MEMORANDUM SA 00-38

TO: Fiscal Officers
All ISIS Agencies

FROM: F. Howard Karlton, CPA
Director

SUBJECT: FY 00 Documents Pending on AFS Suspense File

The Office of Statewide Reporting and Accounting Policy (OSRAP) has the responsibility of monitoring ISIS report 2G23 Pending Transactions in Suspense File in Excess of 90 Days to ensure that agencies do not leave unwanted transactions on the suspense file indefinitely. Attached to this memorandum is 2G23 Pending Transactions in Suspense File in Excess of 90 Days for the period ending 5/31/00 for your agency. The transactions listed on this report have been on SUSF in **excess of 90 days** with no action. Agencies may also have other abandoned transactions on SUSF, which are not listed on the report. FY00 regular appropriation related documents will not be automatically removed from SUSF. If there is no report attached to this memo, then your agency has no transactions older than 90 days remaining on SUSF.

After August 14, it will not be possible for agencies to process FY00 regular appropriation documents. Agencies should review all of their FY00 transactions on SUSF, which are in a status of pending, rejected, held, or scheduled. The agency should determine if these transactions should be processed before year-end. If a transaction is no longer necessary, the agency should delete it. If the transaction was overlooked, please take the necessary actions to process the document at this time. The delays in the retrieval and creation of documents caused by the size of SUSF affect all agencies. As SUSF grows larger, these effects will become more pronounced.

OSRAP is aware that some complex documents are left on the suspense file to copy as master documents. We ask that you put all such documents in a "HELD" status as a means of identification and use this feature only for those documents of a complex nature. Do not forget to change the budget fiscal year referenced in the document for regular appropriations that you want to retain in the new fiscal year from '00' to '01'. Also ensure that the document has been modified for any subsequent changes to the agency's structure. You are to remove all transactions that are no longer needed and not in the "HELD" status from the suspense file by 7/28. After 7/28, OSRAP will remove all prior year documents that are not in a HELD status.

There occasionally are one or two documents on SUSF that have "." in the Batch and Document type, agency, and number fields of SUSF. For Example***:

These documents are usually in a REJCT status. The agency can not delete these documents. These documents do not have a header or any lines. The agency must contact the OSIS Help Desk for assistance in having these transactions removed.

This report is available on a monthly basis through BUNDL for agencies to access and will only display the transactions for which you have permissions to view. Please make it part of your agency procedures to check for this report each month.

If you have any questions regarding this memorandum, please contact the OSRAP Help Desk at (225)342-1097.
