Narratives

Disaster Damage:

Hurricanes Katrina and Rita's legacy to coastal Louisiana was an unprecedented wake of death, destruction and devastation. Taken together, 1,464 people lost their lives, more than 200,000 homes and 18,000 businesses were destroyed and billions of dollars in property was impacted. Hurricane Katrina approached New Orleans and the Louisiana-Mississippi state border on August 29, 2005 at a Category 5 level, and the fifth-strongest ever recorded hurricane. Before reaching land it was downgraded to a Category 3, but caused massive destruction and severe damage up to 76 miles east of the storm's center. Orleans, Plaquemines, and St. Bernard Parishes suffered widespread flooding as a result of storm surge overtopping or breaching area levees. Along the north shore of Lake Pontchartrain, up to six feet of water inundated the cities of Mandeville and Slidell. The City of New Orleans was under a mandatory evacuation for more than a month. Less than a month later on September 24, Hurricane Rita, the second strongest ever to enter the Gulf of Mexico came ashore, also as a Category 3, and flooded the coastal areas of southwestern Louisiana in the area around Lake Charles, impacting nearly a half million households. Hurricane Katrina will most likely be categorized as the third deadliest and the costliest storm in U. S. history. While hurricane Rita exacted a lower death toll, taken together, these storms wrought catastrophic destruction on the Louisiana coastal areas, exacting an enormous toll on the material, financial and emotional resources of hundreds of thousands of Louisianans. While the impact was wide-spread and indiscriminate of income and social status, the impact of the hurricanes on the poor was particularly devastating, especially in Orleans Parish where the U.S. Census in 2000 reports only a 46.5% homeownership rate (compared to 67.9% in the State), a median household income of \$27,133 (compared to \$32,566 in the State), and a poverty rate of 27.9% (compared to a state rate of 19.6%). In contrast, while Calcasieu, Cameron, Plaquemines and St. Bernard Parishes sustained major damage, they had higher homeownership rates (ranging between 71% and 85%), higher median incomes (ranging between \$34,000 and \$38,000) and lower poverty rates (12% to 18%). The concentration and number of persons in extreme poverty neighborhoods exacerbated the negative impact on the poor principally in New Orleans. According to the Brookings Institution (October 2005), one out of every four neighborhoods in the city of New Orleans was classified as an "extreme-poverty" neighborhood, with at least 40% of its residents living below the federal poverty threshold. These 47 neighborhoods were home to nearly 100,000 residents and had an average household income which lagged the City's by over \$17,000. The Congressional Research Service (CRS) calculates that the poverty rate in the flooded and damaged areas in the State of Louisiana was 21.4%, confirming the widespread sentiment that high poverty neighborhoods were disproportionately flooded (CRS, November 4, 2005). The social impacts were also greater for those most vulnerable before the storms. These individuals were less connected to the workforce, had educational disadvantages, were elderly or disabled, or were children. Nearly 90,000 persons aged 65 and older were likely displaced by the storms, many of whom lived alone and had at least one disability. Displaced aged persons also we

Disaster Damage:

re poor (an estimated 15%) and one quarter lacked vehicles. The child poverty rate in the areas affected by the hurricanes was over 30% (CRS, November 4, 2005). The fragility of the most affected populations places a greater burden on the federal, state and local resources available for recovery efforts. The poor standing of the impacted population before the hurricanes severely stretches Louisiana's state and local resources, making the need for federal assistance even more critical.

Recovery Needs:

The current and projected financial impact on Louisiana from Hurricanes Katrina and Rita has reached into the tens of billions of dollars, according to estimates from a number of groups, think tanks and government agencies. Given the extensiveness of the damage, there is a great deal of uncertainty regarding estimates of the impact on property, on governments and on the economy. The variation in the estimates of different organizations creates a greater challenge for the State in assessing its needs and the resources necessary to address those needs. For example, according to preliminary estimates from the Louisiana Recovery Authority (LRA), the Governor's State-wide coordinating

body for all recovery efforts, the 2005 hurricanes had an impact of \$75 - \$100 billion on property and infrastructure and \$15 - \$20 billion in temporary relief services. However, the Federal Emergency Management Agency (FEMA) projects an \$18 - \$25 billion impact on property and infrastructure. For the State's economy, the LRA states that the storms are expected to inflict from \$50 - \$70 billion in losses to Louisiana's economy (defined as nominal Gross State Product) and cause \$8 - \$10 billion in lost state and local revenue over the next five years. On the other hand, the Louisiana Legislative Fiscal Office projects a \$40 - \$60 billion impact on the economy and a \$4 - \$8 billion in lost revenues. Even before the hurricanes, the State was in a precarious situation, with many unmet needs in the areas of infrastructure, education, economic investment, health care and social services. The impact of the storms on the executive budget and on state revenues makes it even more difficult to deal with the critical needs caused by the hurricanes without substantial assistance from the federal government. According to FEMA, the total number of applicants for FEMA assistance related to hurricanes Katrina and Rita was 1.89 million as of January 10, 2006. These applicants have received individual level assistance such as clothing, food, and temporary housing as described below. Additional resources are needed for the estimated 900 families or 2,700 people that have exhausted the subsidized hotel room assistance as of February 7, 2006.

Activity Description:

Supports the administrative work conducted to implement disaster recovery projects funded with these resources. This includes technical assistance as well as general administrative costs.

Location Description:

Office of Community Development (OCD)

Activity Progress Narrative:

Corrections made on line items above entered incorrectly during the 3rd quarter of 2011. Total expended during the 3rd quarter of 2011 should have been \$4,134,463.74.

Prior period return for LA Solutions entered this quarter in the amount of \$1,545.93 and OCD return of \$434.70.

Laurie Brown
Data Manager

The Disaster Recovery Unit (DRU) of the Office of Community Development (OCD), Division of Administration (DOA), was created in the aftermath of the 2005 hurricanes Katrina and Rita. The DRU administers the CDBG Disaster Recovery funds approved by Congress on December 23, 2005; June 30, 2007; and January 15, 2008. Personnel were hired from around the United States, as well as within Louisiana, with experience in all aspects of CDBG programs. Managers and staff were retained in the areas of homeownership housing; multifamily, rental, and supportive housing; infrastructure; economic development; policy and reporting; legal; finance and auditing.

Experienced employees of the OCD-CDBG Program provide training as needed to newly hired. In addition, the OCD continues to supply CDBG training in partnership with the Council of State Community Development Agencies. The DOA's resources are available to augment the DRU with expertise in budgeting, accounting, contract review, and legal matters. The DRU is in close contact with the Louisiana Legislative Auditors, although the last contract (Agreed Upon Procedures) the DRU had with the Legislative Auditor Recovery Assistance Services (RAS) expired June 30, 2010. This contract was for RAS to review contractor invoices. RAS elected not to extend the services. The Division of Administration is currently conducting internal audits of the OCD/DRU.

At the close of this quarter, the OCD-DRU had 5 student workers, 96 full-time, 3 part-time. In July 2010, the DRU was authorized for 89 unclassified TO (table of organization) positions. Last year the Division froze 3 of the 89 positions bringing the TO count to 86. There are an additional 9 classified positions and 7 Non-TO positions. The administrative budget is used to fund salaries and related benefits, travel expenses, operating supplies and services, professional services, and inter-agency transfers. As the OCD-DRU further develops and implements program monitoring plans this quarter, travel expenses remain steady. The state follows the State Procurement Code. All sub-recipients are required to follow Title 24 Part 84 and Part 85. Monitoring plans are still being developed for the new disaster recovery activities funded under this program.

