### **§605. Board-Approved Supervised Practice Requirements for Provisional Licensed Professional Counselors**

#### **A. Board-Approved Supervision Requirements**

1. Supervision is defined as assisting the provisional licensed professional counselor (supervisee) in developing expertise in methods of the professional mental health counseling practice and in developing self-appraisal and professional development strategies. Supervision must comply with standards as set by the board.

2. Pursuant to R.S. 37:1107(A), a supervisee must document a minimum of 3,000 hours of post-master's experience in professional mental health counseling under the clinical supervision of a board-approved supervisor, with said supervision occurring over a period of no less than two years and not more than six years from the original date such supervision was approved. A supervisee must remain under supervision of a board-approved supervisor until receiving written notification of approval for licensure.

a.i. Based on the above, the required 3,000 hours of counseling/psychotherapeutic experience shall be accrued in the following manner:

(a). a minimum of 1,900 hours (up to 2,900) in direct counseling/psychotherapeutic services involving individuals, couples, families, or groups;

i. An applicant may utilize supervised direct hours earned in post-master's degree practicum and internship courses in counseling (from a regionally accredited university) toward the required 1900 hours of direct counseling/psychotherapeutic services. In order to be counted, the direct hours earned in practicum and internship courses must have occurred after the applicant has been approved for provisional licensure and is under the supervision of the applicant's board approved supervisor. An applicant may not count hours spent supervising others (i.e., supervision courses, doctoral students supervising master's level students) as direct hours.

(b). a maximum of 1,000 hours in additional client contact, counseling related activities (i.e., case notes, staffing, case consultation, or testing/assessment of clients) or education at the graduate level in the field of mental health as defined above;

i. Five hundred indirect hours of supervised experience may be gained for each 30 graduate semester hours earned beyond the required master's degree provided that such hours are clearly related to the field of mental health counseling, are earned from a regionally accredited institution, and are acceptable to the board. Practicum and internship courses may not be included in the 30 graduate semester hours that are used to substitute for 500 hours of supervised experience if they are used to count toward an applicant's direct hours.

(c). a minimum of 100 hours of face-to-face supervision by a board-approved supervisor. Up to 25 of the

100 face-to-face hours may be conducted by synchronous videoconferencing.

i. The board recommends one hour of supervision for every 20 hours of direct client contact as outlined in Subclause A.2.a.i.(a). Supervision may not take place via mail, email, or telephone. Telephone, mail, or email contacts with supervisor may be counted under Subclause A.2.a.i.(b) (i.e., consultation), however, it cannot be counted as face to face supervision as defined in Subclause A.2.a.i.(c).

ii. Acceptable modes for supervision of direct clinical contact are the following.

(a.) Individual Supervision. The supervisory session is conducted by the board-approved supervisor(s) with one provisional licensed professional counselor present.

(b.) Group Supervision. The supervisory session is conducted by the board-approved supervisor(s) with no more than 10 provisional licensed professional counselors present.

iii. At least 100 hours of the provisional licensed professional counselor's direct clinical contact with clients must be supervised by the board-approved supervisor(s), as defined below.

(a.) At least 50 of these 100 hours must be individual supervision as defined above.

(b.) The remaining 50 hours of these 100 hours may be either individual supervision or group supervision as defined above.

B. Responsibility of Supervisee under Board-Approved Supervision

1. During the period of supervised counseling/psychotherapy experience, the only proper identification title is provisional licensed professional counselor or PLPC. Provisional licensed professional counselors shall not identify or represent themselves by any other term or title, including "licensed", "fully licensed", "Licensed Professional Counselor", "LPC", or "counselor".

2. Each provisional licensed professional counselor must provide his/her clients with a disclosure statement (as outlined in the Appendix of the Code of Conduct) that includes:

a. his/her training status; and  
b. the name of his/her supervisor for licensure purposes.

3. Provisional licensed professional counselors must comply with all laws and regulations relating to the practice of mental health counseling (R.S. 37:1101-1123).

4. The provisional licensed professional counselor must maintain contact with his/her board-approved supervisor to ensure that active supervision requirements (as defined in Chapter 5) are met.

5. Provide updates to the board and board-approved supervisor regarding changes in status on forms provided by the board within 30 days of said change. Failure to comply may result in a fine, loss of supervised experience hours, and/or disciplinary action. Changes in status include changes in:

a. relevant personal information, including contact information, physical address, name;  
b. relevant practice setting information, including job title/duties, employment status;  
c. status with the justice system, including notification of arrest, charges, convictions,  
d. status with another licensure/credentialing body, including notification of suspension, revocation, or other disciplinary proceedings/actions.  
e. the use of any narcotics, controlled substances, or any alcoholic beverages in a manner that is dangerous to the public or in a manner that impairs the supervisee's ability to provide mental health services to the public.

f. any medical condition which may in any way impair or limit the supervisee's ability to provide mental health services to the public with reasonable skill or safety.

6. The supervisee must maintain documentation of all supervised experience hours by employment location and type of hour (indirect, direct, and face to face supervision). It is recommended that a supervisee obtain the signature of the board-approved supervisor indicating review and approval of documentation at regular intervals.

7. The supervisee must renew his/her provisional license in accordance with Chapter 6, Section 611 and

maintain a valid provisional license in order to practice mental health counseling.

B. An applicant must also be in good standing in all jurisdictions in which they are licensed or credentialed and must not have been disciplined in any jurisdiction for an act that would have constituted grounds for refusal, suspension, or revocation of a license or credential to practice mental health counseling in the state of Louisiana at the time the act was committed.

### **§611. Continuing Education Requirements for Provisional Licensed Professional Counselors**

A. A provisional licensee must accrue 20 clock hours of continuing education by every renewal period every two years. Of the 20 clock hours of continuing education, one and a half clock hours must be accrued in ethics and one and a half clock hours must be accrued in diagnosis (assessment, diagnosis, and treatment under the *Diagnostic and Statistical Manual of Mental Disorders 5*, as published by the American Psychiatric Association).

