PART I: ADMINISTRATIVE AND GENERAL INFORMATION

1.1 Background

The State of Louisiana, because of its coastal exposure, is particularly vulnerable to catastrophic weather events which has resulted in several Presidentially-declared disasters in the last 12 years. The State owns approximately 9,500 buildings and leases approximately 2,500 more. These properties, along with other movable property, such as equipment and automobiles, are susceptible to damages from catastrophic events. The Office of Risk Management (ORM) provides insurance coverage for these properties, and upon designation by the Commissioner of Administration, serves as the sub-recipient for all State agencies receiving assistance from the Federal Emergency Management Agency (FEMA) as the result of damage to state owned property, infrastructure or other assets.

Federal funding associated with Presidentially-declared disasters involve complex regulations and compliance requirements. ORM requires assistance with these efforts, but in the wake of a disaster, does not have sufficient time to complete a Request for Proposals process. Therefore, ORM is seeking qualified companies interested in entering into a pre-positioned contract which may be activated by ORM in the anticipation of a Presidentially-declared disaster that affect State owned assets. After activation, services will continue through FEMA close-out, at which time the contract may become dormant until a subsequent event requires reactivation.

ORM utilizes a Third-Party Administrator (TPA) to adjust all property claims, including Presidentially-declared disasters and catastrophic events. This would include the development of damage estimates for all insured and non-insured damages. The Contractor is expected to work closely with the TPA in development of the scope of all damages.

1.1.1 Purpose

This RFP solicits proposals from qualified companies interested in providing grant management operational assistance and consulting services related to the recovery of funds from FEMA and any other funding sources. This pre-positioned contract awarded under this RFP may be activated by ORM in the anticipation of a Presidentially-declared disaster that may affect State-owned assets.
1.1.2 Goals and Objectives

ORM desires to contract with a qualified Contractor who will:

- Provide grant management operational assistance and consulting services in planning and development of recovery strategies, inspecting damages in concert with TPA, preparing and processing requests for recovery under FEMA’s public assistance program and/or other available funding sources;
- Provide mitigation and recovery guidance;
- Maximize the State’s recovery for damage to State assets from all available funding sources; and
- Ensure compliance with available funding stream requirements.

1.4 Proposal Submission

Firms or individuals who are interested in providing services requested under this RFP must submit a proposal containing the mandatory information and should submit the desirable information specified in this section. The proposal must be received in hard copy (printed) version by the RFP Coordinator on or before 4:00 p.m. Central Time on the
date specified in the Schedule of Events. FAX or e-mail submissions shall not be acceptable. The proposal package must be delivered at the proposer's expense to:

Farrel Hebert  
State Risk Claims Manager  
Office of Risk Management  
Claiborne Building  
1201 N. Third Street  
Suite G-192  
Baton Rouge, LA 70802

For courier delivery see the physical address above. ORM's main phone number is 225-219-0168. Proposers mailing their proposals should allow sufficient mail delivery time to ensure receipt of their proposal by the time specified. Proposers should be aware that the USPS does not deliver directly to the ORM office thus additional transit time should be allowed for.

If delivering proposals, Proposers should allow additional time for security clearance and access into the building and ORM offices. Proposers are solely responsible for ensuring their proposal is delivered at the specified place and prior to the deadline for submission. Proposals received after the deadline, for any reason, will not be considered.

1.4.1 Mandatory Qualifications for Proposer

1. Proposer must have experience in managing the recovery efforts under FEMA’s public assistance program for the State of Louisiana OR at least one (1) public entity of similar size, or larger, and complexity to the State of Louisiana. The proposer must provide a list of current or previous contracts and references for those contracts for verification.

2. The Proposer must provide paper copies of, or an internet link to, two (2) years of annual financial statements, beginning with the most recently completed year (audited if available). The financial statements should be detailed enough for ORM to analyze and assess the Proposer’s financial position. Financial statements of the parent company are acceptable. If a parent company’s financial statements are submitted, an official document(s), such as an annual report or a Secretary of State registration, must also be submitted.

3. Proposer must identify the relevant software product(s) to be used to manage FEMA grants and describe their experience and proficiency in using them.

4. Proposer must guarantee that it has a secure, web-based disaster management system document storage system with reporting capabilities for the tracking of PWs and other related documents, with secure backup. Proposer must comply with the State’s IT department requirements to ensure that security and confidentiality are maintained.
Proposer must identify and describe the capabilities of the system. Proposer must be prepared to demonstrate their system upon request.

1.4.2 Desirable Qualifications for Proposer

1. Employees or subcontractors who are NFIP-certified are desirable because of the inter-relationship between insurance coverages for flood and wind and how they correspond to recovery claims that are made through FEMA's Stafford Act. Proof of certification should be included with staff resumes.

