Executive Orders

EXECUTIVE ORDER BJ 15-01
BESE's Duty to Uphold the Accountability System and Offer Alternatives to the PARCC Test

WHEREAS, the Preamble to Article VIII (Education) of the Louisiana Constitution provides: The goal of the public educational system is to provide learning environments and experiences, at all stages of human development, that are humane, just, and designed to promote excellence in order that every individual may be afforded an equal opportunity to develop to his full potential.

WHEREAS, Article VIII of the Louisiana Constitution vests the legislature with the overall responsibility “to provide for the education of the people of the state” and establishes the State Board of Elementary and Secondary Education (BESE) as the state body responsible for the “supervision and control of public elementary and secondary schools ... in accordance with law”;

WHEREAS, the State of Louisiana recognizes the vital interest of parents in the education of their children and the importance of fostering involvement between parents and schools;

WHEREAS, the legislature, in the performance of its overall constitutional responsibility for public education, has passed clear laws designed to facilitate parental involvement, assist student achievement, evaluate teachers based on value-added data, and establish an accountability system for schools and school districts, including:

- La. R.S. 17:406 et seq. (Family-School Partnership Act) to increase the collaboration of parents and schools,
- Act 54 of the 2010 Legislative Session (teacher evaluations) provides that 50% of teacher evaluations must be based on student achievement data,
- La. R.S. 17:10.1 (school and district accountability system) “which requires and supports student achievement in each public school” and “provide[s] clear standards and expectations for schools and schools systems so that assessment of their effectiveness will be understood”, and
- La. R.S. 17:24.4 (…statewide standards for required subjects…) which requires BESE to implement standards-based assessments based on nationally-based content standards but does not specify any specific or particular assessment to utilize;

WHEREAS, BESE has chosen to utilize Common Core standards-based assessments developed by the Partnership for Assessment of Readiness for College and Careers (“PARCC”);

WHEREAS, beginning in March of this year, students statewide will be tested for the first time utilizing Partnership for Assessment of Readiness for College and Careers, (“PARCC”) standardized tests developed for Common Core;

WHEREAS, increasing numbers of Louisiana parents, teachers, and school districts are voicing concerns over Common Core and PARCC testing, and parents are exploring alternatives that are in the best interest of their children, including opting out of the PARCC test completely;

WHEREAS, BESE policy currently provides that students who do not take the PARCC test will receive a score of zero, impacting their own personal achievement, teacher evaluations, and school and district performance scores;

WHEREAS, nationally norm-referenced or other comparable assessments utilized by other states, and compliant with La. R.S. 17:24.4, are readily available in the marketplace and offer complete and abbreviated versions for the purpose of benchmarking, either of which can easily be administered as alternatives to the PARCC test;

WHEREAS, it is inherent upon BESE, pursuant to the clear statutory findings of law provided by the legislature, to avert the growing disruption to this year's assessments by offering alternative means of testing readily available in the marketplace and currently utilized by other states, in order to avoid the negative impacts to student achievement, the teacher evaluation system, and the school and district accountability system.

NOW, THEREFORE I, BOBBY JINDAL, Governor of the State of Louisiana, by virtue of the authority vested by the Constitution and laws of the State of Louisiana, do hereby order and direct as follows:

SECTION 1: BESE is directed to adhere to the legislative findings in La. R.S. 17:406.1 regarding parental involvement, including “it has been clearly demonstrated that parental involvement in the schools is directly related to better student achievement, attitudes, and performance in school.”

SECTION 2: BESE is directed to adhere to the legislative purposes delineated in La. R.S. 17:10.1 regarding a school and district accountability system, including its purposes to “require and support student achievement in each public school” and to “provide clear standards and expectations for schools and school systems so that assessment of their effectiveness will be understood”, in order to avoid student achievement being negatively impacted by a score of zero (0) as a result of non-participation.

SECTION 3: BESE is directed to uphold the state accountability system established by La. R.S. 17:10.1 so that it accurately reflects student achievement, teacher quality, and school performance, and allows parents to act on their beliefs for the best interests of their children.

SECTION 4: As a viable and necessary action, BESE is urged to grant districts the ability to offer nationally norm-referenced or other comparable assessment appropriate for Louisiana as an alternative to the PARCC test, including abbreviated versions for the purpose of benchmarking, rather than penalizing
students, teachers and schools and jeopardizing our statewide accountability system.

SECTION 5: All departments, commissions, boards, agencies, and political subdivisions of the state are authorized and directed to cooperate with the implementations of the provisions of this Order.

SECTION 6: This Order is effective upon signature and shall remain in effect until amended, modified, terminated or rescinded.

IN WITNESS WHEREOF, I have set my hand officially and caused to be affixed the Great Seal of Louisiana, at the Capitol, in the city of Baton Rouge, on this 30th day of January, 2015.

Emergency Rules

DECLARATION OF EMERGENCY

Student Financial Assistance Commission
Office of Student Financial Assistance

Scholarship/Grant Programs—TOPS Core Curriculum Equivalents: Art Media I-IV
(LAC 28:IV.703)

The Louisiana Student Financial Assistance Commission (LASFAC) is exercising the emergency provisions of the Administrative Procedure Act [R.S. 49:953(B)] to amend and re-promulgate the rules of the scholarship/grant programs (R.S. 17:3021-3025, R.S. 3041.10-3041.15, and R.S. 17:3042.1-3042.8, R.S. 17:3048.1, R.S. 56:797.D(2)).

This rulemaking adds media arts I–IV as course equivalents to art in the TOPS core curriculum for students who graduate from high school beginning in the 2017-2018 academic year (high school).

This Emergency Rule is necessary to implement changes to the scholarship/grant programs to allow the Louisiana Office of Student Financial Assistance and state educational institutions to effectively administer these programs. A delay in promulgating rules would have an adverse impact on the financial welfare of the eligible students and the financial condition of their families.

LASFAC has determined that these emergency rules are necessary in order to prevent imminent financial peril to the welfare of the affected students.

This Declaration of Emergency is effective January 27, 2015, and shall remain in effect for the maximum period allowed under the Administrative Procedure Act. (SG15161E)

DECLARATION OF EMERGENCY
Office of the Governor  
Division of Administration  
Office of Group Benefits  
General Provisions, Prior Authorization Requirements, Benefit Limits, Pharmacy Benefits Formulary  
(LAC 32:I.1701)  
Pursuant to the authority granted by R.S. 42:801(C) and 802(B)(6), vesting the Office of Group Benefits (OGB) with the responsibility for administration of the programs of benefits authorized and provided pursuant to chapter 12 of title 42 of the Louisiana Revised Statutes, and granting the power to adopt and promulgate rules with respect thereto, OGB, hereby invokes the Emergency Rule provisions of R.S. 49:953(B).  
OGB finds that imminent peril to the public health, safety, or welfare requires it to revise and amend certain of its general provisions including to prior authorization requirements, benefit limits, and the pharmacy benefits. R.S. 42:803(B) grants authority to OGB to establish a self-funded health benefits program and establish plan(s) of benefits for employees under the direction of the commissioner of administration. The plan documents in effect for OGB self-funded plans (PPO, HMO, and CDHP) and the LAC Part III, §423 (PPO) state that changes shall be made from “time to time” to the plans and “such modifications will be promulgated subject to the applicable provisions of law.” While no applicable law expressly requires promulgation for such changes to be effective between enrollees and OGB, this Rule is being promulgated due to the imminent peril of financial exposure of the state, OGB, its plan enrollees, and other state programs resulting from a threat of litigation that rules are required to be
promulgated by law. According to the OGB, the OGB fund balance will be as low as $8 million by July 2015 if these and other changes are not implemented. The OGB fund, in the absence of these changes through December 2014, will be depleted by $194,300 per day and $231,819 per day from January to June 2015. This daily loss causes an imminent peril by accelerating the need to impose increases of 18 percent or greater in premiums according to the LFO. These and other resulting costs to enrollees could become so burdensome for enrollees that they drop their health coverage. The fund is now facing the imminent peril of becoming actuarially unsound and unstable. Moreover, if the OGB fund goes into a deficit, then taxpayers are statutorily required to pay the costs of any increase in premiums to enrollees. Consequently, other state programs will be impacted through the resulting budget cuts to higher education and health care which will result in a reduction in critical services for all citizens of the state. Accordingly, the following Emergency Rule, effective September 30, 2014, is being extended beyond the initial 120-day period and will remain in effect until the final Rule becomes effective.

Title 32
EMPLOYEE BENEFITS
Part I. General Provisions
§1701. Prior Authorization Requirements, Benefits

Limits, Pharmacy Benefits Formulary
A. Changes for the PPO, HMO, and CDHP 2014 plans of benefits have been adopted which affect medical and pharmacy benefits and drug utilization.

B. Medical Benefits
   1. A prior authorization is a process used to determine the necessity of a proposed service or procedure and is a standard means used by health plans to manage health care utilization. To avoid extra costs, enrollees should always ensure that their health care providers obtain a prior authorization when necessary for a covered benefit.
   2. In addition to any services previously identified in the 2014 plan documents or these rules, services that will now require prior authorization, include, but are not limited to:
      a. cardiac rehabilitation;
      b. CT scans;
      c. genetic testing;
      d. home health care;
      e. hospice;
      f. MRI/MRA;
      g. orthotic devices;
      h. outpatient pain rehabilitation/pain control programs;
         i. physical/occupational therapy;
         j. residential treatment centers;
         k. inpatient hospital admissions (except routine maternity stays).
   3. An updated summary of benefits and coverage (SBC) with a complete list of services and procedures requiring prior authorizations shall be available to OGB enrollees through its third-party administrator (TPA) and the OGB website.

4. In addition to any limits previously identified in 2014 plan documents or these rules, OGB self-funded plans will follow the pharmacy benefit formulary's standard for number of visits allowed per benefit period for skilled nursing facilities, home health care services and hospice care services. An updated summary of benefits and coverage (SBC) shall be made available to enrollees through the OGB TPA and through the OGB website.

C. Pharmacy Benefits Formulary. OGB shall have discretion to adopt its PBM pharmacy benefits formulary or other drug formulary. The formulary will be reviewed on a quarterly basis to reassess drug tiers based on the current prescription drug market. The formulary may be changed from time to time, subject to any applicable advance notice requirements. The amount enrollees pay toward prescription medications will depend on whether a generic, preferred brand, non-preferred brand name, or specialty drug is obtained. Formulary changes for members with Medicare as their primary coverage shall be effective January 1, 2015. For maintenance medication, 90-day prescriptions may be filled at retail pharmacies for two and a half times the cost of the co-pay. Medications available over-the-counter in the same prescribed strength, are no longer covered under the pharmacy plan. The pharmacy co-payment threshold is changed from $1,200 to $1,500. Additional changes include:

Bureau of Health Services Financing

Nursing Facilities
Per Diem Rate Reduction
(LAC 50:II.20005)

The Department of Health and Hospitals, Bureau of Health Services Financing amends LAC 50:II.20005 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

The Department of Health and Hospitals, Bureau of Health Services Financing amended the provisions governing the reimbursement methodology for nursing facilities to reduce the per diem rates paid to non-state nursing facilities in order to remove the rebased amount and sunset the state fiscal year (SFY) 2012-13 nursing facility rate rebasing (Louisiana Register, Volume 39, Number 5).
For SFY 2013-14, state general funds are required to continue nursing facility rates at the rebased level. Because of the fiscal crisis facing the state, the state general funds will not be available to sustain the increased rates. Consequently, the department promulgated an Emergency Rule which amended the provisions governing the reimbursement methodology for nursing facilities to further reduce the reimbursement rates for non-state nursing facilities (Louisiana Register, Volume 39, Number 7).

The department has now determined that it is necessary to amend the provision of the July 1, 2013 Emergency Rule to revise the formatting of these provisions in order to ensure that the provisions are appropriately incorporated into the Louisiana Administrative Code. This action is being taken to avoid a budget deficit in the medical assistance programs.

Effective February 20, 2015, the Department of Health and Hospitals, Bureau of Health Services Financing amends the provisions of the July 1, 2013 Emergency Rule governing the reimbursement methodology for nursing facilities.

4. At the informal hearing the provider shall have the right to present information orally and in writing, the right to present documents, and the right to have the department and the RAC address any inquiry the provider may make concerning the reason for the adverse determination. A provider may be represented by an attorney or authorized representative, but any such individual must provide written notice of representation along with the request for informal hearing.

5. The RAC and the Program Integrity Section shall issue a final written decision related to the informal hearing within 15 calendar days of the hearing closure.

C. Within 30 days of issuance of an adverse determination of the RAC, if an informal hearing is not requested or there is a determination pursuant to an informal hearing, a provider may request an administrative appeal of the final decision by requesting a hearing before the Division of Administrative Law. A copy of any request for an administrative appeal shall be filed contemporaneously with the Program Integrity Section. The date of issuance of a final decision or determination pursuant to an informal hearing shall be two days from the date of such decision or determination.

D. The department shall report on its website the number of adverse determinations overturned on informal or formal appeals at the end of the month for the previous month.

E. If the department or the Division of Administrative Law hearing officer finds that the RAC determination was unreasonable, frivolous or without merit, then the RAC shall reimburse the provider for its reasonable costs associated with the appeals process. 2. RAC fails to follow any programmatic or statutory rules.