Activity Description:

Provides funding for technical assistance to the Office of Community Development for the administration of the disaster recovery program.

Location Description:

State technical assistance.

Activity Progress Narrative:

The LSNDL Statewide Administrators have been engaged in mandatory reporting for HUD, related to Shelter Plus Care APR, the Statewide HUD HPRP-QRP, AHAR, and the Point-in-Time Survey and data collection, as well as the 100,000 Homes Vulnerability Index since the first of the year. The status of the trainings, publishing of our website, have only slightly progressed since December 2011. We have identified some of the training needs via a cursory assessment, but feel a more structured inventory of training is warranted to complete our goals of training system-wide to maximize the data quality of the migrated systems and their providers. We are attempting to finalize those elements of training and their costs currently, in order to obligate via invoices from our vendors prior to June 30, 2012. The actual training and final implementation may extend past June 30, 2012, but we will expense the identified and accumulated costs by that prior agreed upon date.

Match Contributed	\$0.00	\$0.00

Activity Description:

Without special assistance being provided to local governments, it is expected that a major impediment to housing development will be the lack of building, electrical and plumbing inspectors and permit processing staff. In addition, architects and builders will need inspectors and plan reviewers to help communities adapt to the new State Uniform Construction Code and to interpret the latest available advisory base flood elevations. Therefore, the State has budgeted \$13,090,000 for the hiring and training of such staff for local government over a number of years, based on the numbers of damaged/destroyed units in each parish. It is expected that this amount will fund at least 70 field inspectors and plan reviewers, as well as a limited number of support staff. The State will also support the expansion of code enforcement capacity by sponsoring additional training opportunities for inspectors, engineers and architects. While building code enforcement by local authorities will be supported by permitting and inspection fees in the long run, this initial CDBG funding is necessary to immediately expand enforcement capacity to expedite the construction of safer and stronger homes where the storm impact was most concentrated. Until the activity is started, the exact number of buildings and housing units that are brought up to code is unknown.

Location Description:

Orleans Parish.

Activity Progress Narrative:

Nothing was expended on this activity this quarter. The amount above is reflective of errors made in the amounts loaded on QPRs beginning 10/1/2008, 4/1/2009, and 7/1/2009.

Activity Description:

This program provided temporary six-month working capital loan guarantees to owners of small businesses with less than 100 employees. There were three different releases of bridge loan funds. Each release varied slightly in how it was administered. The first bridge loan program was for \$10 million, the second totaled \$30 million and the last installment totaled \$55 million. The Bridge Loan program had no leverage requirement; therefore, information on the amount of private funds generated by the businesses is unavailable. The number of businesses reported could include businesses that have more than one bridge loan.

Location Description:

In Hurricanes Katrina and Rita affected parishes.

Activity Progress Narrative:

As of March 31, 2012, the State of Louisiana has paid out \$4,985,160.81 in defaulted bridge loans. The state has collected back \$2,786,029.42. The amount collected back is 55.8% of the amount paid out.

To date 77 businesses have defaulted on their bridge loans. They were subtracted out of the total businesses assisted.

Match Contributed	\$0.00	\$0.00

Activity Description:

The State developed a program to strengthen community-based nonprofits and/or faith-based institutions already providing housing recovery services through the investment of \$2,070,000 of CDBG funds in their activities. The funds will be used to provide housing counseling and outreach to homeowners accessing assistance under the Road Home homeowner assistance program, as well as those homeowners who have not yet completed a Road Home application. This CDBG funded activity will also be utilized for limited legal services to assist mostly low-income clients seeking assistance from the Road Home homeowner assistance program. Services to be provided shall be on a state-wide as-needed basis. Outreach and Housing Counseling assistance may be provided on a limited basis to displaced homeowners living out –state. A single non-profit organization will be selected through an RFP process to provide coordination and administrative oversight in the delivery of the legal services through that organization as well as through other qualified non-profit organizations. The successful proposer may either subcontract services through other non-profit organizations to be approved by the State or the proposer may be a consortium of non-profits with a single designated principal organization for contracting and management purposes. For the housing counseling services, the mechanism for making these services available will be through the use of a prime contractor that would be responsible for identifying and assembling a geographically diverse group of nonprofit partners who collectively could provide these services. The selected contractor would be required to provide the variety of assistance that is needed for the preparation of a Road Home application. This includes transportation needs for displaced homeowners in the rural area parishes of the state so that homeowners with transportation challenges can attend required entrance and closing interviews at the Homeowner Assistance Center. In addition, support and application assistance to individuals in the form of language translation for individuals that have language barriers as is many times the case with applicants who are native Spanish, Vietnamese and French language users. Literacy support for individuals with low literacy levels that will experience challenges in understanding program requirements and associated paperwork is necessary. Support for persons with physical disabilities that may hinder them from completing the application process must be provided. Lastly, general support and guidance to the elderly in completing their application is essential for them to achieve maximum benefit under the program. The assistance provided under this section may also include helping clients gather all supporting documents required to complete an application from any relevant source agencies. Provision of document fee support is an allowable expense up to a certain

limit. The performance measures on which we would like to report are as follows: # of Households Assisted (Face to Face Counseling) - LMI expected - 1,815 # of Households Assisted (Call Center) - LMI expected - 619

Location Description:

Disaster affected parishes

Activity Progress Narrative:

Closeout and final payment were delayed due to SLLS billing and invoicing issues. A third party forensic accountant was hired by the OCD-DRU to reconcile SLLS invoicing and billing issue. Additionally, the third party was also hired to recommend a final payment amount based on its independent review. Based on the recommendations of the third party review, the OCD-DRU issued a final payment request and recommendation letter to SLLS on April 30, 2010. Consequently, SLLS disputed the final payment received by the OCD-DRU and issued a public records request to review all communications and records pertaining to the OCD-DRU final payment recommendation. The OCD-DRU complied with the SLLS public records request in May, 2010. No additional correspondence has been received from SLLS by the Project Manager since the public records request. To date, this activity has not been officially closed out. There are no new updates to report since the May, 2010 public records request. All matters pertaining to the SLLS contract have been turned over to the OCD-DRU Executive Counsel.

Activity Description:

The Housing Development Loan Fund would provide seed funding for a contractor or state agency to establish one or more loan funds that offer acquisition and predevelopment financing on flexible terms to developers of the most critically needed housing. Providing early, high-risk capital will be a powerful incentive for developers to build mixed-income housing in the communities that lost the most housing. Loans would be made to nonprofit and for-profit developers of new rental and single-family housing that is affordable to families with incomes that are below the area median, with a strong preference for well-designed residential communities and infill housing developments that also include families with incomes higher than the area median. The Housing Development Loan Fund would be operated by a state agency or an experienced community development loan fund manager. A total of \$16,570,000 in CDBG funds, including fund management costs, will be invested as "top loss" capital in order to leverage an estimated \$30 million in additional lending capital. As two priorities, the loan fund would target developers participating in the rental assistance programs described in the previous section, as well as developers of mixed-income for-sale housing. As projects close their construction financing, the acquisition/predevelopment loans would be repaid and the lending capital would become available for additional investments. In a three-year period, it is expected that the funds will recycle two to three times. This program is scheduled to close 40 loans. During this quarter 1 loan was received, reviewed and completed. As currently planned, the Housing Development Loan Fund would be operated on a contractual basis by one or more qualified financial institutions that are experienced in providing early-stage, high-risk property acquisition and predevelopment loans, as an incentive for developers to rebuild existing housing or build new housing at different price points, including affordable homes and rental units. These types of loans are typically not offered by conventional lenders, but instead by the numerous so-called "community development loan funds" across the country. These loan funds are able to take higher risks in lending by attracting risk-tolerant capital and guarantees from foundations and socially motivated investors. The goal should be to lend the funds at 0% and to subordinate these loans to the private capital in order to provide a strong incentive for developers and to leverage private capital. Many such funds receive some of their capital as grants from the Community Development Financial Institutions (CDFI) Fund of the Department of Treasury. Congress specifically directed the states receiving supplemental CDBG funding should consider the use of up to \$20 million to fund recovery activities of two organizations that are experienced in operating such loan funds: Enterprise Community Partners, Inc., and Local Initiatives

Support Corporation.

