, and partnering with other community based providers to increase consumer choice around housing and other supportive services. This work will be supported by creating an administrative structure that is efficient, equitable, effective/evidence-based, patient-centered, safe, and timely.

**Objective: 3041-04** Adult Behavioral Health Services - This activity focuses on improving coordination of services across the outpatient continuum of care for adults with behavioral health problems. MHSD has redesigned its clinic based structure so that mental health and addictive disorder services are integrated for the clients. MHSD will continue to focus its efforts on working with the hand-off between the inpatient and outpatient settings and ensuring that the necessary transitional services are available for these high risk clients. And third, MHSD will expand services available to clients as it continues to build out a comprehensive continuum of care.

Children's Budget Link Services for children are linked via the Children's Budget to the Children's Cabinet Human Resource Policies Beneficial to Women and Families Link: MHSD supports ACT 1078 through the development of agency strategic and operational plans that are inclusive of strategies for human resource policies that are helpful to women and families. ## 09-305-Medical Vendor Administration

### **Agency Description**

The mission of the Medical Vendor Administration (MVA) is to provide the right healthcare at the right time by reducing health disparities and improving overall health outcomes in Louisiana.

Nationally healthcare has improved care in ways that matter most to patients, families, and communities. There is increased access to affordable, comprehensive, continuous health insurance coverage with an emphasis on preventive and primary care to better help identify problems. With less complex and more coordinated care, the burden of illness is expected to decline and the per capita cost of care for populations to stabilize or decrease, lessening pressure on publicly funded health care budgets and providing communities with more flexibility to invest in other activities.

In keeping with the nation, Louisiana Medicaid strives to:

- I. Maximize enrollment of eligible individuals and minimize gaps in coverage, which can disrupt access to care and lead to poor health outcomes.
- II. Promote health by balancing and integrating care using managed care delivery models.
- III. Increase access to community-based services as an alternative to institutional care.

Move away from a fee-for-service model of payments to health care providers tied to the volume of services that patients receive-amid growing evidence of inefficiencies and poor health outcomes stemming from this model-toward value-based payment models, which link providers' reimbursements to the value of the services they provide to improve clinical quality and outcomes while also containing or reducing health care costs.

The goals of Medical Vendor Administration are:

- Make comprehensive, coordinated care and quality health services available to all who qualify.
- Increase access to community-based services as an alternative to institutional care.
- Reduce the per capita cost of care by balancing healthcare and prevention spending.

The Louisiana Medicaid Program, within the Department of Health, receives state funds via Medical Vendor Administration (Agency 09-305) and Medical Vendor Payments (Agency 09-306) state appropriations. The Bureau of Health Services Financing (BHSF) administers both of these appropriations. The BHSF, which is Louisiana's single state Medicaid agency to administer Medicaid and the Louisiana Children's Health Insurance Program (LaCHIP), ensures the Medicaid program operates in accordance with federal and state statutes, rules and regulations. The Medicaid Program does not directly provide health services to citizens but pays providers for services to eligible individuals who are enrolled in the Program. The BHSF is responsible for the determination of Medicaid eligibility, certification, and enrollment of health care providers, payment to Medicaid providers, and other administrative functions.

The Medical Vendor Administration includes the following human resources policies that are helpful and beneficial to all employees: the Family Medical Leave Policy (8108-93), the Sexual Harassment Policy (8143-02), and the Equal Employment Opportunity Policy (8116-77). In addition, flexibility in work schedules, telework opportunities, and the availability of Dependent Day Care Spending Accounts assist both employees and their families.

Medical Vendor Administration has one program: Medical Vendor Administration.

### 3052-Medical Vendor Administration

### **Program Authorization**

*This program is authorized by the following legislation:* 

The Constitution of Louisiana (1974) Article 12, Section 8, declares that the Legislature may establish a system of economic and social welfare, unemployment compensation, and public health. Louisiana Revised Statutes 36:251 et seq., gives the Louisiana Department of Health (LDH) Secretary authority to direct and be responsible for the Medical Assistance Program, Title XIX of the Social Security Act, and the authority to act as the sole agent of the state or, in necessary cases, designate one of the offices within the department or its assistant secretary to cooperate with the federal government and with other state and local agencies in the administration of federal funds granted to the state or directly to the department or an office thereof to aid in the furtherance of any function of the department or its offices, including funding for the Medical Assistance Program. The Balanced Budget Act of 1997 (BBA) (Public Law 105-33), as amended by recent technical amendments (Public Law 105-100, signed into law on November 19, 1997).

### **Program Description**

The mission of the Medical Vendor Administration is to administer an efficient and effective Medicaid program in compliance with state and federal requirements.

The goals of Medical Vendor Administration Program are to:

- I. Provide exceptional customer service.
- II. Demonstrate good stewardship of public resources.

The Medical Vendor Administration Program has the following activities:

#### Program Activity 1: Medicaid Eligibility Determination and Enrollment

The Medicaid Eligibility Determination and Enrollment activity serves to identify, engage, enroll, and retain eligible individuals in the Louisiana Medicaid program, applying modern technology and customer service functions. This activity advances the agency's Triple Aim philosophy, as access to quality health care is essential to everyone's ability to achieve and maintain good health and is not possible without comprehensive, continuous health insurance coverage.

The eligibility process begins with the completion of a Medicaid application. Either the prospective beneficiary or an authorized representative may apply online, by mail, at a local Medicaid office or at a Medicaid Application Center. Individuals who apply for Medicaid must meet the eligibility requirements of the program. Eligibility determination is a federally approved process operated in a uniform manner throughout the state. In Louisiana, caseworkers in each of the nine regions of the Department of Health determine an individual's eligibility for Medicaid in accordance with standardized policy. Processing times for applications vary depending on the coverage group and program under consideration, the amount of information the person is able to provide, and how quickly all necessary information is available to Medicaid staff. Eligible individuals and families enrolled in the Louisiana Medicaid Program receive a Medicaid identification card.

In November 2018, LDH replaced its decades old Medicaid eligibility and enrollment system with modern technology. The new system improves customer service to applicants and enrollees. A "self-service" web portal provides applicants and enrollees with the convenience of updating their own information - addresses, employment, household characteristics - 24 hours a day, seven days a week. Eligibility decisions are faster - within minutes for online applications and renewals when additional information or documentation is not required. In addition to real-time eligibility decisions, automated checks of 20 state and federal databases provide greater assurance that benefits go only to those who meet eligibility requirements, increasing program integrity. Likewise, the use of an automated business rules engine provides for consistent application of a complex and dynamic set of rules governing Medicaid eligibility and regulatory compliance.

With this new, highly automated system and technology-reliant customer service functions, Medicaid strives to strike the right balance between streamlining enrollment and continuing coverage of people who meet eligibility requirements and preventing enrollment or ending coverage of people who do not. Understanding that normal life events — such as getting married or divorced, having children or taking a second job — can change a person's income and Medicaid eligibility, the agency seeks to implement policy and work processes that minimize "churn" - moving in and out of health insurance coverage, which can disrupt access to care, lead to poor health outcomes, and increase administrative burden for the Medicaid agency and the people it serves.

#### **Program Activity 2: Medicaid Enterprise Systems (MES)**

Louisiana's Medicaid providers deliver essential health care and long-term care supports and services to Medicaid recipients, and their continued participation is key to access to care and improved health outcomes. The Medicaid Management Information Systems (MMIS) handle most Medicaid provider relations functions, including the processing of provider claims and issuing payments for the fee for service (FFS) program, the processing of encounters (claims paid by managed care entities) for the managed care program, credentialing and enrolling providers in the Medicaid network, and combating fraud, waste and abuse in the Medicaid program.

Aligned with MVA goal of providing exceptional customer service, the provider enrollment and credentialing activity is to improve provider experience with the Medicaid program. In 2020, Louisiana Medicaid will fully implement a new, centralized provider management system and become responsible for credentialing and enrollment of all providers, including managed care and fee-for service.

Providers will no longer need to complete numerous, different applications to enroll, become re-credentialed, or updated information in FFS or with the managed care organizations (MCOs), leading to improved provider satisfaction. This new system will bring LDH in compliance with the Affordable Care Act's managed care screening requirements. Provider management will also be the first MES function to comply with federal modularity requirements and integrate into the statewide enterprise architecture. A primary focus of future MES Activity will be the development and execution of a multi-year strategy for the procurement, design, development and deployment of information technology services and software to further modernize the legacy MES, advancing state strategic objectives and in compliance with federal modularity requirements for MES functions.

#### **Program Activity 3: Financial Management**

The federal government and the state jointly fund the Louisiana Medicaid program. States must ensure they can fund their share of Medicaid expenditures for the care and services available under their state plan and are responsible for safeguarding Medicaid funds by making proper payments to providers, recovering misspent funds, and accurately reporting costs for federal reimbursement. Sufficient financial controls, monitoring, and reporting functions are necessary to enable program transparency and demonstrate accountability of public resources to Louisiana taxpayers, lawmakers, and other constituents. Financial management supports the agency's broader goals of ensuring cost effectiveness in the delivery of health care services by using efficient management practices and implementing measures that will constrain the growth in Medicaid expenditures.

Medicaid rate setting and audit functions decrease avoidable public expenditures in the Medicaid program and ensure that limited resources are used for health care initiatives that have proven to be the most responsive to the needs of Medicaid members. These functions also ensure that funding allocated to institutional services, such as Nursing Homes and Intermediate Care Facilities (ICF), is spent properly and that the development of Medicaid cost reports, analysis, and audit of hospital records, as required by federal regulations assure that hospitals receive reimbursements in accordance with the provisions of state and federal law, rules and regulations. Additionally, these functions include monitoring of Local Education Authorities (LEAs) participating in Medicaid for school-based health services to ensure access to Early Periodic Screening Diagnostic and Treatment (EPSDT) and other Medicaid allowable services for children and that reimbursement for these services through certified public expenditures are tracked and audited.

The purpose of establishing and maintaining an effective collections/recovery and cost avoidance program is to reduce Medicaid expenditures and improve program integrity. Monitoring of third party liability (TPL) claims processing enables the Department to enforce that Medicaid is the payer of last resort. Maximizing recoveries will result in the most efficient use of Medicaid funds.

#### **Collections:**

TPL Collections - Third parties are legally liable individuals, institutions, corporations (including insurers), and public or private agencies who are or may be responsible for paying medical claims of Medicaid enrollees. Medicaid pays only after a known third party has met its legal obligation to pay, with the exception of claims for prenatal, preventive pediatrics, and medical support enforcement, where Medicaid pays first and then pursues the third party payment, referred to as "pay and chase." Liable third parties include other health insurers and parties liable for accidents and injuries to Medicaid enrollees.

#### **Recovery:**

**Estate Recovery** - As required by federal regulations, the State must seek recovery of Medicaid payments for long-term care facility services, home and community-based services, and related hospital and prescription drug services from the estate of an individual who was age 55 or older when he or she received such service

**Recipient Recovery** - Payments made to Medicaid providers on behalf of a Medicaid beneficiary are subject to recovery from an offender as restitution. This is pursuant to a court order or as part of an agreement with a prosecutorial agency and, upon the death of the beneficiary, from funds remaining in annuities naming the State as the remainder beneficiary and from assets remaining in Special Needs Trusts (SNTs) that include a Medicaid payback provision.

**Cost Avoidance:** Cost Avoidance is the main goal of the TPL program. Once other insurance information is in MES, the system will begin cost-avoiding claims by denying them back to the provider with a message that the beneficiary has other insurance on that date of service and he or she should file the claim there first. If the provider has already billed the other insurance, Medicaid will only consider making payment up to the Medicaid allowed amount.

### **Program Activity 4: Program Integrity**

The Department is committed to combating fraud, waste, and abuse in the Medicaid program in compliance with state and federal law and regulations. Louisiana Medicaid focuses resources on specific Medicaid activities, such as provider enrollment compliance, managed care compliance, Unified Program Integrity Contractor (UPIC), payment error rate measurement (PERM), surveillance, and utilization Review (SURS), and beneficiary fraud investigations.

**Surveillance and Utilization Review System (SURS):** The SURS unit analyzes data from fee-for-service claims and encounter data from Louisiana Medicaid MCOs to audit providers in order to safeguard against inappropriate payments for Medicaid services, and to detect fraud and abuse. The SURS unit also operates a complaint hotline, and conducts preliminary reviews of all complaints to consider opening a full investigation. The SURS unit also accepts internal and external complaints via email, fax, and mail. The Medicaid Fraud Control Unit (MFCU) at the Attorney General's office receives all suspected fraud and abuse referrals for potential criminal investigation.

**Payment Error Rate Measurement (PERM):** PERM is a Federal review of payments in Medicaid and CHIP that recurs every 3 years, to ensure compliance with State and Federal policies and regulations. CMS' review contractors conduct three types of reviews on Medicaid and CHIP payments: data processing reviews on claims and premium payments, medical record reviews on claims payments, and reviews of the State's eligibility determinations on recipients of services. Program Integrity is responsible to facilitate the PERM review and to implement a corrective action plan for all PERM findings.

**Medicaid Eligibility Quality Control (MEQC):** CMS requires States to have a MEQC program to review Medicaid and CHIP eligibility decisions, including coverage denials. Program Integrity must ensure MEQC provides a measure of the state's erroneous eligibility determinations in the two years between its PERM sample years. MEQC eligibility reviews and corrective actions serve to prevent and detect issues that could affect PERM reviews.

**Unified Program Integrity Contractor (UPIC):** UPIC vendors contracted with CMS review Medicaid provider activities, audit claims, identify overpayments, and educate providers and others on the Medicaid integrity issues. The UPIC program combines two CMS Medicaid and Medicare audit programs: Medicaid Integrity Contractors (MICs) and Medicare-Medicaid Data Match program (Medi-Medi).

**Internal SURS:** Program Integrity includes a review team that specializes in provider self-audits. In a self-audit, the team selects a sample of claims and requests the biller of services review for accuracy and report with medical records if the claim is billed correctly, or reimburse the paid amount of any claims in the sample that were billed in error.

**Provider Enrollment:** Medicaid, through its fiscal intermediary, processes provider requests for enrollment and conducts required screening and revalidation. Enrollment checks occur against appropriate lists of excluded and debarred providers during processing. Medicaid is responsible for processing provider exclusions and maintaining the LDH Adverse Actions web search database. We screen all Medicaid providers for criminal convictions, adverse license actions, and past adverse actions related to FWA or quality.

**Provider Enrollment Compliance:** Program Integrity Compliance Unit is responsible for reviewing Provider Enrollment applicants and enrolled providers with previous sanctions to determine and offer recommendations for future participation in the Medicaid Program, maintaining several databases internal and statewide, and reviewing Corrective Action Plans for the sanctioned providers. The compliance portion of the unit is responsible for administering sanctions against individuals of health care services who have convictions by the State's Attorney General's Office or excluded by the Office of Inspector General to participate in the Medicare Program and managing reinstatements of these sanctioned individuals when appropriate.

**Data Analytics:** Program Integrity's data mining team is responsible for analytics and technical functions of Program Integrity. Analytics identify aberrant care delivery and utilization patterns. Various factors such as procedure codes, diagnoses, frequency, and disciplines involved in care are used to data mine. Provider billing and practice patterns are compared to peer groups. Comparisons to validated benchmarks help with the identification of indicators of fraud, waste, and abuse.

**Accounts Receivable:** The Accounts Receivable Unit is responsible for the research and recovery of delinquent overpayment and monetary penalties from providers.

Managed Care Compliance: Program Integrity is responsible for ensuring the compliance of all Louisiana Medicaid managed care entities with State and Federal requirements on preventing, detecting, and reporting fraud, waste and abuse. Medicaid tracks contract compliance across a number of measures, including participating in quarterly Program Integrity/Medicaid Fraud Control Unit (MFCU) meetings, reporting providers terminated for cause, compliance with mandatory exclusion screenings, concurrent reporting of suspected or confirmed fraud to Medicaid and the MFCU, and contractually required MCO reporting on provider billing reviews. Medicaid ensures MCO adherence to contract requirements through issuance of notices of actions and assessment of monetary penalties for non-compliance.

**Medicaid Recipient Fraud Investigations Unit (MRFIU):** MRFIU analyzes claims data, income and financial data, and investigates complaints of suspected recipient fraud, to determine whether ineligible recipients have received Medicaid coverage. The Attorney General's Louisiana Bureau of Investigation (LBI) receives all suspected fraud and abuse referrals for criminal review. Anyone prosecuted and convicted of Medicaid fraud must repay the Medicaid program for losses and could face additional penalties such as fines or incarceration.

## **Program Budget Summary**

### **Source of Funding**

The Medical Vendor Administration Program is funded with the following:

- State General Fund(Direct)
- Interagency Transfers derived from:
  - The Department of Corrections for funding assistance to reinstate the Medicaid Disability Program;
  - The Department of Children and Family Services (DCFS) for the Coordinated System of Care (CSoC).
- Fees and Self-generated Revenues derived from :
  - Provider fees for online training of waiver services and application fees;
  - o Board of Regents for Medical/Allied Professional Education Scholarship Program;
  - Other miscellaneous sources.
- Statutory Dedications is the Medical Assistance Programs Fraud Detection Fund (R.S. 46:440.1).
- Federal Funds derived from :
  - Federal match for providing services related to the Medicaid program;
  - Funding which supports the transition of people from institutions to home and community-based services.

Per R.S. 39:36B. (8), see table below for a listing of expenditures out of each Statutory Dedication Fund.

# **Adjustments from Existing Operating Budget**

| Aujustinents      |                | Table of     |  |
|-------------------|----------------|--------------|--|
| General Fund      | Total Amount   | Organization | Description  |
| \$182,219,643     | \$765,638,760  | 996          | Existing Operating Budget as of 12/01/2023   |

## 09-306-Medical Vendor Payments

### **Agency Description**

The mission of Medical Vendor Payments (MVP) is to provide the right healthcare at the right time by reducing health disparities and improving overall health outcomes in Louisiana.

Nationally healthcare has improved care in ways that matter most to patients, families, and communities. There is increased access to affordable, comprehensive, continuous health insurance coverage with an emphasis on preventive and primary care to identify problems better. With less complex and more coordinated care, the burden of illness will likely decline and the per capita cost of care for populations to stabilize or decrease, lessening pressure on publicly funded health care budgets and providing communities with more flexibility to invest in other activities.

In keeping with the nation, Louisiana Medicaid strives to:

Maximize enrollment of eligible individuals and minimize gaps in coverage which can disrupt access to care and lead to poor health outcomes.

Promote health by balancing and integrating care using managed care delivery models.

Increase access to community-based services as an alternative to institutional care.

Move away from a fee-for-service model of payments, to health care providers tied to the volume of services that patients receive-amid growing evidence of inefficiencies and poor health outcomes stemming from this model-toward value-based payment models, which link providers' reimbursements to the value of the services they provide to improve clinical quality and outcomes while also containing or reducing health care costs.

The goals of Medical Vendor Payments are:

- I. Make comprehensive, coordinated care and quality health services available to all who qualify.
- II. Increase access to community-based services as an alternative to institutional care.
- III. Reduce the per capita cost of care by balancing health care and prevention spending.

Agencies 09-306 (Medical Vendor Payments) and 09-305 (Medical Vendor Administration) constitute the Bureau of Health Services Financing (BHSF). BHSF falls within the Louisiana Department of Health (LDH), which is the single Medicaid agency for the state of Louisiana. BHSF exists to provide innovative, cost effective and quality health care to Medicaid recipients and Louisiana citizens. It provides medically necessary services in the most appropriate setting and at the most appropriate level of care, while honoring freedom of choice.

The Medical Vendor Payments Program uses Tobacco Settlement Funds as a means of financing. LDH uses these funds to supplement the cost of providing medically necessary services to Medicaid eligible recipients. Major activities include inpatient and outpatient hospital services, intermediate care facilities for individuals with intellectual disabilities, and nursing facilities

The services provided by Medical Vendor Payments in support of Act 1078 of 2003 that are beneficial to women and families include:

- Low Income Families with Children Program (LIFC)
- Healthy Louisiana Program Child Health and Maternity Program (CHAMP)

- Louisiana Children's Health Insurance Program (LaCHIP)
- Early and Periodic Screening, Diagnosis and Treatment Program (EPSDT)

Medical Vendor Payments includes the following four programs: Payments to Private Providers, Payments to Public Providers, Medicare Buy-Ins and Supplements, and Uncompensated Care Costs (UCC) Payments.

For additional information, see:

**Medical Vendor Payments**

## **3061-Payments to Private Providers**

### **Program Authorization**

*This program is authorized by the following legislation:* 

• The Constitution of Louisiana (1974) Article 12, Section 8, declares that the Legislature may establish a system of economic and social welfare, unemployment compensation, and public health. Louisiana Revised Statutes 36:251 et seq., give the Louisiana Department of Health (LDH) Secretary authority to direct and be responsible for the Medical Assistance Program, Title XIX of the Social Security Act, and the authority to act as the sole agent of the state or, in necessary cases, designate one of the offices within the department or its assistant secretary to cooperate with the federal government and with other state and local agencies in the administration of federal funds granted to the state or directly to the department or an office thereof to aid in the furtherance of any function of the department or its offices, including funding for the Medical Assistance Program, Title XIX of the Social Security Act. Authority is also given by the Balanced Budget Act of 1997 (BBA) (Public Law 105-33), as amended by recent technical amendments (Public Law 105-100, signed into law on November 19, 1997).

### **Program Description**

The mission of Payments to Private Providers is to administer a high-performing Medicaid program that maximizes high-value care and minimizes waste, paying for value over volume of services, and ensuring compliance with federal and state requirements regarding medically necessary services for eligible individuals.

The goals of the Payments to Private Providers Program are to:

- I. Reduce health care costs by providing comprehensive coordinated care that balances health care and prevention spending.
- II. Increase access to community-based services as an alternative to institutional care.