B. If more than 25 percent of the RAC’s adverse determinations are overturned on informal or formal appeal, the department may impose a monetary penalty up to 10 percent of the cost of the claims to be awarded to the providers of the claims inappropriately determined, or a monetary penalty up to 5 percent of the RAC’s total collections to the department.

The Department of Health and Hospitals, Bureau of Health Services Financing amends LAC 50:XV.10701 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

As a result of a budgetary shortfall in state fiscal year 2013, the Department of Health and Hospitals, Bureau of Health Services Financing amended the provisions governing the reimbursement methodology for targeted case management (TCM) services to reduce the reimbursement rates and to revise these provisions as a result of the promulgation of the January 2013 Emergency Rules which terminated Medicaid reimbursement of TCM services provided to first-time mothers in the Nurse Family Partnership Program and TCM services rendered to HIV disabled individuals (Louisiana Register, Volume 39, Number 12).

The department promulgated an Emergency Rule which amended the provisions governing the reimbursement methodology for TCM services provided to new opportunities waiver (NOW) recipients in order to adopt a payment methodology based on a flat monthly rate rather than 15-minute increments (Louisiana Register, Volume 40, Number 6). This Emergency Rule is being promulgated to continue the provisions of the July 1, 2014 Emergency Rule. This action is being taken to promote the health and welfare of NOW participants by ensuring continued access to Medicaid covered services.

Effective February 28, 2015, the Department of Health and Hospitals, Bureau of Health Services Financing amends the provisions governing the reimbursement methodology for TCM for NOW services.

(LAC 48:I.Chapter 62)

The Department of Health and Hospitals, Bureau of Health Services Financing amends LAC 48:I.Chapter 62 in the Medical Assistance Program as authorized by R.S. 36:254 and R.S. 40:2009. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

In compliance with the directives of R.S. 40:2009, the Department of Health and Hospitals, Bureau of Health Services Financing adopted provisions governing the minimum licensing standards for therapeutic group homes(TGH)in order to prepare for the transition to a comprehensive system of delivery for behavioral health services in the state (Louisiana Register, Volume 38, Number 2).
The department promulgated an Emergency Rule which amended the provisions governing TGH licensing standards to revise the current TGH licensing regulations (Louisiana Register, Volume 40, Number 7). This Emergency Rule is being promulgated to continue the provisions of the July 20, 2014 Emergency Rule. This action is being taken to promote the health and welfare of Medicaid recipients by ensuring sufficient provider participation and recipient access to services.

Effective March 19, 2015, the Department of Health and Hospitals, Bureau of Health Services Financing amends the provisions governing the licensing standards for TGH providers.

DECLARATION OF EMERGENCY

Department of Health and Hospitals
Office for Citizens with Developmental Disabilities

Certification of Medication Attendants (LAC 48:IX.Chapter 9)

The Office for Citizens with Developmental Disabilities (OCDD) adopts LAC 48:IX.Chapter 9, Guidelines for Certification of Medication Attendants (CMA). R.S. 37:1021-1025 authorizes the establishment of “a medication administration course for the purpose of training and certifying unlicensed personnel to administer certain medication to residents of intermediate care facilities for the mentally retarded (ICFs/MR) and community homes for the mentally retarded either operated by the Office for Citizens with Developmental Disabilities (OCDD) or funded through the Department of Health and Hospitals (DHH); and to individuals in programs/agencies contracting for services with DHH except as prohibited in §911.B.5.”

Based on an opinion given by the Louisiana State Board of Medical Examiners, the Department of Health and Hospitals has discontinued the use of physician delegation forms in intermediate care facilities and home and community-based settings. Unlicensed personnel must now complete minimum training requirements in order to administer medication to individuals with intellectual and developmental disabilities. The termination of physician delegation has resulted in a large influx of individuals seeking CMA training and certification. This has created an administrative burden to providers as well as OCDD to timely process a steadily increasing number of certifications. This is also an unfunded training mandate, which incurs significant costs to provider agencies and requires annual continuing education for re-certification. Due to limited funding, provider agencies who cannot afford to maintain the certification will experience a reduction in unlicensed personnel who are qualified to give medication to clients, thus increasing the risk for medication errors, critical incidents, and mortality for medically compromised and vulnerable clients. The Office for Citizens with Developmental Disabilities seeks to extend the certification period for certified medication attendants to two years, effective February 27, 2015. Provider agencies must determine CMA competency annually during the two-year period.

Also effective February 27, 2015, OCDD will allow CMAs who have not worked directly with medication administration for 12 months or more to be administered the statewide exam and a competency evaluation rather than requiring that they repeat the training. The opportunity for this will also decrease administrative burden and allow qualified individuals to more quickly re-enter the work force which will in turn, help assure client health and safety. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.
Chapter 9. Guidelines for Certification of Medication Attendants

§915. Certification Requirements and Process

A. CMA certificates issued after rule promulgation will expire two years from the last day of the month that the certificate was printed.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:1021-1025.

§917. Re-Certification Requirements and Process

A. Bi-annual Requirements. On a bi-annual basis each CMA must be recertified. The requirements for re-certification are:

1. completion of a total of nine hours of in-service training. Two of the nine hours must directly relate to the agency's medication administration policy and procedure. The remaining seven hours on in-service must relate to medication administration. A CMA working in multiple agencies may combine training to meet these requirements with the exception that the two hour training on agency medication administration policy and procedure is required for each employer. Each agency must have documentation of each CMA's required nine hours of in service training;

2. pass with proficiency, either by physical or verbal demonstration, the 25 skills on the practical checklist on an annual basis. The annual cycle is based on the last day of the month that the certificate was printed. If a CMA changes employers within the certification period and training records are not available for the first year, the new employer must determine competency by assessing the 25 skills upon hire, in addition to meeting these requirements for recertification.

B. - C. ...

D. The re-certification requirements must be met prior to the month of expiration of the CMA's certification.

E. A CMA who has not worked directly with medication administration in a facility, program, or agency for the intellectually/developmentally disabled for 12 months or more must take the OCDD CMA state exam again and pass with proficiency the 25 skills checklist. If the CMA does not pass the state exam, then the CMA must repeat the 60 hour course and pass the exam prior to being recertified. Failure to pass the state exam will result in de-certification.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:1021-1025.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Office for Citizens with Developmental Disabilities, LR 21:699 (July 1995), amended LR 41:

§925. Provider Responsibility

A. - A.2. ...

3. documentation of annual successful completion of the 25 skills checklist and bi-annual completion of continuing education necessary for re-certification of CMA.

B. The provider is legally responsible for the level of competency of its personnel and for ensuring that unlicensed staff administering medication have successfully completed the medication administration course curriculum. Additionally, the provider is responsible for maintaining re-certification requirements of their CMA's and that their CMA's perform their functions in a safe manner.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:1021-1025.

Implementation of the provisions of this Rule may be contingent upon the approval of the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS), if it is determined that submission to CMS for review and approval is required.

Interested persons may submit written comments to Mark A. Thomas, Office for Citizens with Developmental Disabilities, P.O. Box 3117, Baton Rouge, LA 70821-3117. He is responsible for responding to inquiries regarding this proposed Rule.

Added Controlled Dangerous Substances

(LAC 46:LIII.2704)

The Department of Health and Hospitals, Office of Public Health (DHH, OPH), pursuant to the rulemaking authority granted to the secretary of DHH by R.S. 40:962(C) and (H), hereby adopts the following Emergency Rule for the protection of public health, effective January 27, 2015. This Emergency Rule is being promulgated in accordance with the Administrative Procedure Act (R.S. 49:950 et seq.) and shall remain in effect for the maximum period allowed or until such time as a final Rule is promulgated.

Based on the criteria, factors, and guidance set forth in R.S. 40:962(C) and 40:963, the secretary, under this rulemaking, has determined that the below listed substances have a high potential for abuse and should be scheduled as controlled dangerous substances to avoid an imminent peril to the public health, safety, or welfare. In reaching the decision to designate the below listed substances as controlled dangerous substances under schedule I, the
secretary has considered the criteria provided under R.S. 40:963 and the specific factors listed under R.S. 40:962(C). The secretary has determined that schedule I is the most appropriate due to her findings that the substances added herein have a high potential for abuse, the substances have no currently accepted medical use for treatment in the United States, and there is a lack of accepted safety for use of the substances under medical supervision.

Door-to-Door Solicitations (LAC 55:V.3239)

The Department of Public Safety and Corrections, Office of the State Fire Marshal (SFM), avails itself of the provisions of R.S. 49:953(b)(1) and declares that the provisions of the Louisiana Administrative Code (LAC 55:V.3239) are hereby repealed effective close of business January 20, 2015, as being facially defective and therefore unconstitutional based upon Attorney General Opinion No. 08-0098 (2009), citing Central Hudson Gas and Electric Corp v. Public Service Commission, 447 U.S. 557 (1980) and Board of Trustees of the State University of New York v. Fox, 492 U.S. 469 (1989) as authority. The repealed rule requires licensees of the SFM engaging in door-to-door solicitation to “...comply with all local permitting ordinances and requirements...” The above cited cases have held that door-to-door solicitation is speech within the meaning of the First Amendment of the U.S. Constitution, and local ordinances banning all door-to-door solicitation are constitutionally defective. Therefore, the repealed rule requiring that licensees comply with all local ordinances is overly broad and therefore defective. This Emergency Rule shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever one comes first.

Shrimp Season Closures

In accordance with the emergency provisions of R.S. 49:953 of the Administrative Procedure Act which allows the Wildlife and Fisheries Commission to use emergency procedures to set shrimp seasons and R.S. 56:497 which allows the Wildlife and Fisheries Commission to delegate to the secretary of the department the powers, duties and authority to set shrimp seasons, and in accordance with a Declaration of Emergency adopted by the Wildlife and Fisheries Commission on August 7, 2014 which authorized the secretary of the Department of Wildlife and Fisheries to close the fall shrimp season when biological and technical data indicate the need to do so or if enforcement problems develop; and in accordance with a Declaration of Emergency adopted by the Wildlife and Fisheries Commission on December 4, 2014 which authorizes the secretary of the Department of Wildlife and Fisheries to close all or parts of state outside waters where significant numbers of small, sublegal size white shrimp are found in biological samples conducted by the department; and to reopen any area closed to shrimping when the closure is no longer necessary; the secretary of the Department of Wildlife and Fisheries does hereby declare:

The 2014 fall inshore shrimp season will close on January 28, 2015 at official sunset in Lake Pontchartrain, Chef Menteur and Rigolets Passes, Lake Borgne, Mississippi Sound, and the Mississippi River Gulf Outlet (MRGO); and that portion of state outside waters extending a distance of 3 nautical miles seaward of the inside/outside shrimp line as described in R.S. 56:495(A) from the northwest shore of Caillou Boca at -90 degrees 50 minutes 27 seconds west longitude westward to the Atchafalaya River Ship Channel at Eugene Island as delineated by the channel red buoy line.
R.S. 56:498 provides that the possession count on saltwater white shrimp for each cargo lot shall average no more than 100 (whole specimens) count per pound except during the time period from October 15 through the third Monday in December. Recent biological sampling conducted by the Department of Wildlife and Fisheries has indicated that average white shrimp size within the waters to be closed is smaller than the minimum possession count and this action is being taken to protect these small white shrimp and provide opportunity for growth to larger and more valuable sizes.

RULE
Department of Agriculture and Forestry
Beef Promotion and Research Program
(LAC 7:V.Chapter 27)

Under the enabling authority of R.S. 3:2054(E), and in accordance with the Administrative Procedure Act, R.S. 49:950 et seq., the Louisiana Beef Industry Council (LBIC) has promulgated these rules and regulations (“the proposed action”) in order to establish rules and regulations for its own government and for administration of the affairs of the council.

This action is required because the October, 2013 Louisiana Supreme Court ruling in Krielow v. Louisiana Department of Agriculture and Forestry, which declared R.S. 3:3534 and R.S. 3:3544, statutes that allow a voting majority of rice producers to levy an assessment on all producers, to be unconstitutional, calls into question the constitutionality of sections 3:2055 through 2062 of the Louisiana Revised Statutes. The Revised Statutes established, by referendum vote, the Louisiana Beef Promotion and Research Program (LBPRP) and the LBIC. Among other things, these statutes included procedures for the governance and administration of the LBIC.

Louisiana’s cattle industry is essential to the health, safety and welfare of the citizens of this state. In 2004, Louisiana’s cattle industry was the second-largest agricultural sector with about $365 million in sales. The LBPRP and the LBIC promote the growth and development of the cattle industry in Louisiana by research, advertisement, promotions, education, and market development, thereby promoting the general welfare of the people of this state.

The LBPRP and the LBIC are the mechanisms through which the state’s cattle production and feeding industry develop, maintain, and expand the state, national, and foreign markets for cattle and beef products produced, processed, or manufactured in this state and through which the cattle production and feeding industry of this state contributes otherwise to the development and sustenance of a Louisiana coordinated promotion program and nationally coordinated programs of product improvement through research in consumer marketing via the accepted industry organization of the Cattlemen’s Beef Promotion and Research Board and its Beef Industry Council, thus benefiting the entire United States cattle industry and the American public.