1. One continuing education hour (CEH) is equivalent to one clock hour.

2. Accrual of continuing education begins only after the date the license was issued.

3. CEHs accrued beyond the required 20 hours may not be applied toward the next renewal period. A provisional licensee renewal period runs November 1 to October 31, every two years.

4. The licensee is responsible for keeping a personal record of his/her CEHs until official notification of renewal is received. Licensees should not forward documentation of CEHs to the board office as they are accrued.

5. At the time of renewal, 10 percent of the licensees will be audited to ensure that the continuing education requirement is being met. Audited licensees will be notified to submit documentation of accrued CEHs.

B. Approved Continuing Education for Provisional Licensed Professional Counselors

1. Continuing education requirements are meant to encourage personal and professional development throughout the licensee's career. For this reason, a wide range of options are offered to accommodate the diversity of licensees' training, experience, and geographic locations.

2. A licensee may obtain the 20 CEHs through one or more of the options listed below. A maximum of 10 CEHs may be obtained through an online format, with the exception of coursework obtained through a regionally accredited institution of higher education.

a. Continuing Education Approved by Other Organizations. Continuing education that is approved by either the American Counseling Association (ACA), its divisions, regions and state branches, Louisiana Counseling Association (LCA), or the National Board of Certified Counselors (NBCC) will be accepted by the Board of Examiners. One may contact these associations to find out which organizations, groups or individuals are approved providers. One may receive one clock hour of continuing education for each hour of direct participation in a structured educational format as a learner. Credit cannot be granted for: business/governance meetings; breaks; social activities including meal functions, except for actual time of a content speaker. Credit cannot be given for an approved session to persons who leave early from that session. Verification can consist of copies of certificates of attendance.

b. Continuing Education Not Preapproved. For those organizations, groups or individuals that do not carry provider status by one of the associations listed in Subparagraph a of this Paragraph, the continuing education hours will be subject to approval by the Licensed Professional Counselors Board of Examiners at the time of renewal. The board will not pre-approve any type of continuing education. The continuing education must be in one of the 14 approved content areas listed in §611.C, and be given by a qualified presenter. A qualified presenter is considered to be someone at the master's level or above and trained in the mental health field or related services. One may receive one clock hour of continuing education for each hour of direct participation in a structured educational format as a learner. Credit cannot be granted for

business/governance meetings, breaks, social activities, including meal functions, except for actual time of a content speaker. Credit cannot be given for an approved session to persons who leave early from that session. Verification for workshops, seminars, or conventions can consist of copies of certificates of attendance. Typically one continuing education unit (CEU) is equivalent to 10 clock hours (CEH).

c. Coursework. CEHs may also be gained by taking coursework (undergraduate or graduate) from a regionally accredited institution in one of the 12 approved content areas for continuing education listed in §611.C. One may take a course for credit or audit a course. In a college or university program, one semester hour is equivalent to 15 clock hours and one quarter hour is equivalent to 10 clock hours. Therefore, 45 CEHs will be given for a three hour university course completed at a regionally accredited university. Verification for coursework can consist of either copies of transcripts for coursework taken for credit or letter of attendance from instructor for courses audited.

Each option must carry a provider number from either NBCC, ACA, LCA, or other board-approved mental health organizations. Each activity will specify the number of CEHs that will be granted upon completion. Verification consists of a certificate issued by NBCC, ACA, LCA, or certificates from other professional mental health organizations that will be reviewed by the board.

e. Presentations (5 hours maximum per renewal period). Presenters may get credit for original presentations at a rate of five clock hours per one hour presentation. Presenters must meet the qualifications stated in Subparagraph B.2.b above. The presentation must be to the professional community, not to the lay public or a classroom presentation. The presentation must also be in one of the 14 approved content areas listed in §611.C. Verification of the presentation consists of obtaining a letter from the workshop/convention coordinator stating the topic, date, and number of hours of presentation.

f. Publishing (5 hours maximum per renewal period). Authors may receive five clock hours per article or chapter in a book. The article must be published in a professional refereed journal. Both articles and chapters must be in one of the 14 approved content areas listed in §611.C. Verification will consist of either a reprint of the article/chapter, or a copy of the article/chapter, cover of the book/journal and page listing the editor or publisher.

g. Counseling (5 hours maximum per renewal period). One may receive one clock hour of continuing education per counseling hour as a client. To qualify, one must be a client receiving services from a licensed mental health professional having qualifications equal to, or exceeding, those currently required of counselors. Consultation and supervision hours do not qualify. Verification will consist of a letter from the counseling mental health professional verifying client therapy hours.

4. CEHs accrued beyond the required 40 hours may not be applied toward the next renewal period. Renewal periods run from July 1 to June 30, every two years.

5. The licensee is responsible for keeping a personal record of his/her CEHs until official notification of renewal is received. Licensees should not forward documentation of CEHs to the board office as they are accrued.

6. At the time of renewal, 10 percent of the licensees will be audited to ensure that the continuing education requirement is being met. Audited licensees will be notified to submit documentation of accrued CEHs.

### **§2103. Counseling Relationship**

A. Licensees encourage client growth and development in ways that foster the interest and welfare of clients and promote formation of healthy relationships. Licensees actively attempt to understand the diverse cultural backgrounds of the clients they serve. Licensees also explore their own cultural identities and how these affect their values and beliefs about the counseling process. Licensees are encouraged to contribute to society by devoting a portion of their professional activity to services for which there is little or no financial return (pro bono publico).