The Payments to Private Providers Program has the following activities:

**Program Activity 1: Medicaid Managed Care** In February 2012, Louisiana Medicaid began the transition from its legacy fee-for-service (FFS) program to a managed health care delivery system that offers medical services to many Louisiana Medicaid enrollees, nearly 90% of all Medicaid recipients. Managed care in Louisiana was implemented in an effort to improve health outcomes for Louisiana's Medicaid population while improving budget predictability. While there are still some FFS programs and enrollees, most notably long term supports and services and the populations who rely on them, managed care is the predominant delivery system.

The managed care programs use a Per-Member-Per-Month (PMPM) payment model, in which Louisiana Medicaid pays managed care entities (MCEs) a monthly capitation rate to manage the health needs of the Medicaid population. The MCEs are at risk for any costs in excess of the PMPM payments, providing a financial incentive for effective care coordination and utilization management and protecting LDH from financial risk. Managed care providers are paid by the MCEs rather than being paid directly by Louisiana Medicaid.

Louisiana Medicaid includes three managed care programs: Healthy Louisiana, the Louisiana Behavioral Health Partnership, and the Dental Benefit Program (DBP).

Healthy Louisiana is the way most of Louisiana's Medicaid recipients receive health care services. In Healthy Louisiana, Medicaid recipients enroll in a health plan operated by a Managed Care Organization (MCO). Medicaid contracts with multiple MCOs. While all MCOs provide core benefits and services, each MCOs is unique in the provider network and value added services offered. Since 2015, MCOs have provided coverage for both acute physical care and specialized behavioral health services.

The Behavioral Health Partnership covers the Coordinated System of Care (CSOC), a specialized program for children and youth with complex behavioral health needs who are in or at risk of out-of-home placement. CSOC offers a comprehensive array of intensive services with the goal of enabling these children to remain in or return to their homes and communities rather than institutional settings.

The Dental Benefit Program coordinates dental care for Medicaid recipients. The DBP provides children with preventive and diagnostic services, such as regular exams and sealants, as well as therapeutic services to treat dental medical problems. Adults receive denture services and comprehensive oral exams.

Goals for better health addressed by Louisiana Medicaid include:

- Advancing evidence-based practices, high-value care and service excellence;
- Supporting innovation and a culture of continuous quality improvement;
- Ensuring enrollees ready access to care, including through non-traditional means of health care such as medical homes and telehealth;
- Decreasing fragmentation and increasing integration and care coordination across providers and care settings, particularly for enrollees with behavioral health needs;
- Using a population health approach to maximize enrollee health;
- Reducing complexity and administrative burden for providers and enrollees;
- Aligning financial incentives for plans and providers and building shared capacity to improve health care quality through data and collaboration; and
- Minimizing wasteful spending, abuse, and fraud.

Program Activity 2: Long-Term Services and Supports In 1981, the Federal Government created Title XIX, Home and Community-Based Services (HCBS), in order to provide home and community-based services to the elderly and persons with physical disabilities, developmental disabilities, and/or mental illnesses. Since this act made an exception to the traditional Medicaid requirements, it requires states to seek waivers to offer these services. Waivers allow states to provide specific HCBS to target populations with the intent of preventing unnecessary institutionalization. Each HCBS waiver must be cost-neutral, or the costs to provide these services must be less than the average per capita cost of institutional care. These waiver programs allow Louisiana residents to receive Medicaid State Plan benefits while having greater flexibility to choose the services and supports that best suit their needs. They also allow individuals to preserve their independence by staying out of institutional settings and maintaining ties to families and friends.

### **Source of Funding**

The Payments to Private Providers program is funded with the following:

- State General Fund (Direct)
- Interagency Transfers derived from:
  - o The Department of Children and Family Services for the Behavioral Health Partnership
  - Agencies within the Louisiana Department of Health, used as state match for the Low Income & Needy Care Collaboration;
  - Office of Group Benefits from premium payments collected from individuals participating in LaCHIP Phase V;
  - Transfers from LSU that will be used as match to support the new LSU Physicians Upper Payment Limit program.
- Fees and Self-generated Revenues derived from:
  - Medical Match which are funds recovered from third-party payees which are legally responsible for paying medical claims of Medicaid recipients;
  - Intergovernmental Transfers from public entities are to be used as a state match to fund general Medicaid activities as well as Upper Payment Limit (UPL) payments through Full Medicaid Pricing and Supplemental UPL payments.
- Statutory Dedications from the following funds:
  - o The Louisiana Medical Assistance Trust Fund (R.S. 46:2623), which derives its funding from revenue collected from fees imposed on certain healthcare providers (Nursing Homes, Intermediate Care Facilities for Individuals with Developmental Disabilities, and Pharmacies) and premium tax revenues;
  - The Louisiana Fund (R.S. 39:98.4; ART. VII, SECT. 10.8, 10.9, 10.10; R.S. 39:99.1; R.S. 39:99.12; R.S. 40:1105.13(F));
  - The Health Excellence Fund (R.S. 39:98.1; ART. VII, SECT. 10.8; R.S. 39:98.3; R.S. 40:1105.13(F)), payable out of funding received pursuant to the Master Settlement Agreement reached between certain states and participating tobacco manufacturers;
  - Medicaid Trust Fund for the Elderly (R.S. 46:2691; ART. VII, SECT. 14(B));

- The New Opportunities Waiver Fund (R.S. 39:100.61);
- The Community Options Waiver Fund (R.S. 39:100.62);
- The Hospital Stabilization Fund (ACT No. 438 of 2013 RLS). (Per R.S. 39:36B (8)).
- Federal Funds represent federal financial participation in the Medicaid program, generally matched at a blended rate of 68.57% for state Fiscal Year 2023-2024.

Per R.S. 39:36B. (8), see the table below for a listing of expenditures out of each Statutory Dedication Fund.

**Adjustments from Existing Operating Budget**

| General Fund    | Total Amount      | Organization | Description  |
| \$1,718,803,500 | \$17,266,089,467  | 0            | Existing Operating Budget as of 12/01/2023   |
| Statewide Adjus | tments            |              |  |
| \$0             | (\$212,025,948)   | 0            | Non-recurring Carryforwards  |
| \$0             | (\$212,025,948)   | 0            | Total Statewide  |
|                 |                   | -            |  |
| Non-Statewide A | •                 |              |  |
| \$2,085,805     | \$6,510,005       | 0            | Adjustment for Intermediate Care Facilities for the Developmentally Disabled (ICF/DDs) as required by the State Plan in non-rebase years   |
| \$236,211       | (\$6,846,237)     | 0            | Adjustment for the managed care Dental Benefit Program (PAHP) for dental services. It reflects 12 months of capitated PMPM payments and includes the following: 1) utilization/trend adjustment; 2) enrollment changes; and 3) premium tax changes.  |
| \$0             | (\$46,920,950)    | 0            | Adjustment in the Managed Care Incentive   |
|                 |                   |              | Payment (MCIP) program due to adjustment in capitation payment projections for FY 2024-2025.   |
| (\$116,295,735) | (\$1,350,341,323) | 0            | Adjusts funding for the Managed Care Organization (MCO) Program for physical, specialized behavioral health, and non-emergency medical transportation services. It reflects 12 months of capitated PMPM payments and includes the following: 1) utilization/trend adjustment; 2) enrollment/kick changes; 3) Pharmacy Rebates, and 4) premium tax changes. MCIP is excluded from this request.                             |
| \$21,709,219    | \$67,756,613      | 0            | Annualization of the FY 2023-2024 nursing home rebase and inflationary adjustments. Administrative rules and the Medicaid State Plan allow for a rebase every other year and inflationary adjustments in non-rebase years. The transition in nursing home reimbursement methodology (the case mix index) is also factored into this adjustment.  |
| \$96,651        | \$301,658         | 0            | Annualization of the twelve Rural Health Clinics added in FY24, the addition of ten new Rural Health Clinics in FY25, and the federally mandated annual Medical Economic Index (MEI) adjustment to the Rural Health Clinics Rates. This ensures that the LDH meets the guidelines in accordance with Section 1902(aa) provisions of the Benefits Improvement Act (BIPA), effective January 1, 2001.                        |
| \$224,306       | \$700,081         | 0            | Annualization of twenty-two Federally Qualified Health Clinics (FQHC) added in FY 2023-2024, the addition of twenty-four FQHC in FY 2024-2025, and the federally mandated annual Medical Economic Index (MEI) adjustment to the rural health clinic rates This ensures that the LDH meets the guidelines in accordance with Section 1902(aa) provisions of the Benefits Improvement Act (BIPA), effective January 1, 2001. |
| \$0             | \$8,319,700       | 0            | Funding to phase in an additional 750 Community Choices waiver slots utilizing the Statutory Dedications out of the Community Options Waiver Fund.   |
| \$248,711       | \$776,252         | 0            | Increases for mandated inflationary increases to rural hospital inpatient rates. Act 327 of the 2007 Legislative Session mandates that rural hospital inpatient rates are to be given an inflationary adjustment in non-rebase years. FY 2024-2025 is not a rebase year. The new rate year will begin effective July 1, 2024.  |
| \$0             | \$43,586,970      | 0            | Increases funding authority for the Hospital Legacy Upper Payment Limit (UPL) to the current cap of \$52,093,589. The current funding level is \$8,506,619. The requested \$43,586,970 is the additional authority needed to bring Hospital UPL to the current cap.  |

# 3062-Payments to Public Providers

### **Program Authorization**

*This program is authorized by the following legislation:* 

• The Constitution of Louisiana (1974) Article 12, Section 8, declares that the Legislature may establish a system of economic and social welfare, unemployment compensation, and public health. Louisiana Revised Statutes 36:251 et seq., give the Louisiana Department of Health and Hospitals (DHH) Secretary authority to direct and be responsible for the Medical Assistance Program, Title XIX of the Social Security Act, and the authority to act as the sole agent of the state or, in necessary cases, designate one of the offices within the department or its assistant secretary to cooperate with the federal government and with other state and local agencies in the administration of federal funds granted to the state or directly to the department or an office thereof to aid in the furtherance of any function of the department or its offices, including funding for the Medical Assistance Program, Title XIX of the Social Security Act. Authority is also given by the Balanced Budget Act of 1997 (BBA) (Public Law 105-33), as amended by recent technical amendments (Public Law 105-100, signed into law on November 19, 1997).

## **Program Description**

The mission of Payments to Public Providers is to administer the Medicaid Program to ensure operations are in accordance with federal and state statutes regarding medically necessary services to eligible recipients.

The goals of the Payments to Public Providers Program are to:

- I. To facilitate contractual arrangements between safety net public providers and Medicaid managed care entities
- II. To provide cost effective and medically appropriate Medicaid covered services through public providers

The Payments to Public Providers Program has the following activities:

**Program Activity 1: Payments to Public Providers** - This activity provides access to care through state and local governmental providers of healthcare services, including some services not readily available in the private sector, such as services provided to individuals with severe mental illness (Eastern Louisiana Mental Health System, Central Louisiana State Hospital) and developmental disabilities (Pinecrest Services and Supports Center). With the privatization of the Louisiana State University hospitals and clinics through Public-Private Partnerships, payments to public providers previously made to those entities shifted to the Payments to Private Providers' activity. Remaining public providers include the LDH Office of Public Health, which bills for services provided at local health units, and Local Education Authorities (LEAs) that provide health care services to children attending public schools. School-based services can improve access to care for children who may have difficulty in receiving services in a physician's office or clinic. This will result in earlier identification of certain medical conditions leading to earlier intervention. The school nurse will make necessary referrals to a physician when appropriate and assist the child's family in making that appointment. School nurses must coordinate with the student's Medicaid managed care entity to assure continuity and coordination of care.

**Program Activity 2: Family Planning Services** - Federal law requires state Medicaid programs to cover family planning services and supplies for recipients of child-bearing age and provides an enhanced federal match rate for such services (90% Federal Financial Participation). The Office of Public Health (OPH) is the state's safety net provider of family planning services for the uninsured and underinsured. OPH offers family planning services throughout the state at its Parish Health Unit locations.

OPH's Family Planning services aim to reduce female and infant mortality, morbidity, and teen pregnancy by providing disease screening, health education, counseling and contraceptive methods. While federal Title X family planning funds provide the basis for OPH's ability to provide family planning services, Medicaid coverage reimbursement allows many more patients to be seen in LDH parish health units, therefore decreasing (not eliminating) the need to spend state general funds.

In addition to providing federally mandated family planning services and supplies to manage reproductive health, space pregnancies, and avert unintended pregnancies, Louisiana Medicaid also provides coverage to eligible men and women for screening and treatment for sexually transmitted infections.

**Program Budget Summary**

### **Source of Funding**

The Payments to Public Providers program is funded with following:

- State General Fund (Direct)
- Statutory Dedications from the Louisiana Medical Assistance Trust Fund (R.S. 46:2623) which derives its funding from revenue collected from fees imposed on certain healthcare providers (Nursing Homes, Intermediate Care Facilities for Individuals with Developmental Disabilities, and Pharmacies) and premium tax revenues. (Per R.S. 39:36B (8).
- Federal Funds derived from the federal financial participation in the Medicaid program, generally matched at a blended rate of 68.57% for state Fiscal Year 2023-2024.

Per R.S. 39:36B. (8), see table below for a listing of expenditures out of each Statutory Dedication Fund.

# **Adjustments from Existing Operating Budget**

# 3063-Medicare Buy-Ins & Supplements

### **Program Authorization**

*This program is authorized by the following legislation:* 

• The Constitution of Louisiana (1974) Article 12, Section 8, and Public Law 89-97 and the Balanced Budget Act of 1997 (BBA) (Public Law 105-33), as amended by technical amendments (Public Law 105-100, signed into law on November 19, 1997).

### **Program Description**

The mission of the Buy-Ins & Supplements Program is to purchase health care services through the payment of premiums to other entities on behalf of certain Louisiana Medicaid and CHIP enrollees. This program has two major components:

- 1. Medicare Buy-Ins and Supplements is the federal program, which allows states to purchase Medicare coverage for individuals with limited income and resources by paying their monthly Medicare Part A and/or B premiums. By doing so, the state provides medical insurance protection to individuals with limited income and resources. For those individuals dually eligible for Medicaid and Medicare, it has the effect of transferring some medical costs for this population from the Title XIX Medicaid program, which is partially state financed, to the Title XVIII Medicare program, which is fully financed by the federal government. Federal matching money is available through the Medicaid program to assist states with the premium payments for Medicare buy-in enrollees.
- 2. Louisiana Health Insurance Premium Payment (LaHIPP) is a program authorized under the authority of Section 1906 of the Social Security Act that may reimburse all or a portion of an employer sponsored insurance (ESI) or individual market premium on behalf of a Medicaid recipient, if purchasing such insurance is determined to be more cost effective than having Medicaid as the primary payer of medical expenses. Medicaid may also pay the out of pocket expenses (co-pays and deductibles) for LaHIPP eligibles enrolled in ESI or individual market coverage.

The goals of the Medicare Buy-ins and Supplements Program are:

- I. Implement Medicaid cost avoidance through Buy-Ins (paying premiums) for Medicare and Medicaid dual eligibles.
- II. Reduce Medicaid expenditures for Medicaid enrollees through reimbursement of employee's share of paid premiums for employer-based or individual market health insurance when cost effective to do so.

PROGRAM ACTIVITY 1: Medicare Savings Program for Low-Income Seniors & Persons with Disabilities -The ultimate aim of the Medicare Savings Program (MSP) is to improve the health of its beneficiaries. Reducing financial barriers to healthcare can lead to better health outcomes, and expanding access to healthcare improves health status and mortality for those with the lowest incomes. The MSP has been shown to improve access to medical care services. Utilization of all medical service types is greater for MSP enrollees than for eligible non-enrollees, even when accounting for differences in health status and other characteristics. Data has shown that MSP enrollment increases access to preventative and primary care through use of outpatient hospital services and a higher frequency of office visits.

As an added benefit, people who qualify for the MSP are automatically eligible for the low-income subsidy (LIS or Extra Help), which helps pay for the premium, deductible, and some copayments of a Medicare Part D drug plan, enabling them to maintain drug coverage. The state receives regular Medicaid federal match on Qualified Medicare Beneficiaries (income below 100% Federal Poverty Level [FPL]) and Specified Low Income Beneficiaries (income between 100-120% FPL), but expenditures for Qualified Individuals (between 120-135% FPL) are 100% federally funded.

PROGRAM ACTIVITY 2: Louisiana Health Insurance Premium Payment (LaHIPP) Program -The LaHIPP Program Activity focuses on ensuring access to affordable and appropriate care to Medicaid & LaCHIP eligibles and their families who have access to Employer Sponsored Insurance (ESI) or individual market coverage. LDH reinstituted the LaHIPP program in April 2017 after it was retired in 2015. LaHIPP reimburses eligible Medicaid recipients for some costs related to ESI or individual market coverage, including premiums, copays, and deductibles when the provider bills Medicaid secondary. The program aims to reduce Medicaid costs by making it more affordable for eligible individuals to maintain private insurance coverage.

Through coordination of services with private health insurance, the state Medicaid agency can leverage other resources that would otherwise have to be assumed for this population in the Medicaid program. LaHIPP reduces the number of uninsured Louisiana residents and establishes a third party resource as the primary payer of medical expenses to reduce Medicaid costs, assuring that Medicaid pays only after the responsible third party has met its legal obligation to pay.

States experience a number of benefits from building and growing premium assistance programs like LaHIPP, according to the National Academy for State Health Policy, including:

- 1) strengthening of the private insurance market and preventing the substitution of public coverage for available private coverage;
- 2) allowing Medicaid agencies to benefit from employer contributions towards the care of Medicaid eligibles;
- 3) easing the transition from public coverage to private coverage; and
- 4) allowing children to enroll in a single health plan with their parents for greater access to services.

## **Acquisitions and Major Repairs**

**Amount** Description

#### **Acquisitions and Major Repairs:**

This program does not have funding for Acquisitions and Major Repairs.

**Objective: 3063-01** The Medicare Savings Program for Low-Income Seniors & Persons with Disabilities activity will avoid more expensive costs that would otherwise be funded by Medicaid by ensuring that eligible low-income senior citizens do not forego health coverage due to increasing Medicare premiums that make maintaining coverage increasingly difficult.

**Objective:** 3063-02 Each year, the Louisiana Health Insurance Premium Payment (LaHIPP) program will assist eligible Medicaid enrollees and their families in purchasing private health insurance through an employer or the individual market while maintaining Medicaid/LaCHIP coverage as a secondary payer of medical expenses for Medicaid enrollees, resulting in reduced cost to the state.

## **3064-Uncompensated Care Costs**

### **Program Authorization**

*This program is authorized by the following legislation:* 

• The Constitution of Louisiana (1974) Article 12, Section 8, Public Law 89-97 and the Balanced Budget Act of 1997 (BBA) (Public Law 105-33), as amended by technical amendments (Public Law 105-100, signed into law on November 19, 1997).

### **Program Description**

The mission of the Uncompensated Care Costs (UCC) Program is to encourage hospitals and providers to serve uninsured and indigent clients. Because of UCC, the client's quality and access to medical care is improved. Louisiana's disproportionate share hospital (DSH) cap allotment provides federal funding to cover a portion of qualifying hospitals' costs of treating uninsured and Medicaid patients.

The goal of the Uncompensated Care Costs Program is to:

Encourage qualifying providers (LSU facilities/public providers, LDH Office of Behavioral Health, and qualifying private hospitals) to provide access to medical care for the uninsured and those eligible for Medicaid with Medicaid reimbursement lower than the cost of service.

PROGRAM ACTIVITY 1: Uncompensated Care Costs (UCC) Program Without access to care, the uninsured population is likely to experience poorer health outcomes because they may not receive recommended screenings and follow-up care for urgent medical conditions. Delaying or forgoing needed medical care increases overall health care costs either incurred because uninsured patients are more likely to be in an emergency room or hospitalized for avoidable medical conditions. High bills that uninsured patients incur can permanently jeopardize their family's financial security. The Uncompensated Care Costs Program also funds a significant portion of the cost of training physicians in Louisiana hospitals, which results in long-term increased access to primary, preventive and specialty care for all citizens.

## **Source of Funding**

The Uncompensated Care Cost Program is funded with the following:

- State General Fund (Direct)
- Interagency Transfers derived from state agencies and are used to match federal funds for the Low Income Needy Care Collaboration.
- Fees and Self-generated Revenues are derived from intergovernmental transfer from non-state public hospitals and are used to match federal funds for the Low Income Needy Care Collaboration.
- Federal Funds derived from the federal financial participation in the Medicaid program, generally matched at a blended rate of 68.17% for state Fiscal Year 2023-2024.

# 09-307-Office of the Secretary

## **Agency Description**

The mission of the Office of the Secretary is to provide leadership and technical support services while maximizing resources to fulfill the Department's mission.

The goal of the Office of the Secretary is to provide primary leadership and direction for the Department and to coordinate statewide programs, services, and operations.

The Louisiana Department of Health (LDH) is committed to providing health and medical services for the prevention of disease for the citizens of Louisiana, particularly those individuals who are indigent and uninsured, persons with mental illness, persons with developmental disabilities and those with addictive disorders. It is our mission to protect and promote health and to ensure access to medical, preventive, and rehabilitative services for all citizens of the State of Louisiana.

The Office of the Secretary (adherence to departmental policies) has the following policies in place that are helpful and beneficial to women and children:

## POLICY NUMBER: 26.2 SUBJECT: CRISIS LEAVE POOL

It is the policy of LDH to provide an opportunity for employees to assist fellow employees who need paid leave to cover a crisis period by implementation of a crisis leave pool in accordance with Civil Service Rule 11:34 and Act 1008 of the 1992 Legislative Session. A crisis leave pool is a means of providing paid leave to an eligible employee who has experienced a catastrophic illness or injury to himself/herself. Contributions to the crisis leave pool are strictly voluntary; no employee is coerced or pressured to donate leave. An employee may donate a minimum of four hours of annual leave and donations are limited to 240 hours of annual leave per employee per calendar year.