This action is required in order to provide a means for the LBIC to continue to govern and administer the affairs of the council, and to allow the council to continue, to the maximum extent possible within the constraints announced in Krielow, the LBIC’s support of the program and protection of the huge investment that has been made, thus insuring the marketability of Louisiana beef, until such time as there is a permanent legislative solution. Failure to promulgate these rules would jeopardize the significant investment to promote the growth and development of Louisiana’s cattle industry since the program’s inception, and would pose an imminent peril to the health and welfare of the Louisiana’s citizens and the state’s cattle industry.

This Rule shall have the force and effect of law five days after its promulgation in the official journal of the state of Louisiana.

Structural Pest Control Commission

Hydraulic Injection (LAC 7:XXV.141)

Under the enabling authority of R.S. 3:3366, and in accordance with the Administrative Procedure Act, R.S. 49:950 et seq., the Department of Agriculture and Forestry, Office of Agricultural and Environmental Sciences and the Structural Pest Control Commission have adopted these rules and regulations for the implementation of hydraulic injection as an approved method of trench and treat for minimum specifications for termite control work.

This action will amend the current minimum specifications for termite control work for requirements for trench and treat to include hydraulic injection, an alternative method of termite control adopted by the Structural Pest Control Commission. Hydraulic injection is a high pressure unit that may be used in conjunction with an approved termicide while performing a perimeter treatment.

Requirements for trench and treat are currently in place for termite control work. This action permits hydraulic injection to be used in lieu of trench and treat. The unit will be made available by the manufacturer for an annual rental rate. Hydraulic injection of termicide treatment will be an alternative method for perimeter treatments for termite control in Louisiana and will be a strictly voluntary method.

B. OGB has an automatic lien against and shall be entitled, to the extent of any payment made to a plan participant, to 100 percent of the proceeds of any settlement or judgment that may result from the exercise of any rights of recovery of a plan participant against any person or entity legally responsible for the disease, illness, accident, or injury for which said payment was made.

Minor Source Permit Requirements
(LAC 33:III.503 and 519)(AQ266)

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary has amended the Air regulations, LAC 33:III.503 and 519 (AQ266).

This Rule establishes a regulatory framework setting forth maximum terms and renewal procedures for minor source permits. Per R.S. 30:2023(A), permits "shall have, as a matter of law, a term of not more than ten years"; however, Louisiana's air quality regulations (LAC 33:III) are currently silent with respect to the term of minor source permits. The
basis and rationale for this Rule are to establish a regulatory framework setting forth maximum terms and renewal procedures for minor source permits. This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:953(G)(3); therefore, no report regarding environmental/health benefits and social/economic costs is required.

Title 33
ENVIRONMENTAL QUALITY
Part III. Air
Chapter 5. Permit Procedures
§503. Minor Source Permit Requirements
A. …
B. The following provisions may be utilized to meet the permitting requirements for minor sources.
   1. Exemption. The owner or operator of a stationary source which is not a part 70 source as defined in LAC 33:III.502 may apply for an exemption provided the criteria in LAC 33:III.501.B.4 are met.
   2. Small Source Permit. The owner or operator of a stationary source which is not a part 70 source may apply for a small source permit provided the source emits and has the potential to emit less than 25 tons per year of any criteria pollutant and 10 tons per year of any toxic air pollutant.
   3. …
C. Permit Duration, Expiration, and Renewal
   1. Permit Duration
      a. Permits issued to a minor source shall have an effective term of ten years from the effective date of the permit, unless a shorter period is provided in the permit. Permits are effective on the date of issuance unless a later date is specified therein.
      b. Any revision or reopening of the permit shall establish the start of a new permit term. An administrative amendment or approval to relocate a portable facility shall not establish the start of a new permit term.
   2. Permit Expiration
      a. Unless renewed in accordance with Paragraph C.3 of this Section, a minor source permit shall expire at the end of its effective term.
      b. Permit expiration terminates the owner’s or operator’s right to operate the source.
   3. Permit Renewal
      a. Any permit application that renews an existing permit shall be submitted at least 6 months prior to the date of permit expiration. In no event shall the application for permit renewal be submitted more than 18 months before the date of permit expiration.
      b. Notwithstanding Subparagraph C.3.a of this Section, the permit application to renew an existing permit that expires on or before December 31, 2015, shall be submitted in accordance with the schedule specified by the department and published in the Louisiana Register unless the existing permit provides that a renewal application shall be submitted by an earlier date. In no event shall an owner or operator be provided less than three months to prepare a renewal application.
      c. Provided a timely and complete renewal application has been submitted, the terms and conditions of the existing permit shall remain in effect until such time as the department takes final action on the application for renewal.
      d. Any permit being renewed shall be subject to the same procedural requirements that apply to initial permit issuance as found in LAC 33:III.519.
   D. No permit shall be rendered invalid by Subsection C of this Section unless the owner or operator fails to submit a timely and complete renewal application in accordance with LAC 33:III.503.C.3.

§2915. Provider Reimbursement

A. Cost Determination Definitions
Adjustment Factor—Repealed.

**Base Rate Components**—Repealed.

a. - e. Repealed.

Index Factor—computed by dividing the value of the index for December of the year preceding the rate year by the value of the index one year earlier (December of the second preceding year).

**Rate Component**—the rate is the summation of the following:

a. direct care;

b. care related costs;

c. administrative and operating costs;

d. property costs; and

e. transportation costs.

B. Rate Determination

1. The base rate is calculated based on the most recent audited or desk reviewed cost for all ADHC providers filing acceptable full year cost reports. The rates are based on cost components appropriate for an economic and efficient ADHC providing quality service. The client per quarter hour rates represent the best judgment of the state to provide reasonable and adequate reimbursement required to cover the costs of economic and efficient ADHC.

2. For rate periods between rebasing, the rates will be trended forward using the index factor contingent upon appropriation by the legislature.

3. The median costs for each component are multiplied in accordance with §2915.B.4 then by the appropriate index factors for each successive year to determine base rate components. For subsequent years, the components thus computed become the base rate components to be multiplied by the appropriate index factors, unless they are adjusted as provided in §2915.B.6 below. Application of an inflationary adjustment to reimbursement rates in non-rebas ing years shall apply only when the state legislature allocates funds for this purpose. The inflationary adjustment shall be made prorating allocated funds based on the weight of the rate components.

4. - 5. ...

6. Formulae. Each median cost component shall be calculated as follows.

a. Direct Care Cost Component. Direct care allowable quarter hour costs from all acceptable full year cost reports, except those for which an audit disclaimer has
been issued, shall be arrayed from lowest to highest. The cost at the midpoint of the array shall be the median cost. Should there be an even number of arrayed cost, an average of the two midpoint centers shall be the median cost. The median cost shall be trended forward by dividing the value of the consumer price index-medical services (south region) index for December of the year preceding the rate year by the value of the index for the December of the year preceding the cost report year. The direct care rate component shall be set at 115 percent of the inflation.

b. Care Related Cost Component. Care related allowable quarter hour costs from all acceptable full year cost reports, except those for which an audit disclaimer has been issued, shall be arrayed from lowest to highest. The cost of the center at the midpoint of the array shall be the median cost. Should there be an even number of arrayed cost, an average of the two midpoint centers shall be the median cost. The median cost shall be trended forward by the value of the consumer price index-all items (south region) index for December of the year preceding the rate year by the value of the index for the December of the year preceding the cost report year. The care related rate component shall be set at 105 percent of the inflated median.

c. Administrative and Operating Cost Component. Administrative and operating allowable quarter hour cost from all acceptable full year cost reports, except those for which an audit disclaimer has been issued, shall be arrayed from lowest to highest. The cost of the midpoint of the array shall be the median cost. Should there be an even number of arrayed cost, an average of the two midpoint centers shall be the median cost. The median cost shall be trended forward by dividing the value of the CPI-all items (south region) index for December of the year preceding the base rate year by the value of the index for the December of the year preceding the cost report year. The administrative and operating rate component shall be set at 105 percent of the inflated median.

d. Property Cost Component. The property allowable quarter hour costs from all acceptable full year cost reports, except those for which an audit disclaimer has been issued, shall be arrayed from lowest to highest. The cost at the midpoint of the array shall be the median cost. Should there be an even number of arrayed cost, an average of the two midpoint centers shall be the median cost. This will be the rate component. Inflation will not be added to property costs.

e. Transportation Cost Component. The transportation allowable quarter hour costs from all acceptable full year cost reports, except those for which an audit disclaimer has been issued, will be calculated on a provider by provider basis. Should a provider not have filed an acceptable full year cost report, the provider’s transportation cost will be reimbursed as follows:

   i. New provider, as described in §2915.E.1, will be reimbursed in an amount equal to the statewide allowable quarter hour median transportation costs.

   (a). In order to calculate the statewide allowable quarter hour median transportation costs, all acceptable full year cost reports, except those for which an audit disclaimer has been issued, shall be arrayed from lowest to highest. The cost at the midpoint of the array shall be the median cost. Should there be an even number of arrayed cost, an average of the two midpoint centers shall be the median cost. This will be the rate component. Inflation will not be added to transportation costs.

   ii. Providers that have gone through a change of ownership (CHOW), as described in §2915.E.2, will be reimbursed for transportation costs based upon the previous owner’s specific allowable quarter hour transportation costs for the period of time between the effective date of the CHOW and the first succeeding base year in which the new owner could possibly file an allowable 12-month cost report. Thereafter, the new owner’s data will be used to determine the provider’s rate following the procedures specified in this Rule.

   iii. Providers that have been issued an audit disclaimer, or have a non-filer status, as described in §2915.E.3, will be reimbursed for transportation costs at a rate equal to the lowest allowable quarter hour transportation cost (excluding providers with no transportation costs) in the state as of the most recent audited and/or desk reviewed rate database.

   iv. For rate periods between rebasing years, if a provider discontinues transportation services and reported no transportation costs on the most recently audited or desk reviewed cost report, no facility specific transportation rate will be added to the facility’s total rate for the rate year.

7. Budgetary Constraint Rate Adjustment. Effective for the rate period July 1, 2011 to July 1, 2012, the allowable quarter hour rate components for direct care, care related, administrative and operating, property, and transportation shall be reduced by 10.8563 percent.

a. - e.iii. Repealed.

8. Interim Adjustments to Rates. If an unanticipated change in conditions occurs that affects the cost of at least 50 percent of the enrolled ADHC providers by an average of 5 percent or more, the rate may be changed. The Department will determine whether or not the rates should be changed when requested to do so by 25 percent or more of the enrolled providers, or an organization representing at least 25 percent of the enrolled providers. The burden of proof as to the extent and cost effect of the unanticipated change will rest with the entities requesting the change. The department may initiate a rate change without a request to do so. Changes to the rates may be temporary adjustments or base rate adjustments as described below.

   a. Temporary Adjustments. Temporary adjustments do not affect the base rate used to calculate new rates.

      i. Changes Reflected in the Economic Indices. Temporary adjustments may be made when changes which will eventually be reflected in the economic indices, such as a change in the minimum wage, a change in FICA or a utility rate change, occur after the end of the period covered by the indices, i.e., after the December preceding the rate calculation. Temporary adjustments are effective only until the next annual base rate calculation.

      ii. Lump Sum Adjustments. Lump sum adjustments may be made when the event causing the adjustment requires a substantial financial outlay, such as a change in certification standards mandating additional equipment or furnishings. Such adjustments shall be subject to the bureau’s review and approval of costs prior to reimbursement.
b. Base Rate Adjustment. A base rate adjustment will result in a new base rate component value that will be used to calculate the new rate for the next fiscal year. A base rate adjustment may be made when the event causing the adjustment is not one that would be reflected in the indices.

9. Provider Specific Adjustment. When services required by these provisions are not made available to the recipient by the provider, the department may adjust the prospective payment rate of that specific provider by an amount that is proportional to the cost of providing the service. This adjustment to the rate will be retroactive to the date that is determined by the department that the provider last provided the service and shall remain in effect until the department validates, and accepts in writing, an affidavit that the provider is then providing the service and will continue to provide that service.

C. Cost Settlement. The direct care cost component shall be subject to cost settlement. The direct care floor shall be equal to 70 percent of the median direct care rate component trended forward for direct care services (plus 70 percent of any direct care incentive added to the rate). The Medicaid Program will recover the difference between the direct care floor and the actual direct care amount expended. If a provider receives an audit disclaimer, the cost settlement for that year will be based on the difference between the direct care floor and the lowest direct care per diem of all facilities in the most recent audited and/or desk reviewed database. If the lowest direct care per diem of all facilities in the most recent audited and/or desk reviewed database is lower than 50 percent of the direct care rate paid for that year, 50 percent of the direct care rate paid will be used as the provider’s direct care per diem for settlement purposes.

D. ...

E. New Facilities, Changes of Ownership of Existing Facilities, and Existing Facilities with Disclaimer or Non-Filer Status

1. New facilities are those entities whose beds have not previously been certified to participate, or otherwise have participated, in the Medicaid program. New facilities will be reimbursed in accordance with this Rule and receiving the direct care, care related, administrative and operating, property rate components as determined in §2915.B.1-§2915.B.7. These new facilities will also receive the state-wide average transportation component, as calculated in §2915.B.6.e.i.a, effective the preceding July 1.

2. A change of ownership exists if the beds of the new owner have previously been certified to participate, or otherwise have participated, in the Medicaid program under the previous owner’s provider agreement. Rates paid to facilities that have undergone a change in ownership will be based upon the rate paid to the previous owner for all rate components. Thereafter, the new owner’s data will be used to determine the facility’s rate following the procedures in this Rule.

