INSURANCE INFORMATION NOTICE 2018-3

COMMERCIAL AVIATION INSURANCE

The Office of Risk Management (ORM) has placed commercial insurance for the State of Louisiana Aviation programs.

The following are the pertinent changes:

- No Agency deductible for liability claims
- No Agency deductible for Hull claims
- No Agency deductible for Airport Operations claims
- \$1,000 Agency deductible for Hangarkeepers' claims

Claims will continue to be reported to Sedgwick via the Aircraft Incident/Accident form found on the claims reporting website at: www.LAORM.com. **Please note that the commercial adjuster must review the damage, and approval from Sedgwick should be confirmed before repairing the aircraft.**

Agencies will continue to ensure that pilots are properly FAA certified on the crafts that they are assigned. It is the Agency's responsibility to ensure that pilot qualification documentation is kept on file at the Agency level. Agencies will still be subject to audits regarding these exposures, however ***no safety penalties/credits will be assessed*** on this commercial line of coverage.

Aircraft fleet additions and deletions must be reported to ORM Underwriting immediately to ensure these crafts are properly scheduled, and there are no coverage gaps.

Please contact Mark Joseph at (225)342-8472 or via email at Mark.Joseph@LA.gov for more information.