Location Description:

Disaster affected parishes

Activity Progress Narrative:

This program is combined contractually with the Housing Land Assembly Operations (HLAS) program. They are collectively known as the Enterprise Louisiana Loan Fund. In the early months of this program the number of total applications received was lower than anticipated due to several factors, including the timing of tax credit awards not coinciding with the availability of the loan-fund resources and requests for loans being less than the minimum dollar amount established for the program. The contractors administering this program, Enterprise and LISC, identified and worked to refine the program and increase the number of applicants. Local staffs members continue to work on the potential LLF restructure.

First Quarter of 2012

LISC and Enterprise continues to work very closely with Wil Jacobs of the State of Louisiana. LISC contract expired December 31, 2011 and Enterprise contract expires December 31, 2012.

LISC has approximately \$498,238 committed to the Fortune Project that is expected to be drawn down during the 1stquarter of 2012. Afterwards, there should not be any further commitments made during the current fund. Another \$2.6 million in loans repaid to LISC will be received through 2012. By the terms of the agreement, those loans will be reinvested by LISC. Loan repayments from Broadmoor and the Fortune Project will be used to fund additional phases of those projects.

Enterprise closed a \$50k Early Predevelopment loan to Alembic Development Company. The loan is to fund a scattered site development project to rehab 18 units at 80% LMI or below. The Maturity date of the loan is 1/12/2013.

Activity Description:

JEDCO anticipates making an average of 20 loans in the approximate amount of \$94,928.00. Based on past experience, they estimate that about 15 loans will be for equipment and / or inventory and 5 loans for acquisition of land and building. The total term for the equipment / inventory loans will range from five years to ten years, depending upon the useful life of the assets to be acquired. Real estate loans will have a maximum term of fifteen years.

Due to limited resources, JEDCO will not entertain construction loans under the ILTAP program, due to the extensive documentation requirements of the Davis Bacon Act.

Activity Description:

In accordance with its mission, Good Work Network will continue to focus its service on low-income and disadvantaged micro entrepreneurs in the greater New Orleans area. Community based, owner operated businesses such as day care providers, small contractors, janitorial services, sitting services, etc. need help in developing sound business infrastructures that utilize best practices so that they can stabilize their businesses. The success of these businesses is essential to the creation of a strong middle class, particularly in the African American community. GWN is a trusted business resource among this group.

Activity Description:

The Idea Village has created 3 key programs to provide direct technical assistance to entrepreneurs and small businesses. Idea Village staff conduct outreach and provide technical assistance through the following programs: IDEAcorns, IDEAbank and the Idea Village Entrepreneur Challenge.

Location Description:

New Orleans MSA: Orleans, St. Bernard, Plaquemines, Jefferson, St. Charles, St. John and St. Tammany parishes

Activity Progress Narrative:

From Idea Village:
Village entrepreneurs-in-residence continued to meet with each IVEC accelerator client on a weekly basis to work towards milestones and goals outlined at the beginning of the program. In addition to one-on-one technical assistance meetings, the EIRs and other Idea Village staff members facilitated bi-weekly peer review sessions with the IVEC accelerator entrepreneurs. The third and final speed pitch event was held at The Idea Village on January 11th. EIRs are also providing technical assistance to entrepreneurs outside of the IVEC accelerator program who are preparing for pitch opportunities during NOEW. The IDEA institute public workshop sessions hosted in January included: Mastering Social Media (1/4), Creating a Winning Culture (1/11), HR Panel: Hiring, Firing and, Managing People (1/19), and The Price is Right: Pricing Your Product or Service (1/25). The program schedule for the New Orleans Entrepreneur Week, including all of the public track workshops and seminars, was solidified. The Idea Village hosted the NOEW "Halftime Event" at Jones Walker to give partners and sponsors an update on NOEW as well as elevate the progress and needs of the IVEC accelerator entrepreneurs. A blended Cornell-Berkeley IDEAcorns team worked with Ducky, an IVEC accelerator client, on a one week consulting engagement. In addition, the IDEAcorns MBA tems participating in NOEW were matched with their entrepreneurs. Entrepreneurs also began to be

selected to participate in the various pitches throughout NOEW. McGee's Apparel, a school uniform retailer owned by Marsha McGee is the newest tenant of the EIC, moved into the EIC on January 1st. We anxiously await an occupational license from the City of New Orleans in order to announce a Grand Opening.

Activity Description:

Operation HOPE plans to provide free technical assistance to small businesses, non-profits and entrepreneurs via one-on-one coaching sessions, seminars and workshops plus access and training at a Computer Empowerment Center. HOPE will primarily serve "mom and pop" shops with less than five employees. These micro-businesses are critical to the local economy and many are located in the neighborhoods most affected by the Hurricanes.

Location Description:

See EINK1005 Operation Hope TA - LMI

Activity Progress Narrative:

From Operation Hope:

Feb-2011: Operation HOPE kicked off the Innovation program in February 2011. In order to spread the word about its new services, the HOPE team attended and distributed information at SUNO's Financial Literacy Event, the weekly United Non-Profit Meeting, Senator Cynthia Willard Lewis' Small Business Event, and the Isaiah Institute Black History Seminar. At the United Non-profit of New Orleans Meeting, HOPE led a workshop on how to create a basic marketing plan, financial projection and marketing plan. Clients started reaching out to HOPE and scheduling one-on-one sessions.

>Mar-2011: In an effort to continue its marketing efforts, the Operation HOPE team attended the financial empowerment for women Workshop at Southern University. HOPE distributed information and flyers at a table during the event. Additionally, HOPE advertised its services in the Times Picayune and sent out announcements about its services to its 300+ person email database using MailChimp (new email marketing tool). Clients continued to reach out to HOPE for one-on-one coaching sessions related to Business Plan Development, Marketing and more.

>Apr-2011: Operation HOPE offered three small business seminars in April. Pheobe Brown, from Money Management International provided a Credit Repair Seminar. Stephany Bolden, from Accion Louisiana, provided a seminar on "How to Prepare to Meet with a Lender" and volunteer Bill Groome presented a seminar on "Strategies & Disciplines for Sales." HOPE advertised all of these events in the Times Picayune Money Calendar and also via its email database. The number of client coaching sessions increased in April and help was offered on Business Plans, Marketing Plans, Financial Projections, Online

Marketing and more. HOPE staff appeared on WWL-TV's morning news show and discusses its technology coaching services.

>May-2011: Operation HOPE presented two small business seminars in May. HOPE staff presented on Email Marketing 101. Nora, from the Funding Seed, presented a workshop on Grant Writing 101. Both seminars attracted large audiences. HOP continued its outreach efforts with ads in the Times Picayune and appearances at the Beacon light Walk A Thon, meeting with HANO, and Email Blasts. HOPE continued its one-on-one coaching with clients.