3. Existing providers that have been issued an audit disclaimer, or are a provider who has failed to file a complete cost report in accordance with §2903, will be reimbursed based upon the statewide allowable quarter hour median costs for the direct care, care related, administrative and operating, and property rate components as determined in §2915.B.1-§2915.B.7. No inflation or median adjustment factor will be included in these components. The transportation component will be reimbursed as described in §2915.B.6.e.iii.

F. Effective for dates of service on or after July 1, 2012, the reimbursement rates for ADHC services shall be reduced by 1.5 percent of the rates in effect on June 30, 2012.

1. The provider-specific transportation component shall be excluded from this rate reduction.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254 and Title XIX of the Social Security Act.

Implementation of the provisions of this Rule may be contingent upon the approval of the U.S. Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS), if it is determined that submission to CMS for review and approval is required.

B. The management contractor shall take a pre-application on participants who will be placed on the waiting list for services and shall use criteria developed by OAAS.
C. The management contractor shall maintain a case record on each participant and applicant. The case record must include, as a minimum, the pre-application form and, if applicable, a copy of the denial of eligibility letter, personal assistance plan and all amendments to this plan, documentation from medical and/or other appropriate sources, proof of income and any other additional material which is a necessary part of the application and/or reconsideration for the SPAS Program.
D. Upon admission into the program, the management contractor shall review and have the participant sign an agreement of understanding outlining the management contractor’s responsibilities as well as the participant’s. A copy should be left with the individual and a signed copy shall be maintained in the participant’s case record.
E. The management contractor shall reassess all SPAS Program participants at least annually or more often if their needs change. If there is a change in circumstances, a revised personal assistance plan must be completed.

misuse of SPAS Program funds, and any other violation of the policy stated herein. This information shall be provided to the OAAS program manager for disposition. If the information provided is substantiated, this shall be reason for denial of services or loss of eligibility.

§19121. Reasons for Closure and/or Termination
[Formerly LAC 67:VII.1127]

A. The following may result in termination of services and/or closure:

1. the participant no longer meets eligibility criteria;
2. the participant intentionally falsified information;
3. the participant has shown consistent failure to cooperate with the service plan and management contractor;
4. the participant is unable to be contacted and/or whereabouts unknown for 90 days or more and no response after an attempted home visit and certified letter;
5. the participant made misrepresentations in the eligibility determination process;
6. the participant made misrepresentations to obtain goods and services;
7. any other reason which is contradictory to policy and procedures for the SPAS Program.

B. The management contractor should issue a “warning” to participants who commit a violation of policy. If the violation is not intentional, written notice of the violation and action to correct the violation is to be given to the participant. A copy of the warning notice to the participant is to be placed in the participants case record. The management contractor shall make a recommendation to the OAAS program manager to terminate a participant who continues to violate the policy and/or procedures of the SPAS Program after a warning has been issued. The decision to terminate will be based on the severity of the violation(s) and/or continued violation(s) and will be made by OAAS.

1. If the violation of policy by the participant was intentional, the management contractor shall immediately notify the OAAS program manager. In the case of an intentional violation of the policy by the participant, a warning does not need to be issued prior to termination from the program.
2. When a participant is terminated from this program the management contractor will send a termination letter to the participant that explains the reason(s) and right to an appeal;

C. Recoupment

1. In lieu of termination, the management contractor can demand that a participant refund the SPAS Program for all benefits received.
2. If the management contractor rules that the participant must repay the amount in question, the management contractor will determine the repayment schedule. Participant can remain eligible as long as recoupment is made and a willingness to comply with policies and procedures set forth in the SPAS Program are shown. The management contractor shall maintain close monitoring of the participant until such time the management contractor determines participant is complying with the policies and procedures.

3. Recoupment is required from fraudulently received benefits as well; however, the participant will not be eligible for further services.

RULE

Department of Health and Hospitals Office of Public Health

Plumbing Fixtures and Water Supply and Distribution

(LAC 51:XIV.411 and 609)

Under the authority of R.S. 40:4 and 40:5, and in accordance with R.S. 49:950 et seq., the Administrative Procedure Act, the state health officer, acting through the Department of Health and Hospitals, Office of Public Health (DHH, OPH), has amended Part XIV (Plumbing) of the Louisiana state Sanitary Code [LAC 51 (Public Health—Sanitary Code)]. This amendment provides an exception for certain small retail stores to have a drinking fountain installed and available for public use. This exception is only applicable to retail stores having 2,000 square feet or less of usable floor space.

When meeting certain specified criteria, the Rule provides a waiver to the normal requirement calling for the installation of a containment device backflow preventer for multiple residential dwelling units served by a master meter. This waiver is only applicable to multiple residential dwelling units when serving only two units and their water service or water distribution lines are connected together by a master water meter.

Additionally, the Rule corrects several typographical errors contained in the 2013 publication of LAC 51:XIV (Plumbing). The first involves a single word typographical omission on earlier versions of Table 411 relative to the calculation of the number of lavatories when over 750 persons are served in assembly type occupancies. The second correction involves referencing metal plating plants (instead of meat plating plants) in Table 609.F.5.

§1705. Domestic Relations Orders

A. If benefits are payable pursuant to a domestic relations order that meets the requirements of section 414(p) of the Internal Revenue Code, then the applicable requirements of section 414(p) of the Internal Revenue Code will be followed by the retirement system.
§1707. Limitations on Contributions and Benefits

A. Adjustments for Form of Benefit

1. If the form of benefit without regard to the automatic benefit increase feature is not a straight life annuity or a qualified joint and survivor annuity, then the adjustment under R.S. 11:784.1(B)(3)(a) is applied by either reducing the section 415(b) of the Internal Revenue Code limit applicable at the annuity starting date or adjusting the form of benefit to an actuarially equivalent amount [determined using the assumptions specified in treasury regulation section 1.415(b)-1(c)(2)(ii)] that takes into account the additional benefits under the form of benefit as described in Subparagraphs A.1.a and b below, as applicable.

   a. For a benefit paid in a form to which section 417(e)(3) of the Internal Revenue Code does not apply (generally, a monthly benefit), the actuarially equivalent straight life annuity benefit that is the greater of:
      i. the annual amount of the straight life annuity (if any) payable to the member under the plan commencing at the same annuity starting date as the form of benefit to the member; or
      ii. the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the form of benefit payable to the member, computed using a 5 percent interest assumption (or the applicable statutory interest assumption) and:
         (a) for years prior to January 1, 2009, the applicable mortality tables described in treasury regulation section 1.417(e)-1(d)(2) (revenue ruling 2001-62 or any subsequent revenue ruling modifying the applicable provisions of revenue rulings 2001-62); and
         (b) for years after December 31, 2008, the applicable mortality tables described in section 417(e)(3)(B) of the Internal Revenue Code (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing section 417(e)(3)(B) of the Internal Revenue Code); or
   iii. the annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable (computed using the applicable interest rate for the distribution under treasury regulation section 1.417(e)-1(d)(3) (using the rate in effect for the November prior to the one-year stabilization period, which is the limitation year); and
      (a) for years prior to January 1, 2009, the applicable mortality tables for the distribution under treasury regulation section 1.417(e)-1(d)(2) (the mortality table specified in revenue ruling 2001-62 or any subsequent revenue ruling modifying the applicable provisions of revenue ruling 2001-62); and
      (b) for years after December 31, 2008, the applicable mortality tables described in section 417(e)(3)(B) of the Internal Revenue Code (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing section 417(e)(3)(B) of the Internal Revenue Code), divided by 1.05.
   c. The actuary may adjust the Section 415(b) of the Internal Revenue Code limit at the annuity starting date in accordance with Subparagraphs A.1.a and b above.
   d. Benefits For Which No Adjustment of the 415(b) Limit is Required
      i. For purposes of this Section, the following benefits shall not be taken into account in adjusting these limits:
         (a) any ancillary benefit which is not directly related to retirement income benefits;
         (b) that portion of any joint and survivor annuity that constitutes a qualified joint and survivor annuity; and
         (c) any other benefit not required under section 415(b)(2) of the Internal Revenue Code and treasury regulations thereunder to be taken into account for purposes of the limitation of section 415(b)(1) of the Internal Revenue Code.

B. Section 415(c) Limitations on Contributions and Other Additions

1. After-tax member contributions or other annual additions with respect to a member may not exceed the lesser of $40,000 (as adjusted pursuant to section 415(d) of the Internal Revenue Code) or 100 percent of the member’s compensation.
   a. For the purposes of this Section, the following definition shall apply.
      Annual Additions—the sum (for any year) of employer contributions to a defined contribution plan, member contributions, and forfeitures credited to a member’s individual account. Member contributions are determined without regard to rollover contributions and to picked-up employee contributions that are paid to a defined benefit plan.
      b. For purposes of applying section 415(c) of the Internal Revenue Code and for no other purpose, the...
definition of compensation where applicable will be compensation actually paid or made available during a limitation year, except as noted below and as permitted by treasury regulation section 1.415(c)-2, or successor regulation; provided, however, that member contributions picked up under section 414(h) of the Internal Revenue Code shall not be treated as compensation.

c. Compensation will be defined as wages within the meaning of section 3401(a) of the Internal Revenue Code and all other payments of compensation to an employee by an employer for which the employer is required to furnish the employee a written statement under sections 6041(d), 6051(a)(3) and 6052 of the Internal Revenue Code and will be determined without regard to any rules under section 3401(a) of the Internal Revenue Code that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in section 3401(a)(2) of the Internal Revenue Code).

i. However, for limitation years beginning after December 31, 1997, compensation will also include amounts that would otherwise be included in compensation but for an election under section 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b) of the Internal Revenue Code.

ii. For limitation years beginning after December 31, 2000, compensation shall also include any elective amounts that are not includible in the gross income of the member by reason of section 132(f)(4) of the Internal Revenue Code.

iii. For limitation years beginning on and after January 1, 2009, compensation for the limitation year shall also include compensation paid by the member for service credit for services performed during the member's regular working hours, or compensation for services outside the member's regular working hours (such as overtime or shift differential), commissions, bonuses or other similar payments and, absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer.

(a) Any payments not described in Clause B.1.c.iii above are not considered compensation if paid after severance from employment, even if they are paid within two and one-half months following severance from employment, except for payments to the individual who does not currently perform services for the employer by reason of qualified military service (within the meaning of section 414(u)(1) of the Internal Revenue Code) to the extent these payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

(b) An employee who is in qualified military service (within the meaning of section 414(u)(1) of the Internal Revenue Code) shall be treated as receiving compensation from the employer during such period of qualified military service equal to:

(i). the compensation the employee would have received during such period if the employee were not in qualified military service, determined based on the rate of pay the employee would have received from the employer but for the absence during the period of qualified military service; or

(ii). if the compensation the employee would have received during such period was not reasonably certain, the employee's average compensation from the employer during the twelve month period immediately preceding the qualified military service (or, if shorter, the period of employment immediately preceding the qualified military service).

iv. Back pay, within the meaning of treasury regulation section 1.415(c)-2(g)(8), shall be treated as compensation for the limitation year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.

d. If the annual additions for any member for a plan year exceed the limitation under section 415(c) of the Internal Revenue Code, the excess annual addition will be corrected as permitted under the employee plans compliance resolution system (or similar IRS correction program).

e. For limitation years beginning on or after January 1, 2009, a member's compensation for purposes of this Subsection shall not exceed the annual limit under section 401(a)(17) of the Internal Revenue Code.

C. Service Purchases under Section 415(n)

1. Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, if a member makes one or more contributions to purchase permissive service credit under the plan, then the requirements of section 415(n) of the Internal Revenue Code will be treated as met only if:

a. the requirements of section 415(b) of the Internal Revenue Code are met, determined by treating the accrued benefit derived from all such contributions as an annual benefit for purposes of section 415(b) of the Internal Revenue Code; or

b. the requirements of section 415(c) of the Internal Revenue Code are met, determined by treating all such contributions as annual additions for purposes of section 415(c) of the Internal Revenue Code.

2. For purposes of applying this section, the system will not fail to meet the reduced limit under section 415(b)(2)(C) of the Internal Revenue Code solely by reason of this Subsection and will not fail to meet the percentage limitation under section 415(c)(1)(B) of the Internal Revenue Code solely by reason of this Subsection.

3. For purposes of this Subsection, the following definition shall apply.

a. Permissive Service Credit—service credit:

i. recognized by the system for purposes of calculating a member's benefit under the system;

ii. which such member has not received under the system; and

iii. which such member may receive only by making a voluntary additional contribution, in an amount determined under the system, which does not exceed the amount necessary to fund the benefit attributable to such service credit.

b. Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, such term may include service credit for

permissible service credit which a member is receiving under the system.

4. The system will fail to meet the requirements of this Subsection if:
   a. more than five years of nonqualified service credit are taken into account for purposes of this Subsection; or
   b. any nonqualified service credit is taken into account under this Subsection before the member has at least five years of participation under the system.