## POLICY NUMBER: 34.2 SUBJECT: EQUAL EMPLOYMENT OPPORTUNITY, EEO COMPLAINTS

This policy states the department's position on equal employment opportunity, affirmative action responsibilities and the responsibility of management to ensure compliance with federal, state and local governmental regulations concerning equal employment opportunity and nondiscrimination.

LDH Office of the Secretary reaffirms the policy for Equal Employment Opportunity (EEO) by hereby stating that no person shall, on the basis of race, color, religion, sex, age, national origin, disability, veteran's status or any other nonmerit factor, be discriminated against in any employment practice. LDH Office of the Secretary is committed to this policy because it is morally right, and it is legally required by Title VII of the Civil Rights Act of 1964, as amended by the Equal Employment Opportunity Act of 1972, the Rehabilitation Act of 1973, as amended, the Vietnam Era Veteran's Readjustment Assistance Act of 1974, the Civil Rights Act of 1991, and the Americans with Disabilities Act of 1990 (PL 101-336).

## POLICY NUMBER: 29.2 SUBJECT: FAMILY MEDICAL LEAVE ACT

It is the policy of the Louisiana Department of Health (LDH) to provide up to 12 workweeks of "job-protected" paid or unpaid leave during any 12-month period to eligible employees for certain specified family and medical reasons; to maintain eligible employees' group health insurance coverage during leave; and to restore eligible employees to their same or equivalent positions at the conclusion of their leave as provided by the Family and Medical Leave Act of 1993.

### POLICY NUMBER: 56.4 SUBJECT: SEXUAL HARASSMENT

LDH does not tolerate verbal or physical conduct by any employee who sexually harasses another employee or who creates a sexually intimidating, offensive or hostile work environment. Each supervisor has the responsibility to maintain a workplace free of sexual harassment and to discuss this policy with all employees under his/her supervision.

In addition to those policies listed above, the LDH agencies, including the Office of the Secretary, offers flexible time and attendance policies that permit the use of flexible time schedules for employees as approved by their supervisor or manager. Other examples of policies/strategies include the Employee Assistance Program and Funeral Leave.

The Employee Assistance Program (EAP) is designed to assist and support employees who are experiencing personal problems. These problems include alcohol abuse, drug abuse, family and marital, financial, and other problems that affect job performance, job security, or the health and well-being of the employee. The services provided by the EAP representatives are free of charge and participation in the program does not jeopardize the employee's current position or future job opportunities.

To assist employees through periods of bereavement following the death of a relative, employees with permanent or probational status may be granted up to two days of Funeral Leave to attend funeral services of immediate family members. Annual leave may be approved in accordance with normal policy to attend the services of other relatives and friends or to extend funeral leave beyond the allowed time.

For additional information, see:

Office of the Secretary

# 3071-Management and Finance

### **Program Authorization**

This program is authorized by the following legislation:

R.S. 36:251-259

### **Program Description**

The Louisiana Department of Health (LDH) is authorized under R.S. 36:251-259. It was created as one of twenty executive agencies of state government as provided in the Louisiana Constitution of 1974 (Article IV, Section I) and addresses the public health needs of the State as laid out in Article XII, Section 8 of the Constitution.

The mission of the Office of the Secretary is to provide both quality and timely leadership and support to the various offices and programs within the Louisiana Department of Health so that their functions and mandates can be carried out in an efficient and effective manner.

The goal of the Office of the Secretary is to provide overall direction and administrative support to the agencies and activities within the Department. The Office of the Secretary has main five activities: Executive Administration and Program Support, Financial Services, Legal Services, Health Standards, and Internal Audit.

Executive Administration and Program Support activities:

- Executive Management provides leadership, technical support, strategic and policy direction to various functions throughout the Department and ensures that policies and procedures put in place are relevant to the structure of agency operations and adhere to strictest government performance and accountability standards.
- The Bureau of Media and Communications is responsible for preparing and distributing information relevant to all operations of the Department. The bureau's main functions involve public information, internal communications and computer graphics. The intergovernmental relations section coordinates legislative activities and communication between legislators and members of congress; reviews/tracks legislation and maintains a continuous stream of information for the citizens of Louisiana, executive staff of the department, the Legislature, Office of the Governor, and various news media.
- Legislative and Governmental Relations (LGR) coordinates legislative activities and communication with legislators and members of congress, reviews and tracks legislation, and maintains a continuous stream of information for the citizens of Louisiana, executive staff of the department, the Legislature, Office of the Governor, and various news media. LGR serves as the Department's liaison with State Agencies, Stakeholders, Healthcare Licensing Boards, the Legislative Fiscal Office, and the Governor's Office of Health Policy.
- The Office of the Undersecretary directs and is responsible for the functions of the Office of Management and Finance within the Louisiana Department of Health and all if its offices, including but not limited to, accounting and budget control, procurement and contract management, data processing, technology, personnel management, and facility construction and consulting services. The undersecretary is subject to the overall direction and control of the secretary.
- The Emergency Preparedness and Response Division (EPR) has the responsibility of Emergency Support Function (ESF) 8 as delegated to LDH in the State of Louisiana Emergency Operations Plan. EPR is also responsible for public health and medical services during and after a disaster. In addition to the duties of ESF8, the Director of Emergency Preparedness and Response administers/manages the Federal Hospital Preparedness Program (HPP) grant to prepare Louisiana hospitals for disasters.

- The Administrative Services section is responsible for the Bienville building maintenance, telecommunications management, property control management, and risk management. This section serves as the liaison between LDH and Office of State Buildings and oversees the daily operations pertaining to the building. The Director oversees safety audits and prepares and submits quarterly Risk Exposure Reports to the Office of Management and Finance. This section also includes the mandatory operational services funded for statewide standards and departmental costs. Statewide standards are Inter-agency transferred funding for items that are provided by outside agencies.
- Human Resources, Training & Staff Development Human Resources, Training & Staff Development develops and carries out departmental Human Resource Management functions, including: Time & Attendance, Employee Relations, Labor Law Compliance, Classification, Compensation, Performance Evaluation, Drug Testing, Employee Administration, Staff Development, HR Technical Assistance, and LDH Administrative Policy Issuance.
- The Governor's Council on Physical Fitness and Sports (Governor's Games) promotes physical fitness and health through participating in competitive sports, workshops and conferences. Its main purpose is to motivate all Louisianans to become and stay physically active by promoting the benefits of physical activity through sports and fitness programs. The Governor's Games offers Olympic style sporting events across the state that provide an opportunity for competition, physical activities for all ages, skill level, and economic demographics. Some of the sporting events include: basketball, baseball, boxing, golf, karate, gymnastics, swimming, volleyball, weightlifting and track and field. The Governor's Council on Physical Fitness and Sports also hosts "Own Your Own Health," a program that allows Louisianans to track their fitness and nutrition levels online by forming teams of two or more people for adults and ten or more for youth. These programs foster and encourage ways for Louisiana residents to become physically fit by getting them involved in competitive activities that require physical fitness.
- The Fitness Council also provides training, teaching strategies, authentic assessment and best practice information to K-12 teachers in the areas of health and physical education. The primary purpose of this project called, Tour de Fitness is to in-service and equip teachers with developmentally appropriate information regarding smoking cessation, the dangers of tobacco (smokeless and smoking), techniques to make their physical education lessons more physically active, and assessment opportunities to measure physical fitness.

#### **Financial Services activities:**

- The Office of Financial Management is responsible for the accounting functions of the seven (7) agencies within LDH, including financial reporting, cash management, payment management, cost allocation and travel card administration. Additional services include LDH ISIS security administration, FEMA/ Disaster reporting management and tracking, and follow-up of sub-recipient audits. The Director's office provides management, support and direction to the sections within Fiscal Management which include Cash Management, Payment Management, Financial Reporting, Medicaid Federal Reporting and New Orleans Office for Financial Reporting. The Director's office is responsible for developing and implementing policy and procedure to ensure compliance with state and federal laws, regulations and grant requirements. In addition, the Director's office is responsible for designing and implementing internal controls and internal operating systems to ensure efficiency and effectiveness in office operations.
- Planning & Budget administers and facilitates the operation of the budget process and performance accountability activities; provides technical assistance, analyzes budget requests, determines the need for midyear budget adjustments, monitors the legislative process and analyzes fiscal notes, oversees the preparation of reports to the state budget office and legislature regarding budget matters, and conducts expenditure analyses. The division also manages and monitors the Department's performance accountability and strategic planning information by assisting agencies in integrating agency plans with budget requests, developing goals, objectives, performance measures, and reviewing quarterly performance progress reports.

### **Legal Services activities:**

- The Bureau of Legal Services provides services to the seven (7) agencies within LDH, including advice and counsel, litigation, administrative hearings, policy and contract review, recoupment, legislation, personnel and Civil Service, and special projects. Legal Services also assists the agency in statewide departmental operations by observing and participating in management discussions, day-to-day operations, conducting legal risk analysis, and providing representation to the various offices of the department.
- The Third Party Liability Section is responsible for recovery of funds wherein Medicaid should not have been
  the primary payer. Pursuant to federal law, Medicaid must be the payer of last resort and this Section is responsible for keeping LDH in compliance with that mandate. Other units include Contracts, Vital Records, Office of
  Public Health, State Health Officer, Civil Service, Regional Attorneys, Health Standards, Medicaid, and Office of
  Citizens with Developmental Disabilities.

#### **Health Standards activities:**

- The Health Standards Section (HSS) enforces state licensing standards and federal certification regulations through licensing and certification surveys of health care providers. HSS also reviews and investigates complaints regarding health care facilities and maintains registries of non-professional direct care staff found guilty of abuse, neglect and/or misappropriation regarding healthcare services rendered to a person. The provider types included are Hospitals-including Psychiatric and Critical Access, Home Health agencies-including OASIS, Hospice, Rural Health Clinics, Ambulatory Surgical Centers, End Stage Renal Disease Facilities, Community Mental Health Centers, Psychiatric Residential Treatment Facilities, Nursing Homes, Intermediate Care Facility-Developmentally Delayed, Comprehensive Outpatient Rehabilitation Facilities, Outpatient Physical Therapy-Speech Language Pathology Services, Portable X-Ray and Federally Qualified Health Centers.
- HSS also enforces licensing and certification of Home and Community Based Services (HCBS) which provide supports to the elderly, adult disabled and developmentally disabled in their own houses and allows them to avoid being institutionalized, and Case Management Services which are responsible for developing a comprehensive plan of care (CPOC) for each waiver client.
- HSS is also responsible for enforcing the certification regulations established by Clinical Laboratory Improvement Amendments (CLIA) which requires all laboratories to obtain and maintain CLIA certification.

### **Internal Audit activities:**

- Internal Audit is the management unit that independently appraises activities, examines and evaluates the adequacy and effectiveness of controls within LDH and provides management with a level of assurance regarding risks to the organization and whether or not appropriate internal controls are in place and are functioning as intended.
- Internal Audit's primary objective is to increase assurance that assets are safeguarded against loss from unauthorized use or deposition, that transactions are executed according to management's authority, that operating efficiency is promoted, and that compliance is maintained with prescribed federal and state laws and regulations and management policies. Internal Audit functions by examining and evaluating the adequacy and effectiveness of controls within LDH. In addition, the section functions as a facilitator and liaison with external audit groups at the State and Federal levels that perform audits of LDH.

## **Source of Funding**

The Management and Finance Program is funded with the following:

- State General Fund (Direct)
- Interagency Transfers derived from:
  - The Governor's Office of Homeland Security for Emergency Preparedness for hurricane and disaster preparedness;
  - Medical Vendor Administration for the Council on Physical Fitness;
  - Fiscal Systems and Health Standards.
- Fees and Self-generated Revenues are derived from licensing and miscellaneous receipts for Health Standards.
- Statutory Dedications
  - The Medical Assistance Program Fraud Detection Fund (R.S. 46:440.1);
  - The Nursing Home Residents' Trust Fund (R.S. 40:2009.11).
- The Federal Funds are derived from:
  - Funds for survey and certification activities for health care facilities participating in Title XIX;
  - The Health and Human Services Hospital Preparedness Grant;
  - o Medicare Title XVIII:

• The Technology Assistance Grant.

Per R.S. 39:36B. (8), see table below for a listing of expenditures out of each Statutory Dedication Fund.

# 09-309-South Central Louisiana Human Services Authority

## **Agency Description**

The mission of the South Central Louisiana Human Services Authority (SCLHSA) is to promote overall health within the general population by increasing public awareness and access for individuals with behavioral health and developmental disabilities to integrated primary care and community based services while promoting wellness, recovery and independence through educations and the choice of a broad range of programmatic and community resources.

The goals of the South Central Louisiana Human Services Authority are:

- I. Improve service outcomes by partnering with stakeholders to expand integrated service programs in the community.
- II. Increase staff accountability and fiscal integrity of the agency.
- III. Provide the infrastructure, information, and systems to help employees successfully complete their jobs.
- IV. Maintain accreditation from the Commission on Accreditation of Rehabilitation Facilities (CARF) by committing to quality improvement, focusing on the unique needs of each person we serve, and monitoring the results of services we provide.

For additional information, see:

South Central Louisiana Human Services Authority

## 3091-South Central Louisiana Human Services A

### **Program Authorization**

South Central Louisiana Human Services Authority is organized under the following provisions of the Louisiana Revised Statutes (LSA-RS): R.S.28:382.2 (C); R.S.39:1533 (A); R.S.28: 771 (G); R.S. 28:871 - 876, R.S.36:254(J) and 258(J); R.S. 28:911-920; Act 449 of the 2006 Regular Legislative Session; Act 73 of the 2017 Louisiana Regular Legislative Session; and related statutes.

## **Program Description**

The South Central Louisiana Human Services Authority provides the following activities:

- Through the Behavioral Health Services activity, SCLHSA provides both Screening/Assessment, plan of care and level of need determination for children, adolescent, adult and senior populations as well as Treatment Services, including individual/group sessions, family/couple sessions, psychiatric evaluations, psychological testing, medication administration, medication management, crisis stabilization, gambling counseling, breath tests, urine screens and referrals to children, adolescents, adults and senior populations. SCLHSA shall make every effort to ensure that our client care and services treat each person as an individual, that we are responsive to our client's needs and wishes and that our services are of the highest possible quality within the resources available. Our intent is to remove barriers to treatment and service coordination by collaborating with public and private services, devising creative resource allocation and advocating for the provision of efficient, effective quality care to the people we serve.
- Developmental Disabilities SCLHSA Developmental Disabilities core services consist of serving as the Single Point of Entry (SPOE) into the Developmental Disabilities (DD) Services System and providing support coordination services to individuals and their families through DD and other available community resources. SCLHSA staff members assess the needs for support and services, develop individual plans of support, make applicable referrals, and provide ongoing coordination for the client's support plans. Targeted services are centered on Home and Community Based Services Waiver programs and federal criteria which allow services to be provided in a home or community-based setting for the recipient who would otherwise require institutional care. The Family Support Program is designed to assist individuals whose needs exceed those normally used resources in the community, and other natural resources available. Individual and Family Supports include but are not limited to: respite care, personal assistance services, specialized clothing, such as adult briefs, dental and medical services not covered by other sources, equipment and supplies, communication services, crisis intervention, specialized utility costs, specialized nutrition, and family education. The Cash Subsidy Program is intended to assist families with children with severe or profound disabilities to offset the extraordinary costs of maintaining their child in their own home. The program provides a monthly stipend to families of children who have qualifying exceptionalities identified through their local educational authority.
- SCLHSA Administration provides management and oversight of agency services to include fiscal, human resources, clinical, contract monitoring, information technology, community relations, compliance/risk services, medical staff/credentialing, quality improvement and special projects for the seven Parishes of Assumption, Lafourche, St. Charles, St. James, St. John the Baptist, St. Mary and Terrebonne. SCLHSA operates five (5) Outpatient Behavioral Health settings which provide treatment and assessment services with a focus on increased access to our clients through a statewide managed care system. SCLHSA has narrowed its focus on the fiscal integrity of the agency, service provision and billing processes with the expansion of billable services for behavioral health. Developmental Disabilities oversee waiver and nonwaiver services and have increased efforts for client outreach and employment opportunities for individuals in the community. The Health Home Program offers integrated primary care and behavioral health services to active clients that have been stabilized on medication. The Health Home approach is holistic in nature coordinating all of the patient's health care needs and focusing on disease management, nutritional intervention and other medical specialty programs to

assist in the quest for optimal health and wellness. SCLHSA's Behavioral Health Centers, Developmental Disability and Health Home Services have all been accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF). SCLHSA's goal is to focus on person centered treatment that reflects the total mind and body needs by implementing a collaboration of public and private services, creative resource allocation and advocating for the provision of efficient, effective quality care to the people we serve.

• Integrated Care - The integration of Primary Care in a Behavioral Health Care setting refers to the intentional, ongoing, and committed coordination and collaboration between all providers treating the individual. Behavioral Health and Primary Care Providers recognize and appreciate the interdependence they have with each other to positively impact healthcare outcomes. The goal of this integration is to improve and promote overall health within the general population. Both physical health and behavioral health benefit from prevention efforts, screening tests, routine check-ups, and treatment. SCLHSA recognizes the need for patients to take care of both their physical and behavioral health needs in an outpatient setting and is devoted to making these services available in a "one-stop shop" process. The Health Home (Integrated Care) Program emphasis is designed to deliver healthcare that focuses on the whole person and integrates primary care, behavioral health along with comprehensive care management, care coordination, wellness promotion, comprehensive transitional care, individual and family support services, referral and linkage to community and social services. This holistic approach helps guide patients in the quest for optimal health and wellness.

# 09-310-Northeast Delta Human Services Authority

### **Agency Description**

The Northeast Delta Human Services Authority was created as a special authority which, through its board, shall direct the operation and management of community-based programs and services relative to mental health, developmental disabilities, and addictive disorders services, for the parishes of Caldwell, East Carroll, Franklin, Jackson, Lincoln, Madison, Morehouse, Ouachita, Richland, Tensas, Union, and West Carroll. The mission of the Northeast Delta Human Services Authority is to serve as a catalyst for individuals with mental health, developmental disabilities, and addictive disorders to realize their full human potential by offering quality, excellent care with greater accessibility.

The goals of the Northeast Delta Human Services Authority are:

I. Improve the outcomes of citizens by expanding access to a network of appropriate, quality prevention, integrated behavioral health and developmental disability services. Provide integrated services that promotes holistic care through best practices and strategies; ensure a person centered approach through prevention, treatment, support, education, and advocacy. Evaluate and analyze outcomes to strengthen internal operations to accommodate trending healthcare environments and payments and electronic health records systems, and produce data-driven decisions that best maximize efficiency and effectiveness. Proactively address risks that impact the behavioral health of our citizens, using collaboration and sound communication practices, both internally and with key partners and providers.

For additional information, see:

## 3101-Northeast Delta Human Services Authority

### **Program Authorization**

Northeast Delta Human Services Authority is organized under the following provisions of the Louisiana Revised Statutes (LSA-RS): R.S. 28:382.2(C); R.S. 28:771(G); R.S. 28:871; R.S. 28:911; Act 73 of the 2017 Louisiana Regular Legislative Session; Act 631 of the 2006 Regular Legislative Session; and related statutes.

### **Program Description**

The Northeast Delta Human Services Authority program includes the following activities:

- Addiction/Substance Abuse Services Alcohol and drug abuse continues to be a major health problem in the state of Louisiana as well as in the Northeast Delta Human Services Authority catchment area. The Addiction/ Substance Abuse Services program has made significant strides to prioritize services to meet these crucial needs by encouraging and supporting the awareness and understanding of alcoholism and drug addiction amongst the citizens of our state. The basic premise of addictive disorder services is to develop ideas and programs that can increase public awareness, treat adults and youth who need addictive disorder (AD) services and prevent the abuse of alcohol and drug addiction as well as compulsive gambling. Services include but are not limited to, comprehensive evaluation, outpatient substance abuse treatment and intensive outpatient substance abuse treatment through individual and group counseling. Contracted services provide inpatient and residential addiction treatment services along with outpatient gambling addiction treatment services. AD and prevention service providers focus their attention on providing comprehensive, integrated prevention and treatment services. Northeast Delta Human Services Authority actively seeks the assistance of partnerships and collaborations to fully meet the needs of individuals, families, and communities. Needs of the individuals, families, and communities requiring addictive disorder services and the consequences they suffer are the impetus to incorporate addictive disorders practices in the health care debate.
- Intellectual and Development Disability Support Services Developmental Disabilities core services consist of serving as the Single Point of Entry (SPOE) into the Developmental Disabilities (DD) Services system and providing support coordination services to individuals and their families through DD and other available community resources. Staff members assess the needs for support and services, develop individual plans of support, make applicable referrals, and provide ongoing coordination for the client's support plans. Targeted services are centered on Home and Community-Based Services Waiver programs and Federal criteria which allow services to be provided in a home or community-based setting for recipients who would otherwise require institutional care. The Family Support Program is designed to assist individuals whose needs exceed existing resources in the community and other natural resources available. Individual and Family supports include, but are not limited to, respite care, personal assistance services, specialized clothing, such as adult briefs, dental and medical services not covered by other sources, equipment and supplies, communication services, crisis intervention, specialized utility costs, specialized nutrition, and family education. The Flexible Family Fund Program is intended to assist families with children with severe or profound disabilities to offset the extraordinary costs of maintaining their child in their own home. The program provides a monthly stipend to families of children who have qualifying exceptionalities identified through their local education authority.
- Mental Health Services This program provides outpatient mental health services for children over the age of six, adolescents, and adults. Core services include screening, assessment, crisis evaluation, individual, group and family counseling, and medication management which include administration, education, and screening for people with co-occurring disorders. Contracted services include, but are not limited to, housing and employment assistance and peer support services that are crucial to preventions of psychiatric hospitalization and promote independence and recovery. Service delivery includes full participation in the Managed Care Organization, health plans. All Behavioral Health clinics in the Northeast Delta Human Services Authority will participate as Medicaid Application Centers for persons requesting services.