#### **1. Welfare of Those Served by Licensees**

a. Primary Responsibility. The primary responsibility of licensees is to respect the dignity and to promote the welfare of clients.

b. Records. Licensees maintain records necessary for rendering professional services to their clients and as required by laws (see Chapter 15, §1505.A.), regulations, or agency or institution procedures. Licensees include sufficient and timely documentation in their client records to facilitate the delivery and continuity of needed services. Licensees take reasonable steps to ensure that documentation in records accurately reflects client progress and services provided. If errors are made in client records, licensees take steps to properly note the correction of such errors according to agency or institutional policies.

c. Counseling Plans. Licensees and their clients work jointly in devising integrated, counseling plans that offer reasonable promise of success and are consistent with abilities and circumstances of clients. Licensees and clients regularly review counseling plans to ensure their continued viability and effectiveness, respecting the freedom of choice of clients.

d. Support Network Involvement. Licensees recognize that support networks hold various meanings in the lives of clients and consider enlisting the support, understanding, and involvement of others (e.g., religious/spiritual/community leaders, family members, friends) as positive resources, when appropriate, with client consent.

e. Employment Needs. Licensees work with their clients considering employment in jobs that are consistent with the overall abilities, vocational limitations, physical restrictions, general temperament, interest and aptitude patterns, social skills, education, general qualifications, and other relevant characteristics and needs of clients. When appropriate, licensees appropriately trained in career development will assist in the placement of clients in positions that are consistent with the interest, culture, and the welfare of clients, employers, and/or the public.

#### **2. Informed Consent in the Counseling Relationship**

a. Informed Consent. Clients have the freedom to choose whether to enter into or remain in a counseling

relationship and need adequate information about the counseling process, and the counselor. Licensees have an obligation to review, in writing and verbally with clients, the rights and responsibilities of both the licensee and the client. Informed consent is an ongoing part of the counseling process, and licensees appropriately document discussions of informed consent throughout the counseling relationship.

b. Types of Information Needed

i. Licensees explicitly explain to clients the nature of all services provided. They inform clients about issues such as, but not limited to, the following:

(a). the purposes, goals, techniques, procedures, limitations, potential risks, and benefits of services;

(b). the licensee's qualifications, credentials, and relevant experience;

(c). continuation of services upon the incapacitation or death of a counselor; and

(d). other pertinent information.

ii. Licensees take steps to ensure that clients understand the implications of diagnosis, the intended use of tests and reports, fees, and billing arrangements.

iii.–iii.(d). ...

c. Development and Cultural Sensitivity. Licensees communicate information in ways that are both developmentally and culturally appropriate. Licensees use clear and understandable language when discussing issues related to informed consent. When clients have difficulty understanding the language used by licensees, they provide necessary services (e.g., arranging for a qualified interpreter or translator) to ensure comprehension by clients. In collaboration with clients, licensees consider cultural implications of informed consent procedures and, where possible, licensees adjust their practices accordingly.

d. Inability to Give Consent. When counseling minors or persons unable to give voluntary consent, licensees seek the assent of clients to services, and include them in decision making as appropriate. Licensees recognize the need to balance the ethical rights of clients to make choices, their capacity to give consent or assent to receive services, and parental or familial legal rights and responsibilities to protect these clients and make decisions on their behalf.

3. Clients Served by Others. When licensees learn that their clients are in a professional relationship with another mental health professional, they request written release of information that the clients sign in order to communicate with other professionals and strive to establish positive and collaborative professional relationships.

4. Avoiding Harm and Imposing Values

a. Avoiding Harm. Licensees act to avoid harming their clients, trainees, and research participants and to minimize or to remedy unavoidable or unanticipated harm.

b. Personal Values. Licensees are aware of their own values, attitudes, beliefs, and behaviors and avoid imposing values that are inconsistent with counseling goals. Licensees respect the diversity of clients, trainers, and research participants.

5. Roles and Relationships with Clients

a. Current Clients. Sexual or romantic licensee-client interaction or relationships with current clients, their romantic partners, or their family members are prohibited.

b. Former Clients. Sexual or romantic client interactions or relationships with former clients, their romantic partners, or their family members are prohibited for a period of five years following the last professional contact. Licensees, before engaging in sexual or romantic interactions or relationships with clients their romantic partners, or client family members after five years following the last professional contact, demonstrate forethought and document (in written form) whether the interactions or relationships can be viewed as exploitive in some way and/or whether there is still potential to harm the former client; in cases of potential exploitation and/or harm, the counselor avoids entering such an interaction or relationship.

c. Nonprofessional Interactions or Relationships (other than sexual or romantic interactions or relationships). Licensee-client nonprofessional relationships with clients, former clients, their romantic partners, or their family members should be avoided, except when the interaction is potentially beneficial to the client.

d. Potentially Beneficial Interactions. When a licensee-client nonprofessional interaction with a client or

former client may be potentially beneficial to the client or former client, the licensee must document in case records, prior to the interaction (when feasible), the rationale for such an interaction, the potential benefit, and anticipated consequences for the client or former client and other individuals significantly involved with the client or former client. Such interactions should be initiated with appropriate client consent. Where unintentional harm occurs to the client or former client, or to an individual significantly involved with the client or former client, due to the non professional interaction, the licensee must show evidence of an attempt to remedy such harm. Examples of potentially beneficial interactions include, but are not limited to:

i. – iii. ...

e. Role Changes in the Professional Relationship. When a licensee changes a role from the original or most recent contracted relationship, he or she obtains informed consent from the client and explains the right of the client to refuse services related to the change. Examples of role changes include:

i. – ii. ...

iii. changing from a licensee to a researcher role (i.e., enlisting clients as research participants), or vice versa; and

iv. changing from a licensee to a mediator role, or vice versa.

(a). Clients must be fully informed of any anticipated consequences (e.g., financial, legal, personal, or therapeutic) of licensee role changes.