5. For purposes of Paragraph C.4 above, effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, the following definition shall apply.
   a. Nonqualified Service Credit—permissible service credit other than that allowed with respect to:
      i. service (including parental, medical, sabbatical, and similar leave) as an employee of the Government of the United States, any state or political subdivision thereof, or any agency or instrumentality of any of the foregoing (other than military service or service for which was obtained as a result of a repayment described in section 415(k)(3) of the Internal Revenue Code);
      ii. service (including parental, medical, sabbatical, and similar leave) as an employee (other than as an employee described in Clause C.5.a.i above) of an education organization described in section 170(b)(1)(A)(ii) of the Internal Revenue Code which is a public, private, or sectarian school which provides elementary or secondary education (through grade 12), or a comparable level of education, as determined under the applicable law of the jurisdiction in which the service was performed;
      iii. service as an employee of an association of employees who are described in Clause C.5.a.i above; or
      iv. military service (other than qualified military service under section 414(u) of the Internal Revenue Code) recognized by the system.
   b. In the case of service described in Clause C.5.a.i, ii or iii above, such service will be nonqualified service if recognition of such service would cause a member to receive a retirement benefit for the same service under more than one plan.

6. In the case of a trustee-to-trustee transfer after December 31, 2001, to which section 403(b)(15)(A) of the Internal Revenue Code or section 457(e)(17)(A) of the Internal Revenue Code applies (without regard to whether the transfer is made between plans maintained by the same employer):
   a. the limitations of Paragraph C.4 above will not apply in determining whether the transfer is for the purchase of permissive service credit; and
   b. the distribution rules applicable under federal law to the system will apply to such amounts and any benefits attributable to such amounts.

7. For an eligible member, the limitation of section 415(c) of the Internal Revenue Code shall not be applied to reduce the amount of permissive service credit which may be purchased to an amount less than the amount which was allowed to be purchased under the terms of a Plan as in effect on August 5, 1997. For purposes of this Paragraph, an eligible member is an individual who first became a member in the system before January 1, 1998.

D. Modification of Contributions for 415(c) and 415(n) Purposes

1. Notwithstanding any other provision of law to the contrary, the system may modify a request by a member to make a contribution to the system if the amount of the contribution would exceed the limits provided in section 415 of the Internal Revenue Code by using the following methods.
   a. If the law requires a lump sum payment for the purchase of service credit, the system may establish a periodic payment plan for the member to avoid a contribution in excess of the limits under section 415(c) or 415(n) of the Internal Revenue Code.
   b. If payment pursuant to Subparagraph a. of this Paragraph will not avoid a contribution in excess of the limits imposed by section 415(c) or 415(n) of the Internal Revenue Code, the system may either reduce the member's contribution to an amount within the limits of those sections or refuse the member's contribution.

E. Repayments of Cashouts

1. Any repayment of contributions (including interest thereon) to the plan with respect to an amount previously refunded upon a forfeiture of service credit under the plan or another governmental plan maintained by the retirement system shall not be taken into account for purposes of section 415 of the Internal Revenue Code, in accordance with applicable treasury regulations.

F. Limitation of Benefits Priority

1. Reduction of benefits and/or contributions to all defined benefit plans sponsored by the state in which the member participated, where required, shall be accomplished by first reducing the member's benefit under the defined benefit plan in which the member most recently accrued benefits and thereafter in such priority as shall be determined by the plan and the plan administrator of such other plans. Necessary reductions may be made in a different manner and priority pursuant to the agreement of the plan and the plan administrator of all other plans covering such member.

G. Limitation Year

1. For purposes of applying the limitations of section 415 of the Internal Revenue Code, the limitation year shall be the calendar year.

For this purpose, a
trust includes a custodial account that is treated as a trust under section 401(f) or under section 457(g)(3) of the Internal Revenue Code.

B. For purposes of valuation, the value of the interest maintained by the plan in such group trust shall be the fair market value of the portion of the group trust held for the plan, determined in accordance with generally recognized valuation procedures.

TANF Initiatives (LAC 67:III.5541 and 5579)

In accordance with the provisions of the Administrative Procedure Act R.S. 49:953(A), the Department of Children and Family Services (DCFS) proposes to amend LAC 67:III, Subpart 15, Temporary Assistance for Needy Families (TANF) Initiatives, Chapter 55, TANF Initiatives, Section 5541, Court-Appointed Special Advocates and adopt Section 5579, State Child Care Tax Credit.

Pursuant to Louisiana’s Temporary Assistance for Needy Families (TANF) block grant, amendment of Section 5541 is necessary to indicate that the initiative is reasonably expected to accomplish TANF goal three, to prevent and reduce out-of-wedlock pregnancies, and adoption of Section 5579 is necessary to govern the collection of eligible child care tax credit expenditures for low-income individuals and families who have a qualified dependent that may be counted as maintenance of effort (MOE) for the TANF grant.

Part III. Economic Stability
Subpart 15. Temporary Assistance for Needy Families (TANF) Initiatives

Chapter 55. TANF Initiatives
§5541. Court-Appointed Special Advocates

A. The department shall enter into an agreement with the Supreme Court of Louisiana to provide services to needy children identified as abused or neglected who are at risk of being placed in foster care or, are already in foster care. Community advocates provide information gathering and reporting, determination of and advocacy for the children's best interests, and case monitoring to provide for the safe and stable maintenance of the children in their own homes or the return of children to their own homes or the homes of a relative.

B. The services meet TANF goal 1, to provide assistance to needy families so that children may be cared for in their own homes or in the homes of relatives by ensuring that the time children spend in foster care is minimized, and TANF goal three, to prevent and reduce the incidence of out-of-wedlock pregnancies by providing the child with support and guidance and with encouragement and empowerment to be successful in becoming a responsible decision maker.

C. Eligibility for services is limited to needy families, that is, one in which any member receives a Family Independence Temporary Assistance Program (FITAP) grant, Kinship Care Subsidy Program (KCSP) grant, Supplemental Nutritional Assistance Program (SNAP) benefits, Child Care Assistance Program (CCAP) services, Title IV-E, Medicaid, Louisiana Children’s Health Insurance Program (LaCHIP) benefits, supplemental security income (SSI), free or reduced school lunch, or who has earned income at or below 200 percent of the federal poverty level. A family consists of minor children residing with custodial parents, or caretaker relatives of minor children.

D. Services are considered non-assistance by the department.

§5579. State Child Care Tax Credit

A. The department shall enter into a memorandum of understanding with the Louisiana Department of Revenue to collect information on state child care tax credit expenditures for the purpose of claiming eligible expenditures that may count as maintenance of effort (MOE) effective TANF state plan FY 2014 for the Temporary Assistance for Needy Families (TANF) grant. The state child care tax credit is an annual refundable tax credit for low-income individuals and families who have a qualified dependent who is under the age of 13, and the parent or qualified relative has paid someone to provide care for the qualified dependent so that they can work or look for work. Also, this credit may be available if a nonresident or part-year resident individual income tax return for Louisiana is filed when the child care expenses have been incurred in Louisiana during the time as a resident.

B. These services meet TANF goal two, to end dependence of needy parents on government benefits, by promoting job preparation, work, and marriage.

C. Eligibility for services attributable to TANF/MOE funds is limited to those families with minor children as noted above who meet the Louisiana Department of Revenue child care tax credit eligibility standards. The earned income must be $25,000 or less, in order for this credit to be refunded. The individuals or families must meet the same tests for earned income, qualifying dependents, and qualifying expenses as required by the Internal Revenue Service. A family consists of minor children residing with custodial parents or caretaker relatives of minor children.

D. Services are considered non-assistance by the department.

FISCAL AND ECONOMIC IMPACT STATEMENT
FOR ADMINISTRATIVE RULES
RULE TITLE: TANF Initiatives

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)
This rule proposes to amend Louisiana Administrative Code (LAC), Title 67, Part III, Subpart 15 Temporary Assistance for Needy Families (TANF) Initiatives, Chapter 55 TANF Initiatives to amend Section 5541 and to adopt Section 5579. The proposed rule amends Section 5541—Court-Appointed Special Advocates (CASA) to include an additional TANF purpose as articulated in the federal TANF statute. Services provided through the CASA Initiative are reasonably expected to accomplish TANF goal #3, which is to prevent and reduce out-of-wedlock pregnancies.

Also, the proposed rule adopts Section 5579—State Child Care Tax Credit to claim state expenditures that are anticipated to be counted as Maintenance of Effort (MOE) for Louisiana’s federal TANF grant.

The department shall collect information on the State Child Care Tax Credit expenditures from the Department of Revenue for the purpose of claiming eligible expenditures that may count as MOE towards the federal TANF grant retroactive to the TANF State Plan FY 2014.

The proposed rule will not impact the overall revenues or expenditures of the department. However, the rule allows the department to maintain their existing federal TANF grant funding of $164 M. The only cost associated with this proposed rule is the cost of publishing rulemaking. It is anticipated that $1,065 (Federal) will be expended in FY 14-15 for the state’s administrative expense for promulgation of this proposed rule and the final rule.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)
Implementation of this proposed rule will have no effect on revenue collections of State or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)
Implementation of this proposed rule will have no cost or economic benefit to directly affected persons or non-governmental groups.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

FISCAL AND ECONOMIC IMPACT STATEMENT
FOR ADMINISTRATIVE RULES
RULE TITLE: Quality Jobs Program

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)
There will be no incremental costs or savings to state or local governmental units due to the implementation of these rules. The Department of Economic Development intends to administer the program with existing personnel.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)
This rule change maintains the current 60 day period for companies to request renewal of their Quality Jobs contract but also gives the Board of Commerce and Industry (“Board”) discretion to approve a late renewal request for participating businesses who failed to request renewal of their Quality Jobs contract within the requisite 60 day period. In addition to allowing the Board to approve a late renewal request, this rule change will allow the Board to impose a penalty including a reduction in the remaining contract term for the late renewal request. The rule change does not specify a penalty amount or define how penalties might be determined or calculated if imposed by the Board. To date, LED is aware of only four companies who have initial Quality Jobs contracts that have been expired more than 60 days that would be eligible to request a late renewal from the Board. LED estimates that credits/rebates from these four companies will decrease state governmental revenues by approximately $3,860,000 million per year. Most of this decrease is due to one company that had average annual payroll rebates of $1,625,000 per year. However, due to ramp up, this company is predicted to have approximately $3 million per year in annual rebates over the second five year period of the contract. Some companies in the future whose contracts would have lapsed under current rules will be able to petition the Board to renew contracts at later dates due to the rule change, further decreasing state governmental revenues. However, there is no way to estimate revenue impacts from these delayed contract renewals in the future. Penalties, if imposed by the Board, would offset some of the decrease in state governmental revenues associated with approval of late renewal requests authorized by the proposed rule change.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)
The income of businesses participating in the program will increase by the amount of benefits received.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT
(Summary)
Companies who renew their contract will continue to receive benefits under this program and will gain competitively over companies that do not receive the program’s benefits. While employment may increase in participating businesses,

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: Bulletin 746—Louisiana Standards for State Certification of School Personnel

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed policies may result in indeterminable implementation costs to colleges and universities to develop curriculum and coursework for the new certifications. Additionally, while there are currently just under $1 million in Child Care and Development Block Grant (CCDF) funds allocated to scholarships available to individuals seeking certification, the Department of Education (DOE) will experience increased scholarship costs as educational requirements are raised and the DOE increases the scholarship allocation up to $5 million.

Act 868 of the 2014 Regular Session encourages early learning staff to obtain certification through training programs. The proposed revisions include the creation of a Birth to Kindergarten teaching certificate and the creation of an Early Childhood Ancillary Certificate.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed policy revisions may result in an indeterminable increase in revenues in the form of tuition and
fees for colleges and universities which offer courses for the new certifications. The Department will not charge fees for the Ancillary Teaching Certificate or Birth to Kindergarten Certificate.

School Readiness Tax Credits are refundable tax credits to families, child care providers, child care directors and staff, and businesses that participate in the Quality Start Child Care Rating System (QRS). The amount of the credit varies by eligible entity and the QRS rating of the child care center. Points are awarded for various factors, including education and training of staff. Increased educational standards will result in an increase in QRS scores of participating centers, which increases the amount of allowable tax credits. More specifically, increased educational attainment qualifies eligible staff for higher tax credits. The resulting decrease in state general fund is indeterminable and will depend upon the number of individuals and providers who meet the eligibility criteria and claim the tax credit.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

There may be an indeterminable increase in costs and/or economic benefits to directly affected persons or nongovernmental groups.

While individuals seeking the new certifications will incur costs for required coursework, the Department of Education will allocate up to $5,000,000 in scholarship funds from the Child Care and Development Block Grant to aid individuals in obtaining the ancillary teaching certificate. Once certified, these higher qualified teachers may demand higher compensation and may also become eligible for the School Readiness Tax Credit. Furthermore, increases in compensation would, in turn likely increase operating expenses of early learning centers. It is possible that providers may receive subsidies to offset these increases or may otherwise be forced to pass along increased costs to parents.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

This policy will have no effect on competition and employment.

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)
The proposed revision adds the Early Childhood Ancillary Certificate Program to the list of programs for which in-state and out-of-state non-university providers may seek approval.

Family Impact Statement

In compliance with Act 1183 of the 1999 Regular Session of the Louisiana Legislature, the impact of this proposed Rule has been considered. This proposed Rule will have no impact on family functioning, stability, or autonomy as described in R.S. 49:972 since it only clarifies the procedures for applying for reparations.