- Alcohol, Tobacco and Other Drugs Prevention Prevention aims to reduce risk and raise protective factors through a variety of accepted practices from school-based curriculums, to targeted environmental strategies. Saving money, families, lives, and other resources are at the heart of our targeted goals in the 12 parish area of the Northeast Delta Humans Services Authority service area. As prevention has become a sophisticated science we have prioritized services to not only prevent alcohol and other drug problems but have expanded to include mental health issues through bullying prevention, suicide intervention, and reducing other negative behaviors not affecting the quality of life. Actively working to collaborate through coalitions, and other community-driven partnerships, Northeast Delta Human Services Authority strives to create a web of interwoven services through contractors, school systems, policy makers, educators, and law enforcement to not only reduce the use of Alcohol, Tobacco, and other drugs and continually provide guidance throughout the life cycle to maintain overall wellness.
- Administrative Functions The Northeast Delta Human Services Authority was created by Act 631 of the 2006 Legislative Session for the parishes of Jackson, Lincoln, Union, Morehouse, West Carroll, East Carroll, Ouachita, Richland, Madison, Caldwell, Franklin, and Tensas. Northeast Delta Human Service Authority administrative functions support the management and operations related to mental health, addiction, prevention and treatment, and intellectual/developmental disabilities. To assist with administrative functions, Northeast Delta Human Services Authority implemented an electronic health record to assist with continuous documentation efforts, scheduling of clients to maximize provider time, development and implementation of invoicing and billing procedures to improve collection efforts, standardization of forms, and development of policies and procedures based on best practices, accreditation standards, and state and federal requirements.

## **Acquisitions and Major Repairs**

Amount Description

This agency does not have funding for Major Repairs or Acquisitions

**Objective: 3101-01** Northeast Delta Human Services Authority will provide and offer an integrated, comprehensive care of services for adults and adolescents with Behavioral Health diagnosis.

**Children's Budget Link** Northeast Delta Human Services Authority services for children are related to the healthy policy outlined in the Children's Budget Link which mandates that all Louisiana children will have access to comprehensive healthcare services, and are linked via the Northeast Delta Human Services Authority agency's budget.

**HR Policies Beneficial to Women and Families Link** The Northeast Delta Human Services Authority abides by all state Civil Service and federal guidelines and procedures regarding equal opportunity for all staff and in particular women and their families. The Northeast Delta Human Services Authority also addresses specific issues in respect to female employees and their families in the Human Resource policies for the agency and the Northeast Delta Human Services Authority Handbook. All policies are reviewed annually and changes/additions are made according to new mandates or as issues arise.

**Objective: 3101-04** Provide administrative support to programmatic services to ensure efficient, effective, and quality services.

**Children's Budget Link** Northeast Delta Human Services Authority services for children are related to the healthy policy outlined in the Children's Budget Link which mandates that all Louisiana children will have access to comprehensive healthcare services, and are linked via the Northeast Delta Human Services Authority agency's budget.

**HR Policies Beneficial to Women and Families Link** The Northeast Delta Human Services Authority abides by all state Civil Service and federal guidelines and procedures regarding equal opportunity for all staff and in particular women and their families. The Northeast Delta Human Services Authority also addresses specific issues in respect to female employees and their families in the Human Resource policies for the agency and the Northeast Delta Human Services Authority Handbook. All policies are reviewed annually and changes/additions are made according to new mandates or as issues arise.

## 09-320-Office of Aging and Adult Services

### **Agency Description**

To provide access to quality long-time services and supports for the elderly and people with adult-onset disabilities in a manner that supports choice, informal caregiving, and effective use of public resources.

The goals of the Office of Aging and Adult Services are:

- I. To promote and develop health and Long Term Supports and Services (LTSS) delivery systems that improve care and outcomes for the high risk, high cost population served by OAAS and achieve LTSS rebalancing consistent with the Americans with Disabilities (ADA) and the U.S. Supreme Court's decision in Olmstead v. L.C.
- II. To timely complete investigations of abuse, neglect, exploitation, and extortion of vulnerable adults.
- III. To administer and manage resident care programs at Villa Feliciana Medical Complex in a manner that ensures compliance with applicable standards of care; and to promote policies and practices that improve the quality and cost-effectiveness of privately-owned nursing facilities.
- IV. To administer and operate OAAS programs in a cost effective manner while achieving high quality outcomes.

The Office of Aging and Adult Services includes the following human resources policies that are helpful and beneficial to women and families: The majority of older adults and adults with disabilities who receive long term supports and services through OAAS programs are women, and women are the primary providers of elder care. Provision of Home and Community-based waiver services are of benefit in allowing family caregivers, the majority of whom are female, to support and maintain elderly family members, who are also majority female, in their own homes and in the community.

Twelve hour/varied shifts at agency facilities provide flexible hours that are helpful and beneficial to women and families.

Agency supports Act 1078 to include EEO, FMLA, and awareness of domestic violence and sexual harassment.

The Office of Aging and Adult Services has three programs: Administration Protection and Support, Villa Feliciana Medical Complex and Auxiliary.

## 3201-Administration Protection and Support

#### **Program Authorization**

This program is authorized by the following legislation:

• Senate Bill No. 562/House Bill No. 638 of the 2006 Regular Session amended and reenacted Section 2, R.S. 36:251 (c)(1) and 258 (F) of the Constitution of Louisiana (1974) to establish the Office of Aging and Adult Services (OAAS) within the Louisiana Department of Health and Hospitals (LDH). OAAS shall be responsible for the programs and functions of the state related to the protection and long-term care of the elderly and persons with adult onset disabilities. It shall administer, the residential state-operated nursing home, Villa Feliciana Medical Complex, the protective services program, the long-term supports and services programs, as well as other related programs of the State.

### **Program Description**

The Administration, Protection and Support program mission is to provide access to quality long-term services and supports in a manner that supports choice, informal caregiving and effective use of public resources.

The goals of the Administration, Protection and Support are:

- I. Achieve and maintain a legally compliant and appropriately balanced Long Term Supports and Services (LTSS) system which assures choice within a sustainable, cost-effective continuum of community-based services.
- II. Improve access, quality and outcomes for populations receiving and at risk of needing long term supports and services.
- III. Ensure vulnerable adults are protected from abuse and neglect while living in community settings.
- IV. Provide specialized facility-based care to persons whose needs are difficult to meet in private facilities.
- V. Administer and operate OAAS programs in a cost-effective manner while achieving high quality outcomes.

The Administration, Protection, and Support Program includes five activities: Executive Administration, Elderly and Adults with Disabilities Long-Term Care, Permanent Supportive Housing (PSH), Traumatic Head and Spinal Cord Injury (THSCI) Trust Fund, and Protective Services.

#### • Executive Administration activity:

Provides executive management, support, and direction to the Office of Aging and Adult Services (OAAS). OAAS operates LDH programs for the elderly and persons with adult onset disabilities. These programs include a 24-hour facility (Villa Feliciana Medical Complex), Protective Services, Traumatic Head and Spinal Cord Injury Trust Fund, and operation of several community-based long term care programs which expend over \$300 million in Medicaid funds (SFY 20). OAAS also performs medical certification for nursing home care totaling over \$1 billion in Medicaid funds (SFY 20). The Executive Administration activity is also responsible for providing programmatic expertise on aging and disability issues to LDH Executive Management, carrying out legislative directives, and directing implementation of long term supports and services (LTSS) reforms and program improvements.

#### • Elderly and Adults with Disabilities Long-Term Care activity:

Manages and operates community-based long term care programs for people with adult-onset disabilities, including Medicaid Home and Community Based Services (HCBS) waivers, Medicaid Long Term Personal Care Services (LTPCS), the Program of All-inclusive Care for the Elderly (PACE), the LDH Permanent Supportive Housing Program, the Nursing Home Resident Trust Fund, the Compliance and Audit Team and the Money Follows the Person Demonstration Grant. The activity also operates nursing home admissions, i.e., certification of individual applicants for nursing home care. This activity provides state and regional office operations necessary to provides state and regional office operations necessary to provide program planning, access, monitoring, quality assurance/improvement, and accountability for these programs as required under state and federal rules, statutes, and program requirements.

• Elderly and Adults with Disabilities Long-Term Care activity, optimizes the use of community-based care while decreasing reliance on more expensive nursing home care. It does so by operating a variety of home and community-based long term care programs that serve Medicaid participants at a lower average cost per person than Medicaid nursing home care. A challenge addressed by this activity is that demand for community-based LTSS will continue to grow as the population ages; therefore, expenditures on programs operated through this activity are subject to increase. For this reason, the goal in delivering LTSS services to this population is to slow the rate of increase rather than seeking net decreases in spending, and to serve as many people as possible within available resources. Maximization of federal funding is also an important strategy for addressing increased demand for the services provided through this Activity. This activity is also responsible for researching, developing, and implementing more integrated approaches to care delivery for the high risk populations of individuals dually eligible for Medicare and Medicaid and persons with adult-onset disabilities.

### • Permanent Supportive Housing (PSH):

This activity provides supportive services to help people with disabilities - particularly those who are or who are at risk for institutionalization or homelessness -- have successful tenancies in mainstream affordable housing. OAAS operates the PSH program under a Cooperative Endeavour Agreement with the Louisiana Office of Community Development (OCD) Louisiana Housing Corporation. Louisiana's PSH program is a cross-disability program that facilitates access to stable housing and preventive services for a population that otherwise makes disproportionate use of high cost emergency and nursing homes services. Louisiana's PSH program is considered a model for cross-disability implementation at the state level and has been evaluated by the Robert Wood Johnson Foundation and others for purposes of replication in other states and communities.

#### • Traumatic Head and Spinal Cord Injury (THSCI) Trust Fund Activity:

The THSCI Trust Fund allows survivors of traumatic head and spinal cord injury to avoid unnecessary and costly institutionalization by providing resources or services that they are not otherwise eligible for through any other funding source. The Trust Fund promotes the health of eligible Louisiana citizens by providing services, such as specially designed medical beds, maintenance therapies, and remote in-home client monitoring systems that prevent or delay the onset or progression of diseases and excess disability associated with such injuries. The THSCI Trust Fund was established in the 1993 Regular Session of the Louisiana Legislature as a special fund in the state treasury consisting of monies collected from an additional fee imposed on three specific motor vehicle violations (DWI, reckless operations and speeding).

#### • Adult Protective Services Activity:

Adult Protective Services is committed to preserving and protecting the rights of vulnerable adults with disabilities in need of assistance due to abuse, neglect, self-neglect and/or exploitation in accordance with the provisions of LA R.S. 14:403.2 and LA R.S. 15:1501-1511. This activity assists and enables vulnerable adults ages 18 to 59, and emancipated minors, to live free form harm due to abuse, neglect, exploitation, or extortion. Adult Protective services include but are not limited to:

- Receiving and screening information on allegations of abuse, neglect, exploitation and/or extortion;
- Conducting investigations and assessments of those allegations to determine if the situation and condition of the alleged victim warrants corrective or other action;
- Stabilizing the situation;
- Developing and implementing plans for preventive or corrective actions;
- Referring for necessary on-going services and/or to case management
- Ensuing services obtained;
- Initiating and/or referring necessary civil legal remedies; and

• Referring cases as needed or required to law enforcement and/or the district attorney and cooperating in court proceedings.

#### **Source of Funding**

The Administration Protection and Support program is funded with the following:

- State General Fund(Direct)
- Interagency Transfers derived from:
  - o Office of Community Development for the Permanent Supportive Housing;
  - o Disaster Case Management Programs;
  - o Medicaid Vendor Administration for the Money Follows the Person Grant;
  - Other Medicaid functions and programs.
- Statutory Dedications from the following funds:
  - Traumatic Head and Spinal Cord Injury Trust Fund (R.S. 46:2633--2635);
  - o Nursing Home Residents' Trust Fund (R.S. 40:2009.11) (Per R.S. 39:36B).

Per R.S. 39:36B. (8), see table below for a listing of expenditures out of each Statutory Dedication Fund.

## 3203-Villa Feliciana Medical Complex

#### **Program Authorization**

*This program is authorized by the following legislation:* 

28:22.7. 40:2002.4. R.S. 40:2142 x000D Senate Bill No. 562/House Bill No. 638 of the Regular Session, 2006, amended and reenacted Section 2, R.S. 36:251(C)(1) and 258(F) of The Constitution of Louisiana (1974) to establish the Office of Aging and Adult Services within the Louisiana Department of Health (LDH). The Office of Aging and Adult Services shall be responsible for the programs and functions of the State related to the protection and long-term care of the elderly and persons with adult onset disabilities. It shall administer the residential state-operated nursing home, Villa Feliciana Medical Complex, the protective services program, the long-term supports and services programs, as well as other related programs of the State. R.S. 28:22.7(B) was amended and reenacted to transfer the Villa Feliciana Medical Complex to the **Office** of Aging and Adult. Services. x000D

#### **Program Description**

The Villa Feliciana Medical Complex Program is a state owned and operated Medicare and Medicaid certified long-term care facility with a mission of providing specialized care and rehabilitative services to medically complex residents.

The goals of the Villa Feliciana Medical Complex Program are:

- I. Provide management leadership and administrative support necessary for the delivery of resident care services.
- II. Administer and manage resident care in a manner that ensures compliance with applicable standards of care.
- III. Provide quality health care services to residents through the identification of need as well as efficient and effective delivery of services.

Villa is a 24-hour long-term care facility that provides quality, comprehensive in-house health care services. Villa works to prevent the progression of diseases through medical care, proper nutrition, exercise, therapy, regular check-ups and routine screenings.

Villa contributes to the state goals by decreasing the percentage of avoidable expenditures for the care of citizens who have acute and chronic medical conditions through the provision of comprehensive facility-based services. Villa reduces fragmentation of care, duplication of efforts and unnecessary medical treatments, emergency room visits, and hospitalizations. Villa serves as a training site for students from several Louisiana Technical Colleges, thereby helping to address healthcare labor shortages.

Villa serves as a safety net facility. Many residents have no other placement options due to their acuity level and their need for effective disease management not generally offered by private long term care facilities. Villa also provides care to Eastern Louisiana Mental Health System (ELMHS) including forensics patients who require more medical care than ELMHS can provide. Villa is also frequently named in court-ordered placements for individuals on parole or on medical leave from the Department of Corrections.

Villa provides on-site medical services specifically structured to meet special health care needs. For example:

- Villa provides care to residents under judicial commitment who require long-term care in a secure environment.
- Villa is the only facility in Louisiana that provides in-patient care for clients with tuberculosis (TB). Most of Villa's TB residents have been court-ordered to Villa due to their non-compliance with their treatment regimen in their local community. They remain at Villa until their treatment is complete and they are no longer a public health threat.

#### **Source of Funding**

The Villa Feliciana Medical Complex program is funded with the following:

- Interagency Transfers derived from:
  - Title XIX reimbursement for services provided to Medicaid eligible patients received through the Louisiana Department of Health (LDH) Medical Vendor Payments;
  - Payment for patient services provided to Eastern Louisiana Mental Health System Forensic Division and the Louisiana War Veterans Home.
- Fees and Self-generated Revenues derived from:
  - Payment from patients for their cost of services provides;
  - Rent from the John J. Hainkel, Jr. Home & Rehabilitation Center;
  - Miscellaneous income, such as funds received from individuals for copies of patient medical records.
- Title XVIII Federal Funds (Medicare) are from Title XVIII Medicare for services provided to Medicare eligible patients.

## 320V-Auxiliary Account

#### **Program Description**

The mission of the Auxiliary Account is to provide specialized rehabilitative services to medically complex residents.

The goal of the Auxiliary Account is to provide quality therapeutic services to the residents we serve.

The Auxiliary Account includes the following activities:

• Auxiliary Services - Provides residents with opportunities to participate in therapeutic activities as approved by their treatment teams including parties, games, recreational outings, etc. that simulate a homelike atmosphere.

## 09-324-Louisiana Emergency Response Network

Right Place. Right Time. Right Care.

#### **Agency Description**

The mission of the Louisiana Emergency Response Network (LERN) is to safeguard the public health, safety, and welfare of the people of the State of Louisiana against unnecessary trauma and time-sensitive related deaths and incidents of morbidity.

The goals of the Louisiana Emergency Response Network are to:

- I. Decrease risk adjusted time sensitive illness (stroke/STEMI) and trauma related deaths and incidents of morbidity and mortality due to trauma and time-sensitive illness in Louisiana.
- II. Maximize the return on investment (ROI) of state dollars and supplement general fund dollars with alternative funding sources.
- III. Ensure that all citizens gain access to the statewide trauma network for both trauma and time sensitive related illnesses.
- IV. Establish and codify protocols that specify the role of LERN in Emergency Support Function 8 (ESF-8) activities.
- V. Louisiana Emergency Response Network Board includes LERN Central Office, nine (9) regional commissions and Call Center Operations.
- VI. The Louisiana Emergency Response Network has one program: Louisiana Emergency Response Network Board.

#### LERN Program Activities consist of:

• LERN remains dedicated to providing access services - connecting patients in need of time-sensitive trauma, burn, stroke and STEMI services with the appropriate medical resource destination. LERN tracks these resources via the LERN Resource Management screen in the ESF-8 Portal. The LERN Communications Center (LCC), located in Baton Rouge, continues to offer state of the art communications that direct the transport of traumatically injured patients to definitive care facilities within the "golden hour". In 2014, LERN expanded the scope of the LCC to include directing transport of stroke and STEMI patients as needed across the state. In 2018, we began the development of the burn system for Louisiana. In April 2019, the LCC expanded our services to include routing burn patients to definitive care. These services are provided 24/7/365 across the entire state of Louisiana. The LCC routed 19,282 patients in CY 2023 - a 10.5% increase in volume from 2022. The LCC also serves an important role within ESF-8 (emergency preparedness and response) by implementing the EMSTAT/ Resource Management tool and LERN's mass casualty notification and response protocols.

- LERN is the lead agency for trauma in Louisiana, responsible for developing and maintaining a statewide system of care coordination for injured patients. LERN continues to build a framework for an integrated trauma system and to achieve the LERN Board's vision of establishing an American College of Surgeons (ACS) verified trauma center in every region of the state. Through the LERN Board's guidance and consultation by the LERN Trauma Medical Director, we are closer than ever to reaching this goal. In 2011, there were only two (2) trauma centers in the state - One in New Orleans and one in Shreveport. This left the majority of the state's population without access to a trauma center. Through LERN's efforts, we now have eleven (11) ACS verified adult trauma centers in Louisiana and three (3) Level II pediatric trauma center, for a total of 14 ACS verified trauma centers. The trauma centers are: three (3) Level I adult trauma centers located in New Orleans (University Medical Center), Shreveport (Ochsner LSU Health Shreveport) and ) and Baton Rouge (Our Lady of the Lake Regional Medical Center), four (4) Level II adult trauma centers located in Alexandria (Rapides Regional Medical Center), Hammond (North Oaks Medical Center), Lafayette (Lafayette General Medical Center) and Covington (Lakeview Regional Medical Center), and four (4) Level III adult trauma centers located in St. Tammany Parish (St. Tammany Parish Health System), Lake Charles (Lake Charles Memorial Hospital) and Monroe (Ochsner LSU Health Monroe and St. Francis Medical Center). In 2021, Louisiana gained its first Level II ACS Pediatric Trauma Center, located at Ochsner LSU Health Shreveport. This is a tremendous accomplishment, as Louisiana did not have any Pediatric Trauma Centers. In 2022 Our Lady of the Lake Children's Hospital passed ACS verification and was certified as a Level 2 Pediatric Trauma Center. Lastly, in 2023 Children's Hospital New Orleans Louisiana (CHNOLA) was also certified a Level 2 Pediatric trauma center providing Louisiana with three (3) ACS verified Level II Pediatric Trauma Centers - a tremendous accomplishment for our state. Since 2011, we have expanded 'golden hour' (60 minute drive time) access to a trauma center from 40% to 90% of the state's population.
- IN CY 2023, LERN moved the central office to the Public Safety Compound located at 7979 Independence Blvd in Baton Rouge. The LERN Board extends gratitude to the Administration and the State Legislature for the ongoing support we received to secure this new "hardened" location. This move is a big deal for LERN because our communications center operations, in support of our hospitals, physicians, nurses and EMS professionals statewide, need to remain available at all times regardless of the conditions outside. This was not possible in our previous location, as evidence of system failures related to the 2021 hurricane season.
- A new initiative by the LERN Board in CY2019 was to develop a BURN Plan and Network for Louisiana. We made significant progress in the past three (4) years. The LERN board adopted the Burn Destination Protocol, Pre-Hospital Burn Care Guideline, and the ED Burn Care Guideline. The group developed a 'Burn Basics for EMS' course and 204 paramedics have completed the course. LERN continues to facilitate meetings with the medical directors from the four burn centers in Louisiana to further develop the state burn plan. University Medical Center New Orleans Burn Center passed Burn Center Verification by the American Burn Association. This makes them the only ABA verified burn center that is also a Level I trauma center. Our Lady of Lourdes Regional Medical Center is the only other ABA verified burn center in the state. The other two burn centers are state certified: Baton Rouge General and Ochsner LSU Health Shreveport. Children's Hospital New Orleans is working to develop a pediatric burn center and LERN includes them in all burn system planning efforts.
- LERN also manages five (5) data registries: State EMS Registry, State Trauma Registry, LERN Call Center Registry, the State Stroke Registry and the State STEMI Registry. There has been an increase in the number of data requests related to opioid overdose, occupational injury, pediatric injury and 12 Lead EKG use. In the 2019 Regular Legislative Session, one (1) classified Table of Organization (T.O.) position, Data Manager, was added to our agency. This position has been a tremendous asset to our programs. Specifically, it has allowed us to develop and implement a process for STEMI data collection. Our STEMI registry now includes data from all 37 STEMI Receiving Centers.
- LERN continues to provide Trauma education throughout the state. In 2023, LERN provided 35 Trauma Nurse
  Core Curriculum Classes (277 students) and 15 Emergency Nurse Pediatric Course (ENPC) classes (124
  nurses). We secured \$20,500 in grant funding to teach Trauma Care After Resuscitation (TCAR) course in
  Region 8 and \$9750 from EMS for Children for Pediatric Care After Resuscitation in Northwest Louisiana. We

taught 67 Stop the Bleed classes in 2023, for a total of 1,647 students. The purpose of is campaign is to build national resilience by better preparing the public to save lives by raising awareness of basic actions to stop life threatening bleeding following every-day emergencies and man-made disasters. Education efforts rebounded significantly after being stifled in 2020 and 2021 due to the COVID-19 pandemic. In the 2022 Regular Legislative Session, LERN was appropriated two additional TO and funding each - a statewide education coordinator and a disaster preparedness manager. Both positions significantly improved LERNs ability to fulfill the mission.

