AGENCY NUMBER AND NAME: 662 - Louisiana Educational TV Authority

AGENCY MISSION:

The mission of the Louisiana Educational Television Authority (LETA) is to provide programming that is intelligent, informative, and educational. LETA strives to connect the citizens of Louisiana by creating content that showcases Louisiana's unique history, people, places, and events.

AGENCY GOALS:

- I. To maintain and enhance Louisiana's role as a nationally recognized leader in emerging television, digital, and educational technologies.
- II. To further the educational and cultural enrichment of the citizens of Louisiana through the production and presentation of exceptional content.
- III. To provide vital emergency information to all of the citizens of Louisiana during natural disasters and other times of crisis.
- IV. To administer the Imagination Library of Louisiana.

STATEMENT OF AGENCY STRATEGY FOR DEVELOPMENT OF HUMAN RESOURCE POLICIES THAT ARE HELPFUL AND BENEFICIAL TO WOMEN AND FAMILIES:

For employees, LETA provides assistance to women and families through its personnel policies which include policies on family/medical leave, flexible working hours, crisis leave, and more. Flu clinics, Catapult Health agency office visits, and safety trainings are also offered to employees. LETA provides ongoing emphasis to assist women and families in the areas of education, outreach and related activities which are carried out via LETA's statewide network, Louisiana Public Broadcasting.

LPB participates in Well-Ahead Louisiana, a program of Louisiana Department of Health/Office of Public Health that offers all employees online resources that support individual health and wellness and includes agency policies that encourage healthy choices and lifestyles.

LPB conducts educational programs which provide parenting education for parents/caregivers to address the needs of young children. Programs emphasize education, parenting skills, appropriate use of technology & digital media, and related subjects designed to enhance educational and social development, and overall health of young children and their families. During COVID-19, LPB developed an "at-home learning" website for families and educators to help them seamlessly access quality educational resources. These resources remain accessible to all at lpb.org/at home. Webinars are scheduled quarterly to help families and educators navigate and learn how to use the variety of helpful resources LPB provides. LPB offers children's programming from 5 AM to 5 PM weekdays, mornings to 9 AM on weekends on its main channel, as well as 24/7 on its LPB PBS KIDS channel.

LPB seeks to build better communities by supporting teachers on multiple levels with educational resources and content, as well as professional development workshops. Through PBS LearningMedia, Discovery Education and the Louisiana Digital Media Archive, teachers have access to a rich array of standards-aligned digital resources and content designed to capture students' attention and imaginations and make learning in classrooms transformational. These resources include state-focused history and cultural content, as well as online professional development opportunities. LPB is partnering with Bright By Text to deliver parenting tips and resources proven to positively impact a child's healthy development and school readiness through the direct text messaging to parents and caregivers.

Monthly newsletters are distributed by LPB to parents and educators to keep them aware of upcoming children's programming, as well as provide fun at-home and school activities, development tips and educational resources to help children get ready for school.

LPB works closely with the Governor's Office, other state agencies and non-profit organizations to keep the public informed of matters consequential to health and safety. This has included

providing the public with emergency coverage throughout the COVID-19 pandemic and during weather related crisis, in addition to offering the educational resources and programming upon which they also depend.

LPB's local productions also assist women and families by addressing issues that are important to them. For example, Louisiana Spotlight and Louisiana: The State We're In, LPB's news and public affairs programs, address a wide range of subjects important to the public including legislation, education, health and wellness, as well as environmental issues.

LPB's Digital Studios partnered with Our Lady of the Lake Children's Health to produce the series, One to Grow On, featuring tips for parents, expecting parents, grandparents and caregivers. These tips address prenatal health, mental wellness, safety issues, healthy eating and other important topics to help parents and caregivers raise happy and healthy children.

Another educational program developed by LPB's Digital Studios is Ziggy's Arts Adventure, an educational puppet series for grades K-5 that teaches young learners fundamental academic concepts involving STEAM (science, technology, engineering, art, and math).

The Louisiana Young Heroes Program honors students in grades 9-12 who have inspired those around them, and have devoted their time, talents, and energy to making their schools, places of worship, and communities better places. The Young Heroes and their families are celebrated on Louisiana Young Heroes Day each spring and their stories appear statewide on Louisiana: The State We're In to serve as inspiration for others.