2. The Proposer shall have representatives at the disaster site within 72 hours after a request for services has been made. This timeframe may be extended by ORM should there be issues with access to State property. This request for services by ORM will activate the contract. The successful proposer will sign a warranty statement as part of contract execution that it will deploy the necessary resources to meet the State's needs, especially in the event of a multi-state disaster. The proposal should include adequate explanation of how the proposer will organize and respond within 72 hours of notice.

3. Proposer should supply a roster with resumes of those key individuals that would be involved in this deployment.

4. Upon activation of contract, ORM prefers that the Proposer establish an office within a 100-mile radius of Baton Rouge. The proposal should include adequate explanation addressing this request.

The identification of all such confidential data and information as well as the State’s procedural requirements for protection of such data and information from unauthorized use and disclosure shall be provided by the State in writing to the contractor. If the methods and procedures employed by the contractor for the protection of the contractor's data and information are deemed by the State to be adequate for the protection of the State's confidential information, such methods and procedures may be used, with the written consent of the State, to carry out the
intent of this paragraph. The contractor shall not be required under the provisions of the paragraph to keep confidential any data or information which is or becomes publicly available, is already rightfully in the contractor's possession, is independently developed by the contractor outside the scope of the contract, or is rightfully obtained from third parties.

Under no circumstance shall the contractor discuss and/or release information to the media concerning this project without prior expressed written approval of ORM.

Any material within a proposal identified as such must be clearly marked in the proposal and will be handled in accordance with the Louisiana Public Records Act, R.S. 44: 1-44 and applicable rules and regulations. Any proposal marked as confidential or proprietary in its entirety shall be rejected without further consideration or recourse.

1.7 Proposal Clarifications Prior to Submittal

Although impromptu questions will be permitted and spontaneous answers will be provided during the conference, the only official answer or position of the State will be stated in writing in response to written questions. Therefore, potential proposers should submit all questions in writing even if an answer has already been given to an oral question. After the telephone conference, questions will be researched and the official responses will be posted as an addendum at http://www.doa.la.gov/Pages/orm/RFP2017DisasterMgmt.aspx

1.7.2 Proposer Inquiries

225-342-8424 Phone
The State will consider written inquiries and requests for clarification of the content of this RFP received from potential proposers. Written inquiries must be received by 4:00 pm CT on the date specified in the Schedule of Events. The State reserves the right to modify the RFP should a change be identified that is in the best interest of the State.

Official responses to all questions submitted by potential proposers will be posted by the date specified in the Schedule of Events at https://wwwcfprd.doa.louisiana.gov/osp/lapac/pubMain.cfm and http://www.doa.la.gov/Pages/orm/RFP2017DisasterMgmt.aspx.

Only Farrel Hebert, or his designee, has the authority to officially respond to a proposer's questions on behalf of the State. Any communications from any other individuals shall not be binding to the State.

1.8 Errors and Omissions in Proposal
The State reserves the right to seek clarification of any proposal for the purpose of identifying and eliminating minor irregularities or informalities.

1.9 Changes, Addenda, Withdrawals
State shall reserve the right to change the schedule of events or revise any part of the RFP by issuing an addendum to the RFP at any time. Addenda, if any, will be posted at http://wwwprd1.doa.louisiana.gov/OSP/LaPAC/pubMain.cfm and http://www.doa.la.gov/Pages/orm/RFP2017DisasterMgmt.aspx. It shall be the responsibility of the proposer to check the website for addenda to the RFP, if any.

1.10 Withdrawal of Proposal
A proposer may withdraw a proposal that has been submitted at any time up to the date and time the proposal is due. To accomplish this, a written request signed by the authorized representative of the proposer must be submitted to the RFP Coordinator.

1.11 Waiver of Administrative Informalities
The State shall reserve the right, at its sole discretion, to waive minor administrative informalities contained in any proposal.

1.12 Proposal Rejection/RFP Cancellation
Issuance of this RFP in no way shall constitute a commitment by the State to award a contract. The State shall reserve the right to accept or reject, in whole or part, all proposals submitted and/or cancel this RFP if it is determined to be in the State's best interest.
1.13 Ownership of Proposal

All materials submitted in response to this RFP shall become the property of the State. Selection or rejection of a proposal shall not affect this right.

1.14 Cost of Offer Preparation

The State shall not be liable for any costs incurred by proposers prior to issuance of or entering into a contract. Costs associated with developing the proposal, preparing for oral presentations, and any other expenses incurred by the Proposer in responding to this RFP shall be entirely the responsibility of the Proposer and shall not be reimbursed in any manner by the State.