Poverty Impact Statement

The proposed Rule should not have any known or foreseeable impact on any child, individual or family as defined by R.S. 49:973(B). In particular, there should be no known or foreseeable effect on:

1. the effect on household income, assets, and financial security;

2. the effect on early childhood development and preschool through post-secondary education development;

3. the effect on employment and workforce development;

4. the effect on taxes and tax credits;

5. the effect on child and dependent care, housing, health care, nutrition, transportation, and utilities assistance.

Provider Impact Statement

The proposed Rule should not have any known or foreseeable impact on providers as defined by HCR 170 of 2014 Regular Legislative Session. In particular, there should be no known or foreseeable effect on:

1. the effect on the staffing level requirement or qualifications required to provide the same level of service;

2. the total direct and indirect effect on the cost to the providers to provide the same level of service; or

3. the overall effect on the ability of the provider to provide the same level of service.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: Compensation to Victims

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed administrative rule change may result in an indeterminable net increase in expenditures from the statutorily dedicated Crime Victims Reparation (CVR) Fund, which is funded by fees associated with criminal court cases. Currently, the CVR fund has a cash balance of $1.5M. Pursuant to Executive Order BJ 2014-17, the proposed administrative rule change allows a victim/claimant to assign their rights to a hospital/health care facility to recover medical costs associated with forensic medical examinations, potentially allowing for a greater number of claims to be considered. No costs to local governmental units are anticipated beyond the ones they are already liable for by state law, such as the costs of the forensic medical examination and rape kit for the purposes of evidence collection.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

There is no effect on revenue collections of state and local governmental units. However, implementation of the proposed rule may increase federal grant awards in FY 16 and subsequent fiscal years for the Crime Victims Reparations Fund. For every dollar appropriated in a particular fiscal year for crime victim reparations, the federal Office for Victims of Crimes (OVC) will appropriate sixty cents of funding in the next fiscal year through the Victims of Crime Act (VOCA).
Therefore, increased state expenditures may generate additional federal funding for the agency in the next fiscal year.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

Implementation of the proposed rule will allow victims of sexual assault to assign their rights to a hospital/health care provider for treatment for personal injury, and mitigate expenses of the victim associated with the collection and securing of crime scene evidence.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

There is no effect on competition or employment in the public or private sector as a result of the proposed rule change.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: Eligibility for Sexual Assault Victims

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed administrative rule change may result in an indeterminable net increase in expenditures from the statutorily dedicated Crime Victims Reparation Fund, which is funded by fees associated with criminal court cases. The proposed administrative rule change clarifies the conditions for claim eligibility of sexual assault claims, outlines why claims cannot be denied, and potentially allows for a greater number of claims to be considered. No costs to local governmental units are anticipated.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

There is no effect on revenue collections of state and local governmental units. However, implementation of the proposed rule could increase federal grant awards in FY 16 and subsequent fiscal years. To the extent that extra state dollars are appropriated in a particular fiscal year for crime victim reparations, the federal Office for Victims of Crimes (OVC) will appropriate sixty cents of funding in the next fiscal year through the Victims of Crime Act (VOCA). Therefore, increased state expenditures may generate additional federal funding for the agency in the next fiscal year.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

Implementation of the proposed rule will allow victims of sexual assault to access benefits related to treatment for personal injury, and mitigate expenses of the victim associated with the collection and securing of crime scene evidence.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: Continuing Education

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The estimated implementation cost for this rule totals approximately $200 in state FY 15 and only applies the Board of Examiners of Psychologists. Those costs are related to publishing the proposed and final rule in the Louisiana Register. The proposed rule provides clarification that Emeritus licensees must acquire continuing education credits and provides a short-term exemption of continuing education requirements for those individuals until the reporting periods beginning in July 2015 and July 2016.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

No impact on state or local government revenue collections is anticipated as a result of the proposed rule change.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

This amendment provides clarification in regards to continuing education for Emeritus licensees. Emeritus licensees are licensed psychologists who have licenses in good standing, have held continuous licensure, and have at least reached the age of 65 and work at most part time. Continuing education provides for essential continuing professional development and is necessary to ensure public protection even if the licensee is working part-time. The modification exempts Emeritus licensees until the reporting periods beginning in July 2015 and July 2016.

The cost of any continuing education program is to be borne by the licensee and paid directly to the entity organizing the course or program. The amended language will have a minimal impact on licensees and is in agreement with the recommended national guidelines issued by the Association of State Provincial Psychology Boards (ASPPB). There are approximately 706 licensed psychologists regulated by this Board, and it is estimated that 54 hold Emeritus status.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

There is no estimated effect on competition and employment as a result of this rule change.

**FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES**

**RULE TITLE:** Provisional Licensure of Psychologists

**I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)**

The estimated implementation cost for the proposed rule totals approximately $1,000 in FY 15. Those costs are related to publishing the proposed and final rules in the Louisiana Register. The proposed rule codifies and provides regulations for licensed specialists in school psychology [LSSP] pursuant to Act 136 of the 2014 Legislative Session.

**II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENT UNITS (Summary)**

The proposed rule establishes licensure for a specialist in school psychology and creates a fee schedule for application, examination, renewal, reinstatement, background checks and administrative processes. Any increase in self-generated revenues to the Board is difficult to estimate because the licensure is optional and not required. Any impact on revenues to the Board as a result of the proposed rule are likely to be minimal. There is no estimated impact on state or local government revenue collections as a result of the proposed rule change.

**III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)**

The proposed rules provide regulations for licensed specialists in school psychology pursuant to Act 136 of the 2014 Legislative Session. Individuals that attain licensure as a specialist in school psychology could potentially realize unspecified economic benefits in terms of employability, particularly if the licensure becomes a desired qualification for employment. The cost of any licensure fees is to be borne by the applicant for specialist license and paid to the Board. The proposed language will not affect current licenses. The proposed language is consistent with national guidelines issued by the National Association of School Psychologists (NASP).

**IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)**

There is no estimated effect on competition and employment as a result of this rule change.

Chapter 7. Supervised Practice Leading toward Licensure

§701. Preface

A. This document details reasonable minimal standards for supervised practice and establishes the legal, administrative and professional responsibility of the licensed psychologist or medical psychologist licensed in accordance with R.S. 27:1360.51 et seq., designated as supervisor.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:2353.

HISTORICAL NOTE: Promulgated by the Department of Health and Human Resources, Board of Examiners of Psychologists, LR 5:249 (August 1979), amended LR 7:187 (April 1981), amended by the Department of Health and Hospitals, Board of Examiners of Psychologists, LR 41:

§705. Qualifications of Supervisors

A. Responsibility for the overall supervision of the supervisee's professional growth resides in the licensed psychologist or medical psychologist. Supervising psychologists shall at least be licensed for one year and have training in the specific area of practice in which they are offering supervision. Specific skill training may be assigned to other specialists, under the authority of the supervising psychologist. The non-psychologist specialist shall have
clearly established practice and teaching skills demonstrable to the satisfaction of both the supervising psychologist and the supervisee.

B. The supervisor shall limit the number of persons supervised so as to be certain to maintain a level of supervision and practice consistent with professional standards insuring the welfare of the supervisee and the client. The supervisor must be licensed for one year and may not supervise any more than two candidates for licensure at the same time.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:2353.

HISTORICAL NOTE: Promulgated by the Department of Health and Human Resources, Board of Examiners of Psychologists, LR 5:249 (August 1979), amended LR 7:187 (April 1981), amended by the Department of Health and Hospitals, Board of Examiners of Psychologists, LR 41:

§709. Conduct of Supervision
A. The board recognizes that the variability in preparation for practice of the trainee will require individually tailored supervision. The specific content of the supervision procedures will be worked out between the individual supervisor and the supervisee.

B. The licensed psychologist or medical psychologist who provides supervision for the candidate for licensure must have legal functioning authority over and professional responsibility for the work of the supervisee. This means that the supervisor must be available to the supervisee at the point of the decision-making. The supervisor's relationship with the supervisee shall be clearly differentiated from that of consultant, who may be called in at the discretion of the consultant and who has no functional authority for, nor none of the legal or professional accountability for the services performed or for the welfare of the client.

C. The supervising psychologist is responsible for the delivery of services, the representation to the public of services, and the supervisor/supervisee relationship.

1. All clients will be informed of the availability or possible necessity of meetings with the supervising psychologist at the request of the client, the supervisee, or the psychologist. The supervisor will be available for emergency consultation and intervention.

2. All written communication will clearly identify the licensed psychologist or medical psychologist as responsible for all psychological services provided. Public announcement of services and fees, and contact with the public or professional community shall be offered only by or in the name of the licensed psychologist or medical psychologist. It is the responsibility of both the supervising psychologist and the supervisee to inform the client, to whatever extent is necessary for the client to understand, of the supervisory status and other specific information as to supervisee's qualifications and functions.

3. Billing and receipt of payment is the responsibility of the employing agency or the licensed psychologist/medical psychologist and/or provisional licensed psychologist. The setting and the psychological work performed shall be clearly identified as that of the licensed psychologist. The physical location where services are delivered may not be owned, leased, or rented by the supervisee.

4. The supervisor must be paid either directly by the client or by the agency employing the supervisee. The supervisee may not pay the supervisor for supervisory services, nor may the supervisee and/or his/her immediate family have any financial interest in the employing agency.

5. The supervising psychologist is responsible for the maintenance of information and files relevant to the client. The client shall be fully informed, to whatever extent is necessary for that client to understand, that the supervising psychologist or the employing agency is to be the source of access to this information in the future.

D. In the event the supervisee publicly represents himself/herself inappropriately, or supervision is not conducted according to LAC 46:13.709, the board may rule that any experience gained in that situation is not commensurate with ethical standards and thus not admissible as experience toward licensure. The board may further rule that any psychologist providing supervision under those circumstances is in violation of ethical standards which results in disciplinary action such as suspension or revocation of licensure.

E. Termination of supervision of a provisionally licensed psychologist must be reported to the board by both the supervisor and supervisee, in writing via postal mail, within seven calendar days from when either party knew or should have known supervision was terminated.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:2353.

Chapter 9. Licensees

§901. Provisional License Renewal
A. A psychologist is eligible to renew their provisional license until July 31 of each year upon submission of the required renewal fee, renewal application form and fulfillment of all continuing education requirements as defined in LAC 46:13. Chapter 8.

B. A provisional license may be valid for one year beginning August 1 through July 31 for each renewal period.

C. A person whose provisional license has been suspended is not eligible for renewal. Reinstatement procedures of a suspended provisional license are at the discretion of the board.

D. A person whose provisional license has been revoked is not eligible for renewal.

E. Provisionally licensed psychologists shall be eligible for renewal of provisional licensure no more than three consecutive years.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:2353.

§902. Lapsed Provisional License
A. If a provisional license is not renewed by July 31st, due notice having been given, the license shall be regarded as lapsed for the year beginning with that August. Such license is not eligible for reinstatement unless such
requirements are satisfied within six months from the date of lapse.

B. If a provisional license lapses for a period longer than 6 months, one may make a new application to the board. It is at the discretion of the board that any requirements not fulfilled during the year prior to lapse be completed.

**Chapter 11. Supervision of Assistants to Psychologists**

**§1101. Conditions for Utilization of Assistants**

A. An assistant providing psychological services must be under the general and continuing professional supervision of a licensed psychologist. General supervision means the procedure is furnished under the psychologist’s overall direction and control, but the psychologist’s presence is not required during the performance of the procedure. Under general supervision, the training of the non-psychologist personnel who actually performs the diagnostic procedure and maintenance of the necessary equipment and supplies are the continuing responsibility of the psychologist.

B. In order to maintain ultimate legal and professional responsibility for the welfare of every client, a licensed psychologist must be vested with functional authority over the psychological services provided by assistants.

C. Supervisors shall have sufficient contact with clients, and must be empowered to contact any client in order to plan effective and appropriate services and to define procedures. They shall also be available for emergency consultation and intervention.

D. Work assignments shall be commensurate with the skills of the assistant and procedures shall under all circumstances be planned in consultation with the supervisor.

E. The supervisory contact with assistants shall occur in the service delivery setting, unless otherwise approved by the board of examiners.

F. Public announcement of fees and services and contact with lay or professional public shall not be offered in the name of the assistant.

G. Billing for psychological services shall not be in the name of an assistant.

H. A provisional licensed psychologist may not supervise unlicensed assistants.

Physician Assistants, Licensure and Certification; Practice  
(LAC 46:XLV.1521, 4505, 4506, 4511, and 4512)

Notice is hereby given that in accordance with the Louisiana Administrative Procedure Act, R.S. 49:950 et seq., and pursuant to the authority vested in the Louisiana State Board of Medical Examiners (board) by the Louisiana Medical Practice Act, R.S. 37:1270, and the Louisiana Physician Assistant Practice Act, R.S. 37:1360.21-1360.38, the board intends to amend its rules governing physician assistants (PAs), LAC 46:XLV.1521.A.5.f, 1521.A.5.h., 4505.D, 4506.A.2, 4511.A.4 and 4512. The proposed amendments eliminate the need for a supervising physician (SP) to countersign all records documenting the activities, functions, services and treatment measures prescribed or delivered to patients by a PA (§§1521.A.5.f, 4505.D, 4506.A.2 and 4511.A.4). Section 4512 provides that a performance plan must be included in a PA's clinical practice guidelines or protocols and identify the SP responsible for plan compliance (§4512.B). Flexibility is provided in plan development, which must include some chart review and any other items that the SP and PA deem appropriate (§4512.A.2). Increased chart review is necessary for new PAs during the first 12 months of practice and during the first 6 months for a PA shifting into an entirely new area of practice. (§4512.A.1.a). If the PA/SP work together at the same primary practice site, routinely confer with respect to patient care, and document their services in the charts and records maintained at the primary practice site, the increased chart review requirement is deemed satisfied. (§4512.A.1.b). Records regarding the plan must be maintained and made available to board representatives upon request. (§4512.C). The proposed amendments are set forth below.