6. Roles and Relationships at Individual, Group, Institutional and Societal Levels

a. Advocacy. When appropriate, licensees advocate at individual, group, institutional, and societal levels to examine potential barriers and obstacles that inhibit access and/or the growth and development of clients.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Licensed Professional Counselors Board of Examiners, LR 15:625 (August 1989), amended LR 24:443 (March 1998), LR 29:147 (February 2003), LR 41:

### **§2113. Supervision, Training, and Teaching**

A. Licensees aspire to foster meaningful and respectful professional relationships and to maintain appropriate boundaries with supervisees and students. Licensees have theoretical and pedagogical foundations for their work and aim to be fair, accurate, and honest in their assessments of counselors-in-training.

#### 1. Provisional Licensed Professional Counselor Supervision and Client Welfare

a. Client Welfare. A primary obligation of counseling supervisors is to monitor the services provided by other licensees or counselors-in-training. Counseling supervisors monitor client welfare and supervisee clinical performance and professional development. To fulfill these obligations, supervisors meet regularly with supervisees to review case notes, samples of clinical work, or live observations. Supervisees have a responsibility to understand and follow the code of conduct and standards of practice.

b. Provisional Licensed Professional Counselor Credentials. Counseling supervisors work to ensure that clients are aware of the qualifications of the supervisees who render services to the clients.

c. ...

#### 2. Provisional Licensed Professional Counselor Supervision Competence

a. Supervisor Preparation. Prior to offering clinical supervision services, licensed professional counselors are trained in supervision methods and techniques. Licensed Professional Counselors who offer clinical supervision services regularly pursue continuing education activities including both counseling and supervision topics and skills.

b. ...

3. – 3.d. ...

e. Potentially Beneficial Relationships. Counseling supervisors are aware of the power differential in their relationships with supervisees. If they believe nonprofessional relationships with a supervisee may be potentially beneficial to the supervisee, they take precautions similar to those taken by licensees when working with clients. Examples of potentially beneficial interactions or

relationships include attending a formal ceremony; hospital visits; providing support during a stressful event; or mutual membership in a professional association, organization, or community. Counseling supervisors engage in open discussions with supervisees when they consider entering into relationships with them outside of their roles as clinical and/or administrative supervisors. Before engaging in nonprofessional relationships, supervisors discuss with supervisees and document the rationale for such interactions, potential benefits or drawbacks, and anticipated consequences for the supervisee. Supervisors clarify the specific nature and limitations of the additional role(s) they will have with the supervisee.

4. – 4.b. ...

c. Standards for Supervisees. Supervisors make their supervisees aware of professional and ethical standards and legal responsibilities. Supervisors of provisional licensed professional counselors encourage these supervisees to adhere to professional standards of practice.

4. d. – 5.b. ...

c. Counseling for Supervisees. If supervisees request counseling, supervisors provide them with acceptable referrals. Supervisors do not provide counseling services to their supervisees. Supervisors address interpersonal competencies in terms of the impact of these issues on clients, the supervisory relationship, and professional functioning (see F.3.a).

5. d. – 7.b. ...

#### 8. Student Responsibilities

a. Standards for Students. Counselors-in-training have a responsibility to understand and follow the ACA code of ethics and Code of Conduct adopted by the LPC Board and adhere to applicable laws, regulatory policies, and rules and policies governing professional staff behavior at the agency or placement setting. Students have the same obligation to clients as those required of licensees.

b. ...

#### 9. Evaluation and Remediation of Students

a. Evaluation. Counselor educators clearly state to students, prior to and throughout the training program, the levels of competency expected, appraisal methods, and timing of evaluations for both didactic and clinical competencies. Counselor educators provide students with ongoing performance appraisal and evaluation feedback throughout the training program.

9. b. – 10.e. ...

f. Potentially Beneficial Relationships. Counselor educators are aware of the power differential in the relationship between faculty and students. If they believe a nonprofessional relationship with a student may be potentially beneficial to the student, they take precautions similar to those taken by licensees when working with clients. Examples of potentially beneficial interactions or relationships include, but are not limited to, attending a formal ceremony; hospital visits; providing support during a stressful event; or mutual membership in a professional association, organization, or community. Counselor educators engage in open discussions with students when they consider entering into relationships with students outside of their roles as teachers and supervisors. They discuss with students the rationale for such interactions, the potential benefits and drawbacks, and the anticipated consequences for the student. Educators clarify the specific nature and limitations of the additional role(s) they will have with the student prior to engaging in a nonprofessional relationship. Nonprofessional relationships with students should be time-limited and initiated with student consent.

### §2115. Research and Publication

A. Licensees who conduct research are encouraged to contribute to the knowledge base of the profession and promote a clearer understanding of the conditions that lead to a healthy and more just society. Licensees support efforts of researchers by participating fully and willingly whenever possible. Licensees minimize bias and respect diversity in designing and implementing research programs.

#### 1. Research Responsibilities

a. Use of Human Research Participants. Licensees plan, design, conduct, and report research in a manner that is consistent with pertinent ethical principles, federal and state laws, host institutional regulations, and scientific standards governing research with human research participants.

b. Deviation from Standard Practice. Licensees seek consultation and observe stringent safeguards to protect the rights of research participants when a research problem suggests a deviation from standard or acceptable practices.

c. ...

d. Precautions to Avoid Injury. Licensees who conduct research with human participants are responsible for the welfare of participants throughout the research process and should take reasonable precautions to avoid causing injurious psychological, emotional, physical, or social effects to participants.

e. ...

f. Minimal Interference. Licensees take reasonable precautions to avoid causing disruptions in the lives of research participants that could be caused by their involvement in research.

g. Multicultural/Diversity Considerations in Research. When appropriate to research goals, licensees are sensitive to incorporating research procedures that take into account cultural considerations. They seek consultation when appropriate.