- In addition to trauma, LERN is building systems of care for stroke and STEMI. Our legislation requires that LERN work with the department to develop stroke and ST segment elevation myocardial infarction (STEMI) systems that are designed to promote rapid identification of, and access to, appropriate stroke and STEMI resources statewide. To this end, the LERN Board has established requirements for STEMI Receiving Centers, STEM I Referral Centers, and requirements for Stroke Centers. Every CEO in Louisiana must attest to their capability every two (2) years, thus defining STEMI and Stroke hospital resources across the state.
- STEMI is the most severe and deadliest form of a heart attack, afflicting over 700,000 Americans per year. The cause of this is type of heart attack is complete closure of a major coronary artery. Timely reopening of the closed artery (reperfusion therapy) can be the difference between life and death, yet up to 30% of STEMI patients never receive the time-sensitive treatments they need. LERN has a legislative mandate to work with the department to develop stroke and STEMI systems designed to promote rapid identification of, and access to, appropriate stroke and STEMI resources statewide. LERN's ongoing development of Louisiana's statewide STEMI system of care is based upon best practice guidelines, as established by the American Heart Association's Mission: Lifeline and successful systems across the country. Effective treatments are identified as clot-busting medication administered within 30 minutes or primary percutaneous coronary intervention (PCI) administered within 90 minutes. Addressing the challenge of timely patient access to reperfusion therapy is central to Louisiana's STEMI system of care.
- LERN implemented the STEMI system of care through several activities, including 12-Lead EKG courses across the state and volunteer physician STEMI Champions in all nine (9) Department of Health (LDH) hospital regions. These champions, along with the LERN Tri-Regional coordinators, implement, monitor, and evaluate the STEMI system. We hired a new STEMI Medical Director in January 2020 to help lead the STEMI System. Under his guidance, the LERN Board approved a STEMI data collection pilot. The pilot was a success and in August 2020, the LERN Board made this data collection mandatory. There was a delay in implementation due to COVID-19, but STEMI data collection is now fully implemented with all 37 STEMI Receiving Centers submitting data to LERN. The data allows LERN to compare our state's performance to national benchmarks. As of Quarter 3, 2023, the state's median door to PCI time is 55 minutes, which is better than the national benchmark of 90 minutes.
- In 2023, LERN conducted seventeen (17), Twelve Lead EKG Courses throughout the state. A total of 369 nurses and paramedics completed the course. Since 2015, when the course was first developed, we have taught 102 classes and a total of 3,068 nurses and paramedics. This education facilitates rapid identification in the pre-hospital setting of this most deadly heart attack. These patients are directed to the definitive care hospital where the Cath Lab team await their arrival. LERN will continue this training as part of the STEMI System strategic plan.
- Stroke is a serious time-sensitive illness. It is the fourth leading cause of death nationally, and Louisiana rank s as the ninth highest state for stroke deaths. Stroke is also the leading cause of adult disability and the number one cause for new admission to nursing homes. Every second of a stroke, a patient loses 32,000 neurons, which ages the brain by 8.7 hours. Over 10 hours 1.2 billion neurons are lost and the brain ages by 36 years. This is why it is paramount to restore blood flow to the brain as quickly as possible. LERN's ongoing development of Louisiana's statewide stroke care system is guided by the evidence-based "hub and spoke" model that facilitates widespread patient access to lifesaving care and treatment with tissue plasminogen activator (tPA), the only FDA approved medication for treatment of an occlusive stroke within the first few hours. Louisiana's "hub and

spoke" model includes Comprehensive Stroke Center, Thrombectomy Capable Stroke Center and Primary Stroke Center hubs, and spoke hospitals (Acute Stroke Ready Hospitals or ASRH) connected by telemedicine. Louisiana has developed a system of care to comprehensively treat incidents of stroke. In 2015, Louisiana was one of only 12 states and DC who has promulgated rules around level of stroke centers. Through the work of LERN, the number of certified stroke centers has increased. The Louisiana Stroke System consists of three (3) Advanced Comprehensive Stroke Centers, one (1) Thrombectomy-Certified Stroke Center and twenty-two (22) Advanced Primary Stroke Centers. In 2023, the LCC routed 4,247 stroke patients to definitive care hospitals. This was an increase of 16% from 2022. LERN utilizes Louisiana Hospital Inpatient Discharge Data (LaHIDD) to evaluate tPA usage. The data indicates that the tPA usage rate quadrupled since 2010, meaning four times as many stroke patients are receiving this life saving drug. We believe that developing the stroke system where stroke capable hospitals are readily identified contributed to this increase.

- The LERN Board also implemented data submission and accountability measures for the 57 Acute Stroke Ready Centers. We now have 100% of the Acute Stroke Level Hospitals submitting data to LERN. LERN's stroke medical director reviews all ASRH's for continued participation in the system per established benchmarks, required action plans and mock codes. In addition to the ACSR's, the Board also mandated submission of door to needle metrics for CSC, TSC, PSC-E and PSC centers. Median Door to Needle time for ASRH's is 45 minutes shorter than national benchmark of 60 minutes. The median Door to Needle time for the certified centers (CSC, TSC, PSC-E and PSC hospitals) was also 45 minutes.
- The state stroke system is ensuring that stroke patients go to hospitals that can rapidly identify stroke patients and provide treatment thus preventing them from waiting for care and allowing symptoms and outcomes to worsen. The 'spoke and hub' model has expanded access to care. 99% of the state's population has access to a stroke capable hospital w/in a 60-minute drive time, which fulfills legislative mandate.
- The LERN Board has also adopted destination protocols for EMS to follow to ensure that patients suffering a stroke or STEMI receive care at the closest most appropriate hospital. LERN also promulgated LAC 48:I, Chapters 187 and 189 establishing requirements for Stroke Center Recognition and STEMI Receiving/Referral Centers Recognition. LERN also promulgated LAC 48:I, Chapters 191, 193, and 195 Trauma destination protocol, Stroke destination protocol and STEMI destination protocol. LERN also promulgated LAC 48:I, Chapter 197, Sections 19701-19701 Trauma Program Recognition. In CY 2023, the LERN Board adopted an updated version of the stroke pre-hospital destination protocol. This version includes destination guidance for wake-up strokes and is effective January 1, 2024.
- LERN continues to play a pivotal communications role during disasters and mass casualty incident (MCI) events in Louisiana. As the statewide "first call" helpdesk and 24/7/365 information coordinator for unfolding events, the LCC provides timely information that helps our hospitals, other healthcare providers, and relevant stakeholder agencies prepare for and manage a local and/or statewide emergency response. Additionally, LERN's role in Louisiana's all disasters response includes: supporting hospital, EMS, and emergency prepared-ness partners in managing incidents, alerting hospital and emergency response stakeholders with details of the incident through the ESF 8 Portal messaging system, directing patient transports to the most appropriate hospital emergency departments based upon scene resources, patient triage, and surrounding hospitals ' resources and sharing information throughout the event with affected regional personnel and state leadership.
- LERN's role in disaster response also includes joining state, regional, and local partners in conducting emergency preparedness drills across the state including active shooter drills, emergency system tests and planning events, and a mass casualty incident (MCI) boot camp, attending planning meetings, as well as on-site evaluation for many drills. These drills help LERN provide support and necessary feedback to improve efforts, provide education on the Trauma Network and LCC procedures, and to ensure stakeholders have knowledge of resources available to support them.
- LERN also manages the EMS Tactical Operations Center (TOC) during disasters. This includes: operating as tactical command for incoming emergency medical assets including air/ground ambulances, para-transit vehicles,

and buses and directing movement and response of ambulances for a declared emergency. Responses may include evacuation of facilities, search and rescue, and support of local 911 or coordinating with local, state, and federal partners to strategically respond to the needs of the citizens of Louisiana during a disaster. Currently, the TOC has been operating since August in support of Hurricane Laura response.

### 3241-Louisiana Emergency Response Network Boa

#### **Program Authorization**

This program is authorized by the following legislation:

R.S. 40:2841 - 2846

#### **Program Description**

The mission of the Louisiana Emergency Response Network (LERN) is to safeguard the public health, safety, and welfare of the people of the State of Louisiana against unnecessary trauma and time-sensitive related deaths and incidents of morbidity.

The goals of the Louisiana Emergency Response Network are to:

- I. Decrease risk adjusted time sensitive illness (stroke/STEMI) and trauma related deaths and incidents of morbidity and mortality due to trauma and time-sensitive illness in Louisiana.
- II. Maximize the return on investment (ROI) of state dollars and supplement general fund dollars with alternative funding sources.
- III. Ensure that all citizens gain access to the statewide trauma network for both trauma and time sensitive related illnesses.
- IV. Establish and codify protocols that specify the role of LERN in Emergency Support Function 8 (ESF-8) activities.
- V. Louisiana Emergency Response Network Board includes LERN Central Office, nine (9) regional commissions and Call Center Operations.

The Louisiana Emergency Response Network has one program: Louisiana Emergency Response Network Board. LERN Program Activities consist of:

- LERN remains dedicated to providing access services connecting patients in need of time-sensitive trauma, burn, stroke and STEMI services with the appropriate medical resource destination. LERN tracks these resources via the LERN Resource Management screen in the ESF-8 Portal. The LERN Communications Center (LCC), located in Baton Rouge, continues to offer state of the art communications that direct the transport of traumatically injured patients to definitive care facilities within the "golden hour". In 2014, LERN expanded the scope of the LCC to include directing transport of stroke and STEMI patients as needed across the state. In 2018, we began the development of the burn system for Louisiana. In April 2019, the LCC expanded our services to include routing burn patients to definitive care. These services are provided 24/7/365 across the entire state of Louisiana. The LCC routed 16,939 patients in CY 2021 a 19.85% increase in volume from 2018. The LCC also serves an important role within ESF-8 (emergency preparedness and response) by implementing the EMSTAT/Resource Management tool and LERN's mass casualty notification and response protocols.
- LERN is the lead agency for trauma in Louisiana, responsible for developing and maintaining a statewide system of care coordination for injured patients. LERN continues to build a framework for an integrated trauma system and to achieve the LERN Board's vision of establishing an American College of Surgeons (ACS) verified trauma center in every region of the state. Through the LERN Board's guidance and consultation by the LERN Trauma Medical Director, we are closer than ever to reaching this goal. In 2011, there were only two (2) trauma centers in the state One in New Orleans and one in Shreveport. This left the majority of the state's population without access to a trauma center. Through LERN's efforts, we now have nine (9) ACS verified adult trauma centers in Louisiana and one (1) Level II pediatric trauma center, for a total of 10 ACS verified trauma centers. The trauma

centers are: two (2) Level I adult trauma centers located in New Orleans (University Medical Center) and Shreveport (Ochsner LSU Health Shreveport), five (5) Level II adult trauma centers located in Alexandria (Rapides Regional Medical Center), Baton Rouge (Our Lady of the Lake RMC), Hammond (North Oaks Medical Center), Lafayette (Lafayette General Medical Center) and Covington (Lakeview Regional Medical Center), and two (2) Level III adult trauma centers located in St. Tammany Parish (St. Tammany Parish Health System) and Lake Charles (Lake Charles Memorial Hospital). In 2021, Louisiana gained its first Level II ACS Pediatric Trauma Center, located at Ochsner LSU Health Shreveport. This is a tremendous accomplishment, as Louisiana did not have any Pediatric Trauma Centers. LERN continues to support Our Lady of the Lake Children's Hospital and Children's Hospital New Orleans Louisiana (CHNOLA) in their efforts to achieve Level 2 Pediatric trauma center verification. By the end of 2023, Louisiana should have three (3) ACS verified Level II Pediatric Trauma Centers - a tremendous accomplishment for our state. Since 2011, we have expanded "golden hour" (60 minute drive time) access to a trauma center from 40% to 83% of the state's population.

- Developing a trauma center in the Northeast corner of the state (LDH Region 8), the Monroe area, continues to be a primary focus for the LERN system. We have made significant progress on this front as well. We received Level III "trauma program attestations" from two (2) hospitals: St. Francis Medical Center and Ochsner LSU Health Monroe. The "trauma program attestation" is a status/process that grants provisional trauma status to a hospital to help them start their trauma programs. Our Trauma Medical Director provides consultation services as they prepare for their ACS verification survey. This provisional status is granted for a maximum of two years and is removed if ACS verification is not achieved in that timeframe.
- A new initiative by the LERN Board in CY2019 was to develop a BURN Plan and Network for Louisiana. We made significant progress in the past three (3) years. The LERN board adopted the Burn Destination Protocol, Pre-Hospital Burn Care Guideline, and the ED Burn Care Guideline. The group developed a "Burn Basics for EMS" course and 167 paramedics have completed the course. LERN continues to facilitate meetings with the medical directors from the four burn centers in Louisiana to further develop the state burn plan. University Medical Center New Orleans Burn Center passed Burn Center Verification by the American Burn Association. This makes them the only ABA verified burn center that is also a Level I trauma center. The Baton Rouge General is the only other ABA verified burn center in the state. The other two burn centers are state certified: Our Lady of Lourdes (Lafayette) and Ochsner LSU Health Shreveport. LERN also manages five (5) data registries: State EMS Registry, State Trauma Registry, LERN Call Center Registry, the State Stroke Registry and the State STEMI Registry. There has been an increase in the number of data requests related to opioid overdose, occupational injury, pediatric injury and 12 Lead EKG use. In the 2019 Regular Legislative Session, one (1) classified Table of Organization (T.O.) positions, Data Manager, was added to our agency. This position has been a tremendous asset to our programs. Specifically, it has allowed us to develop and implement a process for STEMI data collection. Our STEMI registry now includes data from all 37 STEMI Receiving Centers.
- LERN continues to provide Trauma education throughout the state. In 2021, LERN provided 23 Trauma Nurse Core Curriculum Classes (177 students) and 15 Emergency Nurse Pediatric Course (ENPC) classes (122 nurses). We secured \$21,000 in grant funding to teach ENPC in Region 8. We taught 31 Stop the Bleed classes in 2021, for a total of 751 students. The purpose of is campaign is to build national resilience by better preparing the public to save lives by raising awareness of basic actions to stop life threatening bleeding following every-day emergencies and man-made disasters. Education in 2020 and 2021 was curtailed due to the COVID-19 pandemic, which limited our ability to provide face-to-face classes.
- In addition to trauma, LERN is building systems of care for stroke and STEMI. Our legislation requires that LERN work with the department to develop stroke and ST segment elevation myocardial infarction (STEMI) systems that are designed to promote rapid identification of, and access to, appropriate stroke and STEMI resources statewide. To this end, the LERN Board has established requirements for STEMI Receiving Centers, STEMI Referral Centers, and requirements for Stroke Centers. Every CEO in Louisiana must attest to their capability every two (2) years, thus defining STEMI and Stroke hospital resources across the state.

- STEMI is the most severe and deadliest form of a heart attack, afflicting over 700,000 Americans per year. This type of heart attack is caused by the complete closure of a major coronary artery. Timely reopening of the closed artery (reperfusion therapy) can be the difference between life and death, yet up to 30% of STEMI patients never receive the time-sensitive treatments they need. LERN has a legislative mandate to work with the department to develop stroke and STEMI systems that are designed to promote rapid identification of, and access to, appropriate stroke and STEMI resources statewide. LERN's ongoing development of Louisiana's statewide STEMI system of care is based upon best practice guidelines, as established by the American Heart Association's Mission: Lifeline and successful systems across the country. Effective treatments are identified as clot-busting medication administered within 30 minutes or primary percutaneous coronary intervention (PCI) administered within 90 minutes. Addressing the challenge of timely patient access to reperfusion therapy is central to Louisiana's STEMI system of care.
- LERN STEMI system of care is implemented through several activities, including 12-Lead EKG courses across the state and volunteer physician STEMI Champions in all nine (9) Department of Health (LDH) hospital regions. These champions, along with the LERN Tri-Regional coordinators, implement, monitor, and evaluate the STEMI system. We hired a new STEMI Medical Director in January 2020 to help lead the STEMI System. Under his guidance, the LERN Board approved a STEMI data collection pilot. The pilot was a success and in August 2020, the LERN Board made this data collection mandatory. The implementation date was delayed due to COVID-19, but is now fully implemented with all 37 STEMI Receiving Centers submitting data to LERN. The data allows LERN to compare our state's performance to national benchmarks. As of Quarter 2, 2021, the state's median door to PCI time is 61 minutes, which is better than the national benchmark of 90 minutes.
- In 2021, LERN conducted ten (10), Twelve Lead EKG Courses throughout the state. A total of 165 nurses and paramedics completed the course. Since 2015, when the course was first developed, we have taught 83 classes and a total of 2,295 nurses and paramedics. This education facilitates rapid identification in the pre-hospital setting of this most deadly heart attack. These patients are directed to the definitive care hospital where the Cath Lab team await their arrival. LERN will continue this training as part of the STEMI System strategic plan.
- Stroke is a serious time-sensitive illness. It is the fourth leading cause of death nationally, and Louisiana ranks as the ninth highest state for stroke deaths. Stroke is also the leading cause of adult disability and the number one cause for new admission to nursing homes. Every second of a stroke, a patient loses 32,000 neurons, which ages the brain by 8.7 hours. Over 10 hours 1.2 billion neurons are lost and the brain ages by 36 years. This is why it is paramount to restore blood flow to the brain as quickly as possible. LERN's ongoing development of Louisiana's statewide stroke care system is guided by the evidence-based "hub and spoke" model that facilitates widespread patient access to lifesaving care and treatment with tissue plasminogen activator (tPA), the only FDA approved medication for treatment of an occlusive stroke within the first few hours. Louisiana's "hub and spoke" model includes Comprehensive Stroke Center, Thrombectomy Capable Stroke Center and Primary Stroke Center hubs, and spoke hospitals (Acute Stroke Ready Hospitals or ASRH) connected by telemedicine. Louisiana has developed a system of care to comprehensively treat incidents of stroke. In 2015, Louisiana was one of only 12 states and DC who has promulgated rules around level of stroke centers. Through the work of LERN, the number of certified stroke centers has increased. The Louisiana Stroke System consists of three (3) Advanced Comprehensive Stroke Centers, three (3) Thrombectomy-Certified Stroke Centers and 17 Advanced Primary Stroke Centers. In 2020, the LCC routed 2,229 stroke patients to definitive care hospitals. This was an increase of 18% from 2018. LERN utilizes Louisiana Hospital Inpatient Discharge Data (LaHIDD) to evaluate tPA usage. The data indicates that the tPA usage rate quadrupled since 2010, meaning four times as many stroke patients are receiving this life saving drug. We believe that developing the stroke system where stroke capable hospitals are readily identified contributed to this increase.
- The LERN Board also implemented data submission and accountability measures for the 57 AcuteStroke Ready Centers. We now have 100% of the Acute Stroke Level Hospitals submitting data to LERN. All sites are reviewed for continued participation in the system per established benchmarks, required action plans and mock codes. In addition to the ACSR's, the Board also mandated submission of door to needle metrics for CSC, TSC, PSC-E and

PSC centers. Median Door to Needle time for ASRH's is 52.5 minutes - shorter than national benchmark of 60 minutes. The median Door to Needle time for the certified centers (CSC, TSC, PSC-E and PSC hospitals) is 39 minutes.

- The state stroke system is ensuring that stroke patients go to hospitals that can rapidly identify stroke patients and provide treatment thus preventing them from waiting for care and allowing symptoms and outcomes to worsen. The "spoke and hub" model has expanded access to care. 99% of the state's population has access to a stroke capable hospital w/in a 60-minute drive time, which fulfills legislative mandate.
- The LERN Board has also adopted destination protocols for EMS to follow to ensure that patients suffering a
  stroke or STEMI receive care at the closest most appropriate hospital. LERN also promulgated LAC 48:I, Chapters 187 and 189 establishing requirements for Stroke Center Recognition and STEMI Receiving/Referral Centers Recognition. LERN also promulgated LAC 48:I, Chapters 191, 193, and 195 Trauma destination protocol,
  Stroke destination protocol and STEMI destination protocol. LERN also promulgated LAC 48:I, Chapter 197, Sections 19701-19701 Trauma Program Recognition.
- LERN continues to plays a pivotal communications role during disasters and mass casualty incident (MCI) events in Louisiana. As the statewide "first call" helpdesk and 24/7/365 information coordinator for unfolding events, the LCC provides timely information that helps our hospitals, other healthcare providers, and relevant stakeholder agencies prepare for and manage a local and/or statewide emergency response. Additionally, LERN's role in Louisiana's all disasters response includes: supporting hospital, EMS, and emergency preparedness partners in managing incidents, alerting hospital and emergency response stakeholders with details of the incident through the ESF 8 Portal messaging system, directing patient transports to the most appropriate hospital emergency departments based upon scene resources, patient triage, and surrounding hospitals' resources and sharing information throughout the event with affected regional personnel and state leadership.
- LERN's role in disaster response also includes joining state, regional, and local partners in conducting emergency preparedness drills across the state including active shooter drills, emergency system tests and planning events, and a mass casualty incident (MCI) boot camp, attending planning meetings, as well as on-site evaluation for many drills. These drills help LERN provide support and necessary feedback to improve efforts, provide education on the Trauma Network and LCC procedures, and to ensure stakeholders have knowledge of resources available to support them.
- LERN also manages the EMS Tactical Operations Center (TOC) during disasters. This includes: operating as tactical command for incoming emergency medical assets including air/ground ambulances, para-transit vehicles, and buses and directing movement and response of ambulances for a declared emergency. Responses may include evacuation of facilities, search and rescue, and support of local 911 or coordinating with local, state, and federal partners to strategically respond to the needs of the citizens of Louisiana during a disaster. Currently, the TOC has been operating since August in support of Hurricane Laura response.