>Jun-2011: In June, HOPE kicked off its free 12 week entrepreneurial class. HOPE hosted an overview workshop called "How to Start a Small Business" for interested participants, evaluated applications, and selected 30 students. The class met twice in June. One-on-one coaching sessions increased substantially in June and we saw a numebr of new clients reach out to us after reading about us in the Times Picayune and/or hearing about services through other clients.

>Jul-2011: In July, Operation HOPE hosted a seminar called "How to Use Facebook to Market Your Business." Additionally, HOPE continued its weekly Entrepreneurship classes and provided small business coaching classes at the Estates via a collaboration with HANO. One-on-one coaching sessions were held for many clients in which business plans, marketing plans, websites, and f inancial projectison were created . HOPE also helped a client assemble an application for a loan. HOPE also marketed its activities and services via the Times Picayune, its email database, at the White House Summit on Urban Entrepreneurship at Xavier University and at an appearance on Citizens Together Public Access TV show.

Activity Description:

The NOBIC Innovation loan and technical assistance program will spur innovation driven economic development by linking market information, specialized talent, academic and institutional resources to technology startup ventures that normally don't have access to such resources, thus increasing their chances for business success. The accompanying access to innovation loan funding will aid these small ventures in realizing initial technology development milestones, which in turn can catalyze their economic growth and job creation trajectory.

Activity Description:

The NOBIC Innovation loan and technical assistance program will spur innovation driven economic development by linking market information, specialized talent, academic and institutional resources to technology startup ventures that normally don't have access to such resources, thus increasing their chances for business success. The accompanying access to innovation loan funding will aid these small ventures in realizing initial technology development milestones, which in turn can catalyze their economic growth and job creation trajectory.

Activity Description:

This project aims to:

1. Kick start the Revitalization of the Rampart/St. Claude Corridor, attracting locals, residents of the region and tourists to the downtown corridor along the Mississippi River - Total 5 year impact \$70mm to \$125mm and expand local tax base by \$61mm to \$110mm - Henry and Associates Feasibility and Economic Analysis. 60 to 1 return on every Federal Dollar invested.
2. Incubating approximately 40 start up businesses, including 20 arts and crafts kiosks, 10 Complimentary and Alternative Healing Offices, Food Corp, Woman's Center, Spiritual Center, Community Theater, Community Assembly Space, Woodshed Music Room, Organic Restaurant, Coffee Bar, Juice Bar, Street University, Yoga Studios, Environmental Office, 5 Retail Stores, Hydroponic Garden, Child Care, Woman's Infants and Children Facility, and Police Substation. These uses were responsive to the results from 250 households surveyed in the surrounding neighborhoods and the Center is now preleased.
3. Create 200 permanent jobs and 50 construction jobs for the \$10mm facility.
4. Diversify New Orleans Economy and promote Entrepreneurship by building on one of the fastest growing industries in the world, Complimentary and Alternative Healing Products and Services.
5. Eliminate blight by restoring the largest privately owned building along the corridor.
6. The first phase was to raise \$300,000 in donations to renovate the first floor of the former Universal Furniture Building and to relocate thereto the New Orleans Fifth District Police Station from the temporary trailer facilities which they occupied since Katrina. The 2nd phase provided facilities for 56 local artists to exhibit as part of Prospect 1.

Activity Description:

St. Thomas Community Health Center ("St. Thomas CHC") is a New Orleans based comprehensive non-profit health care provider, designated as a U.S. Public Health Service ("PHS") section 330-funded Federally Qualified Health Center ("FQHC") with the single mission of serving low-income, uninsured and underinsured target population of Orleans Parish. Approximately 75% of St. Thomas CHC patients are uninsured. St. Thomas CHC currently operated two clinical sites located in the Lower Garden District Neighborhood of New Orleans. All three sites are located in census tract number 22071008200, a highly distressed low-income community census tract as defined by the U.S. Census Bureau. St. Thomas CHC proposes to expand and dramatically improve its vital health care service capacity through a capital building project acquisition, historic restoration and renovation to include 10,212 additional square feet located at 1936-1938 Magazine Street ("Magazine St. Project"). one-half block from its existing clinic location.

Location Description:

2 locations in the Lower Garden District Neighborhood of New Orleans, Louisiana.

Activity Progress Narrative:

Renovation to expand capacity of existing Community Health Center capacity; committed to hiring low to mid-income employees within next three years, and to improve community neighborhood regeneration through increases and improvement to health care availability and delivery and facilities. Renovation completed 12/26/2011.

Activity Description:

Our plan is to renovate and revitalize our shopping center "St. Mary Plaza" located in Bayou Vista in St. Mary Parish, Louisiana. With this renovation, we will be able to attract a major grocery retailer that will improve the local market and create more jobs. The completion of this project will allow local residents to travel less and shop within the area more often and reduce the amount of travel required for common daily shopping needs. Aside from creating jobs and reducing travel for shopping, this major grocery retailer will attract more customers to the tenants that are currently occupying the shopping center. This project will increase sales and revenue for other local businesses and improve the economic development.

Activity Description:

Green Coast Enterprises, along with its partners, is undertaking a transformative redevelopment that will create a Community Green at the intersection of Washington Avenue and South Broad Street in New Orleans. The project will serve as a model for sustainable neighborhood redevelopment: we will build smarter structures that respond to local hazards, and create places that encourage healthier living. This is a true triple-bottom-line project – it includes the environmentally-sound redevelopment of several buildings, increased access to medical services for the surrounding community, office space for non-profits and social innovators, and considerable value for investors.

Match Contributed	\$0.00	\$0.00

Activity Description:

Funding to restore the historic, but vacant and blighted, Joy Theater, located on Canal St in downtown New Orleans, catty-corner from the Saenger Theatre. The Joy will be restored to commerce as a 1200-person venue for live entertainment, trade shows, and other special programming.

Location Description:

29.954749,-90.07405
1111 Tulane Ave
New Orleans, LA 70112

Activity Progress Narrative:

The theater opened in late 2011 and continues to host performances. All of our staff is currently part time working only in preparation of specific shows and during the shows.

Activity Description:

HUD approved the release of funds for the First Time Homebuyer Pilot Program; outlined in Action Plan One, Amendment 4; on December 12, 2006 to assist low to middle income borrowers in the acquisition of single family, owner occupied property in the 13 Katrina and Rita affected parishes. The FANO (Finance Authority of New Orleans) has been contracted to administer the funds for Orleans Parish. Their program offers up to \$65,000,000 on a soft second mortgage to a low to middle income borrower for the acquisition of a single family, owner occupied property in one of the City's designated disaster zones. The LHFA (Louisiana Housing Finance Agency) is contracted to administer the remaining eleven parishes and their use of the funds is in an interest rate buy down and is also used in conjunction with Mortgage Revenue Bonds (MRB).

Location Description:

Orleans Parish

Activity Progress Narrative:

This reduction in funds expended is a prior period return for the 1st quarter of 2011, when there was an overpayment in a prior quarter to the Finance Authority of New Orleans.

19 loans closed in St. Bernard Parish in the 1st quarter of 2012.
 Danny Dragg
 >Housing Specialist
 >(225) 219-9600
 5 additional loans that closed in the 4th quarter of 2011 are reporting their addresses and units this quarter, due to a reporting error last quarter that only included the race/ethnicities. One individual reported with those 5 loans will be moved from LMI to UN, due to lack of accurate data from the 4th quarter 2011.