#### 2. Rights of Research Participants

a. Informed Consent in Research. Individuals have the right to consent to become research participants. In seeking consent, licensees use language that:

i. - ix. ...

b. Deception. Licensees do not conduct research involving deception unless alternative procedures are not feasible and the prospective value of the research justifies the deception. If such deception has the potential to cause physical or emotional harm to research participants, the research is not conducted, regardless of prospective value. When the methodological requirements of a study necessitate concealment or deception, the investigator explains the reasons for this action as soon as possible during the debriefing.

c. ...

d. Client Participation. Licensees conducting research involving clients make clear in the informed consent process that clients are free to choose whether or not to participate in research activities. Licensees take necessary precautions to protect clients from adverse consequences of declining or withdrawing from participation.

e. ...

f. Persons Not Capable of Giving Informed Consent. When a person is not capable of giving informed consent, licensees provide an appropriate explanation to, obtain agreement for participation from, and obtain the appropriate consent of a legally authorized person.

g. Commitments to Participants. Licensees take reasonable measures to honor all commitments to research participants.

h. Explanations after Data Collection. After data are collected, licensees provide participants with full clarification of the nature of the study to remove any misconceptions participants might have regarding the research. Where scientific or human values justify delaying or withholding information, licensees take reasonable measures to avoid causing harm.

i. Informing Sponsors. Licensees inform sponsors, institutions, and publication channels regarding research procedures and outcomes. Licensees ensure that appropriate bodies and authorities are given pertinent information and acknowledgement.

j. Disposal of Research Documents and Records. Within a reasonable period of time following the completion of a research project or study, licensees take steps to destroy records or documents (audio, video, digital, and written) containing confidential data or information that identifies research participants. When records are of an artistic nature, researchers obtain participant consent with regard to handling of such records or documents.

3.-3.d. ...

#### 4. Reporting Results

a. Accurate Results. Licensees plan, conduct, and report research accurately. They provide thorough

discussions of the limitations of their data and alternative hypotheses. Licensees do not engage in misleading or fraudulent research, distort data, misrepresent data, or deliberately bias their results. They explicitly mention all variables and conditions known to the investigator that may have affected the outcome of a study or the interpretation of data. They describe the extent to which results are applicable for diverse populations.

b. **Obligation to Report Unfavorable Results.** Licensees report the results of any research of professional value. Results that reflect unfavorably on institutions, programs, services, prevailing opinions, or vested interests are not withheld.

c. **Reporting Errors.** If licensees discover significant errors in their published research, they take reasonable steps to correct such errors in a correction erratum, or through other appropriate publication means.

d. **Identity of Participants.** Licensees who supply data, aid in the research of another person, report research results, or make original data available take due care to disguise the identity of respective participants in the absence of specific authorization from the participants to do otherwise. In situations where participants self-identify their involvement in research studies, researchers take active steps to ensure that data are adapted/changed to protect the identity and welfare of all parties and that discussion of results does not cause harm to participants.

e. **Replication Studies.** Licensees are obligated to make available sufficient original research data to qualified professionals who may wish to replicate the study.

## 5. Publication

a. **Recognizing Contributions.** When conducting and reporting research, licensees are familiar with and give recognition to previous work on the topic, observe copyright laws, and give full credit to those to whom credit is due.

b. **Plagiarism.** Licensees do not plagiarize, that is, they do not present another person's work as their own work.

c. **Review/Republication of Data or Ideas.** Licensees fully acknowledge and make editorial reviewers aware of prior publication of ideas or data where such ideas or data are submitted for review or publication.

d. **Contributors.** Licensees give credit through joint authorship, acknowledgment, footnote statements, or other appropriate means to those who have contributed significantly to research or concept development in accordance with such contributions. The principal contributor is listed first and minor technical or professional contributions are acknowledged in notes or introductory statements.

e. **Agreement of Contributors.** Licensees who conduct joint research with colleagues or students/supervisees establish agreements in advance regarding allocation of tasks, publication credit, and types of acknowledgement that will be received.

f. ...

g. **Duplicate Submission.** Licensees submit manuscripts for consideration to only one journal at a time. Manuscripts that are published in whole or in substantial part in another journal or published work are not submitted for publication without acknowledgment and permission from the previous publication.

h. **Professional Review.** Licensees who review material submitted for publication, research, or other scholarly purposes respect the confidentiality and proprietary rights of those who submitted it. Licensees use care to make publication decisions based on valid and defensible standards. Licensees review article submissions in a timely manner and based on their scope and competency in research methodologies. Licensees who serve as reviewers at the request of editors or publishers make every effort to only review materials that are within their scope of competency and use care to avoid personal biases.

### **§2117. Resolving Ethical Issues**

A. Licensees behave in a legal, ethical, and moral manner in the conduct of their professional work. They are aware that client protection and trust in the profession depend on a high level of professional conduct. They hold

other licensees to the same standards and are willing to take appropriate action to ensure that these standards are upheld. Licensees strive to resolve ethical dilemmas with direct and open communication among all parties involved and seek consultation with colleagues and supervisors when necessary. Licensees incorporate ethical practice into their daily professional work. They engage in ongoing professional development regarding current topics in ethical and legal issues in counseling.

#### 1. Standards and the Law

a. **Knowledge.** Licensees understand the ACA code of conduct and other applicable ethics codes from other professional organizations or from certification and licensure bodies of which they are members. Lack of knowledge or misunderstanding of an ethical responsibility is not a defense against a charge of unethical conduct.

b. **Conflicts between Ethics and Laws.** If ethical responsibilities conflict with law, regulations, or other governing legal authority, licensees make known their commitment to the code of conduct and standards of practice and take steps to resolve the conflict. If the conflict cannot be resolved by such means, licensees may adhere to the requirements of law, regulations, or other governing legal authority.