#### 09-325-Acadiana Area Human Services District

#### **Agency Description**

The mission of the Acadiana Area Human Services District is to improve the quality of life for the citizens of Acadiana and/or intellectual/developmental who behavioral health disabilities. vision of the Acadiana Area Human Services District is to become the preeminent provider of community-based supports and human services which promote the independence, respect, and inclusion of all citizens dealing with issues of behavioral health and/or intellectual/developmental disabilities. The values of the Acadiana Area Human Services District are Accountability - To be good stewards of our resources and to exceed all contractual, legal, and regulatory requirements in providing services. Transparency - To operate in such a manner as to be above reproach in all of our governance and operational processes. Value - To achieve optimal outcomes by implementing cost effective, evidencebased practices in a timely manner. To this end, a comprehensive system of care is offered which provides researchbased prevention, early intervention, treatment and recovery support services to citizens of Acadia, Evangeline, Iberia, Lafayette, St. Landry, St. Martin, and Vermilion parishes, directly and through community collaborations.

The goals of the Acadiana Area Human Services District are to:

- I. To provide comprehensive services and supports which improve the quality of life and community participation for persons in crisis and/or with serious and persistent mental illness, emotional and behavioral disorders, addictive disorders, co-occurring disorders, and/or developmental disabilities.
- II. To improve individual outcomes through effective implementation of evidenced-based and best practices and data-driven decision-making.
- III. To promote healthy, safe lives for people by providing leadership in educating the community on the importance of prevention, early detection and intervention, and by facilitating coalition building to address localized community problems.

The Acadiana Area Human Services District focuses its treatment approach on the person and family in the provision of services and supports. The family is paramount to the treatment model and serves as the basis for individual and family treatment, recovery and wellness adaptation.

#### 3251-Acadiana Area Human Services District

#### **Program Authorization**

Acadiana Human Services Authority is organized under the following provisions of the Louisiana Revised Statutes (LSA-RS): R.S. 373; R.S. 28:911; Act 73 of the 2017 Louisiana Regular Legislative Session; Act 231 of the 2012 Regular Legislative Session; and related statutes.

#### **Program Description**

The Acadiana Area Human Services District is one program comprised of administration, behavioral health, and developmental disabilities.

- Administration: The Louisiana Department of Health (LDH), its program offices and the Louisiana Legislature have created a statewide integrated human services delivery system with local accountability and management to provide behavioral health and developmental disabilities services. These local human service systems are referred to as local governmental entities (LGEs). LGEs feature practices such as a framework anchored in clear policy objectives, well-defined local roles and responsibilities, and measures to assure accountability of delivering quality services to consumers that assist in determining the relative efficiency and effectiveness of public systems. Act 373 of the 2008 Legislative Session, requires that LDH shall not contract with a new LGE until LDH, in consultation with the Human Services Interagency Council (HSIC), has determined and confirmed in writing to the governor that LDH is prepared to contract the provision of services to the LGE after the LGE has successfully completed the Readiness Assessment. The Acadiana Area Human Services District was created by Act 373 in the 2008 Legislative Session for the parishes of Acadia, Evangeline, Iberia, Lafayette, St. Landry, St. Martin and Vermilion. A ten member board was seated in January of 2010 and an Executive Director was hired in November 2011. The Acadiana Area Human Services District will participate in the statewide initiative to transition from the statewide SMO to the five Bayou Health companies to implement an electronic health record to assist with continuous documentation efforts, scheduling of clients to maximize provider time, invoicing and billing procedures to improve collection efforts and standardization of forms/procedures. Acadiana Area Human Services District is seeking national reaccreditation with CARF for its 5 behavioral clinics sites within the region.
- Mental Health Acadiana Area Human Services District provides Mental Health outpatient clinic services for children, adolescents, and adults. Core services include screening, assessment, crisis evaluation, individual/ group/family therapy, medication management (which includes administration and education), and screening for persons with co-occurring disorders. Contracted services include evidence-based practice (Assertive Community Treatment) and Case Management Services for adults and children/adolescents, as well as housing and employment assistance and assistance in application for Supplemental Security Income (SSI). Service delivery includes full participation in the Healthy Louisiana (formerly Bayou Health) initiative.
- Addictive Disorders Acadiana Area Human Services District provides Addictive Disorders outpatient clinic services for adolescents and adults and contracts with community vendors to provide Prevention services to children and adolescents. Core services include orientation/screening, referral, assessment; education, outpatient, intensive outpatient, and aftercare group modalities, treatment for gambling addiction, drug screens, HIV/STD/TB services, and medical history/mental status exams. Addictive Disorders and Prevention service providers focus their attention on providing comprehensive, fully integrated prevention and treatment services and actively seek the assistance of partnerships and collaborations to fully meet the needs of individuals, families, and communities.
- Developmental Disabilities: Developmental Disabilities core services consist of serving as the Single Point of Entry (SPOE) into the Developmental Disabilities (DD) Services System and providing support coordination services to individuals and their families through DD and other available community resources. Staff members assess the needs for support and services, develop individual plans of support, make applicable referrals, and

provide ongoing coordination for the client's support plans. Targeted services are centered on Home and Community-Based Services Waiver programs and Federal criteria which allow services to be provided in a home or community-based setting for the recipient who would otherwise require institutional care. The Family Support Program is designed to assist individuals whose needs exceed those normally used resources in the community, and other natural resources available. Individual and Family Supports include but are not limited to: respite care, personal assistance services, specialized clothing, such as adult briefs, dental and medical services not covered by other sources, equipment and supplies, communication services, crisis intervention, specialized utility costs, specialized nutrition, and family education. The Flexible Family Fund Program is intended to assist families with children with severe or profound disabilities to offset the extraordinary costs of maintaining their child in their own home. The program provides a monthly stipend to families of children who have qualifying exceptionalities identified through their local educational authority.

#### **Source of Funding**

This program is funded with the following:

- State General Fund (Direct)
- Interagency Transfers derived from:
  - o Office of Behavioral Health
  - Medical Vendor Payments Title XIX
- Fees & Self-generated Revenues from:

- Fees for services provided to clients who are not eligible for Medicaid services through managed care organizations
- Ineligible patient fees
- for services provided to Medicare eligible clients
- Urine drug screen co-pay
- o DWI copays
- o Medicaid enrollment fees
- Federal Funds derived from the Community Behavioral Health Clinic (CCBHC) Substance Abuse and Mental Health Services Administration (SAMHSA)

# **Acquisitions and Major Repairs**

| Amount |  |  |  |  | Description |
|--------|--|--|--|--|-------------|
|        |  |  |  |  |             |

This program does not have funding for Acquisitions and Major Repairs.

**Objective:** 3251-01 To provide programmatic leadership and direction to the programs of behavioral health (addictive disorders and mental health) and developmental disabilities services under AAHSD; to continue the operational activity of the AAHSD administrative office in relation to the Readiness Assessment Criteria and other regulatory/licensure processes and according to the terms of the Memorandum of Understanding (MOU) each year through June 30, 2025.

**Children's Budget Link** Acadiana Area Human Services District services for children are related to the health policy outlined in the Children's Budget Link which mandates that all Louisiana children will have access to comprehensive healthcare services, and are linked via the Acadiana Area Human Services District agency's budget.

**HR Policies Beneficial to Women and Families Link** The Acadiana Area Human Services District abides by all state Civil Services guidelines and procedures regarding equal opportunity for all staff and in particular women and their families. The Acadiana Area Human Services District also addresses specific issues in respect to female employees and their families in the Human Resources policies for the agency and the Acadiana Area Human Services District Personnel Handbook. All policies are reviewed annually and changes/additions are made accordingly to new mandates or as issues arise.

## 09-326-Office of Public Health

### **Agency Description**

The mission of the Department of Health (LDH) Office of Public Health (OPH) is to protect and promote the health and wellness of all individuals and communities in Louisiana. We accomplish this through education, promotion of healthy lifestyles, preventing disease and injury, enforcing regulations that protect the environment, sharing vital information and assuring preventive services to uninsured and underserved individuals and families.

The LDH Office of Public Health, characterized by a trained and highly motivated workforce, will employ science-based best practices to ensure that all people in Louisiana have the opportunity to grow, develop, and live in an environment that promotes the physical, behavioral and social health of individuals, families and communities.

Public Health professionals are motivated daily by how individuals and communities are working together to improve their health. As custodians of the public's trust and money, we strive to stay connected to what is most important to improve the health of individuals and families.

The goals of the Office of Public Health include the following:

- I. Increase financial stability by more efficient utilization of resources and increased revenue.
- II. Operate as a cross-functional, cohesive agency throughout all programs, services, and regions, while being reliable and responsive and meeting national standards.
- III. Serve as a valued leader in public health in Louisiana and facilitate partnerships to better align efforts and overall impact on health and wellness of individuals and communities.
- IV. Attract and retain a competent and diverse staff throughout our workforce to maximize productivity, deliver high quality service, and improve outcomes.
- V. Lead and continually improve a public health system that identifies and reduces inequities to improve health outcomes and quality of life in Louisiana.
- VI. Adopt and maintain an up-to-date IT infrastructure to ensure a well-equipped workforce that has the tools to meet or exceed performance standards and funding requirements.
- VII. Leverage health information technology to maximize use and integration of data to drive decision-making.

The core values of the Office of Public Health include the following:

- OPH values health as physical, mental, and social well-being.
- We are dedicated to assisting and serving everyone with compassion and dignity.
- We value and respect diversity.
- We value individuals and communities as core partners in protecting and promoting health.
- We value the unique perspectives and contributions of all employees.

- We are committed to fostering an environment where all employees are empowered to challenge current processes and assumptions in an effort to continually improve quality and performance.
- We are committed to excellence through continuous performance improvement based on best practices and available science.
- We demonstrate integrity, accountability, professionalism, and transparency.

The Office of Public Health has one appropriated program, the Public Health Services Program.

## **Program Description**

The mission of Public Health Services is to protect and improve the health and well-being of Louisiana's residents, visitors, and native-born Louisianans who no longer reside in the state, by:

- Improving the Health of Louisiana's residents by promoting healthy lifestyles, providing preventive health education and data necessary to enable individuals and communities to assume responsibility for their own health, and assuring the availability of essential preventive health services.
- Operating a centralized vital event registry that provides efficient access to, collection and archival of vital event records.
- Protecting the health of Louisiana citizens and its visitors by providing the educational resources, regulatory
  oversight and preventive measures necessary to reduce the incidence of food/water-borne illnesses and other
  preventable diseases/conditions most commonly associated with unsafe food, water, milk, seafood, molluscan
  shellfish, drugs, cosmetics, onsite wastewater, biomedical waste, public institutions, commercial body art, commercial tanning, and beach recreational waters.
- Preventing illness and death that can occur from waterborne disease outbreaks or exposure to contaminated drinking water or raw sewage.
- Improving the health of Louisiana citizens by assisting public water systems with delivering safe and affordable drinking water.

The goals of Public Health Services:

OPH is dedicated to the development, implementation and management of public health services for the citizens of Louisiana. The agency will continue to deliver Maternal Child Health Services, Nutrition Services (Women, Infants and Children (WIC) Services), Reproductive Health Services, Children's Special Health Services, Immunization Services, Tuberculosis Services and Genetic Disease Monitoring Services. OPH promotes the physical, mental and social health of infants, children, adolescents, women, families and communities through these services via health information/statistics, environmental health, chronic diseases/health promotion, preventive health, epidemiology/surveillance, and access to essential health care services.

## **Source of Funding**

This program is funded with the following:

- State General Fund (Direct)
- Interagency Transfers derived from:
  - Medical Vendor Payments Title XIX
  - o Office of Management and Finance for providing emergency medical service training
  - The Department of Environmental Quality for coliform analysis
- Fees & Self-generated Revenues from:
  - Patient fees
  - Third party reimbursement received for medical services
  - o Local funds generated by parish mileage or contributions for parish health units
  - Fees for testing charged in the Emergency Medical Services activity
  - Fees for testing charged in the Emergency Medical Services activity
- Statutory Dedications from the following funds:
  - o Louisiana Fund (R.S. 39:98.6.(8))
  - Oyster Sanitation Fund (R.S. 40:5.10)

3262-Public Health Services 09-326-Office of Public Health

- Vital Records Conversion Fund (R.S. 40:39, 1 (B)(2))
- Federal Funds derived from:
  - o Funds for AIDS Prevention, Drugs, New Initiatives, and Reporting
  - Grant from the Center for Disease Control (CDC) to study behavioral risk
  - o USDA Commodity Supplemental Food and WIC Program grants
  - Family Planning Title 10 Grant
  - Helathy Futures Case Management Grant for at-risk pregnant women
  - o Immunization Grant for Children
  - o The Maternal and Child Health Grant
  - The Preventative Health Grant
  - o The Sexually Transmitted Disease Control Grant
  - Engineering Services Grant
  - CDC Grant for Infectious Epidemiology
  - Primary Care and Health Promotions Grant
  - Emergency Medical Services for Children Grant
  - Food & Drug Administration Grants
  - Vital Statistics Cooperative Grant

Per R.S. 39:36B.(8), see table below for listing of each statutorily dedicated fund.

### 09-330-Office of Behavioral Health

## **Agency Description**

The mission of the Office of Behavioral Health is to lead the effort to build and provide a comprehensive, integrated, person-centered system of prevention and treatment services that promote recovery and resilience for all citizens of Louisiana. OBH assures public behavioral health services are accessible, have a positive impact, are culturally and clinically competent, and are delivered in partnership with all stakeholders.

The goals of the Office of Behavioral Health are:

- To serve children and adults with extensive behavioral health needs including mental health and/or addictive disorders by providing oversight and guidance of behavioral health services in the Medicaid Healthy Louisiana plans.
- II. To assure that all Louisiana citizens with serious behavioral health challenges have access to needed forensic, residential, and other "safety net" services and promote use of contemporary, evidence-informed treatment, support, and prevention services.
- III. To support the refinement and enhancement of a comprehensive system and associated service array for children, youth and families that appropriately addresses their behavioral health needs that is based on contemporary, best practice principles of care.

OBH oversees and provides direct care through the operation of the state's two free-standing psychiatric inpatient facilities: Central Louisiana State Hospital (CLSH) in Pineville and Eastern Louisiana Mental Health System (ELMHS) in Jackson; which in total provide 450 civil (330 ELMHS and 120 CLSH), and 363 forensic (ELMHS) hospital beds. 177 beds (ELMHS) are available for community placement. ELMHS is the only one of the state's freestanding psychiatric facilities that includes a division solely designated for the provision of inpatient psychiatric treatment to forensic clients who are deemed Not Guilty By Reason of Insanity (NGBRI) or who are ordered to receive hospital-based competency restoration services. OBH maintains agreements through public/private partnerships to provide safety net beds for the treatment of indigent clients with behavioral health disorders.

LDH maintains memorandum of understanding with Jefferson Parish Human Services Authority (09-300), Florida Parishes Human Services Authority (09-301), Capital Area Human Services District (09-302), Metropolitan Human Services District (09-304), South Central Louisiana Human Services Authority (09-309), Northeast Delta Louisiana Human Services Authority (09-310), the Acadiana Area Human Services District (09-325), Imperial Calcasieu Human Services Authority (09-375), Central Louisiana Human Services District (09-376), and Northwest Louisiana Human Services District (09-377) for behavioral health services within their respective districts. All services are integrated within a statewide system of care.

Statement of agency strategies for development and implementation of human resources policies that are helpful and beneficial to women and families.

The LDH Internet site includes the following human resources policies that are helpful and beneficial to women and children:

The Family Medical Leave Act Policy (29.2), the Sexual Harassment Policy (56.4) and the Equal Employment Opportunity Policy (34.2). In addition, flexibility in work schedules assists both women and their families.

LDH Policy 34.2 Equal Employment Opportunity Policy provides for equal opportunities for the recruitment, employment, training and promotion of all employees based solely on merit factors and prohibits the use of gender and other non-merit factors. OBH follows the LDH Family and Medical Leave Act Policy (29.2) to provide up to 12 workweeks of "job-protected" paid or unpaid leave during any 12-month period to eligible employees (regardless of gender and other non-merit factors) for certain specified family and medical reasons.

OBH follows the Leave Policy for Classified Employees (28.4) to credit and grant leave in accordance with Civil Service Rules and provisions of the LDH leave policy. Leave is administered as uniformly and equitable as possible without regard to gender and other non-merit factors.

Work Schedules, Attendance and Punctuality Policy (125.1) permits the use of flexible time schedules for employees as approved by the supervisor and management.

The OBH Affirmative Action Plan encourages increased representation of women and minority groups.

For additional information, see:

Office of Behavioral Health

## 3301-Behavioral Health Admin Community Oversi

### **Program Authorization**

Act 384 Mental Health Services Addictive Services 36:256(E); R.S. 28:771 et seq.

## **Program Description**

The Behavioral Health (OBH) Administration and Community Oversight Program consists of results-oriented managerial, fiscal and supportive functions, including business intelligence, quality management, and evaluation and research, which are necessary to advance state behavioral health care goals, adhere to state and federal funding requirements, monitor the operations of Medicaid-related specialized behavioral health services (SBHS) and support the provision of behavioral health services for uninsured adults and children.

The mission is to monitor and manage a comprehensive system of contemporary, innovative, and evidencebased prevention, treatment and recovery support services for Louisiana citizens with serious behavioral health challenges, as well as external monitoring of specialized behavioral health services through clinical analysis and behavioral health subject matter expertise. Additional functions include quality strategy and compliance, planning, monitoring, and providing accountability in the delivery of mental health and addictive disorders services by statewide partners.

The goals of the Behavioral Health Administration and Community Oversight Program are:

- I. OBH will ensure that Louisiana citizens receive appropriate public behavioral health services through fiscal and programmatic oversight and monitoring activities, including the assurance that critical functions of specialized behavioral health services administered in a Medicaid managed care environment are being performed within expected standards.
- II. OBH will ensure the accessibility of needed behavioral health services for Louisiana citizens, which will include expansion of Recovery, Support Services to support the behavioral health population throughout the state.
- III. OBH will ensure that effective and efficient prevention services are provided statewide to promote overall wellness and to delay the initiation and progression of behavioral health disorders by increasing knowledge, awareness, and healthy behaviors.

The Behavioral Health Administration and Community Oversight Activities:

- **Budget Administration and Agency Operation** Planning, budget, and fiscal support staff are responsible for budget preparation, monitoring, and forecasting revenue and expenditures for the OBH state office and, two 24/7 psychiatric hospitals, business plan development, and adhering to all requirements of Title 39 including strategic planning. OBH staff are responsible for development of fiscal impact statements in response to legislative requests, public records requests, and requests from the Legislative Auditor.
- **Fiscal Support- Grants, Contracts, and Agency Audit** As the single state-appointing agency, OBH is the recipient of all federal dollars earmarked for the behavioral health population. Although the majority of these dollars are sent via IAT to the Local Governing Entities (LGEs), OBH is still responsible for compliance, reporting and tracking expenditures at a statewide level. There are ten LGEs statewide, and they do not have like or coordinated fiscal and reporting systems. OBH assists each of the LGEs to ensure adherence to federal rules and regulations.
- Behavioral Health Fiscal Accountability and Provider Sufficiency Partners with the Medicaid fiscal teams
  to ensure managed care organizations (MCOs) maintain fiscal accountability by conducting several monitoring
  and audit assessment activities, including: analyzing the Annual Audit report; quarterly review of Financial
  Reporting packages to assess revenue vs. expenditures and cash reserves (financial solvency); monitoring
  timeliness of claims payments; on-site financial reviews in collaboration with MCOs and an independent com-

pany reviewing for compliance issues; meeting monthly on financial reporting and budget items; reviewing the Independent Audit Report for material issues and financial viability; reviewing, researching and approving allowable waiver-specific recoupments for waiver services provided without supporting documentation; reviewing all proposed recoupments; reviewing/approval of administrative payments for Coordinated System of Care (CSoC); and auditing and reviewing for accuracy of encounter data submission.

- **Medical and Behavioral Health Policy Oversight** Provides for direction for agency programs and services, development of agency policies and procedures, and for clinical and programmatic oversight to ensure that all activities are compliant with state and federal rules and regulations.
- Data Analytics, Systems, and Reporting The OBH Business Intelligence Analytics (BI-A) Section serves to provide information management and data standards development, decision support, and analytics support for performance improvement initiatives. The BI-A Section strives to transform data into actionable information for purposes of behavioral health service planning, quality improvement, and performance accountability. The OBH BI-A collects and reports on SAMHSA required client-level data as outlined in the agency's contract with the Behavioral Health Services Information System. Additionally, the BI-A team regularly provides information and technical assistance to Local Governing Entities (LGEs) and staff/personnel of state hospitals and state office on how to access, report, and utilize program data.
- Adult Consumer Recovery and Membership Services The Adult Consumer Recovery and Membership Services section of OBH is responsible for the management and oversight of activities and programs to assist persons with behavioral health disorders receive community-based treatment and supportive services necessary to maintain their recovery and successfully live in the community.
- Mental Health and Substance Abuse Block Grant and Federal Crisis Counseling Programs The Mental Health Block Grant (MHBG) and Substance Abuse Prevention and Treatment Block Grant (SAPTBG) are federal block grants that have been awarded to OBH by the Substance Abuse and Mental Health Services Administration (SAMHSA). MHBG funds are used to finance community-based mental health services that help to address service gaps and needs in every geographical service area of the state, and SAPT BG funds are used for the statewide provision of substance use prevention and treatment services, to include the priority populations of pregnant women, women with dependent children, and IV drug users. These funds also ensure the provision of tuberculosis and HIV early intervention services for substance use treatment clients. Additionally, this activity provides for the Louisiana Spirit Crisis Counseling Program (CCP), which assists individuals and communities with the behavioral health effects of presidentially declared disasters.
- Non-Medicaid Substance Use and Mental Illness Services and Populations OBH provides access to substance use disorder, problem gaming, and tobacco cessation services through a statewide network of providers that work together in a seamless system of recovery- oriented care, with a range of services accessed according to the assessment of severity of an individual's needs. OBH funds a full continuum of services from brief screening and intervention to detoxification to residential and outpatient levels of care.
- **Preadmission Screening and Resident Review (PASRR) and Nursing Facility Transitions** PASRR is a program conducted within LDH to screen persons being placed or that are currently placed in a nursing facility level of care. OBH has the responsibility as the Level II State Mental Health Authority to ensure individuals with a suspected mental illness are evaluated and determinations are made regarding appropriateness for nursing facility placement and services. The Nursing Facility Transitions functions provides for identifying and transitioning adults with Severe Mental Illness out of nursing facilities, when appropriate, through the development of a system of care.
- Quality Strategy and Compliance OBH provides for the oversight and monitoring of services and contract
  deliverables for the CSoC wavier program and specialized behavioral health services under the Healthy Louisiana Plans. With integration, OBH has employed different strategies to ensure appropriate oversight for these

09-330-Office of Behavioral Health

activities, including external monitoring, clinical analysis, quality and performance monitoring, reporting, and compliance with federal requirements.