1.15 Taxes

Contractor shall be responsible for payment of all applicable taxes from the funds to be received under contract awarded from this RFP.

1.16 Determination of Responsibility

Determination of the Proposer’s responsibility relating to this RFP shall be made according to the standards set forth in LAC 34:2536. The State must find that the selected proposer:

- Has adequate financial resources for performance, or has the ability to obtain such resources as required during performance;
- Has the necessary experience, organization, technical qualifications, skills, and facilities, or has the ability to obtain them;
- Is able to comply with the proposed or required time of delivery or performance schedule;
- Has a satisfactory record of integrity, judgment, and performance; and
- Is otherwise qualified and eligible to receive an award under applicable laws and regulations.

Proposers should ensure that their proposals contain sufficient information for the State to make its determination by presenting acceptable evidence of the above to perform the contracted services.

1.17 Use of Subcontractors

The State shall have a single prime contractor as the result of any contract negotiation, and that prime contractor shall be responsible for all deliverables specified in the RFP and proposal. This general requirement notwithstanding, proposers may enter into subcontractor arrangements, however; they shall acknowledge in their proposals total responsibility for the entire contract.

If the proposer intends to subcontract for portions of the work, the proposer shall identify any subcontractor relationships and include specific designations of the
tasks to be performed by the subcontractor. The proposal should contain sufficient information about the role and qualifications of subcontractors for the State to adequately evaluate and score the proposal. Failure to provide such information could negatively impact scores.

The prime contractor shall be the single point of contact for all subcontract work.

Unless provided for in the contract with the State, the prime contractor shall not contract with any other party for any of the services herein contracted without the express prior written approval of the State.

1.18 **Written or Oral Discussions/Presentations**

The State, at its sole discretion, may require all proposers reasonably susceptible of being selected for the award to provide an oral presentation of how they propose to meet ORM’s program objectives. Commitments made by the Proposer at the oral presentation, if any, will be considered binding. Scores may be adjusted using the original evaluation criteria.

1.18.1 **Best and Final Offers (BAFO)**

The State reserves the right to conduct a BAFO with one or more proposers determined by the committee to be reasonably susceptible of being selected for award. If conducted, the proposers selected will receive written notification of their selection, with a list of specific items to be addressed in the BAFO along with instructions for submittal. The BAFO negotiation may be used to assist the state in clarifying the scope of services or to obtain the most cost effective pricing available from the proposers. After the BAFO submissions, the amended sections are then re-evaluated and re-scored according to the evaluation process defined in the RFP.

*The written invitation to participate in BAFO will not obligate the state to a commitment to enter into a contract.*

1.19 **Acceptance of Proposal Content**

All proposals will be reviewed to determine compliance with administrative and mandatory requirements as specified in the RFP. Proposals that are not in compliance will be rejected from further consideration.

1.20 **Evaluation and Selection**

The evaluation of proposals will be performed by an evaluation team, to be designated by the State, which will determine the proposal most advantageous to the State, taking into consideration price and the other evaluation factors set forth in the RFP.
1.21 **Contract Award and Execution**

The State shall reserve the right to enter into a contract based on the initial offers received without further discussion of the proposal submitted.

The State shall reserve the right to contract for all or a partial list of services offered in the proposal.

The RFP and proposal of the selected Proposer shall become part of any contract initiated by the State.

The selected Proposer shall be expected to enter into a contract that is substantially the same as the sample contract included in Attachment II. Deviations from the boilerplate language may affect scoring. Additions to the boilerplate provisions may be negotiated after the award. Negotiations may begin with the announcement of the selected Proposer.

If the contract negotiation period exceeds ten (10) business days, the State may elect to cancel the award and award the contract to the next highest-ranked proposer.

1.22 **Notice of Intent to Award**

The evaluation team will compile the scores and make a recommendation to the head of the agency on the basis of the responsive and responsible proposer with the highest score.

The State will notify the successful Proposer and proceed to negotiate terms for final contract. Unsuccessful proposers will be notified in writing accordingly.

The proposals received (except for that information appropriately designated as confidential in accordance with R.S. 44.1 et seq), selection memorandum, list of criteria used with the weight assigned each criteria, scores of each proposal considered shall be made available, upon request, to all interested parties after the “Notice of Intent to Award” letter has been issued.

Any Proposer aggrieved by the proposed award has the right to submit a protest in writing to the head of the agency issuing the proposal within 14 calendar days after the award has been announced by the agency.

The award of a contract shall be subject to the approval of the Division of Administration, Office of State Procurement.