#### 2. Suspected Violations

a. **Ethical Behavior Expected.** Licensees expect colleagues to adhere to the code of conduct and standards of practice. When licensees possess knowledge that raises doubts as to whether another licensee is acting in an ethical manner, they take appropriate action.

b. **Informal Resolution.** When licensees have reason to believe that another licensee is violating or has violated an ethical standard, they attempt first to resolve the issue informally with the other licensee, if feasible, provided such action does not violate confidentiality rights that may be involved.

c. **Reporting Ethical Violations.** If an apparent violation has substantially harmed, or is likely to substantially harm a person or organization and is not appropriate for informal resolution or is not resolved properly, licensees take further action appropriate to the situation. Such action might include referral to state or national committees on professional ethics, voluntary national certification bodies, state licensing boards, or to the appropriate institutional authorities. This standard does not apply when an intervention would violate confidentiality rights or when licensees have been retained to review the work of another licensee whose professional conduct is in question.

d. **Consultation.** When uncertain as to whether a particular situation or course of action may be in violation of the code of conduct, licensees consult with other licensees who are knowledgeable about ethics and the code of conduct, with colleagues, or with appropriate authorities

e. **Organizational Conflicts.** If the demands of an organization with which licensees are affiliated pose a conflict with the code of conduct, licensees specify the nature of such conflicts and express to their supervisors or other responsible officials their commitment to the code of conduct. When possible, licensees work toward change within the organization to allow full adherence to the Code of Conduct of Ethics. In doing so, they address any confidentiality issues.

f. **Unwarranted Complaints.** Licensees do not initiate, participate in, or encourage the filing of ethics complaints that are made with reckless disregard or willful ignorance of facts that would disprove the allegation.

g. **Unfair Discrimination Against Complainants and Respondents.** Licensees do not deny persons employment, advancement, admission to academic or other programs, tenure, or promotion based solely upon their having made or their being the subject of an ethics complaint. This does not preclude taking action based upon the outcome of such proceedings or considering other appropriate information.

#### 3. Cooperation with Ethics Committees

a. Licensees assist in the process of enforcing the code of conduct. Licensees cooperate with investigations, proceedings, and requirements of the LPC Board disciplinary committee. Licensees are familiar with the code of conduct as established by the LPC Board and the professional and occupational standards and procedures for processing complaints of ethical violations as it pertains to

the enforcement of the code of conduct and standards of practice.

Approval of such experience as qualified supervision will be at the discretion of the advisory committee.

c. ...

c. The supervisee is responsible to collaborate with his supervisor(s) over the course of his or her postgraduate clinical experience to develop, maintain, and fulfill a plan of supervision that meets the developmental needs of the supervisee, provides for an appropriate level of professional care for the supervisee's clients, allows for the adequate monitoring of the supervisee's practice by the board-approved supervisor(s) or supervisor candidate, and allows for the supervisee's timely qualification as a LMFT.

### **Chapter 41. Informed Consent**

#### **§4101. General Provisions**

A. Licensees obtain appropriate informed consent to therapy or related procedures before the formal therapeutic process begins. Information provided to clients by licensees about the treatment process shall include, but is not limited to, the licensee's statement of practice as outlined in the Appendix (§4720). The licensee should be sure that the client understands all information provided before asking for consent to treatment. The content of informed consent may

vary depending on the client and treatment plan; however, informed consent generally necessitates that the client:

A.1. – A.5. ...

B. When persons, due to age or mental status, are legally incapable of giving informed consent, licensees obtain informed permission from a legally authorized person, if such substitute consent is legally permissible.

### **Chapter 43. Privileged Communications**

#### **§4301. Privileged Communication with Clients**

A. Licensees disclose to clients and other interested parties, as early as feasible in their professional contacts, the nature of confidentiality in the therapeutic process and possible limitations of the clients' right to confidentiality. Licensees review with clients the circumstances where confidential information may be requested and where disclosure of confidential information may be legally required. Circumstances may necessitate repeated disclosures. Licensees also shall be aware of specific ethical requirements concerning marriage and family therapy as specified in the Code of Ethics (Chapter 47) and in §4301.C.

B. Licensees do not disclose client confidences except by written authorization or waiver, court order, or where mandated or specifically permitted by law, or reasonably necessary to protect the client or other parties from a clear and imminent threat of serious physical harm. Verbal authorization may be sufficient in emergency situations or where otherwise permitted by law.

C. Licensees shall be cognizant of and adhere to any confidentiality requirement that may differ from requirements in other licenses they hold. Licensees have unique confidentiality concerns because the client in a therapeutic relationship may be more than one person. Licensees respect and guard the confidences of each individual client within the system of which they are working as well as the confidences of the system.

1. When providing couple, family, or group treatment, a licensee shall not disclose information outside the treatment context without a written authorization from each individual competent to execute a waiver.

2. In the context of couple, family, or group treatment, the licensee may not reveal any individual's confidences to others in the client unit without the prior written permission of that individual.

As stated in R.S. 37:1122(A), no person shall use of the title "Licensed Marriage and Family Therapist" or "Provisional Licensed Marriage and Family Therapist".

B. Nothing in this Chapter shall prevent qualified members of other professional groups as defined by the board upon recommendation of the advisory committee including but not limited to clinical social workers, psychiatric nurses, psychologists, physicians, licensed professional counselors, or members of the clergy, including Christian science practitioners, from doing or advertising that they perform work of a marriage and family therapy nature consistent with the accepted standards of their respective professions. However, no such person shall use the title "Licensed Marriage and Family Therapist" or "Provisional Licensed Marriage and Family Therapist". (R.S. 37:1121).

### **Chapter 47. Code of Ethics**

#### **§4701. General**

A. The Marriage and Family Therapy Advisory Committee strives to honor the public trust in licensed marriage and family therapists and provisional licensed

marriage and family therapists by setting the standards for ethical practice as described in this code of ethics.

B. Licensees have an obligation to be familiar with this code of ethics and its application to their professional services. They also must be familiar with any applicable ethical codes that govern other licensure that they hold or are responsible for through certification or membership in professional organizations. Lack of awareness or misunderstanding of an ethical standard is not a defense to a charge of unethical conduct.