Activity Description:

HUD approved the release of funds for the First Time Homebuyer Pilot Program; outlined in Action Plan One, Amendment 4; on December 12, 2006 to assist low to middle income borrowers in the acquisition of single family, owner occupied property in the 13 Katrina and Rita affected parishes. The FANO (Finance Authority of New Orleans) has been contracted to administer the funds for both Orleans and St. Bernard Parishes. Their program offers up to \$65,000,000 on a soft second mortgage to a low to middle income borrower for the acquisition of a single family, owner occupied property in one of the City’s designated disaster zones. The LHFA (Louisiana Housing Finance Agency) is contracted to administer the remaining eleven parishes and their use of the funds is in an interest rate buy down and is also used in conjunction with Mortgage Revenue Bonds (MRB).

Location Description:

St. Bernard Parish

Activity Description:

In hurricane-impacted areas, many organizations serving the homeless lost facilities, housing capacity, shelter beds, and staff. Thirty-six shelters sustained considerable damage, and capacity to house up to 1,759 homeless individuals (i.e., 1,759 residential beds) operated by Continuum of Care organizations serving the homeless) was lost. After the hurricane there were reports that an increased number of persons were living on the streets or in parks, cars, and abandoned or uninhabitable buildings in the impacted areas. Many of these persons were not homeless prior to the storms. The proposed \$25.9 million will support the State's goal to immediately restore and expand capacity in hurricane impacted areas and provide permanent supportive housing and assistance for persons and families who are homeless and persons at-risk of becoming homeless who are low wage workers, unemployed, victims of domestic violence, low-income seniors, and/or low-income persons with any type of substantial disability (including physical or sensory disability, cognitive disability, chronic health problems, mental illness, or addictive disorders). The proposal allows for funding to be prioritized as follows: The highest priority for the use of these funds will be to repair and restore shelter capacity, transitional housing and permanent supportive housing that existed prior to Hurricanes Katrina and Rita. The cost of restoring this capacity is estimated to be \$3 to \$5 million. Priority for these funds will be given to members of the Continuums of Care. Non-member organizations may apply for funding but should document pre-storm homeless efforts in the community and indicate a commitment to coordinating with the local Continuums of Care upon receipt of these funds. A second priority will be the acquisition and rehabilitation of new permanent supportive housing and services by non-profits in the hurricane-affected areas. This priority also includes the option of funding rental assistance (i.e., "bridge funding") linked to permanent supportive housing. The prioritization of non-profits is based on the understanding that some non-profit groups working with homeless and at-risk populations will not have the capacity to apply for tax credits and supportive services funds through the "piggyback" program. This program plans to create 550 beds for the low income individuals needing temporary shelter, provide assistance to 2,400 low income households, and assist 2,400 homeless.

Activity Description:

A large number of homeowners, whether Road Home participants or not, have faced difficulty in securing sufficient resources to fully rebuild their homes. The Road Home program has provided many homeowners with significant funding to complete this process. Unfortunately, due to increased costs of construction, materials and labor, these funds have often fallen short. Additionally, a number of homeowners have fallen victim to corrupt contractors that have taken these resources, leaving their homes unfinished and their financing need unmet. The State will initially allocate \$20 million to develop the Nonprofit Rebuilding Pilot Program to help homeowners get back into their homes - including both participants and non-participants in the Road Home program.

Location Description:

Orleans Parish

Activity Progress Narrative:

Of the 24 applicants enrolled in the program, we show (0) closings during Q1-2012. Project delivery costs were used for the purposes of payroll and staffing and benefits. Total of (0) properties have been 100% cleared by the inspector during this quarter. In addition, project delivery costs were used for the purposes of building rental and utilities for those employees working on the grant; Project Costs on hold due to ERR.

Activity Description:

In order to balance the lack of affordable rental housing demand in Plaquemines Parish with the urgent need for current homeowners, this program would allow the conversion of a portion of the parish's Small Rental Property Program (SRPP) allocation to be used as a CDBG homeowner rehabilitation program. This homeowner rehabilitation funding would be limited to Plaquemines Parish's SRPP allocation and governed by the CDBG rehab program guidelines. The use of Federal disaster recovery program CDBG funds will require the homeowner rehabilitation program to be subject to additional requirements not generally applicable to standard SRPP Awards. For example, unless expressly allowed by the United States Department of HUD, owners may not be able to receive funds until they have cleared Federal environmental review and have demonstrated that they will be using Lead Safe Work practices, including securing a Lead Certified contractor. Funds may also be subject to "duplication of benefit" tests unless determined otherwise by the Federal authorities. Consequently funding could be limited in amount depending on the amount of other funding the owner had received to support his rehabilitation e.g. Insurance Proceeds, SBA loans etc. In situations where the homeowner must temporarily relocate during construction, URA requirements will be enforced.

Location Description:

Plaquemines Parish

Activity Progress Narrative:

Funds de-obligated down to the amount expended for the activity due to a budget amendment.

Activity Description:

This program will be funded with \$75M from unallocated Small Rental Program (SRP) funds for the purpose of promoting homeownership and to expand housing opportunities for existing LMI renter households(those earning less than 80% of the area median income), using the supply of Louisiana Land Trust (LLT) Properties. By targeting financial support to the redevelopment of these properties selected by the local governments, this program will also promote neighborhood revitalization in critical areas throughout the Louisiana Gulf Coast. Funding for this initiative will be subject to the guiding principles of the SRP. Specifically, all funding will be restricted to four unit properties and to restoring property that received severe or major damage through Hurricanes Rita or Katrina in the 13 Parishes suffering the most severe damage to their rental housing stocks. The process is designed to work as follows. Parish government officials will be asked to select a pool of LLT parcels to be targeted for re-development as first time homebuyer properties. These properties will be grouped together in clusters whenever possible in order to take advantage of economies of scale and to ensure that their development will have a

significant positive impact on the area. The selected properties and commitments for any necessary CDBG subsidies will be offered through a competitive process to qualified developers, including nonprofit and for-profit organizations, that are able to provide a finished property that meets the Program's quality standards and is affordable to the pool on income eligible buyers. Upon completion, the properties will be sold at a market price set at the full cost of development, but the actual cost to the qualified first time homebuyers will be significantly less. The difference or gap will be provided in the form of a no interest, soft second mortgage to the purchaser. The amount of the soft second loan will be scaled to ensure that the actual cost of purchasing the property is affordable to eligible buyers taking into consideration prevailing interest rates, construction and operating costs, and industry standards for affordability, such as 30% of income for housing costs. Funding for an LLT rental property would range from \$10,000 to \$100,000. This soft second loan will be forgiven over time for the period the purchaser remains in the home. However, the program will be structured to provide recapture of benefits in the event of sale. For instance, if the new homeowner sells the property before their soft second loan is completely forgiven, the outstanding principal or a portion of this principal will be due on sale depending on whether the owner has realized a gain over this initial investment, i.e. his equity and the amount of the first mortgage that he took on in order to purchase the property. Purchasers will be selected based on a lottery system. The Parish government may elect to provide priorities to select groups of eligible purchasers, e.g. uniformed workers. Where appropriate, Parish governments may also elect to select a pool of LLT properties to be developed as affordable rental housing, including rent to own developments. Again, any properties developed through an LLT rental initiative would also have to meet the basic requirements previously stated.

Location Description:

13 most disaster affected parishes.