Question	Narrative Response
Explain the need for this request.	Replacement of existing 39 yr. old chiller that supplies air conditioning to LPB headquarters housing 59 employees, millions of dollars in temperature-sensitive broadcasting and network equipment, and leased space to two contractors with six employees. The current chiller is at the end of its operational life, and failed to start up automatically on a recent power outage during which the LPB headquarters' generators were engaged.
Cite performance indicators for the adjustment.	Failure to maintain temperate climate control could lead to catastrophic overheating of broadcasting equipment, negatively impacting performance indicator #4791 (Number of annual broadcast hours to exceed minimum federal requirement to maintain license) if broadcasting abilities are compromised and performance indicator #4803 (Number of local production hours) if staff cannot produce local programming due to unsafe work conditions, as well as performance indicator #20391 (Number of streaming views annually) if network equipment fails due to overheating.
What would the impact be if this is not funded?	In the event of a failure, lack of air conditioning in the building would present a safety issues for LETA staff and contractors who rent space from LETA and could lead to catastrophic overheating of broadcasting equipment (ineffective box fans would have to be deployed in LETA's master control room) and network equipment.
Is revenue a fixed amount or can it be adjusted?	The amount requested is an estimate based on a 90-day quote from the vendor.

Question	Narrative Response
Explain the need for this request.	LETA currently utilizes an inconsistent mix of digital thermostats and 30 year old pneumatic thermostats, which are not working properly, resulting in inconsistent heating and cooling within LPB's headquarters.
Cite performance indicators for the adjustment.	Failure to maintain a uniform heating and cooling system leads to an increase in costly repairs and inefficient electrical bills. And in the event of a failure of the pneumatic thermostat system, climate control issues could lead to catastrophic overheating of broadcasting equipment, negatively impacting performance indicator #4791 (Number of annual broadcast hours to exceed minimum federal requirement to maintain license) if broadcasting abilities are compromised and performance indicator #4803 (Number of local production hours) if staff cannot produce local programming due to unsafe work conditions, as well as performance indicator #20391 (Number of streaming views annually) if network equipment fails due to overheating.

Question	Narrative Response
Explain the need for this request.	Current studio cyclorama curtain, which forms the foundation of the background for in-studio local production work is below industry standard quality levels, which results in uneven background coverage. Upgrades to more energy efficient LED lighting in the studio cannot be fully realized by projecting onto the current Cyclorama.
Cite performance indicators for the adjustment.	#4803 (Number of local production hours) if Cyclorama curtain is not optimal, would reduce the functionality of Studio A, which could negatively impact the number of local production hours.
What would the impact be if this is not funded?	Uneven background coverage. Upgrades to more energy efficient LED lighting in the studio cannot be fully realized by projecting onto the current Cyclorama.

Explain the need for this request.	LETA's main network switch, which is used to connect LETA's IT devices together and communicate between users and LPB's antenna sites, is nearing obsolescence.
Cite performance indicators for the adjustment.	Failure of this equipment could hamper the interconnectivity of LETA's employees with each other, and the interconnectivity between LETA's computer network and its broadcasting equipment. Explain the need for this request.	New TVs are needed for LETA's dedicated edit suites where local productions are edited. Current TVs are 12 years old and pre-date 4K technological capabilities. New TVs would be Ultra High Def, 6K compatible, and would allow LETA producers and video editors to utilize broader color spectrums, allowing LETA to maximize investments and improvements made in the area of production computers.
Cite performance indicators for the adjustment.	Performance indicator #4803 (Number of local production hours) if staff cannot produce local programming that is up to industry technological standards that viewers expect.
What would the impact be if this is not funded?	Editing capabilities of LETA producers will be hampered and local productions might not compare favorably with industry standards in video production.

Question	Narrative Response
Explain the need for this request.	LETA's transmitter sites, including KLPB in Lafayette, rely on satellite dish to receive a backup broadcast signal from LETA master control in Baton Rouge, in the event that connection to the primary feed (fiber internet) is compromised. The KLPB satellite dish is 43 years old, experiencing rust corrosion, and has intermittent connectivity issues.
Cite performance indicators for the adjustment.	In the event of a failure of the KLPB Satellite Dish and fiber internet signal, this could negatively impact performance indicator #4791 (Number of annual broadcast hours to exceed minimum federal requirement to maintain license) in the Lafayette viewing area, as that area would be without broadcast coverage.
What would the impact be if this is not funded?	Lafayette viewers' ability to receive LETA's LPB signal could suffer.
Is revenue a fixed amount or can it be adjusted?	The amount requested is an estimate based on a 90-day quote from the vendor.
Is the expenditure of these revenues restricted?	Yes

Explain the need for this request.	LETA's transmitter sites, including KLTM in Monroe, have HVAC systems that maintain consistent temperatures for the staff inside, as well as the high value temperature-sensitive equipment inside. The HVAC system at KLTM is 27 yrs old, making total failure a possibility.
Cite performance indicators for the adjustment.	Failure to maintain temperate climate control could lead to catastrophic overheating of broadcasting equipment, negatively impacting performance indicator #4791 (Number of annual broadcast hours to exceed minimum federal requirement to maintain license) in the Monroe area.
What would the impact be if this is not funded?	In the event of a failure, lack of air conditioning in the building would present a safety issues for LETA staff and could lead to catastrophic overheating of broadcasting equipment and network equipment.