C. These ethical standards govern the practice of marriage and family therapy and professional functioning of the advisory committee and shall be enforced by the board through the advisory committee.

#### **§4703. Resolving Ethical Issues**

A. The absence of an explicit reference to a specific behavior or situation in the code does not mean that the behavior is ethical or unethical. The standards are not exhaustive. Licensees shall consult with other licensees who are knowledgeable about ethics, with colleagues, with LMFT-approved supervisors, or with appropriate authorities when:

A. Licensees advance the welfare of families and individuals. They respect the rights of those persons seeking their assistance and make reasonable efforts to ensure that their services are used appropriately.

B. Licensees provide professional assistance to persons without discrimination on the basis of race, age, ethnicity, socioeconomic status, disability, gender, health status, religion, national origin, or sexual orientation.

C. Licensees obtain appropriate informed consent to therapy or related procedures early in the therapeutic relationship, usually before the therapeutic relationship begins, and use language that is reasonably understandable to clients. The licensee will provide all clients with a statement of practice subject to review and approval by the advisory committee (See §4720, Appendix). The content of informed consent may vary depending upon the licensee's areas of expertise, the client(s) and treatment plan.

C.1. – C.1.c. ...

2. When persons, due to age or mental status, are legally incapable of giving informed consent, licensees obtain informed permission from a legally authorized person, if such substitute consent is legally permissible.

D. Licensees are aware of their influential positions with respect to clients, and they avoid exploiting the trust and dependency of such persons. Licensees, therefore, make every effort to avoid conditions and multiple relationships with clients that could impair professional judgment or increase the risk of exploitation. Such relationships include, but are not limited to, business or close personal relationships with a client or the client's immediate family. When the risk of impairment or exploitation exists due to conditions or multiple roles, therapists take appropriate precautions.

E. ...

F. Sexual intimacy with former clients is likely to be harmful and is therefore prohibited for two years following the termination of therapy or last professional contact. In an effort to avoid exploiting the trust and dependency of clients, licensees should not engage in sexual intimacy with former clients after the two years following termination or last professional contact. Should licensees engage in sexual intimacy with former clients following two years after termination or last professional contact, the burden shifts to the licensee to demonstrate that there has been no exploitation or injury to the former client or to the client's immediate family.

G. Licensees comply with applicable laws regarding the reporting of alleged unethical conduct.

H. Licensees do not use their professional relationships with clients to further their own interests.

I. Licensees respect the rights of clients to make decisions and help them to understand the consequences of these decisions. Licensees clearly advise the clients that they have the responsibility to make decisions regarding relationships such as cohabitation, marriage, divorce, separation, reconciliation, custody, and visitation.

J. Licensees continue therapeutic relationships only so long as it is reasonably clear that clients are benefiting from the relationship.

K. Licensees assist persons in obtaining other therapeutic services if the licensee is unable or unwilling, for appropriate reasons, to provide professional help.

L. Licensees do not abandon or neglect clients in treatment without making reasonable arrangements for the continuation of such treatment.

M. Licensees obtain written informed consent from clients before videotaping, audio recording, or permitting third-party observation.

N. Licensees, upon agreeing to provide services to a person or entity at the request of a third party, clarify, to the extent feasible and at the outset of the service, the nature of the relationship with each party and the limits of confidentiality.

#### **§4707. Confidentiality**

A. Licensees have unique confidentiality concerns because the client in a therapeutic relationship may be more than one person. Licensees respect and guard the confidences of each individual client.

B. Licensees disclose to clients and other interested parties, as early as feasible in their professional contacts, the nature of confidentiality and possible limitations of the clients' right to confidentiality. Licensees review with clients the circumstances where confidential information may be requested and where disclosure of confidential information may be legally required. Circumstances may necessitate repeated disclosures.

C. Licensees do not disclose client confidences except by written authorization or waiver, or where mandated or permitted by law. Verbal authorization will not be sufficient except in emergency situations, unless prohibited by law, specifically in instances of danger to self or others, suspected child abuse/neglect, elderly abuse/neglect, or disabled adult abuse/neglect. When providing couple, family or group treatment, the licensee does not disclose information outside the treatment context without a written authorization from each individual competent to execute a waiver. In the context of couple, family or group treatment, the licensee may not reveal any individual's confidences to others in the client unit without the prior written permission of that individual.

D. Licensees use client and/or clinical materials in teaching, writing, consulting, research, and public presentations only if a written waiver has been obtained in accordance with this Section, or when appropriate steps have been taken to protect client identity and confidentiality.

E. Licensees store, safeguard, and dispose of client records in ways that maintain confidentiality and in accord with applicable laws and professional standards.

F. Subsequent to the licensee moving from the area, closing the practice, or upon the death of the licensee, a licensee arranges for the storage, transfer, or disposal of client records in ways that maintain confidentiality and safeguard the welfare of clients.

G. Licensees, when consulting with colleagues or referral sources, do not share confidential information that could reasonably lead to the identification of a client, research participant, supervisee, or other person with whom they have a confidential relationship unless they have obtained the prior written consent obtained in accordance with this Section of the client, research participant, supervisee, or other person with whom they have a confidential relationship. Information may be shared only to the extent necessary to achieve the purposes of the consultation.

E. Licensees do not provide services that create a conflict of interest that may impair work performance or clinical judgment.

F. Licensees, as presenters, teachers, supervisors, consultants and researchers, are dedicated to high standards of scholarship, present accurate information, and disclose potential conflicts of interest.

H. While developing new skills in specialty areas, licensees take steps to ensure the competence of their work and to protect clients from possible harm. Licensees practice in specialty areas new to them only after appropriate education, training, or supervised experience.

I. Licensees do not engage in sexual or other forms of harassment of clients, students, trainees, supervisees, employees, colleagues, or research subjects.

J. Licensees do not engage in the exploitation of clients, students, trainees, supervisees, employees, colleagues, or research subjects.