- Residential Behavioral Health Support and Services OBH provides oversight, surveillance and technical assistance to OBH state operated/contracted adult 24-hour residential programs to assure implementation and adherence of OBH stated goals and objectives, policies and procedures, in addition to OBH Mental Health and Addiction Block Grants, strategic and operational plans. These monitoring processes are required efforts and utilized to ensure compliance with Federal Substance Abuse Prevention and Treatment Block Grant requirements, LDH Accountability Implementation Contractual Agreement and by the Department of Children and Family Services (DCFS).
- Wraparound Services for Children Medicaid waiver wraparound services are designed to serve children and youth age birth through 21 who have significant behavioral health challenges and who are in or at imminent risk of out-of-home placement. The purposes of the Medicaid waiver wraparound services are to create and oversee a service delivery system that is better integrated, has enhanced service offerings and achieves improved outcomes by ensuring families who have children with severe behavioral health challenges get the right support and services, at the right level of intensity, at the right time, for the right amount of time, from the right provider, to ultimately keep or return children home or to their home communities. Combining all services into one coordinated plan allows for better communication and collaboration among families, youth, state agencies, providers and others who support the family.

## 3303-Hospital Based Treatment

### **Program AuthorizationAct 384**

## **Program Description**

The mission of the Hospital Based Treatment Program is to provide comprehensive, integrated, evidence informed treatment and support services enabling persons to function at their optimal level thus promoting recovery.

The goals of the Hospital Based Treatment program are the following:

- I. The Hospital-Based Treatment Program will promote recovery through the efficient use of evidence-informed care and successful transition to community-based services.
- II. Through the Hospital-Based Treatment Program, OBH will provide services to individuals involved with the court system in compliance with the Forensic consent decree.

Hospital Based Treatment Services refer to the State Psychiatric Hospital Program, which provides an array of services to persons in need of acute, intermediate or long-term psychiatric inpatient care, including special treatment populations, such as those persons who are forensically involved. The state psychiatric hospitals are coordinated with community emergency services, treatments, and supports, and provide inpatient evaluation, diagnosis, treatment, and rehabilitation. Treatment services include individual, family, and group psychotherapy, recreational and occupational therapy, art and music therapy, work therapy, speech and hearing therapy, nutritional counseling, dental services, pastoral care services, and limited diagnostic medical services.

The Hospital Based Treatment Program operates two hospitals: Central Louisiana State Hospital (CLSH) and Eastern Louisiana Mental Health System (ELMHS).

Hospital Based Treatment Activities consist of:

- **Civil Intermediate** Clients admitted to civil intermediate meet criteria for intensive inpatient treatment. The treatment team assigned to the patient works with the individual patient and other involved parties including the court system if appropriate, to coordinate discharge planning that would enable them to transition into the community setting with appropriate follow up.
- **Forensic Services** ELMHS is the only one of the state's freestanding psychiatric facilities that includes a division solely designated for the provision of inpatient psychiatric treatment to forensic clients. The state is required to provide psychiatric treatment to forensic clients; and in the case of those requiring competency restoration services, within 15 days from the date of the court order, or two days if the client's needs are determined to be emergent. Although forensic clients make up the majority of the beds, clients may also be ordered through the civil court system to the civil intermediate program.
- Hospital Administration and Oversight The administration of the hospital system and the provision of the
  necessary support services are critical to meet the demands of the clients while maintaining licensure, accreditation, life safety, and therapeutic mandates.
- Hospital-Affiliated Community Services The ELMHS Community Forensic Services Department (CFS) provides for the supervision and community tracking of over 400 clients in the Conditional Release Program (Con-Rep). The court has ordered that clients who are involved in this program must be monitored and tracked by CFS in order to be conditionally released into the community; otherwise, they would be returned to the inpatient forensic hospital. Specific services available for Con-Rep clients include daily living skills, preparation for vocational adjustment, re-entry into the community, and medication and symptoms management. ICF-ID Community Group Homes are Medicaid-funded facilities that provide an additional pathway to transition clients from the inpatient psychiatric hospital into the community.

# 09-340-Office for Citizens w/Developmental Disabilities

### **Agency Description**

The Office for Citizens with Developmental Disabilities (OCDD) is committed to ensuring quality services and supports, offering information and opportunities that provide choices to people of Louisiana with developmental disabilities and their families.

The goals of the Office for Citizens with Developmental Disabilities are:

- I. To provide a Developmental Disabilities Services System that affords people access to information about what services and supports are available and how to access the services.
- II. To provide a person-centered system that supports person-centered thinking and planning approaches such that supports identified via needs-based assessments are provided in a manner that focuses on the person's goals and desires and addresses quality of life.
- III. To increase the capacity of the Developmental Disabilities Services System to provide opportunities for people to live, work, and learn in integrated community settings.

The Office for Citizens with Developmental Disabilities consists of five programs:

- Administration Program: This program centralizes management functions for the office, including waiver services, and manages the administrative support functions including human resources, accounting and budget control, property, travel, communications, and information systems management. This activity also provides leadership to the state-operated Pinecrest Supports and Services Center, Central Louisiana Supports and Services Center, and state-wide resource center and its programs. The program includes five activities: Administration, the statewide Resource Center, and Closed Facility costs for the ongoing costs associated with closed, formerly state-operated supports and services centers, and the Intermediate Care Facility for Individuals with Intellectual/Developmental Disabilities (ICD/IID) Programmatic Unit, and Monitoring and Analytical Support function.
- **Community-Based Program:** This program includes four activities: the Central Office providing statewide oversight of programmatic service delivery for waiver services management, clinical services, regional operations and oversight, quality, and business analytics functions; the EarlySteps program for implementation of early intervention services; the Money Follows the Person program, and the Request for Services Registry Services support function.
- **Pinecrest Supports and Services Center:** This program one activity: the Pinecrest Facility, a large Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) providing active treatment services and supports in a 24-hour residential setting.
- **Central Louisiana Supports and Services Center:** This program includes three activities: Administration/ Support for overall management, the Instructional Department to provide training to maximize the independent capabilities of each resident, and the Residential Department for the direct care of residents on a 24-hour basis.
- **Auxiliary Account:** This program provides the residents of the Pinecrest Supports and Services Center with both paid work opportunities and/or therapeutic activities as recommended by an individual's support team.

Statement of Agency Strategies for the development and implementation of Human Resource Policies that are helpful and Beneficial to Women and Families:

- OCDD's Affirmative Action Plan provides for equal opportunities for the recruitment, employment, training and promotion of all employees based solely on merit factors and prohibits the use of gender and other non-merit factors.
- OCDD follows the LDH Family and Medical Leave Policy to provide up to 12 workweeks of "job-protected" paid
  or unpaid leave during any 12-month period to eligible employees for certain specified family and medical reasons.
- OCDD follows the LDH Leave for Classified Employees Policy to credit and grant leave in accordance with Civil Service Rules and provisions of the DHH leave policy. Leave is administered as uniformly and equitable as possible with out regard to race, sex, age, religion, national origin, disability, veteran status, and any other non-merit factors.
- OCDD's Time and Attendance Policy permits the use of flexible time schedules for employees as approved by the supervisor and management.

# 3401-Administration and General Support

### **Program Authorization**

This program is authorized by the following legislation:

R.S. 28:451.1-455.2 and R.S. 28:821 - 824.

### **Program Description**

The mission of the Central Office Administration Services Program is to provide effective and responsive leadership in the administration and enhancement of the developmental disabilities services system in order for people with developmental disabilities and their families to receive information, opportunities for choice, and quality services and supports.

The goal of the Central Office Administration Program is:

**o** To provide system design, policy direction, and operational oversight to the developmental disabilities services system in a manner which promotes person-centeredness, evidence-based practices, accountability, cost-effectiveness, and system responsiveness.

The Administration Program includes the following activities:

- Administration Program: This activity centralizes the management functions, including waiver services, and provides direction and oversight in carrying out both legislative mandates and programmatic responsibilities on behalf of people with developmental disabilities and their families. The activity further manages the administrative support functions including accounting and budget control, procurement, contracts, property control, travel and fleet coordination, communications, and information systems management. This activity further provides leadership to the state-operated Pinecrest Supports and Services Center, Central Louisiana Supports and Services Center, and the statewide resource center functions.
- Closed Facility Costs: The activity provides for legacy costs associated with public Intermediate Care Facilities for Persons with Developmental Disabilities that have been closed or whose operations have been privatized, as well as maintenance costs for remaining properties. An ICF/DD is a facility that provides 24-hour personal care, habilitation, developmental, and supportive health services to individuals with developmental disabilities whose primary need is for developmental services and who may have a recurring, but intermittent, need for skilled nursing services. Historically, OCDD operated nine such ICF/DD facilities. Three of the original state-operated facilities were privatized through Cooperative Endeavor Agreements; two of these facilities remain open today and are actively engaging in a downsizing plan. Six of the original facilities have been closed. The costs funded through this activity may include group insurance for retirees from closed or privatized facilities, risk management costs associated with those facilities, and certain operating and maintenance costs.
- **Resource Center:** This activity collaborates with private providers to assist with identification of support needs, as well as develops activities/interventions/products that improve their ability to achieve positive outcomes for persons with developmental disabilities. The goal of the Resource Center to increase the capacity of the Developmental Disabilities Services System to support people with complex behavioral, mental health, and/or medical needs in all service settings. The Resource Center activity directs and manages the activities of clinicians statewide, including the Community Support Teams and Psychologists, who provide training, consultation, technical assistance to service and caregiver resources in the community (i.e., private support staff agencies, community homes, families, and schools) to meet the complex medical, behavior and psychiatric support needs of persons with disabilities in existing community settings and to avoid institutional placement. The activity uses public resources to expand private service capacity and assist the private sector in meeting higher, needed standards of care for individuals with developmental disabilities and complex support needs.

- **Programmatic Unit:** This activity is intended to ensure that supports and services are planned and provided in a person-centered manner and to ensure supports and services are having the desired outcomes. The unit will provide technical assistance, clinical guidance, and training to facilitate the successful partnership with ICF/DD and Home and Community Based Service provider agencies. The unit also provides programmatic support to Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) operated under Cooperative Endeavor Agreements.
- Monitoring and Analytical Support: This activity researches, analyzes and reports on service utilization and
  expenditures as well as monitors programs and processes that impact supports for individuals with developmental disabilities. The unit utilizes data from the Medicaid Data Warehouse and reports to leadership for budget projections and decision-making. In addition, demographic and service utilization data is reported annually
  on national surveys, which are viewed by stakeholders as indicators of performance.

### **Acquisitions and Major Repairs**

| Amount    | Description  |
|-----------|--|
|           | Total Acquisitions and Major Repairs   |
| \$135,300 | Replace six (6) high-mileage vehicles used by the OCDD Resource Center in the implementation of state development disability services.   |
| \$25,746  | Replace one (1) vehicle used by staff in State Office in performance of duties including statewide training, monitoring, and oversight relative to regional operations, and travel around the state. |
| \$29,395  | Provides for one (1) vehicle used for upkeep and maintenance of closed facilities and the monitoring of related Cooperative Endeavor Agreements.   |
| \$190,441 | Total Acquisitions and Major Repairs   |

**Objective: 3401-01** To provide programmatic leadership and direction to Louisiana's Developmental Disabilities Services System in a manner that is responsive to citizens' needs and results in effective and efficient delivery of services.

**Children's Budget Link** Children's Budget Link: Children's Budget Link: Linked to home and community-based and individualized services for people with developmental disabilities, specifically: expansion of community living options for people who reside in a supports and services center; and increased flexibility and self-direction in state supports for people with developmental disabilities living with their families.

**HR Policies Beneficial to Women and Families Link** Human Resource Policies Beneficial to Women and Families Link: This objective supports Act 1078 by providing access to and provision of health care services to women, infants, and children.

Other Links (TANF, Tobacco Settlement, Workforce Development Commission, or Other) Other Links (TANF, Tobacco Settlement, Workforce Development Commission, or Other): Links to Louisiana Health Care Reform Act through activities/strategies in six broad focus areas: Providing Care to the Uninsured, Creating Access to Appropriate Health Care Resources, Improving and Restructuring the Long-Term Care in Louisiana, Improving Health Education and Awareness, Improving Administrative Delivery of Health Care, and Focusing on Performance Outcomes Using Evidence-Based Principles. Links to OCDD Business Plan through activities/strategies in three broad focus areas: Employment First for Citizens with Developmental Disabilities - Real Jobs with Real Wages; Sustainable Home and Community-Based Supports and Services - Moving from a Service Life to a Community Life; and Systems Rebalancing for People with Developmental Disabilities - Promoting Community, Affordability and Sustainability.

# 3402-Community-Based

### **Program Authorization**

This program is authorized by the following legislation:

• R.S. 28:451.1-455.2 and R.S. 28:821 - 824.

### **Program Description**

The mission of the Community-Based Program is to effectively and efficiently implement community-based programs in a manner that is responsive to people with developmental disabilities and their families and that promotes independence, participation, inclusion, and productivity at home and in the community through an array of services and supports that include utilization of natural supports.

The goals of the Community-Based Program are:

- I. To develop and manage in a fiscally responsible way the delivery of an array of community-based supports and services so that people with developmental disabilities achieve their person-centered or family-driven outcomes in the pursuit of quality of life, well-being, and meaningful relationships.
- II. To increase community capacity and competence in a manner consistent with evidence based practice and national standards of care in order to meet the identified needs of people with developmental disabilities, including the capacity of families, government agencies, and community organizations and businesses, as well as the capacity of those providing specialized disability supports and services.

The Community-Based Program includes the following activities:

- Central Office: This activity provides statewide oversight, management or administrative support for the delivery of state developmental disability services. This oversight, management or support includes the delivery of individualized community-based supports and services, programmatic management of Home and Community-Based (HCBS) waiver services funded through the Medicaid Program, and support through assessment, information/choice, planning, and referral, in a manner that affords opportunities for people with developmental disabilities to achieve their personally defined outcomes and goals. Community-Based services and programs include, but are not limited to, Flexible Family Funds, Individual and Family Support, State-Funded Case Management, Pre-Admission Screening and Resident Review (PASRR), Intermediate Care Facility for Persons with Developmental Disabilities (ICF/DD) Certification, Single Point of Entry, Early Steps and waivers (New Opportunities Waiver, Children's Choice Waiver, Supports Waiver, and Residential Options Waiver).
- **EarlySteps:** This is Louisiana's early intervention system for children ages birth to three years of age with disabilities and/or developmental delays. Services provided include: audiology, speech-language therapy, occupational therapy, physical therapy, special instruction, assistive technology, service coordination, medical evaluation, health services, nursing services, vision services, social work services, psychology services, family training, nutritional services, and transportation.
- **Money Follows the Person:** This activity provides for the administration of the Money Follows the Person Rebalancing Demonstration Grant. Functions include direct contact with persons in facilities to discuss transition options, facilitate planning for transition, provide financial supports and linkages for transition, and to monitor the service recipient after transition for one year, measuring and ensuring goals related to health, welfare, and quality of life are met.
- Screening for Urgency of Need (SUN): This activity provides staffing and support for completion of the screening tool that is utilized to determine if a person with an OCDD Statement of Approval has unmet needs that can be supported through OCDD Medicaid Home and Community Based Waiver Services as well as the urgency of these unmet needs. This activity is critical to the operation of the OCDD 1915c Medicaid Waivers because waiver offers are made to those individuals who are found to have urgent and emergent needs based

on this screening tool. Everyone who is identified as having this level of need receives a waiver offer; therefore, there is not a waiting list for OCDD waiver services.

### **Source of Funding**

The Community-Based Support Program is funded with the following:

- State General Fund (Direct)
- Interagency Transfers derived from the Louisiana Department of Health, Medical Vendor Payments Program, for services provided to Medicaid-eligible individuals. These funds support the Money Follows the Person Demonstration Grant activities.
- Fees and Self-generated Revenues are derived from:
  - EarlySteps Family Cost Participation receipts.
  - The sale of Lions Club license plates.
- Statutory Dedications Fund is Disabilities Services Fund (R.S.28:826).
- Federal Funds are derived from Title XIX funds received The Federal Funds are available from Part C of the Individuals with Disabilities Education Improvement Act (IDEA).

Per R.S. 39:36B. (8), see table below for a listing of expenditures out of each Statutory Dedication Fund.

# **Adjustments from Existing Operating Budget**

| General Fund      | Total Amount | Table of<br>Organization | Description  |

|             | Professional Services   |
| \$8,622,485 | EarlySteps - Direct support and therapy services to children and families enrolled in Louisiana's EarlySteps Program. |
| \$8,622,485 | TOTAL PROFESSIONAL SERVICES   |

# **Other Charges**

| Amount       | Description   |
|--------------|---|
|              | Other Charges:  |
| \$184,215    | Central Office, Transitional Expenses Planning and Approval (TEPA). TEPA expenditures provide for one-time transtional expenses used to assist people aged 18 years or older who have chosen to move from a public or private ICF/DD to a home or apartment of their own with New Opportunities Waiver (NOW) services.  |
| \$57,580     | Central Office, Specialized Services. These services include those that assist people diagnosed with an Autism Spectrum disorder and their families, services that transition individuals from institutions who want to live in the community. Services also promote a strategic approach to providing person-centered, appropriate, needs based, quality of care and quality of life services and a quality management strategy that ensures the provision of and improvement of such services in both home and community-based settings.  |
| \$7,500      | Central Office, Lions Club  |
| \$61,613     | Central Office, Advocacy, peer monitoring and support and training services   |
| \$108,838    | Central Office, Guardianship Services - These services protect the legal and social independence of individuals with developmental disabilities. Provides for assigned guardians who make medical, financial and legal decisions for the individuals, and serve as the spokesperson for individuals with developmental disabilities, in order to protect legal rights, when no family member is available.  |
| \$19,503,325 | EarlySteps - EarlySteps is Louisiana's early intervention system for children ages birth to three years of age with disabilities and/or developmental delays. Supports are provided according to the requirements of the Individuals with Disabilities Education Improvement Act (IDEA), Part C. The following services are provided: audiology, speech/language, occupational and physical therapy, special instruction, assistive technology devices and services, family support coordination, medical and health services, nursing services, nutrition, vision services, social work services, psychology services, family training and transportation.   |
| \$1,039,685  | Money Follows the Person. The Money Follows the Person (MFP) activity represents the OCDD implementation of the federal MFP Rebalancing Demonstration grant herein implemented as My Place Louisiana. Services are provided to individuals who qualify for assistance under the federal MFP Rebalancing Demonstration Grant, first awarded to Louisiana in 2007. The Federal program is designed to assist Medicaid in improving both the long-term care system and the transition process. The Medicaid program office works with both OCDD and the Office of Aging and Adult Services to implement the demonstration program. Louisiana is one of forty participating states and the District of Columbia. The funds are available as IAT-Revenues from Medicaid. |
| \$122,234    | Screenings for Urgency of Need (SUN). This expenditure provides for urgency of need screenings for persons on the Request for Services Registry (RFSR) to determine a prioritization for access for 1915c Home and Community Based Services. This initiative for both OCDD and LDH was established based on feedback from stakeholder groups, collaboration with internal LDH stakeholders, and research on best practices.   |
| \$21,111,990 | SUB-TOTAL OTHER CHARGES   |
|              | Interagency Transfers   |
| \$112,534    | Office of Technology Services - Telephone Services  |
| \$8,000      | Postage and Printing  |
| \$7,297      | Uniform Payroll System (UPS)  |
| \$113,859    | Governor's Office - State Interagency Coordinating Council for Early Steps  |
| \$48,561     | Civil Services Fees   |
| \$73,526     | Office of State Buildings and Grounds   |
| \$239,942    | Office of Technology Services (OTS)   |
| \$603,719    | SUB-TOTAL INTERAGENCY TRANSFERS   |
| \$21,715,709 | TOTAL OTHER CHARGES   |

# **Acquisitions and Major Repairs**

| Amount   | Description                     |  |  |
|--|---------------------------------|--|--|
|  | Acquisitions and Major Repairs: |  |  |
| This program does not have funding for Acquisitions and Major Repairs. |                                 |  |  |
|  |                                 |  |  |

**Objective: 3402-01** To provide effective and efficient management, delivery, and expansion of waiver and state-funded community programs and to optimize the use of natural and typical community resources in order to promote and maximize home and community life and prevent and reduce institutional care.

**Children's Budget Link** Children's Budget Link: Linked to home and community-based and individualized services for people with developmental disabilities, specifically: expansion of community living options for people who reside in a supports and services center; and increased flexibility and self-direction in state supports for people with developmental disabilities living with their families.