Activity Progress Narrative:

The City of New Orleans has been under contract two years with the first year being under the old administration. The new mayor and his staff have really made headway with this program. The program is a soft second mortgage program designed to assist low to moderate income homebuyers up to 120% AMI. The first five years are unforgivable and the remaining five years has a tiered payoff. No interest or payment is made unless the contract is not fulfilled. The program is beginning to made great progress with approximately 20 closings per month. The funds from this program are wired directly to the closing agents to avoid any delays. Policies and procedures are more complicated because of this fact and the City of New Orleans must watch closely to make sure the program runs as designed. The program is designed to wire the funds directly to the closing agents. These agents have scheduled the closings three weeks out and funds will be wired to these agents 5 days before scheduled closings. There could be a 5-6 day lag time from when the funds are wired to when the closing occurs. The City of New Orleans is to provide the State of Louisiana a loan closing report at the beginning of each month. This report will show every loan that has been submitted to the State for funding as well as what loans have closed. There is also the possibility of some closing costs being returned to the State. In this event, the City of New Orleans will send the State a negative draw request.

Activity Description:

This project seeks to return Craig Elementary to an operational status and help alleviate that burden on other schools in the City of New Orleans. Extensive work will be completed in several phases. The first stage is selective demolition and remediation of compromised areas of the structure. Secondly, renovation will be undertaken for the public facility in such areas as replacement and/or repair of the roof, windows, restrooms, concrete slab, a new kitchen, among other things. Finally, under public services, funding will be provided for a folding performance stage, modern kitchen equipment, and stackable washer/driers.

Activity Description:

This project will include a parking area addition, street access and a 88,390 sq. ft. structure, along with many of the supporting frameworks, such as mechanical, electrical, and plumbing systems. This cultural arts center will provide a library, theater, lecture hall, dance, music and other cultural arts activities for the two campuses of Chalmette High School and create additional cultural arts educational opportunities for students and faculty. Additionally, this project provides library services for the St. Bernard Parish community.

Location Description:

1101 E. Judge Perez Drive, Chalmette, LA 70043

Activity Description:

The goal of the St. Bernard Parish School Board is to restore the educational system as quickly as possible in order to return residents to the parish by providing a safe and modern facility. The proposed scope of work will include: (1) Construction of a 39,871 S.F. Football Field House; (2) Construction of 10,827 S.F. Baseball Field; and (3) Construction of four tennis courts. The football and baseball field houses will provide expanded physical educational and athletic opportunities for the expanded student population at the consolidated Chalmette High School. In addition, the field houses will offer expanded public event services for the St. Bernard Parish Community.

Activity Description:

This project proposes to reconsolidate the programs provided by the St. Tammany Parish School Board in one new facility located on School Board property adjacent to Mayfield Elementary School on U.S. Hwy. 190 west of Slidell, Louisiana. The facilities are planned to duplicate the prior space used for this service but adds code upgrades for corridors, hallways, restroom facilities and parking. These programs of pupil appraisal include special education, homebound teachers, visual impairment, assistive technology, occupational therapy, and hearing impairment programs.

Location Description:

318 Highway 190 West, Slidell, LA 70458

Activity Description:

This project provides funding for the two (2) year lease renewal of two (2) "sprung buildings" at the site of the temporary South Plaquemines High School and Phoenix High School. These buildings were erected at the site of the temporary schools, serving a multi-purpose function by providing a large, enclosed gathering space with air conditioned environment for use by Plaquemines Parish School Board, its students, staff and the residents of the communities. The purpose of this project is to provide necessary public services to the affected areas by providing an enclosed gathering space for a variety of community and educational needs.

Activity Description:

This project constructs a new public school facility for Alice Harte Elementary School. CDBG Disaster funding is being requested for the construction of a new 110,000 square foot facility, in accordance with specifications set forth in the Master Facilities Plan adopted by the Orleans Parish School Board. Alice Harte is identified in the Master Plan as a Phase I school project. The design will be based on standards and guidelines for school sites (new and remodeled buildings) as outlined in the Master Plan. All new schools within the master plan will be built to LEED Silver standards, and fully ADA compliant, consisting of over thirty (30) classrooms, with four (4) classrooms dedicated to Special Education.

Activity Description:

The Greater New Orleans Community Health Connection (GNOCHC) is a new Medicaid Section 1115 Waiver Demonstration program to provide primary and behavioral health care services to low-income, uninsured adults in the Greater New Orleans area between October 1, 2010 and December 31, 2013. This program is an outgrowth of a three-year Primary Care Access and Stabilization Grant (PCASG) that ended in September 2010. This program (GNOCHC) will transition PCASG providers to a financially sustainability model that incorporates Medicaid, LaCHIP, and other payor sources as the revenue base by January 1, 2014, when a majority of low-income uninsured adults will have health care coverage either through Medicaid or the State Health Benefits Exchange as mandated by the federal health care reform Affordable Care Act (ACA).

Match Contributed	\$0.00	\$0.00

Activity Description:

This project will make substantial infrastructure improvements at the entry-way to the NASA-Michoud Assembly Facility. This project involves design and construction of landscaping, storm drains, installation of solar lighting, and asphalt cold planing and overlay of portions of Old Gentilly Road, as well as expanded roadway improvements from I-510 to Chef Menteur Highway. This activity is part of a much larger project that includes funds from Local Government for the Michoud Facility.

Location Description:

Old Gentilly Highway between Chef Menteur and I-510

Activity Progress Narrative:

Additional funds were obligated this quarter due to a budget amendment.

Local Initiatives Support Corporation	\$0.00	\$804,306.78
Match Contributed	\$0.00	\$0.00

Activity Description:

The Land Assembly component of the housing program will serve as an additional way to jump-start development in the communities that lost the most housing as a result of hurricanes Katrina and Rita. This will be done by providing seed money to acquire multiple properties in good locations for replacement housing and package them for sale or grant to maximize further affordable housing development for example, to developers using CDBG-supported LIHTC tax incentives to develop rental housing, to supportive housing developers, to self-help ownership housing developers, etc. This program component will operate only in those jurisdictions where: 1. These activities are requested or supported by local governments; and 2. Local governments have substantially engaged in the planning work required to target areas that are suitable for the development of replacement housing. A total of \$2,070,000 of CDBG funds are budgeted for capital to purchase residential properties as well as operating costs. The capital used to purchase properties will be recycled through sales of properties to developers. As a related activity, properties assembled through buy-out programs, funded through the State's homeowner assistance program, might be offered at below-market costs to developers of affordable or special needs housing. One of the targets of these sales of State-purchased properties would be to encourage the development of mixed income developments that include renters with incomes below 40% of area median income. If such assembled properties were not purchased and developed by affordable developers in accordance with strict income requirements, they still might carry a requirement that a certain percentage of the units developed on CDBG assembled land would be affordable with less stringent income and pricing requirements, but still ensuring that mixed-income developments occur in redevelopment areas. However, the \$2 million Land Assembly fund is fundamentally different from and should not be confused with the buyout provisions of the Homeowner Assistance Program. This budget line item is not intended for purchases of single-family homes. Instead, the intention is to contract out to one or more qualified organizations that can identify suitable sites for housing development in the most distressed parishes and obtain options on them. The State intends, through contractual arrangements, to fund a small team of property acquisition experts who will scout out, analyze and obtain options on suitable sites that are not currently on the open market. These could include surplus properties held by government agencies, nonprofits, churches and businesses. Some might be Brownfield sites that could be cleaned up quickly and at feasible costs. This Land Assembly operation would result in assignable options in the name of the State of Louisiana or some designated quasi-public entity. These options, in turn, would be offered to developers on an

open, competitive basis.