2. for all other PAs not falling within §4512.A.1: a review of such number of charts and records of the PA on a monthly basis as the SP deems appropriate to meet the purposes of §4512.A. If the PA has prescriptive authority the plan shall include a review of a representative sample of the PA's prescriptions. **FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES**

**RULE TITLE: Physician Assistants, Licensure and Certification; Practice**

I. **ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)**

Other than the rule publication costs of $654 in FY15, it is not anticipated that the proposed rule changes will impact costs or savings to the Board of Medical Examiners (Board) or any state or local governmental unit. The proposed rule changes eliminate the current requirement that Supervising Physicians must countersign specific enumerated actions prescribed or delivered by a Physician Assistant in the treatment of a patient. The rule changes detail practice guidelines and protocols to facilitate this change.

II. **ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)**

It is not anticipated that the proposed rule changes will impact revenue collections of the Board of Medical Examiners or any state or local governmental unit.

III. **ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)**

The Board proposes to amend its Physician Assistant (PA) Rules to eliminate the current requirement that all documented activities, functions, services and treatment measures prescribed or delivered to patients by a PA must be countersigned by the supervising physician (SP). (1521.A.5.f, 4505D, 4506A.2 and 4511A.4). The changes also add Section 4512, which calls for the development and inclusion of a performance plan into a PA’s existing clinical practice guidelines or protocols and the identity of the SP responsible for plan compliance (4512B). Flexibility is provided to the parties to develop a plan that works best in their particular practice setting. The plan must include some chart review and any other items that the SP and PA deem appropriate (4512A.2). Increased chart review is required for new PAs during the first 12 months of practice and during the first 6 months for a PA shifting into an entirely new area of practice. If the PA/SP work together at the same primary practice site, routinely confer with respect to patient care, and document their services in the charts and records maintained at the primary practice site, the increased chart review requirement is deemed satisfied. (4512A.1). Records regarding the plan must be maintained and made available to board representatives upon request. (4512C).

PAs and SPs will spend some amount of time developing a performance plan. The board is not in a position to estimate the proposed impact on individual medical practices with regard to developing this plan but believes it will be much less than that currently devoted by SPs to countersigning PA chart entries. The proposed amendments may result in a savings in time and/or reduction in workload for SPs and, in turn, serve to increase receipts and/or income of SPs to an indeterminable amount. Otherwise, it is not anticipated that the proposed amendments will have any material effect on receipts, costs, paperwork or workload of PAs or SPs licensed to practice in this state or non-governmental groups.

IV. **ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)**

The proposed changes may decrease, to some extent, the time required to supervise a PA by physicians who utilize them in their practice. This may, to an extent not quantifiable, enhance employment opportunities for PAs. Otherwise, it is not anticipated that the proposed amendments will have any impact on competition or employment in either the public or private sector.

Louisiana Board of Veterinary Medicine proposes to adopt LAC 46:LXXXV.303 in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953 et seq., and the Louisiana Veterinary Practice Act, R.S. 37:1518(A)(9) and 37:1533. The board is vested with the authority to regulate the practice of veterinary medicine to insure the health, welfare, and protection of the animals and the public.

Pursuant to current legal authority, a member of the faculty at LSU-School of Veterinary Medicine is exempt from active licensure when performing his educational function in a classroom setting or giving instructions at a continuing education seminar. However, faculty member conduct is extending beyond what can reasonably be considered part of education, such as engaging in the active (direct) or constructive (indirect) practice of veterinary medicine on an animal owned by a member of the public whether by referral from a private practice veterinarian, or by direct patient solicitation/access without referral, as part of his employment at the school. Such conduct is occurring without administrative regulatory accountability to insure the health, welfare, and protection of the animals and the public. The proposed rules are being adopted to require a faculty member to possess a veterinary faculty license when his conduct, through employment at the public university, extends to the care and treatment of an animal owned by the public, and related matters.

The proposed Rule regarding the veterinary faculty license shall become effective for the 2016-2017 annual license period (beginning October 1, 2016), and for every annual license renewal period thereafter.

§303. Examinations

E. Veterinary Faculty License
1. Section 1514(7) of the Veterinary Practice Act grants an exception to the requirement for a license to practice veterinary medicine for a member of the faculty at LSU-SVM when performing his educational function in a classroom setting or giving instructions at a continuing education seminar; however, when the conduct extends beyond what can reasonably be considered part of education, such as engaging in the active (direct) or constructive (indirect) practice of veterinary medicine on an animal owned by the public whether by referral from another veterinarian, or by direct patient access without referral, as part of his employment at the school, the faculty member then enters the realm of veterinary practice without first having to meet the requirements necessary to have a license as established by the Veterinary Practice Act and the board’s rules.

2. Pursuant to Section 1533 of the Veterinary Practice Act, a faculty license to practice veterinary medicine issued by the board to a member of the faculty at LSU-SVM is required when the conduct extends to the active (direct) or constructive (indirect) practice of veterinary medicine on an animal owned by the public whether by referral from another veterinarian, or by direct patient access without referral, as part of his employment at the school.

3. A faculty license shall not be used to practice veterinary medicine beyond the holder’s employment at the school as defined in these rules. Such prohibition includes the holder practicing veterinary medicine at a private practice facility or an emergency care facility which requires an active license. However, an active license to practice veterinary medicine issued by the board to a qualified faculty veterinarian may be used by the holder for all aspects of his employment and practice at the school, as well as within the emergency and private practice settings.

4. Further criteria for issuance of a faculty license is when the applicant:
   a. provides proof of graduation from a school of veterinary medicine with a degree of doctor of veterinary medicine or its equivalent accredited by the American Veterinary Medical Association, or graduation from a foreign veterinary school proof of completion of the ECFVG program offered by the AVMA or the PAVE program offered by the AAVSB; and
   i. has possessed an active license in good standing issued by another state, territory, or district in the United States within the five years prior to the date of application for a faculty license; or
   ii. has a current certificate of special competency in a particular field of veterinary medicine recognized by the AVMA at the time of application for a faculty license;
   b. all other requirements for the issuance of a license, and thereafter, for renewal, are applicable, including annual continuing education for licensure renewal and payment of fees;
   c. all applicants for a license must satisfy the preceptorship program requirement, or be granted a waiver by the board pursuant to preceptorship program waiver criteria, or possess an active license in good standing issued by another state, territory, or district in the United States at the time of application for a faculty license;
   d. all applicants for a faculty license must successfully pass the state jurisprudence examination.

5. The faculty license shall be subject to cancellation for any of the reasons and under the same conditions set forth in R.S. 37:1526 and the board’s rules, or if the holder permanently moves out of Louisiana, or leaves the employment of LSU-SVM.

6. Pending issuance of a faculty license or an active license, an intern or resident, who is a graduate of a board approved school of veterinary medicine, may practice veterinary medicine at LSU-SVM, provided the practice is limited to such duties as intern or resident, and is under the supervision of a veterinarian who holds a faculty license issued by the board (or a faculty veterinarian with an active license issued by the board). Supervision as used in this rule shall mean the presence of the supervising, faculty licensed veterinarian (or a faculty veterinarian with an active license issued by the board) on the premises and his availability for
prompt consultation and treatment. The supervising, faculty licensed veterinarian (or a faculty veterinarian with an active license issued by the board) shall be ultimately responsible for and held accountable by the board for the duties, actions, or work performed by the intern or resident.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES
RULE TITLE: License Procedures

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)
The proposed rule changes will result in an expenditure of approximately $800 Fees and Self-Generated Revenues in state FY 15 for the Board of Veterinary Medicine and will result in no estimated costs (savings) to other state or local governmental units. This cost is routinely included in the board’s annual operating budget. The proposed rules amend Louisiana Administrative Code (LAC) Title 46, Part LXXXV, Section 303.E regarding clarification of the Louisiana veterinary faculty license. II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)
The Board of Veterinary Medicine anticipates an increase of approximately $32,250 in self-generated revenues in FY16, and increasing to approximately $8,250 above current revenue levels beginning in FY17 and beyond. The proposed increase in annual license renewal fees shall become effective for the 2016-2017 license renewal period (October 1, 2016-September 30, 2017) and annually thereafter; and the rules regarding application, state board examination, original license, and late renewal fees shall become effective upon promulgation.

Applied Behavior Analysis-Based Therapy Services (LAC 50:XV.Chapters 1-7)

The Department of Health and Hospitals, Bureau of Health Services Financing proposes to adopt LAC 50:XV.Chapters 1-7 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This proposed Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq.

The Department of Health and Hospitals, Bureau of Health Services Financing and the Office for Citizens with Developmental Disabilities promulgated an Emergency Rule which amended the provisions of the children’s choice waiver in order to provide for the allocation of waiver opportunities to Medicaid-eligible children identified in the Melanie Chisholm, et al vs. Kathy Kliebert class action litigation (hereafter referred to as Chisholm class members) who have a diagnosis of pervasive developmental disorder or autism spectrum disorder, and are in need of applied behavior analysis-based (ABA) therapy services (Louisiana Register, Volume 39, Number 10). This action was taken as a temporary measure to ensure Chisholm class members would have access to ABA therapy services as soon as possible.

To ensure continued, long-lasting access to ABA-based therapy services for Chisholm class members and other children under the age of 21, the department promulgated an Emergency Rule which adopted provisions to establish coverage and reimbursement for ABA-based therapy services under the Medicaid state plan (Louisiana Register, Volume 40, Number 2). The department promulgated an Emergency Rule which amended the provisions of the February 1, 2014 Emergency Rule to ensure compliance with all of the provisions required by the court order issued in Melanie Chisholm, et al vs. Kathy Kliebert class action litigation (Louisiana Register, Volume 40, Number 10). This proposed Rule is being promulgated to continue the provisions of the October 20, 2014 Emergency Rule.

Poverty Impact Statement
In compliance with Act 854 of the 2012 Regular Session of the Louisiana Legislature, the poverty impact of this proposed Rule has been considered. It is anticipated that this proposed Rule may have an adverse impact on small businesses, as described in R.S. 49:965.2 et seq., if the requirements of these licensing changes increase the financial burden on providers. With the resources available to the department, a regulatory flexibility analysis has been performed in order to consider methods to minimize the potential adverse impact on small businesses. A. For eligibility determinations effective December 31, 2013 eligibility shall be determined by modified adjusted gross income (MAGI) methodology in accordance with section 1004(a)(2) of the Patient Protection and Affordable Care Act (ACA) of 2010 and section 36B(d)(2)(B) of the Internal Revenue Code; for the following groups:

   a. Whether claimed or not, the tax filer’s spouse, who lives in the home, must be included.
   b. If a child files taxes and is counted as a tax dependent on his/her parent’s tax return, the child is classified as a tax dependent not a tax filer.
3. When taxes are filed for the tax dependent the MAGI household consists of the tax filer and all other tax dependents unless one of the following exceptions is met:
   a. being claimed as a tax dependent by a tax filer other than a parent or spouse (for example, a grandchild, niece, or tax filer’s parent);
   b. children living with two parents who do not expect to file a joint tax return (including step-parents); or

      i. the individual’s spouse; and
      ii. the individual’s natural, adopted, and step-children under age 19; and

      c. sibling;
      d. brother-in-law;
      e. sister-in-law;
      f. step-parent;
      g. step-sibling;
      h. aunt;
      i. uncle;
      j. first cousin;
      k. niece; or
      l. nephew.
2. The spouse of such parents or caretaker relatives may be considered a caretaker relative even after the marriage is terminated by death or divorce.
3. The assistance/benefit unit consists of the parent and/or caretaker relative and the spouse of the parent and/or caretaker relative, if living together, of child(ren) under age 18, or age 18 and a full-time student in high school or vocational/technical training. Children are considered deprived if income eligibility is met for the parents and caretaker relatives group. Children shall be certified in the appropriate children’s category.

   1. Eligibility for the pregnant women group may begin:
      a. at any time during a pregnancy; and
      b. as early as three months prior to the month of application.
2. Eligibility cannot begin before the first month of pregnancy. The pregnant women group certification may extend through the calendar month in which the 60-day postpartum period ends.
3. An applicant/enrollee whose pregnancy terminated in the month of application or in one of the three months prior without a surviving child shall be considered a pregnant woman for the purpose of determining eligibility in the pregnant women group.
4. Certification shall be from the earliest possible month of eligibility (up to three months prior to application) through the month in which the 60-day postpartum period ends.
5. Retroactive eligibility shall be explored regardless of current eligibility status.
   a. If the applicant/enrollee is eligible for any of the three prior months, she remains eligible throughout the pregnancy and 60-day postpartum period. When determining retroactive eligibility actual income received in the month of determination shall be used.
   b. If application is made after the month the postpartum period ends, the period of eligibility will be retroactive but shall not start more than three months prior to the month of application. The start date of retroactive eligibility is determined by counting back three months prior to the date of application. The start date will be the first day of that month.
6. Eligibility may not extend past the month in which the postpartum period ends.
7. The applicant/enrollee must be income eligible during the initial month of eligibility only. Changes in income after the initial month will not affect eligibility.
E. Child Related Groups
   1. Children Under Age 19-CHAMP. CHAMP children are under age 19 and meet income and non-financial eligibility criteria. ACA expands mandatory coverage to all children under age 19 with household income at or below 133 percent federal poverty level (FPL). Such children are considered CHAMP children.