1.23 **Right to Prohibit Award**

In accordance with the provisions of R.S. 39:2192, in awarding contracts after August 15, 2010, any public entity shall be authorized to reject a proposal from, or not award the contract to, a business in which any individual with an ownership interest of five percent or more, has been convicted of, or has entered a plea of guilty or nolo contendere to any state felony or equivalent federal felony crime committed in the solicitation or execution of a contract or RFP awarded under the
laws governing public contracts under the provisions of Chapter 10 of Title 38 of the Louisiana Revised Statutes of 1950, professional, personal, consulting, and social services procurement under the provisions of Chapter 16 of this Title, or the Louisiana Procurement Code under the provisions of Chapter 17 of this Title.

1.24 **Insurance Requirements**

Refer to Attachment V, Insurance Requirements for Contractors.

1.25 **Force Majeure and Indemnification**

Contractor shall be fully liable for the actions of its agents, employees, partners or subcontractors. Contractor agrees to protect, defend, indemnify, save, and hold harmless, the State of Louisiana, all State Departments, Agencies, Boards and Commissions, its officers, agents, servants, employees, and volunteers, from and against any and all claims, damages, expenses, and liability arising out of injury or death to any person or the damage, loss or destruction of any property which may occur, or in any way grow out of, any act or omission of Contractor, its agents, servants, and employees, or any and all costs, expenses and/or attorney fees incurred by Contractor as a result of any claims, demands, suits or causes of action, except those claims, demands, suits, or causes of action arising out of the negligence of the State of Louisiana, all State Departments, Agencies, Boards, Commissions, its officers, agents, servants, employees and volunteers.

Contractor agrees to investigate, handle, respond to, provide defense for and defend any such claims, demands, suits, or causes of action at its sole expense and agrees to bear all other costs and expenses related thereto, even if the claims, demands, suits, or causes of action are groundless, false or fraudulent. The State of Louisiana may, but is not required to, consult with the Contractor in the defense of claims, but this shall not affect the Contractor’s responsibility for the handling of and expenses for all claims.

Unless otherwise specifically enumerated herein or in the work order mutually agreed between the parties, neither party shall be liable to the other for special, indirect or consequential damages, including lost data or records (unless the Contractor is required to back-up the data or records as part of the work plan), even if the party has been advised of the possibility of such damages. Neither party shall be liable for lost profits, lost revenue or lost institutional operating savings.

The State and Authorized User may, in addition to other remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor, or may proceed against the performance and payment
bond, if any, as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against them.

1.26 Copyright Infringement

The continuation of this contract is contingent upon the appropriation of funds by the legislature to fulfill the requirements of the contract by the legislature. If the legislature fails to appropriate sufficient monies to provide for the continuation of the contract, or if such appropriation is reduced by the veto of the Governor or by any means provided in the appropriations act of Title 39 of the Louisiana Revised Statutes of 1950 to prevent the total appropriation for the year from exceeding revenues for that year, or for any other lawful purpose, and the effect of such reduction is to provide insufficient monies for the continuation of the contract, the contract shall terminate on the date of the beginning of the first fiscal year for which funds have not been appropriated.

5  **Force Majeure and Copyright Infringement**

Neither party shall be liable for any delay or failure in performance beyond its control resulting from acts of God or force majeure. The parties shall use reasonable efforts to eliminate or minimize the effect of such events upon performance of their respective duties under Contract.

If applicable, Contractor will indemnify, defend and hold the State and its Authorized Users harmless, without limitation, from and against any and all damages, expenses (including reasonable attorneys' fees), claims, judgments, liabilities and costs which may be finally assessed against the State in any action for infringement of a United States Letter Patent with respect to the Products furnished, or of any copyright, trademark, trade secret or intellectual property right, provided that the State shall give the Contractor: (i) prompt written notice of any action, claim or threat of infringement suit, or other suit, (ii) the opportunity to take over, settle or defend such action, claim or suit at Contractor's sole expense, and (iii) assistance in the defense of any such action at the expense of Contractor. Where a dispute or claim arises relative to a real or anticipated infringement, the State or its Authorized Users may require Contractor, at its sole expense, to submit such information and documentation, including formal patent attorney opinions, as the Commissioner of Administration shall require.

The Contractor shall not be obligated to indemnify that portion of a claim or dispute based upon: i) Authorized User's unauthorized modification or alteration of a Product, Material or Service; ii) Authorized User's use of the Product in combination with other products not furnished by Contractor; iii) Authorized User's use in other than the specified operating conditions and environment.