Activity Description:

In the wake of the devastation wrought by Hurricanes Katrina and Rita, Governor Blanco established the Louisiana Recovery Authority (LRA) to plan the recovery and rebuilding of Louisiana. The LRA was established by Executive Order KBB 2005-63 on October 17, 2005. Due to the unprecedented scale of destruction to southern Louisiana, the Governor determined that a single state agency should coordinate the resources committed by various state, federal, and private entities toward disaster recovery. The LRA coordinates, leverages, and targets these newly committed resources with existing state and federal resources to improve their efficiency and effectiveness and to avoid duplication of efforts. In accord with the scale of the disaster, LRA's planning responsibilities are broad in scope. The LRA is charged with securing funding and other resources for recovery efforts. The LRA has established priorities and continues to develop strategies for disaster recovery. The LRA leads

long-term community and regional planning efforts and works to ensure transparency and accountability. It also assists coordination of resource allocations as it pertains to issues that may include, but are not limited to the following: 1) economic and workforce development; 2) environmental quality and review; 3) temporary and permanent housing; 4) healthcare; 5) infrastructure and transportation; 6) education; 7) fiscal stability; 8) family services; and 9) law and order.

Location Description:

Disaster affected parishes.

Activity Progress Narrative:

Overall, of eleven grantees with a planning capacity grant, three are at 70% complete – New Orleans, Calcasieu and Tangipahoa – with each of the grants significantly having allowed the three parishes to hire competent and qualified planners whose focus has specifically been long term recovery plans and disaster recovery projects. Three currently have vacancies - New Orleans, Lafourche, and Cameron – due to recent resignations and career moves although all three immediately put out advertisements and revised scope of services to reflect both the continuation of planning and specificity for current priorities. Cameron is currently interviewing two candidates. Lafourche just awarded a contract for a consultant to develop a resiliency/sustainability plan and the staff planner to be hired under planning capacity will oversee that effort as well as the completion of the disaster recovery grants. New Orleans, as a result of its reorganization with emphasis on “place based planning” is seeking a candidate with specific skills in that area to support the division’s efforts. Plaquemines just hired a highly skilled planner with extensive experience, through Providence, who has a master in planning, has a FPEM certification, was the disaster assistant coordinator for Lake County, Fla 2007-2012 and whose leadership reflected both the development of assessment portals to be used on-line to determine damage assessments but community training as well.

Both Iberia and Terrebonne continue to work on their long term recovery projects. Terrebonne is concentrating on a recent Tier III change involving both the G/I Parish Grant and the Fisheries Grant to upgrade the Pontoon Bridge Project, which affects the fishing industry in the parish. Iberia continue to work on their GIS system.

Technical assistance/site visits will be made in the 2nd and 3rd quarters to all grantees to preliminarily, conduct a records management review, determine priorities for the remainder of the grants, and to assist in determining how the grantee intends to retain the staff and/or continue the recovery planning and projects to meet the original intent of the grant.

Activity Description:

These resources are available to all Louisiana residents impacted by the hurricanes of 2005, and will be available to families earning 80% AMI and below that are treated with homelessness. Currently, there is \$9 million remaining in the Rapid Re-Housing program. These funds pay for temporary rental assistance, utility connections and other costs under the program in order to protect an individual from the threat of homelessness.

Location Description:

Hurricane Katrina/Rita affected parishes.

Activity Progress Narrative:

Correct amount paid this quarter to Mir, Fox, & Rodriguez was \$793,151.94. \$48,223 was deleted this quarter due to incorrect expenditure entry on prior quarters - 1st QTR 2010, 2nd QTR 2010, 4th QTR 2010, and 4th QTR 2011. A correction was also made to correct the amounts disbursed to the two responsible orgs. above.

Laurie Brown
Data Manager

During this quarter, MFR has continued to process applications for all referrals. MFR will conclude any outstanding intake on any families as all families must be contracted by June 30, 2012 to receive a full year of assistance. The last families transitioned out of Katrina and Rita trailers this quarter concluding the work MFR has done with this population. MFR is also working to transition those families whose assistance with STARS (12 months) has come to an end as they transition out of the program.

Match Contributed	\$0.00	\$0.00

Activity Description:

The Road Home Homeowner Assistance program provides financial compensation and advisory services will be available for homeowners who wish to select from one of the three following options: 1. Repair/Rebuild financial incentives to repair or reconstruct on the same site; 2. Sell and Relocate within the state purchase of the home by the program in exchange for an agreement to resettle in Louisiana; or 3. Sell and Relocate out of the state voluntary sale of the home with no expectation of resettlement in the state. The allocation for this program represents uses an estimated 55% benefit to low and moderate income citizens. This estimate is based on first and second quarter data which differs from the Road Home registry data. The registry data showed 76.2% of the 107,713 registrants earned at or below \$50,000. Since the registry did not collect data on household size, it is impossible to estimate the number of low income households. This allocation amount and estimated performance will be continually modified as data on the actual applicants is collected. The amount allocated to LMI includes \$8,229,915 of Road Home start up costs that funded program design, the Road Home Registry call center and other start up costs.

Location Description:

The program will serve homeowners in at least 17 permanent and mobile homeowner assistance centers in disaster affected parishes and other areas in and out of state where concentrations of displaced citizens are located.

Activity Progress Narrative:

Beneficiary LMI status changed due to policy changes and incorrect reporting in original applications, therefore, vouchers in earlier quarters had to be re-assigned to this activity from the Road Home-UN (HAOO) activity. This is why the budget and obligated amounts changed.

Activity Description:

The Small Firm Recovery Loan and Grant Program is proposed as a program to target assistance to small firms that are deemed to have a chance to survive, contribute to the economy, and maintain and create jobs. Funds would support low-cost loans on flexible terms, small grants to reimburse for tangible losses, and technical assistance to support the firms receiving the financial support, some of which may not qualify for or have received bank and/or Small Business Administration (SBA) loans. Firms assisted would be those expected to survive and pay back the funds if given an opportunity for a loan. Firms will be asked to provide a plan showing how they would use the loans, grants, and technical assistance to survive and move ahead. Louisiana plans to implement a program that is similar to that developed and used in New York after the terrorist attacks on 9/11/2001. Through a Request for Proposals (RFP), Louisiana will seek proposals from nonprofits and community development financial institutions that would be used as intermediaries to provide working capital loans on flexible terms and small grants to reimburse for tangible losses to small firms, including nonprofits, and technical assistance services to companies receiving loans and grants. Results after 9/11 showed that technical assistance linked to the loans and grants was found to be important for the success of the small firms and subsequent repayment of the loans. Among other things, potential contractors seeking to offer assistance to small firms through this program will define in their RFP response information about the amount of funding to be dedicated to the loan category, grant category, or for technical assistance. Firms to be assisted would be those located in the parishes in southeast and southwest Louisiana most affected by hurricanes Katrina and Rita, including but not limited to those with substantial infrastructure damage. This program is planned to close 140 loans, award 2,400 grants, and create or retain 2,400 jobs.

Location Description:

Disaster affected parishes.

Activity Progress Narrative:

\$52,500 in funds were returned this quarter. The correction of \$113,776.37 made last quarter was reversed, as it was done in error. Measures were revised. The original DRGR System did not separate the reporting of "jobs created" and "jobs retained". These were originally recorded and reported as one number. The number of persons assisted with accompanying race/ethnicity data was not matching the sum of "jobs created" and "jobs retained", therefore, in order to increase the accuracy of the information, the "jobs retained" number was chosen to match the # persons assisted. This was done because the people assisted were done so via employment.

Activity Description:

Before the disaster, a large portion of very low income working families resided in single-family homes, and small, multi-family buildings that were owned and operated by small-scale landlords. Many of these properties were underinsured or uninsured, and no longer available for occupancy. The state proposes to provide up to \$869,000,000 in financial assistance to small rental property owners so that they effectively might return an estimated 18,000 affordable and ready-to-be-occupied units to the rental housing market.