3. Business income or loss shall be countable net profit or loss from partnerships, corporations, etc.

4. Capital gain or loss shall be countable income.

5. A child’s earned income is counted, except for the tax filer’s budget when earnings are below the tax filing threshold.

14. Pensions and annuities shall count as unearned income.

15. Income is potentially available when the applicant/enrollee has a legal interest in a liquidated sum and has the legal ability to make this sum available for the support and maintenance of the assistance unit. If the agency representative is unable to determine the amount of benefits available, the application shall be rejected for failure to establish need.

16. Railroad retirement shall count as unearned income the amount of the entitlement including the amount deducted from the check for the Medicare premiums, less any amount that is being recouped for a prior overpayment.

1. Income eligibility is determined by prospective income budgeting or actual income budgeting.
   a. Prospective income budgeting involves looking at past income to determine anticipated future income.

5. The net countable income for the individual’s household shall be compared to the applicable income standard for the household size to determine eligibility.
   a. If the countable income is below the income standard for the applicable MAGI group, the individual is income eligible.
   b. If the countable income is above the income standard for the applicable MAGI group, the individual is income ineligible.

C. Federal Poverty Income Guidelines (FPIG). Eligibility shall be based upon the following guidelines using the federal poverty income guidelines and adjusted to account for the 5 percent disregard:

Nursing Facilities
Per Diem Rate Reduction
(LAC 50:II.20005)

The Department of Health and Hospitals, Bureau of Health Services Financing proposes to amend LAC 50:II.20005 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This proposed Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq.

For state fiscal year 2014-15, state general funds are required to continue nursing facility rates at the rebased level. Because of the fiscal constraints on the state’s budget, the state general funds will not be available to sustain the increased rate. Consequently, the Department of Health and Hospitals, Bureau of Health Services Financing promulgated an Emergency Rule which amended the provisions governing the reimbursement methodology for nursing facilities in order to reduce the per diem rates paid to non-state nursing facilities (Louisiana Register, Volume 40, Number 5). This proposed Rule is being promulgated to continue the provisions of the July 1, 2014 Emergency Rule.

Q. Effective for dates of service on or after July 1, 2014, the per diem rate paid to non-state nursing facilities, shall be reduced by $90.26 of the rate in effect on June 30, 2014 until such time that the rate is rebased.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254 and Title XIX of the Social Security Act.

Family Impact Statement

In compliance with Act 1183 of the 1999 Regular Session of the Louisiana Legislature, the impact of this proposed Rule on the family has been considered. It is anticipated that this proposed Rule will have no impact on family functioning, stability and autonomy as described in R.S. 49:972.

Poverty Impact Statement

In compliance with Act 854 of the 2012 Regular Session of the Louisiana Legislature, the poverty impact of this proposed Rule has been considered. It is anticipated that this proposed Rule will have no impact on child, individual, or family poverty in relation to individual or community asset development as described in R.S. 49:973.

Provider Impact Statement

In compliance with House Concurrent Resolution 170 of the 2014 Regular Session of the Louisiana Legislature, the provider impact of this proposed Rule has been considered. It is anticipated that this proposed Rule will have no impact on the staffing level requirements or qualifications required to provide the same level of service, but may increase the total direct and indirect cost of the provider to provide the same level of service due to the decrease in payments. The proposed Rule may also have a negative impact on the provider’s ability to provide the same level of service as described in HCR 170 if the reduction in payments adversely impacts the provider’s financial standing.

FISCAL AND ECONOMIC IMPACT STATEMENT
FOR ADMINISTRATIVE RULES
RULE TITLE: Nursing Facilities
Per Diem Rate Reduction

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

It is anticipated that the implementation of this proposed rule will result in estimated programmatic savings to the state of $215,905,347 for FY 14-15, $221,737,972 for FY 15-16 and $228,390,111 for FY 16-17. It is anticipated that $432 ($216 SGF and $216 FED) will be expended in FY 14-15 and the state’s administrative expense for promulgation of this proposed rule and the final rule. The numbers reflected above are based on a blended Federal Medical Assistance Percentage (FMAP) rate of 62.06 percent in FY 14-15 and 62.17 percent in FY 15-16. The enhanced rate of 62.11 percent for the first three months of FY 15 is the federal rate for disaster-recovery FMAP adjustment states.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

It is anticipated that the implementation of this proposed rule will reduce federal revenue collections by approximately
$253,165,288 for FY 14-15, $364,405,227 for FY 15-16 and $375,337,384 for FY 16-17. It is anticipated that $216 will be expended in FY 14-15 for the federal administrative expenses for promulgation of this proposed rule and the final rule. The numbers reflected above are based on a blended Federal Medical Assistance Percentage (FMAP) rate of 62.06 percent in FY 14-15 and 62.17 in FY 15-16. The enhanced rate of 62.11 percent for the first three months of FY 15 is the federal rate for disaster-recovery FMAP adjustment states.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

This proposed rule amends the provisions governing the reimbursement methodology for nursing facilities to further reduce the reimbursement rates for non-state nursing facilities. It is anticipated that implementation of this proposed rule will reduce program expenditures in the Medicaid Program for nursing facility services by approximately $569,071,067 for FY 14-15, $586,143,199 for FY 15-16 and $603,727,495 for FY 16-17.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

It is anticipated that the implementation of this proposed rule will not have an effect on competition. However, we anticipate that the implementation may have a negative effect on employment as it will reduce the payments made to nursing facilities. The reduction in payments may adversely impact the financial standing of nursing facilities and could possibly cause a reduction in employment opportunities.

**FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES**

**RULE TITLE:** LERN Destination Protocol: TRAUMA

**I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)**

This proposed rule adopts Louisiana Administrative Code (LAC) Title 48—Public Health General, Part I—General Administration, Subpart 15 - Louisiana Emergency Response Network Board, Chapter 191 - Trauma Protocols, Section 19119 – Destination Protocol: TRAUMA. The Louisiana Emergency Response Network (LERN) Board is authorized to adopt protocols for the transport of trauma and time sensitive ill patients.

Since 2009, the LERN Board has previously adopted protocols for trauma patients that were published in the Potpourri Section (announcements and various information that will never become part of the LAC) of the State Register. On November 20, 2014, the LERN Board revised and adopted “Destination Protocol: TRAUMA”, to be effective January 1, 2015, that replaced the previous trauma destination protocol adopted and promulgated November 21, 2013. The revised destination protocol aligns closely with the federal CDC Guidelines for Field Triage of Injured Patients as well as recognizes Regional Trauma Programs as part of the destination for trauma patients. The revised trauma destination protocol was published in the Potpourri Section on December 2014.
This proposed rule codifies the revised trauma destination protocol in Section 19119; which is the latest trauma protocol adopted by the Louisiana Emergency Response Network Board.

Other than the cost to publish in the Louisiana Register, which is estimated to be $426 in FY 15, it is not anticipated that the proposed rule will result in any material costs or savings to LERN or any state or local governmental unit.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

There is no anticipated effect on revenue collections of state or local governmental units as a result of this proposed rule change.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

There are no estimated costs and/or economic benefits to directly affected persons or non-governmental groups. The proposed rule is simply a codification of protocols as authorized by La. R.S. 9:2798.5A.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

This rule establishes a destination protocol for patients with specific injuries. The trauma system is a voluntary system. This rule does not prevent or restrict any hospital from pursuing a trauma center designation or restrict any hospital from developing a trauma program. There is no effect on employment.

Fire Protection (LAC 55:V.3239)

The Department of Public Safety and Corrections, Public Safety Services, Office of State Fire Marshal, hereby gives notice that in accordance with the provisions of R.S. 49:953(B), the Administrative Procedure Act, the Office of the State Fire Marshal hereby proposes to repeal the following Rule regarding licensee of the State Fire Marshal engaging in door-to-door solicitation to “...comply with all local permitting ordinances and requirements...” This provision is being repealed as being facially defective and therefore unconstitutional based upon Attorney General Opinion No. 08-0098 0098 (2009), citing Central Hudson Gas and ElectricCorp v. Public Service Commission, 447 U.S. 557 (1980) and Board of Trustees of the State University of New York v. Fox, 492 U.S. 469 (1989) as authority. The repealed Rule requires licensees of the SFM engaging in door-to-door solicitation to “...comply with all local permitting ordinances and requirements ...” The above cited cases have held that door-to-door solicitation is speech within the meaning of the First Amendment of the U.S. Constitution, and local ordinances banning all door-to-door solicitation are constitutionally defective. Therefore, the repealed Section requiring that licensee’s comply with all local ordinances is overly broad and therefore defective.

Provider Impact Statement

The proposed rules do not impact or affect a “Provider.” "Provider" means an organization that provides services for
individuals with developmental disabilities as defined in HCR 170 of the 2014 Regular Session of the Legislature. In particular, the proposed rules have no effect or impact on a “provider” in regards to:

RULE TITLE: Fire Protection

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule repeals the current rule related to those licensed by the State Fire Marshal’s (SFM) Office to comply with local permitting ordinances and requirements for door-to-door solicitation. The rule is being repealed as a result of an Attorney General’s opinion and a U.S. Supreme Court decision that cites that door-to-door solicitation is speech within the 1st Amendment of the U.S. Constitution and ordinances banning door-to-door solicitation are unconstitutional.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule change will have no effect on revenue collections of state or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed rule change will have no effect on competition and employment.

A Notice of Intent in the October 20, 2014 edition of the Louisiana Register (LR 40:2105-2122) to amend LAC 50:1.Chapters 31-40. This Notice of Intent proposed to amend the provisions governing the coordinated care network in order to change the name in this Subpart to “Managed Care for Physical and Basic Behavioral Health” and to incorporate other necessary programmatic changes. The department conducted a public hearing on this Notice of Intent on November 26, 2014 to solicit comments and testimony on the proposed Rule. As a result of the comments received, the department proposes to amend the provisions in the following Sections of the proposed Rule: 1) §3103. Recipient Participation, Paragraph C, which had no changes will now clarify that participants will be notified at enrollment of their rights to disenroll from a health plan; 2) §3105. Participation Requirements, Subparagraph B.9 shall be amended to remove the last sentence in the Subparagraph relative to the HIPPA and Fraud Assessments; 4) §3503. Managed Care Organization Responsibilities, Paragraph O shall be amended to add MCO committee participation requirements; Paragraph P (formerly Paragraph O) and Subparagraphs 1-1.a shall be amended only to ensure proper formatting; Subparagraph 1.b shall be amended to clarify the recipient notice provisions; Paragraphs and Subparagraphs Q-T.1 shall be amended only to ensure proper formatting; and the provisions, “2-T.1. Repealed” is being removed for proper formatting; 5) §3507. Benefits and Services, Subparagraph E.2 shall be amended to clarify the provisions for transferring between MCOs; and 6) §3705. General Provisions, Subparagraph B.1 shall be amended to clarify the filing requirements for member grievances; and Subparagraphs C.1.-1a shall be amended to clarify the grievance notice and appeal procedures.

Taken together, all of these proposed revisions will closely align the proposed Rule with the department’s original intent and the concerns brought forth during the comment period for the Notice of Intent as originally published. No fiscal or economic impact will result from the amendments proposed in this notice.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES
RULE TITLE: Public Hearing—Substantive Changes to Proposed Rule—Plug and Abandonment of Oil and Gas Wells, Financial Security, Utility Review Status

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)
The proposed rule change will have no implementation costs to the state or local governmental units. The proposed rule change implements recommendations of the Legislative Auditor in the Performance Audit issued May 28, 2014 and has been updated to reflect certain comments received at the November 24, 2014 hearing and subsequent comment period. The intent of the rule change is to update the financial security requirements so that the financial security provided will cover the costs of plugging and abandoning these same wells if the operator fails to do so pursuant to State law. The proposed rule will also remove an exception that permitted 48-month compliant operators to not have to provide financial security. There are no costs to the Office of Conservation since the financial security will be able to be documented using existing procedures and staff.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)
The proposed rule change may effect revenue collections of state governmental units. In the event an unplugged well is abandoned and will require site restoration, the department will
access the financial security provided by the company to pay for the costs associated with the abandoned well. The proposed rule change will have no impact on local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS

The group directly affected by the rule change will be Exploration and Production (E&P) companies. These companies will be required to provide larger amounts of financial security if a new well is permitted or if an existing well is transferred, since the compliant operator exemption will be removed.

Currently E&P companies can choose between individual well financial security and blanket well security. The proposed rule change increases the financial security required based on the factors of well depth, well location, and number of wells operated. Amounts for individual well security depend on well location (land, inland water and offshore water) and well depth. Blanket financial security amounts depend on well location and the number of wells operated by the company. The exact financial security of each E&P company that applies for a permit cannot be determined.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT

The proposed rule change will have no effect on competition and employment.