**HR Policies Beneficial to Women and Families Link** Human Resource Policies Beneficial to Women and Families Link: This objective supports Act 1078 by providing access to and provision of health care services to women, infants, and children.

Other Links (TANF, Tobacco Settlement, Workforce Development Commission, or Other) Other Links (TANF, Tobacco Settlement, Workforce Development Commission, or Other): Links to Louisiana Health Care Reform Act through activities/strategies in six broad focus areas: Providing Care to the Uninsured, Creating Access to Appropriate Health Care Resources, Improving and Restructuring the Long-Term Care in Louisiana, Improving Health Education and Awareness, Improving Administrative Delivery of Health Care, and Focusing on Performance Outcomes Using Evidence-Based Principles. Links to OCDD Business Plan through activities/strategies in three broad focus areas: Employment First for Citizens with Developmental Disabilities - Real Jobs with Real Wages; Sustainable Home and Community-Based Supports and Services - Moving from a Service Life to a Community Life; and Systems Rebalancing for People with Developmental Disabilities - Promoting Community, Affordability and Sustainability.

### **Program Authorization**

This program is authorized by the following legislation:

• R.S. 28:451.1-455.2, 28:451.4, and 40:2180-2180.5

### **Program Description**

The Pinecrest Supports and Services Center provides for one (1) budget activity: Pinecrest Supports and Services Center (PSSC).

The mission of PSSC is to support people with intellectual and developmental disabilities to reach treatment goals and to return to more integrated community living settings. The PSSC specializes in the treatment of people with comorbid intellectual and developmental disabilities and complex medical, behavioral, and psychiatric support needs.

The goals of PSSC are:

- I. To provide specialized residential services to individuals with intellectual and developmental disabilities and comorbid complex medical, behavioral, and psychiatric needs in a manner that supports the goal of returning or transitioning individuals to community-based service options.
- II. To provide services in a manner that is efficient, effective and supports choice, dignity, and quality of life.

PSSC manages one of two large state-operated supports and services centers, a 24-hour active treatment facility, as part of Louisiana's continuum of developmental disability services. Following Title XIX (Medicaid) regulations, the center's comprehensive services and supports are administered by direct support, professional, health care, support and administrative staff and contracted specialty medical services. This activity supports the effort to re-balance expenditures inclusive of emphasis on shifting from institutional to community services consistent with national norms.

### **Source of Funding**

The Pinecrest Supports and Services Center Program is funded with Interagency Transfers derived from the Title XIX funds received from the Louisiana Department of Health, Medical Vendor Payments Program, as reimbursement for services to Medicaid-eligible residents.

# 3409-Central Louisiana Supports and Services

### **Program Authorization**

*This program is authorized by the following legislation:* 

• R.S. 36:259

### **Program Description**

The Central Louisiana Supports and Services Center (CLSSC) Program provides for four (4) facility related activities: Administration, Healthcare, Instructional, and Residential. The 24-hour active treatment facility operates as Louisiana's continuum of developmental disability services to provide specialized residential services to individuals with intellectual and developmental disabilities in a manner to support choice, dignity, and quality of life.

The goal of the CLSSC is to maintain all operations of the center, provide health care specific to the individual and to provide training to maximize the independent capabilities of each resident, and provide training through independent living and habilitative objectives individualized to develop and/or maintain daily living skills.

The CLSSC formerly operated as the Louisiana Special Education Center (LSEC). Act 290 of the 1948 Regular Session of the Legislature established the Louisiana Special Education Center. Act 411 of the 2019 Regular Session of the Legislature transferred the facility to the Louisiana Department of Health (LDH) and renamed "Central Louisiana Supports and Services Center".

The CLSSC Program includes the following activities:

- The Administration activity is responsible for the overall management, maintenance, fiscal administration, and human resource activities for the facility.
- The Healthcare activity provides individual medical care to residents who are medically fragile and orthopedically impaired.
- The Instructional activity is responsible for providing the training necessary to maximize the independent capabilities of each resident.
- The Residential activity is responsible for the direct care of the residents on a 24 hour, seven day a week basis. These specially trained employees guide residents in activities of daily living to promote independence.

### **Source of Funding**

The Central Louisiana Supports and Services Center Program is funded with the following:

- Interagency Transfers derived from Title XIX funds received from the Louisiana Department of Health, Medical Vendor Payments Program, as reimbursement for educational services to residents receiving active treatment services.
- Fees and Self-generated Revenue are derived from the sale of employee meals and the Pelican Cafe to finance the operation of the canteen.

# 340V-Auxiliary Account

### **Program Authorization**

This program is authorized by the following legislation:

• R.S. 451.1-455.2.

### **Program Description**

The mission of the Auxiliary Account activity is to support people with developmental disabilities residing at the Pinecrest Supports and Services Center with quality of life through the attainment of personal goals.

The goal of the Auxiliary Account is:

I. To provide individually determined supports and services to the residents of the Pinecrest Supports and Service Center through a growing and diverse range of community options and resources.

The Auxiliary Account includes the following single activity:

• The Auxiliary Services program provides the funding mechanism to provide residents of the state-operated supports and services center with both paid work opportunities and/or therapeutic activities as recommended by their treatment teams.

# 3501-Office on Women's Health and Community Health

### **Program Authorization**

The Office on Women's Health and Community Health was created within the Louisiana Department of Health per Act 676 (Senate Bill 116) of the 2022 Regular Legislative Session.

### **Program Description**

The Office on Women's Health and Community Health will serve as a clearinghouse, coordinating agency, and resource center for women's health data and strategies, services, programs, and initiatives that address women's health-related concerns.

The goals of the Office on Women's Health and Community Health are:

- I. To create an agency-wide shared agenda within the Department and strategic plan for advancing key issues affecting women's health.
- II. To operationalize community engagement and health equity best practices and standards agency wide.

The Office on Women's Health and Community Health includes two activities: Office of Women's Health and Office of Community Health.

#### Office of Women's Health:

The Office of Women's Health is responsible for leading and coordinating efforts within the Louisiana Department of Health that are intended to improve women's health outcomes through policy, education, evidence-based practices, programs, and services.

### **Office of Community Health:**

The Office of Community Partnerships & Health Equity (OCPHE) works to support Louisiana Department of Health's public health professionalism by supporting the operationalizing and monitoring of community engagement and health equity best practices and protocols.

# 09-375-Imperial Calcasieu Human Services Authority

## **Agency Description**

The mission of Imperial Calcasieu Human Services Authority (ImCal HSA) is to ensure that citizens with mental health, addictions, and developmental challenges residing in the parishes of Allen, Beauregard, Calcasieu, Cameron, and Jefferson Davis are empowered, and self-determination is valued such that individuals live satisfying, hopeful, and contributing lives.

The Imperial Calcasieu Human Services Authority shall adhere to the principles of effectiveness, efficiency, and egalitarianism. The ImCal HSA shall maintain objective data derived from evidence-based practices and implementation efforts that rationally explain its efforts to maximize all resources within its control.

Individuals receiving services will have access to evidence based services that are responsive to their needs and cost effective so that:

- I. Individuals with acute illnesses are able to rapidly resume optimal functioning
- II. Individuals with chronic illness may live in a safe environment that encourages personal growth
- III. Youth and Families strengths and resilience are enhanced
- IV. The voice of and collaboration with Individuals in the community is enhanced

ImCal HSA will make use of best practices in implementing, evaluating, monitoring, modifying existing services so that quality is assured, services meet the needs of those served, and the variety of services available adequately address the range of behavioral health issues identified, or that services are further developed to address service gaps.

For additional information, see:

Imperial Calcasieu Human Services Authority

# 3751-Imperial Calcasieu Human Services Author

## **Program Authorization**

Imperial Calcasieu Human Services Authority is organized under the following provisions of the Louisiana Revised Statutes (LSA-RS): R.S. 373; R.S. 28:911; Act 73 of the 2017 Louisiana Regular Legislative Session; Act 373 of the 2008 Regular Legislative Session; and related statutes.

## **Program Description**

The Imperial Calcasieu Human Services Authority program includes the following activities:

- Administration The Imperial Calcasieu Human Services Authority was created by Act 373 in the 2008 Legislative Session for the parishes of Beauregard, Allen, Calcasieu, Jefferson Davis and Cameron. LDH, its program offices and the Louisiana Legislature have created a statewide integrated human services delivery system with local accountability and management to provide behavioral health and developmental disabilities services. These local human service systems are referred to as local governing entities (LGEs). The ImCal HSA local governing entity operates within a framework with clear policy objectives, well defined local roles and responsibilities, and measures to assure accountability, effectiveness and efficiency in the delivery of quality services to individuals within the ImCal HSA service area.
- Behavioral Health ImCal HSA provides a comprehensive system of services addressing the ongoing Behavioral Health needs of individuals with mental, substance use or emotional/behavioral disorders in the community via direct program operation or provision of funding for services through contractual agreements. ImCal HSA operates outpatient and intensive outpatient behavioral health programs which provide mental health and addictive disorder services for children, adolescents and adults. The scope of core services provided within these programs include screening, triage, and referral; psychosocial assessment and psychiatric evaluation; person-centered treatment planning; individual and group counseling; psycho-education; medication management; peer support groups, comprehensive transition and discharge planning. Lake Charles Behavioral Health Clinic, the largest of the clinics within ImCal HSA also provides primary care services through SAMHSA Primary Care and Behavioral Health Integration Contracted services include substance abuse prevention, intensive and non-intensive residential addiction services, case management, housing, crisis intervention and referral, community based treatment and support services, outreach and referral for homeless or other underserved populations, and consumer care resources to provide financial support to clients and families. All Behavioral Health clinics in the Imperial Calcasieu Human Services Authority participate as Medicaid Application Centers for persons requesting services.
- Developmental Disabilities ImCal HSA provides core services for individuals with Developmental Disabilities which consist of serving as the Single Point of Entry (SPOE) into the Developmental Disabilities (DD) Services System and providing support coordination services to individuals and their families through DD and other available community resources. DD services include the assessment of needs for support and services, development of individual plans of support, making applicable referrals, and providing ongoing coordination for the individual's support plans. Targeted services are centered on Home and Community-Based Services Waiver programs and Federal criteria which allow services to be provided in a home or community-based setting for the recipient who would otherwise require institutional care. The Family Support Program is designed to assist individuals whose needs exceed those normally used resources in the community, and other natural resources available. Individual and Family Supports include but are not limited to: respite care, personal assistance services, specialized clothing, such as adult briefs, dental and medical services not covered by other sources, equipment and supplies, communication services, crisis intervention, specialized utility costs, specialized nutrition, and family education. The Flexible Family Fund Program is intended to assist families with children with severe or profound disabilities to offset the extraordinary costs of maintaining their child in their own home.

The program provides a monthly stipend to families of children who have qualifying exceptionalities identified through their local educational authority.

## **Acquisitions and Major Repairs**

| Amount | Description |  |
|--------|-------------|--|
|--------|-------------|--|

This agency has no funding for Major Repairs or Acquisitions

**Objective: 3751-01** Through administrative activity, Imperial Calcasieu Human Services Authority will develop policies and procedures that govern the provision of services, to ensure accountability of those quality services to individuals served throughout the ImCal HSA catchment area each year through June 30, 2025.

**Children's Budget Link** Imperial Calcasieu Human Services Authority services for children are related to the health policy outlined in the Children's Budget Link which mandates that all Louisiana children will have access to comprehensive healthcare services, and are linked via the Imperial Calcasieu Human Services Authority agency's budget.

## 09-376-Central Louisiana Human Services District

## **Agency Description**

The mission of the Central Louisiana Human Services District is to increase public awareness of and to provide access for individuals with behavioral health and developmental disabilities to integrated community based services while promoting wellness, recovery and independence through education and the choice of a broad range of programmatic and community resources. Central Louisiana Human Services provides behavioral health and developmental disabilities services for the parishes of Grant, Winn, LaSalle, Catahoula, Concordia, Avoyelles, Rapides and Vernon.

The goals of the Central Louisiana Human Services District are:

- I. To provide behavioral health and developmental disabilities services that consumers, their families and communities want, in a manner which provides them quick and convenient entry into services.
- II. To ensure that services provided are responsive to client concerns, integrated in service delivery methods, representative of best practice, and consistent with the goals of the Louisiana Department of Health and its Program
  Offices.
  - To promote healthy, safe lives for people by providing leadership in educating the community on the importance of prevention, early detection and intervention, and by facilitating coalition building to address localized community problems.

For additional information, see:

### 3761-Central Louisiana Human Services Distric

## **Program Authorization**

Central Louisiana Human Services District is organized under the following provisions of the Louisiana Revised Statutes (LSA-RS): R.S. 28:913; R.S. 28:911; Act 73 of the 2017 Louisiana Regular Legislative Session; Act 373 of the 2008 Regular Legislative Session; and related statutes.

## **Program Description**

The Central Louisiana Human Services District program includes the following activities:

The Central Louisiana Human Services District was created by Act 373 in the 2008 Legislative Session for the parishes of Grant, Winn, LaSalle, Catahoula, Concordia, Avoyelles, Rapides and Vernon. Central Louisiana Human Services District has received 3 year national accreditation with CARF for its behavioral clinics sites within the region and seeks to maintain the standards of care that are set forth by the CARF accreditation agency for the programs that have been approved for accreditation.

The mission of the Administration Activity is to ensure the functioning of the organization at an optimum level of performance in administrative and programmatic quality, while meeting federal, state and other regulatory authorities' guidelines.

The Goal of the Administration activity is to oversee and direct the provision of behavioral health and developmental disabilities services in the District. The framework for LGEs consists of clear policies, goals and objectives, well defined local roles and responsibilities, performance measures that assure accountability for the quality of service delivery and are instrumental in assessing the relative efficiency and effectiveness of public systems. In addition to the management for quality performance of the organization, the administrative activity provides management of fiscal, human resource, technology, safety, and risk management oversite activities of the organization.

Behavioral Health is an activity that includes services provided to Mental Health and Addictive Disorders populations. All Behavioral Health clinics in the Central Louisiana Human Services District serve as Medicaid Application Centers for persons requesting services. CLHSD provides behavioral health and developmental disability services for the residents of Avoyelles, Catahoula, Concordia, Grant, LaSalle, Rapides, Vernon and Winn parishes.

- Behavioral Health (Mental Health) The current budget for mental health services in the Central Louisiana Human Services District catchment area provides for outpatient clinic services for children over the age of six, adolescents, and adults. Core services include screening, assessment, crisis evaluation, individual, group and family counseling and medication management which includes administration, education and screening for people with co-occurring disorders. Contracted services include: Intensive Case Management Services, evidence-based practices such as Assertive Community Treatment, housing and employment assistance.
- Behavioral Health (Addictive Disorders) The District provides Outpatient and Intensive Outpatient (IOP) services for Adults. Inpatient services are offered via contracted programs serving adults and adolescents. Prevention services for addictive populations are implemented by contract providers. The mission of the Behavioral Health Activity is to provide access to a comprehensive, integrated, person-family centered system of prevention and treatment services. The services are designed to promote recovery and resilience, have a positive impact on the individual and its community, and culturally and clinically competent. Also, these services are delivered in partnership with stakeholders.
- The mission of the Developmental Disabilities activity is to assess the need for support and services of developmentally disabled clients and to develop individual plans that will meet those needs, including referrals and coordination of appropriate services. Developmental Disabilities core services consist of serving as the Single Point of Entry (SPOE) into the Developmental Disabilities (DD) Services System and providing support coordination services to individuals and their families through DD and other available community resources. Staff

members assess the needs for support and services, develop individual plans of support, make applicable referrals, and provide ongoing coordination for the client's support plans. Targeted services are centered on Home and Community-Based Services Waiver programs and Federal criteria which allow services to be provided in a home or community-based setting for the recipient who would otherwise require institutional care. The Family Support Program is designed to assist individuals whose needs exceed those normally used resources in the community, and other natural resources available. Individual and Family Supports include but are not limited to: respite care, personal assistance services, specialized clothing, such as adult briefs, dental and medical services not covered by other sources, equipment and supplies, communication services, crisis intervention, specialized utility costs, specialized nutrition, and family education. The Flexible Family Fund Program is intended to assist families with children with severe or profound disabilities to offset the extraordinary costs of maintaining their child in their own home. The program provides a monthly stipend to families of children who have qualifying exceptionalities identified through their local educational authority.

## 09-377-Northwest Louisiana Human Services District

## **Agency Description**

The mission of the Northwest Louisiana Human Services District (NLHSD) is to increase public awareness of and to provide access for individuals with behavioral health and developmental disabilities to integrated community based services while promoting wellness, recovery and independence through education and the choice of a broad range of programmatic and community resources.

The goals of the Northwest Louisiana Human Services District are:

- I. To assure the services of the NLHSD are being performed within the expectations set forth in the NLHSD Board Governance Policy Manual. This includes assuring individuals have access to evidence-based, cost-effective services that are responsive to their needs so that, individuals with acute illnesses can rapidly resume optimal functioning, individuals with chronic illness may focus on hope, empowerment, and personal growth so that self determination leads to safe choices and positive lifestyle decisions, and youth, adults and family strengths are emphasized and recovery and resilience are enhanced.
- II. Maintain a trained and effective leadership team at the Board and District level
- III. Maintain Commission on Accreditation of Rehabilitation Facilities (CARF) accreditation to ensure quality outcomes for the persons we serve, maintain ability to receive Medicaid reimbursement and utilize techniques that are efficient, cost-effective, and based on outcomes and consumer satisfaction.
- IV. Maximize financial viability so that the District is less dependent on State General Funds (SGF) and Block Grant Funds for the provision of services.
- V. Ensure the health and safety of individuals receiving home and community based waiver services.
- VI. Ensure state general fund dollars are used in an efficient and effective manner to best serve individuals with developmental disabilities.

For additional information, see:

## 3771-Northwest Louisiana Human Services Distr

## **Program Authorization**

Northwest Louisiana Human Services District is organized under the following provisions of the Louisiana Revised Statutes (LSA-RS): R.S. 373; R.S. 28:911; Act 73 of the 2017 Louisiana Regular Legislative Session; Act 373 of the 2008 Regular Legislative Session; and related statutes.

## **Program Description**

The Northwest Louisiana Human Services District program includes the following activities:

- Administration Northwest Louisiana Human Services District was created by Act 373 of the 2008 Legislative Session as part of a statewide integrated human services delivery system with local accountability and management to provide behavioral health and developmental disabilities services. These local human service systems are referred to as local governmental entities (LGEs) and feature practices such as a framework anchored in clear policy objectives, well-defined local roles and responsibilities, and measures to assure accountability of delivering quality services to consumers that assist in determining the relative efficiency and effectiveness of public systems. Northwest Louisiana Human Services District completed the formation process in 2014 and now serves the parishes of Caddo, Bossier, Webster, Claiborne, Bienville, Red River, Desoto, Sabine and Natchitoches. Administrative services include board governance, executive management, human resources, fiscal services, and operations. The Northwest Louisiana Human Services District is the state's safety-net behavioral health service provider for the uninsured and underinsured in our service area and fiscal services bills for reimbursable services provided to clients insured by Medicaid, Medicare, and other insurance companies or contracted entities.
- Behavioral Health Northwest Louisiana Human Services District provides community behavioral health services to help individuals and families reach their greatest potential. All individuals requesting services are provided equal access regardless of their payment source. A comprehensive array of mental health, addiction and co-occurring services are provided to its identified targeted population of children and adolescents ages 5 through 18, with severe emotional or behavioral disorders or addictive disorder and adults with mental health, addictive or co-occurring disorders. The target population for adults is those individuals with major mental disorders who meet functional assessment criteria under the 1915(i) state plan and individuals requesting medically necessary substance use services. Accessibility of service to persons in need and continuity of care between one service component and another is an integral part of the service delivery system. Northwest Louisiana Human Services District catchment area provides behavioral health services through four outpatient clinics. Outpatient clinic based services include: Information/Referral, Screening/Assessment/Evaluation, Nursing (Injections, HIV, STD and Pregnancy Testing), Individual, Family and Group Counseling, Community Psychiatric Support and Treatment (CPST), Medication Management, Outpatient and Intensive Outpatient Addiction Treatment Services, Co-Occurring Group Therapy, Peer Support Services, Pharmacy Services and Laboratory Services. Contracted mental health services include evidence-based practice Assertive Community Treatment Services, Case Management Services, Homeless Outreach, Mobile Crisis Services, Consumer Care Resources, Transportation and Supported Housing. Contracted addiction services include Primary Prevention, Residential Adult Treatment, Inpatient Adolescent Treatment and Gambling Treatment (Outpatient, Intensive Outpatient and Inpatient). Service delivery includes full participation in the specialized behavioral health services through the Healthy Louisiana Plans. All Behavioral Health clinics in the Northwest Louisiana Human Services District participate as Medicaid Application and Voter Registration Centers for persons requesting services.
- Developmental Disabilities Developmental Disabilities serves as the Single Point of Entry (SPOE) into the
  Developmental Disabilities (DD) Services System. Support Coordination services are provided to individuals
  and their families through DD where staff members are assigned cases and assess the needs for support and

services, develop individual plans of support, make applicable referrals, and provide ongoing coordination for individual support plans. Services through the Home and Community-Based Waiver programs allows services to be provided in a home or community-based setting for the recipient who would otherwise require institutional care. This program is Medicaid funded and allows people greater flexibility to choose where they want to live and choose services and supports that best suit their individual needs. The Individual and Family Support Program is designed to assist individuals whose needs exceed those normally met by use of existing resources in the community, and other natural resources available. IFS provides assistance to individuals that are not available from other resources which will allow people with developmental disabilities to remain in their home or with family in the community. Individual and Family Supports services include but are not limited to: respite care, personal care assistance, specialized clothing such as adult briefs, dental and medical services, equipment and supplies, communication devices, crisis intervention, specialized utility costs, and specialized nutrition. The Flexible Family Fund Program is intended to assist families with children with severe or profound developmental disabilities to offset the extraordinary costs of maintaining their child in their own home. The program provides a monthly stipend to families of children under the age of 18 who have a qualifying exceptionality identified through their local educational authority.