A portion of the funds (\$40 million) is set aside as a pilot program to assist in the creation of homeownership opportunities for renters and will be administered by the Louisiana Housing Finance Agency. The primary purposes of this incentive program is to enable small-scale rental properties to return to the market while limiting the amount of debt (and therefore debt service) required for the properties, so that the owners will be able to charge affordable rents. The program will, on a competitive basis, offer incentives in the form of forgivable loans to qualified owners who agree to offer apartments to be occupied by lower income households at affordable rents.. Subsidies will be provided on a sliding scale, and the minimum subsidy will be provided for units made available at affordable market rents to households with incomes at or below 80% of median. The maximum amount of subsidy will go to units affordable to families with incomes at or below 50% of AMI. In addition to funding incentives for providing affordable units in small rental properties, the program will, where practical, make funds available to improve building design and make properties less susceptible to damage from natural events. In general, higher per unit amounts will be available to property owners who agree to offer lower rents to reflect the lower amount of rental income the properties will receive. The assistance will be offered as deferred payment loans at zero percent interest, due only upon resale of the property or failure to comply with the agreed-upon restrictions on rents and household incomes. The program will, on a competitive basis, provide zero interest gap financing to restore units that are rented at affordable rates.

Higher funding amounts, up to \$100,000 per unit are available to qualified landlords who agree to offer lower rents, with the maximum amount of subsidy going for larger rental units where rents are for families with incomes at or below 50% area median income. This program is planned to create 18,000 units - 8,100 Low and 5,400 Moderate income; 13,500 affordable units - 8,100 Low and 5,400 Moderate income; 1,500 assisted units occupied by the low income elderly; 600 units subsidized with project based rental assistance; 4,500 lead safe units; and 1,500 units which meet Sec. 504 accessibility standards.

Location Description:

Disaster affected parishes.

Activity Progress Narrative:

Negative expenditure is a result of changes made to quarters beginning - 10/1/2009, 1/1/2011, 4/1/2011, and 7/1/2011.

Activity Description:

Firms to be assisted would be those located in the parishes in southeast and southwest Louisiana most affected by Katrina and Rita, including but not limited to those with substantial infrastructure damage. Because of the impacts of the storms, many firms need assistance in dealing with changed circumstances. Small firms in niche sectors such as fisheries, tourism, or the cultural economy may require unique assistance that can be provided by nonprofits with a proven track record within that sector. Through this program, technical assistance will be provided in areas such as business management, strategic planning, accounting, insurance, marketing, and legal. Similar to a technical assistance program created in New York after 9/11/2001, Louisiana will seek proposals from intermediaries, which would provide some form of technical assistance. The technical assistance may be provided to existing small firms, to entrepreneurs/persons seeking to start a new business to locate within and take advantage of opportunities in the most affected parishes, and/or provided in other ways that help address the unique needs for local/regional business recovery. The contracting agency will retain the right to select all or some of the applicants, reject any or all proposals, select all or fewer than all responding to the RFP as part of a consortia or partnership, allocate funds in any amount depending on the number and quality of the proposals, and negotiate any part(s) of any proposal. Respondent organizations will be encouraged to develop partnerships with other groups to provide a team that might serve a specific geographic area or specific type of company or industry.

Location Description:

Disaster affected parishes.

Activity Progress Narrative:

Still reviewing audits for intermediaries.

Activity Description:

HUD approved the release of funds for the Supportive Housing Services program; outlined in Action Plan One, Amendment 1; on May 30, 2006, to offer grants for Permanent Supportive Housing (PSH) which are designed to provide flexible, community-based supportive services for special needs households linked to affordable rental housing units in community-integrated, non-institutional settings. The Louisiana Department of Health and Hospitals (DHH) will serve as the lead agency for funding, administration, and monitoring of CDBG funds for the Grants. Grants will also be made to sub-recipient Local Lead Agencies designated by DHH and by the Louisiana Department of Social Services (DSS). The Local Lead Agencies will conduct outreach to identify individuals eligible for PSH, develop and maintain waiting lists, enter into agreements with providers of PSH units, pre-screen, prioritize and refer eligible individuals for PSH, and provide the necessary services. This program is planned to assist 3,000 low income people by providing them with new access to a service.

Location Description:

Disaster Affected Parishes.

Activity Progress Narrative:

309 new PSH households received services in 1st Quarter (Jan-March) 2012. This brought the total number of households receiving assistance since the inception of the program to 4523. All of the households served have incomes below 50% AMI. 148 of the 309 households served are female headed households. 161 of the households were served in the New Orleans Metro area. Of the 309 households served, 129 were homeless and 67 individuals were chronically homeless. As of the end of the 1st Quarter 2012, there are a total of 2466 female headed households served and 2808 served in the New Orleans Metro area. Since the beginning of the program 1287 homeless and 595 chronically homeless households have received supportive services.

Activity Description:

In 2004, the State of Louisiana hosted 24.6 million visitors, of which 76 percent were from outside of the State. Those 24.6 million visitors spent \$9.9 billion in the State and contributed \$600 million in state and local tax revenues (Source: Travel Industry Association of America). Out-of-state tourists come to Louisiana as a result of marketing and promotion of Louisiana's many cultural and natural assets, family recreation destinations, and various special events Louisiana hosts each year. South Louisiana is the largest draw for the State's tourism and convention business. Prior to the storms, tourism was the second largest industry in the State in terms of employment (Louisiana Office of Tourism), and the cultural economy was the fastest growing industry in the State (Source: Louisiana: Where Culture Means Business, Mt. Auburn Associates, July 31, 2005). The tourism and cultural industries combined sustained 260,000 jobs for Louisiana residents. This funding will be allocated to local tourism agencies and bureaus to promote recovery tourism in their areas. Activities to be funded include advertising and event promotions.

Location Description:

Disaster affected parishes.

Activity Progress Narrative:

This quarter, OCD-DRU recaptured \$54,929.50 in disallowed costs. These funds were returned in the hopes of clearing a open HUD-OIG finding.

Work continues on the close-out process for this program. Close-out packages have been submitted once and returned to the agency for additional information. They are expected back to OCD-DRU within the next 30 days. Once a the close-out package arrives and is approved by staff, the close-out process for this program can begin. It will begin with a conditional close-out, expected to be issued soon.

Activity Description:

Hurricanes Katrina and Rita dealt a devastating blow to the economic engine in South Louisiana. Approximately 360,000 Louisiana citizens are estimated to have been displaced outside of the State (LRA analysis of population estimates). Some 1.3 Million FEMA applicants were scattered across 50 states by Hurricane Katrina alone (FEMA). It is reported that approximately 18,000 businesses were severely damaged or destroyed, and 220,000 jobs are estimated to have been lost due to the hurricanes (BLS). The loss of jobs from the hurricanes impacted every sector from healthcare and construction to retail and tourism. The Recovery Workforce Training Program (RWTP) will address the loss of jobs and the re-employment of our workforce as a top priority in the recovery of the impacted areas and the long-term recovery of the State's overall economy. The program is centered on three inter-related factors critical to the recovery of Louisiana's economy: the return of the displaced workforce; the retention of the existing workforce; and a concerted effort to increase skills development for new jobs in sectors related to the immediate and long-term recovery and rebuilding efforts and the future of our economy. This program is planned to train 9,526 people total to be productive members of the workforce. 4,858 will be in the moderate income range.

Location Description:

Disaster-impacted Louisiana parishes.

Activity Progress Narrative:

Waiting for final Admin Draw to clear the Louisiana Office of Contractual Review.