K. Licensees do not give to or receive from clients:

K.1. – K.2. ...

L. Licensees do not diagnose, treat, or advise on problems outside the recognized boundaries of their competencies.

M. Licensees make efforts to prevent the distortion or misuse of their clinical and research findings.

N. Licensees, because of their ability to influence and alter the lives of others, exercise special care when making public their professional recommendations and opinions through testimony or other public statements.

O. To avoid a conflict of interests, licensees who treat minors or adults involved in custody or visitation actions may not also perform forensic evaluations for custody, residence, or visitation of the minor. The licensee who treats the minor may provide the court or mental health professional performing the evaluation with information about the minor from the licensee's perspective as a treating licensed or provisionally licensed marriage and family therapist, so long as the licensee does not violate confidentiality.

P. Licensees are in violation of this code and subject to revocation or suspension of licensure or provisional licensure or other appropriate action by the board through the advisory committee if they:

C. Licensees do not provide therapy to current students or supervisees.

D. Licensees do not engage in sexual intimacy with students or supervisees during the evaluative or training relationship between the therapist and student or supervisee. Should a supervisor engage in sexual activity with a former supervisee, the burden of proof shifts to the supervisor to demonstrate that there has been no exploitation or injury to the supervisee.

E. Licensees do not permit students or supervisees to perform or to hold themselves out as competent to perform professional services beyond their training, level of experience, and competence.

F. Licensees take reasonable measures to ensure that services provided by supervisees are professional.

G. Licensees avoid accepting as supervisees or students those individuals with whom a prior or existing relationship could compromise the licensee's objectivity. When such situations cannot be avoided, therapists take appropriate precautions to maintain objectivity. Examples of such relationships include, but are not limited to, those individuals with whom the licensee has a current or prior sexual, close personal, immediate familial, or therapeutic relationship.

H. Licensees do not disclose supervisee confidences except by written authorization or waiver, or when mandated or permitted by law. In educational or training settings where there are multiple supervisors, disclosures are permitted only to other professional colleagues, administrators, or employers who share responsibility for training of the supervisee. #### **Poverty Impact Statement**

individual, or family poverty in relation to individual or community asset development as described in R.S. 49:973.

#### **Small Business Statement**

The impact of the proposed Rule on small businesses as defined in the Regulatory Flexibility Act has been considered. #### **Public Comments**

The process, amount of documentation needed, and cost to apply for a PLPC or a PLMFT license will be equal to the current process, amount of documentation needed, and cost to apply for a Counselor Intern or MFT Intern registration. Given that no renewal process or fee exists for a registrant presently, the proposed rule will result in additional costs, time, and documentation for PLPCs and PLMFTs. Specifically, the PLPC or PLMFT will have to submit a renewal application, renewal fee of \$85, and documentation of continuing education hours (CEHs) if audited every two (2) years. All PLPCs and PLMFTs must complete 20 CEHs every two (2) years. Ten of the required 20 CEHs may be completed online, thereby saving travel and associated costs. Also, of the 20 CEHs, one and half (1.5) must be relative to ethics and one and half (1.5) must be relative to diagnosis.

#### **IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)**

Future PLPCs and PLMFTs, as defined in the proposed rule, will have the same scope of practice as current Counselor Interns and MFT Interns; however, the LPC Board believes PLPCs and PLMFTs will have better employment opportunities with a provisional license rather than registration. The LPC Board surmises that PLPCs and PLMFTs will have a greater chance of obtaining positions in the mental health field than current Counselor Interns and MFT Interns based on the anecdotal feedback submitted to the Board by current Counselor Interns and MFT Interns.

### **FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES**

#### **RULE TITLE: PLPC and PLMFT Regulations; Fee Structure Adjustments/Changes**

#### **I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)**

There will be an estimated one-time implementation cost to the Board of \$25,500 in FY 15 that includes the cost of promulgating the rule (\$20,000), forms (\$300), postage (\$3300), and staff time (\$2000). There will be an estimated annual cost of \$4000 that includes forms (\$300), postage (\$1700), and staff time (\$2000). All costs will be absorbed within the budget of the Louisiana Licensed Professional Counselors (LPC) Board. There will be no impact on any other state or local governmental agency.

#### **II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)**

The proposed rule will have an impact on the collections of revenue by state or local government units in that beginning FY 15, the LPC Board projects to lose approximately \$1200 in revenue. This projected loss is the result of a reduced "change/add board-approved supervisor" fee in the proposed rule from \$100 to \$50. The LPC Board projects to receive additional revenue of approximately \$25,450 in FY 15/16. This calculation is based on a loss of \$4150 in change/add Board-Approved Supervisor fees (83 applicants x \$100 vs. 83 applicants x \$50) and an increase in the Licensed Professional Counselor (LPC) and Licensed Marriage and Family Therapist (LMFT) renewal fee. The LPC Board projects to receive additional revenue of approximately \$29,190 for FY 16/17. This calculation is based on a loss of \$4150 in change/add Board-Approved Supervisor fees (83 applicants x \$100 vs. 83 applicants x \$50) and an increase in revenue received from the LPC and LMFT renewal fee. Per the proposed rule, the LPC and LMFT renewal fee will increase from \$150 every two (2) years to \$170 every two (2) years.

The cost of a provisional license in the proposed rule will be equal to the current cost for a registration and will affect the same population. Consequently, no increase or decrease in revenue is expected for the issuance of provisional licenses. Once current and new registrants have a provisional license, renewal of said provisional license will be required every two (2) years. In FY 17/18, the LPC Board expects to receive approximately \$79,900 (900 applicants x \$85) in renewal fee revenue from provisional licensees.

#### **III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)**

Persons affected by the proposed rule would include those applicants who currently apply for registration as a Counselor Intern or MFT Intern. This population is primarily composed of recent graduates seeking a registration to begin their supervised experience needed for licensure as a LPC or LMFT.