In addition to the foregoing, if the use of any item(s) or part(s) thereof shall be enjoined for any reason or if Contractor believes that it may be enjoined, Contractor shall have the right, at its own expense and sole discretion as the Authorized User's exclusive remedy to take action in the following order of precedence: (i) to procure for the State the right to continue using such item(s) or part (s) thereof, as applicable; (ii) to modify the component so that it becomes non-infringing equipment of at least equal quality and performance; or (iii) to replace said item(s) or part(s) thereof, as applicable, with non-infringing components of at least equal
quality and performance, or (iv) if none of the foregoing is commercially reasonable, then provide monetary compensation to the State up to the dollar amount of the Contract.

Unless otherwise specifically enumerated herein or in the work order mutually agreed between the parties, neither party shall be liable to the other for special, indirect or consequential damages, including lost data or records (unless the Contractor is required to back-up the data or records as part of the work plan), even if the party has been advised of the possibility of such damages. Neither party shall be liable for lost profits, lost revenue or lost institutional operating savings.

The State and Authorized User may, in addition to other remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor, or may proceed against the performance and payment bond, if any, as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against them.

12 SUBCONTRACTORS

The Contractor may, with prior written permission from ORM, enter into subcontracts with third parties for the performance of any part of the Contractor's duties and obligations. ** Number of Available Employees – the number of employees in the Proposer’s firm/team qualified for the attached job classifications and available to work on this project and be deployed within 72 hours upon request from ORM. (These numbers will not be used to calculate the weighted average rate per hour.)

*** Hourly rate proposed shall be inclusive of all charges. No additional expenses of any sort will be paid separately under the contract.

**** Multiply the “weight factor” times the “hourly rate” and place the product in this column. The total will then be divided by five to arrive at a Weighted Average Rate Per Hour.
Weight factor refers to how much each job classification will be needed. For example, the State anticipates that the Project Manager position will be utilized 5 times more than the Principal Program Manager position. The weight factor does not refer to the number of employees anticipated in that position.

Use of the weight factors is for evaluation purposes only. Awarded Proposer shall be responsible for providing actual number of personnel & job classes required to successfully meet the contract requirements subject to the approval of the State.

ATTACHMENT VI: ELECTRONIC VENDOR PAYMENT SOLUTION

In an effort to increase efficiencies and effectiveness as well as be strategic in utilizing technology and resources for the State and Contractor, the State intends to make all payments to Contractors electronically. The LaCarte Procurement Card will be used for purchases of $5,000 and under, and where feasible, over $5,000. Contractors will have a choice of receiving electronic payment for all other payments by selecting the Electronic Vendor Payment solution (EVP) or Electronic Funds Transfer (EFT). If you receive an award and do not currently accept the LaCarte card or EVP or have not already enrolled in EFT, you will be asked to comply with this request by choosing either the LaCarte Procurement Card and/or ONLY one (1) of the following options: EVP or EFT. You may indicate your acceptance below.

The LaCarte Procurement Card uses a Visa card platform. Contractors receive payment from state agencies using the card in the same manner as other Visa card purchases. Contractors cannot process payment transactions through the credit card clearinghouse until the purchased products have been shipped or received or the services performed.

For all statewide and agency term contracts:

- Under the LaCarte program, purchase orders are not necessary. Orders must be placed against the net discounted products of the contract. All contract terms and conditions apply to purchases made with LaCarte.
- If a purchase order is not used, the Contractor must keep on file a record of all LaCarte purchases issued against this contract during the contract period. The file must contain the particular item number, quantity, line total and order total. Records of these purchases must be provided to the Office of State Purchasing on request.

**EVP** method converts check payments to a Visa credit card thereby streamlining payments to your organization. Participants receive a credit card account number with unique security features. This card will have $0 available funds until an invoice is approved for payment. As payments are approved, electronic remittance notifications are sent via email along with approval to charge the card for that amount. EVP requires no change to current invoice procedures; it is secure, and does not require your bank information. Charges may apply.

**EFT** payments are sent from the State’s bank directly to the payee’s bank each weekday. The only requirement is that you have an active checking or savings account at a financial institution that can accept Automated Clearing House (ACH) credit files and remittance information electronically. Additional information is available at: [http://www.doa.la.gov/OSRAP/EFTforWebsite.pdf](http://www.doa.la.gov/OSRAP/EFTforWebsite.pdf).

To facilitate this payment process, you will need to complete and return both EFT enrollment forms found at: [http://www.doa.la.gov/Pages/osrap/Forms/Forms.aspx](http://www.doa.la.gov/Pages/osrap/Forms/Forms.aspx) and [http://www.doa.la.gov/OSRAP/EFTforWebsite.pdf](http://www.doa.la.gov/OSRAP/EFTforWebsite.pdf)
